Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 9, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 4, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G–7543, G–7546]

SPARTAN GAS CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

APRIL 20, 1955.

Take notice that Spartan Gas Company (Applicant), a West Virginia organization whose address is P. O. Box 766, Charleston, West Virginia, filed on December 2, 1954, applications, as amended and supplemented on March 16, 1955, for certificates of public convenience and necessity and for permission to abandon service, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render and terminate service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant states that it produces natural gas from the Oriskany Field, Jackson County, West Virginia, which it sells to United Fuel Gas Company, at 16 cents per Mcf, for transportation in interstate commerce for resale.

Applicant, on March 16, 1955, filed an amendment to its application in Docket No. G–7546, requesting permission to abandon the service rendered on and after June 7, 1954, and for which authorization is sought in its original application in said Docket. On the same date, Applicant filed an application to partially abandon the service for which authorization is requested in Docket No. G–7543.

Applicant states that, since the date of the original filings, the one well which is the subject of Docket No. G–7546, and one well which is the subject of Docket No. G–7543, have become fully depleted and are now non-productive of natural gas. These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 10, 1955, at 9:50 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 4, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G–8126]

FRANK ZICKAFOOSE

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 20, 1955.

Take notice that Frank Zickafoose (Applicant), with a principal office in Union District, Ritchie County, West Virginia, filed on December 10, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Ritchie County Field, Ritchie County, West Virginia, which is sold in interstate commerce to Carnegie Natural Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 13, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 2, 1955.

[SEAL] LEON M. FUQUAY,
Secretary.

S. N. ELLIOTT

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 20, 1955.

Take notice that S. N. Elliott (Applicant), with a principal office in Mannington, West Virginia, filed an application on December 15, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Marion County, West Virginia, which is sold in interstate commerce to Hope Natural Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 13, 1955, at 9:50 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 2, 1955.

[Docket No. G–8296]

DR. JAN KAROLCIK

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 20, 1955.

Take notice that Dr. Jan Karolcik (Applicant), with a principal office in Pleasants County, West Virginia, filed on December 27, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to produce natural gas from the Morgan Oil Field, Hebron, West Virginia, which will be sold in interstate commerce to Hope Natural Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 9, 1955, at 9:40 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before April 29, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made.

[Docket No. G–8310]

G. B. NORMAN

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 20, 1955.

Take notice that G. B. Norman (Applicant), with a principal office in Washington District, Calhoun County, West Virginia, filed an application on December 15, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Norman-Washington District, Calhoun County, West Virginia, which is sold in interstate commerce to Hope Natural Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 6, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 26, 1955.

[Docket No. G-8434]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 20, 1955.

Take notice that the Ohio Fuel Gas Company (Applicant), an Ohio corporation whose address is 99 Front Street, Columbus 15, Ohio, filed an application on February 4, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate approximately 1.2 miles of 4.5-inch O. D. pipeline in Coal Township, Perry County, Ohio. Applicant represents that the facilities are necessary to enable it to increase deliveries of gas to an industrial customer, Straitsville Brick Company, and to permit increased deliveries of gas to the towns of New Straitsville and Shawnee, Ohio.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 18, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 6, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-924]

INVESTORS DIVERSIFIED SERVICES, INC.

NOTICE OF FILING OF APPLICATION FOR ORDER APPROVING INCENTIVE PAY PLAN

APRIL 20, 1955.

Notice is hereby given that Investors Diversified Services, Inc., of Minneapolis, Minnesota ("IDS"), a face-amount certificate company, registered under the Investment Company Act of 1940, has filed an application pursuant to section 17 (d) of said act and Rule N-17D-1 of the rules and regulations promulgated thereunder for an order of the Commission permitting it to effect an incentive pay plan for the benefit of its district managers, sales representatives and divisional office secretaries who are directly and indirectly offering for sale and selling face-amount certificates and other securities for which applicant is the underwriter, under which proposed payments are to be made on or about October 15, 1955, based on business done during the year 1954. The proposed plan is similar in purpose, terms and conditions to like plans in effect for the year 1953 and previous years.

IDS is also registered with the Commission as a broker under the provisions of the Securities Exchange Act of 1934 and is the underwriter and distributor of securities issued by Investors Syndicate of America, Inc., a registered face-amount certificate company under the act, and of securities issued by Investors Mutual, Inc., Investors Stock Fund, Inc., and Investors Selective Fund, Inc., registered open-end investment companies.

The purpose of the proposed incentive pay plan is to reward the employees of IDS for their ability in obtaining what the applicant refers to as "quality business." For the most part, the plan gives weight to sales made that are not liquidated or delinquent. The performance of individuals is proposed to be measured against the national performance of IDS and incentive payments are proposed to be made to each individual who qualifies under the terms of the plan with respect to period of employment and the sale of a certain minimum amount of securities.

Rule N-17D-1, promulgated under section 17 (d) of the act, provides, among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of a registered investment company or of any company controlled by any such registered company to participate in, or effect any transaction in connection with any bonus, profit-sharing or pension plan in which any such registered or controlled company is a participant unless an application regarding such plan has been granted by the Commission.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than May 9, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

and the Fur Products Labeling Act, and the rules and regulations promulgated under the latter; and upon a stipulation in writing entered into by respondents with counsel supporting the complaint, in which respondents waived the filing of an answer and agreed that a consent order be entered against them in terms identical with those contained in the notice issued and served on respondents as a part of the complaint.

By said stipulation, which was approved in writing by the Director and Assistant Director of the Commission's Bureau of Litigation, respondents admitted all the jurisdictional allegations of the complaint and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations, and the parties expressly waived a hearing before the hearing examiner or the Commission and all further and other procedure to which the respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission; and agreed that the order to cease and desist issued in accordance with said stipulation should have the same force and effect as if made after a full hearing, the parties having waived specifically therein any and all right, power, or privilege to contest the validity of said order.

It was also stipulated and agreed therein that the complaint in the matter might be used in construing the terms of the order provided for in said stipulation, and that the signing of said stipulation was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint, and said Stipulation for Consent Order, as so approved, was submitted to said hearing examiner for his consideration in accordance with Rule V of the Commission's Rules of Practice.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters and in which he found, upon due consideration of the complaint and stipulation, which was accepted and ordered filed as part of the record (it having been stipulated that they should constitute the entire record in the matter on which such order might be entered), that the Commission had jurisdiction of the subject matter of the proceeding, and of each and all of the parties respondent; that the complaint stated a legal cause for complaint under the aforesaid acts and rules and regulations against respondents as a whole and in each of the particulars alleged therein; that the proceeding was in the interest of the public; and that the order as proposed therein was appropriate for the disposition of the proceeding, the same to become final when it became the order of the Commission; and in which he entered the same.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII, became the decision of the Commission on February 18, 1955.

Said order is as follows:

It is ordered, That respondents Lester Slamowitz and Marvin Imberman, as individuals and as copartners trading as Lemar Furs or under any other trade name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, or offering for sale in commerce, or the transportation or distribution in commerce of any fur product; or in connection with the manufacturing for sale, sale, offering for sale, transportation or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

(A) Misbranding and falsely invoicing fur products by:

(1) Failing to affix labels to fur products and failing to furnish invoices to purchasers of fur products, showing:

(a) The name or names of the animal or animals producing the fur contained in the fur product as set forth in the Fur Products Name Guide and as permitted under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is a fact;

(e) The name of the country of origin of any imported furs used in a fur product;

(2) Using on labels attached to fur products and on invoices of fur products, the name of another animal in addition to the name of the animal actually producing the fur contained in the fur product.

(3) Falsely and deceptively, representing on labels and invoices that their fur products are "Natural" when they are in fact tip-dyed.

(B) Misbranding their fur products by:

(1) Falsely or deceptively labeling or otherwise falsely or deceptively identifying said fur products, or using labels affixed to such fur products which contain any form of misrepresentation or deception with respect to such fur products;

(2) Setting out on labels attached to fur products non-required information with required information;

(3) Failing to set forth on required labels attached to fur products the name or other identification issued and registered by the Commission of one or more persons who manufactured such fur products for introduction into commerce, introduced it in commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6233, issued April 6, 1955, which announced fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 6, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

and the Fur Products Labeling Act, and the rules and regulations promulgated under the latter; and upon a stipulation in writing entered into by respondents with counsel supporting the complaint, in which respondents waived the filing of an answer and agreed that a consent order be entered against them in terms identical with those contained in the notice issued and served on respondents as a part of the complaint.

By said stipulation, which was approved in writing by the Director and Assistant Director of the Commission's Bureau of Litigation, respondents admitted all the jurisdictional allegations of the complaint and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations, and the parties expressly waived a hearing before the hearing examiner or the Commission and all further and other procedure to which the respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission; and agreed that the order to cease and desist issued in accordance with said stipulation should have the same force and effect as if made after a full hearing, the parties having waived specifically therein any and all right, power, or privilege to contest the validity of said order.

It was also stipulated and agreed therein that the complaint in the matter might be used in construing the terms of the order provided for in said stipulation, and that the signing of said stipulation was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint, and said Stipulation for Consent Order, as so approved, was submitted to said hearing examiner for his consideration in accordance with Rule V of the Commission's Rules of Practice.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters and in which he found, upon due consideration of the complaint and stipulation, which was accepted and ordered filed as part of the record (it having been stipulated that they should constitute the entire record in the matter on which such order might be entered), that the Commission had jurisdiction of the subject matter of the proceeding, and of each and all of the parties respondent; that the complaint stated a legal cause for complaint under the aforesaid acts and rules and regulations against respondents as a whole and in each of the particulars alleged therein; that the proceeding was in the interest of the public; and that the order as proposed therein was appropriate for the disposition of the proceeding, the same to become final when it became the order of the Commission; and in which he entered the same.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII, became the decision of the Commission on February 18, 1955.

Said order is as follows:

It is ordered, That respondents Lester Slamowitz and Marvin Imberman, as individuals and as copartners trading as Lemar Furs or under any other trade name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, or offering for sale in commerce, or the transportation or distribution in commerce of any fur product; or in connection with the manufacturing for sale, sale, offering for sale, transportation or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

(A) Misbranding and falsely invoicing fur products by:

(1) Failing to affix labels to fur products and failing to furnish invoices to purchasers of fur products, showing:

(a) The name or names of the animal or animals producing the fur contained in the fur product as set forth in the Fur Products Name Guide and as permitted under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is a fact;

(e) The name of the country of origin of any imported furs used in a fur product;

(2) Using on labels attached to fur products and on invoices of fur products, the name of another animal in addition to the name of the animal actually producing the fur contained in the fur product.

(3) Falsely and deceptively, representing on labels and invoices that their fur products are "Natural" when they are in fact tip-dyed.

(B) Misbranding their fur products by:

(1) Falsely or deceptively labeling or otherwise falsely or deceptively identifying said fur products, or using labels affixed to such fur products which contain any form of misrepresentation or deception with respect to such fur products;

(2) Setting out on labels attached to fur products non-required information with required information;

(3) Failing to set forth on required labels attached to fur products the name or other identification issued and registered by the Commission of one or more persons who manufactured such fur products for introduction into commerce, introduced it in commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6233, issued April 6, 1955, which announced fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 6, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 32]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.332 *Valencia Orange Regulation 32*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as

hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on April 21, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., April 24, 1955, and ending at 12:01 a. m., P. s. t., May 1, 1955, is hereby fixed as follows:

(i) District 1: 138,600 boxes;

(ii) District 2: 34,650 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 22, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-3443; Filed, Apr. 26, 1955; 8:55 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter I—Irrigation Projects, Operation and Maintenance

PART 130—OPERATION AND MAINTENANCE CHARGES

COLVILLE INDIAN IRRIGATION PROJECT, WASHINGTON

On March 10, 1955, there was published in the daily issue of the FEDERAL REGISTER notice of intention to amend §§ 130.9 and 130.10 of Title 25, Code of Federal Regulations, dealing with the operation and maintenance charges on assessable lands under the Colville Indian Irrigation Project, and the method of payment thereof. Interested persons were thereby given opportunity to participate in preparing the proposed amendment by submitting their views and data or argument in writing to Don C. Foster, Area Director, within 30 days from the date of publication of the notice. No views, data or arguments were submitted. Sections 130.9 and 130.10 of Title 25, Code of Federal Regulations, are accordingly amended, and shall read as follows:

§ 130.9 *Charges.* The annual operation and maintenance charges are hereby fixed for the lands under the various units in the amounts named in this section, on the Colville Indian Irrigation Project, Washington.

(a) The per acre per annum rates for the following units are: Nespelem Unit $1.75; Little Nespelem Unit $1.75. All patent in fee lands and all Indian trust lands to which water can be delivered for irrigation and on which application for water services is made by the water users and approved by the Superintendent of the Indian Reservation, are subject to the above rates.

(b) The per acre per annum rate for the Monse Pumping Unit is hereby fixed at $5.00 per acre for all patent in fee lands for which there are water right contracts, and for all Indian trust lands to which water can be delivered for irrigation. These charges shall apply regardless of whether water is requested or not.

§ 130.10 *Payment.* (a) The annual charges fixed in § 130.9 shall become due on April 1 of each year, are payable on or before that date, and any assessment remaining unpaid after the due date shall stand as a first lien against the land. Any delinquent charges against land in non-Indian ownership and Indian lands under lease to non-Indians shall be subject to a penalty of one-half of 1 percent per month, or fraction thereof, from the due date until paid.

(b) The delivery of water shall be refused to all tracts of land for which the charges have not been paid when due, except where the lands are in Indian ownership, not under lease to non-Indians, and the Indian owners shall have made the necessary arrangements with the superintendent as hereafter provided. When any Indian owner of land not under lease to a non-Indian is financially unable to pay the operation and maintenance charges on the due date from cash on hand, the superintendent may make the necessary arrangements with such Indian owner as will permit him to perform labor on the irrigation project works, the proceeds derived therefrom to be applied in partial payment of such charges. The superintendent may also make necessary arrangements for such Indian owner to pay the operation and maintenance charges from the proceeds of the crops grown on the land when harvested and marketed within that calendar year, provided written statements to that effect are furnished the superintendent by the Indian owner on or before the due date.

(c) In any instance where the superintendent is convinced that an Indian landowner, whose land is not under lease to a non-Indian, is financially unable to pay his operation and maintenance charges from proceeds of labor performed on the project works, or from the proceeds of the crops being grown on the land, or from any other source, the delivery of water may be continued if a written certificate is issued by the superintendent stating that such Indian is not financially able to pay such charges. In such cases the unpaid charges shall be entered on the accounts and will stand as a first lien against the land until paid but without penalty for delinquency.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

PERRY E. SKARRA,
Acting Area Director.

APRIL 18, 1955.

[F. R. Doc. 55-3396; Filed, Apr. 26, 1955; 8:45 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Rev. of Export Regs., Amdt. 27 [1]]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 379—EXPORT CLEARANCE AND DESTINATION CONTROL

MISCELLANEOUS AMENDMENTS

1. Section 373.40 *Iron and steel* paragraph (b) *Silicon steel materials* is amended in the following particulars:

a. The second sentence of paragraph (b) beginning "The specifications appearing on license applications * * *" is deleted.

b. The remainder of paragraph (b) is unchanged.

This part of the amendment shall become effective as of April 21, 1955.

2. Section 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products* paragraph (d) *Refined copper, copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms* is amended in the following particulars:

Subparagraph (2) *Refined copper, Schedule B No. 641200* of paragraph (d) is amended in the following particulars:

a. The introductory text and subdivision (i) *Certification of foreign origin or commingled origin* are amended respectively to read as follows:

(2) *Refined copper, Schedule B. No. 641200.* License applications to export refined copper in cathodes, billets, ingots, wire bars and other crude forms (including anodes) made from domestic origin materials, or Canadian origin copper scrap or copper-base alloy scrap, will generally be denied. License applications covering the exportations of these refined copper materials made from foreign or commingled domestic and foreign orgin materials, other than Canadian orgin copper scrap or copper-base alloy scrap, shall include the following:

(i) *Certification of foreign origin or commingled origin—(a) Applications from non-producers of refined copper.* Applications from non-producers covering refined copper made from materials, other than Canadian origin copper scrap or copper-base alloy scrap, of foreign or commingled domestic and foreign origin materials shall be accompanied by a letter, addressed to the Bureau of Foreign Commerce from the producer of the refined copper to the effect that (1) the refined copper proposed for export is refined from foreign origin copper other than Canadian-origin copper scrap or copper-base alloy scrap; or (2) that an equivalent amount of foreign origin materials other than Canadian-origin copper scrap or copper-base alloy scrap, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(*b*) *Applications from producers of refined copper.* Applications from producers of refined copper made of foreign or commingled (foreign and domestic) materials other than Canadian-origin copper scrap or copper-base alloy scrap, shall include the following certification:

(I) (we) certify that (I) (we) am (are) the producer(s) of the refined copper covered by this license application and (1) (that this refined copper was produced from foreign origin materials other than Canadian origin copper scrap or copper-base alloy scrap); or (2) (that an equivalent amount of foreign materials other than Canadian origin copper scrap or copper-base alloy scrap has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export).

b. Subdivisions (ii) *Availability for export* and (iii) *Disclosure of foreign consumer* remain unchanged.

c. Subdivision (iv) *Toll or conversion agreements* is amended to read as follows:

(iv) *Toll or conversion agreements.* Applications covering the exportation of refined copper produced in the United States under toll or conversion agreements from Canadian-origin copper scrap or copper-base alloy scrap generally shall be denied. Applications covering the exportation of refined copper produced in the United States under toll or conversion agreements from other foreign-origin materials are not required to include the information specified in the provisions set forth in subdivisions (i), (ii) and (iii) of this subparagraph. In such cases, the applicant shall make the following certification on the license application:

(I) (we) certify that the refined copper described in this license application was produced in the United States under toll or conversion contracts from foreign origin materials other than Canadian-origin copper scrap or copper-base alloy scrap.

This part of the amendment shall become effective as of April 27, 1955.

3. Section 379.4 *Authentication of declaration* paragraph (f) *Forwarding agent* is amended in the following particulars:

Subparagraph (1) *Definition of "forwarding agent"* is amended by the addition of a new subdivision (ii) to read as follows:

(ii) In the event that conditions beyond the control of a carrier, named as exporting carrier on a duly executed Shipper's Export Declaration, prevents the lading of the total cargo covered by the Declaration, such carrier is authorized to prepare and present additional Declarations covering the remainder of the cargo when shipped. The original Declaration shall be amended by the carrier, in accordance with § 379.5 (b), to show the descriptions, quantity and value of the commodities actually carried. Subsequent Declarations by the carrier shall be completed in all details and shall contain the following statement:

These commodities were included, but not shipped, under authenticated Shipper's Export Declaration, No. ------ at ---------
(Port)
on ----------
(Date)

This part of the amendment shall become effective as of April 21, 1955.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

NATHANIEL KNOWLES,
Acting Director, Bureau of Foreign Commerce.

[F. R. Doc. 55-3436; Filed, Apr. 26, 1955; 8:53 a. m.]

[1] Part 1 of this amendment was published in the reprint pages of Current Export Bulletin No. 748, dated April 21, 1955; Part 3 was published in Current Export Bulletin No. 748, dated April 21, 1955.

[7th Gen. Rev. of Export Regs., Amdt. P. L. 17 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
599098	Other nonmetallic mineral products, except precious: Lithium-containing minerals (e. g., amblygonite, and spodumene).	----------	MINL	None----	RO
664598	Nonferrous metallic ores and concentrates, n. e. c. (specify by name) (report radium ore concentrates in 829040): Lithium ores (e. g., lepidolite), and lithium ore concentrates.	Lb------	MINL	None----	RO
839750	Metal salts of organic compounds, except paint and varnish driers (specify by name) (report paint and varnish driers in 843600): Lithium salts of organic compounds----------	Lb------	SALT	None----	RO

This part of the amendment shall become effective as of April 28, 1955.

2. The revised entries set forth below are substituted for entries presently on the Positive List. Where the Positive List contains more than one entry under a Schedule B number, the entry to be superseded is identified by a numerical reference in parentheses following the commodity description in the revised entry:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
664998	Nonferrous metals and alloys in crude form, scrap, and semifabricated forms, n. e. c. (specify by name): Lithium metal and alloys. (5) [2]----------	Lb------	MINL	None	RO
707803	Electronic-type components: Electron tubes (report X-ray tubes in 707505 and 707507): Receiving-type tubes, except non-military versions of the types listed in § 399.2, Int. 13. (Specify by type number.) (Report television picture tubes in 707815.) [1]	No------	RARA 51	50	RO
707820	Cathode-ray tubes, n. e. c. (Specify by type number.) (Report television cathode-ray tubes in 707812 and 707815.) [1]	No------	RARA 51	50	RO
707830	Electron tubes, n. e. c. (Specify by type number.) (1, 2 and 3) [2]	No------	RARA 51	50	RO
707850	Crystal diodes and transistors (semi-conductors), n. e. c.].	No------	RARA 51	50	R

See footnotes at end of table.

[1] This amendment was published in Current Export Bulletin No. 748, dated April 21, 1955.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
	Earth and rock drilling machines, n. e. c., and parts, n. e. c.:				
	Rock drill bits, core drill bits, and reamers (including well drilling machine bits and reamers):				
730870	Roller-type rock drill bits and reamers containing tungsten carbide.[15]	No.	MINE 3	100	RO
730880	Other roller-type rock drill bits and reamers [15]	No.	MINE 3	100	RO
	Power-driven metalworking machine tools (nonportable), and parts:				
	Automatic chucking lathes and between center lathes:				
740305	Automatic profiling and duplicating lathes (report non-automatic profiling and duplicating lathes in 740390).[24]	No.	TOOL	500	RO
740305	Other automatic lathes, multi-spindle [15]	No.	TOOL	500	RO
	Automatic screw (bar) machines:				
740315	Automatic multi-spindle bar machines [15]	No.	TOOL	500	RO

	Accessories and attachments, n. e. c., for machine tools and specially fabricated parts, n. e. c.:				
744383	Other accessories and attachments for use exclusively on types of machine tools included on the Positive List under Schedule B Nos. 740005 through 744319, except bench centers; parallels; vee blocks; tool holders (other than screw machine); miscellaneous centers; drill pads and crotch centers; work driving dogs; tee bolts; clamps; and mandrels. (Specify type and model of machine tool with which accessories and attachments are to be used.) (4) [15]		TOOL 1	500	RO
	Nonelectric industrial furnaces, kilns, lehrs, and ovens, and parts (report electric furnaces, kilns and ovens in 707415-707492):				
775150	Specially fabricated parts, n. e. c., for carbon black furnaces and controlled atmosphere equipment. (1) [4]		MINE 5	1,000	RO
775150	Specially fabricated components and parts, n. e. c., for furnaces suitable for the production of titanium metals. (2) [4]		MINE 5	1,000	RO
839730	Hydrogen peroxide or dioxide, 50 to 85 percent strength inclusive.	Lb.	SALT 64	None	RO
	Other industrial chemicals:				
839900	Lithium salts and compounds (including, but not limited to, lithium amide, lithium carbonate, lithium chloride, lithia crystals, lithium fluorophosphate, lithium fluoride, lithium hydride, lithium hydroxide, lithium hydroxide monohydrate, and lithium sulfate). (10) [15]	Lb.	SALT	10	RO

[1] The GLV dollar-value limit is increased.
[4] The letter "A" is added in the column headed "Commodity Lists", indicating that the commodity is subject to the IC/DV procedure (see § 373.2 of this subchapter), effective June 6, 1955.
[15] The commodity description is revised without substantive change.
[22] The commodity coverage is increased, effective April 28, 1955.
[23] By this amendment the controls are changed from R to RO for diathermy tubes, effective April 28, 1955, and they are made subject to the IC/DV procedure (see § 373.2 of this subchapter), effective June 6, 1955. The GLV dollar-value limit of $50 is applicable immediately to all tubes classified under this Schedule B number.
[24] Previously all profiling and duplicating lathes have been included in the sixth entry under Schedule B No. 740390.
[25] Hydrogen peroxide or dioxide in excess of 85 percent concentration requires export authorization from the Department of State.

This part of the amendment shall become effective as of April 21, 1955, unless otherwise indicated in the footnotes.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in Parts 1 and 2 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., April 28, 1955, may be exported under the previous general license provisions up to and including May 21, 1955. Any such shipment not laden aboard the exporting carrier on or before May 21, 1955, requires a validated license for export.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

NATHANIEL KNOWLES,
Acting Director,
Bureau of Foreign Commerce.

TITLE 26—INTERNAL REVENUE 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter G—Regulations Under Tax Conventions

[T. D. 6130]

PART 506—JAPAN

Release of excess tax withheld, and exemption from, or reduction in rate of, withholding of tax at source in the case of residents of Japan and of Japanese corporations or other entities, as affected by the income tax convention between the United States and Japan signed on April 16, 1954.

Sec.
506.1 Introductory.
506.2 Dividends.
506.3 Interest.
506.4 Patent and copyright royalties and film rentals.
506.5 Release of excess tax withheld at source.
506.6 Information to be furnished in ordinary course.
506.7 Beneficiaries of a domestic estate or trust.
506.8 Sources of income.
506.9 Effective date.

AUTHORITY: §§ 506.1 to 506.9 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 506.1 *Introductory*—(a) *Pertinent provisions.* The income tax convention between the United States and Japan which was signed on April 16, 1954, hereinafter referred to as the convention, provides in part as follows, effective with respect to income or profits derived during taxable years beginning on or after January 1, 1955.

ARTICLE I

(1) The taxes referred to in the present Convention are:

(a) In the case of the United States of America: The Federal income taxes, including surtaxes.

(b) In the case of Japan: The income tax and the corporation tax.

(2) The present Convention shall also apply to any other tax on income or profits which has a character substantially similar to those referred to in paragraph (1) of this Article and which may be imposed by either contracting State after the date of signature of the present Convention.

ARTICLE II

(1) As used in the present Convention:

(a) The term "United States" means the United States of America, and when used in a geographical sense means the States, the Territories of Alaska and Hawaii, and the District of Columbia.

(b) The term "Japan", when used in a geographical sense, means all the territory in which the laws relating to the taxes referred to in paragraph (1) (b) of Article I are enforced.

(c) The term "permanent establishment" means an office, factory, workshop, branch, warehouse or other fixed place of business, but does not include the casual and temporary use of merely storage facilities. It also includes an agency if the agent has and habitually exercises a general authority to negotiate and conclude contracts on behalf of an enterprise or has a stock of merchandise from which he regularly fills orders on its behalf. An enterprise of one of the contracting States shall not be deemed to have a permanent establishment in the other contracting State merely because it carried on business dealings in such other State through a bona fide commission agent, broker, custodian or other independent agent acting in the ordinary course of his business as such. The fact that an enterprise of one of the contracting States maintains in the other contracting State a fixed place of business exclusively for the purchase for such enterprise of goods or merchandise shall not of itself constitute such fixed place of business a permanent establishment of such enterprise. The fact that a corporation of one of the contracting States has a subsidiary corporation which is a corporation of the other contracting State or which is engaged in trade or business in the other contracting State shall not of itself constitute that subsidiary corporation a permanent establishment of its parent corporation.

(d) The term "enterprise of one of the contracting States" means, as the case may be, United States enterprise or Japanese enterprise.

(e) The term "United States enterprise" means an industrial or commercial enterprise or undertaking carried on in the United States by a resident (including an individual, a fiduciary and partnership) of the United States or by a United States corporation or other entity; and the term "United States corporation or other entity" means a corporation or other entity created or organized under the law of the United States or of any State or Territory of the United States.

(f) The term "Japanese enterprise" means an industrial or commercial enterprise or undertaking carried on in Japan by an individual resident in Japan or by a Japanese corporation or other entity; and the term "Japanese corporation or other entity" means a corporation or other association having juridical personality, or a partnership or other association without juridical personality, created or organized under the laws of Japan.

(g) The term "tax" means those taxes referred to in paragraph (1) (a) or (b) of Article I, as the context requires.

(h) The term "competent authorities" means, in the case of the United States, the Commissioner of Internal Revenue as authorized by the Secretary of the Treasury; and, in the case of Japan, the Minister of Finance or his authorized representative.

(i) The term "industrial or commercial profits" includes manufacturing, mercantile, agricultural, fishing, mining, financial and insurance profits, but does not include income in the form of dividends, interest, rents or royalties, or remuneration for personal services.

(2) In the application of the provisions of the present Convention by either contracting State any term not otherwise defined shall, unless the context otherwise requires, have the meaning which such term has under the laws of such State relating to the tax.

* * * * *

ARTICLE VI

The rate of tax imposed by one of the contracting States on interest on bonds, securities, notes, debentures or any other form of indebtedness (including mortgages or bonds secured by real property) received from sources within such State by a resident or corporation or other entity of the other contracting State not having a permanent establishment in the former State shall not exceed 15 percent.

ARTICLE VII

The rate of tax imposed by one of the contracting States on royalties and other amounts received as consideration for the right to use copyrights, artistic and scientific works, patents, designs, secret processes and formulae, trade-marks and other like property (including in such royalties and other amounts, rentals and like payments in respect of motion-picture films or for the use of industrial, commercial, or scientific equipment) from sources within such State by a resident or corporation or other entity of the other contracting State not having a permanent establishment in the former State shall not exceed 15 percent.

ARTICLE VIII

A resident or corporation or other entity of one of the contracting States deriving

(a) Income from real property (including gains derived from the sale or exchange of such property, but not including interest from mortgages or bonds secured by real property), or

(b) Royalties in respect of the operation of mines, quarries or other natural resources situated within the other contracting State may elect, for any taxable year, to be subject to the tax of such other State on a net basis as if such resident or corporation or other entity had a permanent establishment in such other State during such taxable year.

* * * * *

ARTICLE XIII

For the purpose of the present Convention:

(a) Dividends paid by a corporation of one of the contracting States shall be treated as income from sources within such State.

(b) Interest paid by one of the contracting States including local Government

thereof or by an enterprise of one of the contracting States not having a permanent establishment in the other contracting State shall be treated as income from sources within the former State.

* * * * *

(e) Income from real property (including gains derived from the sale or exchange of such property, but not including interest from mortgages or bonds secured by real property) and royalties in respect of the operation of mines, quarries, or other natural resources shall be treated as income derived from the country in which such real property, mines, quarries or other natural resources are situated.

* * * * *

(g) Royalties for using, or for the right to use, in one of the contracting States, patents, copyrights, designs, trademarks and like property shall be treated as income from sources within such State.

* * * * *

ARTICLE XV

(1) Organizations organized under the laws of Japan and operated exclusively for religious, charitable, scientific, literary or educational purposes shall, to the extent and subject to conditions provided in the United States Internal Revenue Code, be exempt from the tax of the United States.

* * * * *

ARTICLE XVII

(1) The competent authorities of both contracting States shall exchange such information available under the respective tax laws of both contracting States as is necessary for carrying out the provisions of the present Convention or for the prevention of fraud or for the administration of statutory provisions against tax avoidance in relation to the tax. Any information so exchanged shall be treated as secret and shall not be disclosed to any person other than those, including a court, concerned with the assessment and collection of the tax or the determination of appeals in relation thereto. No information shall be exchanged which would disclose any trade, business, industrial or professional secret or any trade process.

* * * * *

ARTICLE XIX

(1) The provisions of the present Convention shall not be construed to deny or affect in any manner the right of diplomatic and consular officers to other or additional exemptions now enjoyed or which may hereafter be granted to such officers.

(2) The provisions of the present Convention shall not be construed to restrict in any manner any exemption, deduction, credit or other allowance now or hereafter accorded by the laws of one of the contracting States in determining the tax of such State.

(3) Should any difficulty or doubt arise as to the interpretation or application of the present Convention, or its relationship to Conventions between one of the contracting States and any other State, the competent authorities of the contracting States may settle the question by mutual agreement; it being understood, however, that this provision shall not be construed to preclude the contracting States from settling by negotiation any dispute arising under the present Convention.

(4) The competent authorities of both contracting States may prescribe regulations necessary to interpret and carry out the provisions of the present Convention and may communicate with each other directly for the purpose of giving effect to the provisions of the present Convention.

ARTICLE XX

(1) The present Convention shall be ratified and the instruments of ratification shall be exchanged at Tokyo as soon as possible.

(2) The present Convention shall enter into force on the date of exchange of instruments of ratification and shall be applicable to income or profits derived during the taxable years beginning on or after the first day of January of the calendar year in which such exchange takes place.

(3) Either of the contracting States may terminate the present Convention at any time after a period of five years shall have expired from the date on which the present Convention enters into force, by giving to the other contracting State notice of termination, provided that such notice is given on or before the 30th day of June and, in such event, the present Convention shall cease to be effective for the taxable years begininng on or after the first day of January of the calendar year next following that in which such notice is given.

* * * * *

(b) *Meaning of terms.* As used in this part, any term defined in the convention shall have the meaning so assigned to it; any term not so defined shall, unless the context otherwise requires, have the meaning which such term has under the internal revenue laws.

§ 506.2 *Dividends.* Dividends paid by a Japanese corporation shall, in accordance with Article XIII (a) of the convention, be treated as income from sources within Japan. Dividends paid by such a corporation, and derived in taxable years beginning on or after January 1, 1955, by a nonresident alien individual or a foreign corporation are, therefore, exempt from United States tax and are not subject to the withholding of United States tax at source, since the gross income of such persons includes only the gross income from sources within the United States.

§ 506.3 *Interest*—(a) *Exempt from tax.* Interest paid by a Japanese enterprise not having a permanent establishment in the United States at any time during its taxable year shall, in accordance with Article XIII (b) of the convention, be treated as income from sources within Japan. Interest paid by such an enterprise, and derived in taxable years beginning on or after January 1, 1955, by a nonresident alien individual or a foreign corporation is, therefore, exempt from United States tax and is not subject to the withholding of United States tax at source, since the gross income of such persons includes only the gross income from sources within the United States.

(b) *Reduced rate.* The rate of United States tax imposed upon interest (other than interest falling within the scope of paragraph (a) of this section) on bonds, securities, notes, debentures, or on any other form of indebtedness, including interest on obligations of the United States, obligations of instrumentalities of the United States, and mortgages and bonds secured by real property, which is received from sources within the United States in taxable years beginning on or after January 1, 1955, by a nonresident alien individual who is a resident of Japan, or by a Japanese corporation or other entity, shall not exceed 15 percent under the provisions of Article VI of the convention if such alien, corporation, or other entity at no time during the taxable year in which such

interest is received has a permanent establishment in the United States.

(c) *Trade or business.* If, in the case of interest described in paragraph (b) of this section, a nonresident alien individual who is a resident of Japan performs personal services within the United States during the taxable year, but has at no time during such year a permanent establishment in the United States, he is entitled to the reduced rate of tax with respect to interest received in that year from United States sources, as provided in Article VI of the convention, even though under the provisions of section 871 (c) of the Internal Revenue Code of 1954 he has engaged in trade or business within the United States during such year by reason of his having performed personal services therein.

(d) *Reduction in rate of withholding at source*—(1) *Coupon bond interest*—(i) *Form to use.* To secure withholding of United States tax at the rate of 15 percent at source in the case of coupon bond interest to which paragraph (b) of this section applies, the nonresident alien individual who is a resident of Japan, or the Japanese corporation or other entity, shall, for each issue of bonds, file Form 1001–J in duplicate when presenting the interest coupons for payment. This form shall be signed by the owner of the interest, trustee, or agent and shall show the name and address of the obligor, the name and address of the owner of the interest, a description of the obligations, the amount of interest and its due date, and the date upon which the interest coupons were presented for payment. It shall contain a statement that the owner (*a*) is a resident of Japan, or is a Japanese corporation or other entity, and (*b*) has no permanent establishment in the United States.

(ii) *Reduction applicable only to owner.* The reduction in the rate of United States tax contemplated by Article VI of the convention, insofar as it concerns coupon bond interest, is applicable only to the owner of the interest. The person presenting the coupon, or on whose behalf it is presented, shall, for the purpose of the reduction in tax, be deemed to be the owner of the interest only if he is, at the time the coupon is presented for payment, the owner of the bond from which the coupon has been detached. If the person presenting the coupon, or on whose behalf it is presented, is not the owner of the bond, Form 1001, and not Form 1001–J, shall be executed.

(iii) *Disposition of form.* The original and duplicate of Form 1001–J shall be forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Alien Returns Section, Baltimore 2, Maryland, with the quarterly return on Form 1012. Form 1001–J shall be listed on Form 1012.

(2) *Interest not payable by coupons*—(i) *Form to use.* To secure withholding of United States tax at the rate of 15 percent at source in the case of interest (other than coupon bond interest) to which paragraph (b) of this section applies, the nonresident alien individual who is a resident of Japan, or the Japanese corporation or other entity, shall file Form 1001A–J in duplicate with the withholding agent in the United States. This form shall be signed by the owner of the interest, trustee, or agent and shall show the name and address of the obligor and the name and address of the owner of the interest. It shall contain a statement that the owner (*a*) is a resident of Japan, or is a Japanese corporation or other entity, and (*b*) has no permanent establishment in the United States.

(ii) *Manner of filing.* Form 1001A–J shall be filed with the withholding agent for each successive three-calendar-year period during which such interest is paid. For this purpose, the first such period shall commence with the beginning of the calendar year in which such income is first paid on or after January 1, 1955. Each such form filed with any withholding agent shall be filed not later than 20 days preceding the date of the first payment within each successive period, or, if that is not possible because of special circumstances, as soon as possible after such first payment. Once such a form has been filed in respect of any three-calendar-year period, no additional Form 1001A–J need be filed in respect thereto unless the Commissioner of Internal Revenue notifies the withholding agent that another such form shall be filed by the taxpayer. If, after filing such form, the taxpayer ceases to be eligible for the reduced rate of United States tax granted by Article VI of the convention in respect to such interest, he shall promptly notify the withholding agent by letter in duplicate. When any change occurs in the ownership of the interest as recorded on the books of the payer, the reduction in rate of withholding of United States tax shall no longer apply unless the new owner of record is entitled to and does properly file a Form 1001A–J with the withholding agent.

(iii) *Disposition of form.* The duplicate of each Form 1001A–J (and letter) shall be immediately forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Alien Returns Section, Baltimore 2, Maryland.

§ 506.4 *Patent and copyright royalties and film rentals*—(a) *Reduced rate.* Under Article VII of the convention, the rate of United States tax imposed upon royalties and other amounts received from sources within the United States in taxable years beginning on or after January 1, 1955, by a nonresident alien individual who is a resident of Japan, or by a Japanese corporation or other entity, as consideration for the right to use copyrights, artistic and scientific works, patents, designs, secret processes and formulae, trade-marks, and other like property, shall not exceed 15 percent if such alien, corporation, or other entity at no time during the taxable year in which such items are received has a permanent establishment in the United States.

(b) *Film rentals.* The provisions of this section shall apply to rentals and like payments in respect of motion picture films or for the use of industrial, commercial, or scientific equipment.

(c) *Reduction in rate of withholding at source*—(1) *Form to use.* To secure withholding of United States tax at the rate of 15 percent at source in the case of the items of income to which this section applies, the nonresident alien individual who is a resident of Japan, or the Japanese corporation or other entity, shall file Form 1001A–J in duplicate with the withholding agent in the United States.

(2) *Manner of filing.* The provisions of § 506.3 (d) (2) relating to the execution, filing, effective period, and disposal of Form 1001A–J are equally applicable with respect to the income falling within the scope of this section.

§ 506.5 *Release of excess tax withheld at source*—(a) *Amounts to be released*—(1) *Interest and royalties.* In the case of every taxpayer whose address at the time of payment was in Japan and who furnishes to the withholding agent Form 1001A–J in accordance with §§ 506.3 (d) (2) and 506.4 (c)), if United States tax at the statutory rate has been withheld on or after January 1, 1955, from the interest, and royalties and other like amounts, in respect of which such form is prescribed, the withholding agent shall release and pay over to the person from whom the tax was withheld an amount which is equal to the difference between the tax so withheld and the tax required to be withheld pursuant to such sections.

(2) *Coupon bond interest*—(i) *Substitute form.* In the case of every taxpayer whose address at the time of payment was in Japan and who furnishes to the withholding agent Form 1001–J clearly marked "Substitute" and executed in accordance with § 506.3 (d) (1), if United States tax at the statutory rate has been withheld from coupon bond interest on or after January 1, 1955, the withholding agent shall release and pay over to the person from whom the tax was withheld an amount which is equal to the difference between the tax so withheld and the tax required to be withheld pursuant to such section. One such substitute form shall be filed in duplicate with respect to each issue of bonds and will serve with respect to that issue to replace all Forms 1001 previously filed by the taxpayer in the calendar year in which the excess tax was withheld and with respect to which such excess is released.

(ii) *Disposition of form.* The original and duplicate of substitute Form 1001–J shall be forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Alien Returns Section, Baltimore 2, Maryland, with the quarterly return on Form 1012. Substitute Form 1001–J shall be listed on Form 1012.

(3) *Dividends derived from Japanese corporation.* If United States tax at the statutory rate has been withheld on or after January 1, 1955, from dividends paid to a nonresident alien individual or a foreign corporation by a Japanese corporation, the withholding agent shall release and pay over to the person from whom the tax was withheld an amount which is equal to the tax so withheld.

(4) *Interest paid by Japanese enterprise.* If United States tax at the statutory rate has been withheld on or after January 1, 1955, from interest paid to a nonresident alien individual or a foreign corporation by a Japanese enterprise not having a permanent establishment in the United States at any time during its taxable year, the withholding agent shall release and pay over to the person from whom the tax was withheld an amount which is equal to the tax so withheld.

(b) *Amounts not to be released.* The provisions of this section shall have no application to excess tax withheld at source which has been paid by the withholding agent to the district director of internal revenue.

§ 506.6 *Information to be furnished in ordinary course*—(a) *Documents to Japan.* In compliance with the provisions of Article XVII of the convention the Commissioner of Internal Revenue will transmit to the Minister of Finance of Japan, as soon as practicable after the close of the calendar year 1955 and of each subsequent calendar year during which the convention is in effect, the following information relating to such preceding calendar year:

(1) The duplicate copy of each available Form 1042 Supplement filed pursuant to paragraph (b) of this section; and

(2) The duplicate copy of each available ownership certificate, Form 1001–J, filed pursuant to § 506.3 (d) (1), and substitute Form 1001–J, filed pursuant to § 506.5 (a) (2), in connection with coupon bond interest.

(b) *Information return by withholding agent*—(1) *Form to use.* To facilitate compliance with Article XVII of the convention, every United States withholding agent shall make and file in duplicate with the District Director of Internal Revenue, Baltimore 2, Maryland, an information return on Form 1042 Supplement, with respect to persons having addresses in Japan, which shall be filed for the calendar year 1955 and subsequent calendar years. This return shall be filed simultaneously with Form 1042.

(2) *Information to be given.* There shall be reported on such Form 1042 Supplement all items of fixed or determinable annual or periodical income (and amounts described in section 402 (a) (2), section 631 (b) and (c), and section 1235 of the Internal Revenue Code of 1954, which are considered to be gains from the sale or exchange of capital assets) derived from sources within the United States and paid to nonresident aliens (including nonresident alien individuals, fiduciaries, and partnerships) and to nonresident foreign corporations, whose addresses at the time of payment were in Japan, including such items of income upon which, in accordance with this Treasury decision, no withholding of United States tax is required; except that any of such items which constitute interest in respect of which Form 1001–J or substitute Form 1001–J has been filed in duplicate with the withholding agent is not required to be reported on such Form 1042 Supplement.

§ 506.7 *Beneficiaries of a domestic estate or trust.* If he otherwise satisfies the requirements of the respective articles concerned, a nonresident alien individual who is a resident of Japan and who is a beneficiary of a domestic estate or trust shall be entitled to the exemption from, or reduction in rate of, United States tax granted by Articles VI, VII, and XIII of the convention with respect to dividends, interest, and patent royalties and other like amounts, to the extent such item or items are included in that portion of the income of such estate or trust which, without regard to the convention, would be includible in his gross income. In order to be entitled in such instance to the exemption from, or reduction in rate of, withholding of United States tax such beneficiary must otherwise satisfy such requirements and shall, where applicable, execute and submit to the fiduciary of such estate or trust in the United States the Form 1001A–J prescribed in §§ 506.3 (d) (2) and 506.4 (c).

§ 506.8 *Sources of income.* For determining the sources of income for purposes of this Treasury decision, see sections 861 to 864, inclusive, of the Internal Revenue Code of 1954 and Article XIII of the convention.

§ 506.9 *Effective date*—(a) *General.* In order to give the convention effective application at the earliest practicable date, the exemptions from, and reductions in the rate of, withholding of United States tax at source granted by this Treasury decision are hereby made effective beginning January 1, 1955, contingent upon compliance with the applicable provisions hereof.

(b) *Fiscal years.* Since the convention is effective with respect to income or profits derived during taxable years beginning on or after January 1, 1955, the fact that the exemption from, or reduction in the rate of, withholding of United States tax at source granted by this Treasury decision is made effective beginning January 1, 1955, in respect of the item of income concerned is not a determination in itself that such item of income is entitled to the benefit of the exemption from, or reduced rate of, United States tax granted by the convention.

Because it is necessary to bring into effect at the earliest practicable date the rules of this Treasury decision respecting release of excess tax withheld, and exemption from, or reduction in the rate of, withholding of tax, it is hereby found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: April 22, 1955.

M. B. FOLSOM,
Acting Secretary of the Treasury.

[F. R. Doc. 55-3424; Filed, Apr. 26, 1955; 8:51 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 3.1, paragraph (l) (1) (iii) (*a*) and (*b*), and (q) is amended and the headnote and subparagraph (2) (i) and (ii) of paragraph (n) are amended to read as follows:

§ 3.1 *Persons included in the acts in addition to commissioned officers and enlisted men.* * * *

(l) *Reserve Officers and members of the Enlisted Reserves; members of the National Guard of the United States and the Federally recognized National Guard of the several States, Territories and the District of Columbia*—(1) *Reserve service.* * * *

(iii) * * *

(*a*) Who were called or ordered into active military or naval service for a period in excess of 30 days who suffer disability or death from disease while so employed, or

(*b*) Who were called or ordered into active military or naval service, or to perform active duty for training, or inactive duty training, for any period of time and suffer disability or death from injury (disease is not regarded as an injury) while so employed are considered to have been in active service during such period for the purposes of sections 1 and 2, Public Law 108, 81st Congress.

NOTE: For training duty, active or inactive, under the laws cited in subparagraph (1) (i), (ii), and (iii) of this paragraph to constitute "active service" for the payment of disability or death compensation or pension, the members of the reserves must have suffered a disability (disease or injury) or death while so employed.

* * * * * * *

(n) *Under Public Law 2, 73d Congress, Public Law 300, 78th Congress, and Public Law 463, 83d Congress.* * * *

(2) (i) Any person who on or after August 27, 1940, and prior to January 1, 1947, or on or after June 27, 1950, and prior to February 1, 1955 applied for enlistment or enrollment in the active military or naval forces and who was provisionally accepted and directed or ordered to report to a place for final acceptance into such military or naval service, or who was selected for service and after reporting pursuant to the call of his local board and prior to rejection, or who after being called in the Federal service as a member of the National Guard but before being enrolled for the Federal service, or who after being called into active service as a member of the Reserve but prior to reporting at camp for such service, suffered an injury or a disease in line of duty and not the result of his own willful misconduct, is included: *Provided,* That payments of compensation as to persons within the first delimiting dates shall not be effective prior to May 11, 1944, and as to persons within the second delimiting dates shall not be effective prior to June 30, 1954.

(ii) The provisions of Public Laws 300, 78th Congress, and 463, 83d Congress,

attach whenever a person is acting pursuant to an order of his draft board, including an order to report to the board for a preinduction examination. The protection covers any injury or disease which was acquired during time spent away from home or enroute home in connection with such order and as a result thereof. An injury or disease which was suffered on the trip when reporting for active duty or final induction is covered. The injury or disease to be compensable must be attributable to some cause or factor relating to his activity in connection with complying with proper orders. These provisions do not extend to such persons as to disease or injury suffered during the period of inactive duty or period of waiting after passing final physical examination and prior to beginning the trip to report for induction. Such protection also applies to a member of the National Guard after he reports to a designated rendezvous pursuant to proper call.

* * * * *

(q) *Commissioned officers and enlisted personnel of the Women's Army Auxiliary Corps and of the Women's Army Corps.* A former member of the WAAC who (1) served for at least 90 days in such corps and (2) who prior to October 1, 1943, was honorably discharged for disability incurred in line of duty, (3) which rendered her unfit to perform further service in the WAAC or WAC is deemed to have been in the active military service during the period of service in the WAAC for the purposes of the laws administered by the Veterans' Administration and is entitled to benefits on a parity with a former member of the Armed Forces. However, no payments may be made for any period prior to August 24, 1954, nor prior to receipt of a claim for compensation or pension. (An honorable discharge for disability will be accepted as proof of the existence of requirement subparagraph (3) of this paragraph.) (Public Law 650, 83d Congress). On and after July 1, 1943, commissioned officers and enlisted personnel of the Women's Army Corps, from the date of commission or enlistment, shall be entitled to the same rights, privileges, and benefits as members of the Officers' Reserve Corps or enlisted men of the United States Army, respectively (Public Law 110, 78th Congress)

(Sec. 1, 46 Stat. 847, sec. 4, 48 Stat. 9, 50 Stat. 305, sec. 304, 52 Stat. 1181, as amended, 53 Stat. 813, sec. 4, 54 Stat. 864, as amended, sec. 1, 211, 55 Stat. 598, 12, 56 Stat. 730, as amended, 1072, sec. 2, 56 Stat. 1038, sec. 3, 10, 57 Stat. 371, 556, sec. 1, 2, 58 Stat. 324, sec. 2, 3, 212, 58 Stat. 599, 689, 60 Stat. 223, Vet. Reg. 1 (a), as amended, Vet. Reg. 10, as amended, 65 Stat. 40, 68 Stat. 360, 789; 5 U. S. C. 133s, note, 10 U. S. C. 336, 81 note, 14 U. S. C. 311, 33 U. S. C. 855a, 34 U. S. C. 855c, 855c–1, 857a, 38 U. S. C. 238, 238c–e, 704, 730, 745, ch. 12 note, 42 U. S. C. 213, 50 U. S. C. App. 1553, 1591, 1592, E. O. 8929, 6 F. R. 5581, 3 CFR 1943 Cum. Supp.; E. O. 9575, 10 F. R. 7895, E. O. 9666, 11 F. R. 1, 3 CFR 1945 Supp.; E. O. 10349, 17 F. R. 3769; E. O. 10356, 17 F. R. 4967, E. O. 10362, 17 F. R. 5413, E. O. 10367, 17 F. R. 5929, 3 CFR 1952 Supp.)

2. The text of § 3.170 is designated paragraph (a) and a new paragraph (b) is added as follows:

§ 3.170 *Continuance of total disability ratings:* * * *

(b) Public Law 311, 83d Congress, applicable to both wartime and peacetime service, prohibits the reduction or discontinuance of total or permanent total ratings which have been continuously in effect for 20 years or more for any reason except fraud. For the protection to attach, the rating must have been in effect on March 17, 1954, unless it is established that the reduction or discontinuance prior thereto was in error and that permanent and total disability actually continued to exist on such date. The 20-year period begins to toll from the date of the rating and not the effective date of the total rating nor the date from which the evidence shows total disability to have had its inception. The law protects the rating and does not prohibit adjustment of awards not affecting the rating, as for example, because of dependents, or under § 3.255 (a) and (b), or income in excess of the statutory limitation. (68 Stat. 29)

3. In § 3.228, paragraph (c) (6) is amended to read as follows:

§ 3.228 *Computation of annual income for the purposes of Part III, Veterans Regulation 1 (a) (38 U. S. C. ch. 12), or section 1 (c) of Public Law 198, 76th Congress (act of July 19, 1939), as amended by section 11, Public Law 144, 78th Congress, and Public Law 357, 82d Congress.* * * *

(c) *Income included in computation.* * * *

(6) Civil Service retirement benefits, Federal Old Age and Survivors' Insurance, railroad retirement benefits, or retirement benefits paid under a State, municipal, or private business or industrial plan: *Provided,* That where the benefit is received by a former worker based on his own employment, no part of such payments will be considered "annual income" until the full amount of his personal contribution (as distinguished from amounts contributed by the employer and not by the worker) has been received by him: *And provided further,* That such benefits received by a widow on the basis of her husband's employment will be considered as annual income as received. This subparagraph contemplates that the entire amount of the worker's annuity following retirement will be applied each year to amortize the cost of such annuity, after which the entire annuity will be considered as income. However, any person entitled to annuity from the Civil Service Retirement and Disability Fund, annuity or pension from the Railroad Retirement Board or relief or retirement compensation from the District of Columbia under the act of September 1, 1916, as amended, may decline to accept all or any part of such annuity, pension, relief or retirement compensation by a waiver signed and filed with the commission, Railroad Retirement Board or the Commissioners of the District of Columbia. Such waiver may be revoked in writing at any time, but no payment of the annuity waived shall be made covering the period during which such waiver was in effect (sec. 3, Public Law 555, 82d Congress, sec. 15, Public Law 746, 83d Congress, and Public Law 749, 83d Congress, respectively).

* * * * *

4. In § 3.235, paragraph (b) is amended to read as follows:

§ 3.235 *Statutory awards, section 202, World War Veterans' Act, 1924, as amended, as reenacted by Public Law 141, 73d Congress.* * * *

(b) Under section 202 (5), an allowance not exceeding $70 per month for a nurse or attendant.

* * * * *

(Sec. 202, 43 Stat. 618, as amended, sec. 20, 48 Stat. 309, as amended, sec. 27, 48 Stat. 524, sec. 2, 60 Stat. 910, 66 Stat. 296, 68 Stat. 915; 38 U. S. C. 471a, 471a–3, 473, 478, 480, 722)

5. Sections 3.236 and 3.237 are revised to read as follows:

§ 3.236 *Special monthly compensation specified by or fixed pursuant to paragraph II, Parts I and II, Veterans Regulation 1 (a), (38 U. S. C. ch. 12A) as amended by Public Laws 182, 659, and 662, 79th Congress, Public Law 427, 82d Congress, and Public Law 695, 83d Congress—(a) Special monthly compensation provided by paragraph II (k), Part I, or the corresponding peacetime rate provided by paragraph II, Part II.* The special monthly compensation provided by paragraph II (k), Part I, or the corresponding peacetime rate is applicable but once in any one case, when payable in addition to the compensation provided in paragraph II (a) to (j), Part I, or the corresponding peacetime rate. In other words, if the veteran has suffered the anatomical loss of one eye and one hand, his monthly compensation under Public Law 2, 73d Congress, as amended, will be increased by $47 and not by $94 or by $37.60 and not by $75.20, if the disabilities were incurred in wartime service or peacetime service, respectively. The additional allowance may be based upon an anatomical loss or loss of use included in the requirements for the basic rate. The additional allowances under paragraph II (k), Part I, or the corresponding peacetime rate are now payable in addition to compensation payable under paragraph II (l) to (n), Part I, or the corresponding peacetime rate, and such additional allowance is payable for each anatomical loss, loss of use, or blindness of one eye having only light perception, when existing in addition to the requirements for these basic rates, provided the total does not exceed $420 in Part I cases, independent of additional compensation for dependents provided by section 1, Public Law 877, 80th Congress, as amended, or $336 in Part II cases, independent of additional compensation for dependents provided by section 2, Public Law 877, 80th Congress, as amended. For example, a war veteran who has suffered the loss of use of both hands, one foot, and one eye (light perception only) will be compensated at $279 plus two allowances of $47 each or $373 under the second part of paragraph II (k), Part I.

(b) *Helplessness.* (1) The maximum rate, as a result of including helplessness as one of the entitling multiple disabilities, is intended to cover, in addition to obvious losses and blindness, conditions such as transverse myelitis with loss of use of both legs and loss of anal and bladder sphincter control; also the loss of use of two extremities with absolute deafness and nearly total blindness or with severe multiple injuries producing total disability outside the useless extremities, these conditions being construed as loss of use of two extremities and helplessness.

(2) The rate of $329 provided under paragraph II (m), Part I, on account of helplessness requiring regular aid and attendance applies only in cases entitled on account of blindness of both eyes. A veteran having suffered the loss, or loss of use, of both hands, feet, or one hand and one foot, and having no other compensable disability will be rated according to the level of amputation or loss of use. Entitlement to a higher rate on account of helplessness requiring regular aid and attendance must be based on such need resulting from pathology other than the anatomical loss or loss of use of two extremities. When so based, i. e., upon pathology other than the anatomical loss or loss of use of two extremities, the rate will uniformly be $420 (or $336) monthly.

(c) *Intermediate rates fixed pursuant to law.* The authority contained in paragraph II (p), Part I, or the corresponding peacetime rate to allow the next higher rate or an intermediate rate will be administered as follows:

(1) With the anatomical loss, or loss of use, of one hand or one foot, and anatomical loss, or loss of use, of another extremity at a level or with complications preventing natural elbow or knee action with prosthesis in place, the rate will be $305 (or $244), and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be $322 (or $263), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $350 (or $280).

(2) With the anatomical loss, or loss of use, of one extremity at a level or with complications preventing natural elbow or knee action with prosthesis in place, and the anatomical loss of another extremity so near the shoulder or hip as to prevent the use of a prosthetic appliance, the rate will be $350 (or $280), and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be $371 (or $297), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $396 (or $317).

(3) With the anatomical loss, or loss of use, of one hand or one foot, and the anatomical loss of another extremity so near the shoulder or hip as to prevent the use of a prosthetic appliance, the rate will be $329 (or $263), and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding independently ratable at 50 percent or more, the rate will be $350 (or $280), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $371 (or $297).

(4) With the requirements for any of the rates provided in paragraph II (l) to (n), inclusive, Part I, or the corresponding peacetime rate, and additional disability (single permanent disabilities or combinations of permanent disabilities with the unusual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be intermediate, i. e., $305 per month, if the basic rate is $279, $350 per month, if the basic rate is $329, or $396 per month, if the basic rate is $371, or the corresponding peacetime rate. Since this subparagraph contemplates that such additional disability be permanent in character, the graduated ratings for arrested tuberculosis as provided under extensions 6 and 6–A, 1945 Schedule for Rating Disabilities, will not be utilized in determining entitlement to such special monthly compensation.

(5) With the requirements for any of the rates provided in paragraph II (l) to (n), inclusive, Part I, or the corresponding peacetime rate, and additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be the next higher rate authorized in paragraph II (m) to (o), Part I, or the corresponding peacetime rate. Since this subparagraph contemplates that such additional disability be permanent in character, the graduated ratings for arrested tuberculosis as provided under extensions 6 and 6–A, 1945 Schedule for Rating Disabilities, will not be utilized in determining entitlement to such special monthly compensation.

(6) Other cases in which any of the rates are deemed inadequate will be handled in accordance with § 3.142.

(d) *Ratings for specific conditions—(1) Rating of binocular blindness of different degrees.* (i) With blindness of one eye with 5/200 visual acuity or less and blindness of the other eye having only light perception, the rate will be $305 (or $244), and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be $329 (or $263), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $371 (or $297).

(ii) With blindness of one eye having only light perception and anatomical loss, or blindness, having no light perception accompanied by phthisis bulbi, evisceration, or other obvious deformity or disfigurement, of the other eye, the rate will be $350 (or $280), and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be $371 (or $297), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $396 (or $317).

(iii) With blindness of one eye having 5/200 visual acuity or less and anatomical loss, or blindness, having no light perception accompanied by phthisis bulbi, evisceration, or other obvious deformity or disfigurement, of the other eye, the rate will be $329 (or $263), and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be $350 (or $280), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $396 (or $317).

(2) *Rating of blindness of both eyes having no light perception.* The rate under paragraph II (n), Part I, or the corresponding peacetime rate, $371 (or $297) per month, will be assigned when there is a total blindness of both eyes having no light perception accompanied by phthisis bulbi, evisceration, or other obvious deformity or disfigurement, and with additional disability (single permanent disabilities or combinations of permanent disabilities with the usual prohibition against pyramiding) independently ratable at 50 percent or more, the rate will be $396 (or $317), or with additional disability (single disabilities of permanent nature) independently ratable apart from any consideration of individual unemployability, at 100 percent, the rate will be $420 (or $336).

(3) *Entitlement under paragraph II (o), Part I, or the corresponding peacetime rate.* Entitlement to the maximum rate of $420 (or $336) per month on account of entitlement to two of the rates provided in one or more of subparagraphs (l) to (n), inclusive, paragraph II, Part I, or the corresponding peacetime rate, must be based upon separate and distinct disabilities so entitling.

If the loss, or loss of use, of two extremities or being permanently bedridden renders the person helpless, increase to $420 (or $336) per month is not in order on account of this helplessness. Under no circumstances will the combination of "being permanently bedridden" and "being so helpless as to require regular aid and attendance" without separate and distinct anatomical loss, or loss of use, of two extremities, or blindness, be taken as entitling to $420 (or $336) per month. The fact, however, that two separate and distinct entitling disabilities, such as anatomical loss, or loss of use, of both hands and of both feet, result from a common etiological

agent, for example, one injury or rheumatoid arthritis, will not preclude entitlement to the maximum rate.

(Par. II, Parts I and II, Vet. Reg. 1 (a), as amended, sec. 2, 60 Stat. 910, 66 Stat. 296, 68 Stat. 915; 38 U. S. C. 471a–3, ch. 12A)

§ 3.237 *Additional allowance or increased compensation or pension for nurse and attendant and adjustment of awards during institutionalization*—(a) *General.* If and while a veteran is so helpless on account of a service-connected compensable condition or non-service-connected condition as to be in need of a nurse or attendant or regular aid and attendance (see §§ 3.176, 3.177, and 3.178), there will be allowed in addition to the compensation payable under title III, Public Law 141, 73d Congress, as amended, the sum of $70 per month or an increased statutory rate under Public Law 2, 73d Congress, as amended, or under Public Law 149, 82d Congress, as amended.

(b) *Reductions during hospitalization.* Where a veteran in receipt of additional or increased compensation or pension based upon the need for a nurse or attendant, or regular aid and attendance, other than on account of transverse myelitis or paraplegia involving paralysis of both lower extremities together with loss of anal and bladder sphincter control, or on account of Hansen's disease, is being furnished hospital treatment, institutional or domiciliary care by the Veterans' Administration and is being furnished with nursing or attendant's service, the award of compensation or pension will be the amount authorized by the rating decision exclusive of any additional or increased amount on account of the need for a nurse or attendant, or regular aid and attendance. In the expected cases a uniform rate of $420 ($336 or $135.45) per month will be maintained, without deduction on account of being furnished aid and attendance in kind. Due to the different additional amounts to which veterans may be entitled under Public Law 182, 79th Congress, as amended, on account of helplessness requiring regular aid and attendance, and consequent different amounts of reductions when being furnished regular aid and attendance in kind, when institutionalized by the Veterans' Administration, it is necessary to give careful attention to the exact basis of entitlement:

(1) The general rule as to reductions of special monthly compensation of $279 (or $223) per month or more or pension of $135.45 monthly based upon the need for regular aid and attendance when the veteran is being furnished nursing or attendant's service while receiving hospital treatment, institutional or domiciliary care by the Veterans' Administration is that reduction will be in the additional amount based upon the need for regular aid or attendance. When the pension is being paid under Public Law 149, 82d Congress, the award will be the basic $66.15 or $78.75 monthly rate authorized by the rating decision exclusive of the additional amount on account of the need of regular aid and attendance. Corrected visual acuity of 5/200 or less, both eyes, or concentric contraction of the visual field to 5 degrees or less, qualifies for the $135.45 rate without a showing of the need for aid and attendance. There will be no reduction thereof on account of institutionalization by the Veterans' Administration.

(2) In determining the rate of special monthly compensation, first consideration will be given to anatomical loss or losses of use of extremities, blindness, having 5/200 visual acuity or less, anatomical loss of both eyes, or being permanently bedridden, and if, based on these considerations, there is entitlement to one of the rates under paragraph II (l), (m), or (n), Part I, or the corresponding peacetime rate provided by paragraph II, Part II, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), or to two of these rates entitling under paragraph II (o), Part I, or the corresponding peacetime rate, no reduction is in order on account of being furnished nursing or attendant's service. If there is such entitlement based on these enumerated conditions, it is immaterial whether the veteran is also so helpless as to be in need of regular aid and attendance, and no reduction is in order on this account.

(3) It is only when entitlement to the rate under paragraph II (l), Part I, or the corresponding peacetime rate singly, or with another entitlement to the rate under paragraph II (l), (m), or (n), Part I, or the corresponding peacetime rate, so as to qualify under paragraph II (o), Part I, or the corresponding peacetime rate, is based solely upon being so helpless as to be in need of regular aid and attendance, i. e., in the absence of other entitling conditions, that reduction on this account is in order.

(4) The reduction in the case of a veteran entitled only under paragraph II (l), Part I, or the corresponding peacetime rate, on account of helplessness will be in the amount of $98 (or $78).

(5) When any veteran is entitled to one of the rates under paragraph II (l), (m), or (n), Part I, or the corresponding peacetime rate, by reason of anatomical losses or losses of use of extremities, blindness, having 5/200 visual acuity or less, or anatomical loss of both eyes, and is also entitled to another rate under paragraph II (l), Part I, or the corresponding peacetime rate, on account of being so helpless as to be in need of regular aid and attendance, no condition being considered twice in the determination, the rate of pension while not being maintained and furnished aid and attendance in kind will be $420 (or $336) per month. This amount is subject to reduction to $329 (or $263) or $371 (or $297) per month according to which the veteran is entitled apart from helplessness. No case will arise in which reduction from $420 to $279 will be in order, for the reason that the condition entitling to the second rate on account of rendering the person helpless will necessarily be totally disabling, thus entitling, if the basic entitlement is under paragraph II (l) or (m), Part I, or the corresponding peacetime rate, to one of the rates specified in the preceding sentence. Note that if the basic entitlement is under paragraph II (n), Part I, or the corresponding peacetime rate, the additional disability rendering the person helpless is necessarily ratable at 100 percent; consequently, the rate of pension will be $420 (or $336) per month whether or not being furnished aid and attendance in kind.

(6) In the special case of entitlement under paragraph II (m), Part I, or the correspondent peacetime rate, only on account of blindness of both eyes, rendering him so helpless as to be in need of regular aid and attendance, the reduction will be to the rate prescribed under subparagraph (l) with the same additional compensation on account of independently ratable disability or under subparagraph (k), if any.

(7) In cases other than blindness, rendering the person so helpless as to be in need of regular aid and attendance, entitling under subparagraph (m) additional compensation of $47 (or $37.60) per month under paragraph II (k), Part I, or the corresponding peacetime rate, or on account of 50 percent disability or 100 percent disability in excess of the conditions entitling under paragraph II (l), (m), or (n), Part I, or the corresponding peacetime rate, is not subject to reduction on account of being furnished nursing or attendant's service. The reduced rate of compensation or pension in such instances will be effective as of the beginning of the maintenance of the disabled veteran in an institution by the Veterans' Administration. The compensation or pension in all cases contemplated herein is subject to the limitations contained in § 3.255.

(Interpret or apply sec. 202, 43 Stat. 618, as amended, par. II, Part I, par. II, Part II, Vet. Reg. 1 (a), as amended, 68 Stat. 915; 38 U. S. C. 478, ch. 12A)

6. In § 3.270, paragraph (c) is amended to read as follows:

§ 3.270 *Readjustment of awards to incompetent veterans under section 1, Public Law 662, 79th Congress.* * * *

(c) If a special case arises which does not fall within the provision of this section, or where money is urgently needed for the veteran, the complete facts should be reported to the office of the Deputy Administrator for Veterans Benefits.

7. In § 3.310, paragraph (d) is amended to read as follows:

§ 3.310 *Apportionments authorized.* * * *

(d) In those cases where an incompetent veteran with a wife, child, or dependent parent, and for whom no guardian or other legal fiduciary has been appointed, is maintained in an institution by the United States or a political subdivision thereof, the disability pension payable under Part III, Veterans Regulation 1 (a) (38 U. S. C. ch. 12A), unless paid in the discretion of the Administrator to the wife of such veteran for the use of the veteran and his dependents, will be apportioned, if otherwise in order, in accordance with the schedule set out in this paragraph. Prior to authorizing an apportionment of disability pension as provided in this section adequate development will be accomplished for the purpose of determining the need therefor, and the evidence to establish the marital status, relationship, and dependency in the case of a parent, will be secured.

Where there is (are):

	Monthly
A wife but no child or where all children are in her custody: Portion to wife	$56.55
A child but no wife: Portion for child	45.75
Two or more children but no wife: Portion for children (to be divided equally between them)	56.55
A dependent parent but no wife or child; Portion for parent	45.75
To dependent parents but no wife or child: Portion for parents (to be divided equally between them)	56.55

Any increase in pension by reason of the veteran having attained the age of 65, having been rated permanently and totally disabled and in receipt of pension for a continuous period of 10 years or more or having qualified for pension under Public Law 149, 82d Congress, as amended, will be added to the amount allowed the dependents as hereinabove described. There will be paid to the Manager, if a Veterans' Administration hospital or center, or such other proper official in charge of the institution any sum remaining unawarded. When the apportionments provided in this section are believed to work a hardship upon one or more parties in interest, recourse then may be had to the provisions of § 3.315 for a special apportionment under the approved procedure relating thereto. Running awards not consistent with the foregoing provisions will not be automatically reviewed for such purpose but will be adjusted when the particular case otherwise requires award action.

* * * * *

8. In § 3.312, paragraph (g) is amended to read as follows:

§ 3.312 *Apportionment not authorized.* * * *

(g) Of the additional amount authorized by the last paragraph of section 202 (3) or section 202 (5), World War Veterans' Act, 1924, as amended, or the additional amount payable under paragraph II (k), Part I, Veterans Regulation 1 (a), as amended, or the corresponding peacetime rate; or in those cases where an amount in excess of that provided for total disability is payable, of any amount in excess of the rate prescribed for total disability. Where pension is being paid under Public Law 299, 71st Congress (act of June 2, 1930), as amended, or under Public Law 541, 75th Congress, as amended, no amount in excess of $101.59 monthly will be subject to apportionment.

* * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective April 27, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55–3441; Filed, Apr. 26, 1955; 8:54 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

OVERPAYMENTS OF SUBSISTENCE ALLOWANCE AND OTHER BENEFITS

In § 21.113, paragraph (g) is amended to read as follows:

§ 21.113 *Overpayments of subsistence allowance and other benefits.* * * *

(g) *Contracts between a State or political subdivision of a State and the Veterans' Administration.* Notwithstanding the criteria contained in paragraphs (a) through (f) of this section for determination of liability of an institution it is provided by Public Law 149, 83d Congress, that under any contract between a State, or any political subdivision of a State, and the Veterans' Administration providing for the furnishing of instruction in a course of institutional on-farm or other training under Part VIII of Veterans Regulation 1 (a), as amended (Public Law 346, 78th Congress, as amended, 38 U. S. C. ch. 12), liability by reason of payments of subsistence allowance which were illegal because of failure of the veteran or the course to comply with the applicable statutory, regulatory, or contractual requirements shall not be applied to the contracting State, or political subdivision, unless the Veterans' Administration, after investigation, finds that an employee or representative of such State, or political subdivision, conspired with the veteran by, or was guilty of fraud or gross negligence in, falsely reporting to the Veterans' Administration that the veteran was in a proper course of training, failing to report unauthorized or excessive absences from, or interruption or discontinuance of, his course of training, or not discovering the failure of the veteran to comply with the applicable statutory, regulatory, or contractual requirements and not promptly terminating the course of training of the veteran. The provisions of this paragraph shall be effective as to overpayments of subsistence allowance occurring for periods of training subsequent to July 12, 1950, and prior to July 1, 1954, but shall not require repayment of any funds heretofore properly recovered by agreement of the parties to any such contract, and shall not be applicable to any other liabilities or agreements pursuant to such contract.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended, sec. 261, 66 Stat. 663; 38 U. S. C. 693g, 697–697d, 697f, g, 971, ch. 12 note)

This regulation is effective April 27, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55–3440; Filed, Apr. 26, 1955; 8:54 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11248; FCC 55–479]

[Rules Amdts. 1–73, 43–1]

PART 1—PRACTICE AND PROCEDURE

PART 43—REPORTS OF COMMUNICATION COMMON CARRIERS AND CERTAIN AFFILIATES

ANNUAL REPORTS

In the matter of amendment of Part 43, Reports of Communication Common Carriers and Certain Affiliates, exempting certain companies controlling communications common carriers from annual reporting requirements; rescission of Statistical Circular No. 1, Annual Report of Holding Companies having Nominal Interest in the Communications Industry; and related amendment of Part 1, rules relating to Practice and Procedure, of the Commission's rules and regulations.

On January 12, 1955, the Commission adopted a notice of proposed rule making proposing (1) to amend Parts 1 and 43 of the Commission's rules and regulations so as to exempt companies controlling communication carriers from filing annual reports with the Commission unless the annual operating revenues of any controlled carrier exceeds $2,500,000, and (2) to rescind Statistical Circular No. 1 Annual Report of Holding Companies having Nominal Interest in the Communications Industry. That notice was published on January 20, 1955, in the FEDERAL REGISTER (20 F. R. 462) in accordance with section 4 (a) of the Administrative Procedure Act. The time for filing comments with the Commission has expired.

This proceeding involves the question as to whether the Commission should continue to require companies that control relatively small communication carriers which represent generally a minor part of the total business interests of the controlling companies to file annual reports with the Commission. Such reports have been required since the Commission was established in 1934 pursuant to section 219 (a) of the Communications Act of 1934, as amended (see Commission Order No. 13, dated August 14, 1935, 2 FCC 6). Section 219 (a) authorizes the Commission to require annual reports but does not make it mandatory upon the Commission so to do. Nineteen companies that control subsidiary communication carriers filed annual reports with the Commission for the year 1953, and seventeen companies would file for the year 1954 if the present reporting requirements were continued in effect.[1]

[1] The decrease in number of companies by two is accounted for by a consolidation of two controlling companies and the sale by another of its interests in a communication carrier.

Under the proposed rule making the status of the reporting of these seventeen companies would be as follows:

(a) Six companies controlling seventeen communication carriers subject to all of the common carrier provisions of the Communications Act of 1934, as amended, and whose aggregate annual operating revenues approximate $113,000,000, would have their reporting requirements left unchanged and would continue to report to this Commission either on F. C. C. Form H or on S. E. C. Form 10–K. (S. E. C. Form 10–K is a comprehensive annual financial report prescribed by the Securities and Exchange Commission and is on public file in that Commission. This form is accepted by this Commission in lieu of F. C. C. report forms.)

(b) Seven companies controlling a like number of fully-subject communication carriers whose aggregate annual revenues approximate $4,000,000, would be relieved of filing annual reports with this Commission, but under the requirements of the Securities and Exchange Commission they would continue to file annual reports with that Commission on S. E. C. Form 10–K.

(c) Four companies controlling communication carriers whose aggregate annual revenues are less than $1,000,000, would be relieved of filing public annual reports, since they do not presently file with the Securities and Exchange Commission.

In response to the Proposed Rule Making, the Commission received formal comments from the Communications Workers of America, affiliated with the Congress of Industrial Organizations (hereinafter referred to as CWA–CIO), and from the United States Independent Telephone Association. The comments of the latter favor rescission of Statistical Circular No. 1 and adoption of the related amendments of Parts 1 and 43 of the Commission's rules and regulations on the grounds that "since the report now required serves no particular public interest * * * its elimination would result in certain economies in effort and money * * *." The comments of CWA–CIO oppose rescission of the aforementioned circular and adoption of the related amendments of the rules, contending that in many cases if the proposed rule making is adopted, (1) there will be no available detailed operating and financial statistics of a parent corporation in order to obtain a clear picture of the operations of its subsidiaries; (2) there will be no financial data available to the general public and to governmental regulatory agencies from which the relationship of these exempted controlling companies with their subsidiaries can be evaluated which, in turn, will handicap CWA–CIO in its labor-management relations and in collective bargaining; and (3) there will be exempted material which is essential to both the general public and to the Commission in carrying out its function of regulating interstate communications. No further comments were received by the Commission on or before February 7, 1955, the expiration date for the submission of comments by interested parties. No replies to the comments were received.

As noted above, by finalizing the subject Proposed Rule Making there will only be four companies whose annual reports will not be available in the public files of either the Federal Communications Commission or the Securities and Exchange Commission. Of these four companies, one company controls several railroad companies that engage in very minor telegraph operations and two companies each control a communication carrier with annual revenues of $12,000 and $75,000, respectively. The Commission is satisfied that its regulatory needs do not call for a continuance of annual reports from the controlling companies of such small communication carriers. The fourth company which would file no report is The Robert Dollar Company of San Francisco.[2] This company controls Globe Wireless, a trans-Pacific radiotelegraph communication carrier with $780,000 annual operating revenue. This Commission has had a number of rate and other formal proceedings involving Globe Wireless and from its experience in disposing of these matters has found that the annual reports of the parent company are of little, if any, use. Globe Wireless itself will still be required to file with this Commission comprehensive annual operating and financial reports as well as monthly reports and other information, including data regarding the relationship with its controlling company.

It is the opinion of the Commission that exempting, as ordered herein, those companies controlling the smaller communication common carriers from annual reporting requirements is in keeping with both the spirit and the letter of the Federal Reports Act. This act declares it "to be the policy of the Congress that information which may be needed by the various Federal Agencies should be obtained with a minimum burden upon business enterprises * * * and at a minimum cost to the Government, that all unnecessary duplication of efforts in obtaining such information * * * should be eliminated as rapidly as practicable." The relevance of this statement of policy is made more clear by the fact that it is followed by statements to the effect that collection of information by an agency may be considered unnecessary for the reason, among others, "because it can be obtained from another Federal agency" and that single central information collection agencies shall be utilized when practicable.

It appearing that the proposed rule making herein, eliminating certain reports of controlling companies, will not interfere with the regulatory functions of this Commission; and

It further appearing that the data heretofore available to the public through the reports proposed for elimination will, in the main, continue to be available from other sources; and

It further appearing that an additional non-substantive but clarifying change in the language of § 43.21 of the Commission's rules and regulations is desirable; and

It further appearing that the comments submitted herein do not warrant the holding of an oral argument or other form of hearing herein; and

It further appearing that these amendments relieve restrictions and therefore may be made effective on less than 30 days notice:

It is therefore ordered, That, pursuant to the authority of sections 4 (i) and 219 of the Communications Act of 1934, as amended, Parts 1 and 43 of the Commission's rules and regulations are hereby amended as set forth below, effective April 29, 1955.

It is further ordered, That Statistical Circular No. 1 is rescinded and that, effective with the calendar year 1954, annual reports shall be filed by controlling companies as required by §§ 1.544 and 43.21 as amended herein.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 219, 48 Stat. 1077; 47 U. S. C. 219)

Adopted: April 19, 1955.

Released: April 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Delete subparagraph (5) of § 1.544 (a) and insert the word "[Reserved]" in lieu thereof.

2. Delete the first sentence of paragraph (a) of § 43.21, and insert in lieu thereof the following: "Class A and Class B communication common carriers and certain companies (as indicated in paragraph (c) of this section) directly or indirectly controlling such carriers shall file with the Commission annual reports as provided hereinafter." Paragraph (a) as then revised will read as follows:

§ 43.21 *Annual reports of carriers and certain affiliates.* (a) Class A and Class B communication common carriers and certain companies (as indicated in paragraph (c) of this section) directly or indirectly controlling such carriers shall file with the Commission annual reports as provided hereinafter. Except as provided in paragraph (c) of this section, each annual report required by this section shall be filed not later than March 31 of each year, covering the preceding calendar year. It shall be filed on the appropriate report form prescribed by the Commission (see § 1.544 of this chapter) and shall contain full and specific answers to all questions propounded and information requested in the currently effective report forms. The number of copies to be filed shall be as specified in the applicable report form. At least one copy of the report shall be verified under oath (or affirmed according to law) by the responsible accounting officer before a person authorized to administer an oath. A copy of each annual report shall be retained in the principal office of the respondent and shall be filed in such manner as to be readily available for reference and inspection.

3. No change is proposed in paragraph (b) of § 43.21.

4. In the first sentence of paragraph (c) of § 43.21 after the words "any communication common carrier" insert the words "having annual revenues in excess of $2,500,000." Paragraph (c) as then revised will read as follows:

(c) Each company, not of itself a communication common carrier, that directly or indirectly controls any communication common carirer having annual revenues in excess of $2,500,000 shall file annually with the Commission, not later than the date prescribed by the Securities and Exchange Commission for its purposes, two complete copies of the annual report Form 10–K (or any superseding form) filed with that Commission: *Provided, however*, That if no such report is filed with the Securities and Exchange Commission, such company shall file annual reports on the applicable report forms prescribed by this Commission.

[F. R. Doc. 55–3400; Filed, Apr. 26, 1955; 8:46 a. m.]

[2] The Robert Dollar Company is a common carrier by water engaged in foreign commerce and is subject to the regulatory jurisdiction of designated Federal agencies.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 8]

[129.15]

CERTIFIED INVOICES; FOREIGN SERVICE FORM 138

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that it is proposed, pursuant to the authority contained in sections 484 and 624, Tariff Act of 1930, as amended (19 U. S. C. 1484 and 1624), to amend § 8.15 of the Customs Regulations (19 CFR 8.15), and other related sections of the Customs Regulations, to completely eliminate the consular and other certification of all customs invoices and provide for the eventual substitution of a "Special Customs Invoice" form or forms for the present State Department invoice form, foreign service Form 138.

Prior to the issuance of the proposed amendment, consideration will be given to any relevant data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., and received not later than 20 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: April 21, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55–3477; Filed, Apr. 25, 1955; 2:54 p. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 70]

GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF AND UNITED STATES CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the U. S. Department of Agriculture is considering the issuance of an amendment to the regulations governing the grading and inspection of poultry and edible products thereof and United States classes, standards, and grades with respect thereto (7 CFR Part 70). This action is taken pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1090; 7 U. S. C. 1621 et seq.).

The proposed amendment would establish, as a prerequisite for using the inspection mark, a requirement that poultry pies or pot pies shall contain at least 14 percent cooked poultry meat. This requirement was requested by members of the industry as a means of maintaining consumer acceptability of the product and thereby retaining a good market for stewing chickens.

All persons who desire to submit written data, views, or arguments in connection with this proposed amendment should file the same in triplicate with the Chief of the Standardization and Marketing Practices Branch, Poultry Division, Agricultural Marketing Service, U. S. Department of Agriculture, Room 2095 South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Change paragraph (b) (6) of § 70.93 *Marking inspected products*, to read as follows:

(6) A statement of ingredients, if the edible product is made up of two or more ingredients; such ingredients shall be listed by their common or usual names in the order of descending proportion. For the purpose of this paragraph, the term "chicken meat," is construed to mean deboned white and dark meat; whereas, the term "chicken" includes other edible parts such as skin and giblets not in excess of their natural proportions, in addition to the chicken meat. If the term "chicken meat" is listed and the product also contains skin, giblets, or fat, it is necessary to also list them in the ingredient statement. This terminology shall apply to edible products prepared from other kinds of poultry where applicable.

2. Redesignate paragraphs (d), (e), and (f) of § 70.93, as paragraphs (e), (f), and (g), respectively.

3. Add a new paragraph (d) in § 70.93, which reads as follows:

(d) *Meat content of poultry pies.* In order to bear the inspection mark, poultry pies or pot pies shall contain a minimum of 14 percent (1⅛ ounces per 8-ounce pie) of cooked deboned poultry meat, exclusive of any skin, giblets, or fat which may be included in the product.

(60 Stat. 1090; 7 U. S. C. 1621 et seq.)

Issued at Washington, D. C., this 21st day of April 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Agricultural Marketing Service.

[F. R. Doc. 55–3415; Filed, Apr. 26, 1955; 8:49 a. m.]

[7 CFR Part 913]

[Docket No. AO–23–A14]

MILK IN GREATER KANSAS CITY MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Kansas City, Missouri on February 15–16, 1955.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on March 28, 1955, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision with respect to issues of this hearing remaining undecided. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on March 31, 1955 (20 F. R. 2029).

The material issues, findings and conclusions, and general findings of the recommended decision (20 F. R. 2029; F. R. Doc. 55–2667) are hereby approved and adopted by this decision as if set forth in full herein.

Ruling on exceptions. Within the period reserved for exceptions, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining there-

to. To the extent that the findings, conclusions, and actions decided upon herein are at variance with the exceptions, such exceptions are overruled.

Determination of representative period. The month of February 1955, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Greater Kansas City Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Greater Kansas City Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached Order which will be published with this decision.

This decision filed at Washington, D. C. this 21st day of April 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Greater Kansas City Marketing Area

§ 913.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") (7 U. S. C. 601 et seq.), and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to § 913.2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Greater Kansas City marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Add § 913.11 (b) to read as follows:

(b) Any cooperative association with respect to:

(1) The milk of any producer which such cooperative association causes to be diverted from a pool plant to a nonpool plant for the account of such cooperative association;

(2) The milk of any producer delivered to the pool plant of another handler during the same delivery period in which such cooperative association is the handler pursuant to subparagraph (1) of this paragraph with respect to any milk of such producer.

2. Add the following as § 913.32 (c):

(c) Each handler who receives from producers, milk for which payment is to be made to a cooperative association pursuant to § 913.80 (c) shall report to such cooperative association with respect to each such producer, on forms approved by the market administrator, as follows:

(1) On or before the 20th day of the delivery period, the total pounds of milk received during the first 15 days of the delivery period;

(2) On or before the 7th day after the end of the delivery period:

(i) The pounds per shipment, the total pounds of milk (quota milk and excess milk separately for February through July) and the average butterfat test of milk received from such producer during the delivery period;

(ii) The amount or rate and nature of any deductions; and

(iii) The amount of any payments due such producer pursuant to § 913.87.

3. Delete § 913.51 (a) and (b) and substitute therefor the following:

(a) *Class I milk.* The basic formula price for the preceding delivery period plus $1.15 during each of the delivery periods of April, May, June and July, and plus $1.45 during all other delivery periods plus or minus a supply demand adjustment of not more than 45 cents, computed as follows:

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers and sales by producer handlers) for the same months, multiply the result by 100 and round to the nearest whole number. The result shall be known as the "current utilization percentage";

(2) Compute a "net deviation percentage" as follows:

(i) If the current utilization percentage is neither less than the minimum standard utilization percentage specified below nor in excess of the maximum standard utilization percentage specified below, the net deviation percentage is zero;

(ii) Any amount by which the current utilization percentage is less than the minimum standard utilization percentage specified below is a "minus net deviation percentage";

(iii) Any amount by which the current utilization percentage exceeds the maximum standard utilization percentage specified below is a "plus net deviation percentage".

Delivery period for which price applies	Delivery periods used in computation	Percentages	
		Minimum	Maximum
January	November–December	122	128
February	December–January	124	130
March	January–February	125	131
April	February–March	127	134
May	March–April	130	137
June	April–May	144	153
July	May–June	150	160
August	June–July	146	154
September	July–August	138	146
October	August–September	127	133
November	September–October	117	123
December	October–November	120	126

(3) For a "minus net deviation percentage" the Class I price shall be increased and for a "plus deviation percentage" the Class I price shall be decreased as follows:

(i) One cent for each such percentage point of net deviation; plus

(ii) One cent for each such percentage point of net deviation for which a percentage point of net deviation of like direction was computed pursuant to subparagraph (2) of this paragraph in the computation of the Class I price applicable for the delivery period immediately preceding; plus

(iii) One cent for each such percentage point of net deviation for which percentage points of net deviation in like direction were computed pursuant to subparagraph (2) of this paragraph in the computations of each of the Class I prices applicable for the first and second delivery periods immediately preceding.

(b) *Class II milk.* The basic formula price for the current delivery period during each of the delivery periods of September, October, November, December, January and February, and such basic formula price less 20 cents during all other delivery periods.

4. Delete § 913.80 (b), (c) and (d), redesignate § 913.80 (e) as § 913.80 (f) and substitute the following as § 913.80 (b), (c), (d) and (e):

(b) On or before the 25th day of each delivery period to each producer (1) for whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) of the section and (2) who had not discontinued shipping milk to such handler before the 18th day of the delivery period, an advance payment with respect to milk received from such producer during the first 15 days of the delivery period at the approximate value of such milk, not to be less than the Class II price for 3.8 percent milk for the preceding delivery period, without deduction for hauling;

(c) To a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines such cooperative association is authorized to collect payment as follows:

(1) On or before the 20th day of the delivery period, an amount equal to not less than the Class II price for 3.8 percent milk for the preceding delivery period multiplied by the hundredweight of milk received during the first 15 days of the delivery period from such producers as did not discontinue delivering milk to such handlers before the 18th day of the delivery period, less any deductions authorized in writing by such cooperative association;

(2) On or before the 11th day after the end of each delivery period an amount equal to not less than the applicable uniform prices pursuant to § 913.71 or § 913.72, adjusted by the butterfat differential computed pursuant to § 913.82 for the weighted average butterfat content of the milk received from such producer, multiplied by the hundredweight of milk received from such producers during the delivery period, adjusted as applicable for location adjustment to producers pursuant to § 913.81 and less (i) payment made such cooperative association pursuant to subparagraph (1) of this paragraph, (ii) amounts owing such handler for supplies or merchandise purchased from him by such producers, (iii) deductions for which written authorization of a producer were on file as a means of liquidating a then existing obligation prior to receipt of the written request for payment to such cooperative association; and (iv) proper deductions authorized in writing by such cooperative association: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 913.85, he may reduce his payment to the cooperative association by not more than the pro rata share of such underpayment. Payments to the cooperative association shall be complete thereafter not later than the second day following receipt of the balance due from the market administrator.

(d) On or before the 11th day after the end of each delivery period, to each cooperative association, with respect to receipts of milk for which such cooperative association is defined as the handler pursuant to § 913.11 (b) (2), not less than the value of such milk as classified pursuant to § 913.44 (a) at the applicable respective class price(s).

(e) In making payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 913.80, 913.81 and 913.82;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 913.88 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

[F. R. Doc. 55–3392; Filed, Apr. 25, 1955; 8:57 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 975]

[Docket No. AO–179–A13]

MILK IN CLEVELAND, OHIO, MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO THE ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Cleveland, Ohio, on November 30–December 9, inclusive, 1954, pursuant to notice thereof which was issued on November 9, 1954 (19 F. R. 7352).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on March 31, 1955, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on April 5, 1955 (20 F. R. 2121).

The material issues of record were concerned with the following:

1. Extending the marketing area to include all of Lorain, Lake, Geauga, and Ashtabula Counties, in addition to Cuyahoga County, Willoughby township in Lake County, and those portions of Medina County which presently comprise the marketing area;

2. Modifying the producer definition so as not to include a new shipper whose milk is diverted to a nonpool plant during April, May, June or July;

3. Adopting a form of fall quota plan to encourage a more uniform seasonality of production;

4. Modifying the pool plant standards and the provisions relating to unpriced milk;

5. Reassigning the responsibility for making or receiving payments on reclassified milk to the handler who ultimately utilizes the milk, rather than leaving it chargeable to the handler who originally received the milk from producers;

6. Changing the conditions under which other source milk may be prorated with producer milk to the several classes of utilization;

7. Announcing class prices in terms of a hundredweight of milk containing 3.5 percent butterfat, with appropriate butterfat differentials, instead of per hundredweight of butterfat and per hundredweight of skim milk;

8. Changing the Class I price provisions;

9. Changing the classification and pricing of milk now in Class II and Class III;

10. Modifying the rates of location adjustments to handlers;

11. Modifying the rates of the location adjustments to producers and applying them only to eligible milk;

12. Reducing the producer butterfat differentials; and

13. Revising the application of the Cleveland order with respect to milk subject to other Federal orders.

1. *Marketing area.* The sales territory served by the handlers regulated under the Cleveland order has expanded considerably since the order first became effective in September 1946. One reason for this expansion has been the fact that the consumers themselves have moved to suburban communities and that the greatest increases in population have also occurred in the suburban areas. The expansion in sales territory has also been facilitated by changes in milk distribution which have occurred both in Cleveland and throughout most areas in the United States. The significant changes in distribution include the more wide-scale use of the paper bottle which can be transported more cheaply than glass and which eliminates bottle returns, the increasing proportion of milk sold through stores rather than delivered to homes; the longer distances which it is feasible to serve by wholesale routes as compared with retail routes; and other improvements in transportation and communications which have added

to the area over which milk can be economically distributed.

The increased sales by the regulated handlers have been made with milk paid for at the Class prices specified in the order. Apparently the efficiencies in bottling and distribution which the regulated handlers have been able to achieve have largely offset any advantages which the unregulated handlers may have had in the procurement of milk. In recent years, however, the volumes of milk sold by regulated handlers outside of the defined marketing area have become sufficiently large to make it feasible for them to establish separate plants to serve the unregulated sales territories. The principal advantage gained at an unregulated plant is the ability to buy milk from farmers at a blend price, and to sell virtually all of the milk so purchased for Class I purposes by obtaining supplemental milk when needed from the Cleveland pool. In fact, a handler operating both regulated and unregulated plants can probably exploit those advantages more completely at his unregulated plant than an independent unregulated handler, since the independent does not own a source of supplemental milk. The largest handler in the Cleveland market has established two unregulated bottling plants; one located east of Cleveland and one to the southwest. Other handlers are in a position to take similar action, and testified that they were giving it serious consideration.

Such action critically impairs the effectiveness of regulation. The multiple-plant operators are encouraged to develop and maintain a sufficient supply of producer milk at their regulated plant to supply not only their Class I sales from the regulated plant, but also to supply supplemental milk for the unregulated plants. The result is that the blend price to producers under the order is lowered by the extra quantity of surplus milk which must be carried for the unregulated plants, the Class I price must be maintained at a correspondingly higher level in order to keep the blend up to the point where it will attract a full supply of milk, and consumers in the marketing area must absorb the higher Class I price.

An alternative means of meeting the competitive problem would be to establish a somewhat lower Class I price on milk sold outside of the defined marketing area. This would allow the regulated handlers to be competitive with unregulated handlers in the cost of milk sold outside the area. However, consumers in the marketing area would again be bearing an additional cost in the form of a higher Class I price. In the circumstances, it is clearly more equitable to expand the marketing area than to adopt a price differential on the out-of-area sales.

The dairy farmers supplying milk to unregulated plants gain substantial indirect benefits from the Cleveland order. They are usually able to obtain the same blend price as is paid by the regulated handlers. In fact, at the time of the hearing most of the farmers shipping to plants located in one of the counties proposed to be incorporated in the Cleveland marketing area were receiving a temporary premium over the blend prices announced under the order. However, it must be recognized that the Cleveland blend price has already been reduced by the withdrawal of plants with high Class I utilization from the market and would be further reduced if other handlers also established unregulated plants.

The territory to be included in the expanded marketing area should be determined primarily by conditions of competition in the distribution of milk. The expansion should be limited to those localities which can be shown to constitute a part of the Cleveland marketing area through population movements and characteristics, the distribution of milk by regulated handlers, and a reasonable similarity in quality and sanitation requirements.

In Lorain County the added territory should include the townships of Black River, Sheffield, Avon Lake, Avon, Amherst, Elyria, Ridgeville, Carlisle, Eaton, Columbia, and Grafton. These townships comprise the northeastern portion of Lorain County, but exclude the western tier of townships and the southern portion of the county.

The portion of Lorain County to be added to the marketing area will include the sizeable cities of Lorain and Elyria, and an essentially suburban area adjacent to them. The area is served by three handlers from regulated plants in Cleveland, from an unregulated plant operated by a Cleveland handler (as previously mentioned), from a plant at Mansfield which is regulated under the Lima order, and from a number of local dairies, most of which are located in Elyria or Lorain.

In southwestern Lorain County the 10 townships of Henrietta, Russia, Camden, Pittsfield, La Grange, Brighton, Wellington, Penfield, Rochester, and Huntington should not be included. These townships are served almost exclusively by local dealers whose distribution, in turn, does not extend into the northeastern half of the county. Brownhelm township, at the northwest corner of the county, should also be excluded. The major portion of the milk distributed in the township is from dairies located at Sandusky and Vermilion. These dairies do not distribute milk east of Brownhelm, so the eastern boundary of the township appears to constitute a practical boundary between the Cleveland market and marketing areas to the west.

To the east of Cleveland the expansion of the marketing area should be limited to Mentor and Kirtland Townships and the City of Painesville in Lake County and the city of Ashtabula in Ashtabula County.

The total population of Lake County increased by 25,959 between 1940 and 1950. In Willoughby Township, already part of the marketing area, and in the other localities to be included the increase was 20,397 or 78 percent of the total increase. To some extent the Cleveland handlers have followed established clientele out into these rapidly growing places, and have solicited new business in the process. Three regulated handlers have substantial business in Kirtland and Mentor Townships and in Painesville. These localities are also served by the handler who operates a comparatively large unregulated plant in Ashtabula.

The City of Ashtabula, with a 1950 population of 23,696, is the largest center in Ashtabula County, and accounts for nearly one-third of the total population of the county. One of the presently regulated Cleveland handlers has a large wholesale distribution in the city. Also, the handler whose presently unregulated plant is located there has wholesale and retail business, and does the largest volume of any dealer serving the city. On the basis of the present and historical extent of distribution by Cleveland regulated handlers the city is clearly a part of the marketing area.

Geauga County should not be included in the marketing area. It is essentially a rural county, with a total 1950 population of 26,646. Although handlers presently regulated under the Cleveland order serve a major portion of the consumers in the county, it appears that their competitors would also be regulated by reason of distribution in those portions of Lake and Ashtabula Counties which are to be included in the marketing area. Moreover, the absence of a grade A ordinance in Geauga County raises the possibility that milk of lower sanitation requirements than those required elsewhere in the marketing area could be sold. The minimum prices specified in the order would not be applicable to the production of such milk.

In summary: To the present Cleveland marketing area of Cuyahoga County; Willoughby Township, Lake County; and Liverpool, Brunswick, Hinckley, York, Granger, Medina, Lafayette, and Montville in Medina County; there will be added Black River, Sheffield, Avon Lake, Avon, Amherst, Elyria, Ridgeville, Carlisle, Eaton, Columbia and Grafton Townships in Lorain County; Mentor and Kirtland Townships, and Painesville City in Lake County; and the City of Ashtabula in Ashtabula County.

2. *Definition of producer.* Only one substantive change was proposed in the definition of a producer. This proposal would modify the provision for a handler to divert milk to a nonpool plant during the months of April, May, and June of each year. At present, such diversion is allowed and the shippers maintain their status as producers, payable under the order by the operator of the pool plant for whose account the milk was diverted.

The diversion privilege is designed to reduce the expense of transporting seasonally excess milk to manufacturing plants. Instead of hauling the milk from the farms to the pool plant and re-transporting it to a manufacturing plant, it can be hauled directly to the manufacturing plant by the farm pick-up haulers.

The proposal would interfere with this process to the extent that one new shipper in a hauler's load would prevent the entire load from being diverted as producer milk. Moreover, the proposal is not sufficiently broad to achieve its announced objective of preventing handlers from bringing into the Cleveland pool shippers whose milk was temporarily surplus in some other market. If such practices should constitute a serious problem in the Cleveland market, a proposal should be considered which would completely disqualify shippers primarily associated with other markets, rather than one imposing a restriction on the diversion privilege.

It is concluded that the proposed limitation on the diversion to nonpool plants should not be adopted.

3. *Seasonality of production.* A quota plan should be adopted as the principal means of encouraging a more uniform production of milk during the year. The essence of the plan is that each producer establishes his eligible milk quota during the low production months. Then, in the following flush season he is paid a blend consisting mainly of the Class I price for his eligible milk and approximately the Class II price for any milk which is in excess of his eligible quota.

The seasonality problem arises from the fact that the consumption of Class I milk is comparatively constant while production is commonly greatest in the spring months when pastures become available and other natural factors are favorable. Fluid milk markets must develop a large enough supply of milk to meet Class I sales in the months of lowest output and then must dispose of the excess supply in the spring. Minimizing the excess production will reduce the amount of plant facilities, needed on a short-time basis, the extra transportation costs, the overtime payments to workers and similar inefficient practices necessary to cope with seasonal surpluses.

Under the present order the primary incentive to level production is a wide seasonal variation in the Class I price differential. This is at a minimum of $1.00 per hundredweight in the three flush months, $1.45 in three intermediate months and $1.90 in the six months when production should be encouraged. There has been some improvement in the seasonality of production since the present schedule of differentials became effective in November 1952. Average production per producer per day in May 1952 was 55.0 percent over the average in November 1951; in May 1953 it was 50.2 percent over November 1952; and in May 1954 it was further reduced to 44.4 percent over November 1953. However, fall production in the United States as a whole has been higher in the last three years than formerly, and it is not possible to determine the extent to which the Cleveland improvement is just part of the general pattern. In any event the flush season supply in Cleveland continues to be excessive.

The producer proponents of the eligible milk quota plan maintained that it will be a more effective means of levelling production. The chief advantage was held to be the fact that each producer sets his own fall quota. In the following flush period he recieves an eligible milk price which is determined solely by the quota milk, without being reduced by excess milk. Any excess milk he produces will be paid for at a manufacturing price and the quantity of his excess is subject, within the limits of natural causes, to his own efforts.

Data prepared by the market administrator at the request of producers disclose a wide range in the seasonality of production of individual producers. These data compared average deliveries per day in May 1954 with deliveries in the previous November. Approximately 24 percent made May deliveries 50 percent or more in excess of November; another 23 percent were between 35 and 50 percent over; 40 percent were between level production and a 35 percent excess; and 13 percent actually delivered more milk in November than in May. The first group contribute far too much spring milk in proportion to their fall season production, while the latter group specializes in producing at the season when milk is most needed and should be rewarded accordingly.

Terminology to be adopted in the quota plan includes definitions of "eligible milk" and "ineligible milk", and involves the assignment of producer milk receipts as either "eligible milk" or "ineligible milk". The three fall months, October through December, would make up a quota-forming period. These three low-production months of the year, are the period during which production drops closest to minimum market requirements for fluid milk. The quantity of milk which a producer furnished to a pool plant during the months of October through December would determine the quota which such producer would be allowed as "eligible milk" during the following April through June, the high production months.

A producer's daily quota would be calculated on the basis of his total milk deliveries made regularly to pool plants during the low production period divided by the number of days on which deliveries were made, but in no event less than 30. Also a producer must have made regular shipments from the date of his first shipment inthe October–December period. This is accomplished by dividing the total pounds of milk delivered during the 3-month quota-forming period by the number of days from the date of first delivery to the end of the 3-month period. These provisions are designed to permit only regular producers to earn eligible quotas and to prevent any evasions based on short-time deliveries.

Producers proposed that the period of payment on eligible and ineligible milk be the eight-month period of February through September. However, a review of the month-to-month variation in producer receipts indicates that the months of April through June are the months of greatest excess. In a market where a quota plan is being introduced for the first time it is highly desirable that its period of application be as limited as possible without destroying the desired effectiveness of the plan. Applying the quota-operating period to the three months when production in relation to fluid sales is most excessive, will offer substantial monetary reward to those producers who level their annual production to meet more nearly the needs of the market. During the remaining months of July through March all producers on the market would receive the market "blend" or uniform price.

No means of earning an eligible milk quota is allowed for a shipper who either fails to ship for the 30-day minimum period during October–December or for producers who join the market subsequent to December. They will receive the ineligible milk price for their deliveries during April, May and June, and the uniform price in all other months. The original proposal for an 8-month plan would have provided an opportunity for a new shipper to earn an eligible quota but an established shipper who either failed to make any quota or made a poor one through circumstances beyond his own control would not have such opportunity. In view of the short operating period adopted herein and the fact that new producers are not commonly signed on until after June, it appears preferable to allow quotas to be formed only in the three fall months.

Under the circumstances which have prevailed in recent years, the ineligible, or over-quota, milk would be paid for at the Class III price. However, it is provided that if the ineligible milk exceeds the Class II and Class III sales, the excess would be valued at Class I and raise the ineligible price to that extent. The Class III price is used because it is more generally representative of manufacturing milk values than the Class II price which is confined to the cottage cheese. The eligible milk price would be computed by dividing the remaining pool funds by the volume of eligible milk. In recent years it would be somewhat less than the Class I price because the fall deliveries of producer milk have been in excess of the Class I sales.

Operation of the eligible-ineligible plan for paying producers requires certain rules in connection with the establishment and transfer of quotas to provide reasonable administrative workability of the plan. Producers should be allowed to transfer their quotas freely to other producers. Also, of course, if any producer changes handlers, that fact should not affect either the earning or use of his quota. Since the quota plan herein proposed is to be effective in determining producer payments in only three months of the year, and all producers must establish a new base each year, provisions in addition to those contained herein for the establishment and transfer of quotas to meet unusual situations do not appear necessary. To provide for the possible delivery of producer milk on an every-other-day schedule, both the quota-forming and quota-operating provisions convert such deliveries to a daily average basis.

4. *Pool plants.* There are two major categories of plants handling milk for fluid use in the marketing area. One is the "distributing" or "city" plant, at which milk is bottled and from which milk is distributed on routes in the area. The second category is composed of "supply" or "country" plants to which milk is delivered from the farms, cooled, and shipped to distributing plants for bottling.

(a) *Distributing plants.* A distributing plant should be designated as a pool

plant if any fluid milk, skim milk, buttermilk, flavored milk, or flavored milk drinks, is sold from such plant on routes which extend into the marketing area, provided that 50 percent or more of the total receipts at such plant from producers and from supply plants of milk approved for fluid use is distributed on routes either inside or outside the marketing area. An exemption should be provided for plants located outside the marketing area and distributing less than 300 points per day of the specified milk items on routes wholly or partially within the marketing area.

The present definition of distributing plants designates as pool plants all those physically located within the marketing area. Distributing plants located outside the area are not pool plants unless 10 percent or more of the total route sales are on routes operated wholly or partially within the marketing area. A major objective of the 10 percent feature is to measure whether or not a plant is sufficiently associated with the Cleveland market to participate in the equalization pool.

Producers called attention to one potentially serious defect of the provision in this regard. They pointed out that a country supply plant, or an unregulated plant primarily engaged in milk manufacturing, could become a pool plant by bottling only token quantities of milk in such plant, and distributing 10 percent or more of such token quantity to an outlet in a marketing area. To meet this situation, they proposed that the 10 percent of in-area sales be computed against total receipts of milk at a plant instead of on total route sales from such a plant.

Moreover, from evidence presented at the hearing it is apparent that there are several handlers distributing milk in portions of the enlarged marketing area whose route sales in such area are less than 10 percent of their total route sales. These are regular, year-'round sales on established routes and the plants are primarily engaged in milk distribution.

The definition of a distributing pool plant should continue to limit the designation to plants primarily engaged in the distribution of fluid milk. However, it appears that in lieu of the 10 percent of in-area sales provision this purpose can be better accomplished by requiring that the total distribution of milk from the plant on routes operated either inside or outside the marketing area must amount to at least 50 percent of the receipt of milk from producers and from country plants. Any plant which does not qualify on this basis should be deemed primarily a country supply plant and its status in the pool should be judged by the standards applied to such plants. No distinction need be made in this definition as to whether the distributing plant is physically located inside or outside the marketing area. The territory where the milk is distributed should be the controlling factor.

Some bottling plant operators may not operate distribution routes directly from their plants, but instead may service routes through distributing substations or may sell to vendors who serve the routes. In either case it is the bottling plant at which raw milk is purshased from producers or in bulk which should be considered as the pool plant.

The land boundary of the revised marketing area extends over a large territory and some milk plants (probably involving only those located outside the marketing area) may dispose of relatively small quantities of milk on routes extending into the area. If the amount of such milk is not large, its sale has little or no effect on the marketing of milk in the area. Application of order pricing and payment provisions of these distributors would entail considerable effort and expense and would not contribute to orderly marketing in the area. Handlers operating bottling plants disposing of not more than an average of 300 points of milk per day in the area in any month should be exempt for that month from all except the reporting and auditing provisions of the order. Limitation of the exemption to a plant from which is disposed such a small quantity (less than one economical route), and which transfers no milk to other handlers, would furnish adequate protection from unfair competition to fully regulated handlers, and guard against any threat to orderly milk marketing in the area.

(b) *Supply plants.* Under the terms of the present order there are two sets of standards relating to the pool status of country supply plants. One set described the conditions under which a country plant which had not previously been associated with the market may obtain pool plant status. The second set describes conditions which must be met for maintaining pool plant status. A new country plant may qualify as a pool plant only if it has delivered to city distributing plants 50 percent or more of its total dairy farm supply of milk during six consecutive fall months. Once it has become qualified it remains a pool plant until the operator specifically requests disqualification under specified conditions, or until the plant fails to meet the performance standards necessary for qualification. These require that at least 50 percent of the dairy farm supply be delivered to city distributing plants in any three of the four months of October through January, and 10 percent of the supply during each of the other months except April, May, June, and July.

Handlers proposed that a pool plant not be disqualified so long as the average quantity of milk delivered to city distributing pool plants during the six-month period, July through December, was equal to 25 percent or more of the dairy farm receipts of eligible quota milk at the country plant during the same months. They contended that it is impossible to specify in advance the months during which maximum shipments must be made to city plants. It had been their experience that city plants might call on virtually all of the country plants' supply during a given month and have relatively little need for milk a month or two later.

The data contained in Table 15 of Exhibit 5, introduced at the hearing by the market administrator, corroborate the handlers' contention. These data show the quantities of milk transferred to city plants and the percentage which the transfers were of total receipts from country plants from January 1949 through October 1954. In the fall and winter of 1949–50, October through January were the four months of greatest shipment. In 1950–51 most shipments were made in November through February. In each of the succeeding years, 1951 through 1953, the four fall months of September through December were the months of largest shipment, also the percentages of transfers varied considerably from month to month but were substantially smaller in 1952 and 1953 than in 1951 or previous years. The shipping experience of individual country plants would, of course, be substantially more variable than the marketwide averages.

It is difficult to establish an objective measure of a country supply plant's contribution to the market which will be valid under all possible conditions. However, it does appear that an average percentage of shipments over a period of months will more realistically measure such contribution than the present requirement that specific quantities be shipped in each of the specified months. It is concluded that in order to maintain year-'round status as a pool plant, a country supply plant should ship to city pool plants 30 percent or more of its dairy farm supply during the six-month period, August through January. These are the six months when historical data indicate that maximum shipments have been made to city plants. In three of the five short seasons for which the data are available, 1949–50 through 1953–54 these were the months of maximum shipments. They are also the months when the maximum Class I price differential applies. There appears to be no present reason to expect that months of maximum shipment will be materially changed by the eligible allotment program. If the program should make a substantial change in the city plant requirements for country station milk, the period can be reconsidered.

In exceptions to the recommended decision it was pointed out that a country supply plant which meets the requirements during one fall and winter can maintain its status as a pool plant not only through the next following spring and summer seasons, but also through the succeeding fall and winter, without showing any further connection with the Cleveland market as a supplier of milk. This deficiency should be rectified by providing a minimum shipping requirement of 10 percent during each of the months of August through January, in addition to the requirement that supply plants ship an average of 30 percent during the 6-month period as a whole.

It is difficult to determine from the data of record how nearly comparable a 30 percent average for a six-month period is to present provisions of 50 percent in three of the four specified months, and 10 percent in the five other months, because the new system gives the plant credit for any shipments which may be in excess of the minimum during any particular month. It is intended that the requirements should be somewhat easier to meet than those in the present order because of the discontinuance of Sunday retail distribution. City plants require large quantities of milk on Thursday and Friday, and much smaller quantities than formerly on Saturday and Sunday. Thus, even in a month of active demand a country plant will be unable to ship its full supply of milk and will probably have to manufacture substantial quantities of weekend receipts.

Corresponding changes should be made in the provisions under which a new country plant may originally attain pool status. Under the present provisions a new plant does not acquire status until it has delivered milk for a six-month period. During these months the dairy farmers who supply the milk are not considered "producers" under the terms of the order, the plants are not included in the equalization pool, the milk is not classified or priced under the order, and the milk is "other source" to the city plant handler and is so allocated. The lack of producer status would also prevent the dairy farmers from earning an eligible allotment. These deficiencies can be remedied without any substantial change in the measure of a supply plant's contribution to and identification with the market by having such a plant qualify as a pool plant in the first month that its shipments to city plants were 30 percent or more of its dairy farm supply. This could occur in any month of the year, but a new country plant would, of course, be most likely to start shipments during the normally short period. It would maintain its status in each succeeding month that the 30 percent average was maintained, and would become a pool plant for the entire following year if its total shipments during the August through January period were equal to 30 percent of its dairy farm receipts for the six-month period.

(c) *Provisions relating to "other source" milk.* Under the terms of the attached amendments to the Cleveland order, the scope of regulation has been increased and the categories of "other source" milk have been correspondingly reduced. The amendments provide that any plant primarily engaged in fluid milk distribution and having a significant volume of sales in the area will be fully subject to the order. The present order, on the other hand, provides that distributing plants physically located outside the defined marketing area not be fully regulated unless 10 percent of their total sales are in the marketing area and that the in-area sales be considered as "other source" milk until they constitute the minimum percentage.

With respect to milk from supply plants, the major change accomplished by the amendments is that new plants which ship the requisite percentage of milk to city distributing plants will be fully regulated and pooled on a month-to-month basis. Under present provisions their milk is "other source" until they have completed six months of shipments.

The provisions for determining the classification of producer milk at plants receiving milk both from producers and from other sources were not reviewed at the hearing. The order provides that other source milk be allocated to the lowest classes of use in such plants. This gives producer milk a priority on the highest available utilization. Any supplemental milk which a Cleveland regulated handler may purchase in bulk or bottled form from any other Federally regulated market is also considered as other source milk under the Cleveland order and is allocated to the lowest available utilization to determine the classification of any producer milk in the handler's plant. This point is covered in more detail in topic 13 hereof.

The Cleveland order provides for a marketwide pool. Under this pooling plan, handlers whose proportion of utilization in Class I is greater than the market as a whole make payments into an equalization fund and those handlers whose proportion of utilization in Class I is less than the average for the market receive payments out of the equalization fund. This method of payments into and out of the equalization fund is the essential mechanism for providing uniformity of payments to farmers irrespective of the handler to whom they deliver their milk and provision for equalized payments to farmers is necessary to the maintenance of stable and orderly marketing conditions in the Cleveland area.

Because handlers with less than the market average proportion of milk in Class I may draw payments out of the producer-settlement, or equalization fund, there is an advantage to any plant operator who has less than the marketwide average proportion of milk in Class I to place himself under regulation in order to obtain these payments and, thereby, make it possible for him to pay the uniform price established under the order to his producers. The smaller the plant operator's proportion in Class I, the greater is the advantage of regulation to him. Under these circumstances, plants which are engaged primarily in the manufacture of milk into dairy products rather than as suppliers of Class I milk to the marketing area, will attempt to place their plants under regulation for the sole purpose of obtaining payments out of the equalization fund. The result of this, however, will be to reduce the returns to those farmers whose milk actually constitutes the regular source of supply of Class I milk for the marketing area.

It is necessary for the reasons stated, therefore, that that milk which in fact constitutes the regular and normal sources of supply for the marketing area be distinguished from other milk which might enter the marketing area. The pool plant definitions of the order, described under (a) and (b) above, are designed to identify the regular and normal sources of supply for the Cleveland marketing area. Any plant, no matter where located, may bring itself under regulation by performing in the manner required, and any plant may relieve itself of regulation when it no longer operates in a way that brings it within the scope of the order. Under the circumstances, the decision as to whether a plant will be fully regulated under the order or will not be subject to regulation is determined by the decision of the plant operator himself.

Any milk sold in the marketing area must, of course, conform to the sanitary requirements imposed by the local health authorities. However, handlers may meet these requirements without becoming regular and dependable sources of supply for the market since their milk may have been obtained as a supplemental supply during temporary periods of emergency or their sales may be an extremely small portion of a primary distribution in some other area. Clearly, it is not possible to identify the regular and normal supply for the Cleveland area solely on the basis of sanitation requirements.

Neither is the shipment of milk to the marketing area for Class I utilization a practical basis for identifying the milk which should be fully regulated under the order. If any small, incidental, or accidental shipment of milk into the marketing area were to bring all of the milk at the plant from whence such shipment was made under total regulation, great hardship could be caused to the operator of such plant and to the farmers delivering milk to such an operator. Small quantities of milk are, in fact, disposed of in the regulated marketing area as Class I from plants which are not normal or regular sources of supply for the marketing area, particularly in the Fall season, when supplies are seasonally lowest. Moreover, the operators of the plants from which such shipments arise may not wish to bring their plants under total regulation. There are many situations in which plant operators may find it economical or desirable to make shipments of small quantities of milk to the marketing area and with respect to which it is neither necessary nor desirable in terms of effective regulation to bring the operators of such plants fully under the regulation. For instance, a plant which is associated with a market outside of the Cleveland area may find it advantageous to ship milk to a plant regulated by the order in order to have such milk converted into manufactured dairy products. It is quite possible, however, through misunderstanding, or from errors of estimating the utilization of milk, for milk which was intended for utilization in Class II or Class III products to be assigned a Class I classification. If through such accident or misunderstanding a plant were placed completely under regulation, considerable hardship, unnecessary to effective regulation, might result. For this reason, it is not practical nor desirable to place a plant totally under regulation merely because a small quantity of milk shipped by it to the market finds its way into a Class I utilization.

Since neither the health regulations nor the possibility that some milk from a plant may be used for Class I purposes in the marketing area provides an adequate measure of a plant's regular status in the market, the pool plant provisions are based on regular performance as previously described. The regular supplies are fully priced under the order and participate in the equalization pool.

The irregular supplies of "other source" milk which may be sold in the market are not priced under the order. The conditions under which unpriced milk has been or would be drawn upon to supply Class I sales in the area have been reviewed. If any handler were able to obtain a price advantage on such milk, he would be in a favorable competitive position relative to the handler's buying producer milk at Class I prices. To prevent such an advantage the attached amendment provides that a payment shall be made into the producer-settlement fund on all other source milk classified as Class I at a rate equal to the difference between the Class I and the Class II price. Payments at this rate are necessary to maintain the integrity of the pricing and pooling provisions of the order. The only exception to these payments is that they are not assessed at times when total supplies of producer milk in the market are not adequate to cover Class I needs and a reasonable reserve. This exception is described in detail in a subsequent paragraph.

It appears from the record that essentially all of the other source milk utilized for Class I purposes in the marketing area has been of Grade A quality and, therefore, similar in quality to that regularly disposed of in the marketing area for Class I. It was produced as part of a supply intended primarily to meet the demand for milk for fluid consumption (or the equivalent of Class I milk uses under the order) in some area other than the area specified to be regulated by this order but it was not used for such purposes in the area for which it was produced. It was, instead, milk which became surplus to the needs for milk for fluid disposition in the area for which it was produced. If the plant operator had not found a sale for such milk within the Cleveland marketing area, it would have been necessary for him to convert the milk into a manufactured product. The most likely surplus disposition of this other source milk would have been to plants engaged in processing milk into such manufactured dairy products as butter, cheese, ice cream, or nonfat dry milk solids.

Its value, therefore, to the plant operator was a surplus milk value. The Class III price for milk under the attached amendments is based on the value of milk when it is converted into butter and nonfat dry milk solids or the prices paid for milk at a group of condenseries, and this is the price which regulated handlers are required to pay for milk when they convert it into manufactured products. The Class III price, therefore, represents an accurate and fair representation of the value to the receiving plant operator of surplus milk which is disposed of as other source milk for Class I purposes in the marketing area.

If unregulated plant operators were allowed to dispose of surplus milk for Class I purposes in the regulated marketing area without some compensating, or neutralizing provision in the order, it is clear that the disposition of such milk, because of its price advantage relative to fully regulated milk, would displace the fully regulated milk in Class I uses in the marketing area at whatever time such milk might be available. The plan of Congress, as contemplated under the Agricultural Marketing Agreement Act of 1937, of returning minimum uniform prices to the producers for the regulated marketing area, would be defeated. Moreover, inefficiencies in the marketing of milk would be encouraged, for the regulated market would obtain its Class I milk not from the regular and normal sources of supply for the market but from other sources of supply generated solely as a result of the occasional price advantage created for unregulated milk by the regulation itself. Providing for some method of compensating for, or neutralizing the effect of, the advantage created for unregulated milk therefore is an essential and necessary provision of this order. Since the value for Class I milk in a regulated market is established at the level of the Class I price provided for in the order and since the true value of other source milk when disposed of in the marketing area is the Class II value, a payment computed as the difference between the Class I price and the Class III price will remove the advantage which other source milk would have when disposed of for Class I purposes in the marketing area.

A possible alternative method of determining the rate of the compensatory payments was explored at the hearing. Such rate would be equal to the difference between the Class I price and the price actually paid by a handler for other source milk of Grade A quality. Under the circumstances which prevail in the Cleveland marketing area, a handler normally would come into possession of this type of other source milk by purchasing it from an unregulated milk plant. The milk which such a handler receives under these circumstances is at a different stage in the marketing process than is the milk which would be priced under an order. Order prices apply to milk as received at the first plant from individual farmers. The price paid by a handler for other source milk applies to milk which has already been received at the first plant, weighed, tested, cooled and placed in a transportation conveyance. Obviously, the handler generally will pay more for other source milk under this condition than he would for milk received directly from farmers, for the plant operator who first receives the milk from farmers must necessarily obtain a markup if he is to be recompensed for the services which he has performed on the milk. In some situations, the purchase of other source milk might be made from a plant operated by the same company as the regulated plant. Thus, the transaction would be primarily a matter of bookkeeping within the same company and it would be advantageous to the company if the price for the milk were to be stated as the Class I price. For by this means, all compensatory payments into the equalization fund would be avoided. Even between plants controlled by different companies, the advantage of showing that the price at which the milk was exchanged was at least as high as the Class I prices would give great impetus to the effectuation of paper transactions showing a price at least equal to the Class I price while undisclosed payments were made in order to avoid the imposition of the compensatory payments into the equalization fund. Under these circumstances, it is impractical from an administrative standpoint to provide for a payment the actual amount of which is within the control of parties to the transaction. It is essential instead that the payment be computed on an objective basis and that it be equal for all handlers for similar transactions. The proposed method of computing the payments conforms with these requirements but this alternative method fails to do so.

Another possible rate of payment would be based on the difference between the price paid by the first receiver to farmers and the Class I price. However, from evidence presented at the hearing it is clear that this method would also be impractical under the circumstances prevailing in the Cleveland market. The primary reason is that some handlers purchase some or all of their milk from other plants rather than directly from dairy farmers. Also the payment plans which are used by unregulated operators include such varying practices as paying uniform prices on a straight utilization basis, paying on a base and excess plan, paying irregular and non-uniform premiums, absorbing transportation charges, and paying on a variety of butterfat and location differentials. This wide variety of payment plans would render impossible an accurate ascertainment of the actual prices paid to farmers by the first receiver. But what is equally as important, as shown above, is that the price actually paid to farmers does not determine the true value of other source milk disposed of in the marketing area. The true value for such milk, irrespective of the price paid for it to farmers, is the manufacturing value because other source milk disposed of in a marketing area is in fact the surplus of milk produced primarily for sale in an area outside of the regulated marketing area. Hence, although other suggestions for computing the rate of the compensatory charge have administrative and other difficulties inherent in them, in the final analysis even if they were administratively feasible, they would not be fully effective in removing the advantage which attaches to other source milk when it is used as Class I milk in the regulated marketing area. Only the difference between the Class I price and the Class II prices accurately reflects this advantage and consequently only this rate will be fully effective in dealing with the problem of integrating other source milk (when used as Class I) into the regulatory plan.

Compensatory payments should not apply to purchases of supplemental milk at times when the market as a whole is short of producer milk. This effect is achieved under the present order by allowing a city plant to purchase up to half of its milk from unregulated sources without making compensatory payments. As previously mentioned, this provision is related to the present order provisions for the qualification of new supply plants, but the exemption from compensatory payments is not confined to purchases of milk from plants which are in process of qualifying. Since the attached amendments would give a new supply plant immediate pool status on a month-to-month basis, the compensatory payments have been made to apply to all other source milk used in Class I unless the market is short of producer milk.

At times in the past when the Cleveland market has been short of producer milk, supplies of quality milk from other sources have also been limited and more costly than the minimum Class I prices established under the order. The Cleveland market is so large in relation to the other fluid milk markets in northern Ohio and Indiana, and its milkshed so widespread as to make it probable that other source milk would also be expensive during any future situation of short supply.

The Cleveland market should be considered short whenever producer receipts are less than 110 percent of the gross Class I utilization at pool plants. This is below the percentage adopted as "standard" in the supply-demand adjustment, and the market can be considered definitely short of milk at this monthly average percentage because of daily and weekly variations in sales and receipts during the month. The percentage standard is based on marketwide data. No handler can obtain other source milk without an equalizing payment merely by buying short from his own producers. He must either take on sufficient supplies for his own use or depend upon other handlers who have supplies in excess of their own Class I needs.

Some of the exceptions filed by interested parties raised a question about the applicability of compensatory payments to Class I sales in the marketing area from nonpool distributing plants. A distributing plant could have a substantial volume of sales in the area, yet not be fully regulated as a pool plant if less than half of its total receipts of milk were sold for fluid uses. The milk sold in the marketing area would be unpriced, "other source milk", as defined in the order, and the compensatory payments are equally as applicable to it as to other source milk purchased by a pool plant operator as supplemental milk.

The operator of the nonpool distributing plant would have the same opportunity to purchase milk at the Class III price level as the operator of a pool plant. In fact, he probably would have surplus milk in his own plant which he would like to dispose of on any basis which would yield a higher return than the manufacturing value. In the absence of compensatory payments the operator of a nonpool distributing plant would have a particularly good opportunity to bid on institutional contracts in the marketing area or to sell his surplus milk to Class I outlets for the purpose of establishing a regular retail or wholesale trade to homes and stores in the marketing area.

No compensatory payments are required under the Cleveland order on milk classified and priced under another Federal order. The close relationships between the Cleveland, Akron, and Stark County, Lima, Toledo, Fort Wayne, and Detroit markets have already been described. Since the Class I prices in the competing markets are so closely aligned with those under the Cleveland order, there is no prospect of handlers in any one of the several markets achieving a competitive advantage over any significant period of time.

All funds collected from other source milk should be added to the producer-settlement fund. Since the compensation payments apply only when there are adequate supplies of producer milk in the market, the payments will compensate producers for the loss of income represented by the Class I sales of other source milk.

The regulated handler should be obligated to make the compensatory payments. There will be no difference in actual price paid for milk whether the payment is made by the regulated handler or by the operator of the unregulated plant from which the other source milk is obtained. However, the regulated handler makes the actual distribution of milk and reports its utilization to the market administrator, therefore from an administrative viewpoint he is the logical one to make the payment.

5. *Responsibility and reclassifications.* Handlers proposed that accountability for the classification of milk be shifted to the ultimate user of the milk instead of being left with the handler who first received the milk from producers.

The handler who had encountered the most difficulty with the present provision operates a country supply plant and sells milk to a number of distributing plant operators. It is apparent that whether the operator of a country plant remained responsible for audit adjustments and other reclassification or whether this responsibility was shifted to the city plant, the two parties would have to agree between themselves on the incidence of such adjustments. Also, it was testified that the amounts involved had been greatly reduced since the market administrator developed a procedure for reconciling the original utilization reports of the country plant and the several city plants. In view of these considerations and the general administrative desirability of keeping the responsibility applicable to the operator of the plant of first receipt, especially in case of transfers to nonpool plants, it is concluded that the proposal should not be adopted.

6. *Allocation of milk.* The provision for prorating other source milk with producer milk in the allocation of producer milk to the several classes of utilization should be deleted.

The order now provides that other source milk may be allocated on a pro rata basis by each handler to the extent that producer receipts are less than 110 percent of Class I sales at his plant. On the other hand, whenever producer receipts are in excess of 110 percent of the handler's Class I utilization, any purchases of other source milk by the handler must be allocated to the lowest class of utilization, thereby assigning producer milk to the higher classes of utilization.

The amended provisions for qualifying new country supply plants as pool plants on a month-to-month basis will greatly reduce the applicability of the prorating provision. Under the present order the milk from a newly qualifying country plant remains other source until after the 6-month shipping period is completed. Under the prorate provision, any distributing plant which was short of producer milk could purchase the other source milk from the new plant during the months of October through January without having its producer milk allocated to the higher classes. The amended pool plant definitions would designate the country plant milk as producer milk in each month that the minimum percentage requirements were met.

The prorate provision conflicts with the principle that producer milk should be allocated to the highest classes of use because it is the milk which is regularly available for fluid consumption in the marketing area. It permits an individual handler to purchase other source milk and leave proportionate quantities of producer milk in Class II or Class III at a time when there may be abundant supplies of producer milk elsewhere in the market.

It was testified that the Cleveland handlers have been so well supplied with producer milk in recent years that the prorate provision has been virtually inoperative. It appears, therefore, that the deletion of the provision is particularly appropriate at this time since it will not necessitate any major adjustments in the procurement plans of handlers.

7. *Method of stating class prices.* The order should be revised to provide that Class prices for milk be stated in terms of a hundredweight of milk containing 3.5 percent butterfat, with a differential for each one-tenth of a percent that the actual butterfat test varies from 3.5 percent.

The butterfat and skim milk utilized in each class is accounted for separately under most of the Federal orders, including all the orders in Ohio. The price per hundredweight of milk must, of course, be allocated to the skim milk and butterfat components. In most orders throughout the United States this is accomplished by specifying a basic butterfat test and a butterfat differential, which is the amount to be added or subtracted from the announced price for each one-tenth of one percent variation in butterfat content. Under the present Cleveland order the 3.5 percent price is only an intermediate computation; official class prices are then computed and announced separately per hundredweight of butterfat and per hundredweight of skim milk. There is no substantive difference between the two means of computing and announcing class prices. However, the butterfat differential method is more simply stated, focuses attention on the 3.5 price, and is used in the majority of orders which utilize a butterfat and skim milk accounting system.

8. *Class I prices.* The three major changes in the Class I price provisions are that (a) the stated Class I differentials should be changed to $1.35 per hundredweight during the six flush

months of February through July and to $1.80 during the short production months of August through January; (b) the seasonal pattern of the standard utilization percentages in the supply-demand adjustment should be modified to reflect recent and prospective changes, retaining, however, the present standard of 117 percent in November and the present schedule of price changes; and (c) the Class I butterfat differential should be set at 30 percent over the market price of butter, with the 45-cent per hundredweight discount on cream eliminated.

(a) *Stated differentials.* Under the present order, seasonal changes in the level of the stated Class I price differentials are relied upon to provide the principal economic incentive for producers to furnish uniform quantities of milk to the market at all seasons of the year. The differential is at a low of $1.00 per hundredweight over basic formula prices in the flush months of April, May, and June; at an intermediate level of $1.45 during February, March, and July; and a peak of $1.90 during the short production season of August through January.

The eligible allotment plan was proposed as a more directly effective means of encouraging level production. It depends upon a maximum difference between the eligible and ineligible prices during the spring flush months to encourage producers to earn as large an eligible allotment as possible in the previous fall and to minimize the production of ineligible excess milk in the spring. Any seasonality in the Class I differential reduces the flush season difference between the eligible and ineligible prices. However, producers proposed that less complete reliance be placed upon the quota plan at its inception. They proposed that a 45-cent seasonal variation be retained. In view of the importance of educational efforts to the success of the plan and the subjective nature of seasonal incentives in general, it is concluded that a 45-cent variation should be adopted. The high price of $1.85 will be effective in the same months, August through January, as the maximum price under the present order, and the $1.40 will prevail in the remaining six months of February through July.

The stated Class I differentials of $1.40 and $1.85, for 6 months each, average 6¼ cents higher than at present, $1.62½ as compared with the present $1.56¼. However, virtually the entire increase is offset by a price reduction which results from changing the seasonality of the supply-demand adjustment. This change is discussed in more detail later in this decision. At this point, however, the net effect of the modifications on the resulting Class I price is relevant. Over the 20-month period that the present supply-demand provisions have been in effect, August 1953 through March 1955, they have reduced the Class I price by an average of 18.6 cents per hundredweight, whereas the seasonally-modified adjustment would have reduced it by an average of 23.8 cents.

Producers had proposed that the average of the Class I differentials be increased to $1.63¾ and that the supply-demand adjustment, which has reduced the price in most months, be eliminated. However, it is apparent that the present schedule of Class I differentials and the supply-demand factor have been high enough to attract an adequate supply for the needs of the market. A supply equal to 117 percent of Class I sales is considered normal in the month of lowest production; in 1953 the lowest supply in October, was 125.4 percent of sales and in October 1954 the low was 132.5 percent. Developments which may tend to reduce milk supplies include the announcement by the Cleveland health authorities of a requirement that milk be delivered to the plant at such a low temperature that mechanical coolers on the farm would become a virtual necessity. These are not only costly, but also the use of electric power as is required by such cooling equipment is contrary to the religious beliefs of many producers in the area. The Brucellosis eradication program recently undertaken by State authorities may also significantly affect herds in the area. However, if these or other future developments prove that the stated Class I differentials are inadequate to assure a full supply of milk, the supply-demand adjustment will provide automatic price increases for such time as may be required to arrange for review of the entire Class I price structure at a public hearing.

Another gauge of the level of Class I prices is provided by a comparison with prices in the markets with which Cleveland handlers compete for supplies or in the distribution of milk. The Class I prices which have been in effect in Cleveland since the inception of the supply-demand provision (August, 1953) appear to have been in appropriate adjustment with those in competing markets. Official notice is taken of Class I price data showing that during the 17-month period, August 1953 through December 1954 Cleveland prices compared with those in competing markets as follows:

Competitive market		Cleveland market	
Market	Class I price	Class I[1] price	Competitive point
Cincinnati, Ohio[2]	$4.53	$4.40	East Liberty, Ohio.
Columbus, Ohio	4.38	4.40	Do.
Dayton-Springfield, Ohio.	4.46	4.40	Do.
Detroit, Mich.[3]	4.22	4.32	Coldwater, Mich.
Lima, Ohio	4.44	4.38	Lima, Ohio.
Stark County, Ohio.	4.67	4.66	At Cleveland.
Toledo, Ohio	4.44	4.44	Bowling Green, Ohio.

[1] City plant price less location adjustments at the indicated competitive points.
[2] At plants over 45 miles from Cincinnati.
[3] At Litchfield, Mich., the closest Detroit plant to Coldwater, Mich.

It will be seen that Class I prices under the Cleveland order have been very closely in line with those in other Ohio markets and Detroit during the 17-month period. Moreover, during 1954 the Class I prices under the Lima order were related directly to the Cleveland price less location differential, and those in the Stark County were adjusted to stay as closely as possible to 5 cents less than the Cleveland Class I price.

The year 1955 will be a period of transition between the seasonal price plan and the quota plan. Beginning in October 1955, producers will be establishing their eligible milk allotment quotas for use during the period April–June 1956. Their plans for breeding, feeding, purchases of cows, and the like will necessarily precede October by many months. Conceivably the changes in the seasonal pattern of the Class I differential could be postponed until April 1, 1956 on the basis that that is the first date when the eligible allotment plan will be reflected in payments to producers. However, producers strongly recommended that the change in seasonality be made effective as promptly as possible. In view of the fact that advance preparations for the plan are already in progress and that the annual average level of the Class I differential is not significantly affected, it is concluded that the changes should be made effective immediately upon the effective date of the amendments contained herein.

(b) *Supply-demand adjustment.* The supply-demand adjustment provisions of the present order should be retained, but a substantial modification should be made in its seasonal effects.

The adjustment was not reviewed in as much detail as at the hearing of June 17, 1953 nor was evidence presented which alters the conclusions contained in the final decision issued by the Acting Secretary on July 27, 1953 (18 F. R. 4473). Producers and those handlers who submitted proposed amendments to the Class I price provisions, specifically omitted any supply-demand adjustment. Their principal basis for this omission was a belief that the amounts subtracted from the stated Class I differential over the 15-month history of the present adjustment had resulted in unduly low prices. The preceding analysis of the general level of the Class I prices which have prevailed do not support this conclusion.

However, it is apparent that the seasonal pattern of the present adjustment has not coincided with recent or prospective conditions in the market. From March 1, 1952, when the latest country supply plants became qualified, to date, the seasonality of the utilization percentages has been remarkable uniform and substantially different from the standard percentages incorporated in the order. (In this period supplies have also averaged approximately 13 percentage points above the standard in relation to Class I sales but this is a matter of the production level rather than of seasonal pattern.) In two of the three years October supplies were actually lower than in November, whereas the present standard reflects substantially higher supplies. September supplies have also been lower in relation to sales than is reflected in the standard. On the other hand flush season supplies during 1952–54 have been in almost the same proportion to November supplies as in the order standard.

The average utilization percentages for the three-year period March 1952 through February 1955 (official notice is taken of these data for the last 4 months of the period) ranged from 128.9 percent for October and 129.9 for November to a high of 190.6 for May. Reduced to a November average of 117.0, the present normal for the month of lowest production, the three-year average for May would be correspondingly reduced to 171.7 percent. In anticipation that the eligible quota plan will reduce the flush season excess, it appears that the revised normal utilization percentages should be further reduced to a maximum of 165.0 percent in May.

The revised normal percentages and the new standard utilization percentages, based on the normal percentages for the first and second preceding months, would be as follows:

Month	3-year percentage, adjusted[1]	Normal percentage[2]	Standard utilization percentage[3]
January	130.0	130.0	120
February	133.8	133.8	127
March	143.8	143.8	132
April	150.2	150.2	139
May	171.7	165.0	147
June	162.2	158.0	158
July	140.2	140.2	162
August	133.0	133.0	149
September	123.2	123.2	137
October	116.1	117.0	128
November	117.0	117.0	120
December	123.9	123.9	117

[1] Averages for the period March 1952–February 1955, adjusted to November 117.0.
[2] Percentages for May, June, and October adjusted to reflect anticipated changes in seasonality.
[3] Average of normal percentages for the first and second preceding months, rounded to nearest whole number.

The change in seasonality of the standard utilization percentages should be the only modification in the supply-demand adjustment. The level of the adjustment should continue to be set at 117 for the month of November, the first and second preceding months should continue to measure oversupply or undersupply, and the schedule of price changes should remain as at present. The adjustments which would have prevailed during 1954 under the amended schedule of standard utilization percentages would have been –25 cents in all months except September and October 1954, when it would have been –19 cents.

(c) *Butterfat differential.* Serious consideration was given at the hearing to possible revision of the relative values of butterfat and skim milk in Class I, with special attention being given to fluid cream. Under the present order, cream is classified as Class I but the price per hundred pounds of 3.5 milk utilized to produce cream is 45 cents less than the price for other Class I uses. In both categories of use 70 percent of the Class I price is assigned as the value of the 3.5 pounds of butterfat and 30 percent as the value of the 96.5 pounds of skim milk. Since the price of Class I milk varies seasonally, the value of the butterfat used in fluid cream also varies. During the 12 months preceding the hearing (November 1953 through October 1954) the price per pound of butterfat in fluid cream ranged from a low of 1.13 times the price of 92-score butter at Chicago in May and June to a high of 1.52 times the price of butter in September and October. The 12-month average was 1.33.

There is a considerable volume of "open market" cream sold through brokers in the Cleveland market area. It was testified that such cream has been available at prices which are below the fluid cream price under the order by as much as $5.00 per 10-gallon can of 40-percent cream. Handlers contended that most users of bulk cream obtained their supplies from brokers rather than from regular handlers. Apparently cream from some plants, not subject to the order may also be of suitable quality for distribution as bottled cream. Such evidence as was presented at the hearing on the prices charged by cream brokers indicates that such prices are maintained at a reasonably consistent relation to the butter market. Although there was conflicting evidence on the exact level of brokerage cream prices, it appears that the value of 1.3 times the butter price will be appropriate. This is somewhat lower than the average order value during the past 12 months and is the same value as specified in the Toledo, Lima, Canton, and Akron orders.

Handlers also indicated that the fundamental problem underlying their proposal for a lower classification on skim milk and butterfat disposed of to bakeries, candy shops, and soup kitchens involved the high valuation of butterfat in fluid cream. It is concluded that the adoption of a Class I butterfat differential at 30 percent over the price of butter for all months of the year will make order prices competitive with brokerage cream and thereby permit handlers to supply those outlets on a fully competitive basis.

During the past 12 months the value of butterfat in Class I items other than fluid cream has ranged from a low of 1.28 times the market price of butter in June 1954 to a high of 1.67 in September and October. In Cleveland, as well as in most markets in the United States, sales of fluid cream and high-test milk have been declining, while sales of skim milk, buttermilk, flavored drinks and other low-testing products have been increasing. This change in consumer habits should be recognized by reducing the value of Class I butterfat and correspondingly increasing the value of the skim milk component. This reapportioning of the values of butterfat and skim milk components is in keeping with continuing reports that butterfat values have been at such high levels as to have had a considerable effect on the downward trend of cream and butter consumption during recent years.

It is concluded that the butterfat differential on all Class I uses should be established at 0.13 times the market price of butter and that the full Class I price should be applied to fluid cream as well as to the other products.

(9) *Class II and Class III.* The changes made in Class II and Class III may be summarized as follows:

a. The new definition of Class II milk includes only cottage cheese. Ice cream, aerated cream, and other uses now in Class II will be reduced to Class III.

b. The new Class II price will be the basic formula price plus 30 cents, with the same butterfat differential as applies to Class III, namely 15 percent over the price of 92-score butter at Chicago.

c. The new definition of Class III milk includes all manufacturing uses except cottage cheese. It is a combination of the present Class II items other than cottage cheese with the present Class III items including butter.

d. The new Class III price will be the higher of the present basic formula prices, which consist of a butter-powder formula price and the average of the prices paid at a group of Midwestern condenseries, with the exception that during May and June, 1955, a local plant price will prevail.

Under the present order the two major uses of Class II milk are ice cream and cottage cheese. The other manufactured dairy products are included in Class III, except that butterfat manufactured into butter or contained in allowable shrinkage of producer milk is included in a special subcategory of Class III and priced at a discount below the regular Class III price. The prices of butterfat used in Class II and Class III (except butter and shrinkage) have been the same since November of 1952. However, the price of skim milk in Class II is based upon market quotations for spray process nonfat dry milk solids at Chicago, whereas the value of Class III skim milk is based upon the value of roller process nonfat dry milk solids, f. o. b. manufacturing plants, resulting in values about 29 cents per hundredweight lower than the price of Class II skim milk.

In the recommended decision it was concluded that milk utilized in the manufacture of both cottage cheese and ice cream should be classified and priced in the same classification as uses presently included in Class III. Since the Class II and Class III butterfat values in the present order are already the same, this change would have put all surplus uses of milk in a single price class. Also, it was recommended that the handler location differentials apply only to Class I utilization instead of on both Class I and Class II uses.

In exceptions to the recommended decision it was pointed out that the combination of a lower price and lack of location adjustments would seriously affect present competitive relationships between regulated handlers in the manufacture and distribution of cottage cheese, even though the lower price might improve their position in competition with cottage cheese brokers. Most of the cottage cheese is made at the city plants where handlers feel that they can produce a better product from milk than they can if they purchase curd made at country plants. Under the terms of the recommended decision those handlers who made cheese from milk delivered directly to the city plants from farms would incur no additional expense, but those handlers who brought milk in from country plants would have to pay for the transportation. It was also pointed out that the country plants supplying the milk for manufacturing this cheese have received pool plant credit for such shipments. Their position would be adversely affected by the absence of location adjustments.

This dilemma can be resolved by placing cottage cheese in a separate class (Class II), pricing it at 30 cents over the basic formula price, which is also the Class III price, and allowing the transportation charges on the milk so utilized. The 30-cent premium compares with an average Class II premium over basic formula prices of 29 cents in 1953 and 1954. The Class II price must be stated as a definite amount over the Class III price instead of in terms of the present butter-powder formula, since the new Class III price is no longer a strictly butter-powder price. The 30 cents is equal to the handler location adjustment at the 130-to-144 mile zone. As compared with the recommended decision, producers will have a net gain on milk received and made into cottage cheese at any plant closer to Cleveland and will lose only on the smaller quantities shipped from more distant plants.

The present provisions for higher classification and prices on skim milk utilized in ice cream than in other manufacturing uses have led to several inequities. Condensed skim milk has been an important outlet for nonfat solids in the Cleveland market. This product is used primarily in the manufacture of ice cream. If it is sold to the operator of an unregulated ice cream plant, either within or outside the marketing area, it is priced at Class III. However, if the condensed skim milk is utilized in the manufacture of ice cream within a regulated plant, it is reclassified as Class II. It was contended at the hearing that this leaves handlers who manufacture ice cream in their own facilities at a substantial price disadvantage in the manufacture and sale of ice cream. It is concluded, therefore, that the classification and pricing of skim milk utilized for the manufacture of ice cream should be the same as that utilized in such other ice cream ingredients as plain or sweetened condensed skim milk and nonfat dry milk solids.

The butterfat portion of the Class III butter-powder formula in the present order has been established at 20 percent over the price of 92-score butter at Chicago. As previously explained, the skim milk value has been based upon the price of roller process powder at manufacturing plants in the Chicago area. Handlers proposed that the Class III price be determined by prices paid for manufacturing grade milk at local plants instead of by a butter-powder formula. During the 22 months preceding the hearing this would have reduced the Class III price by an average of 23 cents per hundredweight.

It appears, however, that Class III butter-powder formula has represented an appropriate value for milk for manufacturing uses in the past two years, in all except the extreme flush months. All of the milk delivered by the producers in excess of fluid needs has been marketed for manufacturing purposes. One of the cooperative associations in the market maintains milk manufacturing facilities. Its membership currently comprises nearly 10 percent of the total number of producers supplying the market. In addition to manufacturing all of the excess milk delivered by its own producers, this cooperative has manufactured milk diverted by other handlers. The manager of this cooperative testified that it has handled such milk without loss and that it has paid order prices for milk purchased from other handlers, except in rare cases involving small quantities, irregular supplies or similar conditions.

During the flush production months (April, May, and June) of 1953 and 1954 the unusually large volumes of milk which have had to be disposed of in manufacturing outlets have necessitated lower prices than the Class III butter-powder formula. During each of these seasons the Class III price was reduced to approximately the level of the prices paid for milk at local manufacturing plants.

Present indications are that the quantities of milk which must be converted into manufactured dairy products in May and June of 1955 and the problems involved in obtaining favorable prices for such milk will be similar to those that prevailed during the corresponding months of 1953 and 1954 and in April 1955.

Production per producer and total receipts from producers have continued to increase more rapidly than Class I sales. Receipts in the market are considered normal when they equal 117 percent of Class I use during November, the month of shortest supply, and 171 percent in the flush month of May. However, during November 1952, the receipts to sales ratio was 9 points above normal and in the following May was 22 points over. In November 1953 it was 12 points above normal and in the following May 20 points over. In November, 1954, the ratio was 17 points above normal, indicating the possibility that the oversupply in the coming flush months may be more burdensome than during the flush periods of 1953 and 1954. In such event, handlers' own facilities will again be unable to accommodate all the milk which is not sold in fluid form, and large quantities may need to be shipped to nonhandler manufacturing plants.

On the basis of experience of recent months it appears likely that local plant prices will remain more nearly equal to butter-powder values in May and June, 1955 than in the corresponding months of the two previous years. The stronger current position is indicated by the fact that prices paid at the local plants listed under the Lima order (which includes 5 of the 10 plants recommended herein) averaged $2.89 for 3.5 milk and were only 13 cents below the butter-powder formula price in March 1955, as compared with 52 cents below in March of 1954. The $2.89 for 3.5 milk and a butterfat differential of 6.3 cents per point is equal to a price of $3.17 for milk of 3.95 percent butterfat content. The $3.17 is 2 cents above the announced support level of $3.15 per hundredweight. Furthermore, during November and December 1954 these local plant prices were a few cents above the butter-powder formula price, and also above the average prices paid at the Midwestern condenseries. In the same two months of 1953 the local plants averaged 20 cents below the butter-powder value and 14 cents below the Midwest condensery price. To the extent that these recent, stronger prices paid at local plants are carried into May and June, they will continue to provide a measure of the value of manufacturing milk which will reflect reasonable returns to producers and yet permit the milk to be readily marketed.

The local plant price to be used as the Class III price during May and June, 1955 should be the average of the prices paid for 3.5 milk at all of the local plants listed under the Lima, Toledo and Fort Wayne orders. These plants are all located within the Cleveland milkshed. Their prices are representative of the prices paid for manufacturing milk in the area, are used for such purpose under those other orders, and are readily available to the respective market administrators. The present operators and locations of the plants are as follows:

Defiance Milk Products Co., Defiance, Ohio.
Fisher Dairy & Cheese Co., Wapakoneta, Ohio.
Kraft-Phenix Cheese Corp., Kendallville, Ind.
Nestles Milk Products Co., Marysville, Ohio.
Pet Milk Co., Angola, Ind.
Pet Milk Co., Coldwater, Ohio.
Pet Milk Co., Delta, Ohio.
Pet Milk Co., Garrett, Ind.
Pet Milk Co., Hudson, Mich.
Swift & Co., Lima, Ohio.

There should not be any special price for milk in the new Class III for the flush seasons following 1955. It is anticipated that the new plan for achieving a more level seasonal pattern of production will have become effective to an extent which should substantially reduce the quantities of excess milk to be disposed in April, May and June of 1956 and succeeding years.

For the months following June, 1955 the basic formula price will provide an appropriate measure of the value of milk used for manufacturing purposes in the market. The basic butter-powder formula would have been the effective Class III price in each of the months of January 1953 through September 1954. In October 1954 the Midwest condensery price would have been effective, at 1.1 cents over the butter-powder formula, in November at 5.0 cents over, in December at no overage (the prices were equal), in January 1955 at 4.1 cents over, and in February at 0.3 cents over. In March 1955 the butter-powder formula would again have been effective.

The discount of 5 cents per pound of butterfat made into butter or contained in allowable shrinkage should no longer apply. The basic formula butter-powder price is developed with a make allowance of 3.6 cents per pound of butterfat and the reduced butterfat differential will lower the value of all Class III butterfat, including that used in the manufacture of butter or contained in shrinkage.

The basic butter-powder formula has averaged 1.9 cents per hundredweight below the present Class III butter-powder price during 1953 and 4.6 cents below in 1954. The small difference between the two formulas is accounted for by the fact that the basic formula has a 3-cent make allowance per pound of butterfat but uses the average of

spray- and roller-process nonfat dry milk solids price quotations whereas the present Class III formula has no make allowance on fat but uses only the roller process quotations. The compelling reason for adopting the basic formula rather than continuing to use the present Class III formula is that the Class II prices in the Federal orders for the nearby markets of Akron and Stark County use the basic formula. The fact that several handlers have plants in two or more of the markets, the ease with which they can shift manufacturing operations by transferring or diverting producers, and the close competition between them in the sale of Class II products make it highly desirable to keep the Class II prices closely aligned in all three markets.

Reducing the classification and price of the skim milk components of ice cream and other Class II items will, inevitably, reduce the amount of money received by producers for these products whenever the price of the new Class III is based upon butter-powder values. However, the returns from these and all other Class II and Class III uses of milk would be substantially increased during periods like 1951 and 1952 when condensery prices were in excess of butter-powder values.

The butterfat differentials paid by handlers for milk above or below 3.5 percent butterfat content in Class II and Class III should be equal to 0.115 times the price of 92 score butter at Chicago. The Class II differential should be the same as in Class III in order that the price premium be on the skim milk, which is the principal component of cottage cheese. The Class III differential of 0.115 is somewhat lower than the relative value of butterfat in the present Class III price, but reflects the fact that considerable Class III butterfat was used to manufacture butter or contained in shrinkage and was priced at a discount of 5 cents per pound.

Under the present order handler's sales of any nonfluid dairy products such as butter or ice cream which were obtained from unregulated sources and disposed of in the same form as received are reported and classified. In the recommended decision handlers were relieved of the necessity of reporting either the receipts or utilization of such products. However, in their exceptions handlers contended that a more thorough check on total receipts and utilization can be provided by the present system. It is concluded that such items should continue to be reported.

10. *Location adjustments to handlers.* The location adjustments to handlers on milk used for Class I purposes should be increased to reflect increased costs of transportation. The new rates should start with 20 cents at plants located 60 to 74 miles from City Hall in Cleveland, and be increased by 2 cents for each additional 14 miles.

These compare with present rates of 15 cents at plants located in the 60 to 75 mile-zone, 18 cents at 75 to 90 miles, and 2 cents per 15 miles thereafter. These rates apply both to Class I and Class II.

Handlers testified that the present rates are not equal to the amounts charged by contract haulers for transporting milk in bulk from the supply plants to the marketing area. A few supply plant operators maintain their own trucks and tanks, but the majority depend upon contract haulers. The higher wages paid to drivers, increased costs of equipment, and the axle mile tax in Ohio represent additional costs since the hearing of May 1952, when the differentials were last reviewed.

Milk hauling costs can be considered in two steps. One is the minimum cost of providing the equipment and driver, loading, and cleaning. The other is the cost per mile of transporting the milk additional distances. The most direct testimony on the short-haul minimum was presented by the operator of a supply plant in the 60–75 mile zone. He testified that he had a 20-cent rate with a contract hauler, on the basis of regular daily shipments. The second benchmark for which specific hauling cost data were available involved a plant in the 195 to 210-mile zone. The contract haul charge from this plant is 40 cents, as compared with an allowed rate of 34 cents under the present schedule.

It appears that the rates at intervening locations can most appropriately be set at a constant rate per zone since they are primarily a function of the added distance. Accordingly, and in view of the administrative desirability of keeping the rate in terms of whole cents, the mileage zones for each 2-cent change in rate need to be set at 14 miles beginning at plants located more than 60 miles from City Hall. The same rate structure of 2 cents per 14 miles should be extended to distances beyond the 200 to 214-mile zone. The only cost which is avoided at these distances by plants located in Indiana and Michigan is the Ohio axle mile tax, and this amounts to only seven one-hundredths of a cent per hundredweight per 14 miles.

The handler location adjustment should continue to apply to all Class I disposition from a plant whether the milk is sold within the Cleveland marketing area, locally, or to distant points. Also, since all the manufacturing uses except butter and shrinkage have been combined into the new Class II items, the location adjustment to handlers should be confined to Class I. The location adjustment should apply to any plants which may be located within the expanded marketing area, but more than 60 miles from the Cleveland City Hall by road distance.

Under the present order, the location adjustment to handlers applies to the actual weight of all Class I and Class II products moved to the marketing area. The value of the pooled milk is, therefore, reduced to the extent that handlers physically move milk to marketing area plants for other than Class I requirements. Producers should not bear the transportation expense on such movements of milk. Rather, they should bear the cost of transporting on only that milk which is actually used for Class I purposes. A method is provided for determining the order in which milk from various sources should be allocated to Class I for the purpose of computing the location adjustment. The method gives first priority to milk received directly from producers at the plant which has Class I utilization and then assigns receipts from supply plants in the order of their nearness to the Public Square in Cleveland.

11. *Location adjustments to producers.* The minimum uniform prices to producers delivering milk to plants located more than 60 miles from the Cleveland City Hall should be reduced by the same rate of location adjustments as apply to Class I sales by handlers. This follows the principle that whenever the producers' milk is actually used for Class I purposes, it is worth the market area price less the cost of transporting it to the market. The only modification to this principle is that during April through June, when the eligible allotment plan is operative, the producer location adjustment should be applied only on the eligible milk.

Under the present order the rates of location adjustment to producers and handlers are the same except that an adjustment of 13 cents is allowed to be deducted by handlers in paying producers delivering to plants in the 30- to 60-mile zone. This is purely permissive and is specifically excluded from the calculation of the uniform price under the marketwide pool.

Producers proposed that the location adjustment apply only on eligible milk, in those months when the allotment plan is operative. They maintained that the minimum value of ineligible milk is the manufacturing value which does not vary with distance from the market. The attached order does not provide location adjustments to handlers on Class II or Class III milk. It is concluded that the producer location adjustment should apply only to the eligible milk during the operating months of the eligible quota plan.

12. *Butterfat differential to producers.* The butterfat differential used in paying producers for milk testing above or below 3.5 percent butterfat should continue to be based on the weighted average values of butterfat and skim milk in Classes I, II, and III. This follows the same principle as the payment of a uniform price to all producers. Each producer shares equally in the total value of the handlers' utilization in each class at the basic test of 3.5 percent butterfat. It is equally appropriate that each producer should receive the average utilization value of the butterfat and skim milk components for milk testing above or below 3.5 percent.

A weighted average will give butterfat a somewhat higher value and skim milk a correspondingly lower value than those proposed by producers. However, it will be lower than the present differential in most months because the Class I butterfat differential has been changed from a percentage factor to a fixed relation to the Chicago butter price.

13. *Milk from other Federal order markets.* The order now provides that milk disposed of as Class I in the Cleveland marketing area from a plant which the Secretary determines to be subject to the pricing and payment provisions of another Federal order are not subject to the pricing and payment provisions of

the Cleveland order. Although such sales have been negligible in the past, the Akron marketing area is so close to Cleveland that Akron handlers might increase their Class I sales on routes in Cleveland to such an extent that they would become subject to the Cleveland order, except for the fact that they are already regulated under the Akron order.

A more common example of other Federal milk going into the Cleveland market is represented by the purchase of such milk by Cleveland handlers operating Cleveland pool plants. At any time when the Cleveland market is short of producer milk the handler might be expected to draw upon other Federal markets as well as unregulated sources for a supplemental supply of milk. The order provides that any supplemental or other source milk (whether from the regulated or unregulated sources) shall be allocated to the lowest utilization at the pool plant. However, no compensatory payments are levied on such quantities of other Federal order milk as may be allocated as Class I in the Cleveland pool plant.

Handlers proposed that supplemental milk received at a pool plant from other Federal markets should be allocated under both orders to any class of use agreed upon between the two handlers, in much the same fashion as the transfers between Cleveland handlers. It is apparent, however, that this proposal could lead to serious disruption in the pool. For example, any firm which had plants both under the Cleveland and Lima orders could maintain a 100 percent Class I utilization in the Lima market, which has an individual-handler pool, by the expedient of transferring to its Cleveland plant, as Class I, any flush season surplus of milk which might otherwise be classified as Class II in Lima. Similarly, even between markets with marketwide pools, a handler with a plant in each market could influence the comparative blend prices. So long as the various Federal markets maintain their separate identities and separate pooling arrangements, it is highly desirable that the producers who regularly supply milk to any given plant have a prior claim on that plant's Class I utilization.

It is concluded that there should be no change in the provisions for allocating to the lowest utilization supplemental milk received at a Cleveland pool plant from other Federal markets. It should, however, be specified in the order that supplemental other source milk from unregulated plants be allocated first to the lowest uses at the pool plant and that other source milk from a plant regulated under another Federal order be then assigned to any remaining uses in th lowest classes. This order of allocation has been followed by the market administrator, but it appears desirable that it be so stated in the order. Plants regulated under other Federal orders should continue to be permitted to sell milk in the Cleveland market without becoming subject to any of the pricing or payment provisions in the Cleveland order. (Such a plant is, of course, automatically exempt from any allocation in the Cleveland order since no Cleveland producer milk is received at the plant).

Also, for determining which of the two Federal orders should govern a given plant more general provisions should be made than the present provisions for a determination of each case by the Secretary. Under most foreseeable circumstances a plant serving more than one marketing area should be regulated in the market in which the major portion of Class I sales are made. A specific determination by the Secretary can be reserved for cases in which this standard is not appropriate.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings. Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Determination of representative period. The month of January 1955 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of amendments to the order regulating the handling of milk in the Cleveland, Ohio, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in Cleveland, Ohio, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 21st day of April 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary of Agriculture.

Order [1] Amending the Order, as Amended, Regulating the Handling of Milk in the Cleveland, Ohio, Marketing Area

Sec.
975.0 Findings and determinations.

DEFINITIONS

975.1 Act.
975.2 Secretary.
975.3 Department of Agriculture.
975.4 Market Administrator.
975.5 Person.
975.6 Cleveland, Ohio, Marketing Area.
975.7 Handler.
975.8 Producer.
975.9 Cooperative Association.
975.10 Nonhandler.
975.11 Producer-handler.
975.12 Pool plant.
975.13 Nonpool plant.
975.14 Other source milk.
975.15 Route.
975.16 Delivery period.
975.17 Eligible milk.
975.18 Ineligible milk.

MARKET ADMINISTRATOR

975.20 Designation.
975.21 Powers.
975.22 Duties.

POOL PLANT

975.30 Designation.
975.31 Replacement.
975.32 Discontinuance.

REPORTS, RECORDS, AND FACILITIES

975.40 Reports of receipts and utilization.
975.41 Other reports.
975.42 Records and facilities.
975.43 Retention of records.

CLASSIFICATION

975.50 Skim milk and butterfat to be classified.
975.51 Classes of utilization.
975.52 Shrinkage.
975.53 Transfers.
975.54 Responsibility of handlers and reclassification of milk.
975.55 Computation of the skim milk and butterfat in each class.
975.56 Allocation of butterfat classified.
975.57 Allocation of skim milk classified.

MINIMUM PRICES

975.60 Basic formula price.
975.61 Class I milk prices.
975.62 Class II milk prices.
975.63 Class III milk prices.
975.64 Butterfat differentials to handlers.

DETERMINATION OF ELIGIBLE MILK QUOTA

975.65 Determination of eligible milk quota for each producer.
975.66 Quota rules.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

DETERMINATION OF UNIFORM PRICE

Sec.
975.70 Computation of value of producer milk.
975.71 Location adjustments to handlers.
975.72 Obligation to the producer-settlement fund for other source milk.
975.73 Computation of uniform price.
975.74 Computation of ineligible milk price.
975.75 Computation of eligible milk price.
975.76 Notification.

PAYMENTS

975.80 Time and method of payment.
975.81 Location adjustments to producers.
975.82 Butterfat differential.
975.83 Producer-settlement fund.
975.84 Payments to the producer-settlement fund.
975.85 Payments out of the producer-settlement fund.
975.86 Expense of administration.
975.87 Marketing services.
975.88 Adjustment of accounts.
975.89 Termination of obligations.

MISCELLANEOUS PROVISIONS

975.90 Application of provisions.
975.91 Effective time.
975.92 Suspension or termination.
975.93 Continuing obligations.
975.94 Liquidation.
975.95 Agents.
975.96 Separability of provisions.

AUTHORITY: §§ 975.0 to 975.96 issued under sec. 5, 49 Stat. 753 as amended; 7 U. S. C. and Sup. 608c.

§ 975.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cleveland, Ohio, during November 30–December 9, 1954, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 3 cents per hundredweight, or such amount not exceeding 3 cents per hundredweight, as the Secretary may prescribe with respect to all receipts within the delivery period, of milk from producers at pool plants (including such handler's own production) and of all other source milk allocated to Class I pursuant to § 975.56 (b) and the corresponding portion of § 975.57: *Provided,* That such payment shall not be made with respect to any milk subject to a payment required under the provision for expense of administration of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Cleveland, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 975.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 975.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 975.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified in this part.

§ 975.4 *Market administrator.* "Market administrator" means the agency described in § 975.20.

§ 975.5 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 975.6 *Cleveland, Ohio, marketing area.* "Cleveland, Ohio, marketing area" hereinafter called the "marketing area," means all territory, including but not being limited to all municipal corporations within Cuyahoga County, and within the following cities and townships of the respective, named counties: townships of Black River, Sheffield, Avon Lake, Avon, Amherst, Elyria, Ridgeville, Carlisle, Eaton, Columbia, and Grafton in Lorain County; Willoughby, Mentor and Kirtland townships and the city of Painesville in Lake County; the city of Ashtabula in Ashtabula County; and the townships of Liverpool, Brunswick, Hinckley, York, Granger, Medina, Lafayette, and Montville in Medina County; all in the State of Ohio.

§ 975.7 *Handler.* "Handler" means (a) any person who operates a pool plant, (b) any person who operates a nonpool plant from which milk skim milk, flavored milk, or flavored milk drinks are disposed of on a route(s) in the marketing area, or (c) a cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from producers' farms to a milk plant.

§ 975.8 *Producer.* "Producer" means any person with respect to milk produced by him having the approval of the health authority of any community in the marketing area for consumption as fluid milk in such community which milk is moved directly from his farm to:

(a) A pool plant;

(b) A nonpool plant within April, May, June, or July for the account of a cooperative association or of a handler operating a pool plant. Milk so diverted shall be deemed to have been received by the handler for whose account it was diverted; or

(c) A pool plant for the account of another pool plant by diversion from the latter pool plant. Milk so diverted shall be deemed to have been received by the pool plant for whose account it was diverted.

§ 975.9 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 975.10 *Nonhandler.* "Nonhandler" means any person not a handler who operates a nonpool plant.

§ 975.11 *Producer-handler.* "Producer-handler" means any person who:

(a) Produces milk but receives no milk from dairy farmers; and

(b) Operates a route extending into the marketing area.

§ 975.12 *Pool plant.* "Pool plant" means a plant designated pursuant to § 975.30.

§ 975.13 *Nonpool plant.* "Nonpool plant" means any milk manufacturing or processing plant not a pool plant.

§ 975.14 *Other source milk.* "Other source milk" means all skim milk and butterfat received at any pool plant other than from producers.

§ 975.15 *Route.* "Route" means a delivery (including a sale from a plant store) of milk, skim milk, buttermilk, flavored milk, or flavored milk drink in fluid form to a wholesale or retail stop(s), including any eating place where such items are disposed of for consumption on or off the premises, other than a pool plant(s) or nonpool plant(s).

§ 975.16 *Delivery period.* "Delivery period" means the calendar month or the total portion thereof during which this part is in effect.

§ 975.17 *Eligible milk.* "Eligible milk" means the amount of milk received by a handler from a producer during each of the delivery periods of April through June which is not in excess of such producer's daily average quota computed pursuant to § 975.65 multiplied by the number of days in such delivery period on which such producer delivered milk to such handler: *Provided,* That with respect to any producer on "every-other-day" delivery to a pool plant, the days of non-delivery shall be considered as days of delivery for purposes of this section and of § 975.65.

§ 975.18 *Ineligible milk.* "Ineligible milk" means the amount of milk received by a handler from a producer during each of the delivery periods of April through June which is in excess of eligible milk received from such producer during such delivery period, and shall include all milk received from a producer for whom no daily average quota can be computed pursuant to § 975.65.

MARKET ADMINISTRATOR

§ 975.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 975.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 975.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of funds provided by § 975.86;

(1) The cost of his bond and of the bonds of his employees;

(2) His own compensation; and

(3) All other expenses, except those incurred under § 975.87, necessarily incurred by him in the maintenance and functioning of his office in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 975.40, or (2) payments pursuant to §§ 975.80, 975.84, 975.86, 975.87, or § 975.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Upon request, supply on or before the 25th day after the end of each delivery period to each cooperative association not a handler with respect to producers whose membership in such cooperative association has been verified by the market administrator, a record of the pounds of milk received by each handler from member producers and the class utilization of such milk. For the purpose of this report such member milk shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were classified in each class;

(i) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or nonhandler upon whose utilization the classification of skim milk and butterfat for such handler depends;

(j) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(1) On or before the 6th day after the end of such delivery period the minimum prices for Class I, Class II, and Class III milk computed pursuant to §§ 975.61, 975.62, and 975.63, respectively.

(2) On or before the 14th day after the end of such delivery period the uniform price computed pursuant to § 975.73, and for April, May, and June the price for eligible milk and the price for ineligible milk, computed pursuant to §§ 975.74 and 975.75, respectively, and the butterfat differential computed pursuant to § 975.82;

(k) On or before April 1 of each year provide written notice to: (1) Each producer who made deliveries of milk during the previous October through December as to his daily average quota computed pursuant to § 975.65, (2) each cooperative association as to the daily average quota of each member of such association, and (3) each handler as to the daily average quota of each producer from whom such handler received milk; and

(l) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

POOL PLANT

§ 975.30 *Designation.* A pool plant shall be any plant meeting the conditions of paragraphs (a), (b) or (c) of this section except a bottling plant operated by a producer-handler, or the plant of a handler exempted in § 975.90:

(a) Any plant at which milk is bottled and from which milk, skim milk, buttermilk, flavored milk or flavored milk drinks are distributed (either directly, through depots, or to vendors) in fluid form during the month on routes operated wholly or partially within the marketing area: *Provided,* That the total quantity distributed during the month on all routes operated inside or outside the marketing area is equal to 50 percent, or more, of the receipts from producers, or from other plants, of milk approved by the appropriate health authority for fluid use;

(b) Any plant which, having the approval of the appropriate health authority in the marketing area, has during the month delivered to a pool plant(s) described in paragraph (a) above an amount of milk equal to 30 percent of its dairy farm supply of milk: *Provided,* That such plant shall continue to be designated as a pool plant for such consecutive succeeding months as the 30 percent average is maintained: *And provided further,* That if during the period of August through January such plant has delivered to a pool plant(s) described in paragraph (a) of this section, 10 percent or more of its total dairy farm supply during each month and 30 percent or more during the entire period, such plant shall, upon written application to the market administrator on or before January 31 of any year, be designated as a pool plant through July 31 of the same year and each month thereafter, through January 31 of the following year, that it delivers 10 percent or more of its total dairy farm supply to a pool plant(s) described in paragraph (a) of this section; or

(c) The following plants during the period from the effective date hereof through January 31, 1956 shall be considered to have qualified as pool plants under the second proviso of paragraph (b) of this section:

(1) Any plant which was a pool plant in April 1955; and

(2) Any plant for which, on the basis of evidence presented to him, the market administrator determines that shipments during the period August 1954 through January 1955 would have met the standards specified in the second proviso of paragraph (b) of this section.

All pool plants operated by a handler may be considered as one plant for the purpose of meeting the percentage requirements of paragraphs (b) and (c) of this section if the handler submits a written request to the market administrator prior to the delivery period for which such consideration is requested.

§ 975.31 *Replacement.* A plant which replaces a pool plant shall acquire immediately the pool plant status of the replaced plant if the operator thereof shows to the satisfaction of the market administrator that 50 percent or more of the dairy farmers delivering milk to it previously had been producers at the pool plant so replaced.

§ 975.32 *Discontinuance.* A plant shall be discontinued as a pool plant upon prior written request made by the plant operator; such discontinuance to be effective at the beginning of the first delivery period (following the market administrator's receipt of such request) within which no milk was furnished by such plant to a pool plant described in § 975.30 (a).

REPORTS, RECORDS, AND FACILITIES

§ 975.40 *Reports of receipts and utilization.* On or before the 8th day after the end of each delivery period, each handler, except a produce-handler, shall report to the market administrator with respect to, (a) all milk received from producers, (b) all skim milk and butterfat in any form received from other handlers, and (c) all other source milk received at a pool plant:

(1) The quantities of butterfat and quantities of skim milk contained in (or used in the production of) such receipts and their sources and for the delivery periods of April through June, the aggregate quantities of eligible milk;

(2) The utilization of such receipts; and

(3) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

§ 975.41 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) On or before the 25th day after the end of each delivery period, each handler who received milk from producers shall submit to the market administrator his producer payroll for the delivery period, which shall show:

(1) For the delivery periods of July through March, the pounds of milk, and the percentage of butterfat contained therein, received fom each producer; and for the delivery periods of April through June, the pounds of eligible milk and the pounds of ineligible milk, and the percentage of butterfat contained therein, received from each producer;

(2) The amount and date of payment to each producer (or to a cooperative association not a handler which is authorized to collect payment for the milk of such producer); and

(3) The nature and amount of each deduction or charge involved in the payments referred to in subparagraph (2) of this paragraph.

§ 975.42 *Records and facilities.* Each handler shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization of all skim milk and butterfat required to be reported pursuant to § 975.40 or § 975.41 (a);

(b) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and at the end of each delivery period;

(c) The weights and tests for butterfat and for other contents of all milk and milk products handled; and

(d) Payments to producers and to cooperative associations.

§ 975.43 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 975.50 *Skim milk and butterfat to be classified.* All skim milk and butterfat received at a pool plant from any source or diverted pursuant to § 975.8 (b) or (c) shall be classified pursuant to §§ 975.51 through 975.54.

§ 975.51 *Classes of utilization.* Subject to the conditions set forth in §§ 975.53 and 975.54, skim milk and butterfat described in § 975.50 shall be classified by the market administrator on the basis of the following classes of utilization:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of for fluid consumption as milk, skim milk, buttermilk (except for livestock feed), flavored milk or flavored milk drinks, sweet or sour cream, or eggnog, (2) or used to produce concentrated milk disposed of for fluid consumption, or (3) not accounted for as Class II or Class III utilization.

(b) Class II milk shall be all skim milk and butterfat used to produce cottage cheese.

(c) Class III milk shall be all skim milk and butterfat (1) used to produce any milk product not specified in Class I milk or Class II milk; (2) disposed of for livestock feed or dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (3) in shrinkage of producer milk up to 2 percent of receipts from producers or in shrinkage of other source milk.

§ 975.52 *Shrinkage.* (a) If producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk diverted by a handler from his pool plant to another pool plant without first having been received for purposes of weighing in the diverting handler's pool plant shall be included in the receipts at the pool plant to which such milk was diverted for the purpose of computing shrinkage and shall be excluded from the receipts at the diverting handler's pool plant for such purpose.

§ 975.53 *Transfers.* Skim milk or butterfat transferred from a pool plant shall be classified as follows:

(a) As Class I milk if transferred as any item listed in § 975.51 (a) (1) to the pool plant of another handler, unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the delivery period within which such transfer was made: *Provided,* That if either or both pool plants have received other source milk, such transfers shall be classified by the market administrator at both plants so as to return the highest-valued class utilization to milk of producers: *Provided further,* That if transfers are made from a pool plant to more than one other pool plant any other source milk involved in such transfers shall be prorated by the market administrator among the transferee pool plants on the basis of the percentage which the other source milk transferred bears to the total quantity of transfers made pursuant to this subparagraph from the transferor plant.

(b) As Class I milk if transferred as any item listed in § 975.51 (a) (1) to a nonpool plant located more than 265 miles from the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator.

(c) As Class I milk if transferred as any item listed in § 975.51 (a) (1) to a nonpool plant located less than 265 miles from the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator, unless (1) other utilization is mutually indicated in writing to the market administrator by both the transferring handler and the receiver on or before the 8th day after the end of the delivery period within which such transfer was made, (2) the receiver maintains books and records showing utilization of all skim milk and butterfat at his plant which are made available to the market administrator for audit, and (3) such receiving plant had actually used not less than an equivalent amount of skim

milk or butterfat in the use indicated in such statement: *Provided*, That if such nonpool plant had not actually used an equivalent amount of skim milk or butterfat in such indicated use, the remaining pounds shall be classified in the next lower-priced available class of utilization as if the classes of utilization set forth in § 975.51 were applicable to such nonpool plants; or

(d) As Class I milk if transferred as bulk milk to (1) a manufacturer of soup, candy or bakery products for use in such manufacturing operations, or (2) any retail establishment which disposes of milk in fluid form.

§ 975.54 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified (except that classified pursuant to § 975.53 (b)) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 975.55 *Computation of the skim milk and butterfat in each class.* For each delivery period the market administrator shall correct for mathematical and for other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk, and Class III milk for such handler.

§ 975.56 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in the specified class the pounds of butterfat shrinkage in producer milk allowed in classes other than Class I pursuant to § 975.51;

(b) Subtract from the pounds of butterfat remaining in each class in series beginning with the lowest priced utilization the pounds of butterfat received in other source milk received from a plant(s) other than one at which the handling of milk is fully subject to another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received from a plant(s) at which the handling of milk is fully subject to another marketing agreement or order issued pursuant to the act;

(d) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received from other handlers in such classes pursuant to § 975.53; and

(e) Add to the remaining pounds of butterfat in the specified class the pounds subtracted pursuant to paragraph (a) of this section; or if the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest-priced utilization.

§ 975.57 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in § 975.56.

MINIMUM PRICES

§ 975.60 *Basic formula price.* The basic formula price per hundredweight of milk to be used in determining the Class I milk price for each delivery period, pursuant to § 975.61, shall be the highest of the prices per hundredweight of milk of 3.5 percent butterfat content computed by the market administrator pursuant to paragraphs (a) and (b) of this section.

(a) The average of the basic (or field) prices ascertained to have been paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator by the Department of Agriculture or by the companies indicated below:

Company and Location
Borden Co., Mt. Pleastant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter for the delivery period as reported by the Department of Agriculture for the Chicago market, subtract 3 cents, add 20 percent of the resulting amount and then multiply by 3.5; and

(2) From the simple average of the weighted averages of the carlot prices per pound of spray and roller process nonfat dry milk solids in barrels for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period by the Department of Agriculture, deduct 5.5 cents, multiply by 8.5 and then multiply by 0.965.

§ 975.61 *Class I milk prices.* The respective minimum prices per hundredweight to be paid by each handler, f. o. b. his plant for milk received from producers or from a pool plant of a cooperative association, during the delivery period which is classified as Class I milk, shall be as follows as computed by the market administrator:

(a) Add to the basic formula price the following amount for the period indicated:

Delivery period:	*Amount*
February through July	$1.40
All others	1.85

and add or subtract a "supply-demand adjustment" computed as follows:

(i) Divide the total quantity of milk received from producers during the first and second months preceding the delivery period by the gross quantity of milk utilized as Class I in the same two months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current utilization percentage".

(ii) Compute a "deviation percentage" by subtracting from the current utilization percentage as computed in subdivision (i) of this subparagraph, the "standard utilization percentage" shown below:

Month for which the price is being computed:	*Standard utilization percentage*
January	120
February	127
March	132
April	139
May	147
June	158
July	162
August	149
September	137
October	128
November	120
December	117

(iii) Determine the amount of the suply-demand adjustment from the following schedule:

Deviation percentage:	*Amount of supply-demand adjustment (cents)*
+13 or over	−25
+10 or +11	−19
+7 or +8	−13
+4 or +5	−7
+2 to −2	0
−4 or −5	+7
−7 or −8	+13
−10 or −11	+19
−13 or below	+25

When the deviation percentage does not fall within the tabulated brackets, the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

§ 975.62 *Class II milk prices.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for producer milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class II utilization, shall be the basic formula price, as computed pursuant to § 975.60, plus 30 cents.

§ 975.63 *Class III milk prices.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for producer milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class III utilization, shall be the basic formula price, as computed pursuant to § 975.60; *Provided*, That during May and June 1955 the average of the prices per hundredweight reported to have been paid or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants for which prices have been reported to the market administrator shall apply:

Present Operator and Location
Defiance Milk Products Co., Defiance, Ohio.
Fisher Dairy & Cheese Co., Wapakoneta, Ohio.
Kraft-Phenix Cheese Corp., Kendallville, Ind.
Nestles Milk Products Co., Marysville, Ohio.
Pet Milk Co., Angela, Ind.
Pet Milk Co., Coldwater, Ohio.
Pet Milk Co., Delta, Ohio.
Pet Milk Co., Garrett, Ind.
Pet Milk Co., Hudson, Mich.
Swift & Co., Lima, Ohio.

§ 975.64 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class is more or less than 3.5 percent, there shall be added to the prices of milk for each class as computed pursuant to §§ 975.61 and 975.62 for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 3.5 percent, an amount equal to the average daily wholesale price per pound of Grade A (92 score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, multiplied by the following factors:

(a) *Class I milk.* Multiply by 1.3, and divide the result by 10.

(b) *Class II milk.* Multiply by 1.15, and divide the result by 10.

(c) *Class III milk.* Multiply by 1.15, and divide the result by 10.

DETERMINATION OF ELIGIBLE MILK QUOTA

§ 975.65 *Determination of eligible milk quota for each producer.* Subject to the rules set forth in § 975.66, the market administrator shall determine quotas for producers as follows: During each of the delivery periods of April through June, inclusive, of each year beginning with 1956, the daily quota of each producer whose milk was received by a handler(s) on not less than thirty (30) days during the immediately preceding months of October through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in the 3-month period by the number of days from the date of first delivery to the end of such 3-month period.

§ 975.66 *Quota rules.* (a) An eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered during the quota-forming period;

(b) The quota of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

DETERMINATION OF UNIFORM PRICE

§ 975.70 *Computation of value of producer milk.* Subject to the location adjustment provided by § 975.71, the value of producer milk received or diverted during each delivery period for each handler operating a pool plant and for each cooperative association with respect to milk for which it is a handler pursuant to § 975.7 (c) shall be a sum of money computed by the market administrator by multiplying by the applicable class prices, determined pursuant to §§ 975.61, 975.62 and 975.63 adjusted pursuant to § 975.64, the total combined hundredweight of skim milk and butterfat received from producers and allocated to each class pursuant to §§ 975.56 and 975.57, and adding together the resulting amounts: *Provided*, That if such handler, after subtracting all receipts of skim milk and butterfat, respectively, other than in milk received from producers has a utilization of skim milk or butterfat greater than has been accounted for in milk received from producers, there shall be added a further amount computed by multiplying any such excess utilization classified pursuant to § 975.56 (e) and the corresponding step of § 975.57 by the applicable prices.

§ 975.71 *Location adjustment to handlers.* In computing the value of such quantities of milk as are received from producers at a pool plant and classified as Class I or Class II milk, there shall be deducted the amount of 20 cents per hundredweight if the pool plant is located more than 60 miles but not more than 74 miles from the Public Square in Cleveland, Ohio, by the shortest highway distance as determined by the market administrator, and 2 cents additional for each additional 14 miles or fraction thereof: *Provided*, That for the purpose of determining the respective quantities of Class I and Class II milk subject to the location adjustment, each pool handler's utilization of Class I and Class II milk during the month at pool plants as defined in § 975.30 (a) shall be allocated first to receipts of milk from producers' farms at such plants and then to the receipts of producer milk from pool plants as defined in § 975.30 (b) in the order of their nearness to the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator.

§ 975.72 *Obligation to the producer-settlement fund for other source milk.* During any delivery period in which the total receipts from all producers is more than 110 percent of the total Class I utilization at all pool plants, any handler who receives other source milk during the delivery period which is allocated to Class I pursuant to §§ 975.56 or 975.57 or who operates a nonpool plant out of which a route is operated which extends into the marketing area shall pay to the producer-settlement fund an amount equal to the value of the milk so allocated to Class I or sold on such a route at the Class I price, less an amount computed at the same rate as specified in § 975.71 for the distance from the plant at which the other source milk originates to the Public Square in Cleveland, Ohio, and less the value of such milk at the Class III price.

§ 975.73 *Computation of uniform price.* For each delivery period, the market administrator shall compute the "uniform price" per hundredweight for milk of 3.5 percent butterfat content, f. o. b. the marketing area, received from producers by:

(a) Combining into one total the values computed under § 975.70 for all handlers who reported pursuant to § 975.40 for such delivery period, except those in default in payments required pursuant to § 975.84 for the preceding delivery period;

(b) Adding an amount representing the monies received in payment of obligations computed under § 975.72;

(c) Adding the aggregate of the values of all allowable location adjustments computed at the maximum rates for the appropriate zones set forth in § 975.81;

(d) Adding an amount representing not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Subtracting, if the weighted average butterfat test of all milk received from producers represented by the values included in paragraph (a) of this section is greater than 3.5 percent or adding, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the variance of such weighted average butterfat test from 3.5 percent, by the butterfat differential computed pursuant to § 975.82 multiplied by 10;

(f) Dividing by the hundredweight of milk received from producers represented by the values included in paragraph (a) of this section; and

(g) Subtracting not less than 4 cents nor more than 5 cents.

§ 975.74 *Computation of ineligible milk price.* For each of the delivery periods of April through June the market administrator shall compute the uniform price per hundredweight for ineligible milk of 3.5 percent butterfat content by:

(a) Computing the total value on a 3.5 percent butterfat basis of ineligible milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II and Class III milk included in these computations by the price for Class II milk of 3.5 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II and Class III milk by the price for Class I milk of 3.5 percent butterfat content, and adding together the resulting amounts; and

(b) Dividing the total value of ineligible milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjusting to the nearest cent.

§ 975.75 *Computation of eligible milk price.* For each of the delivery periods of April through June the market administrator shall compute the uniform price per hundredweight for eligible milk of 3.5 percent butterfat content f. o. b. the marketing area, received from producers by:

(a) Subtracting the value of ineligible milk obtained in § 975.74 (a) from the aggregate value of milk computed pursuant to § 975.73 (a) through (c) and adjusting by any amount involved in

adjusting the uniform price of ineligible milk to the nearest cent;

(b) Dividing the amount obtained in paragraph (a) of this section by the total hundredweight of eligible milk included in these computations; and

(c) Subtracting not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (b) of this section.

§ 975.76 *Notification.* On or before the 14th day after each delivery period the market administrator shall notify each handler who submitted a report for the preceding month pursuant to § 975.40 of:

(a) The classification pursuant to §§ 975.56 and 975.57 of skim milk and butterfat contained in producer milk received by such handler during the delivery period and the value of such milk computed pursuant to § 975.70;

(b) The uniform prices for the delivery period computed pursuant to §§ 975.73, 975.74, and 975.75; and

(c) The amount due such handler pursuant to § 975.85 and the amount to be paid by such handler pursuant to §§ 975.84, 975.86, and 975.87.

PAYMENTS

§ 975.80 *Time and method of payment.* (a) Except as provided by paragraph (b) of this section, on or before the 20th day after the end of each delivery period, each handler shall pay each producer for milk received from him within such delivery period, not less than an amount of money computed by multiplying the total pounds of such milk by the uniform price(s) pursuant to § 975.73 or to §§ 975.74 and 975.75, less the location adjustment pursuant to § 975.81 and adjusted by the butterfat differential pursuant to § 975.82: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 975.85 he may reduce such payments uniformly per hundredweight for all producers, by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) On or before the 19th day after the end of each delivery period, each handler shall pay a cooperative association not a handler, with respect to milk of producers for which it has received written authorization to collect payment, a total amount not less than the sum of the individual amounts otherwise payable to such producers pursuant to paragraph (a) of this section.

(c) On or before the 15th day after the end of each delivery period, each handler shall pay a cooperative association which is a handler, with respect to milk received by him from a pool plant operated by such cooperative association, not less than an amount computed by multiplying the minimum prices for milk in each class, subject to the applicable location adjustment provided by § 975.71 and the butterfat differential provided by § 975.64, by the hundredweight of milk in each class pursuant to §§ 975.56 and 975.57.

§ 975.81 *Location adjustments to producers.* In making payments pursuant to paragraphs (a) and (b) of § 975.80, a handler may deduct, with respect to all milk received from producers during the months of July through March, and with respect to eligible milk received from producers during the months of April, May and June, at a plant located, by the shortest highway distance from the Public Square in Cleveland, Ohio, as determined by the market administrator:

(a) More than 30 miles but not more than 60 miles, an amount not to exceed 13 cents per hundredweight; and

(b) More than 60 miles but not more than 74 miles, an amount not to exceed 20 cents per hundredweight, and 2 cents per hundredweight additional for each additional 14 miles or fraction thereof.

§ 975.82 *Butterfat differential.* In making payments pursuant to paragraphs (a) and (b) of § 975.80 there shall be added to or subtracted from the uniform price per hundredweight, for each one-tenth of 1 percent of such butterfat content in milk above or below 3.5 percent, as the case may be, a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a), (b) and (c) of § 975.64 weighted by the pounds of butterfat in producer milk in Classes I, II, and III, respectively, with the result rounded to the nearest tenth of a cent.

§ 975.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund," into which he shall deposit all payments made pursuant to § 975.84 and out of which he shall make all payments pursuant to § 975.85.

§ 975.84 *Payments to the producer-settlement fund.* On or before the 16th day after the end of each delivery period, each handler (a) whose value of producer milk is required to be computed pursuant to § 975.70, shall pay to the market administrator any amount by which such value for such delivery period is greater than the total minimum amount required to be paid by him pursuant to paragraphs (a) and (b) of § 975.80 and (b) whose obligation is required to be computed pursuant to § 975.72, shall pay to the market administrator such obligation for such delivery period.

§ 975.85 *Payments out of the producer-settlement fund.* On or before the 18th day after the end of each delivery period, the market administrator shall pay to each handler the amount by which such handler's value pursuant to § 975.70 is less than the total minimum amount required to be paid by him pursuant to paragraphs (a) and (b) of § 975.80 less any unpaid obligations of such handler to the market administrator pursuant to §§ 975.84, 975.86, 975.87, or 975.88: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments to all such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 975.86 *Expense of administration.* As his pro rata share of the expense incurred pursuant to paragraph (d) of § 975.22, each handler shall pay the market administrator on or before the 16th day after the end of each delivery period, three cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 14th day after the end of each delivery period, with respect to all receipts within the delivery period, of milk from producers at pool plants (including such handler's own production) and of all other source milk allocated to Class I pursuant to § 975.56 (b) and the corresponding portion of § 975.57: *Provided,* That such payment shall not be made with respect to any milk subject to a payment required under the provision for expense of administration of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area.

§ 975.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section each handler in making payments to producers pursuant to paragraphs (a) and (b) of § 975.80, with respect to all milk received from each producer (except milk of such handler's own production) at a plant, not operated by a cooperative association of which such producer is a member, shall deduct four cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 14th day after the end of each delivery period; and, on or before the 16th day after the end of such delivery period, shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of the milk of such producers and to provide such producers with market information; such services to be performed in whole or in part by the market administrator, or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a plant, not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section such deductions from payments required pursuant to paragraphs (a) and (b) of § 975.80 as may be authorized by such producers, and pay such deductions on or before the 16th day after the end of each delivery period to the cooperative association rendering such services of which such producers are members.

§ 975.88 *Adjustment of accounts*—(a) *Payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due (1) the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

(b) *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 975.84, 975.85, 975.86, 975.87 or paragraph (a) of this section shall be increased one-half of one percent on the first day of the calendar month next following the due date of such obligation and, on the first day of each calendar month thereafter until such obligation is paid.

§ 975.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8e (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers; the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the months during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 975.90 *Application of provisions*—(a) *Milk subject to other Federal orders.* Milk received at the plant of a handler at which the handling of milk is fully subject during the delivery period to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act and from which the disposition of Class I milk in the other Federal marketing area exceeds that in the Cleveland marketing area shall be exempted for such delivery period from all provisions of this part except §§ 975.41, 975.42, and 975.43 unless the Secretary determines that the applicable order should more appropriately be determined on some other basis.

(b) *Handler exemption.* A handler who operates a plant located outside the marketing area from which an average of less than 300 points (one point being defined as one-half pint of cream or one quart of any other Class I product) of Class I milk per day is disposed of during the delivery period on a route(s) operated wholly or partly within the marketing area shall be exempted for such delivery period from all provisions hereof except § 975.41, § 975.42 and § 975.43.

(c) *Milk caused to be delivered by cooperative associations.* Milk referred to herein as received from producers by a handler shall include milk of producers caused to be delivered to such handler by a cooperative association which is not a handler and which is authorized to collect payment for such milk.

§ 975.91 *Effective time.* The provisions of this part, or of any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 975.92 *Suspension or termination.* The Secretary shall, whenever he finds that this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision of this part.

§ 975.93 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations under this part the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 975.94 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 975.95 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 975.96 *Separability of provisions.* If any provision of this part or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Order of the Secretary Directing That a Referendum Be Conducted Among the Producers Supplying Milk to the Cleveland, Ohio, Marketing Area, and Designation of an Agent To Conduct Such Referendum

Pursuant to Section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order regulating the handling of milk in the Cleveland, Ohio, marketing area) who, during the month of January 1955 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of January 1955 is hereby determined to be the representative period for the conduct of such referendum.

Howard G. Eisaman is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda

to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177) such referendum to be completed on or before the 25th day from the date this referendum order is issued.

[7 CFR Part 729]

PEANUTS

NOTICE OF PROPOSED DETERMINATIONS WITH RESPECT TO THE SUPPLY OF SEVERAL TYPES FOR 1955-56 MARKETING YEAR

Pursuant to section 358 (c) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1358 (c)), the Secretary of Agriculture is preparing to determine whether the supply of any type or types of peanuts for the 1955-56 marketing year will be insufficient to meet the estimated demand for cleaning and shelling purposes. Section 358 (c) of the act, as amended, reads in part as follows:

Notwithstanding any other provision of law, if the Secretary of Agriculture determines, on the basis of the average yield per acre of peanuts by types during the preceding five years, adjusted for trends in yields and abnormal conditions of production affecting yields in such five years, that the supply of any type or types of peanuts for any marketing year, beginning with the 1951-52 marketing year, will be insufficient to meet the estimated demand for cleaning and shelling purposes at prices at which the Commodity Credit Corporation may sell for such purposes peanuts owned or controlled by it, the State allotments for those States producing such type or types of peanuts shall be increased to the extent determined by the Secretary to be required to meet such demand but the allotment for any State may not be increased under this provision above the 1947 harvested acreage of peanuts for such State. The total increase so determined shall be apportioned among such States for distribution among farms producing peanuts of such type or types on the basis of the average acreage of peanuts of such type or types in the three years immediately preceding the year for which the allotments are being determined. The additional acreage so required shall be in addition to the national acreage allotment, the production from such acreage shall be in addition to the national marketing quota, and the increase in acreage allotted under this provision shall not be considered in establishing future State, county, or farm acreage allotments.

Prior to determining whether the supply of any type or types of peanuts for the 1955-56 marketing year will be insufficient to meet the estimated demand for cleaning and shelling purposes, under the provisions of section 358 (c) of the act, consideration will be given to any data, views, and recommendations relating thereto, which are presented at a hearing to be held on April 29, 1955, at 10:00 a. m., e. d. t., in Room 218A, Administration Building, U. S. Department of Agriculture, Washington, D. C., or which are submitted in writing to the Director, Oils and Peanut Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than April 29, 1955.

Done at Washington, D. C., this 25th day of April 1955.

[SEAL] WALTER C. BERGER,
Acting Administrator,
Commodity Stabilization Service.

PEANUTS

NOTICE OF INVESTIGATION AND PROPOSED DETERMINATIONS WITH RESPECT TO NATIONAL MARKETING QUOTA FOR 1955 CROP

On September 30, 1954, a national acreage allotment of 1,610,000 acres for the 1955 crop of peanuts and a national marketing quota of 740,600 tons were announced by the Secretary of Agriculture. Following the proclamation of such national acreage allotment and marketing quota and after the 1954 crop of peanuts was harvested, it became evident that the quantity of peanuts produced from the 1954 crop would be insufficient to meet the demand for peanuts for cleaning and shelling during the 1954-55 marketing year. On March 9, 1955, the President issued a proclamation under which 51,000,000 pounds of shelled peanuts may be imported into the United States by June 30, 1955. There is now reason to believe that the operation of farm marketing quotas as announced on September 30, 1954, may cause the quantity of peanuts free of marketing restrictions to be less than the normal supply for the 1955-56 marketing year. Therefore, an investigation is being conducted pursuant to section 371 (a) of the Agricultural Adjustment Act of 1938, as amended, to determine whether the marketing quota for the 1955 crop of peanuts should be increased. Sections 371(a) and (c) of the act read as follows:

(a) If at any time the Secretary has reason to believe that in the case of corn, wheat, cotton, rice, peanuts, or tobacco the operation of farm marketing quotas in effect will cause the amount of such commodity which is free of marketing restrictions to be less than the normal supply for the marketing year for the commodity then current, he shall cause an immediate investigation to be made with respect thereto. In the course of such investigation due notice and opportunity for hearing shall be given to interested persons. If upon the basis of such investigation the Secretary finds the existence of such fact, he shall proclaim the same forthwith. He shall also in such proclamation specify such increase in, or termination of, existing quotas as he finds, on the basis of such investigation, is necessary to make the amount of such commodity which is free of marketing restrictions equal the normal supply (7 U. S. C. 1371 (a)).

* * * * *

(c) In case any national marketing quota or acreage allotment for any commodity is increased under this section, each farm marketing quota or acreage allotment for the commodity shall be increased in the same ratio (7 U. S. C. 1371 (c)).

Prior to determining whether the national marketing quota for the 1955 crop of peanuts should be increased in order to assure an amount of peanuts which is free of marketing restrictions equal to the normal supply, consideration will be given to any data, views and recommendations relating thereto which are presented at a hearing to be held on April 29, 1955, at 10:00 a. m., e. d. s. t., Room 218A, Administration Building, U. S. Department of Agriculture, Washington, D. C., or which are submitted in writing to the Director, Oils and Peanut Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than April 29, 1955.

Done at Washington, D. C., this 25th day of April 1955.

[SEAL] WALTER C. BERGER,
Acting Administrator,
Commodity Stabilization Service.

[Docket No. SH 132]

1955 SUGAR QUOTA FOR DOMESTIC BEET SUGAR AREA

NOTICE OF HEARING ON PROPOSED ALLOTMENT

Pursuant to the notice of hearing on allotment of the 1955 sugar quota for the Domestic Beet Sugar Area (19 F. R. 7354), the hearing provided for therein was opened by the hearing examiner on December 13, 1954, at the time and place specified in such notice, and thereafter was continued by the hearing examiner to a date and place to be later announced by the issuance of public notice in accordance with the applicable rules of practice and procedure (7 CFR 801.1 et seq.).

Accordingly, notice is given that the public hearing on allotment of the 1955 sugar quota for the Domestic Beet Sugar Area, as continued, will be held in Room 5860 South Building, U. S. Department of Agriculture, Washington, D. C., on May 6, 1955, beginning at 10:00 a. m., e. d. t.

Issued this 22d day of April 1955.

[SEAL] G. OSMOND HYDE,
Hearing Examiner.

[7 CFR Part 814]

[Docket No. SH 132]

1955 SUGAR QUOTA FOR DOMESTIC BEET SUGAR AREA

AMENDED NOTICE OF HEARING ON PROPOSED ALLOTMENT

In accordance with the notice of hearing on proposed allotment of the 1955 sugar quota for the Domestic Beet Sugar Area (19 F. R. 7354), the hearing provided for therein was opened by the hearing examiner on December 13, 1954, at the time and place specified in such notice, and thereafter was continued by the hearing examiner to a date and place to be later announced by the issuance of public notice in accordance with the applicable rules of practice and procedure (7 CFR 801.1 et seq.).

Pursuant to the authority contained in the Sugar Act of 1948, as amended (61 Stat. 922 as amended by 65 Stat. 318; 7 U. S. C. 1100), and in accordance with the provisions of the applicable rules of practice and procedure (7 CFR 801.1 et seq.), as amended by amendment effective February 24, 1955 (20 F. R. 1174), notice is given that in addition to the subjects and issues of the hearing set forth in the notice of hearing referred to above (19 F. R. 7354), it will be appropriate, upon the resumption of such hearing, to present evidence on the basis of which the Secretary may revise the allotment of the 1955 sugar quota for the Domestic Beet Sugar Area for the purposes of allotting any additional quota resulting from proration of area deficits, or allotting any deficit in the allotment for any allottee.

Notice also is given that the last sentence of the notice of hearing referred to above (19 F. R. 7354) is hereby amended by inserting the words "or molasses" following the words "sugar beets" in clause (3) of such sentence.

Issued this 22d day of April 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 701, 712]

METAL, MACHINERY, TRANSPORTATION EQUIPMENT, AND ALLIED INDUSTRIES IN PUERTO RICO

MINIMUM WAGE RATES

On September 14, 1954, pursuant to section 5 of the Fair Labor Standards Act, as amended (hereinafter called the act), the Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 440, as amended by Administrative Orders Nos. 441 and 442, dated October 18, 1954 and November 1, 1954, respectively, appointed Special Industry Committee No. 16-B for Puerto Rico (hereinafter called the Committee) and directed the Committee to investigate conditions in the metal, machinery, transportation equipment, and allied industries in Puerto Rico (hereinafter called the industry), and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industry.

For purposes of investigating conditions in and recommending minimum wages for the metal, machinery, transportation equipment, and allied industries in Puerto Rico, the committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico with due regard to the geographical regions in which the industry is carried on.

After investigating economic and competitive conditions in the industry, as defined in Administrative Order No. 440, the Committee filed with the Administrator a report containing the following recommendations: (1) That the metal, machinery, transportation equipment, and allied industries in Puerto Rico should be divided in separable Divisions for the purpose of fixing minimum wage rates and that these separable divisions should be entitled and defined as (a) the fabricated wire products, steel spring, and slide fastener division, and (b) the general divisions; (2) that a minimum wage rate of 65 cents an hour should be paid in the fabricated wire products, steel spring, and slide fastener division, and a minimum wage rate of 75 cents an hour should be paid in the general division, to employees who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on January 8, 1955 (20 F. R. 229) and circulated to all known interested parties, a public hearing upon the Committee's recommendations was held before Hearing Examiner E. West Parkinson, as presiding officer, on February 10, 1955 in Washington, D. C., at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to the Administrator by the presiding officer.

Upon reviewing all of the evidence adduced in this proceeding, and giving due consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for the division of the metal, machinery, transportation equipment, and allied industries in Puerto Rico into separate and distinct divisions to be known as the fabricated wire products, steel spring and slide fastener division, and the general division, together with the recommendations of the Committee for a minimum wage rate of 65 cents an hour in the fabricated wire products, steel spring, and slide fastener division, and a minimum wage rate of 75 cents an hour in the general division, as hereinafter defined, were made in accordance with law, are supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator in the matter of the Recommendations of Special Industry Committee No. 16-B for Puerto Rico for Minimum Wage Rates in the Metal, Machinery, Transportation Equipment, and Allied Industries in Puerto Rico", a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) that, under the authority in section 8 of the Fair Labor Standards Act of 1938 (29 U. S. C. 201 et seq.), Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), General Order No. 45-A (15 F. R. 3290), and, the position of the Administrator being presently vacant, General Order No. 85 (20 F. R. 2066), (1) I propose to amend 29 CFR Part 701 to the extent that it applies to the metal, machinery, transportation equipment, and allied industries in Puerto Rico, as hereinafter defined, and (2) I propose to issue a wage order for the metal, machinery, transportation equipment, and allied industries in Puerto Rico to be contained in 29 CFR Part 712, as follows:

PART 712—METAL, MACHINERY, TRANSPORTATION EQUIPMENT, AND ALLIED INDUSTRIES IN PUERTO RICO

Sec.
712.1 Approval of recommendations of industry committee.
712.2 Wage rates.
712.3 Notices of order.
712.4 Definition of the metal, machinery, transportation equipment and allied industries in Puerto Rico, and divisions thereof.

AUTHORITY: §§ 712.1 to 712.4 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208.

§ 712.1 *Approval of recommendations of industry committee.* The committee's recommendations are hereby approved.

§ 712.2 *Wage rates.* (a) Wages at a rate of not less than 65 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the fabricated wire products, steel spring, and slide fastener division of the metal, machinery, transportation equipment, and allied industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 75 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the general division of the metal, machinery, transportation equipment, and allied industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 712.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the metal, machinery, transportation equipment, and allied industries in Puerto Rico shall post in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 712.4 *Definition of the metal, machinery, transportation equipment, and allied industries in Puerto Rico, and divisions thereof.* (a) (1) The metal, machinery, transportation equipment, and allied industries in Puerto Rico to which this part shall apply is hereby defined as follows: The mining or other extraction of metal ore and the further processing of such ore into metal; the man-

ufacture (including repair) of any product or part made wholly or chiefly of metal; and the manufacture from any material of machinery, tools, transportation equipment, and ordnance: *Provided, however*, That the definition shall not include (i) the production of any basic material other than metal; (ii) the further processing of any basic material other than metal except when done by an establishment producing from such materials a product of these industries or subassembly of such product; (iii) the building and repairing (including painting) of ocean-going ships when performed in drydocks or shipyards; (iv) any activity included within the button, buckle, and jewelry industry, or the shoe manufacturing and allied industries as defined in the wage orders for those industries; (v) or any activity included within the electrical, instrument, and related manufacturing industries as defined in Administrative Order No. 440 appointing Special Industry Committees Nos. 16–A, 16–B, and 16–C for Puerto Rico. The definition supersedes the definition of the decorations and party favors industry with respect to the manufacture of (metal) articles other than those made from metallic chenille, foil, or tinsel.

(2) The definition contained in subparagraph (1) of this paragraph supersedes the definitions contained in any and all wage orders issued heretofore for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

(b) The separable divisions of the industries defined in paragraph (a) (1) of this section, to which this part shall apply are hereby defined as follows:

(1) *Fabricated wire products, steel spring, and slide fastener division.* This division consists of the drawing of wire and rod and the fabrication of wire and rod products including, but without limitation, nails, brads, spikes, staples, chain, fencing, bare wire rope and cable, barbed wire, bale ties, and garment hangers; the manufacture of steel springs; and the manufacture of slide fasteners.

(2) *General division.* This division consists of all products and activities included in the metal, machinery, transportation equipment, and allied industries, as defined in Administrative Order No. 440, except products and activities included in the fabricated wire products, steel spring, and slide fastener division as defined in this section.

Within fifteen days from the date of publication of this notice in the FEDERAL REGISTER interested persons may submit written exceptions to the proposed actions described. Exceptions should be submitted in quadruplicate to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., and should include any supporting reasons therefor.

Signed at Washington, D. C., this 21st day of April 1955.

STUART ROTHMAN,
Solicitor of Labor.

[14 CFR Part 41]

[Draft Release No. 55–10]

CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

FLIGHT TIME LIMITATIONS; NAVIGATORS

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of an amendment to Part 41 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by June 3, 1955. Copies of such communications will be available after June 7, 1955, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Part 41 of the Civil Air Regulations presently limits the time a pilot, flight radio operator, or flight engineer may be scheduled for flight duty to a maximum of 12 hours during any 24 consecutive hours when no in-flight relief is available for such flight crew member. However, Part 41 does not contain such a limitation with respect to the scheduling of a flight navigator for flight duty.

In 1950 the Bureau of Safety Regulation circulated a proposal to amend the scheduled air carrier operating rules which, among other things, would have applied the same limitations to flight navigators as were currently applied to other flight crew members. For reasons unrelated to the question of navigator flight time limitations, the Board decided that the notice of proposed rule making circulated by the Bureau would not be adopted as amendments to the Civil Air Regulations. At that time, the Board was assured by air carriers conducting scheduled international air carrier operations that they would not schedule flight navigators to serve for more than 12 hours duty during any 24 consecutive hours pending the adoption of revised regulations applicable to such operations. In view of this assurance the Administrator of Civil Aeronautics for several years has prescribed the same 12-hour daily flight time limitations for navigators in the operations specifications of air carriers conducting long-range overseas and international operations under Part 42 of the Civil Air Regulations, in order that all air carriers would operate under the same flight time limitations when conducting comparable operations.

The Board has recently received complaints from flight navigators alleging that air carriers have been frequently scheduling flight navigators for flight duty in excess of 12 hours in a 24-hour period. Investigation of this matter supports this complaint. These air carriers maintain that no regulatory obligation exists for limiting the scheduling of flight navigators to a maximum of 12 hours flight duty. Consequently these air carriers have challenged the authority of the Administrator to impose such a limitation in the operations specifications issued under Part 42.

The Bureau is of the opinion that flight navigators should be subject to the same daily flight time limitations as are specified for other flight crew members.

Inasmuch as other efforts short of amending the Civil Air Regulations have not insured that the Board's objectives in this matter would be met, it appears necessary at this time to consider the need for amendment of Part 41.

In view of the foregoing, notice is hereby given that it is proposed to amend § 41.81 of Part 41 of the Civil Air Regulations to read as follows:

§ 41.81 *Flight time limitations.* When one flight navigator is required, the flight time limitations prescribed in § 41.55 apply. When two or more flight navigators are required, the flight time limitations prescribed in § 41.56 apply.

This amendment is proposed under authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated at Washington, D. C., April 22, 1955.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11279]

RADIO BROADCAST SERVICES; SUBSCRIPTION TELEVISION SERVICE

ORDER EXTENDING TIME FOR FILING COMMENTS

1. On February 11, 1955, the Commission issued a notice of proposed rule making (FCC 55–165) instituting the subject subscription television rule-making proceeding. The notice provided that comments should be filed on or before May 9, 1955, and that reply comments should be filed on or before June 9, 1955.

2. On April 19, 1955, International Telemeter Corporation, the proponent of a system of subscription television known as "Telemeter", filed a petition requesting the Commission to extend the time for filing original comments to June 9, 1955, and reply comments to July 11, 1955.

3. In support of its request, International Telemeter states that as a proponent of a subscription television system it is vitally interested in the rule-making proceeding and intends to file detailed comments directed to the several issues upon which the Commission has requested information in its notice of proposed rule making. Noting that the preparation of its comments will take a great amount of time, Telemeter advises the Commission that the attorney who had been giving substantially full time in the past two and one-half months to the project of developing and organizing its comments, and who had been assigned the principal responsibility for such comments, has been hospitalized and will be incapacitated for a substantial period of time. International Telemeter states that as a result it has become necessary to assign other counsel, unfamiliar with the previous work done, to the preparation of its comments. It is estimated that at least 30 days additional time beyond May 9, 1955, will be required by Telemeter's newly assigned counsel to become familiar with the problems and to complete the preparation of its comments.

4. The Commission believes that International Telemeter Corporation has established good cause for the extension of time for filing comments in this proceeding and that an additional 30 days within which to file comments is warranted. The Commission has concluded, therefore, that extending the time for filing comments in this proceeding would serve the public interest, convenience and necessity.

5. In view of the foregoing: *It is ordered*, That the time for filing original comments in the above-entitled proceeding is extended to June 9, 1955; and the time for filing replies to original comments is extended to July 11, 1955.

Adopted: April 20, 1955.

Released: April 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[47 CFR Part 3]

[Docket No. 11238; FCC 55–492]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. The Commission has under consideration its notice of proposed rule making and orders to show cause issued in this proceeding on December 17, 1954 (FCC 54–1545) and published in the FEDERAL REGISTER on December 23, 1954 (19 F. R. 8816), proposing to amend the television table of assignments so as to assign Channel 10 to Vail Mills, New York, as requested by Hudson Valley Broadcasting Company, Inc., or alternatively, to switch the educational reservation at Albany from UHF Channel 17 to VHF Channel 6, as requested by Van Curler Broadcasting Company; ordering the General Electric Company to show cause why its outstanding authorization for Television Station WRGB should not be modified to specify operation on Channel 17 in lieu of Channel 6; and ordering the State Educational Department of the University of the State of New York to show cause why its outstanding authorization for educational Station WTVZ should not be modified to specify operation on Channel 6 in lieu of Channel 17.

2. Comments have been filed by Hudson Valley Broadcasting Company, Inc. (WROW–TV), Albany, New York; Van Curler Broadcasting Corporation (WTRI), Albany, New York; Greylock Broadcasting Company (WMGT–TV), North Adams, Massachusetts; and Walter C. Nelas of Albany, New York. Numerous letters from individuals and organizations in New York in support and in opposition to the two proposals under consideration in this proceeding were also filed. Replies to the show cause orders were filed by General Electric Company and the State Education Department of the University of the State of New York. Replies to comments were filed by Hudson Valley Broadcasting Company, Inc., and Van Curler Broadcasting Corporation.

3. Five television channels are assigned to the Albany-Schenectady-Troy area: VHF Channel 6 and UHF Channels 17, 23, 35, and 41, with Channel 17 reserved for non-commercial educational use. General Electric Company is the licensee of Station WRGB operating in Schenectady on VHF Channel 6; petitioner is the permittee of Station WROW–TV operating on UHF Channel 41 at Albany; and Van Curler Broadcasting Corporation is the permittee of Station WTRI on UHF Channel 35 in Albany, but is presently off the air.[1] Construction permits have been granted for Station WTVZ to the University of the State of New York on UHF Channel 17 at Albany for non-commercial educational use, and for Station WPTR–TV to the Patroon Broadcasting Company, Inc., on UHF Channel 23 in Albany; but these stations have not yet been constructed.

4. Petitioner Hudson Valley seeks the addition of a second VHF assignment in the Albany-Schenectady-Troy area and proposes that VHF Channel 10, since it cannot be assigned to any of the three cities in conformance with the minimum spacing requirements of the rules, be assigned to the community of Vail Mills, which is approximately 20 miles northwest of Schenectady. In support of its request, Hudson Valley urges that the assignment of VHF Channel 10 to Vail Mills would conform to the Commission's rules and section 307 (b) of the Communications Act and would require no other changes in the table of assignments; that it would provide a second VHF television service in the Tri-City area; that petitioner desires to improve the facilities of Station WROW–TV to furnish an improved television service to more people in the Tri-City area; and that, in the event its proposal is adopted, petitioner contemplates applying for a station on Channel 10 at Vail Mills.

[1] Station WTRI suspended operation on January 31, 1955, and has been authorized to remain silent until May 6, 1955, the expiration date of its construction permit.

5. In its opposing comments directed to Hudson Valley's request for the assignment of Channel 10 to Vail Mills, Van Curler Broadcasting Company contends that the addition of a second VHF station to the area might cause the demise of its UHF operation (Station WTRI) at Albany as well as all UHF stations in the area and would result in the area receiving only two television services instead of the five which could be received from the one VHF and four UHF channels presently allocated. Van Curler points out that out of approximately 366,000 receivers in the area, only about 75,000 are now equipped to receive UHF signals, but contends that with only one VHF station in the area (WRGB), some incentive exists for the public to purchase all-channel sets and UHF converters since the UHF stations can now obtain some of the network programs not carried by Station WRGB. Van Curler submits that if two VHF stations operate in the area, they would obtain affiliation agreements from the two major networks and would preempt all, or practically, all popular network programs thereby destroying the public's incentive to convert their receivers to UHF. Van Curler urges that the experience of UHF stations in other markets faced with competition from two UHF stations and the testimony of witnesses before the Senate Subcommittee on Communications at hearings on the UHF problem, bear out its contentions. It further urges that the assignment of Channel 10 to Vail Mills, a small unincorporated crossroads community of about 250 persons, would violate the fundamental assignment principle of making channel assignments to principal communities as well as other assignment principles such as the requirement that main studios be located in the principal community to be served (§ 3.613) and the requirement that the entire principal community to be served be provided with specified minimum field intensity signals (§ 3.685). Van Curler submits that although the Commission has assigned VHF channels to suburban communities near large cities, those cases are not precedents for the instant proposal since those assignments were made prior to the present plight of UHF stations in mixed markets and involved adjacent and well-populated suburbs of large cities with twice the population of the Tri-Cities combined.

6. As an alternative to the proposal of Hudson Valley, Van Curler requests that the educational reservation in Albany be switched from UHF Channel 17 to VHF Channel 6 to effectuate deintermixture of VHF and UHF commercial assignments in the Albany-Schenectady-Troy area. It is urged that the area is ideal for deintermixture since, other than the VHF signals of Station WRGB on Channel 6, no other Grade A VHF signals are receivable in the area—the nearest other VHF station being over 70 miles distant. Van Curler urges, further, that susbstituting a UHF assignment for the one VHF assignment in the area would place all commercial television stations in the area on an equal competitive basis; that it would better enable stations in the area to obtain

network affiliations and advertising revenue; and that it would provide a ready-made and large audience for an educational station on a VHF assignment.

7. To effectuate its counterproposal, Van Curler requests that General Electric Company be ordered to show cause why its authorization for Station WRGB should not be modified to specify operation on Channel 17 in lieu of Channel 6, and that the State Education Department be ordered to show cause why its authorization for Station WTVZ should not be modified to specify operation on Channel 6 in lieu of Channel 17. Van Curler asserts that moving VHF Station WRGB to a UHF channel would break the monopolistic network position of the station and would cause no undue hardship to General Electric Company, since as an equipment manufacturer, it has a large stake in the development of the UHF service.

8. In its Opposition to the Hudson Valley proposal for Vail Mills, Greylock Broadcasting Company, permittee of Station WMGT-TV on UHF Channel 9 at North Adams, Massachusetts, states that Station WMGT-TV provides a Grade A signal over Albany, Schenectady, and Troy and that its expensive installation and operation on Mt. Greylock was undertaken with wide ooverage in mind and in reliance on the fact that only one VHF channel was assigned to the entire region between Boston and Hartford to the east and Utica to the west. Greylock urges that the assignment of a second VHF channel to the Tri-City Area would cause WMGT-TV and the three UHF stations in Albany to cease commercial operation, and similar arguments to those advanced by Van Curler in its opposing comments are advanced by Greylock to support its contention that UHF stations cannot survive the competition of two VHF stations in the same area. Greylock contends that the counterproposal of Van Curler for complete deintermixture of UHF and VHF commercial assignments in the Tri-City area is to be preferred to the Hudson Valley proposal, but doubts that the counterproposal would meet with Commission approval at this time. It contends that experience indicates that UHF stations may survive competition from one VHF station but not two VHF stations.

9. Walter C. Nelas supports the assignment of Channel 10 to Vail Mills and urges that this assignment would provide a second primary VHF service to the Tri-City area, which has an urbanized population of 415,170 persons; that there are in the hands of the public in this area more than 400,000 VHF sets; that the assignment would represent a fair and equitable distribution of facilities; and that he plans to form a corporation for the purpose of making application for a station on Channel 10 in the event the proposed assignment is adopted. He opposes the Van Curler counterproposal for deintermixture in the area and contends that the shift of Station WRGB to UHF would render obsolete at least 288,000 VHF-only sets; that in view of the existence of 125,000 UHF receivers in the area the economic prospects of UHF appear reasonably good; that because of the interest of other parties in Channel 10, it cannot be assumed that either Station WROW-TV or Station WTRI would become the grantee on that assignment; and that the private economic interests of existing stations should not supersede the public interest.

10. In response to the order to show cause, the University of the State of New York states that it takes no position with respect to the matters in issue in this proceeding and will abide by whatever disposition is made by the Commission. In its response to the order to show cause, General Electric Company states that it opposes the shift of Station WRGB from VHF Channel 6 to UHF Channel 17. General Electric submits that this assignment is consistent with the objectives of the Sixth Report and that the interest of Van Curler in deleting this channel for commercial use is its own financial advancement rather than the public interest. General Electric urges that it began operation more than 15 years ago; that it now serves over 400,000 square miles; and that many people would be discommoded and subjected to additional expenditures in the area and in many communities far removed from the Tri-City area. General Electric contends that the 35 percent conversion for UHF in the area compares well to the 80 percent total set saturation after 15 years of service by WRGB, and represents about the same size audience which WRGB had after 11 years of experimental and commercial operation during which time the operating losses were seven times those of which WTRI complains. In order to give an estimate of the magnitude of the adjustments which would be necessary to shift channels as proposed by WTRI, General Electric cites the experience it underwent when it shifted from Channel 4 to Channel 6 in response to the show cause order issued during the proceeding leading up to the Sixth Report and Order.

11. We have carefully considered the facts and contentions thus far advanced by the parties in this proceeding with respect both to the above-described proposal of Hudson Valley and the counterproposal of Van Curler. It should be noted that the instant proceeding is a "rule-making" proceeding, which according to the definition of applicable statutes, constitutes agency process for the formulation, amendment or repeal of an agency statement of general or particular applicability and future effect, designed to implement or prescribe policy in this field.[2] In short, we are, by this proceeding, attempting to arrive at a decision of future policy to be uniformly followed, wherever possible, in the effectuation of our allocation table for a nation-wide television system.

12. The counter-proposals thus far advanced in this proceeding are closely similar, if not identical, in principle, to the other "de-intermixture" petitions currently being considered by the Commission.[3] It is obviously desirable, in the current state of things, to arrive at and maintain a uniform policy in the handling of petitions which not only seek to alleviate some of the difficulties being faced in the field of UHF television, but which involve fundamental problems possibly affecting the future scope and extent of our national television system. It is therefore appropriate and necessary that any decision made here should, at least, have as its basis the consideration of information and data of the nature being called for in the other "de-intermixture proceedings." We do not presently have such data before us in the instant proceeding.

13. We have therefore concluded that public interest, convenience, and necessity would be served by further rule-making proceedings in connection with the instant proposals and counter-proposals regarding the utilization of television channels in the Albany-Schenectady-Troy area.

14. The Commission desires that further comments be submitted on petitioners' proposals and counter-proposals, and that the comments and data so filed in this further rule-making proceeding be directed to, among other things, the following matters:

(a) The Grade A and Grade B contours of the stations presently operating in the Albany-Schenectady-Troy area as well as the Grade A and Grade B contours of a VHF station operating as proposed on Channel 10 at Vail Mills, N. Y.

(b) The estimated number of families in Albany-Schenectady-Troy and the surrounding areas residing within the service ranges of both operating and potential television stations in the Albany-Schenectady-Troy area. The information should specify the estimated number of families residing within the Grade A and Grade B contours of the stations and the estimated number of families beyond the Grade B contours but capable of receiving a satisfactory signal. (The basis for indicating service beyond the Grade B contour should be specified.)

(c) The estimated total number of television receivers in the Albany-Schenectady-Troy and the surrounding areas, including the percentage of sets capable of receiving UHF transmissions. This information should specify the number of sets within the Grade A and Grade B contours of the stations, and the number of sets beyond the Grade B contour that receive satisfactory transmissions from the Albany-Schenectady-Troy area.

(d) Insofar as data may be available, the estimated percentage of time that set owners within the Grade A and Grade B service area of the Albany-Schenectady-Troy area stations view VHF or UHF stations located outside this area, and the quality of the signal received. Information should also be submitted indicating the number and signal quality of any outside VHF or UHF services that may be expected to be received in the Albany-Schenectady-Troy and the surrounding areas in accordance with the present Assignment Table.

(e) Data indicating whether, and to what extent, any areas and populations surrounding the Albany-Schenectady-Troy area would lose potential commercial television service in the event Channel 6 is reserved for education in the Albany-Schenectady-Troy area or is deleted. Information should also be submitted indicating what other services are received in such areas, and to what extent other services may be expected to be received under the present Assignment Table.

(f) Information with respect to television network relations in the Albany-Schenectady-Troy area including complete information as to present and proposed network affiliations; the extent of network programs currently received in the Albany-Schenectady-Troy area on a regular basis; the terms of existing network contracts, including cancellation provisions; the prospects of UHF stations for continued network affiliation in the event: (1) Another VHF channel is authorized in the area; (2) the existing commercial VHF Channel 6 in the area is retained; or (3) no commercial VHF channels are authorized in the Albany-Schenectady-Troy area; the availability of program material and advertiser support for UHF stations in these communities in the absence of network programs; and information indicating the impact on future sales of UHF-equipped receivers and UHF conversions in the event the UHF stations curtail transmission of network programs.

15. Authority for the issuance of this notice is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

16. All interested parties desiring to submit their further comments with respect to petitioners' proposal, in accordance with the foregoing, both in support and in opposition, may file with the Commission on or before May 20, 1955, further written statements or briefs setting forth their comments. Comments or briefs in reply to such original comments as may be filed should be submitted to the Commission within 10 days from the last day for filing original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established. In accordance with § 1.764 of the rules, an original and 14 copies of all statements, briefs, or comments should be submitted.

17. The Commission believes that subsequent to the filing of such further written comments in this proceeding, an oral argument before the Commission en banc would assist the Commission in reaching its final determination. Accordingly, the Commission will specify in a subsequent notice the time and place for such oral argument and the particular matters to which the oral argument will be directed.

Adopted: April 20, 1955.

Released: April 21, 1955.

[Docket No. 11280; FCC 55-491]

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

REPORT AND ORDER TERMINATING PROCEEDING

1. The Commission has before it for consideration its notice of proposed rule making and order to show cause issued in this proceeding on February 11, 1955 (FCC 55-166). The Commission advised in its Notice that WKST, Inc., permittee of television Station WKST-TV authorized to operate on Channel 45 at New Castle, Pennsylvania, had filed a petition requesting that the table of television channel assignments be amended by shifting Channels 45 and 73 between New Castle and Youngstown, Ohio. In addition, WKST, Inc., was directed to show cause why its outstanding authorization for Channel 45 in New Castle should not be modified to specify operation on that frequency in Youngstown.

2. WKST, Inc., has submitted comments in support of its proposed amendment and consenting to the modification of its authorization to specify operation on Channel 45 in Youngstown. Comments supporting this proposal were also submitted by the Mayor of New Castle and the Greater New Castle Association. Comments opposing the proposal have been filed by WKBN Broadcasting Corporation, permittee of Station WKBN-TV operating on Channel 27 in Youngstown; the Vindicator Printing Company, permittee of Station WFMJ-TV operating on Channel 21 in Youngstown; Congressman Frank M. Clark; Walter A. Kieler; Community Telecasting Company; Farrell, Pennsylvania; Committee for the Civic Betterment of New Castle; and the New Castle Civic Industrial Development Group.

3. Youngstown presently has three UHF channels assigned, Channels 21, 27 and 73. Stations are operating on Channel 21 (WFMJ-TV) and Channel 27 (WKBN-TV); no applications are on file for Channel 73. Channel 45 is the only assignment to New Castle. An authorization to operate on this channel has been granted to petitioner, WKST, Inc. Although WKST-TV commenced operation in April 1953, it suspended operation on January 14, 1955, pending a determination in this proceeding.

4. In support of its proposal, WKST notes that it presently holds a construction permit for a station on Channel 45 in New Castle, with studios and transmitter about 3.5 miles southeast of the city. The station commenced operation in April 1953, and, as noted, suspended operation last January. Petitioner alleges that it has operated at a loss of $70,000, after radio profit, during the period that it was on the air. Petitioner points out that New Castle is a relatively small community compared to Youngstown, which is situated about 17 miles from New Castle; and that operating with its main studios near New Castle, and being known as a New Castle station, has resulted in its inability to obtain a sufficient number of national network programs and sufficient revenue from networks, national and local advertising to sustain a successful operation. Petitioner submits that WKST-TV has been unable to compete effectively with the two stations operating in Youngstown which also serve the New Castle area. Petitioner suggests that by moving its present facilities to Youngstown and by becoming a Youngstown station, it would be in a position to negotiate a basic national network affiliation agreement and to attract more national and local business. Petitioner therefore urges that it should be permitted to operate as a Youngstown rather than a New Castle station. While it is conceded that Channel 73 is available in Youngstown, petitioner points out that by permitting it to retain its present frequency in Youngstown, it would be able to make use of all of its existing equipment with the exception of its antenna tower. However, if petitioner is required to operate on Channel 73, which is already assigned to Youngstown, it would have to spend additional capital for a new antenna and for modification or replacement of its transmitter. WKST submits that by shifting Channel 45 to Youngstown, it would be enabled to accomplish its objective with a maximum of speed and a minimum of additional expense. Petitioner notes that there are a large number of receivers in the general area equipped with strip tuners for Channel 45 and states that these sets would require modification unless petitioner continues operation on its present frequency. Petitioner urges that the site it proposes to utilize in Youngstown would conform to all of the Commission's requirements, and that it will employ sufficient power and antenna height to provide Youngstown with the requisite signal strength and to afford New Castle and its environs with a high-quality television service. Petitioner further states that it proposes to operate in Youngstown with an enlarged program service, with some programs especially designed for viewers in the New Castle area.

5. The opposing parties urge that the present assignments in both communities represent a fair and equitable distribution of facilities and that the proposal to delete Channel 45 from New Castle would deprive the New Castle community of facilities for local expression and would be deleterious to the interests of small communities and rural areas. They submit that no justification has been advanced that would indicate that the establishment of a third station

in Youngstown, at the expense of depriving New Castle of its only station, is warranted. In this connection, it is contended that the area served by WKST–TV in New Castle would be deprived of service if Channel 45 is switched to Youngstown and that a median signal of 80 dbu would not be expected to be afforded to the city of New Castle from the Youngstown station in light of the shadowing that would be caused by a major obstruction between the proposed Youngstown site and New Castle. It is noted that petitioner could pursue its objective of becoming a Youngstown station by applying for Channel 73 which is available for use in that community and could thus leave Channel 45 in New Castle for use by a future applicant. These opponents to petitioner's proposal submit that the previous cases in which the Commission has switched low UHF channels for higher ones do not constitute a precedent for the instant request. In addition, the two UHF stations operating in Youngstown, WKBN–TV and WFMJ–TV, urge that the addition of a third station in the Youngstown community would present serious economic problems for all three stations.

6. In reply to the Oppositions, WKST urges that the proposed shift in frequencies between New Castle and Youngstown does not constitute a departure from the principles underlying the Commission's allocation plan since both communities would retain the same number of assignments and the same opportunity for service. Accordingly, WKST urges that this case does not involve a consideration of a fair and equitable distribution of facilities. WKST argues that in light of the present deficiencies in equipment for the higher UHF channels, its change in operation from New Castle to Youngstown can be accomplished in the least time and with the least expenditure by shifting Channel 45 from New Castle to Youngstown. While petitioner concedes that the Commission has not made distinctions among the UHF channels, it points out that the Commission has recognized that differences do exist in the present equipment available for the UHF. WKST states that it is not significant that New Castle would not receive a signal greater than 80 dbu over the entire city since this area will continue to receive a high-quality service. In addition, Youngstown will receive the requisite signal intensity from its proposed operation. WKST submits that the fact that the UHF stations now operating in Youngstown may suffer economic injury as a result of the proposed amendment is not a proper consideration in this proceeding.

7. The question we have before us is whether the public interest would be served by shifting UHF Channels 45 and 73 between New Castle and Youngstown and by modifying the outstanding authorization of Station WKST–TV to specify operation on Channel 45 in Youngstown rather than New Castle. In several recent decisions we have made changes in assignments and issued show cause orders in rule-making proceedings to permit stations operating on the higher UHF channels to operate on the lower UHF channels.[1] In those cases we recognized that the temporary equipment problems associated with operation on the higher UHF channels warranted shifting a lower channel from a community which is not ready to proceed with television to a community which is prepared to proceed promptly with television service. In our view, our action in these cases does not serve as a precedent to be followed in the instant case. In each of those cases there was no present prospect that the channel to be shifted from one community to another would be used in the foreseeable future.

8. In this case, however, WKST–TV holds a construction permit for operation on Channel 45 at New Castle and was, in fact, in operation on Channel 45 from April 1953 until January 1955. There is no indication on the basis of the record in this proceeding that if WKST–TV does not resume operation in New Castle on Channel 45 that other parties in New Castle would not be ready and willing to undertake the operation. We do not believe that we would be warranted, therefore, in shifting Channel 45 from New Castle at this time. Moreover, if WKST, Inc., desires to move to Youngstown, Channel 73 is unoccupied in that community. In the light of the above, we cannot conclude that a grant of the WKST, Inc. petition would serve the public interest.

9. In view of the foregoing: *It is ordered*, That the petition of WKST, Inc., is denied, and this proceeding is terminated.

Adopted: April 20, 1955.

Released: April 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. The Commission has before it a petition filed on February 14, 1955, by KSEM, Inc., requesting rule making to amend the television table of assignments, contained in § 3.606, rules governing television broadcast stations, so as to assign Channel 8 to Moses Lake, Washington, by making other changes in the table as follows:

City	Channel No.	
	Present	Proposed
Moses Lake, Wash.	None	8
Walla Walla, Wash.	5–, 8, *22	5–, 11, *22

[1] North Adams, Mass., Docket 11190 (FCC 54–1308); Scranton, Pa., Docket 11219 (FCC 55–33); Kingston, N. Y., Docket 11261 (FCC 55–89).

The proposed amendment would require a change in the offset requirement only of the Channel 11 assignment in Tacoma, Washington, from 11+ to 11–.

3. In support of the requested amendment petitioner urges that the assignment of Channel 8 to Moses Lake would represent the addition of a VHF allocation in an area which has no such allocation and no operating UHF station; that it would provide service to a large number of people who do not at present receive any Grade B signals from other television stations; that the proposed amendment would conform to the Commission's rules; and that the proposal would not affect any existing operation.

4. The Commission is of the view that rule-making proceedings should be instituted in this matter in order that interested parties may submit their views. The subject petition is made a part of this docket.

5. Authority for the adoption of the proposed amendement is contained in sections 4 (i), 301, 303 (c), (d), and (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before May 16, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider such comments before taking final action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: April 19, 1955.

Released: April 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

MANIPULATIVE AND DECEPTIVE DEVICES AND CONTRIVANCES

NOTICE OF PROPOSED RULE MAKING

On May 18, 1954, the Commission announced its proposal to adopt three rules under the Securities Exchange Act of 1934 with respect to certain activities by persons participating in the distribution of securities. The rules proposed were § 240.10b–6 (Rule X-10B–6), restricting trading activity by persons who are participating or expect to participate in a distribution, § 240.10b–7 (Rule X-10B–7) relating to stabilizing to prevent or retard a price decline, and § 240.10b–8 (Rule X-10B–8) dealing with the peculiar problems arising in rights offerings, particularly those which have generally come to be known as the Shields Plan and Columbia Gas Plan type of offerings.

The Commission received numerous written comments and suggestions. After appropriate notice a public hearing was held on July 8, 1954 at which interested persons were afforded an opportunity to present their views orally. Certain of those who attended the hearings and other persons who desired to participate have since conferred with the staff and submitted additional comments.

The Commission has given due consideration to all of the views and comments made at the hearing and otherwise submitted and has incorporated the substance of a number of them in the proposed revisions §§ 240.10b–6, 240.10b–7, and 240.10b–8 set forth below.

As the Commission announced in Securities Exchange Act Release No. 5040, it proposes to rescind § 240.9a6–1 (Regulation X-9A6–1) when § 240.10b–7 (Rule X-10B–7) is adopted since this rule would prohibit stabilizing in connection with an offering "at the market".

Proposed §§ 240.10b–6, 240.10b–7 and 240.10b–8 would be adopted under the provisions of sections 10 (b) and 23 (a) of the Securities Exchange Act of 1934.

The text of the proposed rules as revised is as follows:

§ 240.10b–6 *Prohibitions against trading by persons interested in a distribution.* (a) It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10 (b) of the act for any person,

(1) Who is an underwriter or prospective underwriter in a particular distribution of securities, or

(2) Who is the issuer or other person on whose behalf such a distribution is being made, or

(3) Who is a broker, dealer, or other person who has agreed to participate or is participating in such a distribution,

directly or indirectly, by the use of any means or instrumentality of interstate commerce, or of the mails, or of any facility of any national securities exchange, either alone or with one or more other persons, to bid for or purchase for any account in which he has a beneficial interest, any security which is the subject of such distribution, or any security of the same class and series, or any right to purchase any such security, or to attempt to induce any person to purchase any such security or right until after he has completed his participation in such distribution: *Provided, however,* That this section shall not prohibit (i) transactions in connection with the distribution effected otherwise than on a securities exchange with the issuer or other person or persons on whose behalf such distribution is being made or among underwriters, prospective underwriters or other persons who have agreed to participate or are participating in such distribution; or (ii) odd-lot transactions (and the off-setting round-lot transactions hereinafter referred to) by a person registered as an odd-lot dealer in such security on a national securities exchange who offsets such odd-lot transactions in such security by round-lot transactions as promptly as possible; or (iii) brokerage transactions not involving solicitation of the customer's order; or (iv) offers to sell or the solicitation of offers to buy the securities being distributed or securities or rights beneficially owned (including securities or rights acquired in stabilizing); or (v) the exercise of any right or conversion privilege to acquire any security; or (vi) stabilizing transactions not in violation of § 240.10b–7; or (vii) bids for or purchases of rights not in violation of § 240.10b–8; or (viii) transactions effected on a national securities exchange in accordance with the provisions of a plan filed by such exchange under § 240.10b–2 (d) and declared effective by the Commission; or (ix) purchases or bids by an underwriter, prospective underwriter or dealer otherwise than on a securities exchange, 10 or more business days prior to the proposed commencement of such distribution (or 5 or more business days in the case of unsolicited purchases), if none of such purchases or bids are for the purpose of creating actual or apparent active trading in or raising the price of such security. In the case of securities offered pursuant to an effective registration statement under the Securities Act of 1933 the distribution shall not be deemed to commence for purposes of this subdivision prior to the effective date of the registration statement.

(b) The distribution of a security (1) which is immediately exchangeable for or convertible into another security, or (2) which entitles the holder thereof immediately to acquire another security, shall be deemed to include a distribution of such other security within the meaning of this section.

(c) The following shall be applicable for the purposes of this section.

(1) The term "underwriter" means a person who has agreed with an issuer or other person on whose behalf a distribution is to be made (i) to purchase securities for distribution or (ii) to distribute securities for or on behalf of such issuer or other person or (iii) to manage or supervise a distribution of securities for or on behalf of such issuer or other person.

(2) The term "prospective underwriter" means a person (i) who has agreed to submit or has submitted a bid to become an underwriter of securities as to which the issuer, or other person on whose behalf the distribution is to be made, has issued an invitation for bids, or (ii) who has reached an understanding, with the issuer or other person on whose behalf a distribution is to be made, that he will become an underwriter, whether or not the terms and conditions of the underwriting have been agreed upon.

(3) A person shall be deemed to have completed his participation in a particular distribution as follows: (i) The issuer or other person on whose behalf such distribution is being made, when such distribution is completed; (ii) an underwriter, when he has distributed his participation, including all other securities of the same class acquired in connection with the distribution, and any stabilization arrangements and trading restrictions with respect to such distribution to which he is a party have been terminated; (iii) any other person, when he has distributed his participation. A person, including an underwriter or dealer, shall be deemed for purposes of this subparagraph to have distributed securities acquired by him for investment.

(d) The provisions of this section shall not apply to exempted securities or to securities issued or guaranteed by the International Bank for Reconstruction and Development.

§ 240.10b–7 *Stabilizing to facilitate a distribution*—(a) *Scope of section.* The provisions of this section shall apply to any person who, either alone or with one or more other persons, directly or indirectly, stabilizes the price of a security to facilitate an offering of any security. It shall constitute a "manipulative or deceptive device or contrivance", as used in section 10 (b) of the act, for any such person, directly or indirectly, by the use of any means or instrumentality of interstate commerce, or of the mails, or of any facility of any national securities exchange, to effect, either alone or with one or more other persons, any transaction or series of transactions prohibited by this section.

(b) *Definitions.* Unless the context clearly indicates otherwise, for the purposes of this section the following terms shall have the meaning indicated:

(1) The term "offering at the market" shall mean an offering in which it is contemplated that the offering price will differ from the next preceding offering price more often than once in any calendar day: *Provided, however,* That reduction of the offering price shall not make any offering an "offering at the market".

(2) The term "transaction" shall mean a bid or a purchase.

(3) The terms "stabilize", "stabilizes", "stabilizing" or "stabilized" shall mean the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or stabilizing the price of any security.

(c) *Transactions must be necessary.* No stabilizing bid or purchase shall be made except for the purpose of preventing or retarding a decline in the open market price of a security.

(d) *Priority must be granted.* Any person placing or transmitting a bid which he knows is for the purpose of stabilizing the price of any security shall disclose the purpose of such bid to the person with whom it is placed or to whom it is transmitted. Any person placing a stabilizing bid or effecting a stabilizing purchase on a securities exchange shall grant priority to any independent bid at the same price irrespec-

tive of the size of such independent bid or the time when it is entered. Any person placing a stabilizing bid or effecting a stablizing purchase otherwise than on a securities exchange shall grant priority to any independent bid at the same price placed with or transmitted to him irrespective of the size of such independent bid or the time when it is entered.

(e) *Control of stabilizing.* No sole distributor or syndicate or group stabilizing the price of a security nor any member or members of such syndicate or group shall maintain more than one bid in any one market at the same price at the same time: *Provided, however,* That more than one bid at the same price may be maintained otherwise than on a securities exchange by or for the account of all persons stabilizing.

(f) *Stabilizing at prices resulting from unlawful activity.* No stabilizing shall be initiated at a price which the stabilizer knows or has reason to know is the result of activity which is fraudulent, manipulative, or deceptive under the act or any rule or regulation thereunder.

(g) *Stabilizing prohibited in offerings at the market.* No person shall effect any stabilizing transaction to facilitate any offering at the market.

(h) *Stabilizing securities traded in more than one market.* If a security is traded in more than one market, stabilizing shall not be initiated at any price which would be unlawful in the market which is the principal market for such security in the United States open for trading at the time when such stabilizing is initiated: *Provided, however,* That if the principal market for such security in the United States is a securities exchange, stabilizing may be initiated in any market after the close of such exchange at the price at which stabilizing could have been initiated on such exchange at the close thereof unless the person stabilizing knows or after reasonable inquiry, has reason to know that other persons have offered or sold such security at a lower price after such close, except that special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(i) *Entering stabilizing bid on exchange prior to opening.* No person shall place a stabilizing bid on a securities exchange prior to the time the opening quotations for the security on such exchange are available, unless he has been and is lawfully stabilizing such security at such price: *Provided, however,* That a stabilizing bid may be made immediately prior to the opening of a securities exchange at a price not in excess of the price at which stabilizing could have been initiated on such exchange at the previous close thereof, unless the person stabilizing knows or after reasonable inquiry, has reason to know that other persons have offered or sold such security at a lower price after such close, except that special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(j) *Stabilizing levels.* (1) Except as provided in subparagraphs (2) and (3) of this paragraph, no person shall (i) begin to stabilize a security at a price higher than the highest current independent bid price for such security or (ii) raise the price at which he is stabilizing. If no bona fide market for the security being distributed exists at the time stabilizing is initiated, stabilizing may be initiated at a price not in excess of the public offering price.

(2) If the principal market for a security is a securities exchange and stabilizing is initiated on such exchange the initial stabilizing bid or purchase may be made at a price not in excess of the last independent sale price on such exchange if (i) the security has been traded on such exchange on the day when stabilizing is begun, on either of the two preceding calendar days, or on the last preceding business day, and (ii) the current asked price is equal to or above the last independent sale price. If both conditions set forth in subdivisions (i) and (ii) of this subparagraph are not met, no person shall begin to stabilize the security at a price in excess of the highest current independent bid price for such security: *Provided, however,* That if a stabilizing bid has been entered at such independent bid price and the first sale thereafter on the exchange is an independent sale at a higher price, the security may be stabilized at a price not in excess of such independent sale price.

(3) A stabilizing bid lawful when made may be continuously maintained or reduced irrespective of changes in the independent bid, asked or sale price of such security: *Provided, however,* That no stabilizing shall be done at a price higher than the price at which stabilizing is being done in the principal market for such security. If stabilizing is discontinued for less than three business days it shall not be resumed in connection with the same distribution except at the lower of the two following prices: (i) The last lawful stabilizing price, or (ii) the price at which stabilizing could then be initiated. If no stabilizing purchases have been effected for three consecutive business days then stabilizing may be continued or resumed at the price at which it could then be initiated.

(4) No person shall stabilize a security at a price above the price at which such security is currently being distributed: *Provided, however,* That special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(5) If a security goes ex-dividend, ex-rights, or ex-distribution, the price at which such security is being stabilized shall be reduced by an amount equal to the value of the dividend, right, or distribution, computed to the nearest trading differential: *Provided, however,* That if the dividend, right or distribution has a value of not more than 50 percent of the minimum price differential, the stabilizing price need not be reduced.

(6) When two or more securities are being offered as a unit, the component securities shall not be stabilized at prices the sum of which exceeds the offering price of the unit.

(7) If a security is being called or redeemed it shall be unlawful to stabilize such security at a price above such call or redemption price plus accruals, if any: *Provided, however,* That if such security is immediately convertible into or exchangeable for another security or securities, and if the amount of such other security or securities (into which it is convertible or for which it is exchangeable) multiplied by their highest lawful stabilizing price exceeds the call or redemption price plus accruals, then the security may be stabilized at a price not in excess of such price, to the nearest trading differential.

(k) *Disclosure of stabilizing.* Any person subject to this rule who sells to, or purchases for the account of, any person, any security the price of which has been stabilized by the effecting of stabilizing purchases (or any right or warrant to subscribe to any such security) shall give or send to such person, at or before the completion of each transaction entered into while the distribution is in progress, written notice that stabiiizing purchases have been effected to support the price of such security. If, however, at or before the completion of the transaction, the purchaser receives a prospectus, offering circular, confirmation or other writing containing a statement similar to that comprising the legend provided for in Rule 426 under the Securities Act of 1933, then no other written notice with respect to stabilizing need be given to such purchaser.

(l) *Reporting requirements.* Every person subject to this section shall file with the Commission the reports and notices required to be filed by § 240.17a–2 even though he is not subject to that section as a broker, dealer, or member of a national securities exchange.

(m) *Limitation of liability.* Whenever any act done or omitted by any person subject to this section would involve a violation of such rule only if some other person had previously done or omitted to do some other act, the act or omission of such first-mentioned person shall not involve a violation unless such first-mentioned person knew or had reason to know that such other person had previously done or omitted to do such other act.

(n) *Exempted securities.* The provisions of this section shall not apply to exempted securities or to securities issued or guaranteed by the International Bank for Reconstruction and Development.

§ 240.10b–8 *Distributions through rights*—(a) (1) *Scope of section.* It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10 (b) of the act for any person participating in a distribution of securities being offered through rights issued on a pro-rata basis to security holders, directly or indirectly, by the use of any means or instrumentality of interstate commerce, or of the mails, or of any facility of any national securities exchange, to do any act prohibited by this section prior to the expiration of the rights; *Provided, however,* That a person shall not be subject to this section merely because he receives compensation from the issuer of the rights for obtaining exercises of rights by security holders to whom they were originally issued.

(2) *Definitions.* For the purposes of this section "a full business day" shall mean a period beginning at any time on any business day and extending to the same time on the next succeding business day.

(b) Except as provided in paragraph (c) of this section no person subject to this section shall offer or sell the securities being distributed, or securities of the same class and series, at a price in excess of the last price set by the person or persons managing the distribution or by a formula prescribed in an agreement with such person or persons. Such price may be set from time to time, but may not differ from the next preceding price more frequently than once in any calendar day, except to be reduced. If the principal market for such security is a securities exchange, such price shall not, at the time it is so set, exceed the price at which such security last sold on such exchange (plus an amount equal to an exchange commission) or the current asked price on such exchange (plus such commission), whichever is higher. If the principal market for such security is not a securities exchange, such sale price shall not, at the time it is so set, exceed the highest price at which a dealer not participating in the distribution is then offering the security to other dealers (plus an amount equal to a dealer's concession). The amount of any accrued dividends or interest may be added to such prices.

(c) The provisions of paragraph (b) of this section shall not apply to (1) privately negotiated transactions effected otherwise than on a securities exchange, among persons participating in the distribution; or (2) odd-lot transactions (and the off-setting round-lot transactions hereinafter referred to) by a person registered as an odd-lot dealer in such security on a national securities exchange who off-sets such odd-lot transactions in such security by round-lot transactions as promptly as possible; or (3) brokerage transactions not involving solicitation of the customer's order; or (4) offers and sales at the subscription price to holders of rights; or (5) offers and sales to members of any group or class entitled to a special price; or (6) offers and sales of securities owned beneficially on the record date for the rights or acquired through the exercise of rights issued in respect of securities so owned.

(d) The conditions of subparagraphs (1) through (7) of this paragraph shall apply to all bids for and purchases of rights on behalf of a sole distributor, or a syndicate or group participating in the distribution, or any member or members of such a syndicate or group, during any period when the price of the security is being stabilized to facilitate the distribution, or such sole distributor, or such syndicate or group, or any member or members thereof, having purchased, as principal, any right not necessary to acquire securities previously sold by such person or such syndicate or group, in connection with the distribution, has not sold the securities which have been or can be acquired through such rights: *Provided, however,* That the conditions of subparagraphs (1) through (7) of this paragraph shall not become applicable because of the purchase of rights in any transaction described in subparagraph (8) of this paragraph. As used in this section the term "syndicate or group" means all persons who have agreed to purchase from the issuer of rights any of the securities offered through but not purchased upon the exercise of the rights; all "soliciting dealers" as defined in subparagraph (8) (viii) of this paragraph, including a "dealer manager" as therein defined, and all persons who have agreed with the issuer of rights, or with each other, that they will engage in the purchase of rights and the sale of the securities which may be acquired through the exercise of rights.

(1) Not more than one bid to purchase rights shall be maintained in any one market at the same price at the same time: *Provided, however,* That more than one bid at the same price may be maintained otherwise than on a securities exchange by or for the account of the sole distributor or for the account of the syndicate or group.

(2) No bid for or purchase of rights shall be made until an independent market for such rights has been established: *Provided, however,* That if (i) trading has not begun on the business day on which trading in such rights could lawfully have begun, and (ii) the theoretical value of such right can be ascertained by a generally accepted mathematical formula, then such right may be purchased thereafter at a price not in excess of such theoretical value.

(3) The initial bid for or purchase of such rights under the conditions of this paragraph shall not be made at a price higher than the highest current independent bid price in the principal market for such rights in the United States open for trading at the time when such bid or purchase is made: *Provided, however,* That if the principal market for such rights is a securities exchange in the United States open for trading at such time, such initial bid or purchase may be made in any market at the last independent sale price on such exchange if (i) such right has been traded on such exchange on such day or on the preceding business day and (ii) the current asked price on such exchange is equal to or above such sale price: *And provided, further,* That if the initial bid or purchase is made after the close of such exchange such initial bid or purchase may be made at the price at which such initial bid or purchase could have been made on such exchange at the close thereof unless the bidder or purchaser knows, or after reasonable inquiry has reason to know, that other persons have offered or sold such right at a lower price after such close.

(4) Subject to the limitations in subparagraph (7) of this paragraph, a bid which is lawful when initiated may be continuously maintained or reduced irrespective of changes in the independent bid, asked or sale price of such right. Except as provided in subparagraph (5) of this paragraph, if the bidding for and purchasing of rights is discontinued for any reason, bidding for or purchasing of rights shall not be resumed except at a price not exceeding the lower of the two following prices: (i) The last price at which a lawful bid or purchase was made or (ii) the price which would be applicable if it were the initial bid or purchase.

(5) The price at which a bid for or purchase of rights is made may be increased only if (i) no rights have been purchased, as principal, for a full business day by any or all persons participating in the distribution except in a transaction described in subparagraph (8) of this paragraph, and (ii) the increased price meets the requirements which would be applicable if it were the initial bid or purchase.

(6) In the event that the conditions of this paragraph have ceased to be applicable, and then later become applicable again, the first bid for or purchase of rights after such conditions have again become applicable shall be treated as the initial bid for or purchase of rights under the conditions of this paragraph for purposes of subparagraphs (3), (4) and (5) of this paragraph.

(7) Purchases of rights shall be limited to those necessary to acquire the securities which the sole distributor, or the members of the syndicate or group, have previously sold and reasonably expect to be able to sell within two business days after the expiration of the rights: *Provided, however,* That the net long position of the sole distributor, or the syndicate or group (exclusive of shares sold by the manager of a syndicate or group to members or others for distribution) by reason of the purchase of rights otherwise than in a transaction described in subparagraph (8) of this paragraph, shall at no time exceed 10 percent of the amount of securities being distributed.

(8) Except as provided in subdivision (viii) of this subparagraph, the provisions of this paragraph shall not apply to the purchase of rights,

(i) By or through the manager of the distributing group in a privately negotiated transaction effected neither on a securities exchange nor from or through a broker or dealer not participating in the distribution; or

(ii) By an underwriter or dealer directly from a retail customer in an unsolicited privately negotiated transaction not effected on a securities exchange; or

(iii) In stabilizing transactions in the rights effected in compliance with § 240.10b–7; or

(iv) In a privately negotiated transaction, otherwise than on a securities exchange, between persons participating in the distribution acting as principal; or

(v) By a person registered as an odd-lot dealer in such rights on a national securities exchange who is acting in such capacity in effecting such transactions; or

(vi) To complete a sale of rights to a retail customer made under circumstances indicating the purchaser intends to exercise such rights; or

(vii) By the issuer of the rights from the security holder to whom they were originally issued if (*a*) such rights are

not resold, (b) the securities which can be acquired with such rights are not sold by such issuer during the rights period, and (c) such issuer has no agreement to sell the unsubscribed shares or to compensate, directly or indirectly, any person for obtaining exercises of rights except by a security holder to whom they were originally issued; or

(viii) By a dealer-manager, provided that (a) such dealer-manager has no arrangement with the issuer of the rights to purchase any part of the securities remaining unsubscribed after the rights expire, (b) such dealer-manager purchases such rights for the purpose of supplying the rights, or the security which can be acquired with such rights, to soliciting dealers: *Provided, however,* That such dealer-manager shall not purchase more rights than are necessary to acquire the securities which he reasonably expects to be able to sell to soliciting dealers within two business days after the expiration of the rights, and (c) such dealer-manager purchases such rights in accordance with the conditions set out in subparagraphs (2), (3), (4), (5) and (6) of this paragraph. As used in this section, the term "soliciting dealer" shall mean a person entitled to receive, directly or indirectly, from an issuer of rights, compensation for obtaining exercises of such rights; and the term "dealer-manager" shall mean a person who manages a distribution involving soliciting dealers except that the issuer of such rights shall not be deemed to be a dealer-manager.

(e) Whenever any act done or omitted by any person subject to this section would involve a violation of such section only if some other person had previously done or omitted to do some other act, the act or omission of such first-mentioned person shall not involve a violation unless such first-mentioned person knew or had reason to know that such other person had previously done or omitted to do such other act.

All interested persons are invited to submit views and comments on the revised proposal in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before May 3, 1955. However, no person need resubmit views or comments previously submitted in connection with the proposed rules since such views and comments have been considered in the preparation of the revised proposals set out herein. Views or comments received will be available for public inspection unless in any case a person requests that his comments shall not be made public.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

AIR NAVIGATION SITE WITHDRAWAL NO 13

APRIL 20, 1955.

Notice of the proposed withdrawal was published in the FEDERAL REGISTER March 16, 1955, (F. R. Doc. 55-2188) and no protest was filed within 30 days thereafter.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 1.5 (b) of Delegation Order No. 541 of April 21, 1954, it is ordered as follows:

Subject to valid existing rights, the following described land, "All the SW¼SE¼ Section 5, T. 19 N., R. 4 W., S. M. excepting therefrom the NE¼NE¼ SW¼SE¼ of said Section 5, containing 37.5 acres more or less,"

is hereby withdrawn from all forms of appropriation under the public land laws and reserved for the use of the Civil Aeronautics Administration, Department of Commerce, in the maintenance of air navigation facilities, the reservation to be known as Air Navigation Site Withdrawal No. 13, Alaska.

The purpose of the withdrawal: To establish a Radio Range Installation in the vicinity of Willow Station on the Alaska Railroad.

It is intended that the public land described herein shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which it is reserved.

LOWELL M. PUCKETT, *Area Administrator, Area 4.*

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 8, 1955.

The United States Department of Agriculture has filed an application, Serial No. Idaho 05154, for the withdrawal of the lands described below, from all forms of appropriation under the General Mining Laws, subject to existing valid claims. The applicant desires the land for Administrative Sites within the Nez Perce and Idaho National Forests.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, State Supervisor, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

MOUNTAIN SHEEP ADMINISTRATIVE SITE

Unsurveyed, but when surveyed will probably be:

T. 23 N., R. 8 E.,
Sec. 7, NE¼NE¼, NW¼NE¼, E½SW¼NE¼, SE¼NE¼, N½NE¼SE¼, and the unpatented portions of NW¼SW¼NE¼, NE¼NW¼SE¼.

COUGAR BASIN ADMINISTRATIVE SITE

Unsurveyed, but when surveyed will probably be:

T. 20 N., R. 10 E.,
Sec. 19, SE¼SE¼.

CHAMBERLAIN BASIN ADMINISTRATIVE SITE

Unsurveyed, but when surveyed will probably be:

T. 24 N., R. 10 E.,
Sec. 23, SE¼NE¼, SE¼SW¼, SE¼;
Sec. 24, SW¼NE¼, NW¼NW¼, S½NW¼, N½S½, SW¼SW¼, the unpatented portions of N½NE¼, SE¼NE¼, NE¼NW¼, the unwithdrawn portions of the SE¼SW¼, S½SE¼;
Sec. 25, NW¼NW¼, the unpatented and unwithdrawn portions of the N½NE¼, NE¼NW¼;
Sec. 26, N½N½.

Total area: 840 acres more or less.

J. R. PENNY, *State Supervisor.*

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended July 5, 1954. 19 F. R. 3326).

Alabama Textile Products Corp., Andalusia, Ala., effective 4-8-55 to 10-7-55; 30 learners for plant expansion purposes in the production of ladies' dresses and blouses (ladies' dresses and blouses).

Amory Garment Company, Inc., South Main and Third Streets, Amory, Miss., effective 4-11-55 to 4-10-56; 10 percent of the total number of factory production workers, for normal labor turnover purposes (men's and boys' trousers)

Angelica Uniform Co., Mountain View, Mo., effective 4-24-55 to 4-23-56; 10 learners for normal labor turnover purposes (washable service apparel).

Blue Bell, Inc., Tishomingo County, Tishomingo, Miss., effective 4-8-55 to 10-7-55; 50 learners for plant expansion purposes (work pants).

Elder Manufacturing Co., McLeansboro, Ill., effective 4-16-55 to 4-15-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' dress shirts).

Elder Manufacturing Co., Bloomfield, Mo., effective 4-13-55 to 4-12-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' wearing apparel).

Gloria Manufacturing Co., 426 Main Street, Slatington, Pa., effective 4-6-55 to 4-5-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' house dresses).

Mahanoy City Sportswear, Inc., 108-110 South Main Street, Mahanoy City, Pa., effective 4-11-55 to 4-10-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sports shirts).

Mid-American Manufacturing Co., Inc., 304 South First Street, Ponca City, Okla., effective 4-11-55 to 10-10-55; 10 learners for plant expansion purposes (men's and boys', ladies' and girls' denim jeans).

J. H. Rutter-Rex Manufacturing Co., Inc., Columbia, Miss., effective 4-11-55 to 10-10-55; 50 learners for plant expansion purposes (work shirts).

The S & S Clothing Co., 44-48 Lehigh Street, Wilkes-Barre, Pa., effective 4-16-55 to 4-15-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' pants).

Southern Manufacturing Co., Plant No. 2, 1202 Broadway, Nashville, Tenn., effective 4-11-55 to 4-10-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

K. W. Pollock, d/b/a Tompkinsville Garment Co., Tompkinsville, Ky., effective 4-13-55 to 4-12-56; 10 learners for normal labor turnover purposes (men's dungarees).

Turner Sportswear Company, 107 Twelfth Avenue North, Nashville, Tenn., effective 4-17-55 to 4-16-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended July 13, 1953, 18 F. R. 3292).

Churchill-Swanson Manufacturing Co., 544 North Pearl Street, Centralia, Wash., effective 4-14-55 to 4-13-56; 5 learners for normal labor turnover purposes (work gloves).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Ellwood Knitting Mills, Inc., Ellwood City, Pa., effective 4-8-55 to 10-7-55; 20 learners for plant expansion purposes (men's and boys' knitted outerwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended January 29, 1955, 20 F. R. 645).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Airflex, Inc., Bayamon, P. R., effective 4-1-55 to 9-30-55; 10 learners, assembly operations, 160 hours at 50 cents an hour (metal expansion watch bands).

Gordonshire Knitting Mills, Inc., Cayey, P. R., effective 4-1-55 to 9-30-55; 25 learners, looping and mending, 320 hours at 35 cents an hour, 320 hours 40 cents an hour, 320 hours at 45 cents an hour; knitting and inspecting, 240 hours at 37½ cents an hour, 240 hours at 45 cents an hour (ladies' seamless hosiery).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 12th day of April 1955.

MILTON BROOKE, *Authorized Representative of the Administrator.*

FEDERAL COMMUNICATIONS COMMISSION

[FCC 55-480; Amdt. 0-3]

CHIEF HEARING EXAMINER

DELEGATION OF CERTAIN AUTHORITIES PRESENTLY DELEGATED TO MOTIONS COMMISSIONER

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of April 1955:

The Commission having under consideration the delegation to the Chief Hearing Examiner of certain authorities presently delegated to the Motions Commissioner, and related matters; and

It appearing that the amendment herein ordered would be in aid of orderly administrative procedure; and

It further appearing that the amendment herein ordered is procedural in nature, and, therefore, compliance with the public notice and rule making procedure required by sections 4 (a) and (b) of the Administrative Procedure Act is not required:

It is ordered, That pursuant to section 4 (i) and 303 (r) of the Communications Act, as amended, and section 3 (a) of the Administrative Procedure Act, Part 0 of the Commission's rules is hereby amended, effective immediately, as set forth below.

Released: April 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] MARY JANE MORRIS, *Secretary.*

1. Section 0.82 of the Commission's rules and regulations is amended by deleting subparagraph (b) thereof and renumbering the following subsections accordingly. As amended, section 0.82 reads as follows:

SEC. 0.82 *Responsibilities of the Chief Hearing Examiner.* The Chief Hearing Examiner has the following administrative responsibilities:

(a) To coordinate and supervise administratively the activities of the Office of Hearing Examiners.

(b) To prepare and maintain hearing calendars, showing the time and place of the commencement of hearings.

(c) To receive, correlate and approve recommendations of the hearing examiners of the Commission on matters relating to changes in rules and regulations governing hearing procedures, and recommend to the Commission desirable changes in said rules and regulations to promote the simplified and expeditious conduct of proceedings.

(d) To require and prepare reports, statistical data and other information requested or required by the U. S. Civil Service Commission or other offices or agencies of the U. S. Government concerned with the proper operation of the Office of Hearing Examiners.

(e) To serve, upon instruction of the Commission or the Chairman, as liaison for the Commission and the Office of Hearing Examiners in the making of appropriate arrangements for the securing of advice or information from representatives of other agencies, bar associations, and other interested persons in connection with the formulation and improvement of administrative procedures and practices applicable to the Commission's proceedings.

(f) To exercise such authority as may be assigned to him by the Commission pursuant to section 5 (d) of the Communications Act, as amended.

2. Section 0.222 is amended to read as follows:

MOTIONS COMMISSIONER

SEC. 0.222 *Authority delegated.* Except as otherwise provided for in the

[1] Commissioner Bartley dissenting.

rules or ordered by the Commission, the Motions Commissioner shall act upon the following matters:

(a) In cases designated for hearing but before a hearing examiner has been designated to preside at a hearing and after issuance of an initial decision, on all motions, petitions or other pleadings except (1) those requesting final disposition of any case on its merits, (2) those having the nature of an appeal to the Commission, en banc, (3) those changing the issues upon which the hearing was ordered, and (4) those requesting change or modification of a final order made by the Commission.

(b) When, in nonadjudicatory proceedings, one or more members of the Commission have been designated to preside at a hearing, all motions, petitions or matters, except those set forth in subsection (a) (1–4), shall thereafter be handled by him or them, and such commissioner or commissioners shall be authorized and empowered to fix the time and place such hearing shall be held. (If a hearing officer who is not a member of the Commission is appointed, section 0.231 applies.) In the absence of the individual commissioner or commissioners designated to preside at a hearing, or his or their inability to act or pass upon these matters, they shall be referred to the Motions Commissioner.

(c) In the absence of the Chief Hearing Examiner, the Motions Commissioner will discharge the several functions specified in section 0.224.

3. The following two sections are added:

CHIEF HEARING EXAMINER

SEC. 0.224 *Authority delegated.* The Chief Hearing Examiner shall act upon the following matters:

(a) Initial specifications of the time and place of hearings to be conducted by hearing examiners where not otherwise specified by the Commission and excepting actions under authority delegated by section 0.255.

(b) Designation of the hearing examiner to preside at the hearing.

(c) After a hearing examiner has been designated to preside at a hearing and before he has issued an initial decision on motions, petitions and other pleadings concerning:

(1) Petitions to intervene.

(2) Petitions filed by applicant requesting that its application or the proceeding thereon be dismissed.

(3) Dismissal of cease and desist and revocation proceedings.

(4) Requests for leave to file additional pleadings provided for in § 1.730 and pleadings in excess of the length specified in § 1.751.

SEC. 0.225 *Record of action taken.* Actions taken by the Chief Hearing Examiner shall be recorded each week and filed in the official minutes of the Commission.

4. Section 0.231 is amended to read as follows:

HEARING EXAMINER

SEC. 0.231 *Authority delegated.* After a hearing examiner has been designated to preside at a hearing and before he has issued an initial decision, all motions, petitions and other pleadings shall be acted upon by such hearing examiner, except:

(a) Petitions to intervene.

(b) Petitions filed by applicant requesting that its application or the proceeding thereon be dismissed.

(c) Dismissal of cease and desist and revocation proceedings.

(d) Requests for leave to file additional pleadings provided for in § 1.730 (47 CFR 1.730) and pleadings in excess of the length specified in § 1.751 (47 CFR 1.751).

(e) Those requesting final disposition of any case on its merits.

(f) Those having the nature of an appeal to the Commission en banc.

(g) Those changing the issues upon which the hearing was ordered.

[Docket Nos. 11055, 11056; FCC 55M-351]

AIRCALL, INC., AND TELEPHONE ANSWERING SERVICE

ORDER CONTINUING HEARING

In re Applications of Aircall, Inc., Detroit, Michigan, Docket No. 11055, File No. 744-C2-P-54; John W. Bennett, d/b as Telephone Answering Service, Flint, Michigan, Docket No. 11056, File No. 276-C2-P-54; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

The Hearing Examiner having under consideration the above-entitled proceeding:

It is ordered, This 19th day of April 1955, on the Hearing Examiner's own motion, that the hearing now scheduled for April 26, 1955, is continued until May 18, 1955, at 10:00 a. m.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3433; Filed, Apr. 26, 1955; 8:53 a. m.]

[Docket No. 11367]

CHECKER CAB CO.

ORDER TO SHOW CAUSE

In the matter of Patrick O'Connell, d/b as Checker Cab Co., Oroville, California; order to show cause why the license for Taxicab Radio Station KMA 937 should not be revoked; Docket No. 11367.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Taxicab Radio Station, call sign KMA 937, licensed to Patrick O'Connell, d/b as Checker Cab Co., 1350 4th Avenue, Oroville, California; and

It appearing that notices of violations of the Commission's rules in the operation of the station were given the licensee as follows:

(a) Notice dated June 3, 1954, specifying that said licensee had violated § 16.160 (47 CFR 16.160) of the Commission's rules by failing to maintain a record of power, frequency, and modulation measurements for the 6 month period preceding May 24, 1954; and

(b) Notice dated August 18, 1954, specifying that said licensee had violated § 16.159 (47 CFR 16.159) of the Commission's rules by failing to respond to the above-mentioned Violation Notice, dated June 3, 1954; and

It further appearing that, despite further notices calling attention to the foregoing notice of violations and the failure to reply thereto in accordance with § 16.159 (47 CFR 16.159) of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 19th day of April 1955 pursuant to the provisions of section 312 (a) (4) and (c) of the Communications Act of 1934, as amended, that the said Patrick O'Connell show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 27th day of June 1955; and

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Patrick O'Connell, D/b as Checker Cab Co., 1350 Fourth Avenue, Oroville, California.

Released: April 20, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3405; Filed, Apr. 26, 1955; 8:47 a. m.]

[Docket No. 11370; FCC 55-476]

VALLEY TELECASTING CO. (WFRV-TV)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Valley Telecasting Company (WFRV-TV), Green Bay, Wisconsin, for transfer of control from Clayton Ewing, et al. to Neenah-Menasha Broadcasting Company, Docket No. 11370, File No. BTC-1873; for modification of construction permit to extend completion date, File No. BMPCT-2601; for modification of construction permit to change transmitter site and make other equipment changes, File No. BMPCT-2712.

1. The Commission has before it for consideration a "Protest and Petition for Rehearing" filed on March 21, 1955, by M & M Broadcasting Company, Inc. (M&M), permittee of television station WMBV-TV, Channel 11, Marinette, Wisconsin, pursuant to section 309 (c) and 405 of the Communications Act of 1934, as amended, directed against the Commission's actions of February 23, 1955, granting without hearings the above-entitled applications; and (b) a "Joint Opposition to Protest and Petition for Rehearing" filed on April 5, 1955, by Valley Telecasting Company (Valley), permittee of television station WFRV-TV, Channel 5, Green Bay, Wisconsin, and Neenah-Menasha Broadcasting Company (Neenah-Menasha), former permittee of Channel 42, Neenah, Wisconsin, and controlling stckholder of Valley. The protest and petition requests that the Commission (1) designate the above-entitled applications for hearings; (2) make M&M a party thereto; (3) postpone the effective date of the Commission's actions granting the subject applications; and (4) adopt the issues specified by the protestant and such others as the Commission may deem appropriate.

2. On March 10, 1954, the Commission granted the application (BPCT-1147) of Valley for a construction permit for a new television station to be operated on Channel 5 in Green Bay, Wisconsin. This permit authorized the permittee to operate with effective radiated power of 100 kw visual, 60 kw aural at a height of 600 feet above average terrain, and specified May 10, 1954 as the date of required commencement of construction with November 10, 1954 as the required completion date. On November 5, 1954, Valley filed the above-entitled application (BMPCT-2601) for extension of time in which to complete construction. Subsequently, Valley amended this application to indicate that an agreement had been entered into with Neenah-Menasha whereby the two corporations would merge their broadcasting interests; that it had also entered into a contract with DuMont for the purchase of equipment for which it had made a down payment; and that Neenah-Menasha had ordered a new antenna for use in connection with WFRV-TV, which purchases were contingent upon the Commission's approval of the transfer of control of Valley to Neenah-Menasha.

3. On January 5, 1955, Valley filed an application (BTC-1873) for Commission consent to the transfer of control of Valley from Clayton Ewing, et al. to Neenah-Menasha, and an application (BMPCT-2712) to modify its construction permit to specify a transmitter location 2.8 miles nearer Green Bay (and also slightly closer to Marinette); to reduce antenna height above average terrain from 600 feet to 470 feet; to reduce aural effective radiated power from 60 kw to 50 kw; to install new transmitters and change type of antenna; and to locate the main studio at the transmitter site. These three applications were granted by the Commission without hearing on February 23, 1955. The merger agreement gives the transferors (Clayton Ewing, et al.) 41.8 percent of the common (voting) stock of Neenah-Menasha by an exchange of 239 shares ($100 par value) of Valley for a like number of shares of Neenah-Menasha and by subscription rights for 839 additional shares of Neenah-Menasha stock. The merger agreement also provides that Samuel N. Pickard or his designates shall hold not less than 51 percent of the outstanding stock. The grant of the transfer application is subject to the condition that it not be consummated until the transferee has surrendered its construction permit for WNAM-TV, Neenah, Wisconsin. The transfer was consummated on February 26, 1955, and Neenah-Menasha's construction permit for Neenah, Wisconsin, Channel 42, was deleted by the Commission on March 10, 1955. Valley's construction permit was extended until August 23, 1955.

4. The protestant claims standing under sections 309 (c) and 405 of the Communications Act of 1934, as amended, as the permittee of television station WMBV-TV, Channel 11, Marinette, Wisconsin.[1] M&M alleges in support of its claim to standing that it provides a good signal to the Green Bay area and maintains studios and business offices there; that Green Bay is the largest market in its service area and "constitutes an important source of revenue"; that with the new owner, new capital and new management, Valley will be able to construct its station, thus bringing "serious and direct new competition" to M&M for local, regional and national business; that Valley has signed an ABC affiliation contract; that, hence, that affiliation (which M&M now has together with a basic NBC affiliation) and its revenues are lost to M&M; and that talent and audience will be lost to "this new competition."

5. The general tenor of the protestant's pleading in support of its protest and petition is to the effect that Valley has attempted to obstruct, impede, delay, harass, and hinder M&M to prevent it from securing an NBC affiliation, and that, therefore, a question is raised as to whether Valley possesses the requisite character qualifications to be a licensee; that the application for extension of construction permit was not timely filed under § 3.627 (b),[2] and that sufficient reason was not shown for late filing as required by that section; that Valley's grounds for extension of its construction permit did not satisfy the requirements of § 3.627 (b) under established Commission precedents; that the transfer of control constitutes "trafficking in permits" because until the merger agreement was signed, no affirmative steps were taken toward construction of the station and the subscribers to the capital stock had not paid their subscriptions in full; that the main studio proposed by Valley in its modification application will be inadequate, and the waiver of the main studio requirement was, therefore, unwarranted; and that a question is thus raised as to whether Green Bay will receive the service and facilities to which it is entitled.

6. In their opposition to the above protest and petition, Valley and Neenah-Menasha allege, in substance, that M&M is not a party in interest because M&M's "legal" injury, if any, arises from the grant of Valley's initial construction permit, and not from the authorizations herein protested; that Valley's application for extension of time was timely filed, and that, in any event, insofar as M&M's pleading is directed to the matter of timely filing, it must be denied as a matter of law; that the Commission properly granted Valley's application for extension of time on the basis of a substantial showing of diligence; that Valley made a showing adequate to justify waiver of the main studio rule in its application for modification of construction permit; that M&M has alleged no facts to support its claim that the studios designated will not in fact be the main studio; that the facts alleged by M&M do not support its claim of harassment or raise any question whatsoever as to the character qualifications of the assignors; and that M&M has alleged no facts which, if proved, would constitute trafficking in construction permits. Accordingly, Valley and Neenah-Menasha request that the protest and petition be denied or, if a hearing is ordered, such hearing be limited to oral argument.

7. The protestant is the permittee of a television broadcast station (WMBV-TV) in Marinette, and the licensee of radio station WMAM, Marinette, and claims standing under sections 309 (c) and 405 of the Communications Act on the basis of economic injury arising from operation of WFRV-TV by Valley as a result of the grants protested herein. To

[1] Section 1.402 (47 CFR 1.402) of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in an order to show cause, a licensee shall within thirty (30) days from the date of the receipt of a show cause order submit a written statement informing the Commission whether said licensee will appear at the designated hearing and present evidence upon the matters specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to a show cause order within the above-mentioned thirty (30) day period, or, having informed the Commission in writing within the above-mentioned thirty (30) day period that the licensee will appear at the hearing and present evidence upon the matter specified and then failing to appear at the hearing, will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

[1] Marinette is located approximately 45 miles northeast of Green Bay, and the WMBV-TV transmitter is located between Green Bay and Marinette, about 32 miles from Green Bay and 15 miles from Marinette. WMBV-TV is authorized to place a Grade A signal beyond Green Bay and to cover most of Green Bay with a principal city signal. Valley, under its modified construction permit, proposes to place a Grade B signal over Marinette. There is a substantial overlap of the areas served by the two stations.

[2] Section 3.627 (b) provides as follows: "An application (FCC Form No. 701) for extension of time within which to construct a station shall be filed at least 30 days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases, such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension."

the extent that M&M claims standing to protest or request reconsideration of the grants of the extension of time application or the application for modification of construction permit, we find that the protestant has failed to meet the test of direct and substantial injury from the grant of those two applications. Midwest Television, Inc., 9 Pike & Fischer, RR 611; Storer Broadcasting Company, 11 Pike & Fischer, RR 1091. Were we here concerned with the grant of an application for a new television broadcast station, the statement of injury might well have been sufficient to constitute the protestant a party in interest. Versluis Radio Television, Inc., 9 Pike & Fischer, RR 102; T. E. Allen & Sons, Inc., 9 Pike & Fischer, RR 197; Channel 16 of Rhode Island, Inc., 10 Pike & Fischer, RR 377; Ohio Valley Broadcasting Corporation, 10 Pike & Fischer, RR 452; Tri-State Television, Inc. (WINT), 10 Pike & Fischer, RR 1049. Since, however, the actions being protested are applications for extension of time in which to complete construction under the original construction permit and for modification of the original construction permit to move the proposed main studio to Green Bay and to reduce slightly the proposed coverage in the direction of Marinette, it is incumbent upon the protestant to show that economic injury has resulted or will result from the particular grants complained of as opposed to the grant of the original construction permit. This the protestant has failed to do, and it is, accordingly, without standing with respect to such grants.[3] We are aware of the recent decisions of the United States Court of Appeals for the District of Columbia Circuit in Greenville Television Co. v. Federal Communications Commission, No. 12284 (March 24, 1955) and Metropolitan Television Co. v. Federal Communications Commission, No. 12192 (April 14, 1955), involving reversals of Commission decisions holding that protestants to modifications were not parties in interest. But in the former case, the Court specifically left open the question of whether the injury alleged must flow from the protested grant, and in the latter case the allegations of injury, which the Court found to be sufficient, clearly did flow from the protested grant.

8. In the light of the fact that the protestant is the permittee of television broadcast station WMBV–TV in Marinette and is authorized to provide both Grade A and principal city service to the Green Bay area; that it has alleged that Green Bay constitutes an important source of revenue; and that it has alleged that under the new management, Valley will be able to compete directly with the protestant for local, regional and national advertising, and for talent and audience, the protestant is a party in interest to and a person aggrieved by the grant of the above-entitled application for transfer of control within the meaning of sections 309 (c) and 405 of the Communications Act. See Camden Radio Inc. v. Federal Communications Commission, -- U. S. App. D. C. --, -- F. 2d --, 10 Pike & Fischer, RR 2072.

9. With respect to the protest against the grant of Commission consent to transfer of control of Valley, we must next consider whether the subject petition complies with the requirements of section 309 (c) that the protest shall "specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally." We shall separately discuss, in the light of these requirements, each of the substantive matters raised concerning the grant of the application for the transfer of control.[4]

10. The protestant has requested the Commission to include the following issues in its order for designation of hearing:

I. To determine whether or not Valley and its owners have engaged improperly in a program to harass and delay Protestant's television service and, if so, to determine whether this adversely affects their character qualifications as television licensees or owners thereof.

II. To determine whether Valley's application for Extension of Time to Construct was timely filed within the meaning of § 3.627 (47 CFR 3.627) of the Commission's rules.

III. To determine whether Valley's application for Extension of Time to Construct set forth sufficient matters to justify an extension within the meaning of section 319 (b) of the Communications Act of 1934, as amended, and of § 3.627 (47 CFR 3.627) of the Commission's rules.

IV. To determine whether the instant Transfer of Control and related applications involve forbidden trafficking in permits within the meaning of various provisions of the Communications Act of 1934, as amended, including, but not limited to, sections 301 and 304.

V. To determine whether under the circumstances of this case "good cause" existed for the waiver of the main studio requirements of § 3.613 (47 CFR 3.613) of the Commission's rules and regulations.

VI. On the basis of the foregoing to determine whether the grant of the above-entitled applications would be in the public interest.

Issues II, III, and V quoted above refer solely to the grant of the application for extension of time or for modification of construction permit to change main studio location. As indicated above, we have found that M&M has no standing as a "party in interest" or a "person aggrieved" with respect to such grants.

11. Issue I as specified by the protestant requests a hearing by the Commission to determine whether Valley or its owners have engaged improperly in a program to harass and delay protestant's television service, and, if so, to determine whether this adversely affects their character qualifications as television broadcast station licensees or owners. In support of this issue, the protestant has listed letters, petitions and comments filed with the Commission by Valley (i. e., the assignors) against the protestant on several occasions. These letters and pleadings are a matter of public record and are as follows:

(a) A letter, dated April 7, 1954, advising M&M that Valley intended to file a protest against a Commission action granting a modification of M&M's construction permit to authorize a transmitter site closer to Green Bay. This grant was set aside by the Commission on M&M's motion and the application for modification was thereafter withdrawn by M&M.

(b) A letter to the Commission, dated April 15, 1954, objecting to the above grant being set aside and requesting that it be set for hearing.[5]

(c) A "Reply to Protest and Petition for Rehearing" filed by Valley on April 19, 1954, in response to a protest filed by M&M, which M&M subsequently withdrew, in which a hearing on the protest and on M&M's modification application was requested.[5]

(d) An "Opposition to Reinstatement of Construction Permit" filed on May 3, 1954, raising questions as to the good faith of M&M, and requesting a hearing.[6]

(e) Comments filed by Valley on May 3, 1954, in connection with proposed rule making dealing with contractual rights of television stations for territorial exclusivity with networks (Docket No. 10989.)

(f) An "Opposition to Extension of Completion Date" filed by Valley on June 21, 1954, against an application by M&M for extension of time.[6]

On the basis of these filings, M&M concludes that sufficient factual matters are raised to warrant a full hearing on issue I above. We have closely examined the pleadings referred to and believe that no support for any issue on harassment can be found in these papers. However, since we are affording M&M a hearing before us en banc on other matters, we shall add an issue on this question which M&M may also argue at the hearing.

12. Issue IV as specified by the protestant raises the question of whether the transfer application and the other applications involve "trafficking in permits". In support of this issue, the protestant claims that Valley's stockholders were unwilling to risk their capital and efforts to build their station until they found additional financial backing; that Valley's application for extension of time was filed in order to provide it with something to transfer to the assignees; and that Valley, therefore, engaged in "trafficking" in permits. We shall consider these allegations as if upon demurrer, and we shall include an issue for oral hearing before us en banc as to the legal and policy questions raised by the allegations of fact contained in the protest on this question. We reserve the question of whether the taking of evidence is warranted pending our determination of whether the facts alleged would warrant a denial, assuming them to be true.

13. Finally, we are including issue VI in the terms requested by protestant, except to the extent that it refers to the applications for extension of time and for modification of construction permit, inasmuch as we have found that the protestant has no standing with respect to those applications.

14. In view of the foregoing: *It is ordered*, That insofar as the "Protest and Petition for Rehearing" protests and requests reconsideration of the Commission's actions granting the above-entitled application for extension of time to complete construction (BMPCT–2601) and the above-entitled application for modification of construction permit (BMPCT–2712), it is denied.

It is further ordered, That insofar as the "Protest and Petition for Rehearing" requests reconsideration of the Commission's grant of the above-entitled application for transfer of control of Valley Telecasting Company from Clayton Ewing, et al., to Neenah-Menasha Broadcasting Co., it is denied, except to the extent that a hearing has been ordered.

It is further ordered, That pursuant to the provisions of section 309 (c) of the Communications Act of 1934, as amended, said transfer application (BTC–1873) is designated for hearing at the offices of the Commission in Washington, D. C. on the following issues:

(1) To determine whether or not Valley and its owners have engaged improperly in a program to harass and delay protestant's television service and, if so, to determine whether this adversely affects their character qualifications as television licensees or owners thereof.

(2) To determine whether the instant transfer of control and related applications involve forbidden trafficking in permits within the meaning of various provisions of the Communications Act of 1934, as amended, including, but not limited to, sections 301 and 304.

(3) On the basis of the foregoing, to determine whether a grant of the above-entitled transfer application would be in the public interest.

The burden as to the above issues shall be upon the protestant.

It is further ordered, That the protestant and the Chief of the Broadcast Bureau are hereby made parties to the proceedings herein and that:

(1) The hearing shall commence at 10:00 a. m., on April 29, 1955, and shall be held before the Commission en banc.

(2) The hearing shall consist solely of oral argument on the issues specified above.

(3) The parties to the proceeding shall have until May 4, 1955 to file briefs or memoranda of law and until May 6, 1955, to file reply briefs or memoranda of law. After the oral hearing, the Commission shall issue a decision in this proceeding, which decision shall constitute the final decision of the Commission: *Provided, however*, That in the event the Commission should find it necessary, after the hearing ordered herein, to institute fact finding proceedings in connection with the issues specified above, appropriate provision shall be made for such fact finding.

It is further ordered, That, effective immediately, the effective date of the grant to Valley Telecasting Company of its application to transfer control (BTC–1873) is postponed pending a final determination by the Commission with respect to the protest herein.

Adopted: April 19, 1955.

Released: April 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION[7]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55–3434; Filed, Apr. 26, 1955; 8:53 a. m.]

[3] M&M filed a protest against the original grant to Valley, but subsequently decided not to prosecute such protest and asked that it be withdrawn.

[4] See Hyman Rosenblum et al. and Lowell J. Thomas et al., 11 Pike & Fischer, RR 826 and Storer Broadcasting Company, 11 Pike & Fischer, RR 1091, in which we made a statement of general principles concerning specificity.

[5] These requests were denied by a Commission order, released June 24, 1954.

[6] Dismissed by the Commission by order of August 16, 1954.

[7] Commissioners Hennock and Bartley dissented in opinion.

[FCC 55–483]

RADIO-ASTRONOMY FREQUENCY REQUIREMENTS

APRIL 21, 1955.

From time to time the Commission has received information pertaining to the field of radio-astronomy. The science of radio-astronomy had its conception in the United States during the year 1932 when it was discovered that weak noise signals in a radio receiver were extra-terrestrial in origin and appeared to emanate from a point in outer space in the area of the Milky Way. Subsequent work in this as well as other countries has confirmed the original observations. It has now been determined that radio energy may be radiated by the sun, the moon and stars. In addition, such radiation has also been observed from interstellar gaseous areas. These radiations may occur over a very wide band of frequencies. It is pointed out that this phase of radio-astronomy involves only the reception of such energy and does not require the transmission of any signals by radio stations. In the relatively short time since its discovery, the science of radio-astronomy has contributed materially to our storehouse of knowledge pertaining to astronomy, stellar physics and radio propagation.

The matter of the protection of frequencies used for radio-astronomical measurements was one of the subjects studied by the International Radio Consultative Committee (CCIR) of the International Telecommunication Union (ITU) at their seventh plenary assembly meeting held at London in 1953. At this meeting, the Committee recommended that Administrations should afford all practicable protection from interference to radio-astronomical measurements, particularly on frequencies around 1420 Mc. In view of the widespread interest and work being done in this field both in this country and many others, the Commission considers it expedient to develop at this time additional information concerning these matters. Specifically, comments are solicited from interested parties as follows:

1. Name and address of the organization and title of the individual to be contacted in connection with radio-astronomy and related work.

2. The location or locations of radio-astronomical observatories and laboratories, both existing and planned.

3. A list of the frequencies or bands of frequencies presently under observation or proposed for observation.

4. A statement outlining the significance of radio-astronomy, particularly as it relates to the national interest.

5. With regard to observations on specific frequencies or in specific bands of frequencies:

(a) A list of those on which it is considered essential to make observations, such as the hydrogen line at 1420 Mc, giving bandwidth.

(b) A list of those on which it is considered desirable but not essential to make observations, giving bandwidth and reasons for choice.

(c) The schedule of observations on the above frequencies e. g. 24 hours per day throughout the year, summer daytime, winter nighttime, etc.

(d) A statement of the extent to which radio interference can be tolerated. This information should be stated, preferably, in terms of the maximum electromagnetic field intensity of the interference that could be tolerated at each radio-astronomy site.

(e) A statement as to the feasibility of a schedule of part time daily observations.

6. Regarding locations of observatories and laboratories:

(a) Are there preferred locations such as the southwestern United States?

(b) Are there practical considerations which might prevent the location of observatories and laboratories in regions remote from radio stations?

(c) Can the number of locations be limited so that if protection from harmful interference is required, a minimum number of radio communication systems would be affected. If so, what are these locations?

It has already been announced that equipment has been developed for radio-navigational use which depends for its functioning upon the reception of radio energy emitted by the sun. In view of the development of such equipment and the possible development of other similar equipment making use of electro-magnetic radiation from the sun as well as other extra-terrestrial bodies, the Commission is soliciting the comments of interested parties in regard to the aforementioned questions. It is requested that such comments be filed with the Commission on or before July 1, 1955.

It is desired to emphasize that until and unless rule-making is undertaken and completed in this matter, there is no protection which can or will be given to radio-astronomy by the Commission. It is the purpose of this public notice to solicit information which can serve as the basis for determining whether a

rule-making procedure should be instituted.

Adopted: April 19, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-6620]

CALIFORNIA ELECTRIC POWER CO.

NOTICE OF APPLICATION

APRIL 21, 1955.

Take notice that on April 18, 1955, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by California Electric Power Company, a corporation organized under the laws of the State of Delaware and doing business in the States of California and Nevada, with its principal business office at Riverside, California, seeking an order authorizing the issuance of $10,000,000 principal amount of promissory notes bearing interest at not less than 3¼ percent and not more than 3¾ percent per annum to be due within twelve months from date of issue, but not later than April 30, 1956. Applicant proposes to issue said notes to the Bank of America National Trust and Savings Association, each note maturing by its terms prior to twelve months from date of issue. The proceeds from said notes will be applied as interim financing to the payment of the cost of additions, betterments and improvements of Applicant's property; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 9th day of May 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. G-8477]

FAIRMAN DRILLING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 21, 1955.

Take notice that Fairman Drilling Company (Applicant), with a principal office in Hammersly Fork, Pennsylvania, filed on February 14, 1955, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Benezette Field, Elk County, Pennsylvania, which will be sold in interstate commerce to New York State Natural Gas Corporation for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 12, 1955, at 9:50 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 2, 1955.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-3417; Filed, Apr. 26, 1955; 8:50 a. m.]

[Docket Nos. G-8513, G-8661]

ALGONQUIN GAS TRANSMISSION CO. AND TENNESSEE GAS TRANSMISSION CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

APRIL 22, 1955.

In the matters of Algonquin Gas Transmission Company, Docket No. G-8513; and Tennessee Gas Transmission Company, Docket No. G-8661.

Take notice that Algonquin Gas Transmission Company (Algonquin), Applicant in Docket No. G-8513, a Delaware corporation whose address is 25 Faneuil Hall Square, Boston, Massachusetts, filed an application on February 24, 1955, as supplemented on March 22, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Algonquin to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Algonquin proposes to transport natural gas for the account of Public Service Electric & Gas Company (Public Service) from the point of interconnection of its pipeline system with that of Texas Eastern Transmission Corporation (Texas Eastern) at Lambertville, New Jersey, to two delivery taps on its 26-inch main line near Morristown, New Jersey, and one delivery tap at Pompton Lakes, New Jersey. Algonquin proposes to deliver additional volumes of natural gas to Public Service through these taps by means of displacement of equivalent volumes delivered to it by Tennessee Gas Transmission Company (Tennessee) near Ramsey, New Jersey. Texas Eastern and Tennessee have been previously authorized to deliver the volumes of gas to Public Service which Algonquin seeks authority to transport for Public Service.

Algonquin will construct the three taps on its transmission pipeline at the points of delivery of the gas to Public Service. Metering and regulating stations with appurtenant facilities will be constructed by Public Service and leased to Algonquin.

Take notice further that Tennessee Gas Transmission Company (Tennessee), Applicant in Docket No. G-8661, a Delaware corporation whose address is the Commerce Building, Houston, Texas, filed an application on March 24, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Tennessee to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Tennessee proposes to construct and operate facilities to provide an additional delivery point on its transmission facilities which were heretofore authorized by the Commission in its Opinion No. 279 and accompanying order, issued December 28, 1954, in Docket Nos. G-2331, et al. The proposed delivery point would be at the point of interconnection of the transmission facilities of Tennessee and Algonquin near Ramsey, New Jersey, and would enable the delivery to Algonquin for the account of Public Service of a portion of the volumes of natural gas for which the Commission authorized delivery in Docket No. G-2331.

Total maximum daily volumes of natural gas to be delivered to Public Service by Algonquin would be 73,440 Mcf (at 14.73 psia)—47,940 Mcf from Texas Eastern and 25,500 Mcf from Tennessee.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 17, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 10, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-3425; Filed, Apr. 26, 1955; 8:51 a. m.]

GENERAL SERVICES ADMINISTRATION

SECRETARY OF THE INTERIOR

DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACTS FOR PURCHASE OF CERTAIN EQUIPMENT

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, authority is hereby delegated to the Secretary of the Interior to negotiate, without advertising, under section 302 (c) (12) of the act, contracts for the purchase of outboard motors for use in Alaska.

2. This authority shall be exercised in accordance with applicable limitations and requirements in the act, particularly sections 304 and 307, and in accordance with the policies, procedures and controls prescribed by the General Services Administration.

3. The authority to make determinations under section 302 (c) (12) of the act may not be redelegated but may be exercised in accordance with section 309 (a) of the act.

4. This delegation shall be effective as of the date hereof.

Dated: April 21, 1955.

EDMUND F. MANSURE,
Administrator.

[F. R. Doc. 55-3474; Filed, Apr. 25, 1955; 1:23 p. m.]

SECRETARY OF LABOR

DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACTS FOR SERVICES RELATING TO AUTHORIZED ADVERTISING CAMPAIGNS

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, authority is hereby delegated to the Secretary of Labor to negotiate, without advertising, under section 302 (c) (4) and (9) of the act, contracts for services in connection with authorized advertising campaigns concerning the work of the President's Committee on Government Contracts.

2. This authority shall be exercised in accordance with applicable limitations and requirements of the act, particularly sections 304 and 307, and in accordance with the policies, procedures, and controls prescribed by the General Services Administration.

3. The authority herein delegated may be redelegated to any official or employee of the Department of Labor.

4. This delegation shall be effective as of the date hereof.

Dated: April 21, 1955.

EDMUND F. MANSURE,
Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 57]

MOTOR CARRIER APPLICATIONS

APRIL 22, 1955.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (a) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 1124 Sub 124, Filed April 6, 1955, HERRIN TRANSPORTATION COMPANY, a corporation, 2301 McKinney Ave., Houston, Tex. Applicant's attorney: Leroy Hallman, First National Bank Building, Dallas 2, Tex. For authority to operate as a *common carrier*, over regular and irregular routes, transporting: *Government owned compressed gas trailers*, loaded or empty, and *compressed gas* moving in government owned compressed gas trailers, from, to, and between all points authorized to be served in the performance of (1) regular and alternate route operations in and through Arkansas, Louisiana, Mississippi, Tennessee, and Texas, and (2) irregular route operations in and through Arkansas, Louisiana, Oklahoma, and Texas. The applicant is authorized to operate over the above-referred to regular, alternate, and irregular routes in the transportation of Class A and B explosives,

general commodities with certain exceptions, and certain other specifically named commodities, but is not presently specifically authorized to transport the commodities named in this application.

No. MC 2229 Sub 66, filed March 25, 1955, Red Ball Motor Freight, Inc., 1210 South Lamar Street, P. O. Box 3148, Dallas, Tex. Applicant's attorney: Reagan Sayers, Century Life Building, Fort Worth, Tex. For authority to operate as a *common carrier*, transporting: *General commodities, including Class A and B explosives*, but excluding commodities of unusual value, household goods as defined by the Commission, and commodities in bulk, serving Owentown, Tex., as an intermediate point on carrier's regular route operations between Tyler and Gladewater, Tex., over U. S. Highway 271 (which is a portion of carrier's regular route operations between Jacksonville, and Gladewater, Tex.). Applicant is authorized to conduct operations in Louisiana and Texas.

NO. MC 15167 Sub 16, filed March 8, 1955, PAUL F. CULLUM, doing business as CULLUM TRUCKING COMPANY, 1281 West Side Ave., Jersey City 6, N. J. Applicant's attorney: August W. Heckman, 880 Bergen Avenue, Jersey City 6, N. J. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Inedible fish oils, vegetable oils, sea animal oils, paint oils, surface coating compound solutions*, including but not limited to *Alkyd resin solutions* and *ester gum solutions*, in bulk, in tank vehicles, from Newark, Elizabeth, and Edgewater, N. J., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, and the District of Columbia.

NOTE: Applicant states that upon grant of the requested authority, he is agreeable to revoking all duplication of his existing permanent authority. Applicant is authorized to conduct operations in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and the District of Columbia.

No. MC 17190 Sub 4, filed April 4, 1955, GROVER J. LEWIS, doing business as L. & L. TRUCKING SERVICE, 511 Ludington St., Escanaba, Mich. Applicant's attorney: Adolph J. Bieberstein, 121 West Doty St., Madison 3, Wis. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving the K. I. Sawyer Air Port, located approximately five (5) miles south of Sands, Mich.; and the U. S. Air Force Installation, adjacent to said air port; as intermediate or off-route points (whichever is applicable), in connection with regular route operations between Marquette, Mich., and junction Michigan Highways 553 and 35 near Forsyth, Mich., over Michigan Highway 553. Applicant is authorized to conduct operations in Michigan, and Wisconsin.

No. MC 18088 Sub 23, filed April 4, 1955 (Petition for declaratory order, interpretation, or modification of Certificates Nos. MC 18088 and MC 18088 Sub 14 to permit return of empty used containers for textile products to origin points), FLOYD & BEASLEY TRANSFER COMPANY, INC., Sycamore, Ala. Applicant's attorneys: D. H. Markstein, Jr., 818–821 Massey Bldg., Birmingham 3, Ala., *and* H. Charles Ephraim, Pennsylvania Bldg., Washington 4, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Empty used containers for textile products*, such as cores, tubes, cones, beams, springs, cake covers, socks, and other types of containers, from points in Tennessee, Georgia, Alabama, and South Carolina, to points in Alabama.

NOTE: Applicant has irregular route authority in Certificates Nos. MC 18088 and MC 18088 Sub 14 to transport *textile products* from points in Alabama to points in Tennessee, Georgia, Alabama, and South Carolina. The purpose of this application is to permit the return of empty used containers for textile products to origin points.

No. MC 18088 Sub 24, filed April 5, 1955, FLOYD & BEASLEY TRANSFER COMPANY, INC., Sycamore, Ala. Applicant's attorneys: D. H. Markstein, Jr., 818–821 Massey Bldg., Birmingham 3, Ala., *and* H. Charles Ephraim, Pennsylvania Bldg., Washington 4, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Articles and supplies* used in the maintenance and operation of a textile mill, and *materials* which are ingredients of, consumed in, and form a part of the finished product of textile mills, between points in Alabama, on the one hand, and, on the other, points in Tennessee, Georgia, South Carolina, and Alabama. Applicant is authorized to conduct operations in Alabama, Georgia, South Carolina, and Tennessee.

No. MC 26707 Sub 5, Filed March 30, 1955 (Amended), PHILIP J. GROETKEN, R. F. D. #6, Le Mars, Iowa. Applicant's attorney: Stephen Robinson, 1020 Savings & Loan Building, Des Moines 9, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Fly spray and mange oil* shipped in cans or drums, *empty bags* and *sacks, that is paper, cloth and burlap*, and *advertising material used solely in connection with the sale and distribution of animal and poultry feed and fly spray and mange oil*, from Burlington, Wis., to points in South Dakota, points in that portion of Nebraska north of the northern boundaries of Washington, Dodge, Colfax, Platte, Boone, Greeley, Valley, Custer, Logan, McPherson, Arthur, Garden, Morrill and Scotts Bluff Counties, and points in that portion of Iowa west of the eastern boundaries of Dickinson, Clay, Buena Vista, Sac and Carroll Counties and on and north of U. S. Highway 30 extending westerly from Ralston, Iowa to California Junction, Iowa, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return movement.

No. MC 29079 Sub 4, filed March 23, 1955, amended April 15, 1955, BRADA CARTAGE COMPANY, a corporation, 4001 Central Avenue, Detroit 10, Mich. Applicant's attorney: Wm. R. Heffernan, 1419–25 Majestic Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Iron articles and steel articles* as defined by the Commission in Ex Parte No. MC–45, from Gibraltar, Mich., to Rockford, Ill., points in Ohio, Indiana, and those in Illinois in the Chicago, Ill., Commercial Zone as defined by the Commission, and *damaged shipments* on return. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Michigan and Ohio.

No. MC 29886 Sub 80, filed April 7, 1955, DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. Applicant's attorney: Charles Pieroni, 523 Johnson Building, Muncie, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automobiles, trucks* and *buses*, in initial and secondary movements, in truckaway service, from Detroit, Mich. to points in Oregon and Washington. Applicant is authorized to conduct operations in all states in the United States except Florida.

No. MC 30887 Sub 61, filed March 28, 1955, CENTRAL FREIGHT LINES, INC., 303 South 12th Street, Waco, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *Compressed gases*, in bulk, when moving in Government-owned or shipper-owned trailers, for the United States Government or its cost-type contractor, the University of California, and *empty gas cylinders* and *empty trailers* (1) between Houston, Tex., and Dallas, Tex., over U. S. Highway 75, serving no intermediate points, (2) between Houston, Tex., and Sequin, Tex., over U. S. Highway 90, serving no intermediate points, (3) between Houston, Tex., and Port Arthur, Tex., from Houston over U. S. Highway 90 to Beaumont, Tex., thence over U. S. Highway 69 to junction Texas Highway 347 (formerly unnumbered highway), and thence over Texas Highway 347 (formerly unnumbered highway) to Port Arthur, and return over the same route, serving all intermediate points, and the off-route points of Sour Lake, Port Neches, Nederland, Atreco, Chaison, Groves, Portacres, Griffin, Smiths Bluff, and West Port Arthur, Tex., (4) between Beaumont, Tex., and Orange, Tex., from Beaumont over U. S. Highway 90 via Vidor, Tex., to Orange, and return over the same route, serving no intermediate points, (5) between Port Arthur, Tex., and Orange, Tex., from Port Arthur over Old and New Texas Highways 87 to Orange, and return over the same route, serving all intermediate points (6) between junction U. S. Highway 69 and Texas Highway 347 (formerly unnumbered highway) northwest of Port Arthur, Tex., and Galveston, Tex., from junction U. S. Highway 69 and Texas Highway 347 (formerly unnumbered highway) northwest of Port Arthur over U. S. Highway 69 to Port Arthur, thence over Texas Highway 87 via Sabine Pass, Tex., to Port Bolivar, Tex., and thence via ferry or bridge to Galveston, and return over the same route, serving all intermediate points, (7) between Houston, Tex., and Galveston, Tex., (a) from Houston over Texas Highway 225 to junction Texas Highway 146, thence over Texas Highway 146 via Texas City, Tex., to junction U. S. Highway 75, and thence over U. S. Highway 75 to Galveston, and return over the same route, serving all intermediate points, (b) from Houston over U. S. Highway 75 via La Marque, Tex., to Galveston, and return over the same route, serving all intermediate points, (8) between Dallas, Tex., and Beaumont, Tex., from Dallas over U. S. Highway 175 to junction U. S. Highway 69, thence over U. S. Highway 69 to Beaumont, and return over the same route, serving no intermediate points, (9) between San Antonio, Tex., and Seguin, Tex., over U. S. Highway 90, serving no intermediate points, (10) between Dallas, Tex., and Fort Worth, Tex., from Dallas over U. S. Highway 80 to Fort Worth, and return over the same route, serving all intermediate points, and (11) to and from off-route points within eight (8) miles of Houston, Tex., in connection with regular route operations to Houston, Tex. Applicant is presently authorized to conduct operations over all of the above-specified routes (some of which are portions of the authorized routes, and route 8 is authorized as an alternate route), in the transportation dangerous explosives and general commodities (with exceptions) in some instances, and general commodities (with exceptions) in others, but is not specifically authorized to transport the commodities named in this application. Applicant is authorized to conduct operations in Texas.

No. MC 31444 Sub 41, filed October 27, 1954 (amended) published page 9307, issue of December 29, 1954. SCHREIBER TRUCKING CO., INC., 1315–1399 Washington Blvd., Pittsburgh, Pa. Applicant's attorney: Louis E. Smith, 316–318 Chamber of Commerce Bldg., Indianapolis, Ind. For authority to operate as a *common carrier*, over regular routes, transporting; *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving Cumberland, Md., and the site of the new plant of Pittsburgh Plate Glass Company located approximately three miles from Cumberland, Md., as off-route points in connection with applicant's authorized operations between Pittsburgh, Pa., and Baltimore, Md., operating from Pittsburgh over U. S. Highway 30 to Breezewood, Pa., thence over Pennsylvania Highway 126 to Warfordsburg, Pa., thence over U. S. Highway 522 to Frederick, Md., thence over Maryland Highways 71 and 26 to Baltimore. Applicant proposes to operate over U. S. Highway 40 between Hancock, Md., and Cumberland, Md., serving no intermediate points, for operating convenience only, in connection with the above-described operations. Applicant is authorized to conduct operations in Maryland, Pennsylvania, New York, New Jersey, Illinois, Ohio, and Delaware.

NO. MC 31444 SUB 42, filed October 27, 1954, SCHREIBER TRUCKING CO., INC., 1315–1399 Washington Blvd., Pittsburgh, Pa. Applicant's attorney: Louis E. Smith, 316–318 Chamber of Commerce Bldg., Indianapolis, Ind. For authority to operate as a *common carrier*, over twenty alternate routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving no intermediate points, for operating convenience only, in connection with carrier's authorized routes as described in Certificate No. MC 31444 Sub 1, issued April 10, 1950. Route 1: From the junction of U. S. Highway 23 and U. S. Highway 6 via U. S. Highway 23 to Fostoria, Ohio, thence via Ohio State Road 18 to its junction with U. S. Highway 224 and return over the same route. The termini are sought to be served as points of joinder only. Appurtenant to portion of authorized route between Akron, Ohio and Van Wert, Ohio, as described in 4th paragraph on Sheet 4. Point of deviation is at the junction of Ohio State Road 18 and U. S. Highway 224 near (Tiffin, Ohio). The point of joinder is at the intersection of U. S. Highways 6 and 23 (at New Rochester, Ohio), joining authorized route between Pittsburgh, Pa., and Chicago, Illinois, as described in the last paragraph on Sheet 3. Route 2: From the junction of Pennsylvania State Road 102 and U. S. Highway 19, via Pennsylvania State Road 102 to its junction with Pennsylvania State Road 98, thence via Pennsylvania State Road 98 to its junction with Pennsylvania State Road 5, and thence via Pennsylvania State Road 5 and New York State Road 5 to Silver Creek, New York, and return over the same route. The terminus of the junction of Pennsylvania State Road 102 and U. S. Highway 19 is sought to be served as a point of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at junction of U. S. Highway 19 and Pennsylvania State Road 102 (near Meadville, Pa.). The point of joinder is at the intersection of New York State Road 5 and U. S. Highway 20 (at Silver Creek, N. Y.). Route 3: From Cambridge Springs, Pennsylvania, via Pennsylvania State Road 99 to its junction with U. S. Highway 19 and return over the same route. The termini are sought to be served at points of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at the junction of Pennsylvania State Road 99 and U. S. Highway 19 (at Cambridge Springs, Pa.); point of joinder is also at junction of Pennsylvania State Road 99 and U. S. Highway 99 (at Kearsarge, Pa.). Route 4: From the junction of U. S. Highway 19 and Pennsylvania State Road 97 via Pennsylvania State Road 97 to Erie, Pennsylvania, and return over the same route. The termini are sought to be served as points of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at junction of Pennsylvania State Road 97 and U. S. Highway 19 (at Cambridge Springs, Pa.). Point of joinder is at the junction of Pennsylvania State Road 97 and U. S. Highway 20 (at Erie, Pa.). Route 5: From Pittsburgh, Pa., via Pennsylvania State Road 8 to Wattsburg, Pa., thence via Pennsylvania State Road 89 to North East, Pa., and return over the same route. The terminus of North East, Pa., is sought to be served as a point of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at the junction of U. S. Highway 19 and Pennsylvania State Road 8 (at Pittsburgh, Pa.): Point of joinder is at the intersection of Pennsylvania State Road 89 and U. S. Highway 20 (at North East, Pa.). Route 6: From Pittsburgh, Pa., via Pennsylvania State Road 8 to its junction with Pennsylvania State Road 28, thence via Pennsylvania State Road 28 to New Bethlehem, Pa., thence via Pennsylvania State Road 66 to Clarion, Pa., thence via Pennsylvania State Road 68 to Kane, Pa., thence from Kane, Pa., over U. S. Highway 6 to its junction with U. S. Highway 219, and return over the same route, serving termini as points of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at junction of U. S. Highway 19 and Pennsylvania State Road 8 (at Pittsburgh, Pa.); point of joinder is at the intersection of U. S. Highways 6 and 219 (at Lantz Corners, Pa.). Route 7: From Pittsburgh, Pa., via U. S. Highway 22 to its junction with U. S. Highway 119, thence via U. S. Highway 119 to Dubois, Pa., thence via U. S. Highway 219 to its junction with U. S. Highway 20, and return over the same route. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at junction of U. S. Highway 19 and Pennsylvania State Road 8 (at Pittsburgh, Pa.); point of joinder is at the intersection of U. S. Highways 20 and 219 (near Big Tree, N. Y.). Route 8: From the junction of U. S. Highways 119 and 322 via U. S. Highway 322 to Port Matilda, and return over the same route, serving Port Matilda as a point of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at junction of U. S. Highways 220 and 322 (at Port Matilda, Pa.); point of joinder is at the junction of U. S. Highway 322 and U. S. Highway 119 (near Rathmel, Pa.). Route 9: From the junction of U. S. Highways 220 and 6 via U. S. Highway 6 to Mansfield, Pa., thence via U. S. Highway 15 to Erwins, Pa., and return over the same route, serving the junction of U. S. Highway 220 and 6 as a point of joinder only. Appurtenant to authorized regular route between Hollidaysburg, Pa.,

and Waverly, N. Y., as described in the 3rd paragraph on Sheet 5, and authorized regular route between Westfield, N. Y., and Troy, N. Y., as described in paragraph 5 on Sheet 3. Point of deviation is at the junction of U. S. Highways 220 and 6 (at Towanda, N. Y.); point of joinder at New York State Road 19 and U. S. Highway 15 (near Erwins, N. Y.). Route 10: From the junction of New York State Roads 31 and 38 via New York State Road 33 to Auburn, New York, and return over the same route. Appurtenant to authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2 and authorized regular route between Silver Creek, N. Y., and Albany, N. Y., as described in the 1st paragraph on Sheet 3. Point of deviation is at the intersection of New York State Roads 31 and 38 (near Port Byron, N. Y.); point of joinder is at the intersection of New York State Road 38 and U. S. Highway 20 (at Auburn, N. Y.). Route 11: Between Homer, New York, and Skaneateles, New York, via New York State Road 41. Appurtenant to portion of authorized regular route between Silver Creek, N. Y., and Albany, N. Y., as described in the first paragraph on Sheet 3, and portion of authorized regular route between Lewistown, Pa., and Syracuse, N. Y., as described in the first paragraph on Sheet 5. Point of deviation is at the junction of New York State Road 41 and U. S. Highway 20 (near Skaneateles, N. Y.); point of joinder is at the junction of New York State Road 41 and U. S. Highway 11 (at Homer, N. Y.). Route 12: Between Waverly, New York and Ithaca, New York, via New York State Road 34. Appurtenant to portion of authorized regular route between Westfield, N. Y., and Troy, N. Y., as described in the 5th paragraph on Sheet 3, and portion of authorized regular route between Horseheads, N. Y., and Cortland, N. Y., as described in the 4th paragraph on Sheet 5. Point of deviation is at the junction of New York State Roads 34 and 17 (at Waverly, N. Y.); point of joinder is at the intersection of New York State Roads 13 and 34 (at Ithaca, N. Y.). Route 13: From Corning, New York, via U. S. Highway 15 to Wayland, New York, thence via New York State Road 63 to Batavia, New York, and return over the same route. Appurtenant to portion of authorized regular route between Westfield, N. Y., and Troy, N. Y., as described in paragraph 5 on Sheet 3, and a portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at the intersection of New York State Road 17 and U. S. Highway 15 (near Corning, N. Y.); point of joinder is at intersection of New York State Roads 63 and 33 (at Batavia, N. Y.). Route 14: Between Hollidaysburg, Pa., and Bedford, Pa., via U. S. Highway 220. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Baltimore, Md., as described in paragraph one on Sheet one, and portion of authorized regular route between Pittsburgh, Pa., and New York, N. Y., as described in the last paragraph on Sheet one. Point of deviation is at the intersection of U. S. Highways 30 and 220 (at Bedford, Pa.); point of joinder is at the intersection of U. S. Highways 22 and 220 (at Hollidaysburg, Pa.). Route 15: From the junction of New York State Road 39 and U. S. Highway 20 via New York State Road 39 to its junction with New York State Road 19A, thence via New York State Road 19A to Warsaw, New York, thence via New York State Road 19 to Pavilion, New York, thence via New York State Road 63 to Batavia, New York, and return over the same route, serving the junction point of New York State Road 39, and U. S. Highway 20 as a point of joinder only. Appurtenant to portion of authorized regular route between Pittsburgh, Pa., and Albany, N. Y., as described in the last paragraph on Sheet 2. Point of deviation is at the junction of New York State Road 39 and U. S. Highway 20 (at Sheridan, N. Y.); point of joinder is at the intersection of New York State Roads 63 and 33 (at Batavia, N. Y.). Route 16: From Wilkes-Barre, Pa., via U. S. Highway 309 to Tunkhannock, Pa., thence via Pennsylvania State Road 92 to Nicholson, Pa., and return over the same route. The termini are sought to be served as points of joinder only. Appurtenant to portion of authorized regular route between Lewistown, Pa., and Syracuse, N. Y., as described in the first paragraph on Sheet 5. Point of deviation is at the intersection of U. S. Highways 11 and 309 (near Wilkes-Barre, Pa.); point of joinder is at the intersection of Pennsylvania State Road 92 and U. S. Highway 11 (at Nicholson, Pa.). Route 17: From Tyrone, Pa., via Pennsylvania State Road 350 to Water Street, Pa., thence via Pennsylvania State Road 64 to Lockhaven, Pennsylvania, and return over the same route. The termini are sought to be served as points of joinder only. Appurtenant to portion of authorized regular route between Hollidaysburg, Pa., and Waverly, N. Y., as described in the 3rd paragraph on Sheet 5. Point of deviation is at the intersection of Pennsylvania State Road 350 and U. S. Highway 220 (at Tyrone, Pa.); point of joinder is at the junction of Pennsylvania State Road 64 and U. S. Highway 220 (near Lockhaven, Pa.). Route 18: From Baltimore, Maryland, via U. S. Highway 40 to its junction with U. S. Highway 13, thence via U. S. Highway 13 to Philadelphia, Pennsylvania, and return over the same route. Appurtenant to a portion of authorized regular route between Pittsburgh, Pa., and Baltimore, Md., as described in Paragraph one on Sheet one and a portion of authorized regular route between Chambersburg, Pa., and Elizabeth, N. J., as described in the 3rd paragraph on Sheet 2, and/or the Pennsylvania Turnpike, which applicant is presently authorized to use. Point of deviation is at the intersection of U. S. Highways 111 and 40 (in Baltimore, Md.); point of joinder at the intersection of U. S. Highways 12 and 30. Route 19: From Harrisburg, Pa., via U. S. Highway 11 to Carlisle, Pa., thence via Pennsylvania State Road 34 to Gettysburg, Pa., thence via U. S. Highway 140 to Baltimore, Maryland, and return over the same route, serving Harrisburg as a point of joinder only. Appurtenant to a portion of authorized regular alternate route between Harrisburg, Pa., and Baltimore, Md., as described in the 4th paragraph on Sheet 3. Point of deviation is at the intersection of U. S. Highways 11 and 111 (near Harrisburg, Pa.); point of joinder is at the junction of U. S. Highways 111 and 140 (at Baltimore, Md.). Route 20: From Harrisburg, Pa., via U. S. Highway 11 to Carlisle, Pa., thence via Pennsylvania State Road 34 to Mt. Holly Springs, Pa., thence via Pennsylvania State Road 94 and Maryland State Road 30 to Reisterstown, Maryland, and return over the same route, serving Harrisburg as a point of joinder only. Appurtenant to a portion of authorized regular route between Harrisburg, Pa., and Baltimore, Md., as described in paragraph 4 on Sheet 3. Point of deviation is at the intersection of U. S. Highways 11 and 111 (near Harrisburg, Pa.); point of joinder is at junction of U. S. Highway 140 and Maryland State Road 30 (at Reisterstown, Md.).

No. MC 31466 Sub 19, filed March 7, 1955, amended March 10 and March 25, 1955, JOSEPH POMPROWITZ, doing business as L. C. L. TRANSIT COMPANY, 520 North Roosevelt Street, Box 667, Green Bay, Wis. Y. and points in the New York, N. Y. Commercial Zone as defined by the Commission.

No. MC 113861 Sub 4, filed April 13, 1955, W. H. WOOTEN AND J. H. PARKER, doing business as W. H. WOOTEN TRANSPORTS, 153 Gaston Avenue, Memphis, Tenn. Applicant's attorney: Louis I. Dailey, 2111 Sterick Bldg., Memphis 3, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Anhydrous ammonia* and *caustic soda* (sodium hydroxide), in bulk, in tank vehicles, from Woodstock, Tenn., to Florence, Mineral Springs, and McAdory, Ala.

NOTE: Applicants seek authority which will permit them to originate shipments of the specified commodities at the plants of Grace Chemical Co., Cardox Corporation, and E. I. DuPont De Nemours & Co., Inc., all located in the vicinity of Woodstock, Tenn., and outside the Memphis, Tenn., Commercial Zone as defined by the Commission. Applicants do not intend to originate any shipments within the Memphis, Tenn., Commercial Zone.

No. MC 113862 Sub 1, Filed April 7, 1955, I. B. NIELSEN, 2535 Eddy Street, Seattle 8, Wash. For authority to operate as a *common carrier*, over irregular routes, transporting: *Peat moss*, (1) from the International Boundary line between the United States and Canada at or near Blaine, Wash. to points in Washington; (2) from the International Boundary line between the United States and Canada at or near Blaine, Wash. to Lewiston, Idaho.

NO. MC 114179 SUB 1, filed March 31, 1955, KENNETH HUMMER, doing business as TOBE HUMMER, Oxford, Iowa. Applicant's attorney: Kenneth M. Dunlop, 602–3–4 Iowa State Bank & Trust Bldg., Iowa City, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *All malt beverages*, alcoholic and non-alcoholic, carbonated and plain, from Milwaukee, and LaCrosse, Wis., Peoria, Warsaw, and Chicago, Ill., St. Louis, and St. Joseph, Mo., St. Paul, Minn., and Omaha, Nebr., to points in Johnson, Iowa, and Linn Counties, Iowa, (2) *empty cartons*, and *empty containers or other such incidental facilities* (not specified) used in transporting the above-named commodities, from points in Johnson, Iowa, and Linn Counties, Iowa, to the above-specified origin points, and (3) *feeds* and *fertilizers*, from Cudahy, Wis., to points in Iowa. The applicant does not presently hold any authority to transport the above-named commodities.

No. MC 114772 Sub 2, DUNBAR ARMORED SERVICE, INC., 56 Hopkins Street, Hartford, Conn. Applicant's attorney: Reubin Kaminsky, 410 Asylum St., Hartford, Conn. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Bank bills, bonds, negotiable and non-negotiable securities, notes, drafts, and other valuable papers*, except cash letters, letters of transmittal, and checks in the process of being collected, between Philadelphia, Pa., on the one hand, and, on the other, points in Connecticut, Massachusetts, New York and Rhode Island.

NOTE: Applicant states, "Applicant does not seek any duplicating authorities but merely to add Philadelphia, Pa., to its present operating authorities."

No. MC 115217, filed February 28, 1955, ANTHONY DeGROSA, doing business as DeGROSA TRUCKING CO., 206 Park Street, Moonachie, N. J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Rubber articles* in coils, loose or in containers, from Unionville, N. Y. to Trenton, Flemington and points in Hudson, Bergen, Passaic, Essex and Union Counties, N. J., Bristol, Philadelphia and Allentown, Pa. and New York, N. Y., and *materials and supplies used in the manufacture and shipping of rubber articles* on return.

No. MC 115269, filed March 24, 1955, and amended April 20, 1955, published in the April 20, 1955, issue of the FEDERAL REGISTER on page 2641. CHARLES BURTON PERKINS, doing business as PERKINS MOBILE HOMES HAULING, Fruitland Park, Fla. For authority to operate as a *contract carrier*, over irregular routes, transporting: *New* or *used mobile homes*, in initial or secondary movements, by truckaway or driveaway methods, between points in the United States.

No. MC 115279, filed March 30, 1955, MORRIS SHAPIRO, 349 18th Avenue, Paterson, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, including *commercial papers, documents* and *instruments*, (except currency) (weighing not more than 100 pounds), which on occasion may be of unusual value, but excluding Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between points in Bergen, Passaic, Hudson, Essex and Morris Counties, N. J., on the one hand, and, on the other, points in New York, Pennsylvania, Rhode Island, Massachusetts, and Connecticut.

No. MC 115291, filed April 4, 1955, WALTHALL LITTLEPAGE, doing business as LITTLEPAGE TRUCKING COMPANY, 1710 Sweet Street, Tahoka, Tex. Applicant's attorney: John W. Carlisle, Burk Burnett Building, Fort Worth, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commercial fertilizer*, in sacks and paper bags, and *insecticides and fungicides*, powder, liquid and dust, in bags, barrels, boxes and drums, from Houston, Fort Worth, Dallas, Sulphur Springs, Lubbock, Corpus Christi, El Paso, San Antonio, and Harlingen, Tex., and Pryor, Okla., to points in that part of New Mexico bounded by a line beginning at the New Mexico-Texas State line, near Endee, N. Mex., thence south and southwest along the

New Mexico-Texas State line to U. S. Highway 54, thence north along U. S. Highway 54 to junction U. S. Highway 66, and thence east along U. S. Highway 66 to point of beginning, including points on the indicated portions of the highways specified; *alfalfa meal*, in sacks, *dehydrated alfalfa meal*, in sacks, *sun-cured alfalfa meal*, in sacks, and *dehydrated alfalfa pellets*, in sacks, from Roswell and Dexter, N. Mex., to points in Texas; and *black strap molasses*, in bulk, in tank vehicles, from Beaumont, Houston, Port Arthur, Sugarland, Corpus Christi, and El Paso, Tex., to Roswell, N. Mex.

No. MC 115298, filed April 7, 1955, NORMAND J. ASSELINE, doing business as N. J. ASSELIN TRUCKING, 131 Canal Street, Westerly, R. I. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sand, gravel, crushed stone* and *materials used for road building*, moving in dump trucks, between points in Kent and Washington Counties, R. I., on the one hand, and, on the other, points in that part of New London County, Conn., on and east of Connecticut Highway 12.

No. MC 115305, filed April 11, 1955, PAUL W. FERGUSON, Wykoff, Minn. Applicant's representative: A. R. Fowler, Associated Motor Carriers Tariff Bureau, 2288 University Avenue, St. Paul, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Animal feed* and *poultry feed*, from New Richmond, Wis., to points in Mower, Fillmore, and Houston Counties, Minn., those in Winona County, Minn., on and south of U. S. Highway 14, and Dover, Eyota and Stewartville, Olmstead County, Minn.

No. MC 115309, filed April 11, 1955. TRANSPORT SERVICE, a corporation, 6395 S. E. Alberta St., Portland, Oreg. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Volcanic ash, volcanic ore*, and *volcanic rock* (volcanic materials), between points in Deschutes County, Oreg., on the one hand, and, on the other, points in Washington.

No. MC 115312, filed April 14, 1955. R. C. Eckert, Nerstrand, Minn. Applicant's representative: A. R. Fowler, 2288 University Ave., St. Paul 14, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Animal feed* and *poultry feed*, from New Richmond, Wis., to points in Northfield and Wheeling Townships in Rice County, Minn., and points in Warsaw and Holden Townships in Goodhue County, Minn.

APPLICATIONS OF MOTOR CARRIERS OF PASSENGERS

No. MC 1501 Sub 99, filed March 29, 1955, THE GREYHOUND CORPORATION, a corporation, 2600 Board of Trade Building, Chicago 4, Ill. Applicant's attorney: L. C. Major, Jr., 2001 Massachusetts Ave., N. W., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, between Cleveland, Ohio, and junction U. S. Highway 21 (Willow Freeway) and Rockside Road, just north of Independence, Ohio, over city streets in Cleveland to junction U. S. Highway 21 (Willow Freeway), thence over U. S. Highway 21 to junction Rockside Road, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations throughout the United States.

No. MC 1501 Sub 101, filed April 6, 1955, THE GREYHOUND CORPORATION, a corporation, 2600 Board of Trade Building, Chicago 4, Ill. Applicant's attorney: Edmund M. Brady, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, between the junction of U. S. Highway 12 and an unnumbered county highway approximately one and one-half miles east of Galesburg, Mich., and Kalamazoo, Mich., over new U. S. Highway 12, serving no intermediate points. Applicants proposes to continue operations over old U. S. Highway 12, which has now been renumbered Michigan Highway 96, between the above-named points, and requests that present outstanding authority be modified so as to reflect said change in highway number with respect to the referred to portion of old U. S. Highway 12 now renumbered Michigan Highway 96. Applicant is authorized to conduct operations throughout the United States.

No. MC 1501 Sub 102, filed April 6, 1955, THE GREYHOUND CORPORATION, a corporation, 2600 Board of Trade Building, Chicago 4, Ill. Applicant's attorney: L. C. Major, Jr., 2001 Massachusetts Ave., N. W., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route transporting: *passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle with passengers, between the north junction of new U. S. Highway 62 and old U. S. Highway 62 at Sharon, Pa., and the south junction of new U. S. Highway 62 and old U. S. Highway 62 at or near Hubbard, Ohio, over new U. S. Highway 62, serving all intermediate points. Applicant is authorized to conduct operations throughout the United States.

No. MC 2890 Sub 29, filed March 30, 1955, AMERICAN BUSLINES, INC., 1341 "P" St., Lincoln, Nebr. Applicant's attorney: Currey and Dolan, Southern Building, Washington 5, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers* in the same vehicle with passengers, (1) from junction U. S. Highway 30 and the Penn-Lincoln Parkway (near Wilkinsburg, Pa.) over the Penn-Lincoln Parkway to Pittsburgh, Pa., serving all intermediate points, and return over the same route, and (2) from Pittsburgh, Pa., to junction Penn-Lincoln Parkway and U. S. Highways 22 and 30 (west of Pittsburgh), over city streets and the Penn-Lincoln Parkway, and return over the same route, serving all intermediate points.

NOTE: If and when the authority applied for herein is granted applicant will abandon its present route between junction Penn-Lincoln Parkway and U. S. Highway 30, and Pittsburgh; over U. S. Highway 30; and between Pittsburgh, and junction U. S. Highways 22 and 30 and Penn-Lincoln Parkway, over U. S. Highways 22 and 30. Applicant is authorized to conduct operations in New York, California, Pennsylvania, Missouri, Texas, California, Iowa, Tennessee, Nebraska, Kansas, Illinois, Wyoming, Utah, Alabama, Colorado, Montana, South Dakota, North Dakota, Michigan, and District of Columbia.

SECURITIES AND EXCHANGE COMMISSION

[File No. 27–34]

NORTH COUNTRY URANIUM AND MINERALS LTD.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

APRIL 21, 1955.

I. North Country Uranium and Minerals Ltd. of 36 Gariepy Building, Edmonton, Alberta, Canada, having filed with the Commission on March 9, 1954, a Notification on Form 1–D and an amendment thereto on April 7, 1954, relating to a proposed offering of 1,500,000 shares of its common stock, 5¢ par value, at 20¢ per share for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation D promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That an exemption under Regulation D was not available to North Country Uranium and Minerals Ltd. in that the aggregate offering price of the securities offered exceeded the limitation of $300,000 prescribed by Rule 502 (a) for an issuer, its predecessors and affiliates under the following circumstances:

North Country Uranium and Minerals Ltd. and Hawker Uranium Mines Ltd. are affiliated in that said companies are under common control.

Hawker Uranium Mines Ltd., an Alberta corporation, filed a Notification on Form 1–D under Regulation D with the Commission on October 20, 1953, for a public offering of $300,000 of its stock, and thereafter on December 1, 1953, said offering was commenced and on March 16, 1954, was completed.

North Country Uranium and Minerals Ltd. commenced its offering under its said Notification on April 28, 1954, within one year of the commencement of said offering by Hawker Uranium Mines Ltd.

B. That the terms and conditions of Regulation D had not been complied with by North Country Uranium and Minerals Ltd. in respect of its said Notification, in that said Notification and the offering circular filed as a part thereof contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly, among others, with respect to:

1. The failure to disclose said affiliation between Hawker Uranium Mines Ltd. and North Country Uranium and Minerals Ltd. and pertinent information in connection therewith,

2. The statements identifying the persons who were in control of North Country Uranium and Minerals Ltd. and were its founders and the stakers and assignors of its properties when, in fact, they were not, and

3. The failure to identify the persons who were in fact in control of North

Country Uranium and Minerals Ltd. and were its founders and the stakers and assignors of its properties.

C. That the offering by North Country Uranium and Minerals Ltd. did operate as a fraud or deceit upon the purchasers.

III. *It is ordered,* Pursuant to Rule 509 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under section 3 (b) and Regulation D be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon North Country Uranium and Minerals Ltd., Degaetano Securities Corp., and Registrar and Transfer Company personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-3410; Filed, Apr. 26, 1955; 8:49 a. m.]

[File No. 27-82]

HAWKER URANIUM MINES LTD.

ORDER TEMPORARILY DENYING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

APRIL 21, 1955.

I. Hawker Uranium Mines Ltd. of 10004 Jasper Avenue, Edmonton, Alberta, Canada, having filed with the Commission on February 9, 1955, a Notification on Form 1-D relating to a proposed offering of 305,000 shares of its common stock, 5¢ par value, of which 150,000 shares are to be offered on behalf of Degaetano Securities Corp. (75,000 shares at 1 mil per share to its employees and 75,000 shares to the public at the market), 150,000 shares on behalf of S. Donald Moore at the market, and 5,000 shares on behalf of Robert S. Matheson at the market, not to exceed $205,000 in the aggregate, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation D promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That an exemption under Regulation D is not available to Hawker Uranium Mines Ltd. in that the aggregate offering price of the securities proposed to be offered would exceed the limitation of $300,000 prescribed by Rule 502 (a) for an issuer, its predecessors and affiliates under the following circumstances:

Hawker Uranium Mines Ltd. and North Country Uranium and Minerals Ltd. are affiliated in that said companies are under common control.

North Country Uranium and Minerals Ltd., an Alberta corporation, filed a Notification on Form 1-D under Regulation D with the Commission on March 9, 1954, for a public offering of $300,000 of its stock, and thereafter on April 28, 1954, said offering was commenced and on August 9, 1954, was completed.

The proposed offering by Hawker Uranium Mines Ltd. would be within one year of the commencement of said offering by North Country Uranium and Minerals Ltd.

B. That, apart from the foregoing, an exemption under Regulation D is not available to Hawker Uranium Mines Ltd., in that the aggregate offering price of said securities to be offered would exceed the limitation of $100,000 prescribed by Rule 502 (a) relating to offerings on behalf of persons other than the issuer.

C. That the terms and conditions of Regulation D have not been complied with by Hawker Uranium Mines, Ltd. in respect of its said Notification, in that said Notification and the offering circular filed as a part theerof failed to disclose, among others:

1. The affiliation between Hawker Uranium Mines Ltd. and North Country Uranium and Minerals Ltd. and pertinent information in connection therewith,

2. The offering by North Country Uranium and Minerals Ltd. and pertinent information in connection therewith, and

3. A previous offering by Hawker Uranium Mines Ltd. and pertinent information in connection therewith.

III. *It is ordered,* Pursuant to Rule 509 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under section 3 (b) and Regulation D be, and it hereby is, temporarily denied.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of denial should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Hawker Uranium Mines Ltd., S. Donald Moore, Robert S. Matheson, Degaetano Securities Corp., and Registrar and Transfer Company personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[File No. 54-219]

STANDARD POWER AND LIGHT CORP.

NOTICE OF FILING OF APPLICATION FOR MODIFICATION OF DISSOLUTION ORDER AND PLAN; NOTICE OF AND ORDER FOR HEARING; AND ORDER DEEMING APPLICANT INVESTMENT COMPANY FOR LIMITED PURPOSES

APRIL 20, 1955.

Notice is hereby given that Standard Power and Light Corporation ("Power"), a registered holding company, has filed an application with this Commission requesting (1) modification of the Commission's order dated June 19, 1942, entered pursuant to section 11 (b) of the Public Utility Holding Company Act of 1935 ("act"), requiring that Power terminate its status as a holding company through its liquidation and dissolution, and (2) approval of a plan dated March 7, 1955, filed pursuant to section 11 (e) of the act. The said application and plan set forth a proposed program for converting Power into an investment company and for effecting compliance with the provisions of section 11 of the act. Reference is made to said plan for a complete statement of the transactions proposed by Power which are summarized hereinafter.

Power's presently outstanding securities consist of 1,320,000 shares of common stock, par value $1 per share, and 110,000 shares of common stock, Series B, no par value. Under Power's Certificate of Incorporation and By-Laws, the common stock is entitled to elect a majority of the Board of Directors and the common stock, Series B, is entitled to elect a minority of the Board. In other respects the two classes of stock have equal rights. Power's assets consist of cash and cash items and common stock of of the companies indicated in the following table:

	Shares	Percent of shares outstanding	Market value at Apr. 19, 1955
Standard Gas & Electric Co.	986,000	45.59	$10,476,257
Duquesne Light Co.	348,600	5.28	12,418,890
Oklahoma Gas & Electric Co.	100,000	3.77	3,500,000
Wisconsin Public Service Corp.	20,000	.79	460,000
Louisville Gas & Electric Co.	2,066	.14	97,360
Southern Colorado Power Co.	6,519	.92	103,489
Pacific Power & Light Co.	3,421	.10	88,091
Total			27,144,087

Power's sole liabilities as of February 28, 1955, exclusive of miscellaneous current liabilities; consisted of bank loans

at 3¼ percent in the amounts of $1,500,000 and $200,000 maturing July 29, 1955, and October 26, 1955, respectively.

Power is a Delaware corporation and solely a public-utility holding company. It is the parent of Standard Gas and Electric Company ("Standard"), which is also a registered holding company and is now in process of liquidation pursuant to orders of this Commission under section 11 of the act. Standard, through the ownership of all the outstanding common stock, is the parent of Philadelphia Company ("Philadelphia"), which is also a registered holding company in process of liquidation pursuant to an order of the Commission. The only remaining public-utility subsidiary in Power's system is Duquesne Light Company ("Duquesne").

At the time of the aforesaid order of the Commission, dated June 19, 1942, the Commission found that, under section 11 of the act, Power must terminate its status as a holding company as soon as practicable. Power asserts that compliance with section 11 of the act and the Commission's order of June 19, 1942, could not, as a practical matter, be effected until resolution of the integration and simplification problems involving Standard and its subsidiaries, including the disposition of inter-company claims affecting Power. These problems were substantially resolved by early 1953 through numerous divestments and other transactions and many plans filed pursuant to section 11 (e) of the act. Power states that in consequence of the resolution of these problems, all former parent-subsidiary relationships with public-utility companies in the Power system have been terminated except in the case of Duquesne, in which company approximately 15 percent of the voting stock is still held among Power, Standard, and Philadelphia; all claims among Power and its subsidiaries have been settled and disposed of; all senior securities of Standard and Philadelphia (other than a $1,000,000 bank loan by Philadelphia) have been retired; and the remaining assets of Standard and Philadelphia have been reduced to the following securities, in addition to cash and miscellaneous assets:

Common stock	Shares	Percent of shares outstanding	Market value at Apr. 19, 1955
Duquesne Light Co.	620,620.3	9.4	$22,109,598
Oklahoma Gas & Electric Co.	3,178	0.12	111,230
Wisconsin Public Service Corp.	53,525	2.10	1,231,075
Pittsburgh Railways Co.	547,678	50.9	3,970,666
4 percent preferred stock			
Duquesne Light Co., $50 par value	24,264	4.0	1,261,728
Total			28,684,297

Total liquidation of Standard and Philadelphia has not been completed by reason of undetermined liabilities of those companies for Federal taxes on income for the period 1942-1950 and for certain attorney fees in connection with proceedings under section 11 of the act, which are of sufficient potential magnitude to require retention of substantial assets until such liabilities are disposed of or otherwise provided for.

Power further asserts that the aforementioned divestments, other transactions and plans have substantially simplified the corporate structures of Standard and Philadelphia and have materially altered Power's relationship to them. In addition, Power's own financial condition has changed radically since the Commission's order to liquidate and dissolve was entered in 1942. At that time, Power's assets were grossly inadequate to satisfy the claims of its formerly outstanding preferred stock and Power's common stocks had no asset value. In the intervening years the claim of the preferred stock, including accrued dividends, aggregating $7,292,000 was paid in full and the claim of Power's former parent, H. M. Byllesby and Company, to 18.75 percent of the assets available to Power's common stock equity was settled and paid. At current market prices, the asset value applicable to Power's common stocks now exceeds $25,000,000. Power further states that the combined effect on Power's stockholders of the earning capacity of its assets and the tax advantages of the continued existence of Power impels Power's management to request the Commission to modify its aforesaid 1942 order so as to permit Power to terminate its existence as a public-utility holding company by becoming an investment company under the Investment Company Act of 1940. As an investment company, Power asserts that it expects to be able to pay dividends which for many years will not be taxable as ordinary income under existing Federal tax laws. Power represents that its ability to pay such dividends is because Power's tax basis for a large part of its portfolio is substantially in excess of current market values and because Power has a deficit in earnings and profits. Power alleges that its tax position is a valuable asset to Power's stockholders, the loss of which would be detrimental to them.

The plan, generally, provides:

1. That, as a prerequisite to all other transactions proposed in the plan, the Commission modify its order requiring Power to liquidate and dissolve and that Power be permitted to continue in existence as a closed-end, non-diversified investment company registered under the Investment Company Act.

2. That without a vote of the stockholders and pursuant to Section 245 of the Delaware Corporation Law, Power's Certificate of Incorporation and By-Laws be amended so that

(a) Power's name shall not include the words "Power and Light" and shall conform to the requirements of the Investment Company Act.

(b) Power's authorized capital stock shall consist of one class of 3,000,000 shares of common stock with a par value of $1 per share, of which one share shall be issued in exchange for each share of common stock and common stock, Series B, presently outstanding, and which shall have one vote per share for all corporate purposes and for the election of directors (without cumulative voting), and shall have only limited preemptive rights.

(c) A quorum at stockholders' meetings shall be the holders or representatives of not less than 50 percent of the outstanding shares and all matters subject to vote at any meeting shall be decided by a majority vote of shareholders present and voting in person or by proxy.

(d) Changes in the foregoing provisions may be made only with the consent of holders of not less than 50 percent of the outstanding shares of new common stock entitled to vote, except that the provisions with respect to the preemptive rights of the holders of such stock may be changed only with the consent of the holders of not less than 66⅔ percent of such shares.

3. That upon the reclassification of Power's capital stock and subject to the approval of the Commission, Power shall restate the ledger value of its assets.

4. That Power will pay its outstanding bank loans at maturity or, subject to any necessary approval of the Commission, may extend or refund the same without any intention of limiting further borrowings as Power may hereafter deem appropriate, subject to the requirements of the act or the Investment Company Act, as the case may be.

5. That after an order of the United States District Court for the District of Delaware enforcing the plan becomes final and without further application to the Commission for approval thereof, Power will

(a) Acquire additional shares of common stock of Duquesne and miscellaneous assets as distributions on Power's holdings of common stock of Standard.

(b) Dispose of so much of its holdings of Duquesne common stock, now owned and expected to be received from Standard, as may be necessary to terminate Power's status as a holding company, such disposition to be made by public offering, or by private sale, or on open market transactions where practicable and permissible, as follows:

(i) Not later than one year after the aforesaid District Court order becomes final, Power shall reduce its present holdings of Duquesne common stock by not less than 100,000 shares.

(ii) Not later than January 31 of the second calendar year after the year in which Power receives from Standard the final distribution of Duquesne common stock, Power shall reduce its holdings of such stock to less than 5 percent of the number of shares of such stock then outstanding.

(c) Acquire, if Power so desires, additional shares of common stocks of any company whose stocks may be held by Power if such company shall offer to its stockholders the right to subscribe to additional shares.

6. That Power, upon completion of such of the foregoing steps of its plan as may then be deemed appropriate, will apply to the Commission for an order under section 5 (d) of the act declaring that it has ceased to be a holding company and, upon the taking effect of such order, Power shall register as a closed-

end, non-diversified investment company under the Investment Company Act.

7. That Power shall pay all fees and expenses in connection with the plan and any prior plan under section 11 of the act and all transactions related thereto as the Commission may award or allow.

8. That the plan shall be carried out, without a vote of stockholders, pursuant to an order of the Commission approving it and an order of the aforesaid District Court enforcing the Commission's order.

9. That after reclassification of its capital stock which shall be not more than 30 days after the aforesaid District Court order becomes final, Power shall mail to each of its stockholders a notice of the reclassification with instructions to mail in old stock certificates in exchange for certificates for reclassified shares.

As part of its plan, Power, without further application to the Commission for the approval thereof but subject to certain limitations indicated hereinafter, proposes to invest and reinvest in, and to dispose of, such securities and other assets as it deems advisable before and after it becomes an investment company.

In connection with the investment program of Power while it remains a registered holding company, the plan provides that Power will conform to certain specified requirements of the Investment Company Act, that Power will make certain notifications to the Commission and to its stockholders, and, among other limitations on its program, that until the Commission issues an order under section 5 (d) of the act declaring Power has ceased to be a holding company and except as previously noted with respect to acquisitions from Standard and purchases made by virtue of subscription rights, Power will not acquire more than 1 percent of the voting securities of any domestic public-utility company or domestic holding company and will not acquire any securities of any company which at any time was one of its subsidiary companies. The plan further provides that after the entry by the Commission of an order under section 5 (d) of the act, Power will make no investments in securities of any domestic public-utility company or domestic holding company which will make such company an affiliate of Power and will not acquire any securities of any public-utility company or of any holding company which at any time was one of its subsidiary companies.

Annexed to the plan is a statement with respect to the investment policies. Power will follow as an investment company. Under this statement Power will be a closed-end investment company operating as a non-diversified investment company but it reserves the right to change at any time to a diversified investment company; it has no present intention to issue senior securities but reserves the right to do so with the approval of the holders of record of a majority of its outstanding voting securities; it will borrow money from time to time as required but does not intend to do so if immediately thereafter the aggregate of all such borrowings will not have an asset coverage of at least 500 percent; it does not intend to engage in the regular business of underwriting but, where desirable, it does propose to act as an underwriter in certain transactions or in connection with acquisitions and dispositions of securities sold by others in which it has or may have a financial interest; it does not intend to concentrate its investments in any particular industry or group of industries, except the public-utility industry, but reserves the right to do so up to 30 percent of the value of its assets; it does not intend to invest in real estate but reserves the right to do so up to 20 percent of the value of its assets; it does not intend to buy or sell commodities or commodity contracts but with the approval of a majority of the holders of its outstanding voting securities may do so; and it does not intend to make loans to other persons but reserves the right to do so up to 10 percent of the value of its assets. As an investment company Power proposes to invest in any type of security it deems desirable and, except as above noted, to invest such percentages of its assets in the securities of any one issuer as it deems desirable but will not without the approval of a majority of its stockholders invest more than 50 percent of its total assets in any two companies other than Standard and Duquesne; and further proposes, except as above noted, to acquire such percentage of the voting securities of any one issuer including, where conditions warrant or are necessary to develop investment potential, acquisition of all the outstanding securities of any one issuer, or to invest for the purpose of acquiring the working control of companies and to change or turn over its portfolio, to the extent its officers and directors deem advisable. Power also reserves freedom of action to invest in securities of other investment companies to the extent permitted by applicable statutes and regulations.

The plan contains provisions for its modification, amendment, and withdrawal and for changes in the manner and method of carrying it out. In addition there are certain conditions and reservations to consummation of the plan, including the making by the Commission of appropriate recitals for tax purposes in the Commission's order approving the plan and the securing of a satisfactory tax ruling from the United States Treasury Department if Power so desires.

The Commission considering that Power's application and plan raise issues that should not be resolved prior to notice and opportunity for hearing with respect thereto:

It is hereby ordered, That a hearing in the above-entitled proceeding shall be held on May 9, 1955, at 10:00 a. m., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the Hearing Room clerk in Room 193 will advise as to the room in which such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission before the commencement of the hearing a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation of the Commission having advised the Commission that it has made a preliminary examination of the application and plan and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether it would be consistent with the standards of the act to modify the Commission's order dated June 19, 1942, requiring the liquidation and dissolution of Power so as to permit the continuance of Power in existence as an investment company; and in the event said order is so modified, what, if any, conditions the Commission should impose in connection with such modification;

2. Whether the plan, as submitted, or as it may be modified, is necessary to effectuate the provisions of section 11 (b) of the act, and whether any further action should be taken by the Commission in order that Power shall fully comply with the provisions of that section of the act;

3. Whether the plan, as submitted or as it may be modified, is fair and equitable to the persons affected thereby, and particularly, but not limited to, whether such plan should be modified to include provisions for according to Power's stockholders (a) cumulative voting with respect to the election of directors, (b) an opportunity to withdraw their pro rata share of the company's assets or its equivalent in the event they do not desire to continue as stockholders of Power as an investment company, or (c) an opportunity to vote on whether Power should continue in existence as an investment company; and what further action, if any, is necessary by the Commission in order to make such plan fair and equitable to the persons affected by it;

4. Whether the dispositions of the common stock of Duquesne as proposed by Power are in accordance with the applicable standards of the act and the Commission's order thereunder;

5. Whether, in connection with the transactions proposed, there will remain any affiliated relationship as defined in the act between Power and any companies which are now or have been subsidiaries thereof;

6. Whether Power's proposed investment program prior to the issuance of an order under section 5 (d) of the act conforms to the standards of section 9 (c) (3) of the act;

7. Whether the plan provisions concerning investments by Power in certain holding company and utility situations are appropriate under the standards of the act and, if not, what terms and conditions should be imposed in connection therewith;

8. In the event the Commission shall approve the plan, what restrictions, if any, should be imposed in connection with the relationships between Power and any company which is or has been a subsidiary thereof.

9. Whether the Commission should adopt the plan, as submitted or as it may be modified, or whether another plan to achieve compliance by Power with the standards of section 11 (b) of the act should be proposed and/or approved by the Commission;

10. Whether the accounting entries to be made to record the proposed transactions on the books of Power are appropriate and in conformity with sound accounting principles;

11. Whether the fees and expenses and other remuneration which may be claimed or paid in connection with the plan and the transactions incident thereto are for necessary services and are reasonable in amount;

12. Generally, whether the transactions proposed in the plan are in all respects in the public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and the rules and regulations thereunder; and, if not, what modifications should be required to be made therein, and what terms and conditions, if any, should be imposed to satisfy the applicable statutory standards;

It is further ordered, That at the aforesaid hearing, attention be given to the foregoing matters and questions.

It is further ordered, That notice of this hearing be given by registered mail to Power, the United States Treasury Department and Alfred Berman, Esq.; that notice be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases under the act; and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

Power having advised the Commission that it intends to mail copies of its plan to all its stockholders:

It is further ordered, That Power shall give notice of this hearing to all its stockholders (insofar as the identity of such security holders is known or available to it) by mailing to each of said persons a copy of this notice and order to his last known address at least 15 days prior to the date set for said hearing.

It appearing to the Commission that it is in the public interest and the interest of investors and consumers so to do and that Power has consented to such action:

It is further ordered, With the consent of Power, that during the pendency of these proceedings or until further order of the Commission, Power shall be deemed to be an investment company as defined by the Investment Company Act of 1940, for the limited purpose of making applicable section 12 (d) of that act, and that the filing of the aforesaid plan is construed and accepted as a notice of registration by Power under section 8 of the Investment Company Act for such limited purpose and that Power's registration under the Public Utility Holding Company Act is deemed modified and limited solely for, and only to the extent of, making applicable the provisions of section 12 (d) of the Investment Company Act.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1954 CCC Cottonseed Bulletin 3, Amdt. 1]

PART 443—OILSEEDS

SUBPART—1954 COTTONSEED PRODUCTS PURCHASE PROGRAM

REDUCTION IN REPURCHASE PRICE OF CELLULOSE LINTERS

The regulations of Commodity Credit Corporation with respect to the purchase of cottonseed products as a means of supporting the price of 1954-crop cottonseed (1954 CCC Cottonseed Bulletin 3; (19 F. R. 4119)), are hereby amended, in order to reduce the repurchase price of linters sold on a cellulose basis, by changing paragraph (e) of § 443.1034 thereof to read as follows:

§ 443.1034 *Purchase of cottonseed products by CCC.* * * *

(e) *Conditional tenders.* (1) The crusher may condition any tender of cottonseed products under this section upon an immediate repurchase by the crusher from CCC of a specified quantity of cake or meal included in such tender at the higher of the market price of cake or meal at time of repurchase as determined by the CSS commodity office, less $1.00 per ton, or the applicable purchase price provided in § 443.1037. The crusher may also condition any tender upon an immediate repurchase by the crusher from CCC of a specified quantity and quality of linters included in the tender at the following prices:

(i) First cut and/or mill run linters to be delivered on a U. S. grade basis—the applicable purchase price provided in § 443.1035.

(ii) Second cut and/or mill run linters to be delivered on a cellulose basis—the applicable purchase price provided in § 443.1035, less ½ cent per pound.

CCC reserves the right to reject any such conditional tender and any acceptance by CCC shall be made within 24 hours after receipt of the tender in the CSS commodity office.

(2) Notwithstanding any other provisions of this subpart, with the approval of the crusher, the CSS commodity office shall have the authority to amend any tender previously made unconditionally and permit the crusher to repurchase any quantity of cake or meal and/or any quantity and quality of linters included in such tender for which delivery has not been effected at prices determined in accordance with the applicable conditional tender provisions of subparagraph (1) of this paragraph.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b)

This amendment shall be effective as to any tender of cottonseed products on and after the date hereof and shall also be effective as to any tender previously made unconditionally which is amended by the CSS commodity office pursuant to paragraph (e) (2) of § 443.1034 to permit the crusher to repurchase linters not yet delivered.

Issued this 22d day of April 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

Declaration is required, the designation or symbol of the general license authorizing the exportation. In the case of exportations by mail, except the exportation of publications made by a Federal Government agency under General License GTDP, the designation or symbol of the general license shall be entered on the address side of the wrapper of the parcel and shall be followed by the words "Export License Not Required." The use of such designation or symbol shall constitute a certification by the exporter that the terms, provisions, and conditions of the general license involved have been met.

Example. If medicinals are to be sent to a member of the American Embassy in a foreign country, they may be exported under general license GUS, and the exporter will note on the Declaration the symbol GUS to indicate that the exportation is licensed.

2. Section 379.1 *General export clearance requirements*, paragraph (b) *Exportations by mail* is amended in the following particulars:

a. Subdivision (i) *General requirements* of subparagraph (1) *Shipments requiring a validated license* is amended to read as follows:

(i) *General requirements.* No person shall export any commodity or any technical data by means of mail, including surface and air parcel post, until (*a*) a validated license therefor has been presented to the Postmaster at the place of mailing, together with a related duly executed Declaration covering the commodity [2] to be so mailed, whether or not required by the regulations of the Bureau of the Census, and until (*b*) the sender (exporter) has entered the complete validated license number on the address side of the wrapper on the package.

b. Subdivisions (i) *General requirements* and (ii) *Commercial mail shipments* of subparagraph (2) *Shipments under a general license* are amended to read respectively as follows:

(i) *General requirements.* Where no validated license is required, the sender (exporter) shall present to the Postmaster at the place of mailing a duly executed Declaration, when required by subdivision (ii) of this subparagraph, containing the designation or symbol of the general license under which the commodity or technical data may be exported. In addition, except where publications are exported by a Federal Government agency under the provisions of General License GTDP, the sender (exporter) shall place the general license designation or symbol on the address side of the wrapper, followed by the words "Export License Not Required". The general license symbol and the legend will constitute a certification by the sender to the Postmaster and to the Bureau of Foreign Commerce that a validated license is not required for the shipment.

(ii) *Commercial mail shipments.* A Declaration shall be presented for commercial mail shipments other than shipments of technical data being made under a general license from one business concern to another business concern, if the value of the shipment is $25 or more.[1]

The Note following paragraph (b) remains unchanged.

3. Section 379.1 *General export clearance requirements*, paragraph (c) *When exporting by means other than by water, air, or mail* is amended by adding the words "except as provided for in § 385.4 (g) (3) of this subchapter" after the words "technical data" in the first sentence of paragraph (c).

4. Section 385.2 *General Licenses GTDP and GTDU* is amended by changing the title of the section to read "*General Licenses GTDP, GTDU and GTDS*" and adding a new paragraph (c) to read as follows:

(c) *General License GTDS; unclassified scientific and educational technical data.* A general license designated GTDS is hereby established authorizing the exportation or release for foreign use to all destinations of unclassified scientific and educational technical data involving:

(1) Dissemination of information not directly and significantly related to design, production and utilization in industrial processes, including such dissemination by correspondence and attendance at or participation in meetings; or

(2) Instruction in academic institutions and academic laboratories.

NOTE: Instruction is interpreted not to include research under contract where the research relates directly and significantly to design, production and utilization industrial processes.

5. Part 385—Exportations of Technical Data is amended by the addition of a new section to read as follows:

§ 385.5 *Presentation of Shipper's Export Declaration.* A Shipper's Export Declaration, in the number of copies set forth in § 379.3 (c) of this subchapter, shall be presented to the Collector of Customs prior to the exportation or release for foreign use of technical data other than by mail, including surface or air parcel post, or by telegram, wireless, cable or telephone. Except where a shipment is made by mail in accordance with the provisions of § 379.1 (b) (1) (ii) of this subchapter, a Declaration is not required to be presented to the Postmaster.

This amendment shall become effective as of April 28, 1955.

(Sec. 3, 63 Stat. 7; as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

NATHANIEL KNOWLES,
Acting Director,
Bureau of Foreign Commerce.

[F. R. Doc. 55–3484; Filed, Apr. 27, 1955; 8:53 a. m.]

[2] Section 385.4 (g) (3) of this subchapter excludes technical data from the requirement for a Declaration.

[1] This rule is also contained in the regulations issued by the Bureau of the Census.

[7th Gen. Rev. of Export Regs., Amdt. 29]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

NONFERROUS COMMODITIES

Section 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products*, paragraph (d) *Refined copper, copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms*, subparagraph (2) *Refined copper, Schedule B No. 641200* is amended in the following particulars:

Wherever the words "Canadian-origin copper scrap or copper-base alloy scrap" appear, there is substituted therefore the words "Canadian-origin copper scrap, copper-base alloy scrap or copper-base alloy ingots and other crude forms including remelt ingots".

This amendment shall become effective as of April 27, 1955.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

PART 175—TRAFFIC IN CONTAINERS OF DISTILLED SPIRITS

Correction

In F. R. Doc. 55–3326 appearing at page 2704 of the issue for Saturday, April 23, 1955, the following change should be made:

Section 175.13, appearing on page 2706, should read as follows:

§ 175.13 *Distilled spirits.* Distilled spirits, spirits, alcohol, and alcoholic spirits shall mean:

(a) That substance known as ethyl alcohol, hydrated oxide of ethyl, or spirits of wine, which is commonly produced by the fermentation of grain, starch, molasses, or sugar, including all dilutions and mixtures of this substance, and

(b) Products of rectification,

for other than industrial use.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 201—RULES OF PRACTICE

SCOPE OF RULES

The rules of practice are hereby amended by the addition of a statement regarding their scope. This is designed particularly to call attention to the fact that the rules of practice do not contain

all of the pertinent provisions relative to procedure and practice and that various provisions of limited application appear in the statutes administered by the Commission and in the rules and regulations adopted under specific statutes.

Statutory basis. This action is taken pursuant to the authority conferred upon the Commission by the various statutes administered by it, particularly section 19 (a) of the Securities Act of 1933, section 23 (a) of the Securities Exchange Act of 1934, section 20 (a) of the Public Utility Holding Company Act of 1935, section 319 of the Trust Indenture Act of 1939, section 38 (a) of the Investment Company Act of 1940, and section 211 (a) of the Investment Advisers Act of 1940.

Text of amendment. The rules of practice are amended by inserting the following statement prior to § 201.1 (Rule I):

§ 201.0 *Scope of rules.* The rules of practice consist primarily of rules of rather general application to proceedings under the various statutes administered by the Commission. In connection with any particular matter, attention should be given also to provisions relative to procedure and practice that may be contained in the particular statute or section involved and in the rules and forms that have been adopted by the Commission under such statute or section.

The Commission finds that the foregoing action relates to matters of procedure and practice and that compliance with sections 4 (a), (b) and (c) of the Administrative Procedure Act is unnecessary.

The foregoing amendment shall be effective immediately.

(Secs. 19, 23, 48 Stat. 85, 901, as amended, sec. 20, 49 Stat. 833, sec. 319, 53 Stat. 1173, secs. 38, 211, 54 Stat. 841, 855; 15 U. S. C. 77s, 77sss, 78u, 79t, 80a-37, 80b-11)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

APRIL 20, 1955.

[F. R. Doc. 55-3459; Filed, Apr. 27, 1955; 8:49 a. m.]

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

FILING OF CERTAIN PROSPECTUSES

The Commission today adopted § 270.-24e-1 (Rule N-24E-1) which is designed to clarify the circumstances under which the provisions of section 24 (e) (3) of the Investment Company Act of 1940 require that a prospectus relating to securities of certain investment companies be filed as a post-effective amendment to the registration statement under the Securities Act of 1933.

Section 24 (e) (3), which was added by Public Law No. 577, 83d Congress, requires that a prospectus relating to a security issued by a face-amount certificate company or a redeemable security issued by an open-end management company or unit investment trust "which varies for the purposes of subsection (a) (3) of section 10 of the Securities Act of 1933 from the latest prospectus filed as a part of the registration statement" must be filed as a post-effective amendment in order to meet the requirements of section 10 of that act, except to the extent the Commission otherwise provides by rules and regulations.

Some question has been raised as to the scope of the quoted language in section 24 (e) (3). The Commission believes that this language refers to a prospectus which is prepared for the purpose of providing more current information, in compliance with section 10 (a) (3), after the previous prospectus ceases to comply with that section because the information therein is no longer sufficiently current to meet the statutory requirements. In practice, investment companies engaged in a continuous offering of securities have prepared such a revised prospectus at approximately annual intervals, and it was the purpose of section 24 (e) (3) to require the filing of such a revision as a post-effective amendment.

Some apprehension has been expressed, however, that the quoted language of section 24 (e) (3) might be interpreted as including any prospectus used more than nine months after the original effective date which differs in any respect from the latest prospectus included in the registration statement, and therefore, that it would be prudent to file all such prospectuses as post-effective amendments. Reports of Congressional Committees with respect to Public Law No. 577 indicate that section 24 (e) (3) was not intended to require the filing of every changed prospectus as a post-effective amendment. See Senate Report No. 1036, 83d Cong., 2d Sess. (1954) at 21; House Report No. 1542, 83d Cong., 2d Sess. (1954) at 30.

The Commission has accordingly adopted a rule in order to make more explicit the application of section 24 (e) (3).

Statutory basis. This action is taken pursuant to the Investment Company Act of 1940, particularly sections 24 (e) and 38 (a) thereof, the Commission deeming such action appropriate in the public interest and for the protection of investors.

Text of rule. The text of the rule is as follows:

§ 270.24e-1 *Filing of certain prospectuses as post-effective amendments to registration statements under the Securities Act of 1933.* Section 24 (e) (3) of the act requires that when a prospectus is revised so that it may be available for use in compliance with section 10 (a) (3) of the Securities Act of 1933 for a period extending beyond the time when the previous prospectus would have ceased to be available for such use, such revised prospectus, in order to meet the requirements of section 10 of said act, must be filed as an amendment to the registration statement under said act and such amendment must have become effective prior to the use of the revised prospectus. Except as hereinabove provided, section 24 (e) (3) of the act shall not be deemed to govern the times and conditions under which post-effective amendments shall be filed to registration statements under the Securities Act of 1933.

(Sec. 38, 54 Stat. 841, 15 U. S. C. 80a-37. Interprets or applies sec. 24, 54 Stat. 825; 15 U. S. C. 80a-24)

Effective date. The Commission finds that notice and public procedure pursuant to section 4 (a) and (b) of the Administrative Procedure Act is not necessary with respect to the foregoing rule because of the interpretative nature thereof and because it relates to agency practice and has the effect of relieving restriction. The rule will accordingly become effective upon publication, April 22, 1955.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

APRIL 21, 1955.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53785]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

WAIVER OF COASTWISE TOWING LAWS

APRIL 22, 1955.

Upon the written recommendation of the Deputy Secretary of Defense in the interest of national defense and by virtue of the authority vested in me by the act of December 27, 1950 (64 Stat. 1120), and revised Treasury Department Order No. 165 (T. D. 53654), I hereby waive compliance with section 316, title 46, United States Code, to the extent necessary to permit Canadian tugs to tow and transport equipment owned by A. S. Wikstrom, Inc., now located in the vicinity of Barnhart Island, in American waters adjacent to construction work being carried out by the New York State Power Authority on the St. Lawrence River. This waiver shall be effective immediately and shall remain in effect until June 1, 1955.

(Sec. 1, 64 Stat. 1120; 46 U. S. C. prec. Sec. 1 note)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Chapter I—Coast Guard, Department of the Treasury

Subchapter B—Military Personnel

[CGFR 55-16]

PART 33—APPOINTMENTS OF CIVILIANS AS COMMISSIONED OFFICERS, CHIEF WARRANT OFFICERS, AND WARRANT OFFICERS

PRECEDENCE

By virtue of the authority contained in 14 U. S. C. 92, 224, and 225, the following amendments to regulations are prescribed and shall be effective on and after the date of publication of this order in the FEDERAL REGISTER.

1. Paragraph (a) of § 33.05-5 is amended to read as follows:

§ 33.05-5 *Precedence.* (a) Officers appointed under this subpart shall take precedence with other officers in their respective ranks in accordance with the date of commission in such ranks. Appointees whose dates of commission are the same shall take precedence with each other in the order recommended by the selecting and examining board as approved by the Commandant.

2. Paragraph (b) of § 33.05-5 is cancelled.

(Sec. 8, 18 Stat. 127, as amended; 14 U. S. C. 92)

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

APRIL 21, 1955.

[F. R. Doc. 55-3476; Filed, Apr. 27, 1955; 8:52 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

CONDITIONS GOVERNING PAYMENT OF EDUCATIONAL AND TRAINING ALLOWANCE

In § 21.2051, paragraph (b) is amended to read as follows:

§ 21.2051 *Conditions governing payment of education and training allowance.* * * *

(b) The education and training allowance shall be paid to an eligible veteran for any period only after the Veterans' Administration shall have received from the educational institution a Certification of Training certified by the eligible veteran and the educational institution or training establishment on a form provided by the Veterans' Administration for that purpose, showing that the veteran has been pursuing his course as required by Public Law 550, 82d Congress. In the case of veterans pursuing all types of courses except those pursued exclusively by correspondence (wherein the Certification of Training shall be quarterly), monthly Certifications of Training are required. If enrollment is on or after the 20th day of the month, the Certification of Training for the rest of that month shall be included with the certification for the following calendar month. Where the approved period of enrollment ends during the first 10 days of a month, schools and training establishments are encouraged to defer submission of the certification for the immediately preceding month and to include it in the certification for the partial month. Any such Certifications of Training received in the Veterans' Administration later than 10 days following the close of the certification period may not be paid until the following month. Where the course is pursued exclusively by correspondence, the veteran and the school will report on the quarterly certification forms the total number of lessons completed by the veteran and serviced by the school from the beginning of the course to the end of the reporting period. These certification forms will be submitted so as to be received in the Veterans' Administration by the 10th day of February, May, August, and November of each year.

(1) Where the vacation period of the school extends beyond the end of a month, a veteran enrolled in such a school may be permitted to complete his monthly certification of training on the last day of scheduled attendance in that month certifying as to attendance through such date and to submit the form to the school prior to departure for the vacation. In such a case the certification to cover attendance in a nonaccredited course will show the succeeding days in that month as days of nonattendance and the certification covering an accredited course will be deemed to show the veteran to have been enrolled in and pursuing his course to the end of the month, except that in the event training is not resumed after the vacation period interruption will be effective as of the last date of actual attendance. (See § 21.2056 (b) (10).) The same principles will apply in the case of a veteran who completes his final examinations and departs from the school prior to the official closing date of the school term.

* * * * *

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended, sec. 261, 66 Stat. 663; 38 U. S. C. 693g, 697-699d, 697f, g, 971, ch. 12 note)

This regulation is effective April 28, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55-3442; Filed, Apr. 27, 1955; 8:45 a. m.]

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III; LOAN GUARANTY

ALLOWABLE FEES AND CHARGES

In § 36.4312, paragraph (a) is amended to read as follows:

§ 36.4312 *Allowable fees and charges.* (a) Incident to the making of a guaranteed or insured loan no charge shall be made against, or paid by, the borrower except those expressly permitted under the schedule set forth in paragraph (d) of this section, and no loan shall be guaranteed or insured unless the lender certifies to the Administrator that it has not imposed and will not impose any charges or fees against the borrower in excess of those permissible under such schedule. Any charge which is proper to make against the borrower under the provisions of this paragraph may be paid out of the proceeds of the loan: *Provided*, That if the purpose of the loan is to finance the purchase or construction of residential property the costs of closing the loan, including the pro rata portion of the ground rents, hazard insurance premiums, current year's taxes, and other prepaid items normally involved in financing such transaction, may not be included in the loan but must be paid in cash by the veteran unless (1) the master or individual certificate of reasonable value relating to such property is dated prior to April 28, 1955, or (2) the borrower prior to such date executed a bona fide contract in writing for the purchase or construction of such property. Except as provided in the regulations concerning the guaranty or insurance of loans to veterans, no brokerage or service charge or their equivalent may be charged against the debtor or the proceeds of the loan either initially, periodically, or otherwise.

(Sec. 504, 58 Stat. 293, as amended; 38 U. S. C. 694d)

This regulation is effective April 23, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1134]

ALASKA

EXCLUDING CERTAIN TRACTS FROM CHUGACH AND TONGASS NATIONAL FORESTS AND RESTORING THEM FOR PURCHASE AS HOMESITES

By virtue of the authority vested in the President by section 1 of the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The following-described tracts of public land in Alaska, occupied as homesites and identified by surveys of which plats and field notes are on file in the Bureau of Land Management, are hereby excluded from the Chugach and Tongass National Forests, Alaska, as hereinafter indicated, and restored, subject to valid existing rights, for purchase as homesites under section 10 of the act of May 14, 1898, as amended by the act of May 26, 1934 (48 Stat. 809; 48 U. S. C. 461):

CHUGACH NATIONAL FOREST

U. S. Survey No. 2529, lot F, 4.87 acres; latitude 60°29'38" N., longitude 149°21' W. (Homesite No. 100, Moose Pass Group).

TONGASS NATIONAL FOREST

U. S. Survey No. 2828, lot 25, 1.50 acres; latitude 56°21'06" N., longitude 133°37'02" W. (Homesite No. 951, Point Baker Group).

U. S. Survey No. 2828, lot 23, 1.30 acres; latitude 56°21'06" N., longitude 133°07'02" W. (Homesite No. 1028, Point Baker Group).

A tract of 3.71 acres on the northwest portion of Pup Island; approximate latitude 55°29' N., longitude approximately 131°50' W. (Homesite No. 1114).

ORME LEWIS,
Assistant Secretary of the Interior.

APRIL 19, 1955.

[F. R. Doc. 55-3446; Filed, Apr. 27, 1955; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Mines

[30 CFR Part 18]

[Bureau of Mines Schedule 2F]

JUNCTION BOXES AND ELECTRIC MOTOR-DRIVEN MINE EQUIPMENT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Secretary of the Interior proposes to amend the regulations of this part governing investigations leading to approval of electric motor-driven equipment and junction boxes as indicated below. Interested persons may submit written data, views, or arguments in regard to the proposed regulations to the Director, Bureau of Mines, Department of the Interior, Washington 25, D. C. All communications shall be in triplicate. All relevant material received not later than 30 days after the publication of this notice in the FEDERAL REGISTER will be considered in connection with the issuance of this part.

The heading for Part 18 would be revised to read as follows: Part 18—Electric motor-driven mine equipment, junction boxes and other accessory equipment.

Part 18 would be revised to read as follows:[1]

Preliminary statement. The Bureau of Mines, at its Central Experiment Station, Pittsburgh, Pa., conducts investigations for determining the permissibility of electric motor-driven machines and the appliances used in connecting them to a source of power in gassy and dusty mines.

This part is issued for the information and guidance of those who may desire to submit such machines and appliances for approval, to inform purchasers and other interested persons regarding the qualities and minimum safety standards the Bureau believes such equipment should have, and to specify the conditions and requirements for determining the permissibility of electrical equipment for use in coal mines.

Lists of permissible equipment are published from time to time for the information and guidance of State mining officials, mine operators, and others interested in safeguarding mines.

The authority for conducting these investigations is contained in the Federal Coal Mine Safety Act (66 Stat. 692; 30 U. S. C. secs. 451, et seq.) and in the act of Congress (37 Stat 681), approved February 25, 1913, and amended June 30, 1932 (47 Stat. 410), and in Executive Order No. 6611, February 22, 1934 (30 U. S. C. secs. 5, 7). The act of 1913, as amended, and as modified by the Executive Order, contains the following provisions:

For tests or investigations authorized by the Secretary of the Interior under the provisions of this act, other than those performed for the Government of the United States or State governments within the United States, a fee sufficient in each case to compensate the Bureau of Mines for cost of the services rendered to the manufacturer or assembler shall be charged, according to a chedule prepared by the Director of the Bureau of Mines and approved by the Secretary of the Interior, who shall prescribe the rules and regulations under which such tests and investigations may be made. All moneys received from such sources shall be paid into the Treasury to the credit of miscellaneous receipts.

[1] This amendment would supersede Bureau of Mines Schedule 2E which was approved February 15, 1945.

Subpart A—Normal Investigation Procedures

Sec.
18.0 General.
18.1 Definitions.
18.2 Consultation.
18.3 Fees charged.
18.4 Application for approval of new equipment.
18.5 Drawings and specifications required.
18.6 Factory inspection forms.
18.7 Material required for investigation.
18.8 Shipments.
18.9 Assistance required during investigation.
18.10 Who may be present at formal investigation.
18.11 Classification of parts.
18.12 Operating voltage of equipment.
18.13 Switches.
18.14 Overcurrent protection of circuits and equipment.
18.15 Fuses and switches to be interlocked.
18.16 Conductors, conduit, and wiring.
18.17 Connection boxes on machines.
18.18 Protection against external arcs and sparks.
18.19 Electrical clearances and insulation.
18.20 Portable cables.
18.21 Connections to power source.
18.22 Cable reels.
18.23 Field assembly of certified components.
18.24 Detailed requirements for Class 1 parts.
18.25 Special requirements for Class 2 parts.
18.26 Detailed inspection.
18.27 Explosion tests.
18.28 Adequacy tests.
18.29 Portable cable damage resistance tests.
18.30 Portable cable flame resistance tests.
18.31 Certification of electrical components.
18.32 Final inspection.
18.33 Inspection and test reports.
18.34 Approvals.
18.35 Changes in design after approval.
18.36 Acceptance of changes made in the field.
18.37 Rebuilding and repairing of used equipment.

Subpart B—Experimental Electric Face Equipment in Gassy Mines

18.50 General.
18.51 Permit.
18.52 Application for permit.
18.53 Fees charged.
18.54 Drawings and specifications required.
18.55 Constructional requirements.
18.56 Final inspection.
18.57 Issuance of permit.
18.58 Duration of permit.
18.59 Permit label.
18.60 Withdrawal of permit.

AUTHORITY: §§ 18.0 to 18.60 issued under sec. 5, 36 Stat. 370, as amended, 30 U. S. C. sec. 7. Interpret or apply secs. 2, 3, 36 Stat. 370, as amended, 30 U. S. C. 3, 5.

SUBPART A—NORMAL INVESTIGATION PROCEDURES

§ 18.0 *General.* This subpart is prescribed pursuant to, and must be complied with in accordance with, the requirements of the Federal Coal Mine Safety Act.

§ 18.1 *Definitions*—(d) *Adequate.* Appropriate and sufficient as determined by mutual agreement between the manufacturer, assembler, mine operator, and the Bureau of Mines.

(b) *Approval.* Official written notification issued by the Bureau of Mines stating that a machine or appliance complies with the regulations in this part for use in gassy and dusty mines.

(c) *Branch circuit.* Parallel circuit, such as for headlight or drill, connected to the main circuit in a machine.

(d) *Certification.* Official written notification issued by the Bureau of Mines stating that an electrical component complies with the requirements for explosion-proof construction and therefore is suitable for assembly in permissible equipment.

(e) *Connection box.* Enclosure mounted on a machine to facilitate wiring of the machine without the use of permanent splices.

(f) *Distribution box.* Portable enclosure in which one or more trailing cables from permissible machines may be connected to a common source of electrical energy.

(g) *Explosion-proof.* Capable of withstanding internal explosions of methane-air mixtures without ignition of surrounding explosive methane-air mixtures and without damage to the enclosure or discharge of flame.

(h) *Incendive spark.* An electric spark of sufficient intensity to ignite flammable methane-air mixtures.

(i) *Junction box.* Stationary mounted enclosure by means of which one or more cables from permissible machines may be connected to a fixed (stationary) circuit.

(j) *Mobile equipment.* Equipment which is self-propelled.

(k) *Normal operation.* The performance of those functions for which the part was designed.

(l) *Permissible equipment.* Equipment to which an approval plate, label, or other device is attached as authorized by the Director of the Bureau of Mines under section 212 (a), Federal Coal Mine Safety Act (66 Stat. 692; 30 U. S. C. secs. (451–483).

(m) *Permit.* A special written certificate of authorization prescribing the conditions under which a machine built or purchased for experimental purposes may be operated in a gassy mine.

(n) *Portable cable.* A flexible cable or cord by means of which portable, semiportable, and mobile mine equipment may be connected to a source of electrical energy.

(o) *Portable equipment.* Equipment that may be moved frequently and therefore constructed or mounted so as to facilitate moving it from place to place.

(p) *Pressure-piling.* Abnormal explosion pressures resulting from the ignition of an explosive mixture that has been precompressed.

(q) *Semiportable equipment.* Equipment that is moved infrequently and therefore not constructed or mounted for ready movement from place to place.

(r) *Splice box.* Enclosure by means of which trailing cable sections may be joined within an explosion-proof housing.

(s) *Terminal box.* Enclosure used to house the terminals on a motor, controller, rheostat, or other electrical part so that connections can be made conveniently to external circuits.

§ 18.2 *Consultation.* By appointment, manufacturers, engineers, or their representatives may visit the Bureau's Central Experiment Station, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, to obtain criticisms of proposed designs or to discuss the requirements of the regulations in this part in connection with equipment to be submitted. No charge is made for such consultations.

§ 18.3 *Fees charged.*

(a) For detailed inspection of each explosion-proof enclosure----- $45.00

NOTE: When the enclosure is of such nature that only a nominal amount of work is involved in the inspection, only half of this fee will be charged.

(b) For explosion test of each explosion-proof enclosure------ $35.00

NOTE: When the explosion-proof qualities of an enclosure can be satisfactorily demonstrated in less than 20 tests, only half of this fee will be charged.

(c) For each series of tests necessary to prove the adequacy of electrical clearances and insulation durability, or ventilation of each enclosure---------- 40.00

(d) For each inspection made at the factory or elsewhere[1]--------- 35.00

(e) Tests of portable cable.
(i) Damage-resistance tests (complete official test)---- 25.00
(ii) Development tests to determine resistance to damage by mine car running over cable will be charged for at the rate of $2.50 for each five runs over the cable, with a minimum charge of $5.00.
(iii) Flame-resistance tests (complete official test)--- 15.00
(iv) Development flame-resistance tests will be charged for at the rate of $3.00 per test sample, with a minimum charge of $6.00.

(f) For the examination and recording of all the necessary drawings and specifications preparatory to issuing an approval---- 40.00

[1] In addition, the company shall pay the inspector's traveling expenses and subsistence as allowed by standard Government travel regulations.

(g) For the examination and recording of drawings and specifications for each investigation of a motor, starter, and other individual explosion-proof unit considered independently of a complete machine assembly-- $20.00

(h) For the examination and recording of drawings and specifications necessitated in consideration of changes subsequent to the initial investigation, a charge of $40.00 will be made. However, if only a nominal amount of work is involved, the fee will be $15.00.

(i) No charge will be made for inspections and tests made solely for the Bureau's information.

Any sums deposited in excess of the fees charged pursuant to the fees specified in this section will be refunded.

§ 18.4 *Application for approval of new equipment.*[2] Before the Bureau of Mines will undertake the active investigation leading to approval of any new equipment[3] the manufacturer or assembler shall make application by letter for an investigation of that equipment. This application in duplicate, accompanied by a check, bank draft, or money order payable to the U. S. Bureau of Mines to cover all necessary fees, shall be sent

[2] The submission by or on behalf of a manufacturer or assembler of any type of apparatus for test implies acceptance by him of all the terms and conditions set forth in this part.

[3] Equipment for foreign shipment must meet the same requirements as that for domestic shipment.

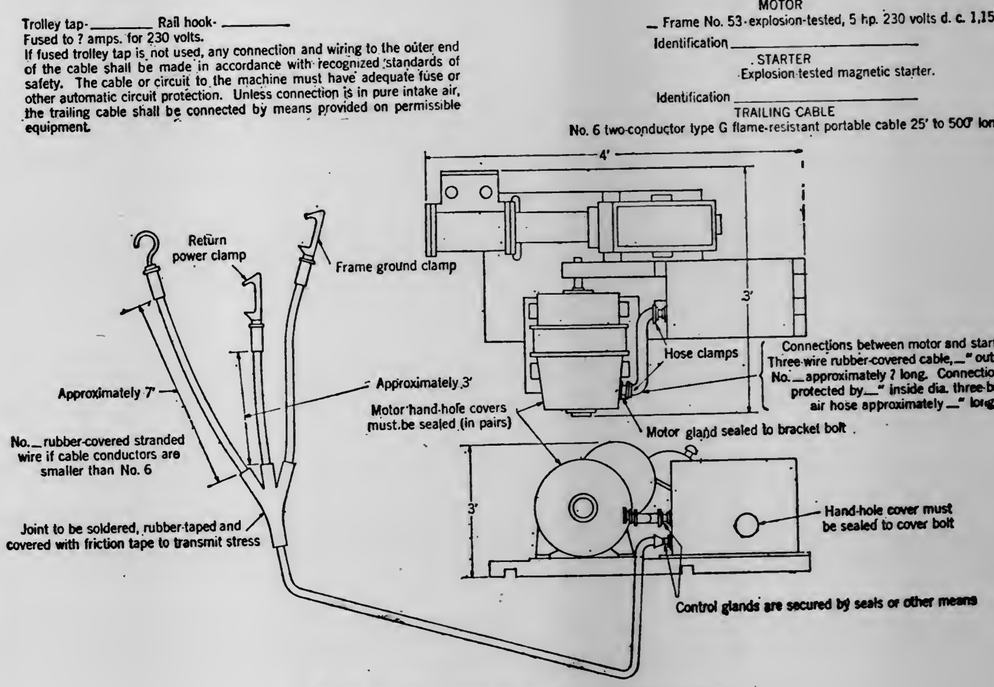

FIGURE 1—Layout drawing for _____ Manufacturing Co.

to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, together with drawings and specifications as prescribed in § 18.5.

§ 18.5 *Drawings and specifications required.* (a) The drawings and specifications shall be sufficient in number and detail to identify the design fully. Drawings must be numbered and dated to facilitate identification and reference in the records. The complete rating of each motor, and the setting of overload protective devices and the capacity of all fuses, shall be specified.

(b) An assembler who does not make the electrical parts for his machine shall submit a lay-out drawing (see figure 1) with the following information: (1) Each motor, controller, other electrical parts, and the wiring between them including conduit protection, (2) the rating of each motor, (3) the flame-resistant portable cable, including gage of conductors, range of length, type (two-conductor round type G, flat twin type G, etc.), and (4) protection for the portable cable, such as circuit breaker rating, make and current rating of trolley tap fuses (attachments for return conductor and frame ground conductor should be included). In addition, he shall submit the following information where applicable: (5) The current setting of overload relays and circuit breakers, and current rating of fuses, (6) details of insulated strain clamp for portable cable if supplied by the assembler, (7) a connection or wiring diagram if necessary to specify connections, (8) any other detail information necessary to specify properly essential features of the assembly. Specific identification of the parts must be given (by style number, drawing-list number, mechanical specification number or other data) so that they can be identified in the Bureau's records as having been investigated. A factory inspection sheet similar to the Sample Factory Inspection Sheet shown in § 18.6 must be prepared by the assembler for his use to assure that a proper inspection is made before an approval plate is attached to the machine.

(c) A manufacturer who makes accessory parts of a machine shall furnish, in addition to the material and information listed in paragraph (b) of this section, the following material and information:

(1) A drawing or drawings that shall specify the material and detailed dimensions of all parts (i) that make up explosion-proof enclosures made by him for units included under Class 1 (see § 18.11) and (ii) that form any portion of the joints through which flames might escape. Upon request, the manufacturer shall specify the material and dimensions for such other parts as the Bureau considers necessary for proper record.

(2) Any other drawings found necessary to identify or explain any feature that has to be considered in determining whether a machine or parts thereof meet the requirements. For example, when a motor has a bearing of complex flame-path construction, the drawings should include a section through the bearing to show the relative position of each part in the assembly.

(3) A wiring diagram.

(4) If the drawings do not clearly indicate the purpose and functioning of electrical interlocks and special features in automatic or remote-control circuits, a description explaining their purpose shall be furnished.

(d) The following exception is made concerning the type of drawings required for squirrel-cage induction motors: [4] In lieu of furnishing individual detailed shop drawings, the motor manufacturer may, if he wishes, supply one or more "skeleton" drawings for official record, giving essential information concerning the materials of which the parts are made, as well as dimensions and clearances at all flame paths, such as joints, bearings, and cable entrances, for the motor and its conduit box. If full detailed dimensions are not given for all parts, this drawing (or drawings) may show the assembled motor in section, but the section or sections must show the parts in their correct proportions and location with respect to each other. A skeleton drawing shall not cover more than one motor-frame diameter. Information covering the ratings, range of voltages, speeds, and frequencies for which the motor will be available in this frame should be included on the skeleton drawing. Each frame shall have a suitable designation for purposes of reference and identification. In addition to the foregoing, detailed shop drawings will be required in connection with the initial inspection of a given motor. Such drawings will be used in making the inspection and will serve as a guide in determining whether sufficient information is given by the skeleton drawings. These detail drawings will not be officially listed or recorded.

(e) The Bureau reserves the right to make periodic factory inspections of motors submitted pursuant to this paragraph, for which listed charges will be made.

§ 18.6 *Factory inspection forms.* Every manufacturer shall furnish to the Bureau a copy of the form that will be used by him in the inspection of assembled equipment at the factory. This form shall draw special attention to the wiring as well as to features that must be observed in order to make certain that explosion-proof enclosures are complete in all respects and agree with drawings filed with the Bureau. The following sample form may be used as a guide in drafting one suited to a particular machine:

SAMPLE FACTORY INSPECTION SHEET

Date _____ Unit serial No. _____ Motor make, type, and frame _____
Motor serial No. _____ Hp. _____ Speed _____ Voltage _____ Motor wound _____
Model or drawing list No. _____ Starter make and type _____
Starter hp. _____ Starter voltage _____ Drawing list _____ Overload setting _____
Short circuit _____ Portable cable length _____ Size _____ Make _____
No. of conductors _____ Conductor markings (+) _____ (−) _____
Ground _____ Are motor covers wired and sealed? (or padlocked?) _____
Is motor gland packed with at least ½ inch of packing along cable when compressed? _____
Is motor gland secured against loosening? _____
Are lock washers in place on all bracket bolts? _____
Are lock washers in place on retaining-plate bolts? _____
Are lock washers in place on pole-piece bolts? _____
Do end brackets fit tightly against frame? _____
Are there any openings into the interior of the motor? _____
Is air-hose conduit in good condition? _____
Is air-hose conduit securely clamped to motor packing gland? _____
Is air-hose conduit clamped to base securely? _____
Is air-hose conduit clamped securely to starter packing gland? _____
Is starter motor-cable gland properly packed? _____
Is starter motor-cable gland secured against loosening? _____
Is starter portable-cable gland properly packed? _____
Is starter portable-cable gland secured against loosening? _____
Are stuffing boxes for starter-, motor-, and portable-cable glands secured against loosening? _____ How? _____ By headless set screw? _____
By fillister head screw? _____ By brazing or welding? _____
Are motor-cable connections in starter tight? _____
Are the portable-cable connections in starter tight? _____
If used, is ground connection in starter tight? _____
Is positive conductor in portable cable connected to positive side of starter? _____
Is negative conductor in portable cable connected to negative side of starter? _____
Is ground conductor (if used) properly connected? _____
Is starter portable-cable-gland strain clamp properly insulated? _____
Does starter portable-cable-gland strain clamp hold cable firmly so as to prevent strain on terminals? _____
Are lock washers in place on all cover bolts? _____
Is cover-to-box flange joint tight? _____
What size feeler can be inserted in joint (if any)? _____
Is ungrounded power ( ) conductor in portable cable connected to trolley tap? _____
Is grounded power ( ) conductor in portable cable connected to ground clamp? _____
Is frame ground ( ) conductor (if present) of portable cable connected to ground clamp? _____ Trolley tap make and type _____
Fuse for trolley tap make, type, and rating _____
Ground clamps make and type _____
Are there any through holes into the starter compartment? _____
Does the trailing cable pass over sharp corners or edges on machine? _____
Is trailing cable liable to sharp bends or kinks at the machine? _____
Does motor-to-starter conduit pass over sharp corners or edges? _____
Is motor-to-starter conduit liable to injury from moving parts? _____

[4] The reason for limiting the exception to squirrel-cage induction motors is that this type of motor is nonsparking in normal operation.

§ 18.7 *Material required for investigation.* (a) It is not necessary to ship a completely assembled machine for the purpose of inspection and test when approval is desired. Gearing and mechanical parts, unless needed to complete explosion-proof enclosures, may be omitted. Only one motor, controller, rheostat, or other electrical unit of a given size and design need be shipped to the Central Experiment Station.

(b) When the design necessitates the setting of tolerances to assure satisfactory running fits or safety of joints in explosion-proof casings, the parts submitted for test shall, if feasible, have the tolerances that give the maximum opening at the joints. Where a wide margin of tolerances (over 0.005 inch) is considered necessary by the manufacturer, the Bureau reserves the right to require test of a part under the conditions of maximum tolerance that the manufacturer wishes to use.

(c) Pinion pullers and any other special tools needed in disassembling any parts for inspection or test shall be furnished with the equipment submitted.

§ 18.8 *Shipments.* (a) The manufacturer shall arrange for, and prepay all costs of shipments of material to the Central Experiment station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania. He shall also arrange for, and assume all costs of crating and removal of parts upon completion of the investigation.

(b) Unless instructed to the contrary, manufacturers may ship parts to the Bureau for inspection and test immediately after filing application. Inspection and test usually are undertaken in the order of receipt of parts, provided that the application, fees, and drawings have been received.

§ 18.9 *Assistance required during investigations.* When requested to do so, the manufacturer shall provide a man to assist in disassembling parts for inspection and to prepare them for test by drilling and tapping them for pipe connections. He shall also assist in mounting and connecting the parts for test.

§ 18.10 *Observers at formal investigations and demonstrations.* No one shall be present during any part of the formal investigation conducted by the Bureau which leads to approval for permissibility except the necessary Government personnel, representatives of the applicant, and such other persons as may be mutually agreed upon by the applicant and the Bureau. Upon granting approval for permissibility, the Bureau will announce that such approval has been granted to the device and may thereafter conduct, from time to time in its discretion, public demonstrations of the tests conducted on the approved device. Those who attend any part of the investigation, or any public demonstration, shall be present solely as observers; the conduct of the investigation and of any public demonstration shall be controlled wholly by the Bureau's personnel. Results of chemical analyses of material and all information contained in the drawings, specifications, and instructions shall be deemed confidential and their disclosure will be appropriately safeguarded by the Bureau.

§ 18.11 *Classification of parts.* The electrical parts of a machine that may cause ignition of mine gas or coal dust are divided into three classes. These classes, together with the general type of enclosure that must be provided for the purpose of preventing ignitions, are as follows:

(a) *Class 1.* Class 1 shall include motors, controllers, fuses, switches, contactors, and all other parts that may produce sparks or flashes as the result of normal operation. Headlights, meters, rheostats, electromagnets, squirrel-cage-type induction motors, and similar parts which may become dangerous because of failure of electrical circuits in them are also included in this class. Explosion-proof casings shall be used to enclose this class of parts.

(b) *Class 2.* Class 2 shall include all parts, such as batteries, interlocked plugs and receptacles, external connections, and wiring between enclosures, that do not produce sparks or flashes as the result of normal operation but may do so as the result of accident. Such connections and wiring shall have adequate shields or guards of strength and character proportionate to the risk of injury, or else they shall be enclosed in explosion-proof casings.

(c) *Class 3.* Class 3 shall include all parts, such as disconnecting switches, and non-interlocked plugs and receptacles, that may produce sparks or flashes in normal operation but are not of necessity operated while the equipment is in a gassy place. Such parts shall be enclosed in explosion-proof or adequately locked casings. If locked casings are used, they shall have adequate mechanical strength.

§ 18.12 *Operating voltage of equipment.* No hand-held drill or other small portable apparatus intended to be held in the hands or supported against the body while in use will be approved for potentials above 250 volts, direct current, or 220 volts, alternating current; however, approvals may be granted for certain other machines if the operating potential does not exceed 550 volts at the motor terminals of direct-current machines or 650 volts at the motor terminals of alternating-current machines.

§ 18.13 *Switches.* (a) Every machine including battery-operated equipment shall have a main service switch or its equivalent, such as line contactors or circuit breakers, by means of which all power conductors can be opened. This service switch shall be designed and constructed so that it can be operated readily from the machine either directly or by remote control. It shall be capable of interrupting operating overloads up to values at which the fuses or other automatic circuit-interrupting devices protecting the machine actually open the circuit, without grounding or destructive arcing. A manually operated controller is not acceptable as a service switch except that for small motors (with a continuous rating not exceeding 5 hp. or an intermittent rating of not more than 10 hp.), a suitable controller and protective device combined will be considered. When a controller is accepted as a service switch, it must open all power conductors.

(b) When it is not practical to mount the service switch on the machine proper, a switch suitably mounted on a cable reel truck or a skid may be accepted, provided not more than 75 feet of cable is used to connect the switch to the machine. It is recommended that the length of cable be kept to 50 feet or less.

(c) A separate switch or switches shall be provided for headlights and floodlights so that, if lenses are broken, it will be possible to open all conductors of the circuit to each damaged unit, unless the circuit can be opened without hazard by the removal of interlocked headlight fuses.

(d) Post drills, hand-held drills, and portable blowers shall be provided with a switch at the motor, with one pole for each power conductor of the portable cable.

(e) Locomotives designed to operate on either trolley or cable shall be provided with a transfer switch or its equivalent which inherently prevents energizing one from the other. This switch shall be so connected that there will be no electrical connection to the locomotive frame when the cable is energized. When a locomotive is equipped with two trolley poles, a switch or its equivalent shall be provided so that connection and disconnection of circuits to the poles can be accomplished without hazard.

(f) Belt conveyors shall be equipped with control switches to automatically stop the driving motor in the event that the belt is stopped or abnormally slowed down by slipping on the driving pulley, breakage, or other accident. An adequate device shall be provided to prevent slope belts from overspeeding.

§ 18.14 *Overcurrent protection of circuits and equipment.* (a) The portable cable for every machine shall be protected by a circuit breaker or other automatic circuit-interrupting device of suitable capacity in each ungrounded conductor.

(b) An automatic circuit-interrupting device shall be placed at every point where there is a reduction in the size of wire to protect the small wire, unless the protection of the larger wire also protects the smaller one.

(c) Circuit breakers or other automatic circuit-interrupting devices shall be inserted in each conductor at the point where branch circuits are connected to the main circuits on a machine if the branch circuit conductors have a cross-sectional area of less than 50 percent of the main conductors. For headlight and control circuits, this requirement is to be construed as meaning that each conductor having a cross-sectional area of less than 50 percent of the main to which it connects must be protected by a fuse or its equivalent at the point of connection. Control circuits that are entirely self-contained on a single insulating panel may be exempted from this requirement.

(d) Every wire and cable leaving the battery box of storage-battery-operated equipment shall have protection placed

as close as practicable to the battery terminal to which the wire or cable is connected.

(e) Every motor shall be protected by an automatic circuit-interrupting device. If more than one motor is employed on a machine, each motor should have individual overload protection; however, in some instances, more than one motor may be grouped under one protective device if the motors perform the same function on a machine or if their size and duty permit reasonable protection. For direct-current machines to be operated on grounded systems and having two or more motors of unequal rating, the largest motor of the group may be protected by a protective device in the ungrounded line only. Protective devices may be required in both lines for the small motor. An additional protective device may be used in the grounded line to the largest motor if the functioning of this device will cause both lines to open. Protective devices that do not give short-circuit protection shall be supplemented by a fuse, instantaneous operating relay, or equivalent connected in the ungrounded line. (A trolley tap fuse is not considered to fulfill this requirement.) If protection is not inserted in the grounded line, particular attention shall be given to marking the polarity at terminals or to other means of minimizing the possibility of reversing connections that would change the protection to the grounded line.

(f) For 3-phase alternating current, each of the three lines shall be provided with a fuse or with an automatic circuit breaker of such design that the opening of one phase will cause the other two phases to open. (Overload relays in two phases may be accepted if a line fuse is used in the third phase.)

(g) The interrupting capacity of contactors and automatic circuit breakers used to protect both alternating- and direct-current equipment shall be adequate for the service intended. The Bureau reserves the right to test contactors and circuit breakers when their adequacy is in question. (See § 18.28.)

(h) The functioning of main protective devices other than fuses shall open each pole of the contactors or circuit breakers in the main conductors, and these devices shall be arranged to permit resetting without opening the compartment in which they are enclosed. Reset mechanisms shall not prevent the proper functioning of circuit-interrupting devices designed to give short-circuit protection. Overload relays that do not give short circuit protection may be used if fuses or equivalent are inserted in the same conductors with them.

§ 18.15 *Fuses and switches to be interlocked.* (a) Main fuses and also fuses protecting branch circuits other than headlight and control circuits shall be interlocked with a switch or circuit breaker to permit quick and convenient renewal of fuses without introducing the hazard of igniting methane or coal dust. Fuses on small machines, such as hand-held drills and portable blowers, when enclosed in locked or sealed explosion-proof compartments, may be exempted from the requirements for an interlock, provided they can be renewed conveniently.

(b) Multiple fuses arranged to be successively inserted in circuit may be construed as meeting this requirement for main fuses if enclosed in locked or sealed explosion-proof compartments on storage-battery-operated equipment.

§ 18.16 *Conductors, conduits, and wiring.* (a) Every conductor shall have adequate insulation from ground and from conductors of opposite polarity.

(b) All conductors shall have a current-carrying capacity adequate for the intended duty.

(c) All wiring, particularly that outside of locked or explosion-proof enclosures, shall have adequate mechanical and electrical protection. If rigid conduit is unsuitable or undesirable for any reason, a good grade of rubber air hose or equivalent may be construed as meeting the requirement for mechanical protection. Flexible metal conduit is not acceptable. All conduit ends must be adequately clamped or otherwise secured to prevent their being pulled out. Rubber hose ends should have inserts or special fittings to insure positive fastening. Cables exceeding 25 feet in length for remote-control circuits may be exempted from the requirement of conduit protection, providing these circuits are energized from a source that will not give an incendive spark or are constructed in accordance with the last part of table 1, § 18.24 (a) (7) (i) (*d*). The conductors of such cables with conduit protection shall not be less than No. 16 for two-conductor or less than No. 18 for three-conductor cables, and 600-volt all-rubber or equivalent insulation shall be used in their construction.

(d) Sharp edges and corners shall be removed at all points where there is a possibility of damaging the insulation of wires, cables, or conduits by cutting or abrasion.

(e) Wiring and conduits on machines shall be well-cleated or otherwise held to prevent rubbing against moving parts and to minimize vibration or displacement. Conduits on machines should be placed where they will not be subjected to damage by falling materials, by tools and material carried on the machines, or by derailments. Conduit runs should be as short and direct as is consistent with adequate mechanical protection. Wires and cables also should be protected from damage by water, oil, or grease.

(f) The ends of wires and cables shall be held or clamped in a manner that will minimize the possibility of the ends coming loose from their connections and swinging against the sides of enclosing casings or against parts of opposite polarity.

§ 18.17 *Connection boxes on machines.* When it is not feasible to wire a machine without providing joints in the conductors between parts, such joints are permitted: *Provided,* That suitable connectors adequately insulated and securely held are used. Connection boxes or their equivalent shall be used to give adequate shielding against mechanical injury to the connections. It is recommended that explosion-proof enclosures be provided for this purpose. A connection box will be acceptable where it would facilitate renewal of portable cables without opening less-accessible explosion-proof casings.

§ 18.18 *Protection against external arcs and sparks.* (a) The frames of motors, their control equipment, and associated electrical parts shall be electrically connected, preferably through the base or frame of the machine which the motor or motors operate. When the controller or starting device is not mounted on the base of the mcahine, the requirement for connection will be satisfied by an additional conductor in the connecting cable or by a rigid metal conduit electrically continuous throughout its length, which connects the casing of the controller or starter with the frame of the motor.

(b) All machines which receive power from an external source and which cannot be considered as being in intimate electrical contact with earth shall be provided with means for maintaining their frames at ground potential, or with a certified device that will disconnect power from the equipment in event of a ground fault.

(c) The frames of mining machines regularly transported on separate trucks shall be electrically connected to the truck frames if power connections are made to the trucks. If power connections are not made to the trucks, the provisions shall be the same as for other machines not transported on separate trucks.

(d) Frames of longwall machines that use a junction box or its equivalent shall be electrically connected to the latter by a separate conductor in the portable cable.

(e) Junction boxes shall be provided with adequate means for maintaining their cases at ground potential.

(f) Distribution-box cases shall be maintained at ground potential and the frames of machines receiving power from distribution boxes shall be electrically connected thereto by an additional conductor in the connecting cables.

(g) Push-button enclosures not mounted on the frames of machines or on control equipment shall be electrically connected to the latter frames unless the source of supply will not give an incendive spark, or unless the stations are to be mounted on a separate grounded support. In the latter case the electrical connection should not be used.

(h) Cover bolts and other fastenings needed to maintain tight joints in explosion-proof enclosures shall not be used to hold connections or terminals.

(i) The size of a conductor used to maintain machine frames at ground potential shall be determined in accordance with the following:

(1) If the size of the power conductor is No. 6 or larger, the cross-sectional area of the additional conductor shall not be less than 50 percent of that of the power conductor, except that in no case shall the additional conductor be less than No. 8.

(2) If the size of the power conductor is smaller than No. 6, the cross-sectional area of the additional conductor shall not be less than that of the power conductor.

(3) Where a ground fault trip is used, the size of the additional conductor may be less than under subparagraph (1) of this paragraph if necessary but not less than No. 8.

(j) Belts used for power transmission shall not give rise to static-electric sparks.

§ 18.19 *Electrical clearances and insulation.* (a) The clearances between live parts and casings shall be such as to minimize the possibility of arcs striking to the casings, or if space is limited, the casings shall be lined with adequate insulation. This requirement applies especially to switches and controllers.

(b) Phenolic and other insulating materials that give off highly explosive gases when decomposed electrically should not be placed within explosion-proof enclosures where they might be subjected to destructive electrical action.

§ 18.20 *Portable cables.* (a) Every machine operated from an external source of power shall have a portable cable of adequate length and current-carrying capacity. The length shall not exceed 500 feet. This cable shall have an outer sheath of rubber or equivalent material that is highly resistant to pulling apart, abrasion, moisture, and flame. The cable shall meet the flame-resistance test outlined in § 18.30. The conductors shall have high-grade insulation of rubber or its equivalent. The use of colored insulation or other suitable markers is recommended for identifying individual conductors to facilitate proper connections and splicing according to polarity. The number of conductors in the portable cable should be kept to the minimum necessary for feasible operation of the machine. The portable cable for locomotives and track-mounted equipment shall contain not less than two power conductors. The size of power conductors in portable cable shall not be smaller than No. 14.

(b) Suitable provisions shall be made to facilitate disconnection of portable cable quickly and conveniently for replacement.

(c) Portable cables shall be sectionalized only with approved devices: *Provided, however,* That sectionalizing connectors used outby the last open crosscut need not be approved.

(d) The portable cable shall be held firmly by means of an adequate insulated clamp or by other equally suitable means for eliminating strain upon the terminal connections. The cable entrance and fastenings shall be so designed and arranged as to prevent short bends in the cable and mechanical injury to its insulation. These requirements are of particular importance in connection with drills and equipment employing cables with conductors smaller in size than No. 6. If the speed and conditions of operation are likely to cause jerking on cables, the Bureau reserves the right to require means for relieving the stress on the cables.

(e) When a portable cable has conductors smaller than No. 6 and the conductors are separated to make connection to a power supply, a rubber-sheathed or equivalent single-conductor cable of not less than No. 6 gage shall be spliced to each conductor of the portable cable at the point of separation. The splice should be adequate both electrically and mechanically. It is recommended that such splices be vulcanized.

(f) Portable cables shall have adequate mechanical strength to resist pulling apart in service. The conductor size for shuttle car and locomotive service shall not be less than No. 4 A. W. G.

§ 18.21 *Connections to power source.* (a) The free ends of portable cables shall be provided with means of attaching the cables to the power circuit without personal hazard. Attachments used for this purpose shall be completely specified; also, the rating of the overcurrent device shall be specified. The capacity of the overcurrent device shall not exceed that necessary to prevent destructive heating of the cable. Rail clamps for attachment of power conductors shall not be used for other connections.

(b) A rolling or sliding contact that will permit "tramming" without holding the connection in the hand may be used. Such contact must not be arranged for any purpose other than tramming.

§ 18.22 *Cable reels.* (a) Self-propelled machines designed to travel at speeds exceeding 2½ miles per hour shall have a suitable mechanically or electrically driven reel upon which to wind the portable cable. The Bureau reserves the right to require such cable reels for speeds under 2½ miles per hour if the service imposed upon the portable cable is judged to be unduly severe. The construction of the housing for moving contacts or slip rings shall conform to the requirements for Class 1 parts.

(b) The Bureau also reserves the right to require hand-operated reels or suitable "horns" upon which to wind the portable cable for machines that are not self-propelled. When it is not practical to mount such reels or horns on the machines, the Bureau may grant the option of mounting them on separate trucks or skids.

(c) When cable reel bearing or slip rings are in the circuit, the voltage drop at full load current through these parts shall not be greater than that of the circuit conductor.

(d) Cable reels and cable-spooling devices shall be insulated to keep the portable cable from resting against grounded metal parts. Insulating materials used for this purpose shall be flame-resisting.

(e) Cable reels for shuttle cars and locomotives shall maintain positive tension on the portable cable during both reeling and unreeling. This tension shall not be greater than necessary to insure that the car or locomotive cannot run over its own cable.

(f) The design of bearings for cable guides, particularly on locomotives and shuttle cars, shall be such that dirt picked up by the cables will not prevent free rotation of the rollers. The diameter of cable sheaves shall not be smaller than 12 times the diameter of the cable. For flat twin cables, the sheave diameter shall be based on the major diameter of the cable.

(g) Self-propelled machines receiving their power through portable cables shall not have traveling speeds rated in excess of 6 miles per hour.

§ 18.23 *Field assembly of certified components.* Components such as motors, controllers, rheostats, etc., bearing the certification plates of the Bureau may be assembled by a mine operator, builder, or assembler. Each such complete assembly shall be considered by the Bureau as permissible equipment only after a qualified representative of the Bureau inspects the assembly and determines that the components are assembled, wired, and protected in conformance with the applicable requirements of §§ 18.13 to 18.22, inclusive of this part and an approval plate, label, or device supplied by the Bureau has been attached as authorized in writing by the Bureau.

§ 18.24 *Detailed requirements for Class 1 parts*—(a) *Enclosure casings*—(1) *Materials and construction.* (1) The casings forming the enclosure for Class 1 parts shall be of suitable material, adequate strength, and especially durable, in order that, with proper care and maintenance, the explosion-proof qualities of the parts will remain unimpaired not only when subjected to pressures developed during the explosion tests but also under the severe conditions imposed by mining service. Sheet metal used for walls and covers in fabricating explosion-proof casings shall be of sufficient thickness, unless adequately reinforced with ribs or their equivalent, to prevent permanent distortion by explosion tests. Material of less than 3/16-inch thickness is not recommended. When welding is employed to join pieces forming walls of explosion-proof casings, the joints shall be continuously and effectively welded. Joints that are machined after welding shall be reinforced to compensate for any weakening caused by such machining.

(ii) Casings may be either of the totally enclosed type in which no provision is made for ventilation of the interior or else of the type having provision for ventilation or relief of pressure from internal explosions. Totally enclosed construction, however, is recommended by the Bureau. Complicated casings and fabricated housings shall be pressure-tested at the factory to reveal blowholes and other weaknesses, if, in the judgment of the Bureau engineers, inspection is inadequate to determine those weaknesses.

(iii) If provision is not made for pressure relief through special devices, the casing will need to be strong enough to withstand explosion pressures approaching 100 pounds per square inch with an adequate factor of safety. However, if a casing communicates with another through a small passage or is itself divided by a partition the effect of "pressure-piling" may be produced, and pressures considerably in excess of 100 pounds per square inch may be anticipated.

(2) *Joints and machining tolerances.* (i) When an explosion-proof enclosure consists of two or more metal parts held

together by bolts or other suitable means, the flanges comprising the joints between parts shall have surfaces making metal-to-metal contact. Glass-to-metal joints are permitted in casings, such as those for headlights and meters. Gaskets, if adequate, may be used to obtain a firm seat for the glass, but not elsewhere. Rubber, putty, and plaster of paris are not acceptable as gasket materials.

(ii) The surfaces comprising a flange joint need not be all in one plane. For enclosures having a volume of more than 60 cubic inches, the total width of joint measured along the shortest path from inside to outside of the enclosure shall not be less than 1 inch, except as follows: A rabbet joint having a total width of ¾ inch may be accepted if neither the cylindrical nor the plane fit is less than ⅛ inch wide. If the volume is 60 cubic inches or less, a minimum width of ¾ inch may be accepted for plane joints, but a 1-inch width of plane or rabbet joint is recommended. The diametrical clearance for cylindrical fits in rabbet joints shall not exceed 0.004 inch if the plane fit is less than ¼ inch wide. If the plane fit is ¼ inch or more in width, the diametrical clearance for cylindrical fits shall not exceed 0.008 inch. The edge of a rolled-steel plate forming part of an explosion-proof enclosure may be used as a plane flange, provided the width does not fall short of the previously specified flange widths by more than 1/64 inch.

(iii) The width of blowholes in joint surfaces will be deducted in measuring flange widths. Diameters of holes for bolts or screws required to maintain tight joints will also be deducted in such measurements only: (*a*) If excessive clearance is allowed for the bolt in its hole; (*b*) if the nominal diameter of the bolt hole is more than half of the required metal-to-metal contact. It is recommended that bolt and screw holes be located so that the shortest distance along the joint from the interior of the enclosure to the edge of the hole is not less than 7/16 inch. However, less than ¼ inch will not be accepted for 1-inch joints or less than 7/16 inch for joints under 1 inch. (Exception may be made for narrow interpoles, in which case the distance from the edge of the pole piece to the bolt hole in the motor frame shall be not less than ⅛ inch and the diametrical clearance for the bolt shall not exceed 1/64 inch for not less than ½ inch. Furthermore, the pole piece shall seat against the frame surface.)

(iv) Bolts and screws shall be close-fitting in holes that cut through joint surfaces. If the edge of a bolt or screw hole is less than 7/16 inch from the interior of the enclosure, the diametrical clearance around the bolt or screw shall not exceed 1/32 inch, and this clearance shall be maintained for at least ½ inch as measured from the joint. (When ½-inch rolled-steel plate is used for covers, a finished thickness of not less than 7/16 inch may be accepted as meeting this requirement.)

(v) When the flanges of a joint cannot be brought into actual contact with each other, owing to warping or faulty machining of parts or necessity for sliding fits, the requirement for metal-to-metal contact will be construed as having been met for plane flanges under the following conditions:

1. The separation must not exceed 0.004 inch at any point.
2. The 0.004-inch separation must not extend over 6 inches along the joint.
3. The joint must not permit discharge of flame during explosion tests.

(vi) When it is necessary in manufacture to provide for a running fit between cylindrical surfaces other than for shafts, a shoulder shall be included in the design to provide a change in direction through the flame path between the parts. In the joints of this type, the diametrical clearance between cylindrical surfaces shall be kept as small as feasible, but in no case shall it exceed 0.01 inch. The length of cylindrical fit shall be at least 1 inch for volumes over 60 cubic inches and at least ¾ inch for volumes of 60 cubic inches or less.

(vii) Laminated motor frames having end rings assembled as an integral part under high pressure may be considered with less width of contact between the end rings and laminations than that specified in the preceding paragraphs. It is recommended that the metal-to-metal contact be kept as near the 1-inch standard as practical, but less than ¼ inch will not be accepted. If less than the 1-inch standard width is used for joints of this type, the construction must permanently preclude any separation between the end rings and laminations, and if a 0.0015-inch-thickness gage can be inserted ⅛ inch at any point, the construction will be considered unsatisfactory. The joint should not tend to open under explosion pressure.

(3) *Bolts and similar fastenings.* (i) Bolts and similar means of clamping flange joints together shall be generously proportioned to minimize stripping of threads and give adequate strength. Soft metals should not be tapped for bolts and screws if the threads can be stripped or damaged easily. Clamping bolts and screws should be at least ¼ inch in diameter and preferably not less than ½ inch. The Bureau reserves the right to prohibit the use of clamping bolts and screws for purposes in addition to that of fastening parts of the enclosure together.

(ii) Unless the design permits especially rigid construction between bolts, spacings greater than 6 inches are not recommended for flange joints.

(iii) All bolts, nuts, and screws used in fastening flange joints, as well as those in holes through enclosure walls for holding parts, such as pole pieces, brush rigging, and bearing caps, shall be provided with lock washers or other suitable means to prevent loosening. The length of threads in bottomed holes and on bolts, screws, and studs shall be such that the joint can be made tight even though lock washers are omitted. Where feasible, bolts of unequal lengths should be avoided to prevent mistakes in assembly.

(4) *Through holes for bolts, screws, and rivets.* (i) Through holes into explosion-proof casings shall be kept to a minimum. Holes for bolts, screws, etc. shall be "blind" or bottomed if the omission of a bolt or screw would leave an unprotected opening into the casing. If unavoidable, holes may be made through casings for bolts, studs, or screws that are necessary to hold essential parts, such as pole pieces and brush rigging, provided the bolts, etc., have an adequate long close fit through the casing and provided at least two bolts, studs, or screws are used for each part held. In addition, one of the following optional conditions shall apply: (*a*) Each hole must be bottomed in the part held and adequate metal-to-metal contact provided between the part and the casing to insure an effective internal seat around the hole if the bolt or screw is omitted or lost, or (*b*) if studs are used, they must be permanently fastened in the part held, or (*c*) bolts passing entirely through pole pieces must be arranged so that they cannot be removed without removal of the armature, or (*d*) special nonremovable bolts must be adequate for the intended purpose.

(ii) Holes shall not be drilled through walls of explosion-proof casings for screws holding name plates or approval plates.

(5) *Inspection openings and covers.* The number of openings in explosion-proof enclosures shall not exceed the minimum required for proper assembly and inspection of parts. Openings, such as those necessary for inspection of motor commutator and brushes, are permitted if suitable covers are provided. These covers must have the width of flange joint previously specified or a threaded joint with sufficient threads to give the required width of surface in contact. Screw covers and those held by special clamps and screws must be secured against unauthorized opening by means of a lock or a nonrusting wire and seal. Where the seal wire alone is of insufficient mechanical strength, an additional fastening such as a set screw or a pin should be used. The distance between two holes through which the seal wire is threaded shall be made as short as feasible.

(6) *Bearings and shaft clearances.* Armature, controller, switch, and other shafts or rods carried through walls of explosion-proof enclosures do not require stuffing boxes, but to prevent discharge of flame the path shall be made up of metal parts having lengths and clearances as follows:

(i) For plain journaled bearings, the diametrical clearance between the shaft and bearing shall not exceed 0.01 inch to provide for a running fit, and this running fit shall not be less than 1 inch for enclosures having a volume more than 60 cubic inches or less than ¾ inch long for an enclosure having an internal volume of 60 cubic inches or less.

(ii) Roller and ball bearings are not accepted as suitable barriers for stoppage of flames; therefore, a flame path shall be provided between a shaft and the parts of bearing housings which shall not be less than 1 inch long for enclosures of more than 60 cubic inches volume. If the volume is 60 cubic inches or less, this part of the flame path may be reduced to ¾ inch. In either case the diametrical clearance shall not be greater than 0.03 inch at any point in the ¾- or the 1-inch path, and shall not permit discharge of flame.

(iii) Oil grooves in bearings and felt rings, oil grooves, or grease seals in bearing housings are not to be included in the measurement of the length of running fit along a shaft. Such grooves are allowed if not of sufficient volume to reduce the effectiveness of the path. Openings made for filling and draining bearings shall be outside of the required length of path. A removable outer bearing cap is not considered part of the required length of fit, unless the cap is essential to hold the bearing in place.

(iv) Labyrinths or other special arrangements may be accepted if they provide equivalent lengths and clearances and are made up of rugged parts not likely to be readily omitted.

(v) If large-diameter bearings are used, reduced clearances may be required. It is recommended that flame paths at bearings be of as small diameter as feasible.

(7) *Lead entrances.* (i) all electrical conductors that pass through the walls of explosion-proof enclosures shall be provided with adequate insulation and guards at the point of entrance to the enclosure in accordance with one or more of the following:

(*a*) If stuffing-box lead entrances are used, the packing material shall be untreated asbestos, such as woven valve-stem packing, and it shall be not less than 3/16 inch in diameter. The size and kind shall be specified on the drawings or bills of material. The amount of packing material in each stuffing box shall be such that when compressed, it will completely surround the wire or cable for not less than ½ inch measured along the wire or cable.

(*b*) The stuffing-box design and the amount of packing used shall be such that, with the packing properly compressed, the gland still has a clearance distance of ⅛ inch or more to travel without meeting interference by parts other than packing. The glands shall be secured against loosening. The use of insulating bushings in stuffing boxes is recommended, especially for voltages that exceed 250. When an outer braid insulation covering is used on wires and cables passing through stuffing boxes, it should be made of asbestos or slow-burning material.

(*c*) The width of space for packing material shall not exceed the diameter or width of the uncompressed material by more than 50 percent. At other points small clearances shall be maintained between the stuffing-box parts and the cables or wires passing through them. A diametrical clearance greater than 1/16 inch will not be accepted if the size of packing material used is smaller than ¼ inch square or round, nominal. If the size of packing material is ¼ inch or larger square or round, a diametrical clearance not greater than 3/16 inch will be accepted.

(*d*) To minimize deviation from acceptable clearances in stuffing boxes, the portable cables used in them shall conform to the standardized dimensions given in the tables which follow:

4/0	1.89	±.04	1.10	±.03	2.10	±.04	1.10	±.03

(*e*) Corners shall be well-rounded at all points where cables and wires emerge from bushings, glands, and stuffing boxes to prevent cutting of insulation. Stuffing boxes, if not made integral with enclosures, shall be securely held to enclosures on which they are used.

(*f*) Stuffing boxes and the fittings connected to them shall be so placed or guarded that they are not likely to be damaged in derailments and other accidents.

(ii) If insulated studs are used, they shall be designed and spaced to minimize the possibility of electrical creepage to parts of opposite polarity or to the casing. Terminal lugs shall be keyed to their studs or shielded by insulating barriers so that they cannot come into contact with each other or with any metal not of the same potential or polarity. Adequate means shall be provided to prevent loosening of the studs and lugs by vibration or by expansion and contraction. External electrical connections shall not be held by the same means that are used to fasten the studs. Special attention shall be given to the shielding of external stud connections so that they cannot be short-circuited or grounded by accidental or careless contact or by water when the machine is properly assembled. The width of contact between the compartment wall and the insulating mterials shall be not less than 1 inch total for volumes of 60 cubic inches or over ¾ inch for volumes less than 60 cubic inches.

(iii) If wires and cables are taken through openings closed with sealing compounds, the design of the opening and characteristics of the compounds shall be such as to hold the sealing material in place without tendency of the material to crack or flow out of its place. The material also must withstand explosion tests without cracking or loosening.

(iv) Tubes, bushings, or their equivalent shall not be used alone to take wires and cables through walls and partitions of explosion-proof enclosures unless both ends of each wire and cable opening are wholly within such enclosures. The length of each opening and the clearance around the wire or wires in it should be such as to prevent pressure-piling if flame passes through it. (In general, a diametrical clearance of 1/16 inch should not be exceeded for single cables in such openings.) Bushings and tubes shall be secured against loosening and preferably should be of incombustible material.

(v) Leads or conductors between separate compartments may be carried in pipes or in passageways in casings if sufficiently sealed or filled with conductors to prevent propagation of flames.

(8) *Special devices for pressure relief, drainage, or ventilation.* Special devices incorporated in the design of explosion-proof casings for the purpose of (i) preventing the development of high pressures from internal explosion, (ii) providing for drainage of oil or water, or (iii) obtaining a degree of ventilation, shall be capable of repeatedly performing their functions without allowing the passage of flame through them. While in place they shall be guarded to prevent mechanical injury and the entrance of foreign material that might interfere with or destroy their proper functioning. They shall also be strong mechanically so that, with reasonable care in handling, they may be cleaned and inspected without impairing their effectiveness. All special devices shall be securely fastened in place. They shall be made of nonrusting materials.

(b) *Special requirements for Class 1 parts*—(1) *Temperature limitations.* Accessories, such as rheostats, headlights, and clutches, shall be so designed and proportioned that the temperatures of the external surfaces of their enclosures does not exceed 200° C. at any point during normal operation.

(2) *Motors.* The construction of motor bearings shall be such as to prevent the escape of flame during explosion tests with outer bearing caps removed, unless the caps are essential to hold the bearing in place. If the outer caps are essential, their construction shall comply with that required for Class 1 parts. The use of glass-covered peepholes for motors is not recommended.

(3) *Rheostats.* Particular attention shall be given to the choice of insulation for conductors used both inside and outside of rheostats and to the type of lead entrance to prevent grounds and short circuits that might result from deterioration due to heat.

(4) *Meters.* The transparent material in meter enclosures shall not be less than 1/2 inch thick, have suitable qualities, and shall be shielded by position or have a guard to prevent damage to it. Meters on storage-battery operated equipment shall be insulated from the explosion-proof casings in which they are enclosed.

(5) *Headlights.* Headlights shall be mounted in protected positions where they are not likely to be damaged by passing objects. The glass in headlights shall not be less than 1/2 inch thick and shall be guarded to prevent damage to it.

(6) *Push buttons and push-button stations.* (i) Push rods passing through walls of explosion-proof casings shall not be less than 1/4 inch in diameter. They shall have a shoulder, head, or equivalent at the inside to prevent accidental loss or removal from the outside. Snap rings, cotter pins, or parts held by them are not acceptable as means of preventing this loss or removal.

(ii) The diametrical clearance between the push rod and its hole shall not exceed 0.01 inch to provide for sliding fit, and this sliding fit shall not be less than 1 inch for enclosures having more than 60 cubic inches volume, or less than 3/4 inch long for an enclosure having an internal volume of 60 cubic inches or less. In either case, the required length of sliding fit shall not be decreased when the button is depressed.

(iii) When it is important that accidental operation of push buttons be prevented, the Bureau reserves the right to require suitable guards or shields for the protection of the external ends of push buttons.

(7) *Junction boxes.* (i) Junction boxes shall be provided with a connection plug or plugs as follows: (*a*) Arranged and interlocked to prevent connection or disconnection of a portable cable while the contacts in the plug receptacles are alive or (*b*) capable of opening and closing the circuit under load, if necessary, without injury to themselves or to any part of the box, hazard to persons, or danger of causing an ignition of methane or coal dust. If the design does not prevent making contacts in a plug socket alive when the plug is out, the contacts shall be arranged to prevent ready access to them. When single-pole plugs are used, the design shall prevent energizing the circuit unless all the plugs are in place.

(ii) Circuit breakers or other automatic circuit-interrupting devices of adequate capacity shall be incorporated in the design of junction boxes. Such devices shall comply with the requirements for renewal, resetting, and functioning as specified in § 18.14.

(iii) Junction boxes shall be provided with a suitable clamp or clamps that will prevent strains being imposed upon the cable connections in the plug or plugs.

(iv) The rating and service for which it is intended shall be marked plainly upon each junction box.

(v) The type of enclosure required for junction boxes shall be governed by the class of parts to which it belongs.

(8) *Distribution boxes.* (i) Distribution boxes, when mounted on skids or their equivalent to facilitate movement from place to place, shall be sufficiently elevated and shall be stable.

(ii) The requirements for junction boxes shall also apply to distribution boxes having plugs for connection of branch circuits. In addition, the following requirements must be met:

(iii) Boxes having provision for more than one branch circuit shall have a cap or dummy plug locked in place to close each socket or receptacle if interlocking features do not prevent energizing of contacts in the socket with the regular plug removed. A chain or other suitable means shall be provided to prevent loss of the cap or plug. Such caps or dummy plugs may be omitted if the sockets are arranged to prevent ready access to the contacts within.

(iv) Each branch circuit shall be plainly and permanently marked to show the maximum current that can be taken from it, and plugs that are not of identical rating shall be polarized or otherwise arranged to prevent inserting them in the wrong socket.

(v) In addition to circuit contacts, each plug and socket shall contain contacts by means of which the frames of machines served by the distribution box can be grounded to the box. The plug and socket design shall be such that the grounding connection is completed before the circuit contacts are energized, or else the length of the grounding contacts shall be such that the grounding connection is made before the other connections are made and broken after the other connections are broken. (See also § 18.18.)

(vi) For distribution boxes not using plugs for connection of branch circuits, the requirements for junction boxes shall apply, except as follows:

(*a*) Connection for branch circuits may be made by means of bolted or equivalent connections, provided the connections are adequately insulated and securely held.

(*b*) The enclosure for the branch connections shall have a cover interlocked with the circuit-opening device to prevent access to the branch connections while they are alive.

(*c*) Each branch circuit shall be plainly marked to show the maximum current that can be taken from it.

(*d*) Insulated clamps shall be provided for each cable to prevent strains on the connections.

(9) *Splice boxes.* Splice boxes shall have explosion-proof enclosures with locked or sealed covers. Internal connections shall be rigidly held and adequately insulated.

(10) *Terminal boxes.* (i) When wires and cables are brought out of an explosion-proof casing into a terminal box by any method other than one of the first three methods described in paragraph (a) (7) of this section, the terminal box must be of explosion-proof construction. For this construction, the wires must be closely fitted in the opening between the casing and the terminal box in a manner adequate to inhibit flame propagation resulting in pressure-piling, or else the opening between them must be large enough to prevent pressure-piling. A short piece of metal tube or rigid conduit permanently secured to both may be used between the casing and terminal box when necessary.

(ii) The terminal box also must comply with all the requirements for Class 1 compartments, and the lead entrance for the external connections shall comply with the requirements for one of the first three methods described in paragraph (a) (7) of this section. Flamepath joints having a minimum width of 1/2 inch will be accepted as an option in the construction of an explosion-proof terminal or conduit box on squirrel-cage induction motors provided the leads are adequately sealed in the motor and the connections in the box are adequately insulated and securely held.

(11) *Longwall mining machines.* (i) Longwall mining machines should be equipped with a switch to open all power conductors; also with circuit breakers or other automatic circuit-interrupting devices at the machine. When it is not feasible to incorporate such switch and current-interrupting devices in the design of the machine, the controller on the machine shall be capable of opening all power conductors entering it; in addition, a junction box or a distribution box containing a suitable switch and circuit-interrupting device shall be used for connecting the machine to the power circuit.

(ii) In the above arrangement, the machine frame shall be connected to the enclosure for the automatic circuit-interrupting device by a separate conductor in the portable cable.

(iii) The use of cable reels with longwall mining machines is not required.

§ 18.25 *Special requirements for class 2 parts*—(a) *Battery boxes and batteries.* (1) Battery boxes shall be made of material equivalent in strength to sheet steel not less than 3/16 inch in thickness or of wood reinforced with steel and shall have a substantial cover or covers lined with insulation of adequate strength, quality, and dimensions. The cover or covers shall be provided with suitable means for locking them in the closed position to prevent opening by unauthorized persons.

(2) Battery boxes shall be provided with means of ample ventilation to prevent accumulation of explosive hydrogen-air mixtures above the battery. Ventilating openings shall be guarded to prevent access to the cell terminals from the outside.

(3) The battery cells shall be insulated from the battery box in an adequate manner. For cells in metal containers mounted in "open"-type trays, a lining of wood or equally suitable insulation shall be provided for the bottom of the battery box. All wood and other insulating linings shall be treated or painted with suitable material to resist destruction by battery electrolyte.

(4) The number, type, rating, and manufacturer of the cells comprising the battery shall be specified.

(5) A diagram showing the connections between cells and between trays shall be submitted. The connections shall be such that the maximum total battery potential will not be placed between any two adjacent cells.

(b) *Plugs and receptacles.* (1) The "running" plug for locomotives and similar storage-battery-operated equipment shall be interlocked with a switch so that the plug can neither be inserted nor withdrawn while the receptacle contacts are alive, or it shall be locked in its receptacle to prevent removal by unauthorized persons. If not interlocked, the plug shall be held in place by means of a threaded ring or other suitable mechanical fastening in addition to the lock.

(2) On locomotives and other mobile storage-battery-operated equipment, receptacles used for charging purposes only shall be provided with a cover or dummy plug that is to be locked in place when the battery is not being charged to prevent access to live terminals while the equipment is in operation.

(3) A plug that is used for connecting the portable cable of one permissible machine to a circuit on another permissible machine shall be interlocked so that the plug can neither be inserted nor withdrawn while the plug or receptacle contacts are alive. If the interlock does not prevent making the receptacle contacts alive when a plug is out, the contacts shall be protected by a cap or cover to be locked in place when the plug is out, or the contacts shall be arranged to prevent ready access to them. A chain or its equivalent shall be provided to prevent loss of the cover. The circuit served by the plug shall be protected by automatic circuit-interrupting devices as specified in § 18.14.

(4) When the portable cable for a machine is arranged to be connected and disconnected from it by means of a plug, the plug shall be interlocked or constructed so that it can be inserted and withdrawn without creating the hazard of igniting gas or dust. In addition, the plug shall be kept locked in its receptacle to prevent removal by unauthorized persons. The contacts in the plug shall be adequately shielded or recessed in it to prevent accidental grounds or short circuits while the plug is out of its receptacle.

(5) When single-pole plugs are used for the individual conductors of a cable or circuit, the design shall prevent energizing the circuit unless all the plugs of the circuits are in place.

(6) Every plug shall have a suitable holding device or clamp to prevent any strains coming on the plug while it is in its receptacle, unless the interlock is of adequate strength to hold the plug securely in place. In either case, the design of the plug shall include an insulated clamp for holding the cable to prevent strains on the connections in the plug.

§ 18.26 *Detailed inspection.* (a) In the investigation of any equipment, explosion-proof casings shall be given a careful inspection by the Bureau's engineers. This inspection shall include the following items:

(1) A detailed check of parts against drawings as to materials, dimensions, and position, making notations for necessary correction of discrepancies between the drawings and the parts checked.

(2) Measurement of joints, bearings, and other possible flame paths.

(3) Examination for unnecessary through holes.

(4) Examination for adequacy of lead-entrance design and construction.

(5) Examination for adequacy of electrical clearances or insulation between live parts of opposite polarity and between live parts and ground.

(6) Examination for adequacy and security of fastenings.

(b) For further information regarding the details of this inspection, reference should be made to Information Circular 7689, Inspection and Testing of Mine-Type Electrical Equipment for Permissibility.

§ 18.27 *Explosion tests.* (a) To test enclosures for their ability to retain flame, they will be filled and surrounded with explosive mixtures containing varying percentages of Pittsburgh natural gas[5] and air. The mixture within the enclosures will be ignited by a spark-plug or other suitable means, and a record of explosion pressures developed will be taken. The point of ignition will be varied to determine the condition that gives the greatest pressure. For some of the tests, bituminous-coal dust will be introduced into enclosures, and the effects will be noted. Motor armatures and rotors will be stationary in some tests and revolving in others. Dummies may be used in place of contactors or similar parts during test under certain conditions.

(b) Not less than 10 tests will be made of each design of explosion-proof enclosure.[6] If, on account of the size of enclosure or questionable construction features, it is the judgment of the Bureau's engineers that the explosion-proof qualities cannot be completely demonstrated in 10 tests, more than that number will be made.

(c) The explosion tests of an enclosure shall not result in (1) discharge of flame from any joint, bearing, or opening, (2) ignition of surrounding explosive mixtures, (3) development of dangerous after-burning,[7] or (4) rupture or permanent distortion of the enclosure. An enclosure will be rejected if any one of the foregoing conditions occurs, or if abnormal pressures are developed or potentially hazardous conditions are exhibited by the tests.

§ 18.28 *Adequacy tests.* In addition to explosion tests, certain other tests may be made at the option of the Bureau's

[5] Investigation has shown that, for practical purposes, Pittsburgh natural gas (containing a high percentage of methane) is a satisfactory substitute for pure methane in these tests.

[6] If the internal air space of a squirrel-cage induction motor is not changed by more than 20 percent of that of a previously tested motor, it may be accepted without further inspection or explosion test, provided the motor of greater (or less) internal volume has the same frame diameter and the same length and clearance at the flame path of all joints and bearings as those of the previously tested motor.

[7] The term "afterburning" as used in this part 18 is applied to combustion, immediately after an internal explosion, of a gaseous mixture that was not in the enclosure at the time of that explosion but was drawn in as the result of the cooling of the products of the original explosion or otherwise.

engineers, such as tests to determine the adequacy of an accessory for the service intended:

(a) Where the durability of battery cells, headlights, or other parts is in doubt, such mechanical tests as are deemed necessary may be made to determine points requiring strengthening.

(b) If there is any question on the efficacy of ventilation of battery boxes, tests may be made to check the ventilation.

(c) Switches and devices serving as switches shall be capable of interrupting any overload currents that the automatic circuit protective devices will permit to flow. They also shall be capable of opening these overloads five times at 2-minute intervals without grounding or short circuiting, and tests may be made to determine their ability to meet these requirements.

(d) Circuit breakers or other automatic circuit-interrupting devices may be tested to determine whether they provide the necessary protection without damaging the explosion-proof qualities of their enclosures.

§ 18.29 *Portable cable damage resistance test.* (a) The test in paragraph (b) of this section has been established for determining the durability of portable cables for use with permissible equipment, and cables that pass this test will be listed for this service.

(b) The cable will be placed across the two rails of a track and a four-wheeled car of 7 tons gross weight will be run over it 50 times. The speed of the car shall be approximately 3½ miles per hour, and potential shall be applied to the cable during tests. The cable will be shifted after each passage of the car, thus giving 100 places in the cable over which two wheels have passed. If the cable fails by short-circuiting or grounding to the rails or wheels at 11 or more places, it will not be listed by the Bureau.

§ 18.30 *Portable cable flame resistance test.* The following test has been established for determining the flame-resistant properties of portable cables:

(a) A straight sample of the cable 3 feet long shall be mounted horizontally in a ventilated test chamber so that the sample will not be in the direct path of entering air currents. The sample shall be heated electrically until the conductor temperature is 400° F., using a current that is 500 percent of the following conductor ratings.

TABLE 3—NORMAL CURRENT RATING—AMPERES PER CONDUCTOR

Cables, conductor size	Single conductor	2-conductor			3-conductor	4-conductor	5-conductor	6-conductor
		Flat	Concentric	Round				
8	45	40	----------	40	35	30	25	20
6	60	50	50	50	50	40	35	30
4	85	70	65	70	65	55	45	35
3	95	80	75	80	75	65	55	45
2	110	95	90	95	90	75	65	55
1	130	110	100	110	100	85	75	65
1/0	150	130	120	130	120	100	90	80
2/0	175	150	135	150	135	115	105	95
3/0	205	175	160	175	155	130	120	110
4/0	235	200	180	200	180	150	140	130

Cables, conductor size (circular mils)	Single conductor	2-conductor			3-conductor	4-conductor	5-conductor	6-conductor
		Flat	Concentric	Round				
250,000	275	220	----------	220	200	160	----------	----------
300,000	305	240	----------	240	220	175	----------	----------
350,000	345	260	----------	260	235	190	----------	----------
400,000	375	280	----------	280	250	200	----------	----------
450,000	400	300	----------	300	270	215	----------	----------
500,000	425	320	----------	320	290	230	----------	----------

Cords	1-3 conductor	4-6 conductor	7-9 conductor
No. 14	15	12	8
No. 12	20	16	11
No. 10	25	20	14

(b) When the conductor temperature has reached 400° F., the flame of a Tirrill gas burner adjusted to give an overall free flame height of 5 inches and a 3-inch inner cone shall be applied directly underneath the sample at a point 14 inches from its extreme left-hand end so that the tip of the inner cone touches the bottom surface of the sample.

(c) At the end of 1 minute, the heating current and gas flame will be cut off simultaneously. The sample will be considered as having failed to pass the test if the length of the burned area exceeds 6 inches or if burning continues longer than 4 minutes after the gas flame has been cut off.

(d) For a complete official test, at least 3 samples of a given cable will be subjected to the foregoing test. If 2 out of the 3 samples pass this test, the cable will be accepted for listing as "flame resistant" and shall be suitably marked at intervals not exceeding 12 feet with an identifying number assigned by the Bureau of Mines.

§ 18.31 *Certification of electrical components.* Manufacturers of electrical components that are designed for use on permissible machines may request the Bureau of Mines to issue a letter certifying to the suitability of components for such use. In order to qualify for certification, electrical components shall have satisfactorily met the prescribed inspection and test requirements and the construction thereof shall be adequately covered by specifications officially recorded and filed at the Bureau. Certification letters may be cited to builders and assemblers of permissible equipment as evidence that further inspection and test of the components will not be required, provided they are constructed in strict accordance with specifications on file at the Bureau. Since the Bureau of Mines does not sanction the words "permissible" or "approved" except as applying to complete assembled equipment, no person shall advertise or label components in a manner purporting to indicate that such components are permissible or approved by the Bureau. However, certified components may be advertised as explosion-proof and suitable for use on permissible equipment upon receipt of certification letters from the Bureau. Certified components shall bear labels, which shall contain the following: "Explosion-proof Mine ------[a]— Built to Bureau of Mines Schedule -----; Bureau of Mines File No. X/P- ------." The Bureau will assign an identifying X/P file number in the certification letter. The Bureau reserves the right to rescind for cause, at any time, any certification granted under this section.

§ 18.32 *Final inspection.* (a) In addition to the detailed inspections and the tests, the Bureau reserves the right to inspect the machine as a whole at the close of the investigation to ascertain whether the assembly of motors, controllers, rheostats, and other parts in relation to each other has any unsafe features, special note being made of the position and guarding of wiring between these parts. The drawings and specifications also will be checked to see that they have been corrected to show all changes made in parts during the course of the investigation.

(b) Manufacturers shall notify the Bureau, at the Central Experiment Station, when the first of a given design of machine built for approval will be completed in order that a Bureau engineer may have an opportunity to examine it, when such examination is considered necessary. Examinations are preferably made at the factory, where cranes and other facilities make it possible to inspect a machine more thoroughly and quickly than elsewhere. Final inspections are made before approvals are granted.

§ 18.33 *Inspection and test reports.* Written reports giving the results of inspections and tests will be made to the manufacturer to keep him informed of the progress of the investigation of his equipment. These reports also will indicate whether or not any changes are required. They are not to be construed as giving approval to the equipment under consideration, or to any of its parts.

[a] This blank space will be filled in with a word designating the type of component, such as motor, starter, or headlight as the case may be.

§ 18.34 *Approvals*—(a) *Approval letter.* (1) After all tests, as well as detailed and final inspections, have been satisfactorily completed and suitable drawings and specifications have been placed on file, the manufacturer of the completed equipment will be given official notification by letter from the Bureau of Mines, stating that his equipment satisfied the conditions of this part and is approved as permissible for use in gassy and dusty mines. The letter will assign an approval number for reference and identification of the equipment approved. No informal, temporary, or verbal approvals will be granted.

(2) An official drawing list numbered to correspond to the approval number assigned will accompany each approval letter. This list will include the drawings and specifications covering the details of construction upon which the approval is based.

(3) The manufacturer shall not advertise his equipment as permissible or approved until he has received the formal notification of approval.

(b) *Approval plate.* (1) With the approval letter the manufacturer will receive a photograph of a design of approval plate. This plate shall bear the seal of the Bureau of Mines, United States Department of the Interior, a space for the approval number, the type, the serial number, and the name of the class of equipment to which the equipment belongs, and the name of the manufacturer. When necessary, an appropriate statement giving the precautions to be observed in maintaining the equipment in an approved condition shall be added.

(2) Copies of a "caution statement" satisfactory to the Bureau are to be furnished with each machine in a form that will readily draw the attention of the proper persons. This information should be placed in the repair parts book, the instruction envelope, the wiring diagram, or in other material which electricians and maintenance men refer to frequently.

(3) The manufacturer himself shall have this design reproduced either as a separate plate or by stamping or molding it in some suitable place on each permissible machine. The size, method of attaching, and location of the approval plate shall be satisfactory to the Bureau, and a sample of the plate adopted shall be sent to the Bureau at the Central Experiment Station. The method of attaching the plate shall not impair the explosion-proof features of any enclosure.

(c) *Purpose and significance of approval plate.* (1) The approval plate is a label which identifies the equipment so that anyone can tell at a glance whether or not that equipment is of permissible type. This plate is the manufacturer's guarantee that his equipment complies with the requirements of the Bureau of Mines for use in gassy and dusty mines. Without a plate, an approved machine loses its permissible status.

(2) The use of the approval plate on his equipment obligates the manufacturer to maintain the quality of his product and to see that each permissible machine is constructed according to the drawings and specifications accepted and recorded by the Bureau. Equipment having changes in design which do not have official authorization from the Bureau is not permissible and therefore must not bear an approval plate.

(d) *Withdrawal of approval.* The Bureau reserves the right to rescind for cause, at any time, any approval granted under the regulations in this part.

§ 18.35 *Changes in design after approval.* Every approval is granted with the understanding that all equipment built under that approval will be in exact accordance with drawings and specifications that have been examined and recorded by the Bureau in the approval. Therefore, when a manufacturer desires to make any change in the design of his approved equipment, he shall first obtain the Bureau's authorization of the change. The procedure is as follows:

(a) The manufacturer shall make application by letter for an extension of his original approval and shall describe the change or changes proposed. This application in duplicate, accompanied by a check, bank draft, or money order, payable to the Bureau of Mines, to cover all the necessary fees, shall be sent to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, together with revised drawings and specifications showing the changed design in detail. The Bureau will, upon inquiry by the applicant, advise him as to the amount of fees he should submit.

(b) The Bureau will consider the application and examine the drawings, and specifications to determine whether they are sufficiently detailed for the Bureau's records and whether it will be necessary to have the modified part submitted for tests. (In general, changes increasing the air space more than 10 percent, modification of joints and bearings, or use of a different material for explosion-proof enclosures will make explosion tests of the modified enclosure necessary. Adequacy tests also may be necessary if changes such as reduction in electrical clearance and insulation are proposed.) If tests are deemed to be necessary, the applicant will be informed of the parts that will be required.

(c) When the modification has been found to comply with the requirements of the regulations in this part, both as to construction and drawings, formal authorization, known as an extension of approval, allowing the modification will be issued in the form of a letter by the Bureau of Mines. This letter will be accompanied by a list of new and corrected drawings to be added to the official drawing list.

(d) Revisions in drawings or specifications which do not involve actual change in the explosion-proof features of equipment may be handled informally by the Central Experiment Station at Pittsburgh.

§ 18.36 *Acceptance of changes made in the field on permissible equipment.* Changes made on permissible equipment by mine operators may be accepted in writing by the Bureau: *Provided,* Such changes conform to the applicable requirements of §§ 18.3 to 18.35: *And, provided further,* That in the judgment of a duly qualified representative of the Bureau of Mines, such changes do not increase the explosion or fire hazards involved in the operation of equipment so modified in gassy or dusty mines. A report on the modifications together with a copy of the acceptance letter shall be placed in the Bureau's official record for the permissible equipment affected.

§ 18.37 *Rebuilding and repairing of used equipment.* (a) A builder or assembler desiring to engage in rebuilding and repairing used equipment so that it will conform to the applicable requirements of §§ 18.13 to 18.22 shall make application by letter in duplicate to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, for permission to attach an approval plate on nonpermissible-type equipment that has been changed to permissible-type equipment and on permissible-type equipment that has been repaired and restored, both in conformance with §§ 18.13 to 18.22. The Bureau will grant such permission only after (1) the builder or assembler has changed or restored a piece of equipment and such equipment meets the permissibility requirements of this part as determined after inspection by a qualified representative of the Bureau of Mines and (2) if, in the opinion of the Bureau of Mines, the builder or assembler has adequate facilities to engage in such operations.

(b) Subsequent to the granting of such permission by the Bureau of Mines, the builder or assembler will be permitted to attach suitable approval plates, furnished by him, or other types and pieces of equipment that meet the applicable requirements of §§ 18.13 to 18.22 without further inspection by the Bureau of Mines. The Bureau of Mines may rescind for cause, at any time, any permission granted under this section.

SUBPART B—EXPERIMENTAL ELECTRIC FACE EQUIPMENT IN GASSY MINES

§ 18.50 *General.* This subpart is prescribed pursuant to and must be complied with in accordance with the requirements of the Federal Coal Mine Safety Act.

§ 18.51 *Permit.* As used in this subpart, a permit is a special, written certificate of authorization giving conditions under which a machine built or purchased for experimental purposes may be operated in a gassy mine. This permit will be issued only by the Director, Bureau of Mines.

§ 18.52 *Application for permit.* Before a permit can be issued, the purchaser or prospective user shall file a written application with the Director, Bureau of Mines, Washington 25, D. C., which application shall be accompanied by a check, money order, or bank draft payable to the United States Bureau of Mines to cover all the necessary fees. A copy of the application shall be sent to

the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, together with drawings or other satisfactory identification of the machine which it is proposed to be given trial.

§ 18.53 *Fees charged.* The schedule of fees under this subpart shall be the same as those set forth in § 18.3.

§ 18.54 *Drawings and specifications required.* Drawings, descriptive material, specifications, or other suitable information establishing positive identification of the electrical components of an experimental machine shall be furnished to the Bureau before a permit covering trial installation will be issued. (An experimental machine is one intended for experimental use, including among other, one constructed at the mine, one imported from foreign manufacturers, or one developed for trial by an American manufacturer or inventor, etc.) Drawings already on file at the Bureau need not be duplicated by the applicant. Detailed drawings of parts comprising explosion-proof enclosures of imported electrical components will not be required, provided satisfactory proof is given that such enclosures comply with standards established by a testing authority recognized by the Bureau of Mines, to the extent that such standards are substantially equivalent to those set out in Subpart A of this part.

§ 18.55 *Constructional requirements.* (a) Electrical components whose classification calls for explosion-proof constructions shall meet the inspection and test requirements for such components set forth in Subpart A of this part.

(b) Components which have previously met the inspection and test requirements of the Bureau or of a testing authority recognized by the Bureau shall be deemed to meet the requirements of paragraph (a) of this section. The Bureau may, in its discretion, waive the requirements of paragraph (a) as to any other component.

§ 18.56 *Final inspection.* The applicant shall notify the Central Experiment Station, when an experimental machine is ready for trial installation so that a Bureau engineer may have an opportunity to examine it. Such examination shall be completed before a permit is issued.

§ 18.57 *Issuance of permit.* Upon compliance with the requirements of this subpart, the Director will issue a permit authorizing operation in a gassy mine of the machine covered by the application. Copies of the permit will be sent to the applicant, to the purchaser or user, and to the machine manufacturer or his agent or supplier. Each permit will be numbered and state the terms under which, and the time during which, the machine may be used.

§ 18.58 *Duration of permit.* The permit will be effective for a period of 6 months. Extension of the permit for an additional period not to exceed 6 months may be granted by letter from the Director upon application addressed to him and supported by a showing of satisfactory reason. Further extension will be granted only where, after investigation, the Director finds that, for reasons beyond the control of the mine operator, it has not been possible to complete the experiments within the period covered by the extended permit.

§ 18.59 *Permit label.* (a) With the permit letter, the applicant will receive a permit label which shall bear: (1) The seal of the Bureau of Mines, United States Department of the Interior, (2) the permit number, (3) the expiration date of the permit, and (4) the name of the applicant.

(b) The applicant shall have this label attached to the experimental equipment.

§ 18.60 *Withdrawal of permit.* The Director, Bureau of Mines, may rescind for cause, at any time, any permit granted under this subpart.

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

APRIL 18, 1955.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 922]

HANDLING OF VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1954-55 FISCAL YEAR

Consideration is being given to the following proposals submitted by the Valencia Orange Administrative Committee, established under Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof: (1) That the Secretary of Agriculture find that expenses not to exceed $138,230.40 will be necessarily incurred during the fiscal year November 1, 1954, through October 31, 1955, for the maintenance and functioning of the committee established under the aforesaid order, and (2) that the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles oranges shall pay during the fiscal year in accordance with the aforesaid order, the rate of assessment of $0.011 per box of oranges handled by such handler as the first handler thereof during such fiscal year.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

As used in this section, "handle," "handler," "oranges," "fiscal year" and "box" shall have the same meaning as is given to each such term in said order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 22, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

REGISTRATION OF BROKERS AND DEALERS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt certain procedural rules, designated as §§ 240.15b-9, 240.15al2-1 and 240.19a3-1 (Rules X-15B-9, X-15AL2-1 and X-19A3-1), applying to proceedings under sections 15 (b), 15A (*l*) (2), and 19 (a) (3) of the Securities Exchange Act of 1934. The action is proposed to be taken under these sections and sections 15A (b) (4) and 23 (a) of the act.

Proposed § 240.15b-9 (Rule X-15B-9) is intended to define the status of individuals associated with brokers and dealers in connection with administrative proceedings to deny or revoke broker-dealer registration under section 15 (b) or to suspend or expel from membership in a national securities association or securities exchange under section 15A (*l*) (2) or 19 (a) (3). The rule would codify the procedure followed by the Commission since the decision of the United States Court of Appeals for the District of Columbia Circuit in Wallach v. Securities and Exchange Commission, 202 F. 2d 462 (1953). The Court there held that the Commission could not, against his will, name a securities salesman as a party to an administrative proceeding against a broker-dealer under section 15 (b), but recognized that such a salesman was nevertheless entitled to intervene and be heard and that if he failed to take advantage of this opportunity he might "later find that he has seriously prejudiced his own interests by his inaction."

Without foreclosing the possibility of litigating the underlying legal questions further to the extent that they may directly or indirectly be involved in cases arising in the future, the Commission has ceased to name salesmen, or other individuals associated with a broker-dealer, in the caption of proceedings brought against such broker-dealer under section 15 (b). It has, however, continued to make such findings with respect to such individuals as are relevant to the issues under section 15 (b) and to the specification of the individuals who were a "cause" of any sanction imposed, as contemplated by section 15A (b) (4) of the act relating to disqualification for membership in a national securities association. This practice would be codified in proposed § 240.-15b-9 (Rule X-15B-9), which provides that associated individuals who may be affected by a broker-dealer proceeding shall not be named in the caption of the proceeding and shall not be deemed to be parties of record, unless they choose to be heard. The term "party of record" is used advisably in an effort to distinguish between formal parties, on one hand, and, on the other, those individuals who are entitled to be heard and may be affected by the proceeding but are nevertheless not recorded as parties.

Proposed §§ 240.15al2-1 and 240.19a3-1 are simply cross-reference rules which provide, in effect, that the procedure just discussed shall apply also to administrative proceedings under sections 15A (*l*) (2) and 19 (a) (3) of the act, relating to membership in national securities associations and national securities exchanges.

The text of proposed rules is as follows:

§ 240.15b-9 *Proceedings under sections 15 (b), 15A (l) (2) and 19 (a) (3) of the act.* (a) Where the Commission denies or revokes the registration of a broker or dealer pursuant to section 15 (b) of the act or suspends or expels a member of a national securities association or national securities exchange pursuant to section 15A (*l*) (2) or section 19 (a) (3) of the act, the Commission may determine and announce for purposes of section 15A (b) (4) of the act whether any person associated with the member, broker or dealer was a cause of the imposition of such sanction; such determination may be made whether or not the member, broker or dealer admits the violation or consents to the imposition of the sanction. In such proceedings the Commission may also make such findings with respect to violation by associates of the member, broker or dealer, as may be relevant to the question of causation for purposes of section 15A (b) (4) or to the issues under sections 15 (b), 15A (*l*) (2) or 19 (a) (3).

(b) In proceedings under sections 15 (b), 15A (*l*) (2) or 19 (a) (3) of the act, the Commission will give appropriate notice and opportunity for hearing to the member, broker or dealer concerned and to any person associated with him whose interests may be affected by the proceedings. The member, broker or dealer will be named in the caption of the proceeding and shall be deemed a party of record. An associated person who may be aggrieved will not ordinarily be named in the caption of the proceeding but shall be entitled to participate as a party. If he participates voluntarily in the proceeding or files a notice of appearance, he shall be deemed a party of record and will be given notices of intermediate developments in the proceeding. In any event he may inform himself of such developments by attendance at the hearings or examination of the record (whether the proceedings be public or private) or by arrangement with a party of record, so that he can determine whether he desires to be heard at any time. Rule XVII of the rules of practice other than paragraph (a) thereof, shall not apply to proceedings under this section.

(c) The terms "associated person" and "person associated" as used in this section shall mean a person associated with a member, broker or dealer in any of the capacities specified in sections 15 (b) and 15A (b) (4) of the act.

§ 240.15al2-1 *Proceedings under section 15A (l) (2) of the act.* To the extent that a proceeding under section 15A (l) (2) of the act involves the conduct of any person other than a member of a national securities association, it shall be governed by the provisions of § 240.15b-9.

§ 240.19a3-1 *Proceedings under section 19 (a) (3) of the act.* To the extent that a proceeding under section 19 (a) (3) of the act involves the conduct of any person other than a member of a national securities exchange, it shall be governed by the provisions of § 240.15b-9.

All interested persons are invited to submit their views and comments on the proposed rules in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before May 23, 1955. Unless the person submitting any such comments or suggestions requests in writing that they be held confidential, they will be public records, available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

APRIL 21, 1955.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

SHORESPACE RESTORATION ORDER NO. 525

APRIL 19, 1955.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to delegation of authority contained in section 1.5 (c), Part 1 of Order No. 541 of April 21, 1954, it is ordered as follows:

Beginning at 10:00 a. m. on the 21st day after the date of this order the 80-rod shorespace reserves created under the act of May 14, 1890 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat., 1028; 48 U. S. C. 371), as they exist now or as they may hereafter be created by the initiation of claims under the public land laws are hereby revoked insofar as applicable to the following described lands. Subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and the 91-day preference right filing period for veterans, and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), the following lands are hereby restored to entry under the public land laws:

ANCHORAGE LAND DISTRICT

LAKES LOUISE, SUSITNA, AND TYONE

All lands within 80 rods and abutting Louise, Susitna and Tyone Lakes and the connecting channels and all islands within said lakes as shown on Gulkana Geological Survey topographic quadrangle sheets (B-5) (B-6) and (C-6). Area to be restored approximates 15,360 acres.

ANCHORAGE LAND DISTRICT

KALGIN ISLAND

Commencing at a point on the southwest side of Kalgin Island, in Cook Inlet at lat. 60°21'43" N., long. 152°03'59" W., said point being at the line of mean high tide from which U. S. C. & G. S. station "S" Kalgin bears S. 1,054 feet W. 1,209 feet distant (data taken from map accompanying Special Land Use Application, Anchorage 022714 of the Alaska Year-Round Canneries Company) from said point easterly along line of mean high tide 2,640 feet; thence southerly at right angles to line of mean high tide 1,320 feet; thence westerly generally parallel to the line of mean high tide approximately one mile until intersection is made with the north-south line of mean high tide line; thence following the line of mean high tide northerly and easterly approximately 1¼ miles to point of beginning.

Containing approximately 160 acres.

The following applications are included in the above described lands:

Anchorage 020651—Simon A. Josefsen.
Anchorage 022714—Alaska Year-Round Canneries.
Anchorage 025275—Arthur A. Cobb.

FAIRBANKS LAND DISTRICT

LAKE MINCHUMINA

U. S. Survey No. 3315, located at Lake Minchumina containing approximately 40 acres.

The following applications are included in the above described lands:

Fairbanks 09417—Walter B. Parker.
Fairbanks 09632—Bertha N. Fuller.
Fairbanks 08255—Ray Trembly.
Fairbanks 08777—Val Jean Blackburn.
Fairbanks 08466—Harold G. Mattonen.

LOWELL M. PUCKETT,
Area Administrator.

[F. R. Doc. 55-3447; Filed, Apr. 27, 1955; 8:46 a. m.]

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 97

APRIL 22, 1955.

By virtue of the authority contained in the act of June 1, 1938 (52 Stat. 609;

43 U. S. C. 682a) as amended and pursuant to delegation of authority contained in section 1.9 (o), Order No. 541 of April 21, 1954, Bureau of Land Management, it is ordered as follows:

1. Subject to valid existing rights, the public lands hereinafter described, which are situated in the Anchorage, Alaska, Land District, are hereby classified as chiefly valuable for residence purposes, as hereinafter indicated, for lease and sale under the Small Tract Act of June 1, 1938, supra:

ANCHORAGE AREA—RABBIT CREEK ADDITIONAL UNIT NO. 1

FOR LEASE AND SALE; FOR RESIDENCE SITES

Seward Meridian

T. 12 N., R. 3 W.,
Section 27:
Lots 1–36 incl., 41–64 incl., and Lots 69–72 incl.

Aggregating 72 tracts containing 140 acres.

2. The classification of the above-described lands segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands are located approximately 8 miles south of Anchorage and approximately 1½ miles east of the Seward Highway. DeArmoun Road, a gravel road maintained by the Alaska Road Commission, terminates at the southwest corner of the area. A logging road continues east from there through a portion of the southern edge of the area. The Seward Highway, paved in 1952, makes the area quickly and easily accessible from Anchorage. None of the tracts are accessible at this time via a year round road with the exception of Lot 53, located in the southwest corner of the unit. A series of level to gently rolling benches characterize the area, with the exception of the southeast sector, which contains the ravine of Rabbit Creek. Vegetative cover consists of mature spruce and birch. Rabbit Creek cuts across the south half of the area from southwest to northeast. Utilities and public services available to the area include the public roads previously mentioned, an electric distribution system, school bus transportation and fire protection. Stores, churches and other public services are available in Spenard and Anchorage.

4. The individual tracts vary in size from 1.25 to 2.50 acres. The supplemental plat of survey showing the location of each tract can be secured for $1.00 from the Area Cadastral Engineering Office, Bureau of Land Management, Juneau, Alaska. Brochures which describe the area and contain sketch maps of the platting of the small tracts can be obtained free of charge from the Manager, Anchorage Land Office, Anchorage, Alaska. The appraised values of the tracts vary from $255 to $720 per tract as shown below. Rights-of-way, 50 feet in width, for road purposes will be reserved as shown below.

RABBIT CREEK ADDITIONAL UNIT NO. 1—(ANCHORAGE AREA)

APPRAISAL SCHEDULE

Official description[1]	Acreage	Advance rental (2 years)	Easements (50 feet)	Appraised value

S½ Lot 72	2½	50.00	S and E	500.00

[1] From supplemental plat of survey.

5. Leases will be issued for a term of two years and will contain an option to purchase in accordance with 43 CFR 257.13 (Circular 1899). Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the prices listed above at any time during the term of their leases providing that they have either (a) constructed the improvements specified in paragraph 6 or (b) filed a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

6. To maintain their rights under their leases, lessees will be required to either (a) construct substantial improvements on their lands or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sanitation, and construction requirements of local ordinances and must, in addition, meet at least the following minimum standards. The home must be insulated and be suitable for year-around occupancy, be on a permanent foundation, contain at least 192 square feet of floor space (outside measure), and contain a minimum of one door and one window. The home must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed.

7. Beginning at 10:00 a. m. on June 22, 1955, the lands will be open to filing of drawing-entry cards (Form 4–775) only by persons entitled to veterans' preference. In brief, persons entitled to such preference are (a) honorably discharged veterans who served in the armed forces of the United States for a period of at least 90 days after September 15, 1940, (b) surviving spouse or minor orphan children of such veterans through a legally authorized representative, and (c) with the consent of the veteran, the spouse of living veterans. The 90-day requirement does not apply to veterans who are discharged on account of wounds or disability incurred in the line of duty or the surviving spouse or minor children of veterans killed in the line of duty. Drawing-entry cards (Form 4–775) are available upon request from the Manager, Anchorage Land Office, Anchorage, Alaska.

Drawing-entry cards will be accepted if filled out in compliance with the instructions on the form and submitted to the above named official prior to 10:00 a. m. on July 13, 1955. A drawing will be held on that date to select the successful entrants who will be sent copies of the lease form, Form 4–776, with instructions as to their execution and return and as to payment of fees and rentals. All entrants will be notified of the results of the drawing.

For a period of 91 days or until the close of business on October 11, 1955, any tracts remaining unappropriated will be subject to filing in the order received by qualified veteran applicants. Such filings will be executed upon the lease form, Form 4–776.

During the 21 day period extending between 10:00 a. m. on September 21, 1955 and October 12, 1955, drawing-entry cards will be accepted from the general public on any unappropriated parcels of the subject land, however, during this 21 day period veteran priority rights still prevail. A drawing will be held at 10:00 a. m. on October 12, 1955 to select successful entrants, after which the unappropriate portions of the subject land will be open to application under this classification in order of filing. All entrants will be notified of the results of

the drawing and successful entrants will be sent copies of the lease form with instructions as to their execution.

The filing of the lease form, Form 4–776, must be accompanied by a filing fee of $10.00 plus the advance rental specified above. The advance rental is determined as being a sum which amounts to 1/20th of the appraised value of the land for each of two years under lease and rounded to the nearest five dollars. The advance rental for any unexpired full lease year, if any, subsequent to the filing of the application to purchase, will be subtracted from the sale price of the land as shown above. Failure to transmit the filing fee and the advance rental with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

8. All valid applications filed prior to November 16, 1951, will be granted the preference right provided for by 43 CFR 257.5 (a).

LOWELL M. PUCKETT,
Area Administrator.

ALASKA

ALASKA PUBLIC SALE ACT CLASSIFICATION NO. 19

APRIL 19, 1955.

Pursuant to the authority delegated to me under section 1.5 (a) of Order No. 541 of April 21, 1954, Bureau of Land Management, the following described land is classified for disposal under the Alaska Public Sale Act of August 30, 1949 (63 Stat. 679; 48 U. S. C. 364a–364e), for commercial and industrial purposes:

Lots 8, 9 and P. S. S., U. S. Survey No. 2589.

Containing 9.28 acres.

The above land will be offered for sale in accordance with regulations contained in 43 CFR 75.23 to 75.40. If no bid at the minimum acceptable price or above is made, the land may be held for future offering or the classification may be rescinded.

LOWELL M. PUCKETT,
Area Administrator.

2. The minerals in the above described lands were wholly or partly reserved by the grantor or by prior grantors, and any person acquiring any of these lands must accept title subject to such reservations. Information as to any mineral rights reconveyed to the United States is of

record in the Colorado land Office, 437 Post Office Building, Denver, Colorado. This order is subject to any withdrawals, reservations, rights-of-way or easements which may now affect the land, and to any withdrawals, reservations, rights-of-way or easements which may hereafter be affected.

The lands embraced in this order are situated in central and western Colorado and are rolling to very steep, with generally thin rocky soils unsuited for farming.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) Ninety-one day period for preference-right filings. For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) Date for non-preference-right filings. Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Colorado Land Office, 437 Post Office Building, Denver, Colorado, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Land Office Manager, Colorado State Office, 429 Post Office Building, Box 1018, Denver 2, Colorado.

MAX CAPLAN,
State Supervisor.

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

An application, serial number Colo. 010842, for the withdrawal from all forms of appropriation under the General Mining laws, subject to existing valid claims, of the lands described below was filed on April 20, 1955, by the Department of Agriculture, U. S. Forest Service.

The applicant desires the land for use in the Carlos G. Bates Experimental Forest.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

COLORADO

SIXTH PRINCIPAL MERIDIAN

Pike National Forest

Carlos G. Bates Experimental Forest

T. 14 S., R. 68 W.,
Sec. 2: S½NE¼ and SE¼.

Total area: 240 acres.

MAX CAPLAN,
State Supervisor.

WASHINGTON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 21, 1955.

An application, serial number W–01330, for the withdrawal from all forms of appropriation under the public land laws, except mineral leasing laws of the lands described below was filed on March 4, 1954, by Fish and Wildlife Service for use of Washington Department of Game. The purposes of the proposed withdrawal: Public access to Phalan Lake public fishing area.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor Area I, Bureau of Land Management, Department of the Interior, at 209 Federal Building, Spokane 1, Washington. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

WASHINGTON

WILLAMETTE MERIDIAN

T. 28 N., R. 39 E.,
Sec. 21, Lot 3.

The land described contains an area of 9.70 acres.

J. M. HONEYWELL,
State Supervisor.

Bureau of Reclamation

SHOSHONE PROJECT, WYOMING

FIRST FORM RECLAMATION WITHDRAWAL

NOVEMBER 23, 1953.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949, I hereby withdraw the following described land from public entry, under first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 52 N., R. 102 W.,
Sec. 4, Lot 18.

The above area aggregates 40 acres.

W. A. DEXHEIMER,
Commissioner.

APRIL 22, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

W. G. GUERNSEY,
Associate Director,
Bureau of Land Management.

Notice for Filing Objections to Order Withdrawing Public Lands for the Shoshone Project, Wyoming

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public land in the State of Wyoming, for use in connection with the Shoshone Project may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

W. A. DEXHEIMER,
Commissioner.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order 129, Rev. 2]

AUTHORIZING AND DIRECTING PROVISIONS TO INSURE CONTINUOUS PERFORMANCE OF FUNCTIONS

1. Each official in whom functions, other than general supervisory functions, have been placed by law or by transfer directly from the Secretary is authorized and directed to make such provisions as are necessary (a) to insure continuous performance of the functions in the event of his absence or disability or a vacancy in the office, and (b) to insure continuous performance of all essential functions in the event of an enemy attack on the continental United States, whether or not he is absent or disabled or there is a vacancy in the office.

2. Each official described in paragraph 1 is authorized, in the event of an enemy attack on the continental United States, to perform any function of the Secretary, whether or not otherwise delegated, which is essential to the carrying out of responsibilities otherwise assigned to him. Provisions made under paragraph 1 shall include provision for the performance of these functions.

3. This order shall be effective immediately with respect to authority it confers. Each succession provided for in Treasury Department Order No. 129, Revised, dated December 11, 1952, shall remain in effect until superseded by provisions made under the authority of this order, but not beyond May 31, 1955.

Dated: April 22, 1955.

[SEAL] G. M. HUMPHREY,
Secretary of the Treasury.

[F. R. Doc. 55–3479; Filed, Apr. 27, 1955; 8:52 a. m.]

DEPARTMENT OF AGRICULTURE

Forest Service

MODOC NATIONAL FOREST

REMOVAL OF TRESPASSING HORSES

Whereas a number of horses are trespassing and grazing on land in the Pine Springs and Emigrant Springs Allotments, Goose Lake District, Modoc National Forest, and Big Sage and Timbered Mountain Allotments, Happy Camp District, Modoc National Forest, in Modoc County, State of California; and

Whereas these horses are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35; 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C.

472), the following order is issued for the occupancy, use, protection, and administration of the Pine Springs and Emigrant Springs Allotments in the Goose Lake District, and the Big Sage and Timbered Mountain Allotments in the Happy Camp District of the Modoc National Forest.

Temporary closure from livestock grazing. (a) The Pine Springs and Emigrant Springs Allotments of the Goose Lake District, and the Big Sage and Timbered Mountain Allotments of the Happy Camp District in the Modoc National Forest are hereby closed for the period from May 1, 1955 to June 1, 1956, to the grazing of horses excepting those that are lawfully grazing on or crossing such land pursuant to the regulations of the Secretary of Agriculture, or which are used in connection with operations authorized by such regulations, or that are used as riding, pack, or draft animals by persons traveling over such land.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Fifteen days' notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Modoc National Forest is located.

Done at Washington, D. C., this 22d day of April 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] E. L. PETERSON,
Assistant Secretary of Agriculture.

[F. R. Doc. 55-3485; Filed, Apr. 27, 1955; 8:53 a. m.]

FEDERAL POWER COMMISSION

[Project No. 2181]

NORTHERN STATES POWER CO.

NOTICE OF APPLICATION FOR LICENSE

APRIL 21, 1955.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by Northern States Power Company, of Eau Claire, Wisconsin, for license for Project No. 2181, known as the Menomonie Project, situated on Red Cedar River, a tributary of Chippewa River, in Dunn County, Wisconsin, near the City of Menomonie, Town of Red Cedar, and Town of Menomonie. The applicant proposes to redevelop the existing Menomonie project by the replacement of the dam, powerhouse and other associated facilities with new works. The redeveloped project will consist of: a concrete gravity dam, comprised of a 230-foot gated spillway section, a powerhouse section, and two non-overflow sections; a reservoir with an area of about 1,800 acres with normal water surface at elevation of 814 feet (msl); a semi-outdoor type powerhouse with two 3,750-horsepower turbines connected to two 2,700-kilowatt generators; remote control operating system; and appurtenant electrical and mechanical facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10), the time within which such petitions must be filed being specified in the rules. The last day upon which protests may be filed is June 13, 1955. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-3457; Filed, Apr. 27, 1955; 8:49 a. m.]

[Project No. 2182]

ELECTRIC POWER, INC.

NOTICE OF APPLICATION FOR LICENSE

APRIL 21, 1955.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by Electric Power, Incorporated, of Berlin, Connecticut, for license for proposed Project No. 2182, to be known as Enfield Rapids, situated on the Connecticut River, navigable waters of the United States, in Hartford County, Connecticut, and Hampden County, Massachusetts. The project would consist of a dam about 3,050 feet long comprised of a concrete gated spillway, a powerhouse section, and an earth embankment section, located in the Towns of Windsor Locks, East Windsor, and Enfield, Connecticut; a reservoir with a normal water surface at elevation of 45 feet (Hartford Datum), an area of about 3,280 acres, and extending about 21¼ miles upstream to Holyoke, Massachusetts; a navigation lock in the existing Windsor Canal; a powerhouse with three 32,500-horsepower turbines connected to three 20,700-kilowatt generators installed therein; a tailrace channel excavated in the river bed; a substation and switchyard; and appurtenant mechanical and electrical facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10), the time within which such petitions must be filed being specified in the rules. The last day upon which protests may be filed is June 6, 1955. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

DEPUTY ADMINISTRATOR ET AL.

DESIGNATION OF ACTING ADMINISTRATOR

The officers described by position title or by individual name in the list below are hereby designated to act in the place and stead of the Housing and Home Finance Administrator, with the title of "Acting Administrator" and with all the powers, rights, and duties vested in or assigned to the said Administrator, in the event the Administrator is unable to act by reason of his absence, illness, or other cause, provided that no officer shall have authority to act as "Acting Administrator" unless all those whose titles or names precede his in this designation are unable to act by reason of absence, illness, or other cause:

(1) Deputy Administrator;

(2) Oakley Hunter (General Counsel);

(3) Lewis E. Williams (Assistant Administrator, Administration);

(4) M. Carter McFarland (Acting Assistant Administrator, Plans and Programs).

This designation supersedes the designation of Acting Administrator effective January 4, 1955 (20 F. R. 407, January 18, 1955), which designation is hereby revoked.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954; 62 Stat. 1283 (1948), as amended, 12 U. S. C., 1952 ed. 1701c; 63 Stat. 440 (1949), 12 U. S. C., 1952 ed. 1701d–1).

Effective as of the 22d day of April 1955.

[SEAL] ALBERT M. COLE,
Housing and Home Finance Administrator.

[F. R. Doc. 55-3483; Filed, Apr. 27, 1955; 8:52 a. m.]

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS

APRIL 25, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

Rates on silica sand, carloads, from Guion, Ark., Klondike, Ludwig and Pacific, Mo., to specified points in Alabama, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee.

Grounds for relief: Modified short line distance formula and circuity.

Tariff: Supplement 14 to Agent Kratzmeir's I. C. C. 4135.

FSA No. 30544: Silicon carbide briquettes to Saginaw, Mich. Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on silicon carbide briquettes, carloads, from Kellogg, Niagara Falls and Suspension Bridge, N. Y., to Saginaw, Mich.

Grounds for relief: Competition with truck and barge lines and circuitous routes.

FSA No. 30545: Cathode ray tubes—Ottawa, Ohio, to Teterboro, N. J. Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on cathode ray tubes, carloads, from Ottawa, Ohio to Teterboro, N. J., and in the reverse direction.

Grounds for relief: Circuity.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

OFFICE OF DEFENSE MOBILIZATION

[ODM (DPA) Request No. 46—DPAV–44 (c)]

NOTICE OF WITHDRAWAL OF REQUEST TO PARTICIPATE IN DEFENSE WAREHOUSEMEN'S ASSOCIATION AGREEMENT OF PHILADELPHIA

The Defense Warehousemen's Association of Philadelphia formed pursuant to section 708 of the Defense Production Act of 1950, as amended, has been dissolved and accordingly the request published in 17 F. R. 8965, October 5, 1952, to participate in the Defense Warehousemen's Association Agreement transmitted and accepted by those companies listed in the FEDERAL REGISTER cited above and in 19 F. R. 255, January 14, 1954, has been withdrawn.

The immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act heretofore granted to those companies has been likewise withdrawn, except as to those acts performed or omitted by reason of the request which occurred prior to that withdrawal.

(Sec. 708, 64 Stat. 818, as amended; 50 U. S. C. App. Sup. 2158; Executive Order 10480, August 14, 1953, 18 F. R. 4939)

Dated: April 26, 1955.

ARTHUR S. FLEMING,
Director.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24A–782]

GENERAL CREDIT CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

APRIL 22, 1955.

I. General Credit Corporation, 799 NW. 62d Street, Miami, Florida (hereinafter referred to as the "company"), having filed with the Commission on March 25, 1954 a Notification on Form 1–A relating to a proposed public offering of 74,990 shares, $1 par value common stock, at $4 per share for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable grounds to believe:

A. That the offering circular and the financial statements therein, filed as part of the Notification, contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly in connection with the following:

1. The failure of the income statements for the years ended October 31, 1952, October 31, 1953, and the four months ended February 28, 1954, to present fairly the operating results of the company and of the company and its subsidiary consolidated with respect to:

a. The inclusion of unearned discounts in gross operating income;

b. The inclusion in gross operating income of interest charges on fictitious accounts and the failure to charge income for shortages which at the time of the audit were known to be represented by fictitious accounts; and

c. The failure to make adequate provision for material losses on notes and accounts receivable;

2. The failure to present fairly the financial condition of the company in the balance sheets of the company and of the company and its subsidiary consolidated with respect to:

a. The cumulative net effect on earned surplus and not equity of the overstatements of the income accounts as above indicated;

b. The improper procedure of eliminating accumulated operating losses against capital surplus and the failure to disclose adequately such procedure in the financial statements;

c. The overstatements of the cash position by borrowings which were effected before the balance sheet date and which were promptly repaid, and by withholding transmittal of material amounts collected for the benefit of others;

d. The purchases of receivables, at apparently unfavorable terms, immediately prior to the balance sheet date to enhance assets and to take unearned discounts into income and earned surplus as above indicated; and

e. The failure to eliminate fictitious accounts from the statements and properly to account for purchased receivables;

3. The inclusion in the offering circular of an accountants' certificate which:

a. States that the accountants are unable to express an opinion as to the fair value of notes and accounts receivable constituting more than 80 percent of the total assets;

b. Expresses an opinion that the financial statements present fairly the financial position and results of operations of the companies and that the financial statements have been prepared in conformity with generally accepted accounting principles when in fact the financial statements are deficient as stated in paragraphs 1 and 2 above; and

c. States that the examination was made in accordance with generally accepted auditing standards when in fact it appears the accountants did not conduct an audit sufficient in scope to substantiate an opinion;

4. The failure to disclose in the offering circular certain material interests in transactions effected with the company by officers and directors of the company and by the underwriter;

5. The failure to disclose in the offering circular pending civil and criminal suits filed against the company and its officers and directors;

B. That the offering would operate as a fraud or deceit upon the purchasers.

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933 that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this

order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon General Credit Corporation, Little River Bank & Trust Company, Charles B. Costar & Co., and Murphy & Co.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 24D-1275]

APOLLO OIL URANIUM CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFORE, AND NOTICE OF OPPORTUNITY FOR HEARING

APRIL 22, 1955.

I. Apollo Oil Uranium Company, 602 First National Bank Building, Denver, Colorado, having filed with the Commission on May 27, 1954, a Notification on Form 1-A, and subsequently filed amendments thereto, relating to a proposed public offering of 12,500,000 shares of its 1 cent par common stock at 1 cent per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having been advised that James B. White, a controlling person and a promoter of the issuer, was indicted on February 11, 1955, in the United States District Court for the Eastern District of Washington, for violations of the Mail Fraud Statute and conspiracy to violate the registration requirements of section 5 of the Securities Act of 1933, as amended, in connection with the purchase or sale of the securities of Alpine Mining Company and Noonday Mines, Limited, affiliates of the issuer; and

It appearing necessary and appropriate in the public interest and for the protection of investors to suspend the exemption under Regulation A under said act;

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Apollo Oil Uranium Company; James B. White; M. A. Cleek; and J. Russell Tindell personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

CITIES SERVICE CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

APRIL 22, 1955.

The Commission having, by order issued December 30, 1954, in the above-entitled matter, permitted a declaration, as amended, to become effective in respect of a proposal by Cities Service Company, a registered holding company, to increase the authorized number of shares of its $10 par value common stock and to increase the amount of outstanding shares thereof by issuing to its common stockholders 1½ additional shares for each share outstanding; and

The record being then incomplete in respect of certain fees and expenses, and the Commission having reserved jurisdiction over such fees and expenses in respect of which the record was incomplete; and

The record having been completed and it appearing that all fees and expenses, not heretofore approved, to be paid in connection with said transactions are as follows:

Printing and mailing proxy material	$39,950
Other expenses incidental to special stockholders' meeting	3,500
Printing additional stock certificates	30,000
New York Stock Exchange listing fee	14,875
Boston Stock Exchange listing fee	1,500
Midwest Stock Exchange listing fee	200
Legal fees, payable to Frueauff, Burns, Farrell, Shanley and Johnsen	7,500
Miscellaneous	2,000
Total	99,525

It further appearing that such fees and expenses are not unreasonable, and that the jurisdiction heretofore reserved in respect thereof should be released:

It is ordered, That the jurisdiction reserved in the order issued December 30, 1954, be, and it hereby is, released.

By the Commission.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

APRIL 22, 1955.

The Commission having, by order issued December 30, 1954, permitted a declaration, as amended, to become effective in respect of a proposal by Cities Service Company, a registered holding company, to declare and pay a two per centum stock dividend on its outstanding 3,887,100 shares of $10 par value common stock; and

The record being then incomplete in respect of certain fees and expenses, and the Commission having reserved jurisdiction over such fees and expenses in respect of which the record was incomplete; and

The record having been completed and it appearing that all fees and expenses, not heretofore approved, to be paid in connection with said transactions are as follows:

Printing additional stock certificates	$9,000
Legal fees, payable to Frueauff, Burns, Farrell, Shanley and Johnsen	5,000
New York Stock Exchange listing fee	250
Midwest Stock Exchange listing fee	50
Total	14,300

It further appearing that such fees and expenses are not unreasonable, and that the jurisdiction heretofore reserved in respect thereof should be released:

It is ordered, That the jurisdiction heretofore reserved in the order issued December 30, 1954, be, and it hereby is, released.

By the Commission.

[File No. 70-3338]

CENTRAL AND SOUTH WEST CORP. ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

APRIL 22, 1955.

In the matter of Central and South West Corporation, Public Service Company of Oklahoma, Southwestern Gas and Electric Company, Central Power and Light Company; File No. 70-3338.

The Commission, by order dated February 21, 1955 (Holding Company Act Release No. 12803), having granted and permitted to become effective a joint application-declaration, as amended, filed by Central and South West Corporation ("Central"), a registered holding company, and three of its public-utility subsidiaries, Public Service Company of Oklahoma ("Public Service"), Southwestern Gas and Electric Company ("Southwestern"), and Central Power and Light Company ("Power & Light"), pursuant to sections 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 ("act"), and Rules U-42, U-43 and U-50 promulgated thereunder, with respect to, among other things, the issue and sale by Central of 600,000 shares of its authorized and unissued common stock at competitive bidding pursuant to Rule U-50 promulgated under the act, and the issue and sale by Public Service, Southwestern and Power & Light of additional shares of their common stocks and the acquisition thereof by Central; and the record not being complete in respect of the fees and expenses to be incurred in connection with the proposed transaction, the order expressly reserved jurisdiction over the payment of all fees and expenses; and

The record having now been completed in respect of fees and expenses; and

The fees and expenses, other than underwriting discounts and commissions, incurred, or to be incurred, and paid by Central, in connection with the issuance and sale of additional shares of its common stock are as follows:

S. E. C. filing fee	$2,400
Federal issue stamp tax	3,500
Printing and engraving	15,200
Fees of transfer agent and registrar:	
Illinois Stock Transfer Co	2,400
The First National Bank of Chicago	1,500
Fee of service company: Middle West Service Co	12,000
Accounting fees: Arthur Andersen & Co	5,000
Legal fees from local counsel for subsidiaries:	
J. M. Wilson	300
T. M. Markley	300
Wagstaff, Harwell, Alvis & Pope	300
Arnold & Arnold	300
Wilkinson, Lewis & Wilkinson	300
Prendergast & Prendergast	300
Reimbursement of underwriters for "Blue-Sky" expense	2,500
Listing fees on registered exchanges	1,750
Miscellaneous expenses	1,950
Total	50,000

The legal fee of Stevenson, Dendtler, Bailey & McCabe, counsel for Central, is covered by an annual retainer.

The legal fee of $7,000, and estimated expenses of $500, to be paid to Isham, Lincoln & Beale, independent counsel for the underwriters, will be paid by the purchasers of Central's common stock.

The fees and expenses incurred, or to be incurred, and paid by Public Service, Southwestern and Power & Light in connection with the sale of additional shares of their common stocks are as follows:

To be paid by Public Service:	
Federal issue stamp tax	$3,300
Secretary of State of Oklahoma, authorization fee	10,000
Miscellaneous expense, including fees of transfer agent and registrar	700
	14,000
To be paid by Southwestern:	
Federal issue stamp tax	2,200
Miscellaneous expense, including fees of transfer agent and registrar	300
	2,500
To be paid by Power & Light:	
Federal issue stamp tax	3,300
Miscellaneous expense, including fees of transfer agent and registrar	200
	$3,500

The Commission having examined the data submitted in support of fees and expenses and having determined that the fees and expenses are for necessary services and, if they do not exceed the amounts indicated, are not unreasonable, and that an order should be entered permitting the payment thereof; and the Commission having concluded that the jurisdiction heretofore reserved with respect thereto should be released:

It is ordered, That the jurisdiction heretofore reserved over the payment of all fees and expenses be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-3464; Filed, Apr. 27, 1955; 8:50 a. m.]

[File No. 70-3366]

CENTRAL OHIO COAL CO. AND OHIO POWER CO.

NOTICE OF FILING REGARDING AMENDMENT BY NON-UTILITY COMPANY OF ARTICLES OF INCORPORATION TO INCREASE AMOUNT OF AUTHORIZED COMMON STOCK; ISSUANCE AND SALE BY NON-UTILITY COMPANY OF COMMON STOCK AND ACQUISITION THEREOF BY PARENT COMPANY; AND ADVANCE BY PARENT COMPANY TO NON-UTILITY SUBSIDIARY OF FUNDS ON OPEN ACCOUNT

APRIL 22, 1955.

Notice is hereby given that Ohio Power Company ("Ohio"), an exempt holding company and a public-utility subsidiary of American Gas and Electric Company, a registered holding company, and Ohio's non-utility subsidiary company, Central Ohio Coal Company ("Central Ohio"), have filed a joint application-declaration with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act"). Applicant-declarants have designated sections 6, 7 and 10 of the act and Rule U-45 of the rules and regulations promulgated under the act as applicable to the filing.

All interested persons are referred to said application-declaration, which is on file in the offices of the Commission, for a statement of the transactions proposed therein which are summarized as follows:

Central Ohio proposes (a) to amend its Articles of Incorporation so as to increase the authorized number of shares of its capital stock from 40,000 shares of common stock, par value $100 per share, all of which is owned by Ohio, to 100,000 shares of common stock, par value $100 per share, and (b) to issue and sell to Ohio not to exceed 15,000 additional shares of Central Ohio's common stock for cash at $100 per share from time to time prior to December 31, 1956, as funds are needed by Central Ohio. Ohio proposes (a) to acquire the 15,000 shares of common stock to be issued by Central Ohio, and (b) to make advances, pro rata with the Central Ohio stock to be acquired, to Central Ohio on open account, from time to time prior to December 31, 1956, of not to exceed $1,500,000 in the aggregate, such advances on open account to bear interest at the rate of 3.3 percent per annum. The 3.3 percent interest rate to be charged by Ohio on the advances on open account is the same as the cost of money on Ohio's unsecured serial notes issued in 1951.

Central Ohio conducts strip mining operations on coal lands owned by Ohio adjacent to Ohio's Philo and Muskingum River generating stations and produces coal for such stations at an annual rate of approximately 2,250,000 tons, of which approximately 1,100,000 tons per year are produced at Central Ohio's Muskingum mine for consumption at Ohio's Muskingum River generating station. Ohio is engaged in constructing an additional unit at its Muskingum River generating station and, in order to meet the resulting increased coal requirements, Central Ohio proposes to expand the operations of the Muskingum mine and increase the annual output thereof from 1,100,000 to 1,660,000 tons.

Additional capital requirements for the purchase of stripping, loading and auxiliary equipment and the construction and equipping of rail haulage facilities at the mine are estimated at $3,000,000.

The filing states that no State commission and no Federal regulatory agency, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than May 9, 1955, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reason for such request, and the issues of fact or law, if any, which he proposes to controvert, or he may request to be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application-declaration, as filed or as it may hereafter by amended, may be granted and permitted to become effective pursuant to Rule U-23 and the applicable provisions of the act, or the transactions proposed therein may be exempted pursuant to Rules U-20 (a) and U-100 thereunder.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3367]

OHIO EDISON CO.

NOTICE OF PROPOSED ISSUE AND SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

APRIL 22, 1955.

Notice is hereby given that Ohio Edison Company ("Company"), a registered holding company and a public-utility company, has filed with this Commission

a declaration pursuant to the Public Utility Holding Company Act of 1935 ("acts"), designating sections 6 (a) and 7 of the act and Rule U-50 thereunder as applicable to the proposed transaction, which is summarized as follows:

The Company proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $30,000,000 principal amount of First Mortgage Bonds, __ percent Series of 1955 due 1985 ("New Bonds"). The New Bonds will be issued under the Company's Indenture of Mortgage and Deed of Trust, dated as of August 1, 1930, as heretofore amended and supplemented and to be further supplemented by the Twelfth Supplemental Indenture dated as of May 1, 1955. The interest rate (which shall be a multiple of ⅛ of 1 percent) and the price to be paid to the Company (which shall be not less than 100 percent nor more than 102¾ percent of the principal amount, exclusive of interest from May 1, 1955, to date of delivery) will be determined by competitive bidding.

It is stated that the net proceeds to be received from the sale of the New Bonds will be used, along with other available funds, for the acquisition of property, the construction or improvement of facilities, the discharge of obligations, and other corporate purposes. Expenditures for property additions and improvements in 1955 are estimated at $45,500,000.

It is further stated that the proposed transaction is subject to the jurisdiction of The Public Utilities Commission of Ohio and that an appropriate application is being filed with that Commission.

The fees and expenses to be paid in connection with the proposed transaction, other than underwriting commissions, are estimated at $108,190, including taxes, filing and recording fees, $37,190; cost of definitive bonds, printing and miscellaneous expenses, $25,000; charges of trustee, $12,000; counsel fees, $15,000; accountants' fees, $6,500; and services of Commonwealth Services Inc., $12,500. In addition, the fees of independent counsel to the underwriters are estimated at $9,000.

It is requested that this Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than May 9, 1955, at 12:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may take such other action as it may deem appropriate under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3374]

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING REGARDING CASH CAPITAL CONTRIBUTION FROM PARENT REGISTERED HOLDING COMPANY TO SUBSIDIARY PUBLIC UTILITY COMPANY

APRIL 22, 1955.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") designating section 12 (b) of the act and Rule U-45 thereunder as being applicable to the proposed transactions which are summarized as follows:

GPU proposes to make a cash capital contribution in the amount of $1,500,000 to its subsidiary, Jersey Central Power & Light Company ("Jersey Central"). This cash capital contribution, which is to be credited to the capital surplus account of Jersey Central, will be used by that corporation for its general corporate purposes.

GPU has estimated its expenses, including legal fees of its counsel, in connection with this transaction at not in excess of $500.

It is represented in the filing that no State or Federal commission, other than the Securities and Exchange Commission, has jurisdiction with respect to the proposed transaction.

Notice is further given that any interested person may, not later than May 9, 1955, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on the declaration, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may take such other action as may be appropriate.

By the Commission.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

CFR SUPPLEMENTS
(For use during 1955)

(v) That part of the Town of Ludlow lying north and west of Alden Street, south of East Street, and east of Miller Street;

(vi) That part of the Town of Russell lying north of Mountain Road, south of Blandford Road and State Route No. 23, west of Westfield Road, and east of General Knox Road;

(vii) That part of the Town of Southwick lying south of Springfield Road, east of South Longyard Road, west of West Street, and north of Barry Road; and that part of the Town of Southwick lying north of Westfield Road, south of Springfield Road, east of North Longyard Road, and west of West Street;

(viii) That part of the City of Springfield lying east of Parker Street, south of Cooley Street, west of Allen Street, and north of Wilbraham Road; and that part of the City of Springfield lying east of Parker Street, south of Wilbraham and Pinkham Roads, west of Stonyhill Road, and north of Allen and Potter Roads; and

(ix) That part of the Town of Wilbraham lying south of Stonyhill Road, north and west of Allen Street, and east of Porter Road.

(5) The following areas in Middlesex County:

(i) That part of the Town of Billerica lying north of Treble Cove Road, east of State Route No. 4, south of Rangeway Road, and west of U. S. Route No. 3;

(ii) That part of the Town of Boxboro lying north of State Route No. 111 and west of Liberty Square Road;

(iii) That part of the Town of Dracut lying north of Wheeler Road, and south and east of State Route No. 113;

(iv) That part of the Town of Framingham lying south of State Route No. 135, west of Sherborn Road, and east of Western Avenue;

(v) That part of the Town of Hudson lying south of Shapen Road and west of River Road; and that part of the Town of Hudson lying south of Main Street, west of White Pond Road, and east of Parmanteer Road;

(vi) That part of the Town of Lexington lying south of Mellex Road, west of State Route No. 128, and east of West View Street; and that part of the Town of Lexington lying north of Blossom Street, south and west of Allen Street, and east of Waltham Street;

(vii) That part of the Town of Lincoln lying north of State Route No. 117, south of State Route No. 2, and east of Conant Road; that part of the Town of Lincoln lying north of State Route No. 2A and east of Virginia Road; and that part of the Town of Lincoln lying south of State Route No. 117 and east of Tower Road;

(viii) That part of the City of Lowell lying north of Varnum Avenue, east of Totman Road, and west of Westmeadow Road; and that part of the City of Lowell lying east of Chelmsford Street, south of Plain Street, and west of River Meadow Brook;

(ix) That part of the Town of Marlboro lying north of U. S. Route No. 20, west of Hop Brook, and east of Wilson Road;

(x) That part of the Town of Maynard lying north of Main Street, west of State Route No. 27, and east of Summer Street;

(xi) That part of the Town of Sudbury lying north of State Route No. 27, south of State Route No. 117, and west of Mossman Road;

(xii) The City of Somerville;

(xiii) That part of the Town of Tewksbury lying north of the Salem Branch of the Boston and Lowell Railroad, east of South Street, and west of North Branch of Sutton's Brook; that part of the Town of Tewksbury lying north of Range line and ditch running from Tewksbury Line to Wilmington Branch of the Boston and Maine Railroad, south of the Salem Branch of the Boston and Lowell Railroad, and west of the Wilmington Branch of the Boston and Maine Railroad; and that part of the Town of Tewksbury lying north of Astle Street, east of the Lowell City Line, south of Old Southern Division of the Boston and Maine Roadbed, and west of State Route No. 38;

(xiv) That part of the City of Waltham lying south of Winter Street and west of Hobbs Brook;

(xv) That part of the Town of Wayland lying north of U. S. Route No. 20, south of the Boston and Maine Railroad, west of Plain Road, and east of State Route No. 126;

(xvi) That part of the Town of Westford lying north of State Route No. 2A, west of State Route No. 27, and east of State Route No. 110;

(xvii) That part of the Town of Weston lying south of South Avenue, and west of Wellesley Street; and that part of the Town of Weston lying north of State Route No. 30, south of U. S. Route No. 20, west of Wellesley Street, and east of Highland Street; and

(xviii) That part of the City of Woburn lying north of Merrimac Street, east of State Route No. 38, and west of Wilmington.

(6) The following areas in Norfolk County:

(i) That part of the Town of Bellingham lying south of Arm Street, north of Drake Pond, east of Farm Street, and west of Hartford Avenue;

(ii) That part of the Town of Cohasset lying south and west of Jerusalem Road, north of Sohier and Green Streets, and east of King Street;

(iii) That part of the Town of Franklin included within a boundary beginning at a point on Lincoln Street approximately 620 yards southerly from the junction of Elm and Lincoln Streets, thence westerly for a distance of approximately 200 feet, thence southerly for a distance of approximately 300 feet, thence easterly for a distance of approximately 150 feet to Lincoln Street, thence northerly along Lincoln Street to point of beginning, consisting of about two acres, owned and occupied by Walter Griffin; and that part of the Town of Franklin lying south and west of Daniels Street, north of Brook Street, and east of Lincoln Street; and

(iv) That part of the Town of Randolph lying north of Gold Street, south of Canton Street, east of High Street, and west of Irving Street.

(7) The following areas in Plymouth County:

(i) That part of the City of Brockton lying south of Center Street, north of Plain Street, and east of Summer Street;

(ii) That part of the Town of Pembroke lying south of School Street and west of Center Street;

(iii) That part of the Town of Plympton lying west of Palmer and Pleasant Streets;

(iv) That part of the Town of Rockland lying north of Summer Street and south of West Water Street and the New York, New Haven, and Hartford Railroad; that part of the Town of Rockland lying north of Forest Street, east of Union Street, and west of Weymouth Street; and that part of the Town of Rockland lying north of Summer Street, south of Centre Street, east of Plymouth Street (Abington), and west of Spring Street; and

(v) The Town of Wareham.

(8) The following areas in Worcester County:

(i) That part of the Town of Auburn lying north of Oxford Street, south of U. S. Route No. 20, and west of the junction of Oxford Street and U. S. Route No. 20; that part of the Town of Auburn lying north of Rochdale Street, east of the junction of Leicester Town Line and the Boston and Maine Railroad, and west of Auburn Road;

(ii) That part of the Town of Bolton lying north of State Route No. 117, south of the junction of Harvard and Golden Run Roads, east of Harvard Road, and west of Sugar Road;

(iii) That part of the Town of Boylston lying north and west of the Wachusett Reservoir and south and east of State Route No. 110; that part of the Town of Boylston lying north of Mill Street, south of South Road, east of State Route No. 70, and west of Sewell Street; and that part of the Town of Boylston lying north of Shrewsbury Street, south of Temple Street, and west of State Route No. 70;

(iv) That part of the Town of Brookfield lying north of State Route No. 9, south and west of Smithfield Road, and east of Harrington Street;

(v) That part of the Town of East Brookfield lying north of North Sturbridge Road, south of Flag Road, east of West Sturbridge Road, and west of William Casey Road;

(vi) That part of the Town of Grafton lying north of Millbury Street, south of Brigham Hill Road, and west of the junction of Crosby Road and Brigham Hill Road;

(vii) That part of the Town of Holden lying north of Malden Street, south of Paul Street, east of the junction of Harris and Bullard Streets, and west of Malden Brook;

(viii) That part of the Town of Leicester lying south of the junction of Charlton Road and State Route No. 56, east of Charlton Street, and west of State Route No. 56; that part of the Town of Leicester lying north and west of Henshaw Street, south of State Route No. 9, and east of Hill Street; and that part of the Town of Leicester lying north of Hemlock Street, east of Whittemore Street, and west of Marshall Street;

(ix) That part of the Town of North Brookfield lying north of Shore Road, south of Ward Street, east of Old East Brookfield Road, and west of Green Road;

(x) That part of the Town of Oakham lying north of Beecham and Town Roads, south of Crawford Road, east of North Brookfield Road, and west of East Hill Street;

(xi) That part of the Town of Oxford lying north of Dand Road, south of Federal Hill Road, east of Brown Street, and west of Hudson Street; that part of the Town of Oxford lying north of Federal Hill Road, south of Depot Road, east of State Route No. 12, and west of Millbury Street; and that part of the Town of Oxford lying north of Rocky Hill Road, south of the junction of State Route No. 12 and the Boston and Albany Railroad, east of the Boston and Albany Railroad, and west of State Route No. 12;

(xii) That part of the Town of Shrewsbury lying north of Main Street, south of Sewall Street, east of Holden Street, and west of Gulf Street;

(xiii) That part of the Town of South Royalston lying north of South Royalston Road, south of Winchendon Road, east of the junction of South Royalston and Winchendon Roads, and west of Beaver Brook;

(xiv) That part of the Town of Sterling lying west of State Route No. 140; and that part of the Town of Sterling lying north and east of Greenland Road, south of State Route No. 62, and west of Jewett Road;

(xv) That part of the Town of Sutton lying north of the Hartford Turnpike, south of McClellan Road, east of the Worcester and Providence Turnpike, and west of Hill Road;

(xvi) That part of the Town of Winchendon lying north of U. S. Route No. 202, south of Elmwood Road, east of the junction of Elmwood Road and State Route No. 122A, and west of Rindge Street; and

(xvii) That part of the City of Worcester lying north of U. S. Route No. 20, south of the junction of Granite Street and Broad Meadow Brook, east of Granite Street, and west of Broad Meadow Brook.

(d) *New Jersey:* (1) Union County.

(2) All of Middlesex County except the following:

(i) That part of the City of New Brunswick lying east of U. S. Route No. 130, south of State Route No. 18, west of U. S. Route No. 1, and north of the North Brunswick Township line;

(ii) That part of North Brunswick Township lying south of the New Brunswick City line, northeast of the Raritan River Railroad, and northwest of U. S. Route No. 1; and

(iii) That part of Parsippany Township lying east of the Raritan River, north of Landing Road, and west of State Route No. 18.

(3) That area in Lower Township in Cape May County lying east of U. S. Highway No. 9, and that area in Dennis Township in Cape May County bounded by the Belleplain State Forest on the south and east, State Highway No. 550 on the north and west, and State Highway Spur No. 550 on the west.

(4) All of Burlington County except the following:

(i) Delran, Washington, Shamong, Tabernacle, Chesterfield, Medford, and Bass River Townships;

(ii) That part of North Hanover Township lying south of Old Monmouth Road; and

(iii) That part of South Hampton Township lying south and west of the Retreat-Burrs Mill Road, north of State Route No. 70, and east of the Big Mill Road.

(5) All of Hudson County except the following:

(i) That part of North Bergen Township lying north of Secaucus Road, west of the New York, Susquehanna and Western Railroad, and south and east of the Pennsylvania Railroad;

(ii) That part of Secaucus Township lying north of the Pennsylvania Railroad, east of County Road, south of the New Jersey Turnpike and Weigands Lane, and west of Secaucus Road;

(iii) Lots 10, 11, and 12A, Block 42, Secaucus Township;

(iv) Block No. 9, Plot No. 2, known as 25 County Avenue, owned and operated by Walter Hodnovich;

(v) Block No. 9, Plot No. 7, known as 57 County Avenue, owned and operated by H. Henkel & Sons; and

(vi) Block No. 9, Plot No. 10, known as 75 County Avenue, owned and operated by William Zengel.

(6) All of Atlantic County except that part of Hamilton Township lying south and east of the Wrangleboro Road, west of County Route No. 575, and north of U. S. Route No. 40.

(7) All of Morris County except that part of Parsippany-Troy Hills Township north of U. S. Route No. 46, east of Baldwin Road, south of Vail Road, and west of North Beverwyck Road.

(8) All of Gloucester County except the following:

(i) That part of Deptford Township lying south and east of Little Timber Creek, west of the Westville-Almonesson Road, and north of a line perpendicular to the Westville-Almonesson Road, said line beginning at a point on the Westville-Almonesson Road 300 feet north of the New Jersey Turnpike right-of-way, running in a westerly direction and ending at Little Timber Creek, owned by Joseph Riddle, R. D. 1, Westville, New Jersey;

(ii) That part of Deptford Township included within a boundary beginning at a point 1,775 feet south of Delsea Drive on Tanyard Road, extending easterly 596 feet, thence southerly 1,203 feet, thence westerly 630 feet to Tanyard Road, thence northerly 1,132 feet following Tanyard Road to point of origin, owned by William Lafferty and Sons, Sewell, New Jersey;

(iii) That part of Deptford Township lying north of the New Jersey Turnpike, west of Delsea Drive, south of Joseph Street, and east of a line beginning at a point on Joseph Street, 1,250 feet west of Delsea Drive, and running parallel with Delsea Drive to the New Jersey Turnpike, owned by E. Miserendino and Sons, Westville, New Jersey;

(iv) That part of Deptford Township bounded by a line beginning at a point on Delsea Drive 190 feet north of Taras Avenue, running easterly 587 feet, thence northerly 392 feet, thence westerly 619 feet to Delsea Drive, thence southerly on Delsea Drive 200 feet to point of origin, owned by William Lafferty, operated by Thomas Wren;

(v) That part of Washington Township east of Delsea Drive, southwest of Egg Harbor Road, and north of Salina Road;

(vi) That part of Deptford Township bounded by a line beginning at a point on Delsea Drive 58 feet south of Deptford Avenue running westerly 2,313 feet, thence northerly 465 feet, thence easterly 1,787 feet to Deptford Avenue, thence southeasterly 777 feet along Deptford Avenue to Delsea Drive, thence south 58 feet on Delsea Drive to point of origin, owned and operated by Super Brothers;

(vii) That part of Deptford Township bounded by a line beginning at a point on Delsea Drive 450 feet southeast of the intersection of Delsea Drive, Tanyard Road and Egg Harbor Road, running east 1,500 feet, thence south 660 feet, thence west 111 feet to Delsea Drive, thence 588 feet north along Delsea Drive to point of origin, owned and operated by E. R. Bird;

(viii) That part of Deptford Township bounded by a line beginning at a point on Old Turkey Hill Road, 534 feet northeast of the intersection of Turkey Hill Road and Old Turkey Hill Road, running northeast 612 feet, thence north 180 feet, thence southeast 670 feet to Old Turkey Hill Road, thence south on Old Turkey Hill Road 180 feet to point of origin, owned by Vincent Koropha, operated by William R. Henry.

(9) All of Ocean County except that part of Lakewood Township lying north of Cedar Bridge Avenue, south and east of Cotterals Branch, and west of Harriman Street extending to Cedar Bridge Avenue; and except that part of Berkeley Township lying east of U. S. Highway No. 9.

(10) All of Camden County except the following:

(i) That part of Gloucester Township lying south of Evesham Avenue, east of Texas Run, and north of Somerdale Creek;

(ii) That part of Berlin Boro lying east of County Route No. 561, south of U. S. Route No. 30, and west of Trenton Road; and

(iii) Waterford Township.

(11) All of Monmouth County except the following:

(i) That part of Marlboro Township lying north of Spring Valley Road, west of Jamesburg Road, south of Red Barn Road, and east of Ticetown Road;

(ii) That part of Howell Township lying south of the Manasquan River, east of County Route No. 547, and north of County Route No. 549;

(iii) That part of Ocean Township bounded by a line beginning at a point on Brown Road 750 feet from Asbury Avenue, running northeast 1,895 feet, thence northwest 1,500 feet, thence southwest 1,940 feet to Brown Road, thence southeast on Brown Road 2,100 feet to point of origin, owned by T. H. Kaplan;

(iv) That part of New Shrewsbury Boro north of Asbury Avenue, east of Shafto Road, south of West Park Avenue, and west of Green Grove Road, owned by Bert Charlins; and

(v) Upper Freehold Township.

(12) All of Bergen County except the following:

(i) Wyckoff Township;

(ii) That part of Old Tappan and Rivervale Townships west of Washington Avenue, south of Poplar Avenue, north and east of Old Tappan Road; and

(iii) The Boro of Lodi.

(13) All of Hunterdon County except the following:

(i) That part of Rariton Township lying north of Croton Road, east of Old Flemington-Croton Road, south of Factory Road, and west of Goose Island Road;

(ii) That part of Raritan Township lying north of Copper Hill-Hampton's Corners Road, east and south of Johanna Road, and west of State Route No. 69;

(iii) That part of Alexandria Township south of the Everittstown-Pittstown Road, northeast of the Everittstown-Palmyra Road, and north of the Palmyra-Pittstown Road; and

(iv) That part of Franklin Township south and west of County Route No. 16, east of County Route No. 35, and north of Clifford Snyder Road.

(e) *New York:* That area in the Town of Clarkstown lying north of State Route No. 59, in Rockland County.

(f) *Rhode Island:* (1) All of Bristol County except the following:

(i) That part of the Town of Barrington lying north and west of the Barrington River, south of Wampanaug Trail, and east of County Road;

(ii) That part of the Town of Bristol lying north of Chestnut Street, south of Bayview Avenue, east of Metacom Avenue, and west of Hope Street; that part of the Town of Bristol lying south of Mount Hope Avenue, north of Woodlawn Avenue, west of Metacom Avenue, and east of DeWolfe Avenue; that part of the Town of Bristol lying south of Massasoit Avenue, north of Tower Street, west of the Kickamuit River, and east of Metacom Avenue; that part of the Town of Bristol lying south of Hopewood Avenue, north of King Phillip Avenue, west of Mount Hope Bay, and east of Metacom Avenue; and that part of the Town of Bristol lying south and east of Broad Common Road, north of Gooding Avenue, and west of Metacom Avenue; and

(iii) That part of the Town of Warren lying south of School House Road, north of Palmer Avenue, west of Market Street, and east of the Warren River; and that part of the Town of Warren lying north of Andy Road, south of Child Street, east of Long Lane, and west of Kinnicutt Avenue.

(2) All of Providence County except the following:

(i) That part of the Town of Cranston lying east of Pippin Orchard Road, west of Seven Mile Road, north of Plainfield Pike, and south of Scituate Avenue; and that part of the Town of Cranston lying south and west of Olney Road, north of Phenix and Hope Roads, and east of Pippin Orchard Road;

(ii) That part of the Town of Johnston lying east of Simmonsville Avenue, northwest of Scituate Avenue, and south of Simmonsville Lake; that part of the Town of Johnston lying east of Old Pocasset Road, west of Atwood Avenue, north of Central Pike, and south of U. S. Route No. 6; that part of the Town of Johnston lying south of Shun Pike, north of Plainfield Pike, west of Taylor Road, and east of Green Hill Road; that part of the Town of Johnston lying south of Central Avenue, north of Shun Pike, west of Cedar Swamp Brook, and east of Peck Hill Road; that part of the Town of Johnston lying south of Hartford and Stevenson Avenues, north of Pine Hill Road, and west of Cross Road; and that part of the Town of Johnston lying south of Cherry Hill Avenue, north of Hartford Avenue, west of Elsie Drive, and east of Atwood Avenue;

(iii) That part of the Town of Scituate lying west of Matteson Road, south of Hope Furnace Road, east of Burnt Hill Road, and north of Tunk Hill Road;

(iv) That part of the City of Providence lying east of Hamlin Street, west of Elena Street, north of Olney Street, and south of Mineral Spring Avenue; that part of the City of Providence lying south of Swan Point Cemetery, north of Gulf Avenue, west of the Seekonk River, and east of Grotto Avenue; that part of the City of Providence lying south of Rosner Street, north of Smart Street, west of Woodward Road, and east of Thelma Avenue; that part of the City of Providence lying south and east of Fruit Hill Avenue, and west of Olney Avenue; that part of the City of Providence lying south of Arthur Avenue, north of Gem Street, west of Washington Street, and east of Nemo Street; and that part of the City of Providence lying north of Francis Avenue, west of Pawtucket City Line, and east of Charles Street;

(v) That part of the Town of Cumberland lying south and east of Cherokee Avenue, north of Rain Street, and west of Spencer Street; and that part of the Town of Cumberland lying north of Wrentham Road, west of Fisher Road, and east of the Woonsocket City Line;

(vi) That part of the Town of Gloucester lying north of Douglas Hook Road, west of Gazza Road, and east of Spring Brook Road;

(vii) That part of the Town of Chepachet lying south of Cooper Road, north of Douglas Hook Road, west of Gazza Road, and east of the Chepachet River;

(viii) That part of the Town of Pascoag lying south of Church Street, north of Eagle Peak Road, west of Broad and High Streets, and east of Ross Road;

(ix) That part of the Town of Manville lying north and east of Little Pond County Road and south and west of Diamond Hill Road;

(x) That part of the City of North Providence lying south of Arro Street, north of Mineral Spring Avenue, west of View Avenue, and east of Easter Street; and that part of the City of North Providence lying south of Young Street, north of Goes Street, west of Crest Avenue, and east of Palm Street;

(xi) That part of the Town of Smithfield lying south of Whipple Road, north of Twin River Road, and east of Douglas Pike; and

(xii) That part of the Town of Howard lying south and east of Pontiac Avenue, and north and west of the Pawtucket River.

(3) All of Kent County except the following:

(i) That part of the Town of Coventry lying east of Hill Farm Road, west of Philips Hill Road, north of Flat River Road, and south of Harkney Hill Road; and that part of the Town of Coventry lying north of Biscut Hill Road, south of State Route No. 117, east of Franklin Road, and west of Bowen Hill North Road;

(ii) That part of the Town of Lincoln lying north of Whipple and Jencks Hill Roads, south of Twin River Road, and east of Lousquesset Pike;

(iii) That part of the Town of East Greenwich lying north of Middle Road, south of Frenchtown Road, east of south County Trail, and west of Tillinghast Road;

(iv) That part of the Town of West Greenwich lying north of Division Street, south of Henry Brown Road, east of Hopkins Hill Road, and west of New London Pike; and

(v) That part of the Town of East Providence lying south of Warren Avenue, north of Wampamoag Trail, west of Amaral Street, and east of Pawtucket Avenue.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment incorporates all prior amendments of § 76.27 of the regulations, and includes the following areas in California within the areas quarantined because of vesicular exanthema:

SE. ¼ Sec. 32, T. 8 S., R. 1 E., MDBM, in Santa Clara County.

SE. ¼ Sec. 31, T. 2 N., R. 9 E., SBBM, in San Bernardino County.

Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, Part 76, Subpart B, as amended, will apply to such areas.

The amendment also excludes certain areas in California and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1953 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment imposes certain further restrictions necessary to prevent the spread of vesicular exanthema, and relieves certain restrictions presently imposed. It must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 22d day of April 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 55-3503; Filed, Apr. 28, 1955; 8:48 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 85]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows. (Listed items to be placed in appropriate sequence in the sections indicated):

1. Section 610.101 *Amber Civil Airway No. 1* is amended by adding:

From—	To—	Minimum altitude
Ashland (INT), Oreg..	Medford, Oreg. (LFR) (northbound only).	8,000

2. Section 610.227 *Red Civil Airway No. 27* is amended to read in part:

From—	To—	Minimum altitude
Atlanta NAS, Ga. (LFR).	Knoxville, Tenn. (LFR).	7,000

3. Section 610.231 *Red Civil Airway No. 31* is amended to read in part:

From—	To—	Minimum altitude
Scottsbluff, Nebr. (LFR).	Rapid City, S. Dak. (LFR).	5,700

4. Section 610.279 *Red Civil Airway No. 79* is amended to read in part:

From—	To—	Minimum altitude
Annette Island,[1] Alaska (LFR).	Gravina Island, Alaska (LF/RBN).	4,700
Gravina Island, Alaska (LF/RBN).	Petersburg, Alaska (LFR).	5,700

[1] 3,200′—Minimum crossing altitude at Annette Island (LFR), northwest-bound.

5. Section 610.602 *Blue Civil Airway No. 2* is amended to read in part:

From—	To—	Minimum altitude
Butler, Pa. (LF/RBN).	Erie, Pa. (LFR).....	3,000

6. Section 610.301 *Red Civil Airway No. 101* is amended to read:

From—	To—	Minimum altitude
Tampa, Fla. (LFR)....	Ona (INT), Fla.....	1,300
Ona (INT), Fla.....	Miami, Fla. (LFR)...	1,100

7. Section 610.1001 *Direct routes United States* is amended to read:

From—	To—	Minimum altitude
Augusta, Ga. (LFR)...	Spartanburg, S. C. (LFR).	2,300

8. Section 610.6001 *VOR Civil Airway No. 1* is amended to delete:

From—	To—	Minimum altitude
Norfolk, Va. (VAR)...	Salisbury, Md. (VOR)..	1,500

9. Section 610.6001 *VOR Civil Airway No. 1* is amended by adding:

From—	To—	Minimum altitude
Whitehurst (INT), Va..	Salisbury, Md. (VOR)..	1,500

10. Section 610.6002 *VOR Civil Airway No. 2* is amended to read in part:

From—	To—	Minimum altitude
Albany, N. Y. (VOR)..	Greenfield (INT) Mass.	5,500
Greenfield[1] (INT) Mass.	Gardner, Mass. (VOR)..	3,000

[1] 5,500′—Minimum crossing altitude at Greenfield (INT), westbound.

11. Section 610.6004 *VOR Civil Airway No. 4* is amended to read in part:

From—	To—	Minimum altitude
St. Louis, Mo. (VOR)..	Troy, Ill. (VOR).....	2,100
Troy, Ill. (VOR).....	Centralia, Ill. (VOR)..	2,000
St. Louis, Mo. (VOR), via S alter.	Centralia, Ill. (VOR), via S alter.	2,200
Columbia, Mo. (VOR)..	New Florence[1] (INT), Mo.	2,100
New Florence (INT), Mo.	Monroe[1] (INT), Mo..	2,100
Monroe (INT), Mo....	St. Louis, Mo. (VOR)..	2,100

[1] 3,000′—Minimum reception altitude.

12. Section 610.6005 *VOR Civil Airway No. 5* is amended by adding:

From—	To—	Minimum altitude
Bowling Green, Ky. (VOR), via E alter.	Campbellsville (INT), Ky., via E alter.	[1] 3,000
Campbellsville (INT), Ky., via E alter.	Louisville, Ky. (VOR), via E alter.	[1] 3,000

[1] 2,400′—Minimum terrain clearance altitude.

13. Section 610.6005 *VOR Civil Airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
Macon, Ga. (VOR)....	McDonough[1] (INT), Ga.	[2] 2,700
McDonough (INT), Ga.	Atlanta, Ga. (VOR)..	2,200

[1] 2,700′—Minimum reception altitude.
[2] 2,200′—Minimum terrain clearance altitude.

14. Section 610.6006 *VOR Civil Airway No. 6* is amended to delete:

From—	To—	Minimum altitude
Des Moines, Iowa (VOR), via N alter.	Moline, Ill. (VOR), via N alter.	[1] 7,500

[1] 2,200′—Minimum terrain clearance altitude.

15. Section 610.6006 *VOR Civil Airway No. 6* is amended to read in part:

From—	To—	Minimum altitude
Des Moines, Iowa (VOR), via N alter.	Monroe[1] (INT), Iowa, via N alter.	2,200
Monroe (INT), Iowa, via N alter.	Iowa City, Iowa (VOR), via N alter.	2,200
Des Moines, Iowa (VOR), direct or S alter.	Iowa City, Iowa (VOR), direct or S alter.	2,200

[1] 3,500′—Minimum reception altitude.

16. Section 610.6007 *VOR Civil Airway No. 7* is amended to read in part:

From—	To—	Minimum altitude
Fort Myers, Fla. (VOR), via E alter.	La Belle[1] (INT), Fla., via E alter.	1,300
La Belle[1] (INT), Fla., via E alter.	Lakeland, Fla. (VOR), via E alter.	[2] 6,000
Fort Myers, Fla. (VOR),	Arcadia[2] (INT), Fla...	[1] 2,000
Arcadia[2] (INT), Fla....	Lakeland, Fla. (VOR)..	[1] 2,000

[1] 5,000′—Minimum reception altitude.
[2] 1,300′—Minimum terrain clearance altitude.
[3] 2,500′—Minimum reception altitude.

17. Section 610.6008 *VOR Civil Airway No. 8* is amended to read in part:

From—	To—	Minimum altitude
Des Moines, Iowa (VOR), via N alter.	Monroe[1] (INT), Iowa, via N alter.	2,200
Monroe (INT), Iowa, via N alter.	Grinnell (INT), Iowa, via N alter.	2,200
Grinnell (INT), Iowa, via N alter.	Big Rock (INT), Iowa, via N alter.	[2] 7,500
Grinnell (INT), Iowa, via N alter.	Big Rock (INT), Iowa, via N alter.	[3] 2,200
Big Rock (INT), Iowa, via N alter.	Moline, Iowa (VOR), via N alter.	2,200

[1] 3,500′—Minimum reception altitude.
[2] 2,200′—Minimum terrain clearance altitude.
[3] Utilizing Cedar Rapids LF/RBN.

18. Section 610.6012 *VOR Civil Airway No. 12* is amended to read in part:

From—	To—	Minimum altitude
Santa Barbara,[1] Calif. (VOR).	Fillmore, Calif (VOR)..	8,000
Columbus, Ohio (VOR)..	Adena[2] (INT), Ohio..	2,500
Adena (INT), Ohio....	Wheeling, W. Va. (VOR).	2,500
Columbia, Mo. (VOR)..	New Florence[2] (INT), Mo.	2,100
New Florence (INT), Mo.	Monroe[2] (INT), Mo..	2,100
Monroe (INT), Mo....	St. Louis, Mo. (VOR)..	2,100

[1] 7,000′—Minimum crossing altitude at Santa Barbara (VOR), eastbound.
[2] 3,500′—Minimum reception altitude.
[3] 3,000′—Minimum reception altitude.

19. Section 610.6013 *VOR Civil Airway No. 13* is amended to read in part:

From—	To—	Minimum altitude
Fort Smith, Ark. (VOR).	Fayetteville, Ark. (VOR).	3,500
Fayetteville, Ark. (VOR).	Neosho, Mo. (VOR)..	2,700
Lamoni, Iowa (VOR)..	Osceola[1] (INT), Iowa.	2,300
Osceola (INT), Iowa...	Des Moines, Iowa (VOR).	2,300
Des Moines, Iowa (VOR).	Ames[2] (INT), Iowa..	2,600
Ames (INT), Iowa.....	Alden (INT), Iowa....	[3] 3,000
Alden (INT), Iowa.....	Mason City, Iowa (VOR).	[3] 3,000

[1] 4,300′—Minimum reception altitude.
[2] 5,000′—Minimum reception altitude.
[3] 2,600′—Minimum terrain clearance altitude.

20. Section 610.6014 *VOR Civil Airway No. 14* is amended to read in part:

From—	To—	Minimum altitude
Indianapolis, Ind. (VOR).	Coldwater (INT), Ind.	[1] 4,300
Coldwater (INT), Ind.	Findlay, Ohio (VOR)..	2,200
Albany, N. Y. (VOR)..	Greenfield, (INT), Mass.	5,500
Greenfield,[2] (INT), Mass.	Gardner, Mass. (VOR).	3,000
Neosho, Mo. (VOR), via N alter.	Avilla (INT), Mo., via N alter.	2,500
Avilla (INT), Mo., via N alter.	Springfield, Mo. (VOR), via N alter.	2,600
Neosho, Mo. (VOR), via S alter.	Springfield, Mo. (VOR), via S alter.	2,600
Neosho, Mo. (VOR)...	Springfield, Mo. (VOR).	2,400

[1] 2,800′—Minimum terrain clearance altitude.
[2] 5,500′—Minimum crossing altitude at Greenfield (INT), westbound.

21. Section 610.6016 *VOR Civil Airway No. 16* is amended to delete:

From—	To—	Minimum altitude

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. T, Supp.]

PART 220—CREDIT BY BROKERS, DEALERS AND MEMBERS OF NATIONAL SECURITIES EXCHANGES

MAXIMUM LOAN VALUE; MARGIN REQUIRED FOR SHORT SALES

1. Effective April 23, 1955, § 220.8 (the Supplement to Regulation T) is hereby amended to read as follows:

§ 220.8 *Supplement*—(a) *Maximum loan value for general accounts.* The maximum loan value of a registered security (other than an exempted security) in a general account, subject to § 220.3, shall be 30 percent of its current market value.

(b) *Margin required for short sales in general accounts.* The amount to be included in the adjusted debit balance of a general account, pursuant to § 220.3 (d) (3), as margin required for short sales of securities (other than exempted securities) shall be 70 percent of the current market value of each such security.

2. (a) This amendment is issued pursuant to the Securities Exchange Act of 1934, particularly section 7 thereof. Its purpose is to change loan values and margin requirements in order to carry out the purposes of the Act.

(b) The notice and public procedure described in sections 4 (a) and 4 (b) of the Administrative Procedure Act, and the thirty day prior publication described in section 4 (c) of such act, are impracticable, unnecessary, and contrary to the public interest in connection with this amendment for the reasons and good cause found as stated in § 262.2 (e) of the Board's rules of procedure (Part 262 of this chapter).

(Secs. 11, 38 Stat. 262; 12 U. S. C. 248. Interpret or apply secs. 3, 7, 8, 17, 23, 48 Stat. 882, 886, 888, 897, 901, as amended; 15 U. S. C. 78c 78g, 78h, 78q. 78w)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[Reg. U, Supp.]

PART 221—LOANS BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING REGISTERED STOCKS

MAXIMUM LOAN VALUE OF STOCKS

1. Effective April 23, 1955, § 221.4 (the Supplement to Regulation U) is hereby amended to read as follows:

§ 221.4 *Maximum loan value of stocks.* For the purpose of § 221.1, the maximum loan value of any stock, whether or not registered on a national securities exchange, shall be 30 percent of its current market value, as determined by any reasonable method.

2. (a) This amendment is issued pursuant to the Securities Exchange Act of 1934, particularly section 7 thereof. Its purpose is to change loan values in order to carry out the purposes of the act.

(b) The notice and public procedure described in sections 4 (a) and 4 (b) of the Administrative Procedure Act, and the thirty day prior publication described in section 4 (c) of such act, are impracticable, unnecessary, and contrary to the public interest in connection with this amendment for the reasons and good cause found as stated in § 262.2 (e) of the Board's rules of procedure (Part 262 of this chapter).

(Sec. 11, 38 Stat. 262; 12 U. S. C. 248. Interpret or apply secs. 3, 7, 17, 23, 48 Stat. 882, 886, 897, 901, as amended; 15 U. S. C. 78c, 78g, 78q, 78w)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1137]

COLORADO

WITHDRAWING LANDS WITHIN ARAPAHO AND PIKE NATIONAL FORESTS IN CONNECTION WITH RESEARCH PROJECTS

By virtue of the authority vested in the President by the act of June 4, 1897, 30 Stat. 34, 36 (16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F. R. 4831) it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the national forests in Colorado hereinafter designated are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining laws but not the mineral-leasing laws, and reserved for use of the Forest Service, Department of Agriculture, in connection with research projects being conducted in furtherance of the act of May 22, 1928, 45 Stat. 699, as amended (16 U. S. C. 581, 581a–581k):

SIXTH PRINCIPAL MERIDIAN

ARAPAHO NATIONAL FOREST

Fraser Experimental Forest

T. 1 S., R. 76 W.,
Sec. 25, SW¼NW¼ and SW¼;
Sec. 26, S½N½ and S½;
Sec. 27, SE¼NE¼, NW¼NW¼, SW¼NW¼ and S½;
Sec. 28, E½E½;
Sec. 33, E½E½;
Secs. 34, 35 and 36.
T. 2 S., R. 76 W., unsurveyed,
Sec. 2, W½;
Secs. 3 to 10, inclusive;
Sec. 11, W½;
Sec. 14, W½;
Secs. 15 to 22, inclusive;
Sec. 23, W½;
Sec. 26, W½;
Secs. 27 to 34, inclusive;
Sec. 35, NW¼.
T. 3 S., R. 76 W., unsurveyed,
Sec. 3, NW¼NE¼, NW¼, N½SW¼ and SW¼SW¼;
Secs. 4 to 8, inclusive;
Sec. 9, N½;
Sec. 17, NW¼;
Sec. 18, N½.
T. 2 S., R. 77 W., unsurveyed,
Sec. 24, E½;
Sec. 25, E½;
Sec. 36, E½W½.
T. 3 S., R. 77 W., unsurveyed,
Sec. 1, E½ and E½W½;
Sec. 12;
Sec. 13, NE¼ and N½NW¼.

The areas described aggregate approximately 25,720 acres.

PIKE NATIONAL FOREST

Manitou Experimental Forest

T. 10 S., R. 68 W.,
Sec. 29, W½;
Secs. 30 and 31;
Sec. 32, W½W½.
T. 11 S., R. 68 W.,
Secs. 6 and 7;
Sec. 8, S½SW¼ and SW¼SE¼;
Sec. 17, NW¼NE¼ and W½;
Secs. 18 and 19;
Sec. 20, W½;
Sec. 30, N½N½.
T. 10 S., R. 69 W.,
Sec. 25;
Sec. 34, E½, E½NW¼, E½W½NW¼, NE¼NW¼SW¼, NE¼SE¼SW¼ and NE¼SW¼;
Secs. 35 and 36.

The areas described aggregate approximately 7,700 acres.

This order shall be subject to existing withdrawals for reclamation purposes so far as they affect any of the above-described lands; and shall take precedence over, but not otherwise affect the existing reservations of the lands for national forest purposes.

ORME LEWIS,
Assistant Secretary of the Interior.

APRIL 25, 1955.

[F. R. Doc. 55-3488; Filed, Apr. 28, 1955; 8:46 a. m.]

[Public Land Order 1138]

WYOMING

REVOKING PUBLIC LAND ORDER NO. 1043 OF DECEMBER 28, 1954

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 1043 of December 28, 1954, revoking Public Land Order No. 811 of March 7, 1952, which latter order withdrew the public lands and the minerals reserved to the United States in patented lands in the following-described areas in Wyoming for use of the United States Atomic Energy Commission is hereby revoked:

SIXTH PRINCIPAL MERIDIAN

T. 42 N., R. 75 W.,
Secs. 5 and 6.
T. 43 N., R. 75 W.,
Secs. 3 to 12, inclusive;
Secs. 15 to 22, inclusive;
Secs. 28 to 32, inclusive.
T. 44 N., R. 75 W.,
Secs. 31 to 34, inclusive.
T. 42 N., R. 76 W.,
Secs. 1 to 5, inclusive;
Secs. 7 to 11, inclusive;
Secs. 16 to 21, inclusive;
Secs. 29 and 30.
T. 43 N., R. 76 W.,
Secs. 1 to 5, inclusive;
Secs. 8 to 17, inclusive;
Secs. 20 to 29, inclusive;
Secs. 32 to 36, inclusive.
T. 44 N., R. 76 W.,
Secs. 11 to 16, inclusive;
Secs. 21 to 28, inclusive;
Secs. 32 to 36, inclusive.
T. 42 N., R. 77 W.,
Secs. 22 to 27, inclusive.

The areas described, including both public and non-public lands, aggregate approximately 65,343.29 acres.

The lands withdrawn by Public Land Order No. 811 remain subject to that order.

[SEAL] ORME LEWIS,
Assistant Secretary of the Interior.

APRIL 27, 1955.

[F. R. Doc. 55-3545; Filed, Apr. 28, 1955; 9:30 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF SYSTOX

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act, as amended (sec. 408 (d) (1)); 68 Stat. 512; 21 U. S. C. 348 (d) (1)), the following notice is issued:

A petition has been filed by Chemagro Corporation, 101 Park Avenue, New York, New York, proposing that tolerances for Systox (β-ethylmercaptoethyl diethylthionophosphate) be established at 0.75 part per million on the following raw agricultural commodities:

Apples.	Cabbage.
Pears.	Cauliflower.
Oranges.	Muskmelons.
Lemons.	Potatoes.
Grapefruit.	Almonds.
Grapes.	English walnuts.
Strawberries.	Alfalfa.
Broccoli.	Clover.
Brussels sprouts.	Hops.

An analytical method for determining residues of Systox, set forth in the petition, is as follows:

The analytical method is an adaptation of that described by P. A. Giang and S. A. Hall in Analytical Chemistry (1951), vol. 23, p. 1830.

A. Reagents. 1. Human blood plasma—source of cholinesterase—obtainable as outdated blood from blood banks, hospitals, clinics, etc. Also available as dried plasma from Winthrop Chemical Company, 1450 Broadway, New York, New York, and as "Lyovac" from Sharpe and Dohme, Philadelphia, Pennsylvania.

2. Buffer solution containing the following combined ingredients at the indicated concentration:

a. Sodium barbital, 0.036 *M*.
b. KH_2PO_4, 0.008 *M*.
c. KCl, 1.20 *M*.
d. HCl (0.1 *N*), add from burette to adjust buffer to pH 8.0.

3. Acetylcholine chloride, 0.66 *M*.
4. NaOH, 1.0 *N*.
5. Systox stock solution (Weigh 0.212 gram of Systox formulation (21.2 percent active) and dilute to 1 liter with water. 1 milliliter=45 μg.)

Add a drop of toluene to the buffer and acetylcholine chloride solution for preservative and refrigerate. Expose the buffer solution as little as possible to the atmospheric CO_2.

B. Apparatus (special). Waring Blendor, constant temperature bath, 5-milliliter micro beakers, and pH meter capable of being read with reasonable accuracy to 0.01 pH unit, e. g., a Beckman Model G. A centrifuge is helpful.

C. Preparation of sample. One hundred fifty grams of plant material is macerated in a Waring Blendor with 120 milliliters of water. In the case of strawberries, apples, lettuce, etc., it is not necessary to add water to the blender and should not be done since this decreases the sensitivity of the method. After several minutes maceration, the material is centrifuged to separate the water layer. In some cases filtration through a Buchner funnel can be substituted for centrifugation. Do not allow the water layer to age, but continue the same day with step D.

D. Procedure. Transfer 7 milliliters of the water layer after centrifuging or filtering to a small beaker and with a pH meter adjust the pH to 7.0, using 1.0 *N* NaOH. Add 1 milliliter of plasma to a 10-milliliter volumetric flask. Transfer the adjusted pH solution to the 10-milliliter volumetric flask, rinse the beaker with 1 milliliter of water, add to the volumetric flask and dilute to the mark. Thoroughly mix the contents of the flask and place in a constant temperature bath at 37.5° C. for 70 minutes. At the end of 70 minutes transfer 1 milliliter of this solution to a 5-milliliter beaker and add 1 milliliter of buffer solution. Place the beaker in the constant temperature bath for 10 minutes. Remove the beaker from the bath and read the pH. Add 0.2 milliliter of acetylcholine chloride solution and return the beaker to the water bath for 2 hours. At the end of the 2-hour period the pH is again read. The difference in pH between the initial and final readings after 2 hours is recorded as the change in pH which has occurred.

E. Theory: Preparation of standard curve. The application of this method to the estimation of Systox residues depends on ability to inhibit cholinesterase in vitro. In the operation of the method the following sequence of chemical events takes place:

1. Systox + cholinesterase → entire or partial inactivation of cholinesterase.
2. Remaining cholinesterase + acetylcholine chloride → acetic acid + choline chloride.
3. Acetic acid + buffer → change in pH.

The magnitude of pH change therefore varies inversely to the concentration of Systox residue present.

The initial pH readings taken as described above will ordinarily be between 7.20 and 7.80. An amount of plasma should be taken which will produce, in a blank or check experiment, a pH change of 1.50 to 2.00 units in 2 hours. With normal plasma this pH will occur with the recommended 1 milliliter. If it is necessary to use as much as 2 milliliters of plasma to get this pH change, then the water layer from the extraction should be reduced to 6 milliliters.

F. Calibration. A calibration curve is developed by adding to 150-gram samples in the blender 1, 2, and 3 milliliters of reagent 5 (Systox stock solution) to give 45, 90, and 135 micrograms of active material (0.3, 0.6, and 0.9 parts per million concentration). Continue the analysis with steps C and D.

If it is necessary during calibration, add water (120 milliliters) to the 150-gram sample in the blender before adding the Systox stock solution.

The following is an example of treating results:

I. Sample X, untreated check:

Initial pH	7.80
Final pH	6.00
ΔpH_1	1.80

II. Sample X, untreated check with 0.5 part per million Systox added:

Initial pH	7.80
Final pH	6.90
ΔpH_2	.90

$$\text{Percent inhibition of cholinesterase} = \frac{\Delta pH_1 - \Delta pH_2 \times 100}{\Delta pH_1} = \frac{1.80 - 0.90 \times 100}{1.80} = 50 \text{ percent}$$

The values for percentage inhibition thus found are plotted against parts per million Systox on semilog paper.

NOTE: For residues of systox on potatoes modify the method in the sample preparation by using chloroform to extract the toxins.

Dated: April 22, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

PALACE CITY AUCTION CO.

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Palace City Auction Company, Mitchell, South Dakota, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 25th day of April 1955.

[SEAL] H. E. REED,
Director, Livestock Division, Agricultural Marketing Service.

In F. R. Document 55-3202, appearing in the issue for Tuesday, April 19, 1955, at page 2590, make the following change: On page 2595, column 1, delete line 2 which reads "size, weight, capacity, dimensions, and" and insert in lieu thereof, "sons; and the marketing agreement and".

NOTICES

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined

Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended April 18, 1955, 20 F. R. 1579).

Colshire Manufacturing Co., Box 857, Morgantown, W. Va., effective 4-18-55 to 4-17-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (replacement certificate) (men's pajamas).

Cowden Manufacturing Co., 109 Mackville Hill, Springfield, Ky., effective 5-1-55 to 4-30-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (denim dungarees).

Cowden Manufacturing Co., Woodward, Okla., effective 4-18-55 to 10-17-55; 100 learners for plant expansion purposes (denim dungarees).

Glenridge Trouser Corp., Tipton, Mo., effective 4-17-55 to 4-16-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (dress trousers).

Hampton Underwear Co., Inc., Oak Street, Greenwood, S. C., effective 4-18-55 to 10-17-55; 75 learners for plant expansion purposes (housecoats).

Hampton Underwear Co., Inc., Oak St., Greenwood, S. C., effective 4-18-55 to 4-17-56; 10 learners for normal labor turnover purposes (housecoats).

Hollywood Corset Co., 24 West Fifth South Street, Salt Lake City, Utah, effective 5-6-55 to 5-5-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (brassieres).

Mantachie Manufacturing Co., Inc., Mantachie, Miss., effective 4-15-55 to 4-14-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Mid-American Manufacturing Co., Inc., 304 South First Street, Ponca City, Okla., effective 5-14-55 to 5-13-56; 10 learners for normal labor turnover purposes (denim jeans).

Stanberry Manufacturing Co., Stanberry, Mo., effective 4-12-55 to 4-11-56; 10 percent of the total number of factory production workers for normal labor turnover purposes. (Learners may not be employed at subminimum wage rates in the production of hats or caps.) (Leather garments for men, women and children.)

Trego's Westwear, 1001-1003 Seventh Street, Woodward, Okla., effective 4-12-55 to 4-11-56; 5 learners for normal labor turnover purposes; learners to be engaged at subminimum wage rates in the manufacture of only cowboy and cowgirl suits and leather fringed coats (cowboy and cowgirl suits and leather fringed coats).

Trevorton Manufacturing Corp., Shamokin Street, Trevorton, Pa., effective 4-18-55 to 10-17-55; 10 learners for plant expansion purposes (ladies' pajamas and undergarments).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended April 18, 1955, 20 F. R. 1579).

Taylor Manufacturing Co., Greensburg Road, Campbellsville, Ky., effective 4-22-55 to 4-21-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' knit underwear).

Union Underwear Co., Inc., Bowling Green, Ky., effective 4-15-55 to 4-14-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' shorts).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952, 17 F. R. 1500).

St. Louis Shoe Manufacturing Corp., New Athens, Ill., effective 4-15-55 to 4-14-56; 10 percent of the total number of factory production workers for normal labor turnover purposes.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended January 29, 1955, 20 F. R. 645).

The following special learner certificate was issued in the Virgin Islands to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

Matthewson, Inc., St. Thomas, Virgin Islands, effective 4-5-55 to 10-4-55; 5 learners to be employed in the occupation of operation of embroidery machine; 240 hours at 30 cents an hour and 240 hours at 35 cents an hour (re-embroidery on lace).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 19th day of April 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

[Gallup Area Office Redelegation Order 2, Amdt. 1]

GENERAL SUPERINTENDENTS, SUPERINTENDENTS AND OTHER DESIGNATED EMPLOYEES

REDELEGATIONS OF AUTHORITY

APRIL 25, 1955.

Order No. 2, (19 F. R. 8675) is amended as hereinafter indicated.

1. Section 1.1 *Appeals* is amended to read as follows:

SECTION 1.1 *Appeals.* Any action taken by any General Superintendent, Superintendent, or other officer pursuant to this order shall be subject to the right of appeal. An appeal may be taken from the decision of such General Superintendent, Superintendent, or other officer to the Area Director, Gallup Area Office. An appeal must be filed in writing with such General Superintendent, Superintendent, or other officer and shall be promptly transmitted by him with the record in the case to the Area Director, Gallup Area Office. Any action taken by the Area Director pursuant to this order shall be subject to the right of appeal to the Commissioner of Indian Affairs, pursuant to section 1 (a) of Order 551, as amended, of the Bureau of Indian Affairs. Any action taken by the Commissioner of Indian Affairs pursuant to this order shall be subject to the right of appeal to the Secretary of the Interior, pursuant to section 1 (a) of Order 2508, as amended, of the Secretary of the Interior.

2. A new section 3.246 *Grazing, Navajo Agency* is added to Part 3 under the heading, Functions Relating to Forest and Range Management, to read as follows:

SEC. 3.246 *Grazing, Navajo Agency.* The taking of action with respect to those matters set forth in 25 CFR Part 72. The authority delegated by this section does not include those matters set forth in 25 CFR 72.1, 72.2, 72.5 and 72.6.

3. A new part captioned Part 5, Authority of Assistant Superintendents, Navajo Agency, is added to read as follows:

PART 5—AUTHORITY OF ASSISTANT SUPERINTENDENTS, NAVAJO AGENCY

Subject to the provisions of Part 1, any Assistant Superintendent, Navajo Agency, is authorized to exercise the authority of his superior, the General Superintendent, Navajo Agency as indicated in this part.

FUNCTIONS RELATING TO LAND AND MINERALS

SEC. 5.16 *Mineral leases and permits.* (a) The approval of coal, sand, gravel, pumice, and building stone leases and permits of tribal and trust or restricted individually-owned lands.

(b) The authority delegated in this section does not include:

(1) Approval of leases on lands purchased or reserved for agency or school purposes,

(2) Approval of instruments providing for the payment of overriding royalty,

(3) Assignments of separate horizons or strata of the subsurface.

FUNCTIONS RELATING TO MEDICAL, HOSPITAL, AND NURSING SERVICES

SEC. 5.252 *Quarantine of Indians.* The quarantine of Indians refusing to submit to remedial treatment of contagious or infectious diseases, pursuant to the provisions of 25 CFR Part 84.

ALASKA

REVOCATION OF ORDERS OPENING LANDS UNDER FOREST HOMESTEAD ACT

APRIL 25, 1955.

Upon request of the Department of Agriculture and pursuant to the authority delegated by Departmental Order No. 2583, section 2.22 (a) of August 16, 1950, it is ordered as follows:

Subject to valid existing rights, the orders described below opening lands in the Tongass National Forest for entry under the act of June 11, 1906, as amended (34 Stat. 233; 16 U. S. C. 506-509) are hereby revoked so far as they affect the lands hereinafter described:

a. List No. 6-565; Date of Order of Opening: May 21, 1914.

Land:

Beginning at corner No. 1, a hemlock stake, whence the Forest Service Monument bears N. 53° 50' W. 11.17 chains, the west end of Sundum Island bears S. 66° 30' W., and house of August Beck bears N. 6° 45' E.; extending thence by meanders along the mean high tide line of Endicott Arm N. 53° W. 10.78 chains, N. 32° W. 4.90 chains, N. 16° 10' W. 3.33 chains, S. 67° 10' W. 6.47 chains, S. 11° 50' W. 4.61 chains, S. 80° 40' W. 6.86 chains, and S. 71° W. 2.26 chains to corner No. 2; thence N. 5.38 chains; thence N. 71° 30' E. 5.01 chains; thence N. 11. chains; thence E. 32 chains; thence S. 19° 45' W. 24.90 chains to corner No. 1, the place of beginning.

The tract described contains 48.10 acres.

b. List No. 8-63; Date of Order of Opening: February 13, 1924.

Land:

H. E. S. 254.

The tract described contains 21.81 acres.

W. G. GUERNSEY,
Associate Director.

NORTH PLATTE PROJECT, NEBRASKA AND WYOMING

ORDER OF REVOCATION, AMENDMENT

MARCH 16, 1955.

In accordance with the authority delegated by Departmental Order No. 2765 dated July 30, 1954, I hereby amend Revocation Order dated June 21, 1954, concurred in by the Bureau of Land Management on July 23, 1954, to include reference to the following Departmental Orders withdrawing lands for the North Platte Project: November 21 and December 5, 1904, September 21, 1906, October 23, 1907, April 23 and September 1, 1908, January 20, May 5 and October 6, 1909, July 8, 1916, February 28, 1931 and October 13, 1933.

E. G. NIELSEN,
Assistant Commissioner.

[Misc. 67318]

I concur. The records of the Bureau of Land Management will be noted accordingly.

W. G. GUERNSEY,
Associate Director, Bureau of Land Management.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10767—10769; FCC 55M-363]

TELEPHONE ANSWERING SERVICE ET AL.

ORDER CONTINUING HEARING

In re applications of Mrs. Pearl Forester, d/b as Telephone Answering Service, Dallas, Texas, Docket No. 10767, File No. 180-C2-P-53; Radio Paging, Dallas, Texas, Docket No. 10768, File No. 363-C2-P-53; George A. Smith, Jr., Dallas, Texas, Docket No. 10769, File No. 607-C2-P-53; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

The Hearing Examiner having under consideration a petition filed April 21, 1955, by George A. Smith, Jr., requesting a continuance of the hearing herein from the date now scheduled, April 28, 1955, to May 17, 1955, for the reason that the parties are engaged in the preparation of a stipulation of facts to avoid the necessity of the presentation of oral testimony and that additional time is needed for working out the stipulation; and

It appearing, that counsel for Mrs. Pearl Forester and for the Common Carrier Bureau have no objection to a grant of the petition;

It is ordered, This 25th day of April 1955, that the Petition is granted, and that the hearing is rescheduled to commence at 10:00 a. m., May 17, 1955, at Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 10931, 10933; FCC 55M-360]

MERCER BROADCASTING CO. ET AL.

ORDER SCHEDULING PREHEARING CONFERENCE

In re applications of Mercer Broadcasting Co., Trenton, New Jersey, Docket No. 10931, File No. BP-8714; Drew J. T. O'Keefe, Jack J. Dash & William F. Waterbury, Levittown-Fairless Hills, Pennsylvania, Docket No. 10933, File No. BP-8964; for construction permits.

The Hearing Examiner having under consideration the above-entitled proceeding:

It is ordered, This 22d day of April 1955, that all parties, or their attorneys, are directed to appear for a further prehearing conference, pursuant to the provisions of § 1.841 of the Commission's rules, at the Commission's offices in Washington, D. C., at 10:00 a. m., April 28, 1955.

[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3513; Filed, Apr. 28, 1955; 8:50 a. m.]

[Docket No. 10960; FCC 55M-362]

LAKE SHORE BROADCASTING CO., INC. (WSHE)

ORDER SCHEDULING PREHEARING CONFERENCE

In re application of Lake Shore Broadcasting Co., Inc. (WHSE), Sheboygan, Wisconsin, Docket No. 10960, File No. BP-8808; for construction permit.

The Hearing Examiner having under consideration a "motion for early hearing date," filed on April 14, 1955, by the Chief, Broadcast Bureau, requesting that the hearing now under indefinite continuance be scheduled for a date not later than May 2, 1955; the opposition filed on April 18, 1955, by Lake Shore Broadcasting Co., Inc.; and the oral argument of April 22, 1955, attended by counsel for the Chief, Broadcast Bureau, Lake Shore, and respondents Columbia Broadcasting System, Inc. and Radio Station WAIT;

It appearing, that the date suggested by the Broadcast Bureau is opposed as too early under the circumstances by Lake Shore and the respondents; that hearing on the instant 800 kc application would be obviated by favorable action on Lake Shore's amendment to its application for modification of construc-

tion permit to specify 950 kc; but that Lake Shore should not be permitted to tie up indefinitely the frequency involved in the present proceeding, and it is therefore appropriate to set a date for further consideration of the matter, including developments on the 950 kc application;

It is ordered, This 22d day of April 1955, that the motion of the Chief, Broadcast Bureau is granted to the extent that a prehearing conference is scheduled for Friday, May 20, 1955, at 10 a. m., in the offices of the Commission, Washington, D. C.; and that in all other respects the motion is denied.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

PHILLIPS PETROLEUM CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

APRIL 22, 1955.

In the matters of Phillips Petroleum Company, Docket No. G-2742; El Paso Natural Gas Company, Docket No. G-4263; Anderson-Prichard Oil Corporation, Docket No. G-4439; Mid-Continent Petroleum Corporation, Docket No. G-4511; Mendota Oil Company, Docket No. G-4588; Progress Petroleum Company of Texas, Docket No. G-4601; Greenbrier Oil Company, Docket No. G-4631; The Pure Oil Company, Docket No. G-7192.

Take notice that on September 13, 1954, Phillips Petroleum Company (Phillips), a Delaware corporation with principal office in Bartlesville, Oklahoma; on October 20, 1954, El Paso Natural Gas Company (El Paso), a Delaware corporation with principal office in El Paso, Texas; on October 25, 1954, Anderson-Prichard Oil Corporation (Anderson-Prichard), a Delaware corporation with principal office in Oklahoma City, Oklahoma; on October 21, 1954, Mid-Continent Petroleum Corporation (Mid-Continent), a Delaware corporation with principal office in Tulsa, Oklahoma; on October 27, 1954, Mendota Oil Company (Mendota), a partnership with principal office in St. Paul, Minnesota; on October 29, 1954, Progress Petroleum Co. of Texas (Progress), a Texas corporation with principal office in Houston, Texas; on November 1, 1954, Greenbrier Oil Co. (Greenbrier), a copartnership with principal office in St. Paul, Minnesota; and on December 1, 1954, The Pure Oil Company (Pure Oil), an Ohio corporation with principal office in Chicago, Illinois, filed applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing them to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Phillips, Anderson-Prichard, Mid-Continent, Mendota, Progress, Greenbrier, and Pure Oil (hereinafter called Independent Producers) propose to sell natural gas to El Paso at an initial rate of 9½ cents per Mcf, which gas will be produced in the Jack Herbert Strawn Field in Upton County, Texas. This gas will be commingled with other gas and resold at markets in other states served by El Paso's transmission pipeline system.

El Paso proposes to construct and operate facilities in Upton County, Texas for the transportation of natural gas from the Jack Herbert Strawn Field to a point of connection with El Paso's existing Upton County 20-inch line.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 19, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 13, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

D. J. HARRISON ET AL

NOTICE OF SEVERING PROCEEDING AND FURTHER FIXING DATE OF HEARING

APRIL 22, 1955.

In the matters of D. J. Harrison, Docket No. G-2877; J. C. Means, Jr., et al., Docket No. G-3023; Lloyd H. Smith, et al., Docket No. G-3554; Lloyd H. Smith, et al., Docket No. G-3555; Meredith & Company, as Operator, Docket No. G-3602; J. M. Frost, Jr., et al., Docket No. G-3684; J. M. Frost, Jr., et al., Docket No. G-3690; Kirby Petroleum Company, Docket No. G-3865; Carnes W. Weaver Drilling Company, and Frank W. Warburton, Trustee, Docket No. G-4692; McCarthy Oil & Gas Corporation, et al., Docket No. G-6328.

The above-entitled matters were consolidated for the purpose of hearing, and May 6, 1955 was fixed as the date of such hearing by notice of applications and date of hearing issued by the Secretary, dated April 11, 1955.

It appears after further study of the application in Docket No. G-3865 that the matters involved and the issues presented by said application should be severed from the other proceedings herein, and to that end:

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, Docket No. G-3865 is severed from the other proceedings herein and a hearing will be held on May 9, 1955, at 9:40 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by said application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceeding pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

GEORGE A. BUTLER ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

APRIL 22, 1955.

Take notice that George A. Butler et al., and others under docket numbers shown above (Applicants), filed on December 1, 1954, applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicants produce natural gas from fields in Texas and Louisiana, which is sold in interstate commerce to Tennessee Gas Transmission Company, Texas Eastern Transmission Corporation, Trunkline Gas Company, United Gas Pipe Line Company, United Gas Corporation, Transcontinental Gas Pipe Line Company, Shell Oil Company, Texas-Illinois Natural Gas Pipe Line Company, Arkansas Louisiana Gas Company, Southwest Gas Producing Company, Inc., Texas Natural Gasoline Corporation, and El Paso Natural Gas Company, for resale, all as more fully set forth in a tabulation.[1]

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 13, 1955, at 9:40 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) when requested and when not requested pursuant to § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 2, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

FEDERAL REGISTER

VOLUME 20 NUMBER 85

Washington, Saturday, April 30, 1955

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 612, Amdt. 3]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—KHAPRA BEETLE

ADMINISTRATIVE INSTRUCTIONS DESIGNATING PREMISES AS REGULATED AREAS UNDER REGULATIONS SUPPLEMENTAL TO KHAPRA BEETLE QUARANTINE

Pursuant to § 301.76–2 of the regulations supplemental to the Khapra Beetle Quarantine (7 CFR 301.76–2, 20 F. R. 1012) under section 8 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161), administrative instructions issued as 7 CFR 301.76–2a (20 F. R. 1237), effective March 1, 1955, as amended effective March 29, 1955 and April 15, 1955 (20 F. R. 1878, 2477), are hereby further amended in the following respects:

(a) The designation as a regulated area of Tulare Lake Warehouse No. 1, on Santa Fe R. R., Corcoran, California, included in the list contained in such instructions, is hereby revoked, and the reference to such premises in the list is hereby deleted, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises.

(b) The following premises are added to the list, contained in such instructions, of warehouses, mills, and other premises in which infestations of the khapra beetle have been determined to exist. Such premises are thereby designated as regulated areas within the meaning of said quarantine and regulations:

ARIZONA

Advance Seed Company, 310 South Twenty-fourth Avenue, Phoenix.

Allied Grain Company, 310 South Twenty-fourth Avenue, Phoenix.

Arizona Sales Company, 116 West Fourth Avenue, Mesa.

Erly-Fat Livestock Feed Company, South Peart Road at S. P. R. R., Casa Grande.

Erly-Fat Livestock Feed Company, 117 East Toole Avenue, Tucson.

Farm Equipment and Supply, First Street and California Avenue, Parker.

G & H Feed Store, 812 Thatcher Boulevard, Safford.

Mrs. Pearl McCreary Ranch, Route 1, Gilbert.

R. H. McElhaney Ranch, Box 405, Wellton.

F. P. Nielson & Sons, 116 West Fourth Avenue, Mesa.

Northrup-King Company, 404 South Twenty-third Avenue, Phoenix.

Jesse P. Stump Farm Storage, Route 1, Tolleson.

Tiemann Feed & Supply Company, 2001 North Stone Avenue, Tucson.

Valley Feed & Seed, 1918 West Van Buren, Phoenix.

Norman Welker Farm, Route 1, Safford.

Western Grain Elevator, 116 West Fourth Avenue, Mesa.

Whitman Grain Company, Eleventh Street, Yuma.

CALIFORNIA

J. Garafalo Ranch, on Airport Road, 1½ miles south of Colusa.

Union Development Co. Warehouse, approximately 100 yards south of intersection of county roads No. 86 and West A, Niland.

Wilkerson Brothers Ranch, on south side of county road No. 74, ½ mile east of county road East J. Calipatria.

NEW MEXICO

Slone Grain Company, 223 North Avenue B, Portales.

(c) The item appearing in the list, contained in such instructions under the subhead Arizona, as "Edward Beales Farm, P. O. Box 163, San Louis" is changed to read: Edward Beals Feed Lot, P. O. Box 163, San Luis.

(d) The item appearing in the list, contained in such instructions under the subhead California, as "F. J. Hauser & Sons Feed Lot, located 2 miles south of Orita, 1½ miles east on Oxalio Canal, Brawley" is changed to read: F. J. Hauseur & Sons Feed Lot, located 2 miles south of Orita, 1½ miles east on Oxalio Canal, Brawley.

(e) The item appearing in the list, contained in such instructions under the subhead California, as "Raymond A. Powell and Mike Denis Ranch, Route 1, Box 166, 1 mile north of Glenn" is changed to read: Raymond A. Powell and Mike Deniz Ranch, Route 1, Box 166, 1 mile north of Glenn.

(f) The item appearing in the list, contained in such instructions under the subhead California, as "Shaw and Dowar, ¾ mile north of Sandia, Holtville" is changed to read: Shaw and Dower (Feed lot and bulk storage at residence), ¾ mile north of Sandia, Holtville.

This amendment shall be effective April 30, 1955.

Title 49
Chapter I:
Part 96 — 2932

This amendment revokes the designation as a regulated area of a certain warehouse, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises. It also adds additional premises to the list of warehouses, mills, and other premises in which khapra beetle infestations have been determined to exist, and designates such premises as regulated areas under the khapra beetle quarantine and regulations. It further corrects certain designations of presently regulated areas.

This amendment supplements khapra beetle quarantine regulations already effective. It also relieves restrictions insofar as it revokes the designation of a regulated area. It must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as a regulated area. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 8, 37 Stat. 318, as amended, 7 U. S. C. 161)

Done at Washington, D. C., this 27th day of April 1955.

[SEAL] W. L. POPHAM,
Chief,
Plant Pest Control Branch.

913.31 Payroll reports.
913.32 Other reports.
913.33 Records and facilities.
913.34 Retention of records.

CLASSIFICATION

Sec.
913.40 Skim milk and butterfat to be classified.
913.41 Classes of utilization.
913.42 Shrinkage.
913.43 Responsibility of handlers and reclassification of milk.
913.44 Transfers.
913.45 Computation of skim milk and butterfat in each class.
913.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

913.50 Basic formula price.
913.51 Class prices.
913.52 Butterfat differentials to handlers.
913.53 Location adjustments to handlers.

APPLICATION OF PROVISIONS

913.60 Producer-handlers.
913.61 Handler operating an approved plant which is not a pool plant.
913.62 Handlers subject to other orders.
913.63 Diversion.

DETERMINATION OF QUOTA

913.65 Computation of daily quota for each producer.
913.66 Daily quota rules.

DETERMINATION OF UNIFORM PRICE

913.70 Computation of the value of milk received from producers by each handler at pool plants.
913.71 Computation of uniform price.
913.72 Computation of uniform price for quota milk and excess milk.

PAYMENTS

913.80 Time and method of payment.
913.81 Location adjustment to producers.
913.82 Producer butterfat differential.
913.83 Producer-settlement fund.
913.84 Payments to the producer-settlement fund.
913.85 Payments out of the producer-settlement fund.
913.87 Adjustment of accounts.
913.88 Marketing service.
913.89 Expense of administration.
913.90 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

913.100 Effective time.
913.101 Suspension or termination.
913.102 Continuing obligations.
913.103 Liquidation.

MISCELLANEOUS PROVISIONS

913.110 Agents.
913.111 Separability of provisions.

AUTHORITY: §§ 913.0 to 913.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 913.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") (7 U. S. C. 601 et seq.), and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act:

(2) The parity prices of milk as determined pursuant to § 913.2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective not later than May 1, 1955. Any delay beyond May 1, 1955, in the effective date of this order amending the order, as amended, would tend to disrupt the orderly marketing of milk for the Greater Kansas City marketing area. The provisions of the said amendatory order are known to handlers, the public hearing having been held February 15–16, 1955, the recommended decision having been issued March 28, 1955, and the final decision having been issued April 21, 1955. Therefore, reasonable time has been afforded persons affected to prepare for its effective date.

In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective May 1, 1955, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, as amended, which is marketed within the Greater Kansas City marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (February 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Greater Kansas City marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 913.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 913.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or such other officer or employee of the United States as is authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture of the United States.

§ 913.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified herein.

§ 913.4 *Person.* "Person" means any individual, partnership, corporation, association or other business unit.

§ 913.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers as defined in § 913.7, which the Secretary determines after application by the association:

(a) Is qualified under the provisions of the Act of Congress of February 8, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has its entire activities under the control of its members; and

(c) Has and is exercising full authority in the sale of milk of its members.

§ 913.6 *Greater Kansas City marketing area.* "Greater Kansas City marketing area" hereinafter called "marketing area" means all of the territory in Jackson County, Missouri; that part of Clay County, Missouri, south of Highway 92, beginning at the Platte County and Clay County line, east to the west section line of section 26 in Washington Township, north to the north section line of said section 26, east to the Clay County and Ray County line; Lee, Waldron, May and Pettis Townships in Platte County, Missouri; Wyandotte County, Kansas; Shawnee and Mission Townships in Johnson County, Kansas;

and Delaware, Leavenworth, and that part of Kickapoo and High Prairie Townships east of the 95th principal meridian in Leavenworth County, Kansas.

§ 913.7 *Producer.* "Producer" means any person, other than a producer-handler, who (a) produces milk under a dairy farm permit or rating issued by the applicable health authority of the marketing area for the production of milk to be used for consumption as milk in the marketing area on a dairy farm subject to the regular inspection of such authority, which (1) is received at a pool plant, or

(2) Is caused to be diverted within the limits established pursuant to § 913.63 from a pool plant to a non-pool plant by a handler or cooperative association for the account of such handler or cooperative association, or (b) produces milk acceptable to agencies of the U. S. Government for fluid consumption in its institutions or bases as Type I; Type II, No. 1; or Type III, No. 1, which is received at a pool plant supplying Class I milk to such an institution or base in the marketing area. This definition shall not include a person with respect to milk produced by him which is received by a handler who is subject to another Federal marketing order and who is partially exempted from this part pursuant to the provisions of § 913.62. As used in this part "dairy farm permit or rating" means one issued by the health authority charged with the inspection of milk for fluid consumption in the part of the marketing area where such milk is sold or disposed of, or was sold or disposed of before being diverted.

§ 913.8 *Route.* "Route" means any delivery (including a sale from a plant or plant store) of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, or cream in fluid form other than a delivery to any milk processing plant.

§ 913.9 *Approved plant.* "Approved plant" means any milk plant (a) which is approved by the applicable health authority of the marketing area for the handling of milk to be disposed of as Class I milk in the marketing area and (1) from which a route is operated in the marketing area, or (2) which is principally used to receive milk from dairy farmers, who meet the specifications (other than delivery to a pool plant) of § 913.7 and to prepare such milk for transfer to another approved plant from which a route is operated in the marketing area, or (b) which is supplying Class I milk to a Federal institution or base in the marketing area.

§ 913.10 *Pool plant.* "Pool plant" means an approved plant other than the plant of a producer-handler:

(a) During any delivery period within which an amount of milk equal to 15 percent or more of such plant's receipts of milk from dairy farmers who meet the specifications (other than delivery to a pool plant) of § 913.7 is disposed of from such plant as Class I milk on routes operated in the marketing area;

(b) During any delivery period of September, October, November, December, January, or February within which an amount of milk equal to 30 percent or more of such plant's receipts of milk from dairy farmers who meet the specifications (other than delivery to a pool plant) of § 913.7 is transferred in bulk to a plant described in paragraph (a) of this section. Any such plant which is a pool plant in each of the delivery periods of September, October, November, December, January, and February shall be a pool plant for each of the following months of March, April, May, June, July, and August, regardless of the quantity of milk then disposed of to other pool plants, if a written request for pool plant status for such six months' period is received from the operator of such plant by the market administrator before March 1; or

(c) (1) During any delivery period within which such plant is operated by a cooperative association, and 75 percent or more of the milk delivered during the delivery period by producers who are members of such association is received at the pool plants of other handlers.

(2) If a handler operates more than one approved plant, the percentage requirements of this definition shall apply to the combined receipts and disposition of such multiple plant operation except that no plant which was not an approved plant during each of the preceding delivery periods of September through February shall be a pool plant as a part of such multiple plant operation during any of the delivery periods of March through August unless such multiple plant operation qualified under paragraph (a) of this section for pool plant status for such delivery period.

§ 913.11 *Handler.* "Handler" means (a) the operator of an approved plant (whether or not such approved plant is a pool plant) in his capacity as such, or (b) Any cooperative association with respect to:

(1) The milk of any producer which such cooperative association causes to be diverted from a pool plant to a non-pool plant for the account of such cooperative association;

(2) The milk of any producer delivered to the pool plant of another handler during the same delivery period in which such cooperative association is the handler pursuant to subparagraph (1) of this paragraph with respect to any milk of such producer.

§ 913.12 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant but who receives no milk from producers.

§ 913.13 *Producer milk.* "Producer milk" means all milk produced by a producer, which is received at a pool plant either directly from such producer or from other handlers.

§ 913.14 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 913.15 *Delivery period.* "Delivery period" means a calendar month or the portion thereof during which this part or any amendment thereto is in effect.

§ 913.16 *Quota milk.* "Quota milk" means the amount of milk reecived by a handler from a producer during each of the delivery periods of February through July which is not in excess of such producer's daily quota computed pursuant to § 913.65 multiplied by the number of days in such delivery period on which such milk was received by the handler: *Provided,* That with respect to any producer on "every-other-day" delivery to a pool plant the days of non-delivery shall be considered as days of delivery for purposes of this section and of § 913.65.

§ 913.17 *Excess milk.* "Excess milk" means the amount of milk received by a handler from a producer during each of the delivery periods of February through July which is in excess of quota milk received from such producer during such delivery period, and shall include all milk received from a producer for whom no daily quota can be computed pursuant to § 913.65.

MARKET ADMINISTRATOR

§ 913.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 913.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 913.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 913.89 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 913.88) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 913.30 through 913.32,

(2) Maintained adequate records and facilities pursuant to § 913.33, or

(3) Made payments pursuant to §§ 913.80 through 913.87.

(i) On or before the 12th day after the end of each delivery period, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each delivery period as follows:

(1) On or before the 10th day of each month the minimum price for Class I milk pursuant to § 913.51 (a) and the Class I butterfat differential pursuant to § 913.52 (a), both for the current delivery period; and on or before the 5th day of each month the minimum price for Class II milk pursuant to § 913.51 (b) and the Class II butterfat differential pursuant to § 913.52 (b), both for the delivery period immediately preceding; and

(2) On or before the 10th day of each month the applicable uniform price(s) computed pursuant to §§ 913.71 and 913.72 and the producer butterfat differential computed pursuant to § 913.82, both applicable to milk delivered during the previous delivery period;

(k) Prepare and disseminate to the public such statistics and other information as he deems advisable and as do not reveal confidential information; and

(l) On or before February 1 of each year in writing notify: (1) Each producer who made deliveries of milk during the previous September through December of his daily quota computed pursuant to § 913.65, (2) each cooperative association of the daily quota of each member of such association, and (3) each handler of the daily quota of each producer from whom such handler received milk.

REPORTS, RECORDS, AND FACILITIES

§ 913.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each delivery period each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The receipts at each plant of milk from each producer, the average butterfat test, the pounds of butterfat contained therein, the number of days on which milk was received from such producer, and for each of the delivery periods of February through July, the total pounds of quota milk and excess milk received from each producer.

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk;

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area;

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe; and

(g) The pounds of skim milk and butterfat contained in all milk, skim milk, cream and other Class I products on hand at the beginning and at the end of the delivery period.

§ 913.31 *Payroll reports.* On or before the 20th day of each delivery period, each handler operating a pool plant shall submit to the market administrator his producer payroll for receipts during the preceding delivery period which shall show

(a) The total pounds of milk, the average butterfat test thereof, and the pounds of butterfat received from each producer and cooperative association, and the number of days on which milk was received from such producer, including, for each of the delivery periods of February through July, such producer's deliveries of quota milk and excess milk,

(b) The amount of payment to each producer and cooperative association, and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 913.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes producer milk to be diverted to any plant shall report, prior to such diversion, to the market administrator and to the cooperative association of which such producer is a member, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted.

(c) Each handler who receives from producers, milk for which payment is to be made to a cooperative association pursuant to § 913.80 (c) shall report to such cooperative association with respect to each such producer, on forms approved by the market administrator, as follows:

(1) On or before the 20th day of the delivery period, the total pounds of milk received during the first 15 days of the delivery period;

(2) On or before the 7th day after the end of the delivery period;

(i) The pounds per shipment, the total pounds of milk (quota milk and excess milk separately for February through July) and the average butterfat test of milk received from such producer during the delivery period;

(ii) The amount or rate and nature of any deductions; and

(iii) The amount of any payments due such producer pursuant to § 913.87.

§ 913.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts of producer milk and other source milk and the utilization of such receipts;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and each milk product on hand at the beginning and at the end of each delivery period.

§ 913.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 913.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the delivery period by a handler which is required to be re-

ported pursuant to § 913.30 shall be classified by the market administrator pursuant to the provisions of §§ 913.41 through 913.46.

§ 913.41 *Classes of utilization.* Subject to the conditions set forth in §§ 913.43 and 913.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of for consumption in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream (sweet or sour, including any mixture of cream and milk or skim milk containing less butterfat than the regular standard for cream), skim milk and butterfat used in creaming cottage cheese disposed of as creamed cottage cheese, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat: (1) used to produce butter, plain or sweetened condensed or evaporated milk, spray or roller process nonfat dry milk solids, powdered whole milk, ice cream, ice cream mix, frozen desserts, eggnog, aerated cream products with flavor or sweetening added in containers or dispensers under pressure, casein, margarine and cheese (including skim milk used to produce cottage cheese curd, but not including skim milk and butterfat used in creaming cottage cheese disposed of as creamed cottage cheese); (2) used for starter churning, wholesale baking and candy making purposes; (3) disposed of as livestock feed; (4) in skim milk dumped after prior notification to and opportunity for verification by the market administrator; and (5) in shrinkage not in excess of 2 percent of total receipts, other than receipts from pool plants of other handlers, of skim milk and butterfat, respectively.

§ 913.42 *Shrinkage.* The market administrator shall prorate shrinkage of skim milk and butterfat classified as Class II milk between the receipts of skim milk and butterfat, respectively, in milk from producers and other source milk.

§ 913.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 913.44 *Transfers.* Skim milk or butterfat transferred from a pool plant shall be classified:

(a) As Class I milk if transferred in the form of milk, skim milk, or cream, to the pool plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by the operators of both plants on or before the 7th day after the end of the delivery period within which such transfer occurred: *Provided,* That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 913.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *And provided further,* That if either or both plants have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk if transferred in the form of milk, skim milk or cream to a producer-handler.

(c) As Class I milk if transfered in the form of milk, skim milk or cream to a nonpool plant located more than 150 miles from the pool plant by the shortest highway distance as determined by the market administrator, except that (1) cream as transferred may be classified as Class II milk if its utilization as Class II milk is established through the operation of another Federal order for another milk marketing area; or (2) cream so transferred with prior notice to the market administrator, and with each container labeled or tagged with a certificate of the transferor that such cream is sold as "Grade C cream for manufacturing only", may be classified as Class II milk, subject to such verification of alternate utilization as the market administrator may make.

(d) As Class I milk, if transferred in the form of milk, skim milk or cream to a nonpool plant located less than 150 miles from the pool plant from which transferred, unless the market administrator is permitted to audit the records of receipts and utilization at such nonpool plant, in which case the classification of all skim milk and butterfat received at such nonpool plant shall be determined and the skim milk and butterfat transferred from the pool plant shall be allocated to the highest use remaining after subtracting, in series beginning with Class I milk, receipts of skim milk and butterfat at such nonpool plant direct from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such nonpool plant in markets supplied by such plant.

(e) Skim milk or butterfat transferred to a nonpool plant from which fluid milk, skim milk or cream is transferred to a pool plant shall be subject to reclassification to the extent of the amount so transferred from such nonpool plant.

§ 913.45 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct mathematical and other obvious errors in the report of receipts and utilization submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 913.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 913.45 the market administrator shall determine the classification of milk received from producers at the pool plant(s) of each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk prorated to shrinkage in skim milk received from producers pursuant to § 913.42;

(2) Subtract from the pounds of skim milk remaining in Class II the pounds of skim milk in other source milk: *Provided,* That if the receipts of skim milk in other source milk are greater than the pounds of skim milk remaining in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the pounds of skim milk remaining in each class the skim milk received from other pool plants according to its classification as determined pursuant to § 913.44 (a);

(4) Add to the pounds of skim milk remaining in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) Subtract from the pounds of skim milk remaining in each class any amount by which the pounds of skim milk remaining in both classes exceed the pounds of skim milk in milk received from producers in series beginning with Class II. Such excess shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I milk and of the Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 913.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk for the delivery period shall be the higher of the prices computed pursuant to paragraphs (a) or (b) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department divided by 3.5 and multiplied by 3.8:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) To the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period, add 20 percent thereof and multiply by 3.8.

(2) To the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 7.

§ 913.51 *Class prices.* Subject to the provisions of §§ 913.52 and 913.53, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the delivery period shall be as follows:

(a) *Class I milk.* The basic formula price for the preceding delivery period plus $1.15 during each of the delivery periods of April, May, June and July, and plus $1.45 during all other delivery periods plus or minus a supply demand adjustment of not more than 45 cents, computed as follows:

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers and sales by producer handlers) for the same months, multiply the result by 100 and round to the nearest whole number. The result shall be known as the "current utilization percentage";

(2) Compute a "net deviation percentage" as follows:

(i) If the current utilization percentage is neither less than the minimum standard utilization percentage specified below nor in excess of the maximum standard utilization percentage specified below, the net deviation percentage is zero;

(ii) Any amount by which the current utilization percentage is less than the minimum standard utilization percentage specified below is a "minus net deviation percentage";

(iii) Any amount by which the current utilization percentage exceeds the maximum standard utilization percentage specified below is a "plus net deviation percentage".

Delivery period for which price applies	Delivery periods used in computation	Percentages	
		Minimum	Maximum
January	November-December	122	128
February	December-January	124	130
March	January-February	125	131
April	February-March	127	134
May	March-April	130	137
June	April-May	144	153
July	May-June	150	160
August	June-July	146	154
September	July-August	138	146
October	August-September	127	133
November	September-October	117	123
December	October-November	120	126

(3) For a "minus net deviation percentage" the Class I price shall be increased and for a "plus deviation percentage" the Class I price shall be decreased as follows:

(i) One cent for each such percentage point of net deviation; plus

(ii) One cent for each such percentage point of net deviation for which a percentage point of net deviation of like direction was computed pursuant to subparagraph (2) of this paragraph in the computation of the Class I price applicable for the delivery period immediately preceding; plus

(iii) One cent for each such percentage point of net deviation for which percentage points of net deviation in like direction were computed pursuant to subparagraph (2) of this paragraph in the computations of each of the Class I prices applicable for the first and second delivery periods immediately preceding.

(b) *Class II milk.* The basic formula price for the current delivery period during each of the delivery periods of September, October, November, December, January and February, and such basic formula price less 20 cents during all other delivery periods.

§ 913.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to either class pursuant to § 913.46 (c) is more or less than 3.8 percent there shall be added to the respective class price computed pursuant to § 913.51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 3.8 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 3.8 percent, an amount equal to the butterfat differential computed as follows:

(a) For Class I milk, multiply the butter price specified in § 913.50 (b) (1) by 1.3 and divide the result by 10;

(b) For Class II milk (1) during each of the delivery periods of September through February, multiply the butter price specified in § 913.50 (b) (1) by 1.2 and divide the result by 10; and (2) during each of the delivery periods of March through August, multiply the butter price specified in § 913.50 (b) (1) by 1.15 and divide the result by 10.

§ 913.53 *Location adjustments to handlers.* For milk which is received from producers at a pool plant located more than 50 miles by shortest highway distance, as determined by the market administrator, from the City Hall in Kansas City, Missouri, and which is classified as Class I milk the prices computed pursuant to § 913.51 (a) shall be reduced by 16 cents if such plant is located more than 50 miles but not more than 70 miles from such City Hall and by an additional one-half cent for each 10 miles or fraction thereof that such distance exceeds 70 miles.

In case such pool plant is operated by a handler who also has a plant in the marketing area, milk moved to such plant in the marketing area shall be considered to be Class I milk to the extent that the Class I milk disposed of from such plant in the marketing area exceeds receipts of milk from producers at such plant in the marketing area: *Provided,* That if such handler has two or more pool plants to which location adjustments apply, the milk so classified as Class I milk shall be deemed to have been transferred from such pool plants in the order of their distance from the City Hall in Kansas City.

Location adjustments on milk transferred as Class I milk from a pool plant to the pool plant of another handler shall apply only to that portion of such milk which is not in excess of the amount by which the total Class I sales of the receiving handler are greater than the total receipts of such handler from producers.

APPLICATION OF PROVISIONS

§ 913.60 *Producer-handlers.* Sections 913.40 through 913.45, 913.50 through 913.53, 913.61, 913.70, 913.71, 913.80 through 913.89 shall not apply to a producer-handler.

§ 913.61 *Handler operating an approved plant which is not a pool plant.* Each handler who operates an approved plant which is not a pool plant shall pay, with respect to all skim milk and butterfat other than that transferred to the pool plant of another handler, disposed of as Class I milk within the marketing area, an amount equal to the difference between the value of such skim milk and butterfat at the Class I price and their value at the Class II price. Payments pursuant to this section shall be made to the market administrator for the producer-settlement fund on or before the 12th day after the end of each delivery period.

§ 913.62 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing order issued pursuant to the act, the provisions of this part shall not apply, except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require, and allow verification of such reports by the market administrator.

(b) Such handler shall pay to the market administrator for the producer-settlement fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the excess, if any, by which the value of such skim milk and butterfat as determined pursuant to this part exceeds its value as determined pursuant to the other order to which he is subject. Such payments shall be made on or before the 12th day after the end of each delivery period.

§ 913.63 *Diversion.* (a) Milk diverted for the account of a handler from an approved plant of such handler to a milk plant which is not a pool plant shall be deemed to have been received by such handler at the approved plant from which such milk was diverted, except that for any of the delivery periods of September through December no milk so

diverted shall be deemed to have been so received at an approved plant from any producer or person whose milk was diverted to an unapproved plant for more than 10 days during such delivery period.

(b) Milk diverted for the account of a handler from an approved plant of such handler to a pool plant of another handler for not more than 5 days during the delivery period shall be deemed to have been received by the diverting handler at the approved plant from which such milk was diverted; milk received at a pool plant for more than 5 days during the delivery period shall be deemed to have been received at such pool plant by the handler who operates such pool plant.

(c) Milk diverted by a cooperative association that does not operate an approved plant, from a pool plant to another milk plant for the account of such cooperative association shall be deemed to have been received by such cooperative association at a pool plant at the same location as the pool plant from which such milk was diverted, except that for any of the delivery periods of September through December no milk so diverted shall be deemed to have been so received at an approved plant from any producer or person whose milk was diverted to an unapproved plant for more than 10 days during such delivery period.

DETERMINATION OF QUOTA

§ 913.65 *Computation of daily quota for each producer.* The daily quota for each producer applicable during each of the delivery periods of February through July, inclusive, shall be determined by the market administrator as follows:

(a) Divide the total pounds of milk received by a handler(s) at a pool plant from such producer during the immediately preceding delivery periods of September through December by the number of days during such period on which milk was received from such producer, or by 90, whichever is greater: *Provided,* That the daily quota applicable during the delivery periods of February through July 1955 shall be the higher of that resulting from such computation or that resulting from an identical computation with respect to milk received from such producer during the immediately preceding delivery periods of October through December.

§ 913.66 *Daily quota rules.* (a) Except as provided in paragraph (b) of this section, a daily quota shall apply only to milk produced by the producer in whose name such milk was delivered to the handler(s) during the quota-forming period.

(b) A producer may transfer his daily quota during the period of February through July by notifying the market administrator in writing before the last day of any delivery period that such quota is to be transferred to the person named in such notice but under the following conditions only:

(1) In the event of the death or entry into military service of a producer, the entire daily quota may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm;

(2) If a quota is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders the entire daily quota may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy operations.

DETERMINATION OF UNIFORM PRICE

§ 913.70 *Computation of the value of milk received from producers by each handler at pool plants.* The value of milk received during each delivery period by each handler from producers at pool plants shall be a sum of money computed as follows:

(a) Multiply the pounds of milk in each class computed pursuant to § 913.46 (c) by the applicable respective class prices and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 913.46 (a) (5) by the applicable respective class prices; and

(c) For any other source skim milk or butterfat subtracted from Class I milk pursuant to § 913.46 (a) (2) and (b), add an amount equal to the differences between the values of such skim milk and butterfat at the Class I price and at the Class II price, unless the handler can prove to the satisfaction of the market administrator that such other source skim milk and butterfat was used only to the extent that producer milk was not available.

§ 913.71 *Computation of uniform price.* For each of the delivery periods of August through January the market administrator shall compute the uniform price per hundredweight for milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 913.70 for all handlers who filed reports prescribed in § 913.30 and who made the payments pursuant to §§ 913.80 and 913.84 for the preceding delivery period;

(b) Add the aggregate of the values of all allowable location differential adjustments to producers pursuant to § 913.81;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(d) Subtract for each one-tenth percent by which the average butterfat content of the milk included in these computations is greater than 3.8 percent, or add for each one-tenth percent that such average butterfat content is less than 3.8 percent, an amount computed by multiplying the butterfat differential computed pursuant to § 913.82 by the total hundredweight of such milk;

(e) Divide by the total hundredweight of milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price for milk of 3.8 percent butterfat content received at pool plants located less than 50 miles from the City Hall in Kansas City, Missouri.

§ 913.72 *Computation of uniform price for quota milk and excess milk.* For each of the delivery periods of February through July the market administrator shall compute uniform prices per hundredweight for quota milk and for excess milk as follows:

(a) Combine into one total the values computed pursuant to § 913.70 for all handlers who filed reports pursuant to § 913.30 and who make the payments pursuant to §§ 913.80 and 913.84 for the preceding delivery period:

(b) Add the aggregate of the values of all allowable location differential adjustments to producers pursuant to § 913.81;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement funds;

(d) Subtract for each one-tenth percent by which the average butterfat content of the milk included in these computations is greater than 3.8 percent, or add for each one-tenth percent that such average butterfat content is less than 3.8 percent, an amount computed by multiplying the butterfat differential computed pursuant to § 913.82 by the total hundredweight of such milk;

(e) Compute the total value of excess milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 3.8 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 3.8 percent butterfat content, and adding together the resulting amounts;

(f) Divide the total value of excess milk obtained in paragraph (e) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 3.8 percent butterfat received from producers at pool plants located less than fifty miles from the City Hall in Kansas City, Missouri;

(g) Subtract the value of excess milk obtained in paragraph (e) of this section from the aggregate value of milk obtained in paragraph (d) of this section and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(h) Divide the amount obtained in paragraph (g) of this section by the total hundredweight of quota milk included in these computations; and

(i) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (h) of this section. The resulting figure shall be the uniform price for quota milk of 3.8 percent butterfat content received from producers at pool plants located less than fifty miles from the City Hall in Kansas City, Missouri.

PAYMENTS

§ 913.80 *Time and method of payment.* Each handler operating a pool plant shall make payment as follows:

(a) On or before the 12th day after the end of each delivery period during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) pursuant to § 913.71 or § 913.72, adjusted by the butterfat differential computed pursuant to § 913.82, subject to the location adjustment to producers pursuant to § 913.81, and less the following amounts (1) the payments made pursuant to paragraph (b) of this section, (2) marketing service deductions pursuant to § 913.88, and (3) any deductions authorized by the producer: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 913.85 he may reduce his total payment to all producers uniformly by not less than the amount of reduction in payment from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each delivery period to each producer (1) for whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) of this section and (2) who had not discontinued shipping milk to such handler before the 18th day of the delivery period, an advance payment with respect to milk received from such producer during the first 15 days of the delivery period at the approximate value of such milk, not to be less than the Class II price for 3.8 percent milk for the preceding delivery period, without deduction for hauling;

(c) To a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines such cooperative association is authorized to collect payment as follows:

(1) On or before the 20th day of the delivery period, an amount equal to not less than the Class II price for 3.8 percent milk for the preceding delivery period multiplied by the hundredweight of milk received during the first 15 days of the delivery period from such producers as did not discontinue delivering milk to such handlers before the 18th day of the delivery period, less any deductions authorized in writing by such cooperative association;

(2) On or before the 11th day after the end of each delivery period an amount equal to not less than the applicable uniform prices pursuant to § 913.71 or § 913.72, adjusted by the butterfat differential computed pursuant to § 913.82 for the weighted average butterfat content of the milk received from such producer, multiplied by the hundredweight of milk received from such producers during the delivery period, adjusted as applicable for location adjustment to producers pursuant to § 913.81 and less (i) payment made such cooperative association pursuant to subparagraph (1) of this paragraph, (ii) amounts owing such handler for supplies or merchandise purchased from him by such producers, (iii) deductions for which written authorization of a producer were on file as a means of liquidating a then existing obligation prior to receipt of the written request for payment to such cooperative association; and (iv) proper deductions authorized in writing by such cooperative association: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 913.85, he may reduce his payment to the cooperative association by not more than the pro rata share of such underpayment. Payments to the cooperative association shall be complete thereafter not later than the second day following receipt of the balance due from the market administrator.

(d) On or before the 11th day after the end of each delivery period, to each cooperative association, with respect to receipts of milk for which such cooperative association is defined as the handler pursuant to § 913.11 (b) (2), not less than the value of such milk as classified pursuant to § 913.44 (a) at the applicable respective class price(s).

(e) In making payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 913.80, 913.81 and 913.82;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 913.88 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

(f) Nothing in this section shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

§ 913.81 *Location adjustment to producers.* In making payments to producers, pursuant to § 913.80 (a), for milk received at a pool plant located 50 miles or more from the City Hall in Kansas City, Missouri, by shortest highway distance as determined by the market administrator, there shall be deducted 16 cents per hundredweight of milk for distances of 50 to 70 miles, inclusive, plus an additional one-half cent for each additional 10 miles or fraction thereof in excess of 70 miles.

§ 913.82 *Producer butterfat differential.* In making payments pursuant to § 913.80, there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 3.8 percent, an amount computed by adding 4 cents to the butter price specified in § 913.50 (b) (1) dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 913.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 913.61, 913.62, and 913.84 and all appropriate payments pursuant to § 913.87 and out of which he shall make all payments pursuant to § 913.85 and all appropriate payments pursuant to §§ 913.86 and 913.87: *Provided,* That payments due to any handler shall be offset by payments due from such handler.

§ 913.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers, during such delivery period as determined pursuant to § 913.70 is greater than the amount required to be paid producers by such handler pursuant to § 913.80 before deductions (a) for marketing services pursuant to § 913.88 and (b) authorized by the producer.

§ 913.85 *Payments out of the producer-settlement fund.* On or before the 12th day after the end of each delivery period during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during such delivery period as determined pursuant to § 913.70 is less than the amount required to be paid producers by such handler pursuant to § 913.80 before deductions (a) for marketing services pursuant to § 913.88 and (b) authorized by the producer: *Provided,* That if at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payment and shall complete such payments as soon as the necessary funds are available.

§ 913.87 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due the market administrator or any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of the amount due and payment therefor shall be made within 5 days if such amount is due the market administrator, or on or before the next date for making payments to producers or a cooperative association, if such amount is due them. Whenever such audit discloses errors resulting in moneys due such handler from the market administrator, payment shall be made within 5 days.

§ 913.88 *Marketing service*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers other than himself pursuant to § 913.80 (a), shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from producers during the delivery period, and shall pay such deductions to the market administrator on or before the 12th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from and to provide market information to such producers.

(b) *Deductions with respect to members of a cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions from the payments to be made directly to producers pursuant to § 913.80 (a), as are authorized by such producers, and, on or before the 12th day after the end of each delivery period, pay over such deductions to the association of which such producers are members, accompanied by a statement showing the amount of the deduction and the quantity of milk for which it was computed for each such producer.

§ 913.89 *Expense of administration*—(a) *Payments by handlers.* As his pro rata share of the expense of the administration hereof, each handler shall pay the market administrator, on or before the 12th day after the end of each delivery period, 2 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received from producers during such delivery period.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's pro rata share of expenses set forth in this section.

§ 913.90 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representative all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 913.100 *Effective time.* The provisions of this part or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 913.101.

§ 913.101 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 913.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations under this part the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 913.103 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 913.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 913.111 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 27th day of April 1955 to be effective on and after the 1st day of May 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[Navel Orange Reg. 58]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.358 *Navel Orange Regulation 58*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on April 28, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., May 1, 1955, and ending at 12:01 a. m., P. s. t., May 8, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300,300 boxes;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "boxes," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 29, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Docket No. AO-71-A-29]

PART 927—MILK IN THE NEW YORK METROPOLITAN MILK MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective on May 1, 1955. An effective date other than as of the first day of a month is administratively impracticable. The provisions of the said order are well known to handlers, having been included in the decision published in the FEDERAL REGISTER on April 22, 1955 (20 F. R. 2688). The changes effected by this order amending the order, as amended, do not require substantial or extensive preparation by persons affected prior to its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective on May 1, 1955.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the New York metropolitan milk marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (February 1955), were engaged in the production of milk for sale in the said marketing area.

It is therefore ordered, That on and after May 1, 1955, the handling of milk in the New York metropolitan milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as heretofore amended and as hereby further amended as follows:

1. Replace the period at the end of the first sentence in paragraph (a) of § 927.40 with a colon and add thereto the following: *"And provided further,* That such Class I-A price shall not be less than $4.75 during any of the months of May through September 1955."

2. Amend subparagraph (2) of paragraph (b) in § 927.40 to read as follows:

(2) There is a difference of more than 15 points for each of three consecutive months between 90 percent of the index of cost of production announced pursuant to § 927.46 (a) (6) and the index of the Class I-A price announced pursuant to § 927.46 (a) (7).

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of April 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-3541; Filed, Apr. 29, 1955; 8:50 a. m.]

[Orange Reg. 278]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.736 *Orange Regulation 278*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part

933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 2, 1955. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until May 2, 1955; the recommendation and supporting information for continued regulation subsequent to May 1, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on April 26; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., May 2, 1955, and ending at 12:01 a. m., e. s. t., May 16, 1955, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than a size that will pack 150 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 274 (§ 933.728, 20 F. R. 1359).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 27, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-3535; Filed, Apr. 29, 1955; 8:48 a. m.]

[Grapefruit Reg. 223]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.737 *Grapefruit Regulation 223*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 7 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 2, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until May 2, 1955; the recommendation and supporting information for continued regulation subsequent to May 1, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on April 26; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., May 2, 1955, and ending at 12:01 a. m., e. s. t., May 16, 1955, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any white seedless grapefruit, grown in "Regulation Area I," which do not grade at least U. S. No. 2;

(iii) Any white seedless grapefruit, grown in "Regulation Area II," which do not grade at least U. S. No. 2 Russet;

(iv) Any pink seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(v) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack. in a standard nailed box;

(vi) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vii) Any white seedless grapefruit, grown in "Regulation Area I," that grade U. S. No. 2 Bright, or U. S. No. 2, which are of a size larger than a size that will pack 54 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," 'ship," "Growers Administrative Committee," "Regulation Area I," and "Regulation Area II" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2 Bright," "U. S. No. 2," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Grapefruit (§§ 51.750–51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 27, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Docket No. AO 256-A1]

PART 952—MILK IN THE AUSTIN-WACO, TEXAS, MARKETING AREA

ORDER AMENDING ORDER

§ 952.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Austin-Waco, Texas, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended and all of the terms and conditions of said order as hereby amended will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than May 1, 1955. Any delay beyond that date will seriously threaten the orderly marketing of milk in the Austin-Waco, Texas, marketing area.

The provisions of the said order are known to handlers. The decision of the Assistant Secretary containing all amendment provisions of this order was issued April 21, 1955. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective May 1, 1955 and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order which is marketed within the Austin-Waco, Texas, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least three-fourths of the producers who, during the determined representative period (February 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Austin-Waco, Texas, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order as hereby amended, as follows:

1. Amend § 952.70 by adding a new paragraph to read as follows:

(e) From the effective date hereof through June 1955 deduct for each hundred pounds of producer milk which was allocated to Class II pursuant to § 952.46 and which was either used in the production of Cheddar cheese or assigned to such product pursuant to § 952.44 the difference between the Class II price for milk containing 4 percent butterfat and the price obtained by multiplying by 8.2 the average of the daily prices paid per pound of cheese at Wisconsin Primary markets ("Cheddars" f. o. b. Wisconsin assembling points, cars or truckloads) as reported by the Department during the month.

2. Delete § 952.73 (a) and substitute therefor the following:

(a) Subject to the conditions set forth in paragraph (b) of this section, compute the value on a 4.0 percent butterfat basis of excess milk received by such handler by multiplying the hundredweight of such milk by the price for Class II milk of 4.0 percent butterfat content and deducting therefrom the deduction made pursuant to § 952.70 (e);

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of April 1955, to be effective on and after May 1, 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

COMPILATION OF ORDER REGULATING HANDLING

For convenient reference, the texts of the codified portions of Order No. 53, regulating the handling of lemons grown in California and Arizona and comprising Subpart—Order Regulating Handling (F. R. Doc. 41-2545; 6 F. R. 1833) which became effective on April 10, 1941, as amended (13 F. R. 766; 14 F. R. 3612), amended and recodified (16 F. R. 5525-5530), and as further amended (18 F. R. 6767; 19 F. R. 7175) are reprinted in the FEDERAL REGISTER in the form of a compilation.

This material was prepared in cooperation with the Federal Register Division and has been examined for completeness and accuracy.

Dated: April 27, 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

AUTHORITY: §§ 953.0 to 953.92 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 953.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein. (Original findings in 6 F. R. 1833.)

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Los Angeles, California, on June 22, 1954, upon proposed amendments to Marketing Agreement No. 94, as amended, and Order No. 53, as amended (7 CFR Part 953) regulating the handling of lemons grown in California and Arizona. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended, and as hereby further amended, regulates the handling of lemons grown in the States of California and Arizona in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act; and

(4) The said order, as amended, and as hereby further amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the lemons covered thereby.

(b) *Additional findings.* It is hereby found and determined on the basis hereinafter indicated that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). The provisions of this order make certain changes in the composition of the Lemon Administrative Committee, the agency charged with the administration of this program, and in the procedures for nominating the membership of the committee. The term of office of the current members of the committee ends on October 31, 1954, and the provisions of this order should be made effective as soon as practicable so that the new committee may be nominated and appointed in conformity therewith. The provisions of this order are well known to the handlers of lemons, since the public hearing in connection therewith was held in Los Angeles, California, on June 22, 1954, and the recommended decision and final decision were published in the FEDERAL REGISTER on August 20, 1954 (19 F. R. 5319), and September 15, 1954 (19 F. R. 5969), respectively; and the changes effected by this order do not impose any restrictions on, or require any advance preparation by, the persons subject to regulations under the program.

(c) *Determinations.* It is hereby determined that:

(1) The "Agreement Amending the Marketing Agreement, as Amended, Regulating the Handling of Lemons Grown in California and Arizona," upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the lemons covered by this order) who, during the period November 1, 1952, through October 31, 1953, shipped not less than 80 percent of the volume of lemons covered by said order, as amended, and hereby further amended; and

(2) The issuance of this order, amending the aforesaid order, as amended, is favored, or approved, by at least three-fourths of the producers who, during the determined representative period (November 1, 1952, through October 31, 1953), were engaged within the production area specified in said order, as amended, in the production of lemons for market.

(3) The issuance of this order, amending the aforesaid order as amended, is favored or approved by producers who, during the aforesaid representative period, produced for market at least two-thirds of the volume of lemons produced within California and Arizona for market.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of lemons grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

SUBPART—ORDER REGULATING HANDLING

DEFINITIONS

§ 953.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States of America.

§ 953.2 *Act.* "Act" means Public Act No. 10, 73d Congress (48 Stat. 31), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246), as amended.

§ 953.3 *Person.* "Person" means an individual, partnership, corporation, association, legal representative, or any organized group of individuals.

§ 953.4 *Lemons.* "Lemons" means all varieties of lemons grown in the State of California or in the State of Arizona.

§ 953.5 *Grower and producer.* "Grower" and "producer" are synonymous and mean any person who produces lemons for market.

§ 953.6 *Handler.* "Handler" means any person (except a common carrier of lemons owned by another person), who handles lemons in fresh form.

§ 953.7 *Handle.* "Handle" means to transport, ship, sell, or in any other way to place lemons in the current of interstate commerce or commerce with Canada, or so as directly to burden, obstruct, or affect such interstate commerce or such commerce with Canada.

§ 953.8 *Carload.* "Carload" means a quantity of lemons equivalent to 406 packed boxes of lemons.

§ 953.9 *Box.* "Box" means a standard lemon box which has inside dimensions of 10 inches in depth, 13 inches in width, and 25⅝ inches in length or the equivalent thereof.

§ 953.10 *Season and fiscal year.* "Season" and "fiscal year" are synonymous and mean the twelve-month period beginning on November 1 of each year and ending October 31 of the following year.

§ 953.11 *Committee.* "Committee" means the Lemon Administrative Committee established pursuant to § 953.20.

§ 953.12 *Available lemons.* "Available lemons" means all lemons available for current shipment, as determined pursuant to § 953.53.

§ 953.13 *Central marketing organization.* "Central marketing organization" means any organization which markets the lemons for more than one handler pursuant to a written contract between such organization and each such handler.

ADMINISTRATIVE BODY

§ 953.20 *Establishment and membership.* A Lemon Administrative Committee, consisting of seven members, is hereby established. For each member of the committee there shall be an alternate member who shall have the same qualifications as the member.

§ 953.21 *Term of office.* The initial members and alternate members shall hold office for a term beginning on the date designated by the Secretary and ending October 31, 1942, or until their successors are selected and have qualified. Thereafter, the term of office of members and alternate members shall begin on the first day of November and continue for two years or until their successors are selected and have qualified. The Secretary may, by order issued not later than September 1 of any year, direct that the term of office of the members and alternate members then serving shall expire on October 31 following the date of such order, or as soon thereafter as their respective successors are selected and have qualified.

§ 953.22 *Nominations.* (a) The cooperative marketing organization, or the growers affiliated therewith, as may be provided pursuant to paragraph (f) of this section, which marketed more than sixty percent of the total volume of lemons marketed in fresh form during the fiscal year preceding the date on which nominations for members and alternate members of the committee are to be submitted, shall nominate three growers for three members and three growers for three alternate members of the committee.

(b) The cooperative marketing organization, or the growers affiliated therewith, as may be provided pursuant to paragraph (f) of this section, which marketed a larger portion of the total volume of lemons marketed in fresh form during the fiscal year preceding the date on which nominations for members and alternate members are to be submitted than any cooperative marketing organization other than the one described in paragraph (a) of this section, shall nominate one grower for a member and one grower for an alternate member of the committee.

(c) All cooperative marketing organizations which are not qualified under paragraph (a) or (b) of this section, or the growers affiliated therewith, as may be provided pursuant to paragraph (f) of this section, shall nominate one grower for a member and one grower for an alternate member of the committee.

(d) All lemon growers who are not included under paragraph (a), (b), or (c) of this section shall nominate one grower for a member and one grower for an alternate member of the committee.

(e) When voting for nominees, each grower shall be entitled to cast one vote, which vote shall be cast on behalf of himself, his agents, subsidiaries, affiliates, and representatives.

(f) The time, method, and manner of nominating members and alternate members of the committee shall be prescribed by the Secretary.

(g) Nominations for the initial members and alternate members of the committee may be made prior to, and, in any event, shall be submitted to the Secretary not later than fifteen days after the effective date of this subpart. Nominations for successors to the initial members and alternate members of the committee shall be submitted to the Secretary not later than fifteen days preceding the date of expiration of the terms of the members and alternate members.

(h) The six members of the committee selected by the Secretary pursuant to § 953.23 (a), shall meet upon a date designated by the Secretary and, by a concurring vote of at least four members, shall nominate two persons for a member and two persons for an alternate member of the committee, which persons shall not be growers or handlers, or employees or agents of a grower or a handler, or in any other way associated directly with the lemon industry.

§ 953.23 *Selection.* (a) From the nominations made pursuant to paragraph (a) of § 953.22 or from other qualified growers, the Secretary shall select three members and three alternate members of the committee. From the nominations made pursuant to each of the paragraphs (b), (c), and (d) of § 953.22, or from other qualified growers, the Secretary shall select one member and one alternate member of the committee.

(b) From the nominations made pursuant to paragraph (h) of § 953.22, or from other qualified persons, the Secretary shall select one member and one alternate member of the committee.

§ 953.24 *Failure to nominate.* In the event nominations are not made pursuant to, and within the time specified in, § 953.22, the Secretary may select the members and alternate members of the committee, without regard to nominations, which selection shall be made on the basis of the representation provided for in § 953.23.

§ 953.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 953.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate member, a successor for his unexpired term shall be selected by the Secretary from nominations made in the manner specified in § 953.22. If the names of nominees to fill any such vacancy are not made available to the Secretary within fifteen days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in § 953.23.

§ 953.27 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence, unless such member has designated another alternate member, who has been nominated by the same group which nominated the member; in which event, the alternate member so designated shall serve in the absence of the member who designated him. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 953.28 *Procedure.* (a) Five members of the committee shall constitute a quorum and any action of the committee shall require four concurring votes.

(b) The committee may provide for voting by telegraph, telephone, or other means of communication; and any such vote so cast shall be confirmed promptly in writing.

§ 953.29 *Expenses and compensation.* The members of the committee, and their respective alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under § 953.30, and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $10.00 for each day, or portion thereof, spent in attending meetings of the committee.

§ 953.30 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 953.31 *Duties.* It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any grower or handler;

(b) To keep minutes, books, and records which will clearly reflect all of the acts and transactions of the committee, including all transactions and operations pursuant to §§ 953.50 through 953.62. Such minutes, books, and records shall be subject to examination at any time by the Secretary;

(c) To investigate the growing, shipping, and marketing conditions with respect to lemons and to assemble data in connection therewith;

(d) To furnish to the Secretary such available information as he may request;

(e) To select a chairman and such other officers as may be necessary, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(f) At the beginning of each fiscal year, to submit to the Secretary a budget of its expenses for such fiscal year, together with a report thereon;

(g) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such other times as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this subpart, and a copy of each such report shall be furnished to the Secretary;

(h) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the salaries and define the duties of such persons;

(i) Subject to the continuing right of the Secretary to take such other action as may be necessary, to appear in and defend any legal proceeding against the committee, its members, or alternate members (whether any such proceeding is against them as individuals or as members or alternate members of the committee), or any officers or employees of such committee, arising out of the exercise of their powers or the performance of their duties pursuant to the provisions of this subpart; and the action of the committee in connection with any such defense shall be binding upon all the members and alternate members of the committee; and

(j) To perform such duties as may be assigned to it by the Secretary in connection with the administration of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes, Public Act No. 320, 74th Congress approved August 24, 1935 (49 Stat. 774), as amended.

§ 953.32 *Obligation.* Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds, together with all books and records, in his possession, to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this subpart.

EXPENSES AND ASSESSMENTS

§ 953.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out the functions of the committee pursuant to the provisions of this subpart during each fiscal year. The funds to cover such expenses shall be acquired by levying assessments as provided in § 953.41.

§ 953.41 *Assessments.* (a) Each handler who first handles lemons shall, with respect to the lemons so handled by him, pay to the committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal year. Such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of lemons handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of lemons handled by all handlers as the first handlers thereof, during the same fiscal year. The Secretary shall fix the rate of assessment to be paid by such handlers. The payment of assessments for the maintenance and functioning of the committee may be required under this subpart throughout the period it is in effect, irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Such increase shall be applicable to all lemons handled during the given fiscal year. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

§ 953.42 *Accounting.* (a) If, at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year. If any handler ceases to handle lemons he may demand payment of such refund, in which case such sum shall be paid to him.

(b) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

§ 953.43 *Funds.* All funds received by the committee pursuant to any provisions of this subpart shall be used solely for the purposes specified in this subpart and shall be accounted for in the manner provided in this subpart. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

REGULATION

§ 953.50 *Marketing policy.* At the beginning of each fiscal year, the committee shall prepare and submit to the Secretary a report setting forth its proposed policy for the marketing of lemons during such fiscal year. In the event it becomes advisable to deviate from such marketing policy, because of changed demand and supply conditions, the committee shall formulate a new marketing policy and shall submit a report thereon to the Secretary. The committee shall notify handlers of the contents of such reports.

§ 953.51 *Recommendations for regulation.* (a) It shall be the duty of the committee to investigate the supply and demand conditions for lemons. Whenever the committee finds that such conditions make it advisable to regulate, pursuant to § 953.52, the handling of lemons during any week of the fiscal year, it shall recommend to the Secretary the quantity of lemons which it deems advisable to be handled during such week in each district defined in § 953.64. Thereafter, the committee shall promptly report such findings and recommendations, together with supporting information, to the Secretary.

(b) In making such recommendations, the committee shall give due consideration to the following factors: (1) Quantity of lemons in storage; (2) lemons on hand in, and en route to, the principal markets; (3) trend in consumer income; (4) present and predicted weather conditions; (5) present and prospective prices of lemons; and (6) other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to § 953.52, has fixed the quantity of lemons which may be handled during such week, the committee may, if it deems such action advisable because of unusual or unforeseen changes in the demand for lemons, recommend to the Secretary that such quantity be increased for such week. Any such recommendation, together with supporting information, shall be submitted promptly to the Secretary.

§ 953.52 *Issuance of regulations.* Whenever the Secretary shall find, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of lemons which may be handled during a specified week in each district, as aforesaid, will tend to effectuate the declared policy of the act, he shall fix such a quantity of lemons which may be handled during such week in each such district, which quantity may, at any time during such week, be increased by the Secretary. The committee shall be informed immediately of any such regulation issued by the Secretary and shall promptly give adequate notice thereof to handlers.

§ 953.53 *Prorate bases.* (a) As used in this section, "handler" means the person who is, or proposes to be, the person who handles lemons as the first handler thereof; and each such handler shall submit to the committee, at such time as may be designated by it, a written application for a prorate base and for allotments, as provided in this subpart.

(b) Whenever the committee proposes to make recommendations for regulation, pursuant to § 953.51, it shall, with respect to each handler who has filed an application for a prorate base, compute the quantity of available lemons which, as of 12:01 a. m., on the Sunday nearest the date on which such computation is made, meets the requirements of marketing under applicable laws. Such computation shall be made every two weeks, beginning with a date in each fiscal year to be fixed by the committee, and continuing so long as such recommendations are proposed. In computing each handler's available lemons, the committee shall consider only such lemons as the handler owns or has contracted to buy, or has authority to market under a written contract.

(c) In computing the quantity of lemons which, for the applicable two-week period, each handler has available for current shipment, the committee shall compute the quantity of lemons which each handler has picked from the trees and has assembled at an established shipping point within the area of production.

(d) In the event any handler has lemons which he desires to market in channels other than fresh-fruit channels in the United States and Canada, he may request the committee to compute the number of weeks that such lemons could be held in storage, under commercial storage conditions, and, at the expiration of such period, would meet the requirements for marketing under applicable laws. Any such lemons shall be in containers and shall be assembled at one or more of the central points which may be approved by the committee. If the said handler is satisfied with the committee's computation, he shall give the committee written notification thereof and shall dispose of such lemons in channels other than fresh-fruit channels in the United States and Canada. The committee shall include such lemons as a part of the available lemons of such handler for the number of weeks computed, and such lemons shall not be included thereafter in any computation made pursuant to paragraph (c) of this section.

(e) Any handler who submits evidence satisfactory to the committee that such handler has lemons available for current shipment during the applicable two-week period, but, because of unavailable facilities, the quantity of such lemons cannot be computed satisfactorily, pursuant to paragraph (c) of this section, the committee shall compute, pursuant to uniform rules adopted by the committee and approved by the Secretary, the quantity of lemons which each such handler has available for current shipment during such period.

(f) Based on the quantity of each handler's available lemons, as computed pursuant to this section, the committee shall fix the prorate base of each handler who has applied therefor: *Provided,* That such quantity shall be adjusted by (1) the deduction therefrom of any undershipments pursuant to § 953.58, or (2) the addition thereto of any overshipments pursuant to § 953.57, in the event such handler makes an undershipment or overshipment during the week preceding that in which such quantity is computed. Such prorate base shall represent the ratio between the quantity of such handler's available lemons in a district, as aforesaid, and the quantity of all handlers' available lemons in such district, and shall be applicable for the two week period immediately following the week in which it is fixed by the committee.

(g) The committee shall notify the Secretary of the prorate base fixed for each handler and shall notify such handler of the prorate base fixed for him.

(h) Any handler who has reason to believe that the computation made by the committee with respect to the quantity of such handler's available lemons is not accurate, may appeal to the Secretary for a recomputation thereof. Any such appeal shall be supported by evidence which shall show the inaccuracy of the committee's computation. Whenever a handler takes such an appeal to the Secretary, the handler shall, at the same time, notify the committee of such appeal and submit to the committee a copy of the evidence in support thereof. Upon receipt thereof, the committee shall immediately submit a report to the Secretary, setting forth the manner in which the quantity of the handler's available lemons was computed, and other data pertinent to a determination on the appeal.

§ 953.56 *Allotments.* Whenever the Secretary has fixed the quantity of lemons which may be handled during any week in a district, as aforesaid, the committee shall calculate the quantity of lemons which each handler may handle during such week. The said quantity shall be the allotment of each such handler and shall be in an amount equal to the product of the handler's prorate base and the quantity of lemons fixed by the Secretary as the quantity which may be handled during such week in such district. The committee shall give adequate notice to each handler of the allotment computed for him pursuant to this section.

§ 953.57 *Overshipments.* During any week for which the Secretary has fixed the quantity of lemons which may be handled, each handler may handle, in addition to his allotment, an amount of lemons equivalent to ten percent of said allotment, or one carload, whichever is the greater: *Provided,* That no such overshipment may be made by a handler if his allotment for such week is insufficient to offset his prior overshipments pursuant to this section. The quantity of lemons handled in excess of a handler's allotment (but not exceeding the quantity permitted to be handled, as provided in this section) shall be deducted from his allotment for the next week in which the handling of lemons is regulated under this subpart. If such allotment is in an amount less than such excess quantity of lemons permitted to be handled by a handler, such quantity handled in excess of his allotment shall be deducted from succeeding weekly allotments until such excess has been entirely offset.

§ 953.58 *Undershipments.* If a handler during any week handles a quantity of lemons less than his allotment for that week, such handler may, in addition to his allotment for the next succeeding week, handle only during such next succeeding week, a quantity of lemons equivalent to such undershipment.

§ 953.59 *Allotment loans.* (a) A handler for whom a prorate base has been established may lend allotment to other handlers: *Provided,* That such loan is confined to the same district, as defined in § 953.64, is reported to the committee not later than 48 hours after the loan agreement has been entered into, and provides for repayment within one year of the date of the loan.

(b) Allotments shall be loaned only during the week in which such allotments are issued and can be used by the borrower only during the week in which the loan is secured. Handlers securing repayment of allotment loans shall use such allotments only during the week in which the repayment is made.

(c) The committee may act as agent for handlers in arranging loans of allotment; and all loan transactions shall be confirmed by the committee by memoranda addressed to the parties thereto.

(d) No allotment which has been loaned may again be loaned by the borrower, or by the lender after repayment thereof.

§ 953.60 *Transfer of allotments.* Allotments shall not be transferred except upon the transfer of a quantity of lemons equal to the allotment which has been transferred.

§ 953.61 *Priority of allotments.* During any week in which a handler receives an allotment, and has the right to handle a quantity of lemons in addition to the quantity represented by his allotment, by reason of (a) an undershipment of lemons pursuant to § 953.58; or (b) a transferred allotment, pursuant to § 953.60; or (c) the repayment of a loaned allotment, pursuant to § 953.59; or (d) an assignment of an allotment, pursuant to § 953.63; or (e) a borrowed allotment, pursuant to § 953.59, and such handler handles a quantity of lemons which is less than the total quantity of lemons which such handler may handle during such week, the amount of lemons handled shall first apply to such handler's current weekly allotment (or to that portion thereof which is not used pursuant to §§ 953.57, 953.59, 953.60, or 953.63), and the remainder, if any, shall be applied in the following order: first, to any undershipment of lemons, pursuant to § 953.58; second, to any allotment repaid to him, pursuant to § 953.59; third, to any allotment transferred to him, pursuant to § 953.60; fourth, to any allotment assigned to him, pursuant to § 953.63; and fifth, to any allotment borrowed, pursuant to § 953.59.

§ 953.62 *Information to central marketing organizations.* (a) In order further to facilitate arranging allotment transactions pursuant to this subpart, the committee shall give any central marketing organization upon its request, the same notice with respect to prorate bases and allotments, applicable to each handler for whom it markets lemons, as is given to such handlers.

(b) Any central marketing organization which, pursuant to paragraph (a) of this section, receives information from the committee regarding prorate bases and allotments, applicable to handlers for whom it markets lemons, and which arranges allotment transactions for or on behalf of any of such handlers, shall keep records which will accurately reflect all such allotment transactions and such records shall be subject to examination by the committee and the Secretary. Any such central marketing organization shall make such reports and furnish such other information with respect thereto as may be required by the committee. If the Secretary finds that any

such central marketing organization has failed to keep such records, or has assisted in effecting allotment transactions contrary to the provisions of this subpart, the provisions of paragraph (a) of this section shall not be applicable to such central marketing organization during such period as may be determined by the Secretary.

§ 953.63 *Assignment of allotments.* Any person who acquires lemons to be handled by him, and who does not have a prorate base on such lemons, may handle such lemons pursuant to an assignment of an allotment from the handler from whom such lemons were acquired and to whom the allotment had been issued, which assigned allotment shall be equal to the quantity of lemons acquired by such person.

Any such assignment shall be evidenced by a certificate which shall be in such form, and issued in such manner, as shall be prescribed by the committee.

§ 953.64 *Districts.* (a) "District 1" shall include that part of the State of California which is north of a line drawn due east and west through the Tehachapi Mountains.

(b) "District 2" shall include that part of the State of California which is south of a line drawn due east and west through the Tehachapi Mountains, but shall exclude Imperial County, California, that part of Riverside County, California, situated south and east of San Gorgonio Pass, that part of Riverside County, California, situated north of San Gorgonio Pass but east of the 115th Meridian, and that part of San Bernardino County, California, situated east of the 115th Meridian.

(c) "District 3" shall include the State of Arizona and that part of the State of California not included in District 1 and District 2.

REPORTS

§ 953.70 *Weekly report.* On or before such day of each week as may be designated by the committee, each handler shall report to the committee, on forms prepared by it, the following information with respect to lemons marketed by such handler during the immediately preceding week: (a) Quantity handled; (b) quantity shipped for distribution to persons on relief, including quantity donated for charitable purposes; (c) quantity sold or transported for consumption in fresh form in California or Arizona; (d) quantity sold or otherwise disposed of for canning or for manufacture into byproducts; and (e) quantity disposed of otherwise.

§ 953.71 *Other reports.* Upon request of the committee made with the approval of the Secretary every handler shall furnish to the committee, in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for in § 953.70), such other information as will enable the committee to perform its duties and to exercise its powers under this subpart.

MISCELLANEOUS PROVISIONS

§ 953.80 *Lemons not subject to regulation.* Nothing contained in this subpart shall be construed to authorize any limitation of the right of any person to handle lemons (a) for consumption by charitable institutions or distribution by relief agencies; (b) for conversion into by-products; or (c) for export to foreign countries other than Canada; nor shall any asessment be levied on lemons so handled. The committee may prescribe adequate safeguards to prevent lemons handled for the purposes designated under paragraphs (a) and (b) of this section from entering commercial fresh fruit channels of trade contrary to the provisions of this subpart. The term "by-product" as used in this section includes all processed and manufactured products of lemons, including canned or bottled lemon juice.

§ 953.81 *Compliance.* Except as provided in this subpart, no handler shall handle lemons, during any week in which a regulation issued by the Secretary, pursuant to § 953.52, is in effect, unless such handler has an allotment, or an assignment of an allotment, covering such lemons, issued pursuant to this subpart, or unless such handler is otherwise permitted to handle such lemons, under the provisions of this subpart; and no handler shall handle lemons except in conformity to the provisions of this subpart.

§ 953.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary. In the event the committee, for any reason, fails to perform its duties or exercise its powers under this subpart, the Secretary may designate another agency to perform such duties and to exercise such powers.

§ 953.83 *Effective time.* The provisions of this subpart shall become effective April 10, 1941, and shall continue in force until terminated in one of the ways specified in § 953.84.

§ 953.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal year, have been engaged in the production for market of lemons: *Provided,* That such majority has, during such year, produced for market more than fifty percent of the volume of such lemons produced for market; but such termination shall be effected only if announced on or before October 31 of the then current fiscal year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 953.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds property and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 953.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 953.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 953.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 953.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 953.90 *Personal liability.* No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 953.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 953.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

[F. R. Doc. 55-3534; Filed, Apr. 29, 1955; 8:48 a. m.]

[Lemon Reg. 587]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.694 *Lemon Regulation 587*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on April 27, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., May 1, 1955, and ending at 12:01 a. m., P. s. t., May 8, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 500 carloads;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 28, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-3570; Filed, Apr. 29, 1955; 8:55 a. m.]

[Docket No. AO-166-A19]

PART 965—HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

ORDER AS AMENDED

Sec.
965.0 Findings and determinations.

DEFINITIONS

965.1 Act.
965.2 Secretary.
965.3 Cincinnati, Ohio, marketing area.
965.4 Person.
965.5 Route.
965.6 Fluid milk plant.
965.7 Pool plant.
965.8 Producer.
965.9 Handler.
965.10 Producer milk.
965.11 Dairy farmer.
965.12 Producer-handler.
965.13 Other source milk.

MARKET ADMINISTRATOR

965.20 Designation.
965.21 Powers.
965.22 Duties.

REPORTS, RECORDS, AND FACILITIES

965.30 Reports of handlers to market administrator.
965.31 Verification of handler reports.
965.32 Reports of market administrator to cooperative associations.
965.33 Records and facilities.
965.34 Retention of records.

CLASSIFICATION

965.40 Basis of classification.
965.41 Classes of utilization.
965.42 Responsibility of handlers.
965.43 Transfers.
965.44 Shrinkage.
965.45 Computation of milk and butterfat in each class.
965.46 Allocation of milk and butterfat classified.

MINIMUM PRICES

965.50 Basic formula price.
965.51 Class prices.
965.52 Butterfat differentials to handlers.
965.53 Location differentials to handlers.

DETERMINATION OF UNIFORM PRICES

965.60 Computation of value of milk for each handler.
965.61 Computation of obligation to the producer-settlement fund for handler operating a fluid milk plant which is not a pool plant.
965.62 Correction of errors.
965.63 Notification to handler of the value of his milk.
965.64 Computation of uniform prices for Grade A producers and Grade B producers.

PAYMENT FOR MILK

965.70 Payments to producers.
965.71 Producer-settlement fund.
965.72 Payment to producer-settlement fund.
965.73 Payments from producer-settlement fund.
965.74 Expense of administration.
965.75 Marketing services.
965.76 Butterfat differential to producers.
965.77 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

965.80 Effective time.
965.81 Suspension or termination.
965.82 Continuing power and duty of the market administrator.
965.83 Liquidation after suspension or termination.

MISCELLANEOUS PROVISIONS

965.90 Agents.
965.91 Separability of provisions.
965.92 Producer-handler.

AUTHORITY: §§ 965.0 to 965.92 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 965.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued

amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (Part 900 of this chapter), a public hearing was held upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order, as amended, effective not later than May 1, 1955. Such action is necesary in the public interest in order to reflect current marketing conditions and to insure the orderly marketing of available milk supplies. Accordingly, any further delay in the effective date of this order, as amended, will seriously impair the orderly marketing of milk produced for the Cincinnati, Ohio, marketing area. The regulatory provisions of this order, as amended, are such that little or no preparation prior to its effective date will be required of handlers regulated thereunder. Under these circumstances the handlers will be afforded reasonable time for any such preparation as may be necessary. Therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order, as amended, until at least 30 days after its publication in the FEDERAL REGISTER, and good cause exists, pursuant to section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1000) for making this order, as amended, effective May 1, 1955.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended and as hereby further amended, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (February 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 965.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 965.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 965.3 *Cincinnati, Ohio, marketing area.* "Cincinnati, Ohio, marketing area," hereinafter called the "marketing area," means the city of Cincinnati, Ohio, and the territory geographically included within the boundary lines of Hamilton County, Ohio.

§ 965.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 965.5 *Route.* "Route" means a delivery (including a sale from a store) of milk, buttermilk, flavored milk drinks, or cream in fluid form to a wholesale or retail stop(s) other than to a milk processing plant(s).

§ 965.6 *Fluid milk plant.* "Fluid milk plant" means a plant or other facilities used in the preparation or processing of milk all or a portion of which is disposed of on a route(s) operated wholly or partially in the marketing area.

§ 965.7 *Pool plant.* "Pool plant" means any milk plant, other than a fluid milk plant operated by a producer-handler or a plant at which the milk of dairy farmers is priced by another milk marketing agreement or order issued pursuant to the act, which is:

(a) A fluid milk plant as described in § 965.6 located in the marketing area;

(b) A fluid milk plant located outside the marketing area and disposing of not less than 10 percent of its entire route disposition of Class I milk on a route(s) operated wholly or partially within the marketing area; or

(c) A plant, receiving milk from dairy farms, which the market administrator determines has moved to a plant(s) described under paragraph (a) or (b) of this section an amount of milk or skim milk in fluid form equal to not less than one percent of the total Class I utilization of plants described in paragraphs (a) and (b) of this section during the second month preceding such movement as specified in the following schedule:

Months milk is moved:	*Months plant is pool plant*
One of the months of October and November.	November.
Two of the months of October, November, and December.	December.
Three of the months of October, November, December, and January.	January through October.

Provided, That upon written request to the market administrator by the operator of a plant which is a pool plant pursuant to this paragraph for the discontinuance of such plant as a pool plant, such plant shall cease to be a pool plant in the first month, following such request, during which no milk is moved to a plant described in paragraph (a) or (b) of this section and shall not become a pool plant until such plant again meets the requirements for a pool plant pursuant to this paragraph.

§ 965.8 *Producer.* "Producer" means any person operating a dairy farm who produces milk under a dairy farm permit issued by an appropriate health authority which is received at a "pool plant" described in § 965.7, or is caused to be diverted by a handler for his account from a pool plant to a nonpool plant during any of the months of March through August, inclusive, and milk so diverted shall be deemed to have been received by the transferor-handler at the pool plant from which it was diverted, except that the application of §§ 965.53 and 965.73 (c) to any such diverted milk shall be made on the basis of the location (whether more or less than 45 miles from the City Hall in Cincinnati) of the nonpool plant where received, subject to the following conditions:

(a) Milk which is physically received from a farm at a fluid milk plant(s) located less than 45 miles from the City Hall in Cincinnati on 60 percent or more of the days of its delivery during the next preceding period September through December, inclusive, shall be priced during the period of diversion as if received at such fluid milk plant(s); and

(b) Milk which does not qualify for diversion pursuant to paragraph (a) of this section, but which was physically received from a farm at a fluid milk plant(s) located less than 45 miles from

the City Hall in Cincinnati on 60 percent or more of the days of its delivery from the date of first delivery of such milk through the last day of February next preceding shall be priced during the period of diversion as if received at such fluid milk plant(s): *Provided further,* That any producer whose milk has been approved as "Grade A milk" by an appropriate health authority for any month, or portion thereof, shall be a "Grade A producer" for such month, and any producer whose milk has not been so approved shall be a "Grade B producer."

§ 965.9 *Handler.* "Handler" means (a) any person who operates (1) a pool plant; or (2) a nonpool plant and either directly or indirectly disposes of Class I milk on a route(s) extending into the marketing area; or (b) any cooperative association with respect to the milk of any producer(s) whose milk has been received previously at a pool plant described in § 965.7 which milk has been caused to be diverted by the cooperative association under the conditions set forth in § 965.8 to a nonpool plant, if payment therefor has been collected by such association; and such milk shall be deemed to have been received from producers by such cooperative association.

§ 965.10 *Producer milk.* "Producer milk" means milk produced by one or more producers under the conditions set forth in § 965.8.

§ 965.11 *Dairy farmer.* "Dairy farmer" means any person who is engaged in the production of milk.

§ 965.12 *Producer-handler.* "Producer-handler" means any person who is both a dairy farmer and a handler, but who receives no milk from other dairy farmers: *Provided,* That such person provides proof satisfactory to the market administrator that (a) the maintenance, care and management of all the dairy animals and other resources necessary to produce the entire amount of milk handled is the personal enterprise of and at the personal risk of such person in his capacity as a dairy farmer, and (b) the operation of a fluid milk plant is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

§ 965.13 *Other source milk.* "Other source milk" means all milk and butterfat contained in:

(a) Receipts during the month in the form of products designated as Class I milk pursuant to §§ 965.41 (a) (1) and (2), except (1) such products received from other fluid milk plants, or (2) producer milk; and

(b) Products other than those referred to in §§ 965.41 (a) (1) and (2) from any source (including those derived from producer milk) which are reprocessed or converted to another product during the month.

MARKET ADMINISTRATOR

§ 965.20 *Designation.* The agency for the administration of this part shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 965.21 *Powers.* The market administrator shall have the power to:

(a) Administer the terms and provisions of this part;

(b) Report to the Secretary complaints of violations of the provisions of this part;

(c) Make rules and regulations to effectuate the terms and provisions of this part; and

(d) Recommend to the Secretary amendments to this part.

§ 965.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Within 45 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this part;

(c) Pay, out of the fund provided by § 965.74, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part, and surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.30 or has not made payments pursuant to §§ 965.70 and 965.72;

(f) Promptly verify the information contained in the reports submitted by handlers;

(g) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times; and

(h) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month, the minimum class prices computed pursuant to § 965.51 and the butterfat differentials computed pursuant to § 965.52; and

(2) On or before the 20th day after the end of such month the uniform prices computed pursuant to § 965.64, and the producer butterfat differential.

REPORTS, RECORDS, AND FACILITIES

§ 965.30 *Reports of handlers to market administrator.* Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows:

(a) On or before the 10th day after the end of each month, each handler who receives milk from producers shall report with respect to all milk, skim milk, cream and other milk products handled by him during the month as follows:

(1) The total quantities at each plant from producers, from his own production, and from other handlers;

(2) The total quantities of other source milk together with the butterfat content;

(3) The quantities of skim milk and butterfat contained in inventories of items designated as Class I milk pursuant to § 965.41 (a) on hand at the beginning and end of the month;

(4) The utilization during the month of all milk and milk products referred to subparagraphs (1), (2), and (3) of this paragraph;

(5) The name and address of each new producer; and

(6) His producer payroll, which shall show for each producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer made pursuant to § 965.70 and the deductions and charges made by the handler.

(b) Each handler who receives no milk from producers shall make reports to the market administrator at such times and in such manner as the market administrator may request.

§ 965.31 *Verification of handler reports.* Each handler shall make available to the market administrator or to his agent, or to such other person as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to § 965.30, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 965.32 *Reports of market administrators to cooperative associations.* On or before the 13th day after the end of each month, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers who have authorized such association to receive payments for them under § 965.73 (b), to each handler to whom the cooperative association sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.

§ 965.33 *Records and facilities.* Each handler required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as in the opinion of the market administrator are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received, in-

cluding all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, and for other contents, of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 965.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 965.40 *Basis of classification.* Milk and milk products received by each handler, including milk produced by him, which are required to be reported pursuant to § 965.30 (a) shall be classified by the market administrator in the classes set forth in § 965.41, subject to the provisions of §§ 965.42 through 965.46.

§ 965.41 *Classes of utilization.* The classes of utilization shall be as follows:

(a) Class I milk shall be all milk and butterfat (1) disposed of (except as provided in paragraph (c) (2) and (3) of this section) in fluid form as milk, skim milk, buttermilk, flavored milk, and milk drink, (2) disposed of in the form of fluid sweet or cultured sour cream, whipped cream, any product in fluid form containing 8 percent or more of butterfat not specified in Class II milk or Class III milk (excluding any mixture of milk (or skim milk) and cream containing 8.0 percent or more butterfat disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped, or aerated, product), and eggnog; (3) used to produce concentrated milk (excluding those products commonly known as evaporated milk and condensed milk) for fluid consumption; and (4) in shrinkage of butterfat from receipts of producer milk which is in excess of 2.5 percent of such receipts.

(b) Class II milk shall be all milk and butterfat (1) used to produce ice cream, ice cream mix, frozen desserts, milk (or skim milk) and cream mixtures containing 8.0 percent or more butterfat disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped, or aerated, product, and cottage cheese; and (2) in inventories of all items named in § 965.41 (a) (1) and (2).

(c) Class III milk shall be all milk and butterfat (1) used to produce butter, frozen cream, spray and roller process nonfat dry milk solids, all cheese (other than cottage cheese), and evaporated and condensed milk (or skim milk) either in bulk or in hermetically sealed cans; (2) specifically accounted for as dumped, spilled or disposed of for animal feed; (3) disposed of in bulk during the months of March through August, inclusive, as milk, skim milk, or cream to any commercial food processing establishment where food products are prepared only for consumption off the premises; (4) in shrinkage computed pursuant to § 965.44 (b) (1) up to 2.5 percent of butterfat from receipts of producer milk; and (5) in shrinkage of other source milk computed pursuant to § 965.44 (b) (3).

§ 965.42 *Responsibility of handlers.* In establishing the classification as required in §§ 965.41 and 965.43, the burden rests upon the handler to account for all milk and milk products received by him and to prove to the market administrator that such milk, or milk products, should not be classified as Class I milk.

§ 965.43 *Transfers.* (a) Milk, skim milk, and cream transferred in fluid form from a pool plant to the pool plant of another handler shall be Class I milk, unless another class use is indicated in writing to the market administrator by the operators of both plants on or before the 10th day after the end of the month within which such transfer was made: *Provided,* That if either or both plants received milk other than producer milk, the milk, skim milk, or cream so transferred shall be classified at both plants so as to allocate the highest possible utilization to producer milk: *Provided further,* That milk may be transferred in farm delivery containers from one pool plant to another under the conditions of this paragraph if both such plants are fluid milk plants pursuant to § 965.7 (a) or (b).

(b) Except as provided in paragraph (c) of this section, milk, skim milk and cream transferred or diverted in fluid form in bulk from a pool plant to a plant other than a pool plant shall be classified as Class I milk: *Provided,* That if the operator of such pool plant, or the diverting handler, as the case may be, on or before the 10th day after the end of the month, furnishes to the market administrator a statement which is signed by all parties to the transaction, that such milk, skim milk, or cream was used in a lower class, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator: *And provided further,* That if the preceding proviso applies, the market administrator, shall assign milk, skim milk, or cream so transferred or diverted to (1) the highest-valued use classification (as described in § 965.41) in the plant of the receiver if the transfer or diversion is to a plant located in Campbell County or Kenton County, Kentucky, from which a route(s) as defined in § 965.5 is operated, and (2) the uses covered by Class III milk to the extent available prior to the assignment of any such quantity moved in sequence to Class II milk and Class I milk if the movement is to any other plant which is not a pool plant.

(c) Milk, skim milk, and cream transferred or diverted in fluid form from a pool plant to the fluid milk plant of a producer-handler shall be classified as Class I milk.

§ 965.44 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of butterfat for each handler; and

(b) Prorate the resulting amounts among the receipts of butterfat in (1) producer milk, (2) milk received from other pool plants, and (3) other source milk.

§ 965.45 *Computation of milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for obvious errors the report submitted by each handler and compute the total pounds of milk and butterfat, respectively, in Class I milk, Class II milk, and Class III milk for such handler.

§ 965.46 *Allocation of milk and butterfat classified.* The pounds of milk and butterfat remaining in each class after making the following computations shall be the pounds of milk and butterfat, respectively, in such class allocated to producer milk:

(a) The pounds of milk in Class III milk shall be decreased by any excess of utilization of all classes over total receipts and shall be increased by any excess of total receipts over total utilization of all classes;

(b) Subtract from the pounds of butterfat in Class III milk the pounds of producer butterfat in plant shrinkage which is not in excess of 2.5 percent of all butterfat received from producers and from all other sources except a pool plant(s);

(c) Subtract from the remaining pounds of milk and butterfat, respectively, in series beginning with the lowest-priced use available, the pounds of milk and butterfat, respectively, received as other source milk;

(d) Subtract from the remaining pounds of milk and butterfat, respectively, in each class, the pounds of milk and butterfat, respectively, received from other pool plants as transferred pursuant to § 965.43;

(e) Subtract from the remaining pounds of milk and butterfat in series from Class II milk and Class I milk, the pounds of milk and butterfat in inventory at the beginning of the month in the form of items named in § 965.41 (a) (1) and (2);

(f) Add to Class III butterfat the pounds of butterfat subtracted pursuant to paragraph (b) of this section; and

(g) If the pounds of butterfat remaining in all classes exceed the pounds of butterfat received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest-priced class.

MINIMUM PRICES

§ 965.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum price for Class I milk shall be the higher of the prices computed by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic (or field) prices per hundredweight ascertained to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator or to the United States Department of Agriculture:

Company and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply by 3.5 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture during the month for which payment is to be made, and add 20 percent thereof;

(2) From the simple average, as computed by the market administrator, of the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents and multiply the result by 8.2.

§ 965.51 *Class prices.* Each handler shall pay, at the time and in the manner set forth in § 965.72, not less than the following prices per hundredweight, on the basis of milk of 3.5 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.46.

(a) The price for Class I milk shall be the basic formula price plus $1.30, plus or minus "a supply-demand adjustment" of not more than 50 cents computed as follows:

(1) Divide the total gross volume of that portion of Class I milk set forth in § 965.41 (a) (1) and (3) (adjusted to eliminate duplications due to interhandler transfers) in the second and third months preceding by the total receipts of producer milk for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "Class I utilization percentage";

(2) For each full percentage point that the Class I utilization percentage is above the applicable maximum base percentage listed below increase the Class I price by 3 cents; and for each full percentage point that the Class I utilization percentage is below the applicable minimum base percentage listed below decrease the Class I price by 3 cents: *Provided,* That the Class I differential adjusted pursuant to this subparagraph for the month of June shall not be higher than such adjusted differential for the immediately preceding month of May; and that the Class I differential so adjusted for the month of January shall not be less than the adjusted differential for the immediately preceding month of December.

Month for which price is being computed	Base utilization percentages	
	Minimum	*Maximum*
January	71	73
February	75	77
March	69	71
April	63	65
May	60	62
June	57	59
July	51	53
August	46	48
September	46	48
October	48	50
November	53	55
December	64	66

(b) The price for Class II milk shall be the sum of the plus adjustments computed pursuant to subparagraphs (1) and (2) of this paragraph.

(1) Multiply by 1.18 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture during the month for which payment is to be made, and then multiply such result by 3.5; and

(2) From the simple average, as computed by the market administrator, of the weighted average of carlot prices per pound for nonfat dry milk solids, spray process for human consumption f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5, cents and multiply the result by 8.2.

(c) The price for Class III milk during each of the months of March through August shall be the price computed pursuant to subparagraph (1) of this paragraph; and the price for Class III milk during each of the months of September through February, respectively, shall be the same as the Class II price:

(1) The simple average, as computed by the market administrator of the basic (or field) prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants:

M and R Dietetic Laboratories, Inc., Chillicothe, Ohio.
Carnation Milk Co., Hillsboro, Ohio.
Nestles Milk Products, Inc., Greenville, Ohio.
Nestles Milk Products, Inc. (Osgood Milk Co.), Osgood, Ind.
Carnation Milk Co., Maysville, Ky.

§ 965.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent there shall be added to, or subtracted from, as the case may be, the price for such class, for each point (one-tenth of one percent) that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: For Class I milk, add 1.25 cents per point to the butterfat differential computed below in this section for Class II milk. For Class II milk multiply the average price per hundred pounds of 92-score butter as described in § 965.51 (b) (1) by 1.18, subtract therefrom the amount per hundredweight computed pursuant to § 965.51 (b) (2), and divide the result by 1000. For Class III milk subtract $5.00 from the average price per hundred pounds of 92-score butter as described in § 965.50 (b) (1), multiply by 1.2, subtract therefrom the amount per hundredweight computed pursuant to § 965.50 (b) (2), and divide the result by 1,000: *Provided,* That for each of the months of September through February, inclusive, the butterfat differential for Class III milk other than that used to produce butter shall be the same as the butterfat differential for Class II milk for such month and the butterfat differential for milk used to produce butter shall be the amount computed for such month pursuant to the formula for Class III milk immediately preceding this proviso.

§ 965.53 *Location differentials to handlers.* In computing the value of each handler's milk pursuant to § 965.60 a location differential of 15 cents per hundredweight shall be credited to the handler with respect to each hundredweight of producer milk (a) received and utilized at a pool plant located more than 45 miles by shortest hard-surfaced highway distance, as determined by the market administrator, from the City Hall in Cincinnati, Ohio, as any item of Class I milk or in the production of ice cream, frozen desserts, and cottage cheese, or (b) moved from such a pool plant in the form of any product designated as Class I milk or as condensed skim milk, ice cream mix, or frozen cream to a fluid milk plant less than 45 miles from the City Hall in Cincinnati, Ohio, and utilized as any item of Class I milk or in the production of ice cream, frozen desserts, and cottage cheese: *Provided,* That in the case of transfers made under paragraph (b) of this section the location differential credit (1) shall apply to the actual weight of product moved, which total quantity shall not exceed the difference between the sum of milk represented by Class I milk utilization and milk used to produce ice cream, frozen desserts, and cottage cheese at the transferee's plant and the total quantity of producer milk receipts at the latter plant, and (2) shall be allowed to the transferee-handler if such credit does not exceed the obligation of the

latter handler to the producer-settlement fund for the month.

DETERMINATION OF UNIFORM PRICES

§ 965.60 *Computation of value of milk for each handler.* For each month the value of milk received at a pool plant(s) by each handler, and of milk diverted by a cooperative association under the conditions of § 965.9 (b), shall be a sum of money computed by the market administrator by multiplying the hundredweight of such milk received and classified in each class by the applicable class price, subject to the butterfat differential for such class provided in § 965.52 and the location differential credits, if any, applicable pursuant to § 965.53, and adjusting such total by the monies resulting from the following computations:

(a) Add: The hundredweight of butterfat subtracted pursuant to § 965.46 (g) multiplied by the price for the applicable class adjusted by the butterfat differential for such class;

(b) Add: The pounds, if any, that the milk or butterfat in inventory subtracted from Class I milk, pursuant to § 965.46 (e), is not in excess of the pounds of producer milk classified as Class II milk for the preceding month multiplied by the difference between the current price of Class I milk and the Class II price for the preceding month, each adjusted by the appropriate butterfat differential, and

(c) Add: The hundredweight of milk and butterfat subtracted from Class I milk and Class II milk pursuant to § 965.46 (c) (but not including any such milk and butterfat received from a plant regulated under a marketing agreement or order issued pursuant to the act for another fluid milk marketing area) multiplied by the difference between the price for the class from which subtracted, adjusted by the butterfat differential for such class (based on the butterfat tests of the milk subtracted), and the price computed pursuant to § 965.50 (b) adjusted to the same test by the butterfat differential (§ 965.52) for Class III milk (other than butter): *Provided,* That for any month when the aggregate utilization of Class I milk for all handlers at pool plants is 90 percent or more of the quantity of producer milk received by such handlers, the payments described pursuant to this paragraph and § 965.61 shall not be required.

§ 965.61 *Computation of obligation to the producer-settlement fund for handlers operating a fluid milk plant which is not a pool plant.* For each month, the obligation to the producer-settlement fund for each handler operating a fluid milk plant which is not a pool plant shall be computed by the market administrator by multiplying each hundredweight of milk disposed of as Class I milk (less the hundredweight of any Class I milk purchased by such handler during the month from a pool plant) by such handler on routes operated within the marketing area, by the difference between the price of the class of disposition computed pursuant to §§ 965.51, 965.52, and 965.53, and the price computed pursuant to § 965.50 (b) adjusted by the Class III butterfat differential (§ 965.52). On or before the 13th day after the end of each month, the market administrator shall notify each such handler of the amount so computed for him, subject to adjustment pursuant to § 965.62, and on or before the 17th day after the end of each month each such handler shall make payment to the market administrator.

§ 965.62 *Correction of errors.* If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payment due the producer-settlement fund or the handler for any previous month, there shall be added or subtracted as the case may be, the amount necessary to correct such errors.

§ 965.63 *Notification to handler of the value of his milk.* On or before the 13th day after the end of each month, the market administrator shall notify each handler of the value of milk computed for him in accordance with § 965.60 and of any adjustments pursuant to § 965.62.

§ 965.64 *Computation of uniform prices for Grade A producers and Grade B producers*—(a) *Computation of uniform price for Grade A producers.* For each month, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade A producers as follows:

(1) Add together the values of milk as computed pursuant to § 965.60 for handlers other than those in arrears in payment (other than in payment for any amount pursuant to § 965.62) to the producer-settlement fund as required by § 965.72 for the preceding month;

(2) Subtract, if the weighted average butterfat test of all producer milk represented in the sum computed under subparagraph (1) of this paragraph, is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed as follows: Multiply the hundredweight of such milk by the difference of its weighted average butterfat test from 3.5 percent, and multiply the resulting amount by the butterfat differential computed pursuant to § 965.76 times 10;

(3) Subtract for each of the months of April, May, June, and July an amount computed by multiplying the total hundredweight of milk received from producers during such month by the following amounts, respectively: 30 cents in April; 35 cents in May and June; and 20 cents in July;

(4) Add for each of the months of August, September, October, and November an amount computed by dividing the total amount of the obligated balance in the producer-settlement fund pursuant to § 965.71 (b) on August 31 immediately preceding by 4;

(5) Add the sum of the values of the location differentials allowable pursuant to § 965.73 (c);

(6) Add the unobligated balance in the producer-settlement fund;

(7) Add an amount computed by multiplying the total hundredweight of milk received from Grade B producers by $0.40;

(8) Divide by the total hundredweight of milk of all producers represented in the sum computed pursuant to subparagraph (1) of this paragraph; and

(9) Subtract from the figure obtained in subparagraph (8) of this paragraph not less than 4 cents or more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade A producers.

(b) *Computation of uniform price for Grade B producers.* For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade B producers as follows: From the uniform price computed pursuant to paragraph (a) (7) of this section subtract 40 cents. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade B producers.

PAYMENT FOR MILK

§ 965.70 *Payments to producers.* On or before the 5th day after the end of each month, each handler shall pay, with respect to all milk received during the month, $1.00 per hundredweight of milk to each producer: *Provided,* That in the event the total amount of deductions and charges authorized by any producer against payments due such producer for the month next preceding is greater than the payment computed for such producer pursuant to § 965.73 (a) with respect to the milk received from such producer during such preceding month, the handler may deduct from the payment required by this section a sum equal to the difference between such amounts.

§ 965.71 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund", which shall function as follows:

(a) All payments made by handlers pursuant to §§ 966.61 and 965.72 shall be deposited in this fund, and all payments made pursuant to § 965.73 shall be made out of this fund;

(b) All amounts subtracted pursuant to § 965.64 (a) (3) shall be deposited in this fund and shall remain therein as an obligated balance until withdrawn for the purpose of effectuating § 965.64 (a) (4); and

(c) The difference between the amount added pursuant to § 965.64 (a) (6) and the amount resulting from the subtraction pursuant to § 965.64 (a) (9) shall be deposited in, or withdrawn from, this fund, as the case may be, to effectuate § 965.64 (a) (6) and (9).

§ 965.72 *Payments to producer-settlement fund.* On or before the 17th day after the end of each month, each handler shall pay to the market administrator the amount of money which represents the value of milk for such month of which he is notified pursuant to § 965.63 less the amount paid out to each producer in accordance with § 965.70, and less the amount of the deductions and charges authorized by such producer which are itemized on the handler's producer payroll: *Provided,* That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than an amount which, when added to the payment made to such producer in accordance with § 965.70 (inclusive of the deductions and charges authorized by § 965.70), will not exceed the total value of the milk received from such producer.

§ 965.73 *Payments from producer-settlement fund.* (a) For each month the market administrator shall compute, subject to the provisions of paragraph (c) of this section, the payment due each producer for milk received during such month from such producer by a handler who made the payments for such month pursuant to § 965.72, by multiplying the hundredweight of such milk by the uniform price computed to § 965.64 adjusted to the butterfat test of such milk by adding or subtracting, respectively, for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent, a butterfat differential as computed pursuant to § 965.76, and subtracting any charges and deductions made pursuant to § 965.72.

(b) On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, to each cooperative association authorized to receive payments due producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to paragraph (a) of this section, for all producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments. On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, direct to each producer who has not authorized a cooperative association to receive payments for such producer, the amount of the payment calculated for such producer pursuant to paragraph (a) of this section.

(c) In computing the payment due each producer pursuant to paragraph (a) of this section, the following differential for location is applicable: A deduction of 15 cents per hundredweight shall be made with respect to milk received from such producer at a pool plant located more than 45 miles, by shortest hard-surfaced highway distance as determined by the market administrator, from the City Hall in Cincinnati, Ohio.

§ 965.74 *Expense of administration.* As his pro rata share of the expense incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler shall pay to the market administrator, on or before the 17th day after the end of each month, 2 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received from producers and produced by him during the month: *Provided,* That any cooperative association which has handled milk during the month under the conditions set forth in § 965.9, shall pay such pro rata share of expense of administration on only that quantity of milk so handled.

§ 965.75 *Marketing services.* (a) The market administrator shall deduct an amount not exceeding 6 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.73 (b), with respect to the milk of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in paragraph (b) of this section.

(b) The moneys received by the market administrator pursuant to paragraph (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in paragraph (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to review of the Secretary.

§ 965.76 *Butterfat differential to producers.* In making payments for milk pursuant to § 965.73 (a) there shall be added to, or subtracted from the uniform price per hundredweight, for each one-tenth of 1 percent of butterfat content in such milk above or below 3.5 percent, as the case may be, a butterfat differential computed by the market administrator as follows:

(a) Compute the percentage of butterfat in each class derived from producer milk, as computed pursuant to § 965.46;

(b) Multiply each such percentage figure by the butterfat differential for the respective class pursuant to § 965.52; and

(c) Add into one total the value obtained in paragraph (b) of this section, rounding off the result to the nearest even one-tenth cent.

§ 965.77 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 965.80 *Effective time.* The provisions of this subpart, or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 965.81 *Suspension or termination.* Any or all provisions of this subpart, or amendments to this subpart, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 965.82 *Continuing power and duty of the market administrator.* If upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under this subpart, the final accrual or ascertainment

of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such person as the Secretary may designate, shall continue in such capacity until removed by the Secretary; account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct and execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 965.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 965.90 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 965.91 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

§ 965.92 *Producer handler.* Sections 965.40 to 965.77 inclusive, shall not apply to a producer-handler.

Issued at Washington, D. C., this 27th day of April 1955, to be effective on and after the 1st day of May 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-3540; Filed, Apr. 29, 1955; 8:49 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6076]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

STENOGRAPHIC MACHINES, INC., ET AL.

Subpart—*Combining or conspiring:* § 3.410 *To eliminate or restrain competition in conspirators' goods.* In connection with the offering for sale, sale, or distribution in commerce, of any type of shorthand stenographic machine whether sold or disseminated under the name "Stenotype", Stenograph", or any other name or designation, and on the part of respondents Stenographic Machines, Inc., LaSalle Extension University, and The Stenotype Company, and their respective officers, etc., entering into, continuing, cooperating in, or carrying out any planned common course of action, combination, agreement, or understanding or arrangement between or among themselves, or between any one or more of said respondents and others not parties thereto, to (1) allocate to, among or between themselves or any manufacturer, seller, or distributor of said machines, the customers, potential customers, or class of customers to whom said products may be sold, rented, leased, loaned, or disposed of in any other manner; (2) restrict, restrain, or limit in any manner or by any means those to whom any manufacturer, seller, or distributor of said products may sell, lease, rent, loan, or dispose of same in any other manner; and (3) restrict or restrain in any manner or by any means the sale or distribution of said machines; prohibited.

(Sec. 6, 38 Stat. 721, as amended; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Stenographic Machines, Inc., et al., Chicago, Ill., Docket 6076, Mar. 18, 1955]

In the Matter of Stenographic Machines, Inc., a Corporation; LaSalle Extension University, a Corporation; and The Stenotype Company, a Corporation

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission, which charged in substance that respondents agreed to and did divide among themselves the customers in the mechanical shorthand market, with a tendency thereby to limit competition and create a monopoly therein; respondents' separate answers, in which they denied having engaged in any illegal practices as charged; hearings at which all parties were represented by counsel, participated therein, and were afforded full opportunity to be heard, to examine and cross-examine witnesses, and introduce evidence bearing on the issues, and at which testimony and other evidence, duly recorded and filed in the office of the Commission, were offered in support of and in opposition to the allegations of the complaint; and proposed findings and conclusions, together with reasons therefor or supporting briefs, which were filed by counsel for respondents and counsel supporting the complaint, and were carefully considered, no request for oral argument having been received from counsel.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters, and also, the denial by him (1) of motions by respondents, preceding the filing of their answers, to dismiss the complaint, based in substance on the insufficiency thereof and the alleged mootness of the proceeding by reason of the cancellation of the alleged agreement, and (2) of motions by respondents at the conclusion of the evidence offered in support of the complaint, to dismiss the same for insufficiency of evidence, and of a motion by one respondent to strike certain documentary evidence; and in which, based upon consideration of the entire record and his observation of the witnesses, he set forth his findings of fact,[1] "summary and concluding findings", conclusion of law,[1] remedy,[1] and order to cease and desist.[1]

Thereafter, following respondents' appeal from said initial decision, the matter was disposed of, following the Commission's "per curiam" opinion and decision, by "Order Affirming Initial Decision", Docket 6076, March 18, 1955, as follows:

Respondents having appealed from the initial decision of the hearing examiner dated July 15, 1954; and the matter having been heard by the Commission on briefs and oral argument; and the Commission having rendered its decision adopting the findings, conclusion and order contained in the initial decision:

It is ordered, That respondents' appeal from the initial decision is denied and the initial decision is hereby affirmed.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order contained in said initial decision.

Issued: March 18, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55-3525; Filed, Apr. 29, 1955; 8:46 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

MISCELLANEOUS AMENDMENTS

The Securities and Exchange Commission hereby adopts two procedural rules under the Securities Exchange Act of 1934 designated as §§ 240.15ab4–1 and 240.15ag–1 (Rules X-15AB4–1 and X-15AG–1).

[1] Filed as part of the original document.

Section 240.15ab4–1 relates to applications under section 15A(b)(4) of the act for an order directing or approving the admission or continuance of a broker or dealer in membership in a national securities association (i. e., the National Association of Securities Dealers, Inc.), notwithstanding the existence of some statutory disqualification.

Section 240.15ag–1 governs review of disciplinary action or denial of membership by a national securities association, where such review is on application of a person aggrieved. Where review is on the Commission's own motion, the procedure to be followed will be specified by order.

Statutory basis. The rules are adopted pursuant to the Securities Exchange Act of 1934, particularly sections 15A (b)(4), 15A (g), 15A (h) and 23 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

1. Delete the words "Registration of" from the centerhead preceding §§ 240.15aa–1 and 240.15aj–1, so that said centerhead will read "National and Affiliated Securities Association".

2. Text of rules: a. The text of § 240.15ab4–1 is as follows:

§ 240.15ab4–1 *Relief from statutory disqualification.* (a) A broker or dealer desiring to apply for an order of the Commission approving or directing his admission to or continuance in membership in a national securities association, notwithstanding a disqualification under section 15A (b) (4) of the act, should first submit the matter to the association for a determination whether the association desires to admit or continue him in membership. If the association desires to admit or continue such broker or dealer in membership, it may file an application with the Commission on behalf of the broker or dealer, or the broker or dealer may file an application on his own behalf. If the association refuses to file such an application, the broker or dealer may file an application with the Commission for an order directing the association to admit or continue him in membership.

(b) An application for approval or direction shall set forth the facts with respect to the disqualification, the action of the association on the question of admission to or continuance in membership, and any other matters that the applicant deems relevant. If the application contains assertions of material facts that are not a matter of record before the association or elsewhere, it shall be sworn to or supported by affidavits. The application may be accompanied by a brief.

(c) Copies of the application and other papers filed by either party will be served by the Secretary on the other party, except that such service will be considered unnecessary where the papers are filed by the association on behalf of the broker or dealer. Within 20 days after the service of an application on it, the association may file a statement of its position and such other material as it deems appropriate. The applicant may respond to this material within 10 days.

(d) Where it deems it appropriate to do so, the Commission may grant or deny an application on the basis of the papers filed by the parties, without oral hearing. Any objection to such procedure or request for oral hearing or argument should be submitted promptly and, if the Commission invites public comment on the application, within such time as may be specified in the notice inviting such comment.

(e) The rules of practice shall apply to proceedings under section 15A (b) (4) of the act, to the extent that they are not inconsistent with this section. Attention is directed particularly to §§ 201.13 and 201.15 of this chapter relating to form of papers and number of copies to be filed.

b. The text of § 240.15ag–1 (Rule X-15AG–1) is as follows:

§ 240.15ag–1 *Application pursuant to section 15A (g) of the act for review of disciplinary action or denial of membership by registered securities association.* (a) Proceedings on an application under section 15A (g) of the act, to review disciplinary action taken by a registered securities association or the action of such an association in denying admission to any broker or dealer seeking membership therein shall be governed by this section. If the action complained of was based on the provisions of section 15A (b) (4) of the act, application for relief should ordinarily be filed under § 240.15ab4–1 and not under this section, and any such application filed under this section will be dismissed summarily unless it plainly alleges, with supporting detail, that the specific grounds on which the association's action was based did not exist in fact or were not valid under section 15A (b) (4).

(b) An application pursuant to section 15A (g) of the act for review of action taken by a registered securities association shall be filed with the Commission in triplicate within sixty days after such action has been taken. The Secretary will serve a copy of the application on the association, which shall promptly certify and file with the Commission the original, or one copy, of the record upon which the order complained of was entered, together with three copies of an index to such record. The Secretary will serve such index and any papers subsequently filed as provided in § 201.14 of this chapter.

(c) The applicant may file a brief within 30 days after filing his application. The association may file its brief within 20 days after service of the applicant's brief on it. The applicant may file a reply brief within 10 days after service of the association's brief. Following the filing of the briefs, the application will be set down for oral argument before the Commission, unless oral argument is waived by the parties.

(d) On its own motion, the Commission may direct that the record under review be supplemented with such additional evidence as it may deem relevant. However the association and persons who may be aggrieved by its action shall be obliged to adduce all evidence that they deem relevant in the proceedings before the association, and no such person shall be entitled to adduce additional evidence on review before the Commission unless he shows to the satisfaction of the Commission that such additional evidence is material and that there were reasonable grounds for his failure to adduce such evidence in the hearings before the association. Any request for leave to adduce additional evidence shall be filed promptly so as not to delay the disposition of the proceeding.

(e) The rules of practice shall apply to review proceedings under section 15A (g) and (h) of the act to the extent that they are not inconsistent with this section. Attention is directed particularly to §§ 201.13 and 201.15 of this chapter, relating to form of papers and number of copies to be filed.

The Commission finds that the foregoing rules relate to matters of procedure and practice and that compliance with sections 4 (a), (b) and (c) of the Administrative Procedure Act is unnecessary.

The foregoing rules shall apply to applications filed on or after May 2, 1955.

(Sec. 23, 48 Stat. 901, as amended, 15 U. S. C. 78w)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-3529; Filed, Apr. 29, 1955; 8:46 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

PART 231—TAXPAID WINE BOTTLING HOUSES

On December 1, 1954, a notice of proposed rulemaking with respect to regulations designated as Part 231 of Title 26 (1954) of the Code of Federal Regulations was published in the FEDERAL REGISTER (19 F. R. 7891). The purpose of the proposal was to implement the provisions of the Internal Revenue Code of 1954, relating to taxpaid wine bottling houses, which necessitated the issuance of new regulations. After consideration of all relevant matter presented by interested parties, regarding the regulations proposed, the regulations so published are hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. The preamble is revised.

PAR. 2. Subpart A is amended by revising the first sentence of § 231.2.

PAR. 3. Subpart B is revised as follows:

(A) By deleting from the text of § 231.11 the words "of Internal Revenue."

(B) By adding a new § 231.21 immediately after § 231.20.

(C) By renumbering §§ 231.21–231.26 to §§ 231.22–231.27.

PAR. 4. Subpart C is revised as follows:

(A) By adding two new sentences at the end of § 231.30.

(B) By amending the text of § 231.31.

PAR. 5. Subpart D is revised as follows:

(A) By amending the second and third sentences of § 231.40.

(B) Section 231.43, including the headnote thereof, is amended.

PAR. 6. Subpart E is revised as follows:

(A) The first sentence of § 231.50 is amended by deleting the words "for approval of the premises."

(B) Sections 231.50, 231.54, and 231.57 are amended by striking the word "copartnership", and inserting the word "partnership" in lieu thereof; in paragraphs (a) and (f) of § 231.50, in the headnote and two places in the text of § 231.54, and in the text of § 231.57.

(C) The first sentence of § 231.53 is amended by striking the word "approval" and inserting the words "permission to operate" in lieu thereof.

(D) The fourth sentence of section 231.58 is amended.

(E) By deleting the words "within ten days" from the second sentence of § 231.59.

(F) By amending the headnote of § 231.63 and amending the first sentence of § 231.63.

PAR. 7. Subpart F is revised as follows:

(A) The text of § 231.80 is amended.

(B) The second sentence of § 231.81 is amended.

(C) The text of § 231.83 is amended.

(D) The second sentence of § 231.84 is amended.

(E) The first sentence of § 231.85 is amended.

(F) The second sentence of § 231.86 is amended by adding a proviso thereto.

PAR. 8. Subpart I is revised as follows:

(A) By amending the first sentence of § 231.120.

(B) By adding two new sentences at the end of § 231.122.

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: April 27, 1955.

M. B. FOLSOM,
Secretary of the Treasury.

Preamble: 1. The regulations in this part shall be effective on the first day of the first month which begins not less than thirty days following the date of publication in the FEDERAL REGISTER.

2. No regulations governing the bottling or packaging of taxpaid wine at premises other than rectifying plants or taxpaid distilled spirits bottling houses were in effect immediately prior to the promulgation of this part.

Subpart A—Scope

Sec.
231.1 Bottling or packaging of taxpaid wine.
231.2 Forms prescribed.

Subpart B—Definitions

231.10 Meaning of terms.
231.11 Assistant Regional Commissioner.
231.12 Commissioner.
Sec.
231.13 Director, Alcohol and Tobacco Tax Division.
231.14 Foreign wine.
231.15 Gallon.
231.16 Including.
231.17 Inclusive language.
231.18 I. R. C.
231.19 Package.
231.20 Proprietor.
231.21 Regional Commissioner.
232.22 Standard wine.
231.23 Taxpaid wine.
231.24 U. S. C.
231.25 United States wine.
231.26 Wine.
231.27 Exception.

Subpart C—Establishment of Premises

231.30 General.
231.31 Use of taxpaid wine bottling house.

Subpart D—Construction and Equipment

231.40 Buildings and rooms of taxpaid wine bottling houses.
231.41 Export storage room.
231.42 Tanks and equipment.
231.43 Pipelines for receipt of taxpaid wine.

Subpart E—Qualifying Documents

231.50 Application.
231.51 Permit.
231.52 Occupational taxes.
231.53 Amended application.
231.54 Individual owners, partnerships or associations.
231.55 Corporate documents.
231.56 List of stockholders.
231.57 Power of attorney, Form 1534.
231.58 Plat.
231.59 Change in proprietorship.
231.60 Authority to approve.
231.61 Retention of documents.
231.62 Discontinuance of business.
231.63 Premises in use prior to effective date.

Subpart F—Operations

231.80 Treatment and handling of wine.
231.81 Prohibited practices.
231.82 Bottling and labeling operations.
231.83 Relabeling of bottled wine.
231.84 Packaging.
231.85 Marks.
231.86 Serial numbers.

Subpart G—Bottling or Packaging of Wines Especially for Export With Benefit of Drawback

231.100 General.
231.101 Procedure.

Subpart H—Records and Inventories

231.110 Record of receipts and removals.
231.111 Record of cases filled.
231.112 Record of packages filled.
231.113 Inventories.
231.114 Retention of records.

Subpart I—Variations From Requirements

231.120 Construction and equipment.
231.121 Operations.
231.122 Application covering proposed variations.

Subpart J—Examination of Premises

231.130 Officer's right of entry and examination.

AUTHORITY: §§ 231.1 to 231.130 issued under 68A Stat. 917; 26 U. S. C. 7805. Other statutory provisions interpreted or applied are cited to text in parentheses.

SUBPART A—SCOPE

§ 231.1 *Bottling or packaging of taxpaid wine.* The regulations in this part relate to the bottling and packaging of taxpaid United States and foreign wines, at premises other than a rectifying plant or a taxpaid distilled spirits bottling house operated under Parts 235 and 230, respectively, of this title.

§ 231.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including applications, notices, reports, returns, and records. Information called for shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

SUBPART B—DEFINITIONS

§ 231.10 *Meaning of terms.* As used in this part, except as otherwise indicated in the context, terms shall have the meanings ascribed in this subpart.

§ 231.11 *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of, the Regional Commissioner.

§ 231.12 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 231.13 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division," shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 231.14 *Foreign wine.* "Foreign wine" shall mean wine produced outside the continental United States, Alaska and Hawaii.

§ 231.15 *Gallon.* "Gallon" or "wine gallon" shall mean a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

§ 231.16 *Including.* "Including" shall not be deemed to exclude things other than those enumerated which are in the same general class.

§ 231.17 *Inclusive language.* Words in the plural form shall include the singular and vice versa, and words in the masculine gender shall include the feminine, a trust, estate, partnership, association, company, or corporation.

§ 231.18 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 231.19 *Package.* "Package" shall mean any barrel, cask, keg, or similar container, or any demijohn (or bottle) of two gallons or more capacity, used to remove wine from taxpaid wine bottling houses.

§ 231.20 *Proprietor.* "Proprietor" shall mean the operator of a taxpaid wine bottling house.

§ 231.21 *Regional Commissioner.* "Regional Commissioner" shall mean the Regional Commissioner of Internal Revenue in each of the internal revenue regions.

§ 231.22 *Standard wine.* "Standard wine" shall mean natural wine, specially sweetened natural wine, special natural wine and standard agricultural wine produced in accordance with the provisions of Part 240, Title 26, of the Code of Federal Regulations.

§ 231.23 *Taxpaid wine.* "Taxpaid wine" shall mean wine on which the tax imposed by section 5041, I. R. C., has been determined, regardless of whether the tax has actually been paid or the payment of tax has been deferred under section 5061, I. R. C.

§ 231.24 *U. S. C.* "U. S. C." shall mean the United States Code.

§ 231.25 *United States wine.* "United States wine" shall mean wine produced on bonded wine cellar premises in the continental United States, Alaska and Hawaii.

§ 231.26 *Wine.* "Wine," when used without qualification, means all still wine and includes vermouth and other special (flavored) natural wine.

§ 231.27 *Exception.* The definitions in this subpart are prescribed pursuant to the internal revenue laws governing the bottling, packaging and removal of taxpaid wine and shall not supersede or affect the requirements set forth in Part 4 of Title 27 of the Code of Federal Regulations relative to the labeling of wine under the provisions of the Federal Alcohol Administration Act.

SUBPART C—ESTABLISHMENT OF PREMISES

§ 231.30 *General.* Every person desiring to bottle or package taxpaid wine (at premises other than a rectifying plant or taxpaid distilled spirits bottling house) shall provide premises, make application, and receive permission from the assistant regional commissioner to operate a taxpaid wine bottling house. Wine which does not meet requirements for standard wine may not be received in taxpaid wine bottling houses used for the bottling or packaging of standard wine. Any person desiring to bottle or package other than standard wine must make application to the assistant regional commissioner, as required in § 231.50, to establish a taxpaid wine bottling house for that purpose.

(68A Stat. 663, 664, 665; 26 U. S. C. 5352, 5356, 5364)

§ 231.31 *Use of taxpaid wine bottling house.* The premises of a taxpaid wine bottling house shall be used exclusively, except as provided herein, for the business of bottling, rebottling, packaging, or repackaging of taxpaid wine, including the mixing of wines of the same kind and taxable grade and country of origin to facilitate handling, and the preserving, filtering, or clarifying of wine. Upon approval by the assistant regional commissioner, the premises may also be used to conduct other operations, not involving alcoholic beverages, where such operations will not jeopardize the revenue or conflict with wine bottling or packaging operations.

(68A Stat. 665; 26 U. S. C. 5363)

SUBPART D—CONSTRUCTION AND EQUIPMENT

§ 231.40 *Buildings and rooms of taxpaid wine bottling houses.* Taxpaid wine bottling houses must be so constructed and equipped as to be suitable for the storage and bottling or packaging of taxpaid wine. The buildings, rooms, or designated areas of the premises must be separated from adjacent buildings, rooms, or areas. Doors or other openings may be provided leading into other buildings, rooms, or areas under control of the bottling house proprietor. An entrance door of the premises must lead into a public street or yard, or into an elevator shaft or common passageway: *Provided,* That where it is impracticable to have such outside entrance directly to the premises, the proprietor may provide and maintain, subject to the approval of the assistant regional commissioner, access to the taxpaid wine bottling house through other commercial premises under the control of the proprietor.

(68A Stat. 663; 26 U. S. C. 5352)

§ 231.41 *Export storage room.* Proprietors of taxpaid wine bottling houses intending to bottle or package taxpaid wines especially for export with benefit of drawback, shall provide, on the premises of the taxpaid wine bottling house, an export storage room suitable for the storage of the wine so bottled or packaged pending its removal for export.

§ 231.42 *Tanks and equipment.* Suitble tanks or other containers so arranged and located as to permit ready examination and determination of their contents shall be provided at taxpaid wine bottling houses, unless all wine is to be bottled directly from the bulk containers in which received. The capacities of tanks and other containers will be determined by calculation or measurement and the capacity of the tank and the purpose or purposes for which it will be used will be marked on each tank. If more than one tank is used for the same purpose, they shall be serially numbered. Suitable equipment for measuring and testing wine shall be provided by the proprietor unless such equipment has been provided for use at adjacent premises operated by the proprietor.

§ 231.43 *Pipelines for receipt of taxpaid wine.* If taxpaid wine is to be received by pipeline from contiguous or adjacent premises, the pipeline must be a fixed, unbroken line of permanent character, securely constructed and connected, and so arranged as to be exposed to view throughout its entire length.

SUBPART E—QUALIFYING DOCUMENTS

§ 231.50 *Application.* Every person desiring to establish a taxpaid wine bottling house shall file an application, in triplicate, with the assistant regional commissioner of the region in which the taxpaid wine bottling house is located. The application shall be prepared on letter-size paper and must show:

(a) The name and address of the proprietor, and whether an individual owner, partnership, association, or corporation.

(b) A description of the taxpaid wine bottling house premises in sufficient detail to show the location of the premises and to distinguish such premises from other portions, if any, of the building;

(c) A statement whether the entrance door of the taxpaid wine bottling house leads directly to the outside of the building, to a common passageway or elevator shaft, or into other premises under the control of the proprietor, and if the entrance is into other premises, a statement of the nature of the business conducted on such premises;

(d) Each trade name to be used in bottling or packaging wine;

(e) The approximate quantity of wine to be bottled each month;

(f) If a partnership, association, or corporation, a statement whether permits are held or other premises operated in the same region, and if so, the permit or premises (identified by class, number and address) in connection with which the documents required by §§ 231.54 to 231.56 have been filed;

(g) A statement whether the premises will be used for the bottling of standard wine or wine other than standard wine; and

(h) A statement whether any other business, or operation not involving wine, is to be conducted on the taxpaid wine bottling house premises, and if so, a statement of the nature of the business or operation.

All data, written statements, affidavits and other documents submitted in support of the application shall be deemed to be a part thereof. The application shall be signed by the proprietor or his authorized agent and immediately above the signature there will appear the following statement: "I declare under the penalties of perjury that this application has been examined by me and to the best of my knowledge and belief is a true, correct and complete application."

(68A Stat. 664, 749; 26 U. S. C. 5356, 6065)

§ 231.51 *Permit.* The Federal Alcohol Administration Act (49 Stat. 978; 27 U. S. C. Supp. 203) and regulations issued pursuant thereto in Part 1, Title 27 of the Code of Federal Regulations require that any person, intending to engage in the business of purchasing wine for resale at wholesale, obtain a permit therefor. A state, a political subdivision of a state, or an officer or employee of a state or political subdivision thereof acting in his official capacity, is exempted from this requirement. Application for the permit shall be filed with the assistant regional commissioner at the time of filing the original application for establishment.

§ 231.52 *Occupational taxes.* Proprietors of taxpaid wine bottling houses who sell wine must file special tax returns on Form 11, and pay special (occupational) tax as wholesale liquor dealer or retail liquor dealer, or both, as provided in Part 194 of this title.

(68A Stat. 618, 620, 621, 624, 846; 26 U. S. C. 5111, 5112, 5121, 5122, 5142, 7011)

§ 231.53 *Amended application.* If the proprietor desires to change the location or extent of the premises, or if a trade name not previously approved is to be used, an amended application must be filed with the assistant regional commissioner, and permission to operate obtained prior to commencing the proposed operation. The assistant regional commissioner may require the proprietor to furnish additional information concerning the taxpaid wine bottling house at any time.

(68A Stat. 664; 26 U. S. C. 5356)

§ 231.54 *Individual owners, partnerships or associations.* Where the appli-

cation is filed by an individual owner, partnership or association, the name and address of every person interested in the taxpaid wine bottling house, whether active, passive, or silent, must be given in the application. If there are articles of partnership or association, copies thereof, in triplicate, must be submitted with the application, unless such documents have been previously filed, and a statement to that effect is included in the application.

(68A Stat. 664; 26 U. S. C. 5356)

§ 231.55 *Corporate documents.* Where the application is filed by a corporation there must be filed with the initial application a certificate of incorporation; properly certified copies, in triplicate, of the extracts of the minutes of meetings of the board of directors authorizing certain officers or other persons to sign for the corporation and specifying what documents may be signed; and a list of the names and addresses (business and residence) of the officers, directors and stockholders, as required by § 231.56. If such documents have previously been filed in the same region, and statement to that effect included in the application, additional copies are not required.

(68A Stat. 664; 26 U. S. C. 5356)

§ 231.56 *List of stockholders.* In case of corporations and similar entities, there must be submitted with the application a list, in triplicate, giving the names and addresses (business and residence) of all stockholders and persons interested in the corporation, or other legal entity, and the amount and nature of the stockholding or other interests of each, whether such interest appears in the name of the interested party or in the name of another for him: *Provided,* That the information need be furnished only as to the persons holding or controlling 10 percent or more of any class of stock or other interest.

§ 231.57 *Power of attorney, Form 1534.* If the application is signed by an attorney in fact for an individual, partnership, association, or a corporation, or by one of the members of a partnership or an association, or, in the case of a corporation, by an officer or other person not authorized to sign by the corporate documents described in § 231.55, such application must be supported by a duly authenticated copy of power of attorney conferring authority on the person signing the application to execute the same. Such powers of attorney will be executed on Form 1534, in triplicate, and submitted to the assistant regional commissioner.

§ 231.58 *Plat.* Every person filing application to establish a taxpaid wine bottling house shall file with the assistant regional commissioner a plat of the proposed premises, in triplicate. The plat shall show, in sufficient detail to definitely determine what premises are to be used as a taxpaid wine bottling house, the outer boundaries and doors of the premises. The plat may be a sketch to approximate scale on letter size white paper and shall be signed by the applicant. If paper larger than letter size is used, the plat shall be no larger than 15 x 20 inches in size with a clear margin of not less than one inch.

§ 231.59 *Change in proprietorship.* If there is any change in proprietorship of the business, except through a change in stock ownership of a corporation, the successor must qualify in the same manner as for original establishment of a taxpaid wine bottling house. If there is a change in the control of a corporation, whether by a change in stock ownership or otherwise, the assistant regional commissioner must be notified of the change.

§ 231.60 *Authority to approve.* The assistant regional commissioner is authorized to approve all applications and other qualifying documents required by this subpart. Upon approval the assistant regional commissioner will assign a registry number to the premises and will return one copy of each such document to the proprietor. The registry number shall be used in all correspondence or subsequent documents filed in connection with the operation of the premises, and shall be shown where required on labels or markings of packages or cases filled at the premises.

§ 231.61 *Retention of documents.* The proprietor shall keep in a secure place and filed in an orderly fashion at the taxpaid wine bottling house premises or in an office adjacent thereto, the copies of all approved qualifying documents which have been returned to him by the assistant regional commissioner. Such copies shall be made available, without delay, for the examination of any internal revenue officer.

§ 231.62 *Discontinuance of business.* When the proprietor desires to discontinue the operation of a taxpaid wine bottling house, he shall file a notice, in triplicate, with the assistant regional commissioner giving the date of discontinuance and stating whether all wine on hand has been disposed of and if it has not been disposed of, the disposition which will be made.

§ 231.63 *Premises in use prior to effective date.* Where premises are in use for the bottling of taxpaid wine immediately prior to the effective date of this part, the qualifying documents required by this subpart must be filed on or before that date for continued operations. The assistant regional commissioner may approve the continued use of any such premises not meeting the requirements of this part as to construction and equipment provided he finds that such continued use will not result in jeopardy to the revenue.

SUBPART F—OPERATIONS

§ 231.80 *Treatment and handling of wine.* The proprietor of a taxpaid wine bottling house may use sulphur dioxide compounds, refrigeration or pasteurization in the treatment of wine. Wine may be preserved, filtered or clarified by the use of methods or materials which will not change the basic character of the wine: *Provided,* That if the proprietor desires to treat wine in any manner other than by simple filtration or the use of sulphur dioxide compounds, refrigeration or pasteurization, he shall first file with the assistant regional commissioner an application, in triplicate, giving the details of the proposed treatment. The assistant regional commissioner will approve the application, if the proposed treatment is permissible on taxpaid wine bottling house premises, and the proprietor must not use the treatment prior to receipt of such approval: *Provided,* That if application has been filed covering the use of any material or method which a proprietor was using prior to the effective date of this part, he may continue the use of such material or method pending receipt of approval or disapproval of the application. Wine of the same kind (class, type, and national origin) and taxable grade may be mixed to facilitate handling.

(68A Stat. 665; 26 U. S. C. 5363)

§ 231.81 *Prohibited practices.* While more than one lot of wine of the same kind (class and type), taxable grade, and country of origin, may be deposited in the same storage container or bottling tank to facilitate handling, the blending of taxpaid wines at a taxpaid wine bottling house is prohibited. Water may not be added to wine nor may wine be subjected to any treatment which will alter its basic character. Unauthorized treatment of wine may result in liability to rectification tax or additional wine tax. The proprietor of a taxpaid wine bottling house may incur liability to penalties by reason of unauthorized treatment of wine.

(68A Stat. 695; 26 U. S. C. 5661)

§ 231.82 *Bottling and labeling operations.* Bottles must be filled as nearly as possible to conform to the quantity shown on the label or blown in the bottle, but in no event may the amount of wine contained in any bottle, due to lack of uniformity of the bottles, vary more than two percent from the amount stated to be contained therein; and further in the case of variations in fill within the two percent limitation there shall be substantially as many bottles overfilled as there are bottles underfilled for each lot of wine bottled. Bottles shall be labeled to show:

(a) The name of the proprietor, or an approved trade name, and address of the premises or the name, registry number and state where the premises are located;

(b) Kind of wine (class and type), in the manner specified by Part 4, Title 27, of the Code of Federal Regulations;

(c) The alcohol content by volume in the manner specified by Part 4, Title 27, of the Code of Federal Regulations; and

(d) The net contents of the bottle, unless legibly blown in the bottle.

The labels used by bottlers of wine must be covered by certificates of label approval or certificates of exemption from label approval issued under the Federal Alcohol Administration Act. Bottles must be placed in cases, marked as required by § 231.85, prior to removal from the premises.

§ 231.83 *Relabeling of bottled wine.* Where it is desired to relabel wine bottled at other premises, application for permission to relabel the wine must be made to the assistant regional commissioner in accordance with the provisions of Part 4, Title 27 of the Code of Federal Regulations.

§ 231.84 *Packaging.* The proprietor of a taxpaid wine bottling house may package or repackage wine in barrels, casks, kegs, or similar containers, or in demijohns or bottles of a capacity of two gallons or more. The marks on such containers filled for sale at retail constitute a label, and are subject to the same requirement for approval as labels for bottles.

(68A Stat. 663; 26 U. S. C. 5352)

§ 231.85 *Marks.* Each package or case filled at a taxpaid wine bottling house must be marked in a plain and durable manner with a serial number, the name of the proprietor and location (by city or town and state or by registry number and state) of the taxpaid wine bottling house, the kind (class and type) and the alcohol content of the wine, the contents of the package or case in wine gallons, and (except for cases) the date of removal or shipment. When wine is packaged or bottled under an authorized trade name such trade name may be marked on the shipping container as the name of the proprietor. These marks may be cut, branded, or otherwise durably marked on the package or case or placed upon a label or tag securely affixed to such container. The marks shall be placed on the head of the package or a side of the case.

(68A Stat. 666; 26 U. S. C. 5368)

§ 231.86 *Serial numbers.* The serial numbers required to be placed on packages and cases by § 231.85 will be placed thereon at the time of filling the package or case. The serial numbers will commence with "1" for each taxpaid wine bottling house and will continue in order to the number 1,000,000, when the series may start again with "1": *Provided,* That a new series may be commenced when 100,000 has been reached if no number will be used more than once during a 12-month period. If desired, separate series of numbers preceded by identifying letters may be used for packages and for cases, or for cases filled on different bottling lines.

(68A Stat. 666; 26 U. S. C. 5368)

SUBPART G—BOTTLING OR PACKAGING OF WINES ESPECIALLY FOR EXPORT WITH BENEFIT OF DRAWBACK

§ 231.100 *General.* Wine manufactured or produced in the United States and on which the internal revenue tax has been paid may be bottled or packaged especially for export in a taxpaid wine bottling house, provided an export storage room has been constructed in accordance with § 231.41, and upon exportation of the wine there may be allowed a drawback equal in amount to the tax found to have been paid thereon.

(68A Stat. 614; 26 U. S. C. 5062)

§ 231.101 *Procedure.* The bottling or packaging of wine especially for export in a taxpaid wine bottling house, the storage of the wine pending exportation, the exportation of wine, including the lading thereof for use as supplies on vessels or aircraft and the allowance of drawback thereon, shall be in accordance with the provisions of Part 252, Title 26, Code of Federal Regulations.

SUBPART H—RECORDS AND INVENTORIES

§ 231.110 *Record of receipts and removals.* Proprietors of taxpaid wine bottling houses shall keep daily records, in bound or other permanent form, available for inspection by internal revenue officers, of all wine received at and removed from their premises, and make daily entries therein as the transactions occur. These records shall show as to receipts of wine:

(a) The name of the person from whom received;

(b) The registry number (if any) of the premises from which received;

(c) The address of the premises from which received;

(d) The kind (class, type, and in the case of foreign wine, country of origin) of the wine;

(e) Alcohol content or taxable grade of the wine; and

(f) The quantity in gallons of wine received.

The records shall show as to removals:

(g) The name and address of the person to whom removed: *Provided,* That on sales direct to consumers of not more than one case the name and address of the consignee need not be shown;

(h) The kind (class, type, and in the case of foreign wine, country of origin) of the wine;

(i) Alcohol content or taxable grade; and

(j) The quantity in gallons of wine shipped.

Where the proprietor keeps copies of invoices or other commercial records covering receipt and shipment of wine, with detailed information thereon, or ascertainable therefrom, as described above, and such commercial records are kept in such manner that the required information may be readily ascertained therefrom by internal revenue officers, the separate record may show, by tax class, the total quantity received and removed each day in lieu of the details of each receipt and removal. Entries shall be made on the separate record on the day on which the transactions occur, unless the details are shown on commercial records, in which case the totals may be entered on the separate record on the following business day. Within five days after the end of each month the proprietor shall make a monthly summary showing the quantity on hand (including wine in the export storage room, if any), received, removed, lost, and remaining on hand at the close of the month, for each tax class of wine handled.

(68A Stat. 666; 26 U. S. C. 5367)

§ 231.111 *Record of cases filled.* Each proprietor of a taxpaid wine bottling house shall keep Form 2060, record of wine cases filled, covering the bottling of the wine and the filling and serial numbering of cases. The proprietor must furnish Form 2060 at his own expense in accordance with the form prescribed by the Director, Alcohol and Tobacco Tax Division. Samples of the prescribed Form 2060 may be obtained from the assistant regional commissioner for the use of commercial printers. Proprietors desiring to maintain records in a different form which will show the information called for by Form 2060 may obtain approval for such substitute record upon filing samples of the record with the assistant regional commissioner, provided the assistant regional commissioner finds that the substitute record will furnish the required information in a form susceptible of ready examination and audit by internal revenue officers.

(68A Stat 666; 26 U. S. C. 5367)

§ 231.112 *Record of packages filled.* Each proprietor of a taxpaid wine bottling house who fills packages of wine for removal from the premises must keep a record of the wine packaged. The record shall show the date of packaging, the number of packages filled, serial number and contents of each, and the kind and alcohol content of the wine. No form is prescribed for the record of packages filled but it must be kept complete and in chronological order available for inspection by internal revenue officers.

(68A Stat 666; 26 U. S. C. 5367)

§ 231.113 *Inventories.* The proprietor of every taxpaid wine bottling house shall take an inventory of all wine on hand at his premises on June 30 and December 31 of each year. The record of the inventory shall show the serial number, if any, of each container (except cases), the kind of wine (class and type), the gallons contained therein by taxable grade, and a summary by kinds and by taxable grades. The proprietor shall retain the record of inventory and the working papers available for inspection by internal revenue officers at any reasonable hour.

(68A Stat. 666; 26 U. S. C. 5369)

§ 231.114 *Retention of records.* All records required by this part must be retained by the proprietor for a period of three years, and shall be filed in such manner that they may be readily inspected by internal revenue officers.

SUBPART I—VARIATIONS FROM REQUIREMENTS

§ 231.120 *Construction and equipment.* The Director, Alcohol and Tobacco Tax Division, may approve details of construction and equipment in lieu of those specified in this part where it is shown that it is impracticable to conform to the prescribed specifications, and the proposed construction and equipment will afford as much or more security and protection to the revenue as is intended by the specifications prescribed in this part and where such variations will not be contrary to any provision of law. Where it is proposed to substitute construction and equipment for that for which specifications are prescribed, prior approval must be obtained in accordance with the provisions of § 231.122.

§ 231.121 *Operations.* The Director, Alcohol and Tobacco Tax Division, may, in case of emergency, approve methods or operation other than those provided for by this part where it is shown that variations from the requirements are necessary, will not hinder the effective

administration of this part, will not jeopardize the revenue, and are not contrary to any provision of law. Where it is proposed to employ methods or conduct operations other than those provided for by this part, prior approval must be obtained in accordance with the provisions of § 231.122.

§ 231.122 *Application covering proposed variations.* Where it is desired to use construction or equipment or to employ methods or conduct operations other than as provided in this part, a letter application, in triplicate, shall be filed with the assistant regional commissioner for transmittal to the Director, Alcohol and Tobacco Tax Division. Such application shall describe the proposed variations and state the need therefor. Where variations in construction and equipment cannot be adequately described in the application, drawings or photographs shall be submitted. The assistant regional commissioner will make such inquiry as is necessary to determine the necessity for the variations and whether approval thereof will hinder the effective administration of this part or result in jeopardy to the revenue. On completion of the inquiry, the assistant regional commissioner will forward two copies of the application to the Director, Alcohol and Tobacco Tax Division, together with a report of his findings and his recommendation.

SUBPART J—EXAMINATION OF PREMISES

§ 231.130 *Officer's right of entry and examination.* Internal revenue officers have authority under the law to inspect at any reasonable hour the records, stocks, and premises of taxpaid wine bottling houses to determine that provisions of the internal revenue laws and regulations are being complied with. Officers desiring to make inspections will identify themselves by exhibiting credentials. Any denial of or interference with such inspection by the proprietor, his agents, or employees, is a violation of law and will be reported as such for appropriate action.

(68A Stat. 872, 903; 26 U. S. C. 7342, 7606)

[F. R. Doc. 55-3564; Filed, Apr. 28, 1955; 3:10 p. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 902]

PART 96—JOINT USE OF TERMINALS

PASSENGER TERMINALS AT MERIDIAN, MISS.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 22d day of April A. D. 1955.

It appearing that the contract covering the joint use of the passenger terminal facilities at Meridian, Mississippi, terminates May 1, 1955, and the Gulf, Mobile and Ohio Railroad Company (hereinafter termed GM&O) requests the Interstate Commerce Commission to issue a Service Order under section 1 (15) of the Interstate Commerce Act, as amended, requiring continuation of arrangements for joint or common use of passenger terminals at Meridian, Mississippi, including access thereto, in order to meet an emergency which is imminent and to serve the public interest; that the GM&O is a corporation formed by the consolidation on September 13, 1940, of the GM&O and the Gulf, Mobile and Northern Railroad Company; that the GM&O operates one passenger train daily in each direction between Mobile, Alabama, and St. Louis, Missouri, via Meridian, Mississippi; that these are the only GM&O passenger trains operating from, to or through Meridian, Mississippi; that on May 1, 1905, an agreement for the joint use and operation of passenger trains at Meridian, Mississippi, was entered into by Meridian Terminal Company (hereinafter referred to as Terminal) with Southern Railway Company; Mobile and Ohio Railroad Company; New Orleans and Northeastern Railroad Company; Alabama and Vicksburg Railway Company; The Alabama Great Southern Railroad Company; and The Standard Trust Company of New York, as trustee; that GM&O was made a formal party to said agreement by instrument dated June 4, 1941, in which all of the original parties (except GM&O's predecessor) joined; that the May 1, 1905, contract expires by its terms on May 1, 1955, and contains no provision as to what shall be done at the expiration of the 50-year term; that as of May 1, 1955, insofar as the terms of the contract are concerned, GM&O's obligations to use and to pay, and its right to use, will cease; that also on May 1, 1905, an agreement was entered into by The Alabama Great Southern Railroad Company (hereinafter referred to as AGS) and terminal whereby AGS leased to Terminal for a 50-year term certain properties adjacent to the Terminal property on which was located the Terminal's tracks used by GM&O; that GM&O cannot legally abandon its passenger train operation over the Meridian Terminal facilities without applying for and obtaining authority so to do under section 1 (18) of the act; that there is available to GM&O no practicable remedy known to it whereby it can require Terminal to provide the GM&O's passengers the uninterrupted and continued use of the Terminal facilities, until its application filed under section 1 (18) with the Commission, in Finance Docket No. 18914, shall have been passed upon. Therefore, the Commission is of the opinion that an emergency exists which can be met only by the issuance of the Service Order:

It is ordered, That:

§ 96.902 *Joint use of passenger terminals at Meridian, Mississippi.* (a) The Meridian Terminal Company shall allow and permit joint or common use of its passenger terminals, including access to its tracks, at Meridian, Mississippi, in accordance with the agreement dated June 4, 1941, at which time the GM&O was made a formal party and in which all of the original parties joined, namely Meridian Terminal Company; Southern Railway Company; Mobile, and Ohio Railroad Company; New Orleans and Northeastern Railroad Company; Alabama and Vicksburg Railway Company; The Alabama Great Southern Railroad Company; and the Standard Trust Company of New York, as trustee.

(b) Compensation: Joint use of the terminals described in paragraph (a) of this section and the handling, routing, and movement of traffic shall be upon such terms as between the carriers as they may agree upon or in the event of their disagreement as the Commission may, after subsequent hearing, find to be just and reasonable.

(c) Division of rates: In executing the orders and directions of the Commission provided for in this section, common carriers affected shall proceed, even though no division agreements are in effect, over the routes authorized; divisions shall be, during the time this section remains in force, voluntarily agreed upon by and between said carriers; and upon failure of said carriers to so agree, the divisions shall be hereinafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act. If division agreements now exist on the traffic affected, over routes herein authorized they shall not be changed or affected by this section.

(d) Application: The provisions of this section shall apply to intrastate and foreign traffic as well as interstate traffic.

(e) Effective date: The provisions of this section shall become effective at 12:01 a. m., May 1, 1955.

(f) Expiration date: The provisions of this section shall expire at 11:59 p. m., October 31, 1955, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, That a copy of this order and direction shall be served upon the Public Service Commission of Mississippi, the Gulf, Mobile and Ohio Railroad Company, the Meridian Terminal Company, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] HAROLD D. McCOY, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 931]

MILK IN THE CEDAR RAPIDS-IOWA CITY MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cedar Rapids, Iowa, on October 13 and 14, 1954, pursuant to notice thereof which was issued on October 1, 1954 (19 F. R. 6480), upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cedar Rapids-Iowa City marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on December 8, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of the filing of such recommended decision and the opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on December 11, 1954 (19 F. R. 8481).

The material issues of record related to:

1. Changing from the market-wide pool to an individual-handler pool, or in the alternative, providing separate pooling for Cedar Rapids and Iowa City;
2. Increasing the Class III price;
3. Broadening the definition of producer-handler to include a cooperative association which processes milk;
4. Increasing the level of the Class I price; and
5. Reducing the rate of the marketing service assessment.

Exceptions to the recommended decision were filed on behalf of the Johnson County Cooperative Dairy Marketing Association. These exceptions reiterated the fact that the Class III price was lower than the comparable price in Chicago and that returns to producers would be increased if the Class III price were raised. As noted in the recommended decision, these are not the only factors which must be considered in establishing the level of the Class III price. Based on other evidence contained in the record it must be concluded that no change should be made at this time. Accordingly, such exceptions are overruled.

Findings and conclusions. The findings and conclusions of the recommended decision set forth in the FEDERAL REGISTER (F. R. Doc. 54-9797; 19 F. R. 8481), with respect to the issues set forth above are approved and adopted as the findings and conclusions of this decision as if set forth in full herein.

It is hereby ordered, That this decision be published in the FEDERAL REGISTER.

This decision filed at Washington, D. C., this 27th day of April 1955.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

[F. R. Doc. 55-3538; Filed, Apr. 29, 1955; 8:49 a. m.]

[7 CFR Part 973]

[Docket No. AO 178-A6]

MILK IN THE MINNEAPOLIS-ST. PAUL, MINNESOTA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in Room 307, United States Court House, Minneapolis, Minnesota, beginning at 10:00 a. m., c. s. t., May 17, 1955.

Subject and issue involved in the hearing. This public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk in the Minneapolis-St. Paul, Minnesota, milk marketing area and to the provisions specified in the proposals listed below or some appropriate modifications thereof.

The amendments to the order (No. 73), as amended, were proposed as follows:

Proposed by the Twin City Milk Producers Association:

1. Amend § 973.5 to read as follows:

§ 973.5 *Fluid milk plant.* "Fluid milk plant" means a plant used in preparation or processing of milk, all or a portion of which is disposed of as Grade A milk, fluid milk drinks, or cream, via retail and wholesale routes (including plant stores and vending machines) to milk consumers or resellers within the marketing area: *Provided,* That this definition shall not include the plant of: (1) A producer-handler, (2) a governmentally owned and operated institution which disposes of milk solely for use on its own premises or to its own facilities, and (3) a handler whose sole plant operates under class price regulations of another Federal milk marketing order.

2. Amend § 973.6 to read as follows:

§ 973.6 *Pool plant.* (a) "Pool plant" means (1) a fluid milk plant described in § 973.5 which receives Grade A milk direct from farms where produced and which disposes during the delivery period of not less than 20 percent of such Grade A receipts within the marketing area as Class I milk in consumer packages, or (2) transfers or diverts to fluid milk plants including pool plants, for use within the marketing area, not less than 50 percent of skim milk or butterfat in receipts of Grade A milk from producers during each of the months August and November, and not less than 75 percent of the skim milk or butterfat receipts during the months of September and October: *Provided,* That such pool plant(s) shall offer at the class prices prevailing in the market all Grade A producers' receipts during all delivery periods, inclusive: *And provided further,* That any plant which fulfills the requirements of subparagraph (2) of this paragraph shall be a pool plant until August 1st of the following year unless written notification is given to the market administrator of intention to forfeit pool plant status or unless its producer milk is designated by appropriate authorities as being ineligible for disposal for human consumption. Such voluntary withdrawals shall take place not later than the first day of the first month following receipt of letter of intention by the market administrator.

(b) The following list of plants shall be pool plants upon the effective date of this section:

Clover Leaf Creamery, Inc., 420 West Broadway, Minneapolis, Minn.
Ewald Brothers, 2919 19th Avenue North, Minneapolis, Minn.
Franklin Coop. Creamery, 2109 Washington Avenue North, Minneapolis, Minn.
Norris Creameries, Inc., 2824 Emerson Avenue South., Minneapolis, Minn.
Northland Milk Company, 11 West 28th Street, Minneapolis, Minn.
Ohleen Dairy, 2221 15th Avenue South, Minneapolis, Minn.
Minnesota Milk Co., 370 University Avenue, St. Paul, Minn.
St. Paul Milk Co., 203 Ryan, St. Paul, Minn.
Sanitary Farm Dairies, 415 Grove Street, St. Paul, Minn.
Twin City Milk Producers Ass'n, 2424 Territorial Road, St. Paul, Minn.
Buffalo Cooperative Creamery, Buffalo, Minn.
Delano Cooperative, Delano, Minn.
Hastings Cooperative, Hastings, Minn.
Land O'Lakes Creameries, Inc., St. Michaels, Minn.
Meyers Dairy, Wayzata, Minn.
Baldwin Cooperative Creamery, Baldwin, Wis.
Butternut Cooperative, Luck, Wis.
Ellsworth Cooperative Creamery, Ellsworth, Wis.
Rock Ridge Cooperative, Dresser, Wis.
Wisconsin Cooperative Dairies, Inc., Menomonie, Wis.

3. Amend §973.9 to read as follows:

§ 973.9 *Producer.* "Producer" means any person other than a producer-handler who produces Grade A milk which is shipped directly to a pool plant from the farm where it is produced.

4. Amend § 973.10 to read as follows:

§ 973.10 *Handler.* "Handler" means any person in his capacity as the operator of fluid milk plant.

5. Amend § 973.15 to read as follows:

§ 973.15 *Producer milk.* "Producer milk" means any skim milk and butterfat contained in Grade A milk received at a pool plant directly from the farms of producers.

6. Delete § 973.16 and substitute therefor the following:

§ 973.16 *Other source milk.* "Other source milk" means all skim milk and butterfat received at a fluid plant other than that contained in Grade A producer milk.

7. Add as §§ 973.17 and 973.18 the following:

§ 973.17 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of January through June, which is not in excess of such producer's daily average base computed pursuant to § 973.65, multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 973.18 *Excess milk.* "Excess milk" means producer milk received by a handler during any of the months of January through June which is in excess of base milk received from such producer during such months.

8. Amend § 973.41 (a) to read as follows:

§ 973.41 *Class I milk.* (a) Class I milk shall be all skim milk and butterfat disposed of for consumption in the form of milk, skim milk (including reconstituted skim milk), concentrated milk, buttermilk, flavored milk drinks (except flavored milk drinks in hermetically sealed containers), cream (sweet or sour, including mixtures of cream and milk or skim milk containing less butterfat than the legal standard for cream), eggnog, and all skim milk and butterfat not specifically accounted for pursuant to paragraph (b) of this section.

9. Amend § 973.43 (a) to read as follows:

(a) As Class I milk if transferred or diverted to another handler unless utilization in Class II is mutually indicated to the market administrator by both handlers on or before the 8th day after the end of the delivery period within which such transfer or diversion occurred, but in no event shall the amount classified in either class exceed the total use in such class at the transferee handler: *Provided*, That if Class I milk has been disposed of as Grade A milk from either plant all the Grade A milk in such plant shall be assigned to Class I sales.

10. Amend § 973.44 (a) to read as follows:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk or transferred in the form of cream to a purchaser more than 100 miles from the marketing area. However, cream may be Class II if the handler meets the conditions set out pursuant to paragraph (c) (1), (2), and (3) of this section.

11. Amend § 973.45 to read as follows:

§ 973.45 *Allocation of skim milk and butterfat classified.* After computing the classification of all skim milk and butterfat received by a handler, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner: (1) Subtract from the pounds of skim milk in each class, respectively, the pounds of skim milk received from other fluid milk plants in accordance with its classification, as determined pursuant to § 973.43 (a); (2) subtract from the remaining pounds of skim milk in Class II the pounds of skim milk contained in other source milk: *Provided*, That if the receipts from other source milk are greater than the pounds of skim milk remaining in Class II an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I; (3) if the total pounds of skim milk remaining in both classes exceed the pounds of skim milk received from producers, an amount equal to the difference shall be subtracted from Class II: *Provided*, That if the remaining pounds of skim milk in Class II are less than the amount to be subtracted, an amount equal to the difference shall be subtracted from Class I.

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine respectively the weighted average butterfat content of the milk received from producers and allocated to Class I milk and Class II pursuant to paragraphs (a) and (b) of this section.

12. Delete § 973.50 to 973.55, inclusive, and substitute therefor the following:

§ 973.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum price for Class I milk shall be the highest of the prices computed by the market administrator pursuant to paragraph (a) of this section, and pursuant to paragraph (b) of this section of the preceding month.

(a) The average of the basic or field prices ascertained to have been paid for milk of 3.5 percent butterfat content received during the preceding delivery period at the following plants or places for which prices are reported to the market administrator by the listed companies or by the Department of Agriculture:

Companies and Locations

Pet Milk Co., Wayland, Mich.
Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) (1) Multiply by 4.24 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter at New York as reported by the Department of Agriculture during the delivery period; (2) multiply by 8.2 the weighted average of carlot prices for spray process nonfat dry milk solids, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published by the Department of Agriculture for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period; (3) add into one sum the amounts obtained in subparagraphs (1) and (2) of this paragraph; and (4) subtract 75.2 cents therefrom. This shall also be the Class II price.

§ 973.51 *Supply and demand ratio.* On or before the last day of each delivery period the market administrator shall make the following computations based upon information obtained from handlers' reported receipts and utilization:

(a) Determine the total receipts of Grade A milk from all producers (including receipts from own farm production) for the most recent 12-month period.

(b) Determine the total pounds of Grade A milk actually utilized in Class I milk and cream during the most recent 12-month period.

(c) Divide the amount obtained in paragraph (b) of this section by the amount obtained in paragraph (a) of this section and round to the nearest full percent, which resulting percentage shall be known as "current supply-demand ratio."

§ 973.52 *Class I price.* (a) Each handler shall pay at the time and in the manner set forth in § 973.72 not less than the following price per hundredweight of milk on the basis of 3.5 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 973.45. The price for Class I milk shall be the basic formula price plus 70 cents during January through June inclusive, and plus 90 cents during the month of December and $1.10 during all other months: *Provided*, That such Class I price differential shall be increased or reduced respectively 2 cents for each full percent that the current supply-demand ratio is greater or less than 80 percent, but shall not be increased or decreased more than 36 cents in any month because of the supply-demand ratio.

(b) Grade A Class I milk transferred or diverted to any place outside the surplus milk manufacturing area serving this market during any of the delivery periods of August, September, October, or November, shall be classified separately and its price shall be 70 cents higher than the prices otherwise computed.

§ 973.53 *Class II milk.* The price shall be that determined by the market administrator as follows: (1) Multiply by 4.24 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter at New York as reported by the Department of Agriculture during the delivery period; (2) multiply by 8.2 the weighted average of carlot prices for spray process nonfat dry milk solids, for human consumption f. o. b. manufacturing plants in the Chicago area, as published by the Department of Agriculture for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period; (3) add into one sum the amounts obtained in subparagraphs (1) and (2) of this paragraph; and (4) subtract 75.2 cents therefrom.

§ 973.54 *Location differential to handlers.* (a) With respect to producer milk purchased or received at a pool plant and which is disposed of as Class I milk in the marketing area, the price per hundredweight computed pursuant to § 973.50 (a) shall be reduced by the amount indicated below for the distance that such plant is located from the Minnesota Transfer Viaduct over University Avenue in St. Paul. Such deduction shall be based on the airline mileage as computed by the market administrator.

Location of Plant and Amount of Deduction

	Cents
0 to 15 miles	0
15 to 20 miles	8
20 to 30 miles	10
30 to 40 miles	12
40 to 50 miles	14
50 to 60 miles	15
60 to 70 miles	16
70 miles or over	[1] 17

[1] Plus an additional 1 cent for each 10 miles or fraction thereof in excess of 80 miles.

§ 973.55 *Butterfat differentials to handlers.* (a) If the average butterfat content of the milk disposed of by any handler as Class I milk is more or less than 3.5 percent, there shall be added to the Class I price per hundredweight computed pursuant to § 973.52 (a) for each one-tenth of 1 percent that the average butterfat content of such Class I milk is above 3.5 percent or shall be subtracted for each one-tenth of 1 percent that the average butterfat content of such Class I milk is below 3.5 percent, an amount computed by the market administrator as follows: To the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the preceding delivery period add 40 percent and divide the sum obtained by 10.

(b) If the average butterfat content of the milk disposed of by any handler as Class II milk is more or less than 3.5 percent, there shall be added to the Class II price per hundredweight computed pursuant to § 973.50 (b) for each one-tenth of 1 percent that the average butterfat content of such Class II milk is above 3.5 percent, or shall be subtracted for each one-tenth of 1 percent that the average butterfat content of such Class II milk is below 3.5 percent, an amount computed by the market administrator as follows: To the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the delivery period, add 21.15 percent and divide the sum obtained by 10.

13. Delete §§ 973.62 and 973.63 and substitute therefor the following:

§ 973.62 *Payment for overage.* If a handler (this shall also apply to a fluid milk plant which is not a pool plant) has an overage of either skim milk or butterfat, pursuant to § 973.70, the market administrator shall add an amount computed by multiplying the pounds of overage by the applicable class prices.

§ 973.63 *Payment for other source milk.* (a) In computing the value of milk received by a handler, the market administrator shall consider as Class II milk any skim milk or butterfat received by a handler from sources other than producers or other handlers. If the receiving handler has disposed of such skim milk or butterfat as Class I milk the market administrator shall add to the total value computed for such handler pursuant to § 973.70, the difference between the value of such skim milk or butterfat at the Class II price and its value at the Class I price. This proviso shall not apply to skim milk and butterfat if used in Class I only to the extent that milk of producers was not available for such use.

(b) If any handler who operates a nonpool plant which receives Grade A milk from producers or another nonpool plant had disposed of Class I milk in the marketing area, the market administrator shall determine a value for such milk equal to the amount resulting from the following computation: The product of the quantity of milk received by such handler which was disposed of in the marketing area as Class I milk during the delivery period, multiplied by the difference between the price for Class I milk computed pursuant to § 973.52 (a) and the price for Class II milk computed pursuant to § 973.50 (b).

14. Add as § 973.65 the following:

§ 973.65 *Computation of daily base for each producer.* (a) The daily base for each producer applicable during each of the delivery periods of January through June, inclusive, shall be determined by the market administrator as follows: Divide the total pounds of Grade A milk received by a handler(s) at a pool plant from such producer during the immediately preceding delivery periods of August, September, and October, by the number of calendar days during such period in which milk was received from such producer, or by 78 days, whichever is greater.

(b) A producer may transfer his daily base or any portion thereof during the period of January through June by notifying the market administrator in writing before the last day of any delivery period that such quota is to be transferred to the person named in such notice.

(c) For each new producer (a producer will be considered new until he has delivered Grade A milk to this market in six months of base paying period) from whom milk was received on less than 78 days during the months of August through October, inclusive, or who commence the delivery of milk to a handler during the months of January through June, the daily base of such producer shall be the market-wide pool average daily base per producer, minus 10 percent.

(d) Any producer for whom a base has been established pursuant to paragraph (a) of this section may relinquish such base by notifying the market administrator prior to January 31 of each year. The daily base of such producer shall be the daily base established the preceding year, minus 10 percent.

15. Delete § 973.70 to § 973.73 and substitute therefor the following:

§ 973.70 *Net pool obligation(s) of handlers.* On or before the 8th day of each delivery period the market administrator shall examine, for mathematical correctness and obvious errors, the report of receipts and utilization submitted by each handler for the preceding delivery period and shall make such corrections as such examination shall indicate to be appropriate.

(a) Multiply the producer skim milk and butterfat in each class by the applicable class price and add together the resulting amounts.

(b) Add the amount of any payments required to be made pursuant to §§ 973.62 and 973.63.

(c) Subtract all location adjustment credits computed pursuant to § 973.53.

§ 973.71 *Computation of uniform price.* The market administrator shall compute the uniform price per hundredweight for Grade A milk for each delivery period. The computation shall be made in the following manner;

(a) Combine into one total the net pool obligation of all handlers computed pursuant to § 973.70.

(b) Subtract if the average butterfat content of the milk included in these computations is greater than 3.5 percent, or add if such average butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 973.81 and multiplying the resulting amount by the total hundredweight of milk included in these computations.

(c) Add the aggregate of all allowable location differentials computed pursuant to § 973.82.

(d) Add an amount representing the unobligated cash balance in the producer-settlement fund on hand at the close of business on the last day of the dellvery period.

(e) Divide the result by the total hundredweight of producer milk of all handlers whose net pool obligations are included pursuant to paragraph (a) of this section.

(f) Subtract not less than 4 cents or more than 5 cents as a producer-settlement fund reserve. The result shall be the uniform price per hundredweight of milk containing 3.5 percent butterfat received from producers at pool plants located not more than 15 miles from the Viaduct over University Avenue in St. Paul, except for the months of January, February, March, April, May, and June.

(g) Determine the price for base milk and the price for excess milk delivered during each delivery period of January through June, inclusive, as follows:

(1) Base milk to the extent of the amount of Class I sales shall be valued as Class I.

(2) Base milk in excess of Class I sales shall be valued as Class II.

(3) Excess milk shall be of the value of the weighted average of the amount of Class I sales which is in excess of base milk and the value of the remaining excess milk, subject to additions and subtractions of paragraphs (b), (c), (d) and (f) of this section.

§ 973.72 *Announcement of class prices.* On or before the 5th day after the end of the delivery periods, the market administrator shall mail to all handlers and make public announcement of the class prices computed pursuant to §§ 973.50, 973.51, and 973.52, and the butterfat differentials computed pursuant to §§ 973.53 and 973.81.

§ 973.73 *Announcement of uniform price.* On or before the 9th day after the end of each delivery period, the market administrator shall notify each handler and make public announcement of the uniform price computed pursuant to § 973.71.

16. Amend § 973.80 (a) and (b) to read as follows:

§ 973.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 20th day after the end of the delivery period, July through December inclusive, in which the milk was received, to each producer for milk not caused to be delivered directly from such producers' farms to such handler by a cooperative association at not less than the uniform price computed pursuant to § 973.71, subject to the differentials set forth in §§ 973.81 and 973.82, during remaining delivery periods pay for base milk at the base price and excess milk at the excess milk price.

(b) On or before the 15th day after the end of the delivery period, July through December inclusive, and in all remaining delivery periods in which the milk was received, to a cooperative association for milk which it caused to be delivered directly from producers' farms to such handler and for which such cooperative association collects payment, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to paragraph (a) of this section, and less the amount of payment made pursuant to paragraph (d) of this section.

17. Amend § 973.81 to read as follows:

§ 973.81 *Butterfat differential to producers.* If, during the delivery period, any handler has purchased or received from any producer, milk having an average butterfat content other than 3.5 percent, such handler in making the payment prescribed in § 973.80 (a) and (b) shall add to the uniform price per hundredweight payable to such producer for each one-tenth of 1 percent that the butterfat content in milk is above 3.5 percent not less than, or shall deduct from the uniform price per hundredweight for each one-tenth of 1 percent that the butterfat content in milk is below 3.5 percent not more than an amount computed by the market administrator as follows: To the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the delivery period, add 21 percent and divide the resulting sum by 10.

Proposed by the Old Home Creameries, Inc.:

18. A handler operating under the jurisdiction of another marketing order, but manufacturing and selling products in this marketing area also, be exempt from audit by the Administrator of this order, but a copy of the records deemed necessary by the Administrator be filed with his office. If the Class I price of Order 73 is higher than that of a plant reporting under the exception above, that the difference on the hundredweight of milk used in the products marketed in the marketing area be paid into the marketing pool.

Proposed by the Dairy Division, Agricultural Marketing Service:

19. Make such other changes as may be necessitated by adoption of any of the above proposed amendments.

Copies of this notice of hearing may be procured from the Market Administrator, 1750 Mennepin Avenue, Room 306, Minneapolis, Minnesota, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: April 27, 1955.

ROY W. LENNARTSON,
Deputy Administrator.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

FLORIDA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 26, 1955.

The Department of Agriculture has filed an application, Serial No. BLM 039824, for the withdrawal of the lands described below, from all forms of appropriation under the General Mining Laws, subject to existing valid claims. The applicant desires the land for Administrative Sites and Recreation Areas within the Ocala National Forest.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Washington 25, D. C.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

TALLAHASSEE MERIDIAN

OCALA NATIONAL FOREST

Recreation Areas

Dinner Ponds:
T. 17 S., R. 25 E.,

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

APRIL 20, 1955.

The United States Department of Agriculture has filed an application, Serial No. Idaho 05884, for the withdrawal of the lands described below, from all forms of appropriation under the General Mining Laws, subject to existing valid claims. The applicant desires the land for roadside zone.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

LOCHSA RIVER (LEWIS AND CLARK FOREST HIGHWAY 16) ROADSIDE ZONE—CLEARWATER NATIONAL FOREST

A strip of land 500 feet wide contiguous to and on the northwesterly side of the Lochsa River through unsurveyed Townships 35 and 36 North, Ranges 10 and 11 East, extending from the confluence of Indian Grave Creek with the Lochsa River southwestward a distance of approximately 9 miles to the confluence of Bald Mountain Creek with the Lochsa River, and situated in what probably will be when surveyed, the following subdivisions:

T. 35 N., R. 10 E.,
Sec. 2, N½NW¼;
Sec. 3, S½NE¼, N½SW¼, NW¼SE¼;
Sec. 4, NE¼SE¼, S½SE¼;
Sec. 8, N½SE¼, SW¼SE¼.
T. 36 N., R. 10 E.,
Sec. 25, SE¼SE¼;
Sec. 35, SE¼NE¼, SE¼SW¼, N½SE¼, SW¼SE¼;
Sec. 36, N½N½, SW¼NW¼.
T. 36 N., R. 11 E.,
Sec. 21, SE¼NW¼, E½SW¼, NW¼SE¼;
Sec. 28, N½NW¼;
Sec. 29, S½NE¼, SE¼NW¼, NE¼SW¼, S½SW¼;
Sec. 30, SW¼, N½SE¼.

And also a strip of land 200 feet in width on each side of the center line of the said Lochsa River road as now constructed or as located on the ground within unsurveyed Townships 34 and 35 North, Ranges 9 and 10 East, and situated in what probably will be when surveyed, the following subdivisions:

T. 34 N., R. 9 E.,
Sec. 5, N½NE¼, SW¼NE¼, S½SW¼, W½SE¼;
Sec. 7, E½NE¼;
Sec. 8, N½NW¼, SW¼NW¼.

LOCHSA RIVER (LEWIS AND CLARK FOREST HIGHWAY 16) ROADSIDE ZONE—LOLO NATIONAL FOREST

A strip of land 200 feet in width on each side of the center line of the Lewis and Clark Forest Highway No. 16 through the following legal subdivisions, or so much of said width as may be situated within said subdivisions:

T. 36 N., R. 13 E.,
Unsurveyed, but when surveyed will probably be:
Sec. 4, N½N½.
T. 37 N., R. 13 E.,
Unsurveyed, but when surveyed will probably be:
Sec. 25, SE¼SE¼;
Sec. 33, S½SW¼, SE¼;
Sec. 34, N½S½;
Sec. 35, N½;
Sec. 36, N½N½, SW¼NW¼.
T. 37 N., R. 14 E.,
Sec. 12, NE¼NE¼, W½NE¼, SE¼NW¼, N½SW¼, SW¼SW¼, NW¼SE¼;
Sec. 14, NW¼NE¼, N½NW¼, SW¼NW¼, W½SW¼;
Sec. 22, E½E½;
Sec. 28, NE¼SW¼, S½SW¼, N½SE¼, SW¼SE¼;
Sec. 30, Lot 4, SE¼SW¼, S½SE¼.
T. 37 N., R. 15 E.,
Sec. 6, SE¼NE¼, NE¼SW¼, Lot 7, SE¼SW¼, N½SE¼.
T. 38 N., R. 15 E.,
Sec. 16, Lot 3, S½SW¼, NW¼SE¼;
Sec. 20, E½SE¼;
Sec. 28, NW¼NW¼;
Sec. 32, W½E½, E½W½.

And a strip of land 500 feet wide situated contiguous to and on the north side of the Lochsa River through unsurveyed Township 36 North, Ranges 11, 12 and 13 East, extending from the confluence of Squaw Creek with the Lochsa River westward a distance of approximately 13 miles to the confluence of Indian Grave Creek and situated in what probably will be when surveyed the following subdivisions:

T. 36 N., R. 11 E.,
Sec. 13, SE¼NE¼, N½S½;
Sec. 14, SE¼NW¼, N½S½;
Sec. 15, SW¼SW¼, NE¼SE¼, S½SE¼;
Sec. 21, NE¼NE¼, S½NE¼;
Sec. 22, W½NE¼, S½NW¼.
T. 36 N., R. 12 E.,
Sec. 9, NE¼SW¼, S½SW¼;
Sec. 10, W½SW¼, SE¼SW¼, SW¼SE¼;
Sec. 11, SE¼NE¼, N½SE¼, SW¼SE¼;
Sec. 12, S½N½;
Sec. 14, NW¼NE¼, N½NW¼;
Sec. 15, NW¼NE¼, S½NE¼, N½NW¼;
Sec. 16, NW¼NW¼;
Sec. 17, N½;
Sec. 18, S½N½, N½S½.
T. 36 N., R. 13 E.,
Sec. 5, S½NE¼, N½SW¼, SW¼SW¼, NW¼SE¼;
Sec. 6, S½SE¼;
Sec. 7, W½NE¼, SE¼NW¼, N½SW¼.

LOCHSA RIVER (LEWIS AND CLARK FOREST HIGHWAY 16) ROADSIDE ZONE—NEZPERCE NATIONAL FOREST

A strip of land 200 feet in width on each side of the center line of the Lewis and Clark Forest Highway No. 16 through the following legal subdivisions, or so much of said width as may be situated within said subdivisions:

T. 32 N., R. 6 E.,
Sec. 1, Lots 5, 6, 7, 8;
Sec. 2, Lots 5, 6, 9, 10;
Sec. 3, Lots 5, 6, 7, 8;
Sec. 4, Lots 3, 6, 7;
Sec. 5, Lot 8;
Sec. 6, Lots 8, 9;
Sec. 7, Lots 2, 4.
T. 32 N., R. 7 E.,
Sec. 5, Lot 5, S½SW¼;
Sec. 6, Lots 7, 8, 9, SE¼SE¼;
Sec. 7, Lot 1;
Sec. 8, Lot 2.
T. 33 N., R. 7 E.,
Sec. 1, Lots 5, 7, 8;
Sec. 11, Lots 1, 2, 3, 4;
Sec. 12, Lots 2, 3;
Sec. 14, Lots 2, 3, 6, 7;
Sec. 22, Lots 1, 2, 3, 7, 8, 9;
Sec. 23, Lots 2, 3;
Sec. 27, Lots 2, 3, 6, 7;
Sec. 28, Lots 1, 5, NW¼SE¼, H. E. S. 99;
Sec. 33, Lots 3, 6, 9, H. E. S. 99.
T. 33 N., R. 8 E.,
Unsurveyed, but when surveyed will probably be:
Sec. 1, N½NW¼, SW¼NW¼;
Sec. 2, S½N½, N½S½;
Sec. 3, N½S½;
Sec. 4, S½N½, N½S½;
Sec. 5, SW¼NE¼, S½NW¼, N½S½;
Sec. 6, S½NW¼, N½S½.
T. 34 N., R. 8 E.,
Unsurveyed, but when surveyed will probably be:
Sec. 24, E½E½;
Sec. 25, E½NE¼, NE¼SE¼, W½SE¼;
Sec. 36, W½E½, E½W½.
T. 34 N., R. 9 E.,
Unsurveyed, but when surveyed will probably be:
Sec. 8, NW¼SW¼;
Sec. 18, N½NE¼, SW¼NE¼, NE¼SW¼, SW¼SW¼, NW¼SE¼;
Sec. 19, W½W½.

J. R. PENNY,
State Supervisor.

National Park Service

[Order 1]

MOUNT RAINIER NATIONAL PARK; ASSISTANT SUPERINTENDENT ET AL.

DELEGATIONS OF AUTHORITY

SECTION 1. *Assistant Superintendent and Chief Clerk.* The Assistant Superintendent and Chief Clerk may execute and approve contracts not in excess of $10,000 for supplies, equipment or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised by the Assistant Superintendent and Chief Clerk in behalf of any coordinated area.

SEC. 2. *Purchasing Agent.* The Purchasing Agent may execute and approve contracts not in excess of $2,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to avail-

ability of appropriations. This authority may be exercised by the Purchasing Agent in behalf of any coordinated area.

SEC. 3. *Appeals.* Any party aggrieved by any action or decision of the Assistant Superintendent, Chief Clerk, or Purchasing Agent shall have a right of appeal to the Superintendent of the area. Any such appeal shall be in writing and shall be submitted to the Superintendent within 30 days after receipt by the aggrieved party of notice of the action taken or decision made by the Assistant Superintendent, Chief Clerk, or Purchasing Agent.

(National Park Service Order No. 14 (19 F. R. 8824); 39 Stat. 535; 16 U. S. C., 1952 ed., sec. 2. Region Four Order No. 2 (19 F. R. 8824))

Issued this 29th day of March 1955.

[SEAL] PRESTON P. MACY,
Superintendent,
Mount Rainier National Park.

CIVIL AERONAUTICS BOARD

[Docket No. 1705 et al; Order No. E-9138]

AIR FREIGHT RATE INVESTIGATION

OPINION AND TWELFTH SUPPLEMENTAL ORDER GRANTING, DEFERRING AND DENYING EQUALIZATION OF MINIMUM RATES TO CERTAIN POINTS

APRIL 27, 1955.

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 26th day of April, 1955.

The Board on June 2, 1948 entered an order [1] in this proceeding prescribing lawful minimum rates for the transportation of property by air (except for property carried in the air express service) and providing therein that the record be held open for any party in interest to petition for modification of the minimum rates as to any commodity or group of commodities between any points.

Pursuant to said authorization, upon petition of American Airlines, Inc. (American), and the concurrence of Flying Tiger Line, Inc. (Tiger), and Slick Airways, Inc. (Slick), the Board ordered [2] that the lawful minimum rates and charges to and from Teterboro, New Jersey, and Newark, New Jersey shall be the minimum rates prescribed for application to and from New York, New York, computed upon the mileages specified in The Air Line Distance Between Cities of the United States, U. S. Department of Commerce, Coast and Geodetic Survey (1947).

Thereafter, by order dated April 10, 1950 [3] the Board established below minimum directional rates and provided that the lawful minimum directional rates prescribed for the interstate transportation of property (except property carried in the air express service) to or from:

Oakland or San Francisco.
Los Angeles or Long Beach.
El Centro or Brawley.
Salinas or Monterey.
Dallas or Fort Worth.
Tampa or St. Petersburg.

shall be computed by using the mileage determined by Order No. E-1639 [4] to or from the first-named city in each instance. In equalizing lawful minimum directional rates to the above-listed pairs of cities, the Board stated: [5]

> We have previously authorized the equalization of freight rates to and from the New York, N. Y., Newark and Teterboro, N. J., on the theory that the airports located in those cities serve the same metropolitan area and a lower rate to one of them, would, as a practical matter, funnel all consignments to the New York City area through that airport. We further believe that directional rates from cities located in a very close proximity to each other which can be, or are, served through a single airport should be equalized.

Equalization of rates at Seattle and Portland was denied by the Board for the reason that these cities are not located in the same metropolitan area, nor are they so situated that they may be conveniently served through a single airport.

Subsequently, various carriers petitioned the Board to authorize equalization of minimum rates to various pairs or groups of cities, contending that rate equalization to and from cities within the same metropolitan area, or served by one airport or alternative airports, is both desirable and in the public interest because it provides for:

(a) Tariff simplification.
(b) Reduced costs in tariff preparation.
(c) Clarity of tariff interpretation.
(d) In elimination of rate discrimination among competing shippers or consignees due to their location or the location of the airport utilized by the air carrier serving such shippers or consignees.

The carriers' petitions and the cities to which request was made for equalization of rates are as follows: [6]

American:
Detroit and Ann Arbor and Windsor.
Dallas and Fort Worth.
Scranton and Wilkes-Barre.
Elmira and Corning.
Hartford and Springfield.
Newark, New York, Teterboro, and White Plains.
Washington and Baltimore.
San Francisco and Oakland.
Midland and Odessa.
Charleston and Dunbar.
Niagara Falls and Buffalo.
Braniff Airways, Inc.: [7]
Minneapolis and St. Paul.
National Airlines, Inc.: [8]
Tampa and St. Petersburg.

Joint Petition Tiger and Slick: [9]
Oakland and San Francisco.
Los Angeles and Long Beach.
Dallas and Fort Worth.
El Centro and Brawley.
Salinas and Monterey.
United Air Lines, Inc. (United): [10]
Portland and Seattle.
Boston and Providence.
Detroit and Toledo.
San Diego, Los Angeles, and Long Beach.

United supports the American petition and the Flying Tiger/Slick petition as well as requesting equalization at the above-named cities.

Eastern Air Lines, Inc. (Eastern), supports [11] equalization where two or more cities are served through a single airport or where large areas are involved which are served by two or more airports but opposes equalization at Baltimore/Washington and at Boston/Providence for the reason that these pairs of cities do not fall within either clasification discussed above.

The reasons advanced for equalization of freight rates between cities comprising the same metropolitan area and between cities located in close proximity to each other and which are served through a single airport on the basis of which equalization of directional minimum rates was permitted at other points appear to apply equally to the petitions before us which request equalization of minimum rates at the pairs of cities first listed below. The same considerations would require us to deny equalization of rates to pairs or groups of cities which are not within the same metropolitan area or which are not served through the same airport. Based on the foregoing consideration, it appears that equalization of freight rates to and from the following pairs of cities is reasonable and appropriate:

Detroit and Windsor.
Dallas and Forth Worth.
Scranton and Wilkes-Barre.
Elmira and Corning.
Hartford and Springfield.
San Francisco and Oakland.
Midland and Odessa.
Charleston and Dunbar.
Tampa and St. Petersburg.
Los Angeles and Long Beach.
El Centro and Brawley.
Salinas and Monterey.
Minneapolis and St. Paul.

Accordingly, we will not permit equalization of minimum rates at the following pairs or groups of cities as they are not located within the same metropolitan area nor do they appear to be so situated that they are served through a single airport:

Ann Arbor and Detroit and Windsor.
Niagara Falls and Buffalo.
Portland and Seattle.
Newark, New York, Teterboro, and White Plains.
Boston and Providence.
Detroit and Toledo.
San Diego and Los Angeles and Long Beach.

In view of the present consideration which is being given to the use of Friendship Airport as an airport for serving both Washington, D. C., and Baltimore, action upon American's petition to equalize rates at those cities will be deferred without prejudice to the rights of American or other parties to request equalization of rates at those cities at a later date.

The pairs of cities to which we are authorizing equalization of minimum rates are in close proximity to each other and there appears to be no valid reason why the computation of minimum rates to the pairs of cities to which rates are equalized should not in each case be based upon mileage determined in accordance with the provisions of Order No. E-1639, to or from the city of each pair of cities which will result in the application of the lower minimum rate and our order will so provide.

No answer or objection has been filed to the equalization of minimum rates to any of the pairs of cities to which we have herein authorized equalization of rates.[12] Our order authorizing equalization of rates at such pairs of cities will therefore be final. With respect to our findings and order denying or deferring equalization of rates at the pairs or groups of cities named, if no exceptions are filed with the Board by any party of record within 30 days of the date of the service of the order denying the petition for equalization, the order will become final. If exceptions to the order denying or deferring equalization of rates are so filed, further proceedings in connection therewith shall be conducted in such manner as the Board may deem appropriate.

Accordingly, upon consideration of the foregoing matters and all the facts of record in this proceeding:

It is ordered, That the lawful minimum rates and charges for the interstate transportation of property by air (except for property carried in the air express service) to or from the pairs of cities listed immediately below shall be computed by using the mileage determined in accordance with the provisions of Order No. E-1639 to or from the city of each pair of cities which will result in the application of the lower minimum rate.

Detroit and Windsor.
Dallas and Fort Worth.
Scranton and Wilkes-Barre.
Elmira and Corning.
Hartford and Springfield.
San Francisco and Oakland.
Midland and Odessa.
Charleston and Dunbar.
Tampa and St. Petersburg.
Los Angeles and Long Beach.
El Centro and Brawley.
Salinas and Monterey.
Minneapolis and St. Paul.

It is further ordered, That the petition of American Airlines, insofar as it related to equalization of minimum rates at the cities of Washington, D. C., and Baltimore, be deferred without prejudice to the right of American or any other party of record to request equalization of minimum rates at these cities at a later date.

It is further ordered, That the petitions insofar as they relate to the equalization of minimum rates at the combination of cities listed immediately below be denied:

Ann Arbor and Detroit and Windsor.
Niagara Falls and Buffalo.
Portland and Seattle.
Newark, New York, Teterboro, and White Plains.
Boston and Providence.
Detroit and Toledo.
San Diego and Los Angeles and Long Beach.

It is further ordered, That if no exceptions are filed with the Board by any party of record within 30 days of the date of service of this order, the order denying or deferring equalization of minimum rates to cities named will become final. If exceptions to the order deferring or denying the equalization of rates are filed within 30 days of the service of this order, further proceedings in connection therewith shall be conducted in such manner as the Board may deem appropriate.

It is further ordered, That copies of this order be served on all parties to this proceeding and that this order be published in the FEDERAL REGISTER.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 55-3544; Filed, Apr. 29, 1955; 8:50 a. m.]

[1] Order No. E-1639, 9 CAB 340, 357. This order has been amended by Order Nos. E-4048, E-4890, E-6698, and E-7837.
[2] Order No. E-2184, dated Nov. 12, 1948.
[3] Order No. E-4048.
[4] Mileage between points shall be that specified in Airline Distance Between Cities in the United States, United States Department of Commerce, Coast and Geodetic Survey, 1947, or where no mileage is therein specified, the mileage computed in accordance with the formula contained in that publication, 9 CAB 340, 362.
[5] 11 CAB 228, 238.
[6] Petition dated March 1, 1954.
[7] May 20, 1954.
[8] July 15, 1954.
[9] Feb. 15, 1954.
[10] April 6, 1954.
[11] By letter dated April 30, 1954.
[12] Eastern, the sole objector, limited its objection to equalization of rates at Boston and Providence (to which equalization is denied) and at Washington and Baltimore (at which equalization is deferred).

DEPARTMENT OF THE TREASURY

Foreign Assets Control

IMPORTATION OF FIRECRACKERS FROM HONG KONG AND MACAO

Notice is hereby given that the Treasury Department on the basis of information in its possession as to the availability for importation into the United States of firecrackers which are not of Communist Chinese or North Korean origin is now prepared to consider applications for licenses under the Foreign Assets Control Regulations (31 CFR 500.101-500.808) for the importation during the last six months of 1955 of a limited quantity of firecrackers from Hong Kong and Macao. Applications must be filed on or before May 27, 1955.

Any person interested in importing such firecrackers may obtain additional information and license application forms from the Foreign Assets Control, Treasury Department, Washington 25, D. C.

[SEAL] ELTING ARNOLD,
Acting Director,
Foreign Assets Control.

[F. R. Doc. 55-3574; Filed, Apr. 29, 1955; 8:55 a. m.]

FEDERAL POWER COMMISSION

[Docket No. IT-5961]

JOSE BARRERA GONZALEZ AND CENTRAL POWER AND LIGHT CO.

NOTICE OF APPLICATION

APRIL 25, 1955.

Take notice that on April 18, 1955, a joint application was filed with the Federal Power Commission by Jose Barrera Gonzalez of San Pedro Roma, Tamaulipas, Mexico, and Central Power and Light Company of Corpus Christi, Texas, for authorization, pursuant to section 202 (e) of the Federal Power Act, to export an additional amount of electric energy from the United States to Mexico over that presently permitted by the authorization granted by the Commission's order issued June 29, 1949, in the above docket.

By that order the applicants were authorized to transmit up to 876,000 kwh of electric energy for use and resale in San Pedro Roma, Mexico, and vicinity, over facilities covered by a Presidential Permit released to Jose Barrera Gonzalez on March 6, 1946, at a maximum rate of transmission of 200 kw. The applicants presently seek to increase the amount to be transmitted to up to 1,000,000 kwh at a maximum rate of transmission of 400 kw. Jose Barrera Gonzalez proposes to purchase the entire amount of energy to be exported from Central Power and Light Company at a point on the United States side of the Rio Grande near the International Bridge, Roma, Starr County, Texas, and thereafter transmit it over the facilities which he owns and maintains pursuant to authorization granted by the aforementioned Presidential Permit; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to the application should, on or before the 16th day of May 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's general rules and regulations. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-3532; Filed, Apr. 29, 1955; 8:47 a. m.]

GENERAL SERVICES ADMINISTRATION

PYRETHRUM HELD IN NATIONAL STOCK PILE

DISPOSITION

Pursuant to the provisions of section 3 (e) of the Strategic and Critical Materials Stock Piling Act, 60 Stat. 597, 50 U. S. C. 98b (e), notice is hereby given of a proposed disposition of approximately 60,000 pounds of pyrethrum (20 percent) extract now held in the National Stock Pile.

This quantity of pyrethrum is no longer needed in the National Stock Pile because of a revised determination by the Office of Defense Mobilization that pyrethrum extract is obsolescent for use in time of war because of the development of new and better materials.

It is proposed to channel the pyrethrum to be disposed of to the pyrethrum processors at current market prices over a twelve month period. It is believed that this plan will protect the United States against avoidable loss and also protect producers, processors and consumers against avoidable disruption of their usual markets.

This material will be available for disposition on and after November 1, 1955.

Dated: April 28, 1955.

A. J. WALSH,
Commissioner, Emergency Procurement Service, General Services Administration.

[F. R. Doc. 55-3566; Filed, Apr. 29, 1955; 8:52 a. m.]

TOTAQUINE HELD IN NATIONAL STOCK PILE

DISPOSITION

Pursuant to the provisions of section 3 (e) of the Strategic and Critical Materials Stock Piling Act, 60 Stat. 597, 50 U. S. C. 98b (e), notice is hereby given of a proposed disposition of approximately 7,818,272 ounces of totaquine now held in the National Stock Pile.

This quantity of totaquine is no longer needed in the National Stock Pile because of a revised determination by the Office of Defense Mobilization that totaquine, intended as a substitute for quinine, is obsolescent for use in time of war because of the development of new and better materials.

The totaquine to be disposed of will be offered for sale generally. All those considered by the General Services Administration to be interested in purchasing such material will be invited to submit offers. It is believed that this plan will protect the United States against avoidable loss.

The principal component of totaquine is quinine. The quantity of quinine contained in the amount of totaquine to be offered for sale is not considered to be such that the proposed sale will disrupt the usual markets of producers, processors and consumers. It is anticipated that all or nearly all of the sales will be for export.

This material will be available for disposition on and after November 1, 1955.

Dated: April 28, 1955.

A. J. WALSH,
Commissioner, Emergency Procurement Service, General Services Administration.

SECURITIES AND EXCHANGE COMMISSION

[File No. 31-624]

WISCONSIN ELECTRIC POWER CO.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

APRIL 25, 1955.

Notice is hereby given that Wisconsin Electric Power Company ("Wisconsin Electric"), a registered holding company, has filed with this Commission an application, pursuant to section 3 (a) (2) of the Public Utility Holding Company Act of 1935 ("act"), for an exemption for it and each of its subsdiary companies as such from all of the provisions of the act on the basis that it is predominantly a public-utility company whose operations as such do not extend beyond the State of Wisconsin, the state in which it is organized, and states contiguous thereto.

In 1941, Wisconsin Electric, then a subsidiary of The North American Company ("North American"), a registered holding company, filed, pursuant to Rule U-2 of the general rules and regulations promulgated under the act, a statement claiming, on behalf of itself as a holding company and on behalf of its subsidiary companies as such, an exemption from all of the provisions of the act. However, Wisconsin Electric and its subsidiaries remained subject to the provisions of the act insofar as they were subsidiaries of North American. On November 4, 1947, in anticipation of the divestment by North American of its investment in Wisconsin Electric, the Commission, pursuant to Rule U-6 under the act, gave notice to Wisconsin Electric of the termination of the exemption available by reason of Rule U-2. Thereafter, on December 3, 1947, Wisconsin Electric filed an application for an exemption from all of the provisions of the act under sections 3 (a) (1) and (2). After due notice and public hearings the Commission denied said application by Order dated December 20, 1948. (See Holding Company Act Release No. 8741.) In denying said application the Commission gave special significance to the fact that the utility operating revenues of Wisconsin Electric's subsidiaries for the year ended December 31, 1947, amounted to 54.66 percent of the utility operating revenues of the parent company.

Subsequently, Wisconsin Electric registered as a holding company pursuant to section 5 of the act. In 1950 the Commission instituted a proceeding in respect of Wisconsin Electric and its subsidiaries under section 11 (b) (1) of the act for the purpose of determining whether the system's operations were in conformity with the standards of that section. Public hearings were held, which thereafter were adjourned subject to the call of the Hearing Officer, and the matter is still pending.

The application now before the Commission, filed by Wisconsin Electric pursuant to section 3 (a) (2) of the act, contains allegations which are included in the following summary:

Wisconsin Electric, incorporated in the State of Wisconsin, is engaged in the generation, transmission, distribution and sale of electric energy in Milwaukee, Wisconsin and in nearby communities in that State. It also supplies steam heating service in a limited downtown area in Milwaukee. During 1954 over 97 percent of its total operating revenues were derived from the sale of electric energy and less than 3 percent from the sale of steam. Wisconsin Electric has two direct public-utility subsidiary companies as defined by sections 2 (a) (5) and (8) of the act, namely, Wisconsin Michigan Power Company ("Wisconsin Michigan") and Wisconsin Natural Gas Company ("Wisconsin Gas") and one direct non-utility subsidiary company, The Milwaukee Electric Railway & Transport Company ("Transport"). Transport has a wholly owned non-utility subsidiary company, Badger Auto Service Company ("Badger"). All of the subsidiaries are incorporated in Wisconsin.

All of the common stock of Wisconsin Michigan and Wisconsin Gas is owned by Wisconsin Electric. Wisconsin Gas derives approximately 99 percent of its total operating revenues from the sale of gas and about 1 percent from steam heating service and operates only in the State of Wisconsin. Wisconsin Michigan derives approximately 7 percent of its operating revenues from the sale of gas in Wisconsin and approximately 93 percent from the sale of electric energy in the east-central and northern portion of Wisconsin and in an adjoining area in the Northern Peninsula of Michigan. Transport's business is devoted to the operation of a terminal freight line principally used for hauling coal to Wisconsin Electric's Lakeside Power Plant. Badger operates parking facilities and auto service stations in the City of Milwaukee on property owned by Wisconsin Electric and its services are, in part, utilized by Wisconsin Electric and its employees and in part by the public.

In 1950 Wisconsin Electric acquired all of the electric utility properties formerly owned and operated by Wisconsin Gas. (See Holding Company Act Release No. 9891.) This acquisition reduced the percentage relationship of the utility subsidiaries' operating utility revenues as compared with those of Wisconsin Electric. The following table sets forth for 1954 statistics comparing the size and the business of Wisconsin Electric's public utility subsidiaries with that of its own, including the relationship with respect to operating utility revenues:

	As at Dec. 31, 1954, or 12 months then ended		
	Wisconsin Electric	Wisconsin Michigan and Wisconsin Gas	Relationship percent of subsidiaries to parent
Utility operating revenues, less inter-company sales	$69, 288, 724	$18, 663, 158	27.0
Net utility operating revenues, before income taxes	$20, 978, 886	$6, 003, 383	28.6
Sales of electricity, less inter-company sales (thousand kilowatt-hours)	3, 617, 730	658, 368	18.2
Gross utility plant (at original cost)		6, 135, 449	
Net utility plant (at original cost)	$280, 668, 972	$65, 736, 529	23.4
Average number of electric customers	$198, 526, 290	$49, 809, 025	25.1
Average number of gas customers	437, 938	54, 360	12.4
Average number of utility customers		70, 674	
	437, 938	125, 034	28.6

As at December 31, 1954, the public utility subsidiaries of Wisconsin Electric had outstanding in the hands of the public an aggregate of $25,648,019 of debt securities and $4,000,000 par value of preferred stock. At the same date the consolidated common stock equity of the Wisconsin Electric system was approximately 40 percent of the system's total consolidated capitalization.

In its pending application, Wisconsin Electric states that its public-utility operations do not extend beyond Wisconsin, the State in which it is organized, and alleges that it is "predominantly" a public-utility company and that the granting of the requested exemption would not be detrimental to the public interest or the interest of investors or consumers. In support of the requested exemption, applicant states that Wisconsin Electric and both of its public-utility subsidiaries are subject to regulation by the Public Service Commission of Wisconsin and that Wisconsin Michigan is also subject to the jurisdiction of the Federal Power Commission, both as a public-utility and as a licensee, and to the jurisdiction of the Michigan Public Service Commission.

Notice is further given that any interested person may, not later than May 31, 1955, at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application may be granted or the Commission may take such other action as it may deem proper under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3360]

LESTER MARTIN

ORDER WITH RESPECT TO ACQUISITION OF COMMON SHARES OF EXEMPT HOLDING COMPANY

APRIL 26, 1955.

Lester Martin having filed with the Commission an application and an amendment thereto pursuant to sections 9 (a) (2) and 10 of the Public Utility Holding Company Act of 1935 ("act") requesting approval of certain acquisitions of common shares of Eastern Gas and Fuel Associates ("Eastern"), an exempt public-utility holding company, which increased his direct and indirect holdings up to and over 5 percent of the outstanding voting securities of Eastern, thereby rendering him an affiliate, as defined in section 2 (a) (11) (A) of the act, of Eastern and its wholly owned public-utility subsidiary, Boston Consolidated Gas Company; and further requesting approval of certain intended future acquisitions of such shares of Eastern; and

The Commission having issued due notice of the filing of said application, and no one having requested a hearing and the Commission not having ordered a hearing thereon; and the Commission having considered said application, as amended, and finding that the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary as respects the applicant's acquisition of those common shares which increased applicant's direct and indirect holdings to 5 percent of the outstanding voting securities of Eastern; and it appearing that all past and any future acquisitions of additional common shares of Eastern by applicant in excess of the amount necessary to cause applicant to become an affiliate of Eastern are exempt from the requirements of sections 9 (a) (2) and 10 of the act by reason of Rule U-11 (d) promulgated thereunder:

It is ordered, That so much of said application, as amended, as requests approval of the applicant's acquisition of a sufficient number of common shares of Eastern to cause applicant to become an affiliate of Eastern be, and the same hereby, is granted.

It is further ordered, That the balance of said application be and the same hereby is, dismissed for lack of jurisdiction.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3375]

MISSISSIPPI VALLEY GENERATING CO. ET AL.

NOTICE OF FILING REGARDING ISSUE AND SALE OF FIRST MORTGAGE BONDS AND PROMISSORY NOTES OF SUBSIDIARY PUBLIC UTILITY AND ORDER FOR HEARING

APRIL 27, 1955.

In the matter of Mississippi Valley Generating Company, Middle South Utilities, Inc., The Southern Company; File No. 70-3375.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, The Southern Company ("Southern"), also a registered holding company, and Mississippi Valley Generating Company ("Generating Company"), an Arkansas corporation and a subsidiary of both Middle South and Southern, have filed a joint application-declaration pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") and have designated sections 6 (b), 12 (b) and 12 (f) of the act and Rule U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said joint application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Generating Company has been organized for the purposes of constructing and operating, near West Memphis, Arkansas, a three-unit steam electric generating station with a net capability of approximately 650,000 kilowatts, together with related equipment. Generating Company has executed a Power Contract with the Atomic Energy Commission ("AEC"), to provide for electric energy to be furnished by Generating Company to the Tennessee Valley Authority ("TVA") for or on account of AEC over a period of 25 years commencing with completion of the first generating unit.

The cost of the facilities proposed to be constructed by Generating Company, including $2,000,000 of working capital, is estimated by the applicants-declarants to be $106,115,000. The application-declaration states that $700,000 of such amount will consist of a non-cash item of interest on equity during construction, and that $5,500,000 will be obtained by Generating Company through the issuance of 55,000 shares of its $100 par value common stock and the sale thereof for $5,500,000 to Middle South and Southern pursuant to this Commission's order of February 9, 1955, in File No. 70-3319. The balance of $99,915,000 will be obtained by Generating Company through the sale of $77,362,000 principal amount of its first mortgage bonds and through bank borrowings of $22,553,000.

Pursuant to the Commission's order of February 9, 1955, Generating Company has issued and sold 11,000 shares of its $100 par value common stock for $1,100,000 of cash. Middle South purchased 8,690 shares (79 percent) and Southern purchased 2,310 shares (21 percent) of such stock.

Generating Company has entered into a bond purchase agreement with two life insurance companies which have agreed to purchase not exceeding $92,914,000 principal amount of Generating Company's 3⅝ percent first mortgage bonds due January 1, 1989 ("Bonds"). Generating Company has also entered into a bank credit agreement with 24 commercial banks which have agreed to purchase not exceeding $27,086,000 face amount of 3¼ percent promissory notes of Generating Company due January 1, 1969 ("Notes"). Generating Company states that, although the bond purchase and bank credit agreements provide for the aggregate amounts set forth above, it is expected that, based upon present estimates of the cost of the West Memphis plant, the bond purchase commitments will be utilized only to the extent of an aggregate of $77,362,000 and the bank indebtedness will be cut back to an aggregate of $22,553,000. Generating Company will pay commitment compensation at the rate of ½ of 1 percent per annum on the unused balance of the bank commitment and on the unsold principal amount of Bonds, subject to

suspension or termination of such commitment compensation in certain circumstances.

Generating Company now requests Commission authorization for (1) the issue and sale of not exceeding $92,914,000 principal amount of Bonds, (2) the issue and sale of not exceeding $27,086,000 face amount of Notes, and (3) the execution and performance of an Intercompany Agreement to which the lending insurance companies and banks will be parties and in which, among other things, Middle South and Southern will agree to pay or cause to be paid in the proportions of 80 percent and 20 percent, respectively, an aggregate amount sufficient to provide revenue which, when added to other revenues of Generating Company, will be sufficient to enable the latter to pay its operating and other expenses, its taxes, and the debt service on its Bonds and Notes.

The application-declaration states that the issue and sale of the Bonds and Notes will be the subject of a proceeding before the Arkansas Public Service Commission and that, except for such Commission, no State or Federal commission other than the Securities and Exchange Commission has jurisdiction over the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to the application-declaration and that such application-declaration shall not be granted or permitted to become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on said application-declaration, pursuant to the applicable provisions of the act and the rules of the Commission, be held on May 16, 1955, at 10:00 a. m., e. d. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. At said date the hearing room clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding is directed to file with the Secretary of the Commission on or before May 13, 1955, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That James G. Ewell, or any other officer or officers of this Commission designated by it for that purpose, shall preside thereat. The officer or officers so designated to preside are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation having advised the Commission that it has made a preliminary examination of the application-declaration, and that upon the basis thereof the following matters and questions are presented for consideration, without prejudice to the specifying of additional matters and questions upon further examination:

(1) Whether the proposed issue and sale of the Bonds and Notes by Generating Company are solely for the purposes of financing its business and have been expressly authorized by the State commission of the State in which it is organized and doing business.

(2) Whether, in connection with the proposed issue and sale of the Bonds and Notes by Generating Company, the Commission should impose any terms and conditions as may be appropriate in the public interest or for the protection of investors or consumers.

(3) Whether the Intercompany Agreement constitutes the issue or sale of a security by Middle South and Southern, or either of them, and, if so, whether the standards of section 7 are satisfied.

(4) Whether, in connection with the proposed issue and sale of the Bonds and Notes, compliance with the competitive bidding requirements of Rule U-50 is unnecessary to aid the Commission to determine such terms and conditions as may be appropriate in the public interest or the interest of investors or consumers.

(5) Whether the execution and performance of the Intercompany Agreement is necessary or appropriate in the public interest and for the protection of investors and consumers.

(6) Whether the proposed transactions are in all respects in accordance with the standards of the act, and whether, in the event the application-declaration should be granted and permitted to become effective, it is necessary or appropriate to impose any terms and conditions to ensure compliance with the standards of the act or in the public interest or for the protection of investors and consumers;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this Notice and Order by registered mail to Generating Company, Middle South, Southern, The Arkansas Public Service Commission, the Federal Power Commission, the Tennessee Valley Authority, the Atomic Energy Commission, and the Governors of the States of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, and Tennessee, and that notice to all other persons shall be given by publication of this notice and order in the FEDERAL REGISTER; and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to the mailing list for releases under the Public Utility Holding Company Act of 1935.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

APRIL 27, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 30555: Paper and paper articles from, to and between Official Territory. Filed by C. W. Boin, C. R. Goldrich and R. G. Raasch, Agents, for interested rail carriers. Rates on paper and related paper articles, carloads, also empty returned skids or platforms, carloads, (a) between points in official (including Illinois) territory; (b) from points in official (including Illinois) territory to points in southern territory, and (c) from points in official territory east of Illinois-Indiana State Line to points in western trunk-line territory.

Grounds for relief: Short-line distance formula, circuity, and maintenance of different levels of rates in intermediate territories.

Tariffs: C. W. Boin's I. C. C. A-1055; C. R. Goldrich's I. C. C. 707; R. G. Raasch's I. C. C. 840; R. G. Raasch's I. C. C. 841.

FSA No. 30556: Paper and paper articles from Western and Canadian points to Western Trunk Line Territory. Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on paper and related paper articles, including pulpboard and wallboard, carloads, also empty returned wooden skids or platforms, paper winding cores, and store or window displays, carloads, from specified points in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska and Wisconsin, and in the Provinces of Manitoba and Ontario, to specified points in Colorado, Kansas, Minnesota, Nebraska, North Dakota, South Dakota, and Wyoming.

Grounds for relief: Short-line distance formula, circuity, and maintenance of different levels of rates in intermediate territories.

Tariffs: W. J. Prueter's I. C. C. A-4082, supplement 4; W. J. Prueter's I. C. C. A-4094.

FSA No. 30557: Paper and paper articles to official and Southern Territories. Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on paper and related paper articles, carloads, also empty returned skids or platforms, carloads, from specified points in Iowa, Kansas, Michigan (upper peninsula), Minnesota, Missouri, Nebraska, South Dakota and Wisconsin, to specified points in central, trunk-line, New England, and southern territories.

Grounds for relief: Short-line distance formula, circuity, and maintenance of different levels of rates in intermediate territories.

Tariffs: W. J. Prueter's I. C. C. A-4092; W. J. Prueter's I. C. C. A-4093.

FSA No. 30558: Paper and paper articles—Southwest to Western Trunk Line, Official and Southern Territories. Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on paper and related paper articles, carloads, also empty returned platforms or skids, carloads, from specified points in Arkansas, Louisiana, Oklahoma and Texas, to specified points in western trunk-line, official (including Illinois) and southern territories.

Grounds for relief: Short-line distance formula, circuity, and maintenance of different levels of rates in intermediate territories.

Tariffs: F. C. Kratzmeir's I. C. C. 4151; F. C. Kratzmeir's I. C. C. 4152; F. C. Kratzmeir's I. C. C. 4153.

By the Commission.

Referendum among producers, direction concerning 3478, 3572

AIR FORCE DEPARTMENT

Air Force Reserve Officers' Training Corps. *See* Reserves.
Aircraft restricted areas over military installations, designation in coordination with Air Force. *See main heading* Civil Aeronautics Administration.
Armed services procurement regulations. *See main heading* Defense Department.
Authority, delegation of, from Defense Department, Secretary; redelegation respecting civilian use of Reserve Component facilities, and establishment of uniform procedure for management and control 3689
Charges. *See* Fees and charges.
Committees, boards:
Boards. *See* Personnel review boards.
Telecommunications Planning Committee, representation on 3652
Fees and charges for copying, certifying and searching records, schedule of 3336
Personnel review boards, Air Force Disability Review Board:
Application for review 3026
Constitution and purpose 3026
Disposition of proceedings 3026
Findings and conclusions 3026
Hearings 3026
Rehearings 3027
Records, schedule of fees and charges for copying, certifying and searching 3336
Reserve Component facilities, civilian use of, authority delegation from Secretary of Defense respecting 3689
Reserve forces:
Air Force Reserve Officers' Training Corps:
Deferment from induction for students under Universal Military Training and Service Act:
Definitions, professor of air science (PAS) 3025
Notification of local boards 3025
Selection of Air Force ROTC students for deferment; redeferments 3025
Institutional phase 3337

AIR FORCE DEPARTMENT—Continued Page

Reserve forces—Continued
Officers' Reserve:
Mobilization designation, ineligibility 3025
Requisitioning Air Force Reserve personnel, career summaries 3025
Training, waivers of training requirements for mobilization designees 3025

ALIEN PROPERTY, OFFICE OF:

Return of vested property, notices respecting. *See* Vesting orders.
Vesting orders, etc.:
Return of vested property, notices respecting:
Aicardi, Domenico 3490
Baratz, Clara 3243
Barme, Carry 3051
Behdjou, Kay M 3052
Bissinger, Leopold 3648
Boettern, Hildegard 3453
Buchheim, Clara 3314
Cantagallo, Antonio, Monica, and Ignazio 3814
Ferrante, Concetta Guglielmi 3514
Gensheimer, Ilse Gertrude, and Carl Philip 3216
Guglielmi, Maria Concetta, Rosa, and Filomena (Philomena) 3514
Herschmann, Karl 3689
Iacobellis, Antonio, Domenico, Bernardo, and Caterina 3514
Ikemiya, Sysumu 3243
Mallerin, Charles 3051
Nakayama, Takao 3814
Pignatello, Filomina 3578
Plant, Hendricus 3453
Pontrelli, Giuseppe, Cesaria, Nicolina, Regina, Michele, and Leopoldo 3514
Reppi, Maria 3814
Schipper, Andriaan J 3648
Scuccimarri, Giuseppe, and Allegra 3514
Steinkellner, Walter 3490
Troeller, William 3051
Wech, Karl 3051
Various interests in estates, litigation proceedings, etc.:
Albert, Richard 3145
David, Ludwig Edward 3781
Kehl, Louis Barbara Richter, and others 3145
Richter, Gottlieb 3145
Richter, Richard Albert 3145

ALLOWANCES. *See* Pay, allowances, etc.

ARMY DEPARTMENT:

See Engineers, Corps of.
Aircraft restricted areas over military installations, designation in coordination with Army. *See main heading* Civil Aeronautics Administration.
Authority, delegation of, from Defense Department, Secretary; redelegation respecting civilian use of Reserve Component facilities, and establishment of uniform procedure for management and control 3689
Mentally incompetent personnel, payments on behalf of; retired and retirement pay 3223
Military Academy, United States, transportation of cadets discharged from; revocation 3583
Military education, promotion of rifle practice:
Civilian shooting clubs, issues of rifles, ammunition, etc., to 3226
Schools, issues of rifles, ammunition, etc., to 3224
National Guard regulations; commissioned officers, appointment of individuals drawing disability compensation from United States 3583
Nondiscrimination in employment, procurement regulations respecting labor. *See* Procurement.
Nurse Corps, Army, requirements for appointment in; Army Reserve 3529
Pay and allowances:
Mentally incompetent personnel, payments on behalf of; retired and retirement pay 3223
National Guard regulations; commissioned officers, appointment of individuals drawing disability compensation from United States 3583
Printing and related supplies, interdepartmental procurement of. *See* Procurement.

ARMY DEPARTMENT—Continued Page

Procurement:
Armed services procurement regulations. *See main heading* Defense Department.
Army procurement procedures:
Advertising, formal, procurement by:
Opening of bids and award of contract:
Mistake in bids 3505, 3506
Synopses of contract awards 3506
Prior regulations revoked 3505
Solicitation of bids:
Bidders mailing list; reference respecting instructions, revocation 3505
Synopses of proposed procurements, preparation and transmittal 3505
Prior regulations revoked 3504
Bids. *See* Advertising, formal.
Contract clauses for fixed-price supply contracts:
Clauses to be used when applicable; Neutrality Act of 1939, revocation 3506
Required clauses, termination for convenience of Government 3506
General provisions:
Basic policies:
Certificates of necessity and expediting production funds, use of 3505
Manpower policy in placing procurement 3504
Methods of procurement 3503
Responsible prospective contractor 3504
Sources of supply, firms performing contracts in labor surplus areas 3503
Specifications 3503
Definitions of terms; principal purchasing offices, Army Medical Service and Ordnance Corps 3503
Government property in possession of contractors, implementation of manual for control of; definitions, records of plant equipment 3507
Interdepartmental procurement 3506
Federal Supply Schedule contracts, procurement under 3506
Federal Supply Service Stores Depots, procurement from 3506
Printing and related supplies, procurement of 3506
Labor, nondiscrimination in employment:
Administration, processing of complaints 3507
Applicability, revocation 3506
Emergencies, special requirements for 3506
Negotiation, procurement by, small purchases; order and voucher for purchase of supplies or services, general instructions 3506
Reserve Component facilities, civilian use of, authority delegation from Secretary of Defense respecting 3689
Reserves, organized, Army Reserve; appointments in Army Nurse Corps, requirements 3529
Retirement pay on behalf of mentally incompetent personnel 3223
Rifle practice, promotion of:
Issues of rifles, ammunition, etc.:
To civilian shooting clubs 3226
To schools 3224
National matches, rules and regulations for 3799
Schools, issues of rifles, ammunition, etc., to 3224
Telecommunications Planning Committee, representation on 3652
Transportation of individuals:
Applicants for enlistment, and recruits; revocation 3583
Cadets discharged from United States Military Academy, revocation 3583
Checkable personal baggage, revocation 3583
Civilian witness before military courts, revocation 3583
Dependents, revocation 3583
Enlisted personnel upon discharge or relief or release from active duty, revocation 3583
Enlisted persons, upon retirement; revocation 3583
Military personnel separated from active service under conditions other than honorable, revocation 3583
Oversea movement of individuals on Army transports, revocation 3025
Sleeping car and similar accommodations, revocation 3583
Transportation of household goods, revocation 3583
Vessels, redelivery of; revocation 3583

ATOMIC ENERGY COMMISSION: Page
Committees and boards:
Civil Defense Coordinating Board, representation on (Executive Order 10611) 3245
Telecommunications Planning Committee, representation on 3652
Restricted data relating to civilian uses of atomic energy, access to; proposed rule making 3634

B

BOARDS. *See* Committees and boards.
BUDGET BUREAU:
Civil Defense Coordinating Board, representation on (Executive Order 10611) 3245
BUSINESS AND DEFENSE SERVICES ADMINISTRATION:
Priority orders; copper and copper-base alloys, brass mill products, copper wire mill products, copper-base alloy powder mill products, etc., production and distribution (M–11A) 3513

C

CARIBBEAN COMMISSION; appointment of alternate United States Commissioners, authority of Secretary of State respecting (Executive Order 10609) 3147
CHILD HEALTH DAY, 1955 (Proclamation 3093) 3179
CIVIL AERONAUTICS ADMINISTRATION:
Aircraft:
Recordation of ownership of aircraft, or encumbrances. *See* Recordation.
Registration of aircraft. *See* Registration.
Airports, public, acquisition by public agencies for airport purposes of lands owned or controlled by the United States for; conveyance of land, deletion of provisions relating to reservation of fissionable materials 3794
Civil airways, designation of; alterations:
Colored civil airways (blue, red) 3183, 3256
VOR civil airways 3183
Control areas, control zones, and reporting points designation of; alterations:
Control areas:
Colored civil airways (blue, red) 3185
Extension of control areas 3185
VOR civil airways 3186
Control zones 3186, 3256
Reporting points:
Colored civil airways (blue, red) 3186
Other reporting points 3186
VOR reporting points, domestic 3187
Instrument flight rules:
Altitudes; minimum en route IFR altitudes:
Civil airways (amber, blue, green, red) 3794, 3798
Direct routes 3795
VOR civil airways 3795
Approach procedures, instrument, standard (including ceiling and visibility minimums for take-off and landing at particular airports):
Automatic direction finding procedures 3101, 3510
Ground controlled approach procedures 3737
Instrument landing system procedures 2960, 3103, 3511, 3560, 3735
Radio range procedures; low frequency range procedures 2956, 3099, 3220, 3509, 3733
Very high frequency omnirange procedures 2958, 3102, 3221, 3510, 3734
Recordation, of ownership of aircraft, of encumbrances against engines, etc.:
Aircraft ownership; eligibility of conveyances for recordation, etc., revision 3301
Encumbrances against aircraft engines, propellers, appliances, or spare parts:
Engines, propellers, appliances or spare parts; eligibility of conveyances for recordation, etc., revision 3302
Specifically identified engines; eligibility of conveyances for recordation, etc., revision 3302
Registration of aircraft:
Aircraft registration certificates; duration, display, invalidation, transferability, etc., revision 3297

CIVIL AERONAUTICS ADMINISTRATION—Con. Page
Registration of aircraft—Continued
Dealers' aircraft registration certificates; requirements, limitations, etc., revision 3300
Restricted areas over Army, Navy and Air Force installations in various States:
California 3022
Florida 2974
Mississippi 3651
New Jersey 2974
New Mexico 3187
New York 3187
Texas 3187
Wyoming 3651
CIVIL AERONAUTICS BOARD: 3583
Air carriers:
Classification and exemption of air freight forwarders. *See* Economic regulations.
Foreign. *See* Foreign air carriers.
Irregular. *See* Irregular air carrier and off-route rules.
Scheduled. *See* Scheduled air carriers.
Air freight forwarders; classification and exemption of. *See* Economic regulations.
Airmen certificates and ratings. *See* Certificates and ratings.
Airplane airworthiness. *See* Airworthiness.
Airworthiness; requirements for various types of aircraft:
Aircraft other than airplanes. *See* Rotorcraft airworthiness.
Airplanes; transport categories:
DC–6A type aircraft for carriage of cargo, maximum weight for. *See* Irregular air carrier and off-route rules; *and* Scheduled air carriers.
Equipment; anti-collision, lights, experimentation projects by air carriers to improve position and anti-collision light systems (SR–392), proposed extension of 3777
Rotorcraft airworthiness:
Normal category, proposed rule making 3114
Applicability 3114
Design and construction:
Floats; buoyancy, strength, etc 3115
Landing gear; tires, and skis 3115
Personnel accommodations; pilot compartment 3115
Equipment; powerplant instruments 3115
Flight, performance; take-off, climb, operating speed, etc 3114
Operating limitations and information:
Manual, flight 3115
Operating limitations; limiting height-speed envelope 3115
Powerplant installation:
Cooling system; coolant system, deletion 3115
Fire protection:
Fire detector systems; deletion 3115
Fire extinguishing systems; deletion 3115
Fuel system; capacity and feed 3115
Oil system; general provisions 3115
Structure:
General; structural and dynamic tests 3115
Landing loads 3115
Transport categories, proposed rule making 3115
Applicability 3115
Categories, rotorcraft 3115
Certification 3115
Definitions 3115
Design and construction:
Ballast provisions 3123
Cargo and baggage compartments 3121
Control systems 3119
Fire prevention 3122
Floats 3120
General; materials, strength, etc 3119
Ice protection 3123
Landing gear 3119
Leveling marks 3123
Main rotor 3119
Personnel accommodations 3121
Equipment:
Electrical system and equipment 3133
General; scope, instruments, etc 3132

CIVIL AERONAUTICS BOARD—Continued Page
Airworthiness; requirements for various types of aircraft—Continued
Rotorcraft airworthiness—Continued
Transport categories, proposed rule making—Con.
Equipment—Continued
Hydraulic systems 3135
Instruments; installation 3132
Lights; instrument, landing, position, riding 3134
Radio installation 3135
Safety equipment; safety belts, signaling, oxygen, etc 3135
Vacuum system 3135
Flight:
Flight characteristics 3117
Flutter and vibration 3117
General; weight limitations, center of gravity, limitations, etc 3116
Ground and water handling characteristics 3117
Performance (take-off, climb, speed, landing) 3116
Operating limitations and information:
Manual, flight, rotorcraft 3136
Markings and placards 3136
Operating limitations; air-speed, powerplant, weight and center of gravity, etc 3136
Scope 3135
Powerplant installation:
Controls and accessories 3130
Cooling system 3128
Fire protection 3131
Fuel system components 3127
Fuel system operations and arrangement 3125
Fuel tank construction and installation 3126
General; scope and general design, engines, etc 3123
Induction and exhaust systems 3129
Oil system 3128
Rotor drive system 3123
Structure:
Component requirements, main 3118
Control surface and system loads 3118
Emergency landing conditions 3119
Flight loads 3117
General; strength, proof of structure, etc 3117
Landing loads 3118
Certificates and ratings; airmen:
Commercial pilot certificates. *See* Pilot and instructor certificates.
Flight instructor rating, for pilots. *See* Pilot and instructor certificates.
Pilot and instructor certificates:
Aircraft and instrument ratings, proposed revision 3033
Commercial pilot certificates, proposed revision 3032
Airplane rating 3032
Glider rating 3033
Rotorcraft rating 3032
Flight instructor certificates, proposed revision 3034
General provisions; issuance, and duration of certificates, tests, identification card, etc., proposed revision 3030
Private pilot certificates, proposed revision 3031
Airplane rating 3031
Glider rating 3032
Rotorcraft rating 3031
Special issuance of pilot certificates, proposed revision 3033
Student pilot certificates, proposed revision 3030
Airplane rating 3030
Glider rating 3031
Glider pilot; providing for issuance of certificates to persons thirteen years of age receiving instructions at Mississippi State College Glider Club (SR–404A), extension 2988, 3559
Rotorcraft rating 3031
Private pilot certificates. *See* Pilot and instructor certificates.
Student pilot certificates. *See* Pilot and instructor certificates.

CIVIL AERONAUTICS BOARD—Continued Page
Commercial operator certification and operation rules; anti-collision lights, experimentation projects by air carriers to improve position and anti-collision light systems (SR–392), proposed extension of 3777
Economic regulations; classification and exemption of air freight forwarders (international), order of investigation of 3136
Foreign air carriers, off-route charter rights for; proposed rule making 3693
Hearings, investigations, etc.; companies and cases, list of, *see list at end of this agency.*
Irregular air carrier and off-route rules:
Aircraft requirements; anti-collision lights, experimentation projects by air carriers to improve position and anti-collision light systems (SR–392), proposed extension of 3777
Cargo carriers; continuance of temporary authorization for operation of DC–6A airplanes in cargo service at weights in excess of those permitted in passenger service (SR–368A), proposed rule making 3443
Equipment; radio communication system and navigational equipment for large aircraft 3067
Military services, air carriers under contract to; authority of Administrator to permit deviation from certain civil air regulations (SR–385D), proposed rule making 2973
Operating limitations, for large passenger-carrying airplanes; en route limitations, one engine inoperative 3296
Operation rules, general:
See also Commercial operators; Foreign air carriers; Irregular air carrier; *and* Scheduled air carriers.
General operation rules; anti-collision lights, experimentation projects by air carriers to improve position and anti-collision light systems (SR–392), proposed extension of 3777
Ratings, for airmen. *See* Certificates and ratings.
Rotorcraft airworthiness. *See* Airworthiness.
Scheduled air carriers:
Interstate air carrier certification and operation rules:
Airplane performance operating rules; transport categories:
En route limitations, one engine inoperative 3294
Take-off limitations to provide for engine failure 3559
Cargo carriers; continuance of temporary authorization for operation of DC–6A airplanes in cargo service at weights in excess of those permitted in passenger service (SR–368A), proposed rule making 3443
Dispatching rules; establishment of alternate airport landing minimums at airports where ILS or GCA only available instrument approach aids 3559
Instruments and equipment; anti-collision lights, experimentation projects by air carriers to improve position and anti-collision light systems (SR–392), proposed extension of 3777
Manual requirements; contents of manual, methods and procedures for maintaining weight and balance control, change in date 3559
Operations outside continental limits of United States:
Cargo carriers; continuance of temporary authorization for operation of DC–6A airplanes in cargo service at weights in excess of those permitted in passenger service (SR–368A), proposed rule making 3443
Lights, anti-collision; experimentation projects by air carriers to improve position and anti-collision light systems (SR–392), proposed extension of 3777
Passenger operations rules; aircraft requirements:
Limitations; en route limitations, all engines (one engine inoperative) 3295
Maintenance; contents of manual—methods and procedures for maintaining weight and balance control (average adult passenger weight) 3675

- International Cooperation Administration (Executive Order 10610) 3179

CUSTOMS BUREAU:
- Articles conditionally free, subject to reduced rate, etc.:
  - Diplomatic and consular officers, personal baggage 2961
  - International organizations, public, free entry of baggage and personal effects of alien representatives and alien members 3304
  - Salt for curing fish, summary statement required 3150
  - Temporary importations under bond, entry on form 7501 in original only 3150
  - Withdrawal of supplies and equipment for vessels, summary statement required 3150
  - Wools and hair of camel for use in manufacturing floor coverings, etc.; summary statement required 3150
- Authority, delegation of, from Commissioner to Assistant Commissioner and others; order of succession of persons to act as Commissioner 3188
- Baggage, personal, free entry:
  - Alien members and representatives of public international organizations 3304
  - Diplomatic and consular officers 2961
- Beer and wine, customs collection of internal-revenue taxes on; procedure, notice of liquidation 3508
- Canadian tugs, waiver permitting tugs to tow certain equipment between Oswego or Buffalo and Grass River Bridge Cofferdam site in connection with St. Lawrence Seaway Development Project 3150
- Contiguous foreign territory, customs relations with:
  - Merchandise arriving from contiguous country in sealed vessels or vehicles; procedure, seven copies of manifest on form 7512 3150
  - Supplies on international trains, elimination of certain copies of inventory 3149
  - Vessels under frontier enrollment and license, repairs and equipment; reference 3149
- Customs districts and ports:
  - California, Port San Luis, revocation of designation as port of documentation 2975
  - New Jersey; Newark to be part of New York port of entry 2961
  - Continuation as port of documentation 2961
- Customs warehouses and control of merchandise therein:
  - Manipulation in bonded warehouses and elsewhere: Application on form 3499, duplicate not required; Summary statement required 3150
  - Manufacturing warehouses, withdrawal for exportation of articles manufactured in bond; summary statement required 3150
  - Smelting and refining warehouses:
    - Credit to be applied under various forms of withdrawals, "entry account" substituted for "ledger account" 3150
    - Smelting and refining, allowance for wastage; "entry account" substituted for "ledger entry" 3150
    - Withdrawal for exportation from one port to be credited on warehouse entry account at another port 3150
    - Withdrawal of products from bonded smelting or refining warehouses, for transfer to bonded warehouse in another port 3150
- Duties:
  - Articles conditionally free, subject to reduced rate, etc. *See* Articles conditionally free.
  - Liability for. *See* Entry of imported merchandise.
  - Relief from, on merchandise lost, stolen, etc. *See* Relief from duties.
- Entry of imported merchandise:
  - Entry for consumption, free entries on form 7501 in duplicate 3149
  - Entry for rewarehouse, on form 7502 in duplicate 3149
  - Entry for warehouse, on form 7502 in duplicate 3149
  - Withdrawal at original or secondary port for consumption:
    - Form and content of withdrawal 3149
    - Withdrawal by transferee, summary statement required 3149

CUSTOMS BUREAU—Continued Page
- In transit merchandise. *See* Transportation in bond and merchandise in transit.
- International organizations, public, free entry of baggage and personal effects of alien representatives and alien members 3304
- International trains, supplies on; elimination of certain copies of inventory 3149
- Liquidation of duties, customs collections of internal-revenue taxes on beer and wine; procedure, notice of liquidation 3508
- Mail, importation by; delivery under resident's $200 or $300 exemption 3304
- Peanuts; modification of import restrictions (Proclamation 3095) 3491
- Relief from duties on merchandise lost, stolen, destroyed, etc.; abandonment or destruction of merchandise in bond, application on form 3499, duplicate not required 3150
- St. Lawrence Seaway Development Project, waiver of coastwise towing laws to permit Canadian tugs to tow certain equipment between Oswego or Buffalo and Grass River Bridge cofferdam site in connection with 3150
- Salt for curing fish, summary statement required 3150
- Taxes on beer and wine, customs collection of; procedure, notice of liquidation 3508
- Towing laws, coastwise, waiver permitting Canadian tugs to tow certain equipment between Oswego or Buffalo and Grass River Bridge cofferdam site in connection with St. Lawrence Seaway Development Project 3150
- Trains, international, supplies on; elimination of certain copies of inventory 3149
- Transportation in bond and merchandise in transit:
  - Diversion, application for 3150
  - Exportation from customs custody of merchandise unentered or covered by unliquidated consumption entry, or merchandise denied admission by Government; form 7512 to be filed in quadruplicate 3150
  - Immediate transportation without appraisement, seven copies of form 7512 3150
  - Kinds of entry; shipments to Virgin Islands, one additional copy on form 7512 3150
  - Merchandise arriving from contiguous country in sealed vessels or vehicles; procedure, seven copies of manifest on form 7512 3150
  - Merchandise in transit through United States to foreign countries; entry procedure, seven copies of form 7512 3150
  - Receipt by carrier, manifest to be filed in triplicate 3150
  - Shipment of baggage in bond; procedure, form 7520 in quadruplicate 3150
  - Warehouse and rewarehouse withdrawals for transportation:
    - Form 7512, eight copies required 3150
    - Summary statement required 3150
  - Warehouse withdrawals for exportation or for transportation and exportation, summary statement required 3150
- Vessels:
  - Contiguous foreign territory, vessels under frontier enrollment and license, repairs and equipment; reference 3149
  - Documentation of vessels; yacht privileges and obligations, surrender of commission on return to United States 3676
  - In foreign and domestic trades:
    - Arrival and entry of vessels:
      - Correction of manifest by post entry, elimination of duplicate copy 3149
      - Equipment and repairs to American vessels; expenses incurred in foreign country, elimination of duplicate copy of form 3415 or 3417 3149
      - Inward foreign manifest, elimination of certain comptroller's copies of entries, manifests, etc. 3149
    - Coastwise procedure:
      - Coastwise towing laws, waiver permitting Canadian tugs to tow certain equipment between Oswego or Buffalo and Grass River Bridge cofferdam site in connection with St. Lawrence Seaway Development Proj- etc. 3150

CUSTOMS BUREAU—Continued Page

In foreign and domestic trades—Continued
Coastwise procedure—Continued
Reports of arrivals and departures in coastwise trade, elimination of comptroller's copy of crew's purchases and stores 3149
Vessels proceeding foreign via domestic ports, elimination of comptroller's copy of crew's purchases and stores 3149
Vessels with residue cargo for domestic ports, elimination of comptroller's copy of certain manifests 3149
Foreign clearances, requirements for; issuance of port sanitary statements by collectors of customs, deletion 3430
Supplies and equipment for vessels, summary statement required 3150
Wine and beer, customs collection of internal-revenue taxes on; procedure, notice of liquidation 3508
Wools and camel hair for use in manufacturing floor coverings, etc.; summary statement required 3150

D

DEFENSE DEPARTMENT:
See Air Force Department.
Army Department.
Navy Department.
Allowances for general-average contributions in connection with transportation of certain baggage and household goods and effects of military personnel (Executive Order 10614) 3699
Authority, delegations of:
By Secretary to Secretaries of Army, Navy, and Air Force; redelegation of authority respecting civilian use of Reserve Component facilities, and establishment of uniform procedure for management and control 3689
From General Services Administrator:
Authority to administer mortgage and promissory note and enforce conditions of deed respecting Gosnell Methodist Church, located on part of Blytheville Army Airfield, Blytheville, Ark 3479
Representation of Government agencies before certain commissions in connection with rates and charges:
Arkansas Public Service Commission, increased rates, Arkansas Louisiana Gas Co 3240
Georgia Public Service Commission, increased rates:
Atlanta Gas Light Co 3240
Columbus, Gas Light Company of 3240
Blytheville Army Airfield, Blytheville, Ark., Gosnell Methodist Church located on part of; authority delegation from General Services Administrator to administer mortgage and promissory note and enforce conditions of deed respecting 3479
Boards:
Boards of review, uniform rules of procedure for proceedings in and before; reconsiderations 3068, 3437
Civil Defense Coordinating Board, representation on (Executive Order 10611) 3245
Foreign military aid. *See* Mutual defense assistance.
Germany:
Matters affecting United States Forces, foreign policy matters, relations or negotiations with nonmilitary German authorities, functions of Department respecting (Executive Order 10608) 3093
Military Commander in Germany, functions of (Executive Order 10608) 3093
Government property, procurement regulations respecting. *See* Procurement.
Military aid, foreign. *See* Mutual defense assistance.
Military justice; uniform rules of procedure for proceedings in and before boards of review, reconsiderations 3068, 3437
Mutual defense assistance, furnishing of equipment, materials, or service; transfer of certain functions respecting, to Department from Foreign Operations Administration (Executive Order 10610) 3179
Nondiscrimination in employment, procurement regulations respecting labor. *See* Procurement.

DEFENSE DEPARTMENT—Continued Page

Procurement regulations, armed services:
Contract clauses:
Cost-reimbursement type supply contracts:
Applicability 3732
Neutrality Act of 1939, deletion 3500
Fixed-price supply contracts:
Applicability 3732
Bill of Materials 3732
Neutrality Act of 1939, deletion 3500
Coordinated procurement, policies and general principles:
Application of procurement assignments outside continental limits of United States 3731
Implementation of procurement assignments, small dollar value purchases 3500
Single department procurement 3731
General provisions:
Basic policies; responsible prospective contractor, pre-award survey 3500
Debarred, ineligible, and suspended bidders; establishment and maintenance of list of firms or individuals debarred or ineligible, protection of list 3500
Government property:
Contract clauses:
Applicability 3501
Government-furnished property clause for fixed-price contracts 3501
Non-profit research and development contracts 3502
Government property clause for cost-reimbursement type contracts 3502
Non-profit research and development contracts 3502
General:
Effective date, deletion 3501
Responsibility and liability for Government property:
Liability of subcontractors for Government property 3501
Responsibility of prime contractors for Government property 3501
Interdepartmental procurement; procurement under Federal Supply Schedule contracts, list of contracts which are mandatory upon Defense Department 3731
Labor, nondiscrimination in employment:
Administration:
Posting of notices 3501
Processing of complaints 3501
Applicability 3500
Negotiation, procurement by:
Determinations and findings:
By contracting officer 3727
By head of procuring activity 3727
Types of contracts 3727
Termination of contracts; forms, termination clause for cost-type contracts 3732
Reserve Component facilities, civilian use of, authority delegation to Secretaries of Army, Navy, and Air Force respecting 3689
Transportation of certain baggage and household goods and effects of military and civilian personnel, payment of general-average contributions in connection with (Executive Order 10614) 3699

DEFENSE MOBILIZATION, OFFICE OF:
Authority, delegation of, to General Services Administration to prepare reports to Congress required by section 304 of Defense Production Act of 1950, and section 4 of Strategic and Critical Materials Stock Piling Act (DMO I–17) 3437
Civil Defense Coordinating Board, representation on (Executive Order 10611) 3245
Committees and boards:
Defense Mobilization Board, representation on:
Foreign Operations Administration; abolishment (Executive Order 10610) 3179
International Cooperation Administration (Executive Order 10610) 3179
Mobilization Production Committee; establishment, membership, operations, and responsibilities (DMO VII–9) 3187
Telecommunications Planning Committee, representation on 3652

DEFENSE MOBILIZATION, OFFICE OF—Continued Page

Critical defense housing and community facilities and services:
Designation of certain periods or projects for defense housing and community facilities assistance in certain areas:
Florida; Fort Walton Beach, Elgin Field Air Force Base 3646
New Mexico; Las Cruces 3646
Oklahoma; Altus 3646
Tennessee:
Kingston 3646
Smyrna 3013
Utah; Moab 3646
Findings and determinations under Defense Housing and Community Facilities and Services Act of 1951; Utah, Moab 3646
Reports to Congress required by section 304 of Defense Production Act of 1950 and section 4 of Strategic and Critical Materials Stock Piling Act, preparation of, authority of General Services Administration respecting (DMO I–17) 3437
Voluntary plans, agreements, programs, and participating companies, and withdrawal of requests to participate; foreign petroleum supply 3646

E

ENGINEERS, CORPS OF; DEPARTMENT OF THE ARMY:
Anchorage regulations, Virginia, York River; naval anchorage 3582
Bridge regulations:
Delaware:
Appoquinimink River; State Highway Department bridge at Fennimores 3676
Christina River; bridges 3530
Georgia:
Turner Creek, Tybee (Bull) River, and Lazarreto Creek; highway bridges on U. S. Route 80 between Savannah Beach and Thunderbolt 3677
Wilmington River, swing highway bridge on U. S. Route 80 at Thunderbolt 3677
Texas, Neches River at Beaumont; highway bridge at Ash Street, revocation 3677
Navigation regulations:
Florida, Key West Harbor; dummy mine field, U. S. Naval Station 3530
Virginia, York River; naval restricted areas 3582
EXECUTIVE ORDERS. *See* Presidential documents.
EXPORTS. *See* Imports and exports.

FARMERS HOME ADMINISTRATION:
Account servicing; routine, servicing of farm ownership loans, modification of provisions respecting assignment of insured mortgages. *See* Security servicing and liquidations.
Authority, delegation of, by State Directors to Territorial Supervisors for Alaska and Hawaii with respect to certain duties and functions 3802
Economic emergency loans; making and servicing 2945
Farm housing loans; security servicing and liquidations. *See* Security servicing and liquidatons.
Farm ownership loans:
Account servicing. *See* Account servicing.
Applicants; certification, revocation 3667
Basic regulations; loan limitations:
Average value of farms in various States:
Missouri 3095
West Virginia 3182
Fair and reasonable value of farm; change in certain reference 3667
Processing of loans:
Direct loans, revocation 3667
Initial loans 3667
Insured loans, revocation 3667
Subsequent loans:
Certification by County Committee; provision respecting completion of Form FHA–493, "Equity Determination and Tract Evaluation," revocation 3673

FARMERS HOME ADMINISTRATION—Continued Page

Farm ownership loans—Continued
Processing of loans—Continued
Subsequent loans—Continued
Preparation of subsequent loan docket, change in certain reference 3673
Security servicing and liquidations. *See* Security servicing and liquidations.
Selection of farms:
Certification, revocation 3667
Optioning, preparation of option 3667
Subdivision of tracts; approval of loans, change in certain reference 3667
Operating loans; security servicing and liquidations. *See* Security servicing and liquidations.
Security servicing and liquidations:
Farm housing loans; sale of farm by borrower, general terms and conditions of transfers 3525
Farm ownership loans:
Assignment of insured mortgages, to Government, as trustee, in trust for benefit of transferees and any subsequent holders of secured notes 3493
General policies; Director of Finance Office, responsibilities to advise holder of options available to him at expiration of fixed period 3523
Operating loans; general security servicing:
Fees; security instruments, change in certain reference 3673
Taking additional security and keeping security instruments current; extension or renewal of crop and chattel security instruments 3247

FEDERAL CIVIL DEFENSE ADMINISTRATION:

THE NATIONAL ARCHIVES

FEDERAL REGISTER

OF THE UNITED STATES 1934

VOLUME 20 NUMBER 86

Washington, Tuesday, May 3, 1955

TITLE 3—THE PRESIDENT

PROCLAMATION 3091

LOYALTY DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the prime requisite for retaining our freedom is unswerving devotion to the liberties embodied in our Constitution; and

WHEREAS it is fitting that a special day be set aside for solemn re-evaluation of those priceless gifts of freedom which are our heritage, to the end that we may stimulate and renew that high sense of patriotism which has signalized our glorious history as a Nation; and

WHEREAS the Congress, by a joint resolution approved April 27, 1955, has set aside May 1, 1955, as Loyalty Day and has authorized and requested the President to issue a proclamation calling upon the people to observe that day by reaffirming their loyalty to our beloved country:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby request all our citizens to observe Sunday, May 1, 1955, as Loyalty Day with suitable ceremonies. I also request the appropriate officials to arrange for the display of the flag of the United States upon all Government buildings on that day as a manifestation of our loyalty to the Nation which that flag symbolizes.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 28th day of April in the year of our Lord nineteen hundred and [SEAL] fifty-five, and of the Independence of the United States of America the one hundred and seventy-ninth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

[F. R. Doc. 55-3620; Filed, Apr. 29, 1955; 5:09 p. m.]

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

[FHA Instruction 449.1]

PART 385—ECONOMIC EMERGENCY LOANS

MAKING AND SERVICING ECONOMIC EMERGENCY LOANS

Section 385.5 (a) is amended to provide for the making of subsequent Economic Emergency loans to borrowers in areas where the termination date for making initial loans has passed, and to read as follows:

§ 385.5 *Making and servicing Economic Emergency loans.* (a) Sections 381.4 (a) and 381.5 to 381.11 of this chapter are hereby made applicable to the making and servicing of Economic Emergency loans, except as provided in this part, and "Economic Disaster loans" as used in the cited sections shall be interpreted to mean Economic Emergency loans.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2 (b), 67 Stat. 149)

Dated this 27th day of April 1955.

[SEAL] H. C. SMITH,
Acting Administrator,
Farmers Home Administration.

[F. R. Doc. 55-3573; Filed, May 2, 1955; 8:50 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 33]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.333 *Valencia Orange Regulation 33*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.),

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

CFR SUPPLEMENTS

and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on April 28, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded

an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., May 1, 1955, and ending at 12:01 a. m., P. s t., May 8, 1955, is hereby fixed as follows:

(i) District 1: 173,250 boxes;

(ii) District 2: 46,200 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 29, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55–3592; Filed, May 2, 1955; 8:56 a. m.]

[Lemon Reg. 586, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.693 (Lemon Regulation 586; 20 F. R. 2703) are hereby amended to read as follows:

(ii) District 2: 500 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: April 28, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

AUTHORITY: §§ 975.0 to 975.96 issued under sec. 5, 49 Stat. 753 as amended; 7 U. S. C. 608c.

§ 975.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cleveland, Ohio, during November 30–December 9, 1954, upon certain proposed amendments to the tentative marketing agreement and to the

order, as amended, regulating the handling of milk in the Cleveland, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act:

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 3 cents per hundredweight, or such amount not exceeding 3 cents per hundredweight, as the Secretary may prescribe with respect to all receipts within the delivery period, of milk from producers at pool plants (including such handler's own production) and of all other source milk allocated to Class I pursuant to § 975.56 (b) and the corresponding portion of § 975.57: *Provided*, That such payment shall not be made with respect to any milk subject to a payment required under the provision for expense of administration of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, effective not later than May 1, 1955. Any delay beyond that date in making this order amending the order effective will tend to disrupt the orderly marketing of milk in the Cleveland, Ohio, marketing area. The changes effected by this order amending the order do not require persons affected to make substantial or extensive preparation prior to the effective date. Proposed amendments which would result in changes similar to those effected by this order amending the order were considered at a public hearing held during November 30–December 9, 1954; a recommended decision in this proceeding, to which interested parties were given an opportunity to file written exceptions, was issued on March 31, 1955, and a final decision was issued on April 21, 1955. Under these circumstances persons affected by this order amending the order have been afforded a reasonable time within which to prepare for its effective date. Therefore, good cause exists, pursuant to sec. 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 237), for making this order amending the order effective May 1, 1955.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the Cleveland, Ohio, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who, during the determined representative period (January 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Cleveland, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 975.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 975.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 975.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified in this part.

§ 975.4 *Market administrator.* "Market administrator" means the agency described in § 975.20.

§ 975.5 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 975.6 *Cleveland, Ohio, marketing area.* "Cleveland, Ohio, marketing area" hereinafter called the "marketing area," means all territory, including but not being limited to all municipal corporations within Cuyahoga County, and within the following cities and townships of the respective, named counties: townships of Black River, Sheffield, Avon Lake, Avon, Amherst, Elyria, Ridgeville, Carlisle, Eaton, Columbia, and Grafton in Lorain County; Willoughby, Mentor and Kirtland townships and the city of Painesville in Lake County; the city of Ashtabula in Ashtabula County; and the townships of Liverpool, Brunswick, Hinckley, York, Granger, Medina, Lafayette, and Montville in Medina County; all in the State of Ohio.

§ 975.7 *Handler.* "Handler" means (a) any person who operates a pool plant, (b) any person who operates a nonpool plant from which milk skim milk, flavored milk, or flavored milk drinks are disposed of on a route(s) in the marketing area, or (c) a cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from producers' farms to a milk plant.

§ 975.8 *Producer.* "Producer" means any person with respect to milk produced by him having the approval of the health authority of any community in the marketing area for consumption as fluid milk in such community which milk is moved directly from his farm to:

(a) A pool plant;

(b) A nonpool plant within April, May, June, or July for the account of a cooperative association or of a handler operating a pool plant. Milk so diverted shall be deemed to have been received by the handler for whose account it was diverted; or

(c) A pool plant for the account of another pool plant by diversion from the latter pool plant. Milk so diverted shall be deemed to have been received by the pool plant for whose account it was diverted.

§ 975.9 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 975.10 *Nonhandler.* "Nonhandler" means any person not a handler who operates a nonpool plant.

§ 975.11 *Producer-handler.* "Producer-handler" means any person who:

(a) Produces milk but receives no milk from dairy farmers; and

(b) Operates a route extending into the marketing area.

§ 975.12 *Pool plant.* "Pool plant" means a plant designated pursuant to § 975.30.

§ 975.13 *Nonpool plant.* "Nonpool plant" means any milk manufacturing or processing plant not a pool plant.

§ 975.14 *Other source milk.* "Other source milk" means all skim milk and butterfat received at any pool plant other than from producers.

§ 975.15 *Route.* "Route" means a delivery (including a sale from a plant store) of milk, skim milk, buttermilk, flavored milk, or flavored milk drink in fluid form to a wholesale or retail stop(s), including any eating place where such items are disposed of for consumption on or off the premises, other than a pool plant(s) or nonpool plant(s).

§ 975.16 *Delivery period.* "Delivery period" means the calendar month or the total portion thereof during which this part is in effect.

§ 975.17 *Eligible milk.* "Eligible milk" means the amount of milk received by a handler from a producer during each of the delivery periods of April through June which is not in excess of such producer's daily average quota computed pursuant to § 975.65 multiplied by the number of days in such delivery period on which such producer delivered milk to such handler: *Provided*, That with respect to any producer on "every-other-day" delivery to a pool plant, the days of non-delivery shall be considered as days of delivery for purposes of this section and of § 975.65.

§ 975.18 *Ineligible milk.* "Ineligible milk" means the amount of milk received by a handler from a producer during each of the delivery periods of April through June which is in excess of eligible milk received from such producer during such delivery period, and shall include all milk received from a producer for whom no daily average quota can be computed pursuant to § 975.65.

MARKET ADMINISTRATOR

§ 975.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 975.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 975.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of funds provided by § 975.86;

(1) The cost of his bond and of the bonds of his employees;

(2) His own compensation; and

(3) All other expenses, except those incurred under § 975.87, necessarily incurred by him in the maintenance and functioning of his office in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 975.40, or (2) payments pursuant to §§ 975.80, 975.84, 975.86, 975.87, or § 975.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Upon request, supply on or before the 25th day after the end of each delivery period to each cooperative association not a handler with respect to producers whose membership in such cooperative association has been verified by the market administrator, a record of the pounds of milk received by each handler from member producers and the class utilization of such milk. For the purpose of this report such member milk shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were classified in each class;

(i) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or nonhandler upon whose utilization the classification of skim milk and butterfat for such handler depends;

(j) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(1) On or before the 6th day after the end of such delivery period the minimum prices for Class I, Class II, and Class III milk computed pursuant to §§ 975.61, 975.62, and 975.63, respectively.

(2) On or before the 14th day after the end of such delivery period the uniform price computed pursuant to § 975.73, and for April, May, and June the price for eligible milk and the price for ineligible milk, computed pursuant to §§ 975.74 and 975.75, respectively, and the butterfat differential computed pursuant to § 975.82;

(k) On or before April 1 of each year provide written notice to: (1) Each producer who made deliveries of milk during the previous October through December as to his daily average quota computed pursuant to § 975.65, (2) each cooperative association as to the daily average quota of each member of such association, and (3) each handler as to the daily average quota of each producer from whom such handler received milk; and

(l) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

POOL PLANT

§ 975.30 *Designation.* A pool plant shall be any plant meeting the conditions of paragraphs (a), (b) or (c) of this section except a bottling plant operated by a producer-handler, or the plant of a handler exempted in § 975.90:

(a) Any plant at which milk is bottled and from which milk, skim milk, buttermilk, flavored milk or flavored milk drinks are distributed (either directly, through depots, or to vendors) in fluid form during the month on routes operated wholly or partially within the marketing area: *Provided*, That the total quantity distributed during the month on all routes operated inside or outside the marketing area is equal to 50 percent, or more, of the receipts from producers, or from other plants, of milk approved by the appropriate health authority for fluid use;

(b) Any plant which, having the approval of the appropriate health authority in the marketing area, has during the month delivered to a pool plant(s) described in paragraph (a) above an amount of milk equal to 30 percent of its dairy farm supply of milk: *Provided*, That such plant shall continue to be designated as a pool plant for such consecutive succeeding months as the 30 percent average is maintained: *And provided further*, That if during the period of August through January such plant has delivered to a pool plant(s) described in paragraph (a) of this section, 10 percent or more of its total dairy farm supply during each month and 30 percent or more during the entire period, such plant shall, upon written application to the market administrator on or before January 31 of any year, be designated as a pool plant through July 31 of the same year and each month thereafter, through January 31 of the following year, that it delivers 10 percent or more of its total dairy farm supply to a pool plant(s) described in paragraph (a) of this section; or

(c) The following plants during the period from the effective date hereof through January 31, 1956 shall be considered to have qualified as pool plants under the second proviso of paragraph (b) of this section:

(1) Any plant which was a pool plant in April 1955; and

(2) Any plant for which, on the basis of evidence presented to him, the market administrator determines that shipments during the period August 1954

through January 1955 would have met the standards specified in the second proviso of paragraph (b) of this section.

All pool plants operated by a handler may be considered as one plant for the purpose of meeting the percentage requirements of paragraphs (b) and (c) of this section if the handler submits a written request to the market administrator prior to the delivery period for which such consideration is requested.

§ 975.31 *Replacement.* A plant which replaces a pool plant shall acquire immediately the pool plant status of the replaced plant if the operator thereof shows to the satisfaction of the market administrator that 50 percent or more of the dairy farmers delivering milk to it previously had been producers at the pool plant so replaced.

§ 975.32 *Discontinuance.* A plant shall be discontinued as a pool plant upon prior written request made by the plant operator; such discontinuance to be effective at the beginning of the first delivery period (following the market administrator's receipt of such request) within which no milk was furnished by such plant to a pool plant described in § 975.30 (a).

REPORTS, RECORDS, AND FACILITIES

§ 975.40 *Reports of receipts and utilization.* On or before the 8th day after the end of each delivery period, each handler, except a produce-handler, shall report to the market administrator with respect to, (a) all milk received from producers, (b) all skim milk and butterfat in any form received from other handlers, and (c) all other source milk received at a pool plant:

(1) The quantities of butterfat and quantities of skim milk contained in (or used in the production of) such receipts and their sources and for the delivery periods of April through June, the aggregate quantities of eligible milk;

(2) The utilization of such receipts; and

(3) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

§ 975.41 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) On or before the 25th day after the end of each delivery period, each handler who received milk from producers shall submit to the market administrator his producer payroll for the delivery period, which shall show:

(1) For the delivery periods of July through March, the pounds of milk, and the percentage of butterfat contained therein, received fom each producer; and for the delivery periods of April through June, the pounds of eligible milk and the pounds of ineligible milk, and the percentage of butterfat contained therein, received from each producer;

(2) The amount and date of payment to each producer (or to a cooperative association not a handler which is authorized to collect payment for the milk of such producer); and

(3) The nature and amount of each deduction or charge involved in the payments referred to in subparagraph (2) of this paragraph.

§ 975.42 *Records and facilities.* Each handler shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization of all skim milk and butterfat required to be reported pursuant to § 975.40 or § 975.41 (a);

(b) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and at the end of each delivery period;

(c) The weights and tests for butterfat and for other contents of all milk and milk products handled; and

(d) Payments to producers and to cooperative associations.

§ 975.43 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 975.50 *Skim milk and butterfat to be classified.* All skim milk and butterfat received at a pool plant from any source or diverted pursuant to § 975.8 (b) or (c) shall be classified pursuant to §§ 975.51 through 975.54.

§ 975.51 *Classes of utilization.* Subject to the conditions set forth in §§ 975.53 and 975.54, skim milk and butterfat described in § 975.50 shall be classified by the market administrator on the basis of the following classes of utilization:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of for fluid consumption as milk, skim milk, buttermilk (except for livestock feed), flavored milk or flavored milk drinks, sweet or sour cream, or eggnog, (2) or used to produce concentrated milk disposed of for fluid consumption, or (3) not accounted for as Class II or Class III utilization.

(b) Class II milk shall be all skim milk and butterfat used to produce cottage cheese.

(c) Class III milk shall be all skim milk and butterfat (1) used to produce any milk product not specified in Class I milk or Class II milk; (2) disposed of for livestock feed or dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (3) in shrinkage of producer milk up to 2 percent of receipts from producers or in shrinkage of other source milk.

§ 975.52 *Shrinkage.* (a) If producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk diverted by a handler from his pool plant to another pool plant without first having been received for purposes of weighing in the diverting handler's pool plant shall be included in the receipts at the pool plant to which such milk was diverted for the purpose of computing shrinkage and shall be excluded from the receipts at the diverting handler's pool plant for such purpose.

§ 975.53 *Transfers.* Skim milk or butterfat transferred from a pool plant shall be classified as follows:

(a) As Class I milk if transferred as any item listed in § 975.51 (a) (1) to the pool plant of another handler, unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the delivery period within which such transfer was made: *Provided,* That if either or both pool plants have received other source milk, such transfers shall be classified by the market administrator at both plants so as to return the highest-valued class utilization to milk of producers: *Provided further,* That if transfers are made from a pool plant to more than one other pool plant any other source milk involved in such transfers shall be prorated by the market administrator among the transferee pool plants on the basis of the percentage which the other source milk transferred bears to the total quantity of transfers made pursuant to this subparagraph from the transferor plant.

(b) As Class I milk if transferred as any item listed in § 975.51 (a) (1) to a nonpool plant located more than 265 miles from the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator.

(c) As Class I milk if transferred as any item listed in § 975.51 (a) (1) to a nonpool plant located less than 265 miles from the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator, unless (1) other utilization is mutually indicated in writing to the market administrator by both the transferring handler and the receiver on or before the 8th day after the end of the delivery period within which such transfer was made, (2) the receiver maintains books and records showing utilization of all skim milk and butterfat at his plant which are made available to the market administrator for audit, and (3) such receiving plant had actually used not less than an equivalent amount of skim milk or butterfat in the use indicated in such statement: *Provided,* That if such nonpool plant had not actually used an equivalent amount of skim milk or butterfat in such indicated use, the remaining pounds shall be classified in the next lower-priced available class of utilization as if the classes of utilization set forth in § 975.51 were applicable to such nonpool plants; or

(d) As Class I milk if transferred as bulk milk to (1) a manufacturer of soup, candy or bakery products for use in such manufacturing operations, or (2) any retail establishment which disposes of milk in fluid form.

§ 975.54 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified (except that classified pursuant to § 975.53 (b)) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 975.55 *Computation of the skim milk and butterfat in each class.* For each delivery period the market administrator shall correct for mathematical and for other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk, and Class III milk for such handler.

§ 975.56 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in the specified class the pounds of butterfat shrinkage in producer milk allowed in classes other than Class I pursuant to § 975.51;

(b) Subtract from the pounds of butterfat remaining in each class in series beginning with the lowest priced utilization the pounds of butterfat received in other source milk received from a plant(s) other than one at which the handling of milk is fully subject to another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received from a plant(s) at which the handling of milk is fully subject to another marketing agreement or order issued pursuant to the act;

(d) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received from other handlers in such classes pursuant to § 975.53; and

(e) Add to the remaining pounds of butterfat in the specified class the pounds subtracted pursuant to paragraph (a) of this section; or if the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest-priced utilization.

§ 975.57 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in § 975.56.

MINIMUM PRICES

§ 975.60 *Basic formula price.* The basic formula price per hundredweight of milk to be used in determining the Class I milk price for each delivery period, pursuant to § 975.61, shall be the highest of the prices per hundredweight of milk of 3.5 percent butterfat content computed by the market administrator pursuant to paragraphs (a) and (b) of this section.

(a) The average of the basic (or field) prices ascertained to have been paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator by the Department of Agriculture or by the companies indicated below:

Company and Location
Borden Co., Mt. Pleastant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter for the delivery period as reported by the Department of Agriculture for the Chicago market, subtract 3 cents, add 20 percent of the resulting amount and then multiply by 3.5; and

(2) From the simple average of the weighted averages of the carlot prices per pound of spray and roller process nonfat dry milk solids in barrels for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period by the Department of Agriculture, deduct 5.5 cents, multiply by 8.5 and then multiply by 0.965.

§ 975.61 *Class I milk prices.* The respective minimum prices per hundredweight to be paid by each handler, f. o. b. his plant for milk received from producers or from a pool plant of a cooperative association, during the delivery period which is classified as Class I milk, shall be as follows as computed by the market administrator:

(a) Add to the basic formula price the following amount for the period indicated:

Delivery period:	*Amount*
February through July	$1.40
All others	1.85

and add or subtract a "supply-demand adjustment" computed as follows:

(i) Divide the total quantity of milk received from producers during the first and second months preceding the delivery period by the gross quantity of milk utilized as Class I in the same two months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current utilization percentage".

(ii) Compute a "deviation percentage" by subtracting from the current utilization percentage as computed in subdivision (i) of this subparagraph, the "standard utilization percentage" shown below:

Month for which the price is being computed:	*Standard utilization percentage*
January	120
February	127
March	132
April	139
May	147
June	158
July	162
August	149
September	137
October	128
November	120
December	117

(iii) Determine the amount of the suply-demand adjustment from the following schedule:

Deviation percentage:	*Amount of supply-demand adjustment (cents)*
+13 or over	−25
+10 or +11	−19
+7 or +8	−13
+4 or +5	−7
+2 to −2	0
−4 or −5	+7
−7 or −8	+13
−10 or −11	+19
−13 or below	+25

When the deviation percentage does not fall within the tabulated brackets, the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month.

§ 975.62 *Class II milk prices.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for producer milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class II utilization, shall be the basic formula price, as computed pursuant to § 975.60, plus 30 cents.

§ 975.63 *Class III milk prices.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for producer milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class III utilization, shall be the basic formula price, as computed pursuant to § 975.60; *Provided,* That during May and June 1955 the average of the prices per hun-

dredweight reported to have been paid or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants for which prices have been reported to the market administrator shall apply:

Present Operator and Location

Defiance Milk Products Co., Defiance, Ohio.
Fisher Dairy & Cheese Co., Wapakoneta, Ohio.
Kraft-Phenix Cheese Corp., Kendallville, Ind.
Nestles Milk Products Co., Marysville, Ohio.
Pet Milk Co., Angela, Ind.
Pet Milk Co., Coldwater, Ohio.
Pet Milk Co., Delta, Ohio.
Pet Milk Co., Garrett, Ind.
Pet Milk Co., Hudson, Mich.
Swift & Co., Lima, Ohio.

§ 975.64 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class is more or less than 3.5 percent, there shall be added to the prices of milk for each class as computed pursuant to §§ 975.61 and 975.62 for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 3.5 percent, an amount equal to the average daily wholesale price per pound of Grade A (92 score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, multiplied by the following factors:

(a) *Class I milk.* Multiply by 1.3, and divide the result by 10.

(b) *Class II milk.* Multiply by 1.15, and divide the result by 10.

(c) *Class III milk.* Multiply by 1.15, and divide the result by 10.

DETERMINATION OF ELIGIBLE MILK QUOTA

§ 975.65 *Determination of eligible milk quota for each producer.* Subject to the rules set forth in § 975.66, the market administrator shall determine quotas for producers as follows: During each of the delivery periods of April through June, inclusive, of each year beginning with 1956, the daily quota of each producer whose milk was received by a handler(s) on not less than thirty (30) days during the immediately preceding months of October through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in the 3-month period by the number of days from the date of first delivery to the end of such 3-month period.

§ 975.66 *Quota rules.* (a) An eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered during the quota-forming period;

(b) The quota of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

DETERMINATION OF UNIFORM PRICE

§ 975.70 *Computation of value of producer milk.* Subject to the location adjustment provided by § 975.71, the value of producer milk received or diverted during each delivery period for each handler operating a pool plant and for each cooperative association with respect to milk for which it is a handler pursuant to § 975.7 (c) shall be a sum of money computed by the market administrator by multiplying by the applicable class prices, determined pursuant to §§ 975.61, 975.62 and 975.63 adjusted pursuant to § 975.64, the total combined hundredweight of skim milk and butterfat received from producers and allocated to each class pursuant to §§ 975.56 and 975.57, and adding together the resulting amounts: *Provided,* That if such handler, after subtracting all receipts of skim milk and butterfat, respectively, other than in milk received from producers has a utilization of skim milk or butterfat greater than has been accounted for in milk received from producers, there shall be added a further amount computed by multiplying any such excess utilization classified pursuant to § 975.56 (e) and the corresponding step of § 975.57 by the applicable prices.

§ 975.71 *Location adjustment to handlers.* In computing the value of such quantities of milk as are received from producers at a pool plant and classified as Class I or Class II milk, there shall be deducted the amount of 20 cents per hundredweight if the pool plant is located more than 60 miles but not more than 74 miles from the Public Square in Cleveland, Ohio, by the shortest highway distance as determined by the market administrator, and 2 cents additional for each additional 14 miles or fraction thereof: *Provided,* That for the purpose of determining the respective quantities of Class I and Class II milk subject to the location adjustment, each pool handler's utilization of Class I and Class II milk during the month at pool plants as defined in § 975.30 (a) shall be allocated first to receipts of milk from producers' farms at such plants and then to the receipts of producer milk from pool plants as defined in § 975.30 (b) in the order of their nearness to the Public Square in Cleveland, Ohio, by shortest highway distance as determined by the market administrator.

§ 975.72 *Obligation to the producer-settlement fund for other source milk.* During any delivery period in which the total receipts from all producers is more than 110 percent of the total Class I utilization at all pool plants, any handler who receives other source milk during the delivery period which is allocated to Class I pursuant to §§ 975.56 or 975.57 or who operates a nonpool plant out of which a route is operated which extends into the marketing area shall pay to the producer-settlement fund an amount equal to the value of the milk so allocated to Class I or sold on such a route at the Class I price, less an amount computed at the same rate as specified in § 975.71 for the distance from the plant at which the other source milk originates to the Public Square in Cleveland, Ohio, and less the value of such milk at the Class III price.

§ 975.73 *Computation of uniform price.* For each delivery period, the market administrator shall compute the "uniform price" per hundredweight for milk of 3.5 percent butterfat content, f. o. b. the marketing area, received from producers by:

(a) Combining into one total the values computed under § 975.70 for all handlers who reported pursuant to § 975.40 for such delivery period, except those in default in payments required pursuant to § 975.84 for the preceding delivery period;

(b) Adding an amount representing the monies received in payment of obligations computed under § 975.72;

(c) Adding the aggregate of the values of all allowable location adjustments computed at the maximum rates for the appropriate zones set forth in § 975.81;

(d) Adding an amount representing not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Subtracting, if the weighted average butterfat test of all milk received from producers represented by the values included in paragraph (a) of this section is greater than 3.5 percent or adding, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the variance of such weighted average butterfat test from 3.5 percent, by the butterfat differential computed pursuant to § 975.82 multiplied by 10:

(f) Dividing by the hundredweight of milk received from producers represented by the values included in paragraph (a) of this section; and

(g) Subtracting not less than 4 cents nor more than 5 cents.

§ 975.74 *Computation of ineligible milk price.* For each of the delivery periods of April through June the market administrator shall compute the uniform price per hundredweight for ineligible milk of 3.5 percent butterfat content by:

(a) Computing the total value on a 3.5 percent butterfat basis of ineligible milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II and Class III milk included in these computations by the price for Class II milk of 3.5 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II and Class III milk by the price for Class I milk of 3.5 percent butterfat content, and adding together the resulting amounts; and

(b) Dividing the total value of ineligible milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjusting to the nearest cent.

§ 975.75 *Computation of eligible milk price.* For each of the delivery periods of April through June the market administrator shall compute the uniform price per hundredweight for eligible milk of 3.5 percent butterfat content f. o. b. the marketing area, received from producers by:

(a) Subtracting the value of ineligible milk obtained in § 975.74 (a) from the aggregate value of milk computed pursuant to § 975.73 (a) through (c) and adjusting by any amount involved in

adjusting the uniform price of ineligible milk to the nearest cent;

(b) Dividing the amount obtained in paragraph (a) of this section by the total hundredweight of eligible milk included in these computations; and

(c) Subtracting not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (b) of this section.

§ 975.76 *Notification.* On or before the 14th day after each delivery period the market administrator shall notify each handler who submitted a report for the preceding month pursuant to § 975.40 of:

(a) The classification pursuant to §§ 975.56 and 975.57 of skim milk and butterfat contained in producer milk received by such handler during the delivery period and the value of such milk computed pursuant to § 975.70;

(b) The uniform prices for the delivery period computed pursuant to §§ 975.73, 975.74, and 975.75; and

(c) The amount due such handler pursuant to § 975.85 and the amount to be paid by such handler pursuant to §§ 975.84, 975.86, and 975.87.

PAYMENTS

§ 975.80 *Time and method of payment.* (a) Except as provided by paragraph (b) of this section, on or before the 20th day after the end of each delivery period, each handler shall pay each producer for milk received from him within such delivery period, not less than an amount of money computed by multiplying the total pounds of such milk by the uniform price(s) pursuant to § 975.73 or to §§ 975.74 and 975.75, less the location adjustment pursuant to § 975.81 and adjusted by the butterfat differential pursuant to § 975.82: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 975.85 he may reduce such payments uniformly per hundredweight for all producers, by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) On or before the 19th day after the end of each delivery period, each handler shall pay a cooperative association not a handler, with respect to milk of producers for which it has received written authorization to collect payment, a total amount not less than the sum of the individual amounts otherwise payable to such producers pursuant to paragraph (a) of this section.

(c) On or before the 15th day after the end of each delivery period, each handler shall pay a cooperative association which is a handler, with respect to milk received by him from a pool plant operated by such cooperative association, not less than an amount computed by multiplying the minimum prices for milk in each class, subject to the applicable location adjustment provided by § 975.71 and the butterfat differential provided by § 975.64, by the hundredweight of milk in each class pursuant to §§ 975.56 and 975.57.

§ 975.81 *Location adjustments to producers.* In making payments pursuant to paragraphs (a) and (b) of § 975.80, a handler may deduct, with respect to all milk received from producers during the months of July through March, and with respect to eligible milk received from producers during the months of April, May and June, at a plant located, by the shortest highway distance from the Public Square in Cleveland, Ohio, as determined by the market administrator:

(a) More than 30 miles but not more than 60 miles, an amount not to exceed 13 cents per hundredweight; and

(b) More than 60 miles but not more than 74 miles, an amount not to exceed 20 cents per hundredweight, and 2 cents per hundredweight additional for each additional 14 miles or fraction thereof.

§ 975.82 *Butterfat differential.* In making payments pursuant to paragraphs (a) and (b) of § 975.80 there shall be added to or subtracted from the uniform price per hundredweight, for each one-tenth of 1 percent of such butterfat content in milk above or below 3.5 percent, as the case may be, a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a), (b) and (c) of § 975.64 weighted by the pounds of butterfat in producer milk in Classes I, II, and III, respectively, with the result rounded to the nearest tenth of a cent.

§ 975.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund, known as the "producer-settlement fund," into which he shall deposit all payments made pursuant to § 975.84 and out of which he shall make all payments pursuant to § 975.85.

§ 975.84 *Payments to the producer-settlement fund.* On or before the 16th day after the end of each delivery period, each handler (a) whose value of producer milk is required to be computed pursuant to § 975.70, shall pay to the market administrator any amount by which such value for such delivery period is greater than the total minimum amount required to be paid by him pursuant to paragraphs (a) and (b) of § 975.80 and (b) whose obligation is required to be computed pursuant to § 975.72, shall pay to the market administrator such obligation for such delivery period.

§ 975.85 *Payments out of the producer-settlement fund.* On or before the 18th day after the end of each delivery period, the market administrator shall pay to each handler the amount by which such handler's value pursuant to § 975.70 is less than the total minimum amount required to be paid by him pursuant to paragraphs (a) and (b) of § 975.80 less any unpaid obligations of such handler to the market administrator pursuant to §§ 975.84, 975.86, 975.87, or 975.88: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments to all such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 975.86 *Expense of administration.* As his pro rata share of the expense incurred pursuant to paragraph (d) of § 975.22, each handler shall pay the market administrator on or before the 16th day after the end of each delivery period, three cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 14th day after the end of such delivery period, with respect to all receipts within the delivery period, of milk from producers at pool plants (including such handler's own production) and of all other source milk allocated to Class I pursuant to § 975.56 (b) and the corresponding portion of § 975.57: *Provided,* That such payment shall not be made with respect to any milk subject to a payment required under the provision for expense of administration of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area.

§ 975.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section each handler in making payments to producers pursuant to paragraphs (a) and (b) of § 975.80, with respect to all milk received from each producer (except milk of such handler's own production) at a plant, not operated by a cooperative association of which such producer is a member, shall deduct four cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 14th day after the end of each delivery period; and, on or before the 16th day after the end of such delivery period, shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of the milk of such producers and to provide such producers with market information; such services to be performed in whole or in part by the market administrator, or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a plant, not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section such deductions from payments required pursuant to paragraphs (a) and (b) of § 975.80 as may be authorized by such producers, and pay such deductions on or before the 16th day after the end of each delivery period to the cooperative association rendering such services of which such producers are members.

§ 975.88 *Adjustment of accounts*—(a) *Payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due (1)

the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

(b) *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 975.84, 975.85, 975.86, 975.87 or paragraph (a) of this section shall be increased one-half of one percent on the first day of the calendar month next following the due date of such obligation and, on the first day of each calendar month thereafter until such obligation is paid.

§ 975.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8e (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers; the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the months during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 975.90 *Application of provisions—*(a) *Milk subject to other Federal orders.* Milk received at the plant of a handler at which the handling of milk is fully subject during the delivery period to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act and from which the disposition of Class I milk in the other Federal marketing area exceeds that in the Cleveland marketing area shall be exempted for such delivery period from all provisions of this part except §§ 975.41, 975.42, and 975.43 unless the Secretary determines that the applicable order should more appropriately be determined on some other basis.

(b) *Handler exemption.* A handler who operates a plant located outside the marketing area from which an average of less than 300 points (one point being defined as one-half pint of cream or one quart of any other Class I product) of Class I milk per day is disposed of during the delivery period on a route(s) operated wholly or partly within the marketing area shall be exempted for such delivery period from all provisions of this part except § 975.41, § 975.42 and § 975.43.

(c) *Milk caused to be delivered by cooperative associations.* Milk referred to in this part as received from producers by a handler shall include milk of producers caused to be delivered to such handler by a cooperative association which is not a handler and which is authorized to collect payment for such milk.

§ 975.91 *Effective time.* The provisions of this part, or of any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 975.92 *Suspension or termination.* The Secretary shall, whenever he finds that this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision of this part.

§ 975.93 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations under this part the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 975.94 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 975.95 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 975.96 *Separability of provisions.* If any provision of this part or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 28th day of April 1955 to be effective on and after the 1st day of May 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-3576; Filed, May 2, 1955; 8:50 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter B—Cooperative Control and Eradication of Animal Diseases

[B. A. I. Order 375, Revised, Amdt. 4]

PART 51—CATTLE DESTROYED BECAUSE OF BRUCELLOSIS (BANG'S DISEASE), TUBERCULOSIS, OR PARATUBERCULOSIS

PAYMENT OF INDEMNITIES

Pursuant to the provisions of sections 3 and 11 of the act of May 29, 1884, as amended (21 U. S. C. 114, 114a), section 2 of the act of February 2, 1903, as amended (21 U. S. C. 111), and section 204 (e) of the Agricultural Act of 1954 (68 Stat. 900), § 51.1 (m) of the regulations pertaining to payment of indemnities for cattle destroyed because of brucellosis, tuberculosis, or paratuberculosis (9 CFR, 1953 Supp. Part 51 (19 F. R. 6566, 8624, 20 F. R. 755)), is hereby amended to read as follows:

§ 51.1 *Definitions.* • • •

(m) *Official vaccinate.* A bovine animal vaccinated against brucellosis from 4 through 8 months of age, or a bovine animal of a beef breed in a range or semirange area, vaccinated against brucellosis from 4 to 12 months of age, under the supervision of a Federal or State veterinary official with a vaccine approved by the Animal Disease Eradication Branch, Agricultural Research Service, United States Department of Agriculture, permanently identified as such a vaccinate; and reported at the time of vaccination to the appropriate State and Federal Agency cooperating in the eradication of brucellosis.

Section 51.9 (m) is amended to read:

§ 51.9 *Claims not allowed.* • • •

(m) If the cattle were "official vaccinates" and reacted positively to the blood agglutination test for brucellosis, unless such animals were at least 30 months of age; or if the reactors were vaccinated animals, and properly verified but not "official vaccinates" as defined, unless there is also a record of a negative blood agglutination test made not less than 30 days following the date of vaccination.

Effective date. The foregoing amendment shall become effective upon issuance.

The purposes of the revisions contained in this amendment are (1) to provide under § 51.1 (m) for more flexibility in the regulations under which a bovine animal may be vaccinated by lowering the present six month minimum to four months; many State laws permit the four month minimum. Investigation of the matter shows that vaccination from four to six months of age can be considered satisfactory, and (2) under § 51.9 (m) to permit payment of indemnity under certain prescribed conditions for reactor cattle which have been previously vaccinated, but in a manner other than specifically outlined under the definition of an "official vaccinate", provided certain conditions as indicated have been complied with. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 3, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, ch. 730, 45 Stat. 59, sec. 4, 58 Stat. 734; 21 U. S. C. 114, 111, 114a)

Done at Washington, D. C., this 27th day of April 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 55-3571; Filed, May 2, 1955; 8:50 a. m.]

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 50]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

TEMPORARY SUSPENSION OF CERTAIN CLEANING AND DISINFECTING REQUIREMENTS

Pursuant to sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 3 of the act of March 3, 1905, as amended (21 U. S. C. 125), the provisions of paragraphs (b) and (c) of § 76.35, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations, are hereby suspended until October 6, 1955, unless the suspension is rescinded prior to that date.

Such provisions require the cleaning and disinfecting of certain vehicles and feed, water, and rest facilities used in connection with the interstate movement of swine. In view of the favorable situation existing for some time with respect to vesicular exanthema with no outbreaks of the disease in most sections of the country, and in view of the provisions of paragraph (a) of § 76.35, which require that vehicles and other facilities used in connection with the interstate movement of swine shall be kept clean and of paragraph (d) of § 76.35, which authorize the Chief of the Animal Disease Eradication Branch, Agricultural Research Service, to require the cleaning and disinfecting of any vehicle or facility used in connection with the interstate movement of swine affected with or exposed to vesicular exanthema or swine fed any raw garbage, it appears that the requirements of said paragraphs (b) and (c) may be suspended without endangering the swine of the country, provided the requirements under the other provisions of § 76.35 are complied with and the present favorable situation with respect to vesicular exanthema continues.

The amendment relieves certain restrictions presently imposed, and should be made effective immediately in order to be of maximum benefit to affected persons. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendment shall become effective upon issuance.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111. Interprets or applies secs. 4, 5, 23 Stat. as amended, sec. 3, 33 Stat. 1265, as amended; 21 U. S. C. 112, 113, 120, 125)

Done at Washington, D. C., this 27th day of April 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 201—PROCEDURES OF THE POST OFFICE DEPARTMENT

EMPLOYMENT POLICY; COMPLAINTS

In § 201.90 *Employment policy, Post Office Department* (20 F. R. 1649), amend paragraph (f) to read as follows:

(f) *Complaints.* An employee, an applicant, a duly authorized representative, or the designated spokesman of a duly constituted group or organization, may file a written complaint under the provisions of Executive Order 10590 (20 F. R. 409). The complaint must be filed within 45 days of the specific personnel action complained of, except that a complaint involving a discharge action must be made within 10 days of the effective date of such action, unless the complainant is prevented from filing within these time limits by circumstances beyond his control. A complaint will not be subject to these specific time limits if it is concerned with a continuing discriminatory practice.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369; E. O. 10590, 20 F. R. 409; Reorg. Plan No. 3 of 1949, 14 F. R. 5225, 3 CFR, 1949 Supp.)

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1087]

ALASKA

Correction

In Federal Register Document 55-2115, appearing at page 1560 of the issue for Tuesday, March 15, 1955, the third line of the land description under paragraph 1 should read: "00'' West and approximate Latitude 53°45'".

[Public Land Order 1120]

NEW MEXICO

Correction

In FEDERAL REGISTER Document 55-3176, appearing at page 2577 of the issue for Tuesday, April 19, 1955, the land description for Lower Hondo Forest Camp A should read as follows:

LOWER HONDO FOREST CAMP A

T. 27 N., R. 13 E.,

Sec. 27, S½NW¼NW¼, N½SW¼NW¼.

The tracts described aggregate 40 acres.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 141]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

2. The very high frequency omnirange procedures prescribed in § 609.9 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53786]

PART 1—CUSTOMS DISTRICTS AND PORTS

CHANGE IN STATUS OF PORT OF NEWARK, N. J.

APRIL 26, 1955.

By virtue of the authority vested in the President by section 1 of the act of August 1, 1914, 38 Stat. 623 (19 U. S. C. 2), and delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, September 17, 1951 (3 CFR, 1951 Supp., Ch. II): *It is hereby ordered,* That the port of Newark, New Jersey, shall, for customs purposes, be operated as an integral part of the customs port of entry of New York, New York, the headquarters port of Customs Collection District No. 10 (New York), in the interest of a more efficient administration of the customs and marine business, effective May 15, 1955.

Paragraph 2 of Executive Order No. 4205, April 25, 1925, is modified accordingly.

The following instructions and procedures pertaining to the port of Newark, New Jersey, shall be effective May 15, 1955:

1. Merchandise arriving at the port of Newark from foreign ports may be entered for transportation in bond without appraisement to any other port of entry, in which cases the transportation entries shall show the port of arrival as "New York, N. Y. (Newark, N. J.)." Merchandise may be shipped in bond to Newark from any other port of entry, in which cases the transportation entries shall show the port of destination as "New York, N. Y. (Newark, N. J.)," and copies thereof shall be forwarded by the ports of arrival to the deputy collector of customs, Newark, N. J.

2. All merchandise entries shall show the name of the port as "New York, N. Y. (Newark, N. J.)."

3. The port of Newark shall be continued as a port of documentation.

Additional privileges, procedures, and requirements, affecting the port of Newark, deemed to be advisable for the convenient transaction of business, shall be prescribed by the collector of customs of the Customs District of New York and be posted in the customhouses at New York and Newark.

Footnote 4 to § 1.1, Customs Regulations, is amended by adding at the end thereof: "Although the status of the port of Newark, N. J., was changed by T. D. 53786 to provide that it shall be operated as an integral part of the port of New York, N. Y., in the Customs Collection District of New York (No. 10), marine documents may continue to be issued at that port."

Section 1.1 (c), Customs Regulations, is amended by adding "(T. D. 53786)" after the parenthetical matter opposite "New York, N. Y." in the column headed "Ports of entry" in District No. 10 (New York), and by deleting "*Newark, N. J." from such column.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended; 19 U. S. C. 1, 2)

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55-3562; Filed, May 2, 1955; 8:48 a. m.]

[T. D. 53787]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO REDUCED RATE, ETC.

DIPLOMATIC AND CONSULAR OFFICERS

The Department of State has expressed the opinion that it is desirable that reciprocal customs treatment be accorded to diplomatic couriers of foreign countries. A recent survey of customs treatment accorded diplomatic couriers of the United States reveals that except for a very few countries personal baggage of diplomatic couriers is never inspected, and that in the few countries where such inspection does take place it only occurs at infrequent intervals. Since under the present regulations personal accompanied baggage of foreign diplomatic couriers is subject to inspection, reciprocity can be assured only by amending the regulations to provide for such inspection as may be deemed necessary only upon the issuance of special instructions by the Commissioner of Customs. Accordingly, § 10.29 is hereby amended by deleting the citation of authority at the end of paragraph (e) and adding a new paragraph (f), reading:

(f) The accompanied personal baggage of diplomatic couriers of foreign countries shall be accorded customs privileges and immunities extended to foreign personnel of diplomatic rank under paragraph (e), except in cases provided for by special instructions from the Commissioner of Customs.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 498, 46 Stat. 728, as amended; 19 U. S. C. 1498)

RALPH KELLY,
Commissioner of Customs.

Approved: April 26, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55-3563; Filed, May 2, 1955; 8:49 a. m.]

TITLE 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

Subchapter D—Electrical Equipment, Lamps, Methane Detectors; Tests for Permissibility; Fees

[Bureau of Mines Schedule 7C, Supp. 1]

PART 21—FLAME SAFETY LAMPS

MISCELLANEOUS AMENDMENTS

Part 21 is hereby amended as follows:

1. Section 21.2 (a) is amended to read as follows:

(a) *Permissible.* Completely assembled and conforming in every respect with the design formally approved by the Bureau of Mines under this part. (Approvals under this part are given only to equipment for use in gassy and dusty mines.)

2. Section 21.3 (a) is amended to read as follows:

(a) The fee charged for a complete investigation of a flame safety lamp under this part is $245.00.

3. Section 21.3 (d) is amended by deleting the words "Director of the Bureau" and substituting the words "Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pa."

4. Section 21.4 is amended by rewording as follows:

§ 21.4 *Applications.* Before the Bureau of Mines will undertake the active investigation leading to approval of any lamp, the manufacturer shall make application by letter for an investigation of his lamp. This application in duplicate, accompanied by a check, bank draft, or money order, payable to the United States Bureau of Mines, to cover all the necessary fees, shall be sent to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pa., together with the required drawings, one complete lamp, and instructions for its operation.

5. Section 21.5 is amended by changing the heading from *"Instructions for submitting equipment"* to *"Conditions governing investigations."*

6. Section 21.5 (a) is amended by deleting the words "Electrical Laboratory, Pittsburgh Experiment Station" and substituting the words "Central Experiment Station."

7. Section 21.5 is amended by the addition of a new paragraph (c) as follows:

(c) *Observers at formal investigations and demonstrations.* No one shall be present during any part of the formal investigation conducted by the Bureau which leads to approval for permissibility except the necessary Government personnel, representatives of the applicant, and such other persons as may be mutually agreed upon by the applicant and the Bureau. Upon granting approval for permissibility, the Bureau will announce that such approval has been granted to the device and may thereafter conduct, from time to time in its discretion, public demonstrations of the tests conducted on the approved device. Those who attend any part of the investigation, or any public demonstration, shall be present solely as observers; the conduct of the investigation and of any public demonstration shall be controlled wholly by the Bureau's personnel. Results of chemical analyses of material and all information contained in the drawings, specifications, and instructions shall be deemed confidential and their disclosure will be appropriately safeguarded by the Bureau.

8. Section 21.8 (a) is amended by revising the first sentence as follows: "All approvals are granted by official letter from the Bureau of Mines."

9. Section 21.10 (a) is amended by deleting the words "Director of the Bureau at Washington, D. C.," and substi-

tuting the words "Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pa."; also, the second sentence of this paragraph is revised to read as follows: "With this letter he should submit a revised drawing or drawings showing the changes in detail and one of each of the changed lamp parts."

10. Section 21.10 (c) is amended by deleting the words "through the Director's office," and adding "by letter from the Bureau of Mines."

(Sec. 5, 36 Stat. 370, as amended, 30 U. S. C. 7. Interpret or apply secs. 2, 3, 36 Stat. 370, as amended, 30 U. S. C. 3, 5)

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 26, 1955.

[F. R. Doc. 55-3547; Filed, May 2, 1955; 8:45 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter J—Procurement

[CGFR 55-17]

PART 116—PROCEDURES FOR PURCHASING

PART 118—CONTRACTS

PART 120—BONDS AND GUARANTIES

MISCELLANEOUS AMENDMENTS

The amendment of § 116.03-25 (c) adds Standard Form 147 (Order-Invoice-Voucher) to the list of purchase order forms authorized for Coast Guard use.

The amendments to §§ 118.03-1 and 118.03-5 require the use of a priorities, allocations and allotments clause in contracts which must be supported with defense order rating and allotment authority under rules and regulations of the Business and Defense Services Administration.

The amendments to §§ 118.02-10, 118.02-11, and 120.02-6 are editorial in nature to clarify the requirements of existing procedure.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), the following amendments are prescribed:

1. Section 116.03-25 is amended by revising paragraph (c) to read as follows:

§ 116.03-25 *Purchase orders not in excess of $5,000.* * * *

(c) *Purchase order forms.* Contracting officers designated in §§ 116.01-23 and 116.01-24 will prepare and issue purchase orders over $1,000 and not in excess of $5,000 on form CG-2557 (Purchase Order) or Standard Form 147 (Order-Invoice-Voucher). If the purchase is less than $1,000, the order may be issued on Standard Form 44 (U. S. Government Purchase Order-Invoice-Voucher), form CG-2557 (Purchase Order), or Standard Form 147 (Order-Invoice-Voucher). Instructions for the preparation of the above forms are set forth in §§ 118.02-13, 118.02-16, and 118.02-24 of this subchapter.

2. Section 118.02-10 is amended by revising the section title, the introductory sentence following the section heading, and paragraph (e) to read as follows:

§ 118.02-10 *Distribution of contracts.* Contracts (whether numbered or unnumbered) and change orders executed by designated contracting officers shall be distributed as follows:

* * * * * *

(e) One copy to the Commandant (ECV) if the contract pertains to the construction or repair of shore structures and the contract price is $2,000 or more.

3. Section 118.02-11 *Distribution of unnumbered contracts* is hereby revoked.

4. Section 118.03-1 is amended by designating the present paragraph following the section heading as "(a) *General*" and by adding a new paragraph (b) reading as follows:

§ 118.03-1 *Terms, conditions, and provisions to be incorporated in contracts.* * * *

(b) *Required use of priorities, allocations and allotments clause.* The contract clause set forth in § 118.03-5 (u) shall be inserted in all rateable contracts entered into by formal advertising or negotiation, except purchase orders of less than $5,000. The clause will be added wherever practicable to existing rateable contracts whenever such contracts are amended for any other purpose and if additional purchases of materials for the contract are contemplated. Rateable contracts are those contracts for supplies which are required to be supported with defense order rating and allotment authority in accordance with applicable rules and regulations of the Business and Defense Services Administration, including Defense Materials System regulations.

5. Section 118.03-5 is amended by adding a new paragraph (u) reading as follows:

§ 118.03-5 *Special contract clauses.* * * *

(u) *Priorities, allocations and allotments.* The contractor agrees, in the procurement and use of materials required for the performance of this contract, to comply with the provisions of all applicable rules and regulations of the Business and Defense Services Administration including Defense Materials System Regulations.

6. Section 120.02-6 is amended by revising the last two sentences of paragraph (a) to read as follows: "When the contract has been executed, the bonds and the original contract shall be forwarded to the Commandant (CL) under letter of transmittal in accordance with § 118.02-10 (g). After examination and approval of the surety bonds by the Section of Surety Bonds, Treasury Department, both the bonds and the original contract will be returned to the contracting officer by the Commandant (CL) for filing in the cognizant accounting office."

(62 Stat. 21; 41 U. S. C. 151-161)

Dated: April 26, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 202]

RIGHTS-OF-WAY FOR PIPE LINES ON THE OUTER CONTINENTAL SHELF

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by section 5 (c) of the Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 462; 43 U. S. C. 1331), it is proposed to issue regulations setting forth the rules governing the granting and administration of rights-of-way for pipe lines under that section of the act.

The proposed regulations are set forth below.

Interested persons may submit in triplicate written comments, suggestions, or objections with respect to the proposed regulations to the Bureau of Land Management, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

DOUGLAS MCKAY,
Secretary of the Interior.

APRIL 26, 1955.

A new Part 202 is added, reading as follows:

Sec.
202.1 Purpose and authority.
202.2 Definitions.
202.3 Application.
202.4 Persons qualified to acquire and hold rights-of-way.
202.5 Consent of or notice to lessee of leased area crossed by right-of-way.
202.6 Terms and conditions.
202.7 Approval of right-of-way.
202.8 Term of grant.
202.9 Proof of construction.
202.10 Assignment of right-of-way.

Sec.
202.11 Advance permission to commence construction.
202.12 Penalty for failure to comply with the act, regulations, or any conditions imposed under either.
202.13 Appeals.

AUTHORITY: §§ 202.1 to 202.13 issued under sec. 5 (c), 67 Stat. 464.

§ 202.1 *Purpose and authority.* Section 5 (c) of the Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 464), authorizes the Secretary of the Interior to grant rights-of-way for pipeline purposes for the transportation of oil, natural gas, sulphur, or other minerals. The purpose of the regulations in this part is to set forth the rules governing the granting and administration of such rights-of-way. The inclusion of this part in this title shall not be construed as an interpretation that the laws and regulations pertaining to public lands or to rights-of-way thereon are applicable to the submerged lands of the outer Continental Shelf.[1]

§ 202.2 *Definitions.* (a) "Secretary" means Secretary of the Interior.

(b) "Director" means Director, Bureau of Land Management.

(c) "Project" means the physical structures in connection with which the right-of-way is granted.

(d) "Construction work" means any and all work, temporary or permanent in nature, done in the construction of the project.

(e) "Right-of-way" includes the site on which the pipeline and associated structures are situated which shall not exceed 100 feet in width for pipelines and be limited to the area reasonably necessary for pumping stations or other accessory structures.

§ 202.3 *Application*—(a) *Form and requirements.* No special form of application is required. The application should be in typewritten form or legible handwriting. It must specify that it is made pursuant to the act and the regulations in this part and that applicant agrees that the right-of-way if approved will be subject to the terms and conditions of the regulations in this part. It should also state the primary purpose for which the right-of-way is to be used. The application must be filed in duplicate at the office of the Director, Washington 25, D. C. If the right-of-way has been utilized prior to the time the application is made, the application must state the date such utilization commenced and by whom, and the date applicant obtained control of the improvements. A filing fee of $10 must accompany the application.

(b) *Map showing survey.* Each application must be accompanied by a map, prepared on tracing linen, and three (3) print copies thereof, showing the center line of the right-of-way, properly identified so that the right-of-way may be accurately located by a competent engineer. The map should comply with the following requirements:

(1) The scale shall be at least 1:160,000.

(2) Courses and distances of the center line of the right-of-way shall be given either on the margin of the map or on an attached sheet or sheets with the courses referred to the true meridian, either by deflection from a line of known bearing or by independent observation and calculated distances in feet and decimals.

(3) The total distance and width of the right-of-way shall be given, and the diameter of the pipeline specified.

(4) The initial and terminal points of the right-of-way shall be accurately located by latitude and longitude or by grid references.

(5) Each copy of the map shall bear upon its face a statement of the engineer who made the map that the right-of-way is accurately represented upon the map.

(6) Payment of the first year's annual rental at the rate of $5 for each mile or fraction thereof of the right-of-way and $50 for each accessory site must accompany the application.

§ 202.4 *Persons qualified to acquire and hold rights-of-way.* (a) Applications may be filed by citizens of the United States, associations of such citizens, and by corporations organized under the laws of the United States or of any State or Territory thereof.

(b) An individual and each member of an association applying for a right-of-way must state in the application whether he is a native-born[2] or naturalized citizen of the United States.

(c) (1) A private corporation must file a certified copy of its charter or articles of incorporation.

(2) A corporation other than a private one must file a copy of the law under which it was organized and proof of its organization.

(3) A copy of the resolution or by-laws of the corporation authorizing the filing of the application must be filed.

(4) If the corporation has previously filed any or all of the papers required in subparagraphs (1), (2), and (3) of this paragraph, specific reference to such filing giving date, place, and case number will be accepted as full compliance with such requirements.

§ 202.5 *Consent of or notice to lessee of leased area crossed by right-of-way.* An applicant must show the extent to which the right-of-way applied for invades or crosses mineral leases other than his own and must submit with his application either the written consent of each lessee affected or a statement that he has delivered to each lessee whose lease is so affected by registered mail a copy of the application and map and he shall attach evidence of service thereon to his statement. If the statement is filed no final action will be taken on the right-of-way application until 30 days have elapsed after the last date of service of such papers, in order to afford the parties concerned ample opportunity to file protests against the granting of the right-of-way.

§ 202.6 *Terms and conditions.* An applicant, by accepting a right-of-way grant, agrees and consents to comply with and be bound by the following terms and conditions, excepting those which the Secretary may waive in a particular case:

(a) To comply with all existing regulations and with all existing and future regulations which the Secretary determines to be necessary and proper in order to provide for the prevention of waste and conservation of the natural resources of the outer Continental Shelf, and the protection of correlative rights therein.

(b) To transport or purchase without discrimination the minerals for the transportation of which the right-of-way is granted produced from the submerged lands in the vicinity of the pipeline in such proportionate amounts (1) as to gas, as the Federal Power Commission, (2) as to oil, as the Interstate Commerce Commission and (3) as to other minerals, as the Secretary may, after a full hearing with due notice thereof to the interested parties, determine to be reasonable, taking into account, among other things, conservation and the prevention of waste.

(c) To pay the United States, or its lessee, as the case may be, the full value for all damages to the property of the United States or its said lessee, and to indemnify the United States against any and all liability for damages to life, person, or property arising from the occupation and use of the area covered by the right-of-way.

(d) To keep the Director informed at all times of his address, and, if a corporation, of the address of its principal place of business and the name and address of the officer or agent authorized to receive service of notice. That in the construction, operation, and maintenance of the project, he shall not discriminate against any employee or applicant for employment because of race, creed, color, or national origin and shall require an identical provision in all subcontracts.

(e) That the allowance of the right-of-way shall be subject to the express condition that the rights granted will not prevent or interfere in any way with the management, administration of, or the granting either prior or subsequent to the right-of-way grant of other rights by the United States in, the submerged lands affected thereby, and that he agrees and consents to the occupancy and use by the United States or its lessees of any part of the right-of-way not actually occupied by the project, or necessarily incident to its use for any necessary operations involved in such management, administration or the enjoyment of such other granted rights.

(f) To pay annually on or prior to the anniversary day of the right-of-way grant an annual rental of $5 for each mile or fraction thereof traversed by the right-of-way and $50 for each area in excess of 100 feet in width applied for

[1] Compliance with the regulations of this part does not obviate the necessity of compliance with requirements and regulations of the Department of the Army and the Coast Guard with respect to prevention of obstruction to navigation, lights, and warning devices, and other matters relating to safety of life and property, as authorized by section 4 of the act.

[2] "Natural-born" does not mean "native-born" and should not be substituted.

as the site for a pumping station or other accessory to the right-of-way.

(g) That upon revocation or termination of the right-of-way, unless the requirement is waived in writing, he shall, so far as reasonably possible, restore the area of the right-of-way to its original condition.

§ 202.7 *Approval of right-of-way.* If the application and other required information are found to be in compliance with the law and regulations and the consents required by § 202.5 have been obtained or any protests filed as therein provided have been rejected, the right-of-way will be granted. If the right-of-way as applied for would cross any area withdrawn from disposal or restricted from exploration and operation it will be rejected unless the Federal agency in charge of withdrawn or restricted area shall give its consent to the granting of the right-of-way, but in such case the applicant upon request filed within 30 days after receipt of the rejection notice will be allowed an opportunity to file an amended application rerouting the proposed right-of-way so as to eliminate the conflict.

§ 202.8 *Term of grant.* Any right-of-way granted under this part shall be for so long as the pipeline is maintained and used for the purpose for which the grant was made, unless otherwise expressly stated in the grant. Cessation of use temporarily shall not terminate the grant, but if the purpose of the grant ceases to exist or use of the pipeline is permanently discontinued for any reason the grant shall be subject to forfeiture.

§ 202.9 *Proof of construction.* Failure to construct the pipeline within 5 years from the date of the grant shall be deemed to be an abandonment of the grant which will be forfeited by an appropriate proceeding. Proof of construction shall be submitted to the Director. Such proof shall consist of a statement by the holder of the right-of-way that the pipeline has been laid and is in operation. If there is any deviation from the right-of-way as shown on the original map, the unused portion of the grant must be relinquished and a map of the location of the right-of-way as constructed, prepared in accordance with § 202.3 must be furnished as soon as possible after the deviation is determined to be necessary or advisable. Any deviation made prior to approval of such supplemental plat will be at the risk of the right-of-way holder.

§ 202.10 *Assignment of right-of-way.* Assignment of a right-of-way must be filed in triplicate accompanied by an application for approval in which the assignee must make the showing required by § 202.4 and agree to the terms and conditions prescribed in § 202.6. No assignment shall be effective to transfer any rights until it is approved.

§ 202.11 *Advance permission to commence construction.* Upon a satisfactory showing of the need therefor, the Director may grant permission to commence construction of a pipeline in advance of any grant of the right-of-way but such permission is not a commitment that the right-of-way will be approved and all work done thereunder prior to the granting of the right-of-way will be at the applicant's risk. No advance permission will be granted for an area or areas not subject to a right-of-way grant.

§ 202.12 *Penalty for failure to comply with the act, regulations, or any conditions imposed under either.* As provided in the act, failure to comply with the act, regulations or any conditions prescribed by the Secretary as to the application therefor and the survey, location and width thereof and upon the express condition that such oil or gas pipelines shall transport or purchase without discrimination, oil or natural gas produced from said submerged lands in the vicinity of the pipeline in such proportionate amounts as the Federal Power Commission, in the case of gas, and the Interstate Commerce Commission, in the case of oil, may, after a full hearing with due notice thereof to the interested parties, determine to be reasonable, taking into account, among other things, conservation and the prevention of waste be grounds for forfeiture of the grant in an appropriate, judicial proceeding instituted by the United States in any United States District Court having jurisdiction under the provisions of section 4 (b) of the act. Upon relinquishment of any right-of-way or forfeiture of the grant, the right-of-way owner will be allowed one year in which to remove his improvements unless otherwise provided in the decree of forfeiture.

§ 202.13 *Appeals.* Any person aggrieved by any action taken by the Director, under this part has the right of appeal to the Secretary in accordance with the provisions and limitations provided in §§ 221.73 to 221.76 of this chapter. Nothing contained in this part shall be construed to prevent any interested party from seeking judicial review as authorized by law.

NOTE: The record keeping or reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 230, 239, 260, 270]

FORMS FOR REGISTRATION STATEMENTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Commission has under consideration a proposed revision of Form S-1[1] (§ 239.11). This form is the one most generally used for the registration of securities under the Securities Act of 1933. The Commission is also considering the revision of certain related rules, and the revision of Form 10 (§ 249.210) under the Securities Exchange Act of 1934. The latter proposal will be announced by a separate release in the near future.

[1] Filed as part of the original document.

These proposals are part of the Commission's continuing review of the rules, regulations, forms and procedures adopted under the various statutes administered by it.

The proposed revision of Form S-1 has two principal purposes, the first is to conform its requirements, to the extent practicable, with the corresponding requirements of Schedule 14A of the Commission's proxy rules, and with the annual report Form 10-K (§ 249.310) under the Securities Exchange Act of 1934. The proposed revision of Form 10 has a similar purpose, and it is thus planned to bring the basic and most commonly used registration and reporting forms under the Securities Act of 1933 and the Securities Exchange Act of 1934 into conformity on parallel items so that registrants may report such information as is essentially similar in the same manner and subject to the same requirements under both statutes.

The second principal purpose of the proposed revision is to revise and clarify certain items of the form in the light of the Commission's experience in reviewing registration statements and of the practice followed by registrants using the form. An effort is made to state more clearly, and, in some instances, in more detail, those items which appear not to have been fully understood by a substantial number of registrants. Some items have been conformed to those in the new Form S-9 (§ 239.22). The treatment of stock options has been revised to obtain more complete information as to the aggregate amount of options outstanding at the date of the offering.

The proposed rule changes are primarily designed to define in rules under the Securities Act of 1933 certain terms now defined in rules under the Securities Exchange Act of 1934 which would be used in forms under both Acts, and to define the term "rules and regulations" as used in various statutes administered by the Commission, to make it clear that this includes the forms for registration adopted by the Commission under the Securities Act of 1933.

In connection with the revision it is proposed to rescind Supplement S-T, since it is believed that the significant information called for by that form will either be included elsewhere in the registration statement or will be otherwise available to the Commission.

The proposed action would be taken pursuant to the Securities Act of 1933, particularly sections 7, 10 and 19 (a) thereof, the Trust Indenture Act of 1939, particularly sections 305, 307 and 319 (a) thereof, and the Investment Company Act of 1940, particularly sections 24 and 38 (a) thereof.

1. A new § 230.130 (Rule 130) would be added as follows:

§ 230.130 *Definition of "rules and regulations" in connection with forms for registration.* The terms "rules and regulations" as used in section 7, paragraphs (a), (c) and (d) of section 10, and section 19 (a) of the act, shall include the forms for registration adopted or authorized by the Commission and the related instructions.

2. Section 230.405 (Rule 405) would be amended by inserting the following definition of the term "associate" after the definition of the term "amount" and by inserting the following definition of the term "voting securities" at the end of the rule:

§ 230.405 *Definitions of terms.* • • •

(b-1) *Associate.* The term "associate" used to indicate a relationship with any person, means (1) any corporation or organization (other than the registrant or a majority-owned subsidiary of the registrant) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities, (2) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (3) any relative or spouse of such person, or any relative of such spouse, who has the same home as such person or who is a director or officer of the registrant or any of its parents or subsidiaries.

• • • • •

(x) *Voting securities.* The term "voting securities" means securities the holders of which are presently entitled to vote for the election of directors.

3. A new § 230.416 (Rule 416) would be added as follows:

§ 230.416 *Securities to be issued under antidilution provisions.* If a registration statement purports to register securities to be offered pursuant to terms which provide for a change in the amount of securities being offered or issued to prevent dilution resulting from stock splits, stock dividends or similar transactions, such registration statement shall, unless otherwise expressly provided, be deemed to cover the additional securities to be offered or issued in connection with any such provision.

4. A new § 260.0-3 (Rule T-0-3) would be added as follows:

§ 260.0-3 *Definition of "rules and regulations" in connection with certain forms.* (a) The term "rules and regulations" as used in section 305 of the act shall include the forms for registration adopted or authorized by the Commission for the registration of securities under the Securities Act of 1933 and the related instructions, and the forms adopted by the Commission for information, documents and statements under section 305 of the act.

(b) The term "rules and regulations" as used in section 307 of the act shall include the forms adopted by the Commission for applications under section 307 of the act, and related instructions.

5. Section 270.24b-1 (Rule N-24b-1) would be amended by adding a new paragraph (c) as follows:

§ 270.24b-1 *Definitions.* • • •

(c) The term "rules and regulations" as used in section 24 (a) and section 24 (c) of the act shall include the forms for registration adopted or authorized by the Commission for the registration of securities under the Securities Act of 1933 and the related instructions.

All interested persons are invited to submit views and comments on the above mentioned proposals in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before May 27, 1955. Unless any person submitting any such comments or suggestions requests in writing that they be held confidential, they will be available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

APRIL 26, 1955.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 6935 et al.]

PIEDMONT AVIATION, INC.

NOTICE OF HEARING

In the matter of the application of Piedmont Aviation, Inc., under section 401 of the Civil Aeronautics Act of 1938, as amended, for authority to extend segment 4 of route No. 87 to Washington, D. C., and the application for air service by the City of Staunton, Virginia.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said Act, that a hearing in the above-entitled proceeding will be held on May 10, 1955, at 10:00 a. m., e. d. s. t., in Room 5132 Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Richard A. Walsh.

Without limiting the scope of the issues presented by the applications consolidated herein, particular attention will be directed to the following matters:

1. Whether the public convenience and necessity require air service to Staunton, Virginia, and the amendment of the certificate of public convenience and necessity of Piedmont Aviation, Inc., authorizing the extension of segment 4 of route No. 87 to Washington, D. C.

2. Whether Piedmont Aviation, Inc., or any air carrier who may be authorized to serve Staunton, Virginia, is fit, willing and able properly to perform the air transportation to be authorized and to conform to the provisions of the Act and the rules, regulations and requirements of the Board thereunder.

For further details of the issues involved in this proceeding, interested persons are referred to the applications, the prehearing conference report, and consolidation Order No. E-9092, comprised in the record of this proceeding on file with the Civil Aeronautics Board.

Notice is further given that any person other than a party of record, desiring to be heard in this proceeding must file with the Board on or before May 10, 1955, a statement setting forth the propositions of fact or law which he desires to advance.

Dated at Washington, D. C., April 28, 1955.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. Idaho 03851]

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

Pursuant to a determination of August 12, 1952, of the Federal Power Commission, Docket No. DA-431 Idaho, and in accordance with authority delegated to me by the Director, Bureau of Land Management, by section 2.5 of Order No. 541, dated April 21, 1954 (19 F. R. 2473, 2476), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn or reserved for power purposes, are hereby opened to disposition under applicable public land laws as provided below, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended, subject to the stipulation that if and when the lands, or any part thereof, are required for power development, and structures or improvements placed thereon which shall be found to interfere with such development shall be removed or relocated so as to eliminate such interference without expense to the United States, its permittees or licensees.

BOISE MERIDIAN, IDAHO

T. 59 N., R. 4 W.,
Sec. 6, Exchange Survey No. 822.

The land, which extends along the right bank of the Priest River for a distance of approximately 450 feet, was reserved April 13, 1928, pursuant to the filing of an application for license for proposed water-power project No. 885, which license was terminated April 21, 1936. The land was also involved in the June 6, 1936, application for license for proposed water-power project No. 1379, which license was terminated October 3, 1939, and in the April 9, 1941, application for license for proposed water-power project No. 1854, which application was dismissed January 5, 1945. All three of

the proposed projects would have used a portion of the land for flowage purposes.

The land constitutes 1.98 acres of the 38.50 acres in Lot 8. It is located about .75 mile downstream from the outlet of Priest Lake and approximately 1.25 miles upstream from the proposed dam site of the proposed water-power projects Nos. 885, 1379, and 1854.

This restoration is made in furtherance of an exchange under the act of March 20, 1922 (42 Stat. 465) as amended by the act of February 28, 1925 (43 Stat. 1090), by which the offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II and others.

J. R. PENNY,
State Supervisor.

DEPARTMENT OF COMMERCE

Federal Maritime Board

MEMBER LINES OF PACIFIC INDONESIAN CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 6060–A, between the member lines of the Pacific Indonesian Conference and the carriers comprising the Fern-Ville Far East Lines joint service, covers the admission of the joint service to associate membership in that conference. As associate member, the joint service will be obligated to abide by all the rates, rules, regulations and decisions of the conference; will have no vote in conference affairs, but will be permitted to participate in conference contracts with shippers.

(2) Agreement No. 7997–1, between Naviera Garcia, S. A., Cia. Naviera Cubamar, S. A., and Lykes Bros. Steamship Co., Inc., modifies the West Gulf-Havana Pool Agreement (No. 7997) to include propane gas, butane gas, and carbon black as commodities to be excepted from the pool. Commodities presently excepted from the pool are mail, bulk shipments of wheat, sulphur, and fertilizer.

(3) Agreement No. 8034, between Niagara Lijn N. V., Rederi A. B. Ragne and Rederi A. B. Ferlef, is a cooperative working arrangement which provides that Ragne and Ferlef will each charter one of their vessels to Niagara which Niagara will operate in addition to its own vessels under the trade name Niagara Line between Great Lakes ports of the United States and Canada, the St. Lawrence River, Nova Scotia, Newfoundland and New Brunswick, as Western termini, and ports in the Mediterranean Sea, on the West Coast of Africa, and Continental European ports south of Bordeaux, as Eastern termini. The agreement further provides that Ragne and Ferlef will not operate any vessels as common carriers of cargo or passengers in this trade during the term of the agreement.

(4) Agreement No. 3868–12, between the member lines of the Atlantic and Gulf/Panama Canal Zone, Colon, and Panama City Conference, modifies the basic agreement of that conference (No. 3868) to include within its geographic scope the trade from Colon, Panama City, and Canal Zone, to United States Atlantic and Gulf ports. Agreement No. 3868 presently covers the trade from United States Atlantic and Gulf ports to Colon, Panama City, and Canal Zone.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: April 28, 1955.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

[Project No. 2107]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR AMENDMENT OF PLANS

APRIL 27, 1955.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for amendment of plans for water-power Project No. 2107, located on the North Fork Feather River in Butte County, California, in the vicinity of Quincy and Oroville, to increase the project area and modify the details of the dam at the left abutment and alignment of the tunnel intake. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10), the time within which such petitions must be filed being specified in the rules. The last date upon which protests may be filed is June 3, 1955. The application is on file with the Commission for public inspection.

FEDERAL TRADE COMMISSION

[File No. 21–442]

REFRIGERATION AND AIR-CONDITIONING CONTRACTING INDUSTRY

NOTICE OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference for the Refrigeration and Air-Conditioning Contracting Industry will be held by the Federal Trade Commission in the Press Gallery of the LaSalle Hotel, Chicago, Illinois, on May 20, 1955, commencing at 10 a. m., c. d. t.

All persons, firms, corporations, and organizations engaged in the sale and installation of mechanical refrigeration units and equipment for commercial or industrial use, and/or mechanical air-conditioning units and equipment for commercial, industrial, or home use, are cordially invited to attend and participate in the conference proceedings. "Installation," as used in this paragraph, involves engineering service.

The purpose of the conference is to afford industry members an opportunity to consider and propose for establishment, subject to the Commission's approval, a comprehensive set of trade practice rules for the industry which are designed to eliminate and prevent unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses which are violative of laws administered by the Commission.

After the conference on May 20, and before final rules are approved by the Commission, a draft of proposed rules in the form deemed appropriate will be made available to all interested and affected parties, including consumers, upon public notice affording them opportunity to present their views, criticisms, and suggestions respecting the rules, and to be heard at a public hearing the time and place of which will be announced by the Commission.

Issued: April 28, 1955.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24S-1262]

ALASKA GULF OIL AND GAS DEVELOPMENT, INC.

ORDER VACATING ORDER OF SUSPENSION

APRIL 27, 1955.

Alaska Gulf Oil and Gas Development, Inc. (hereinafter referred to as the "issuer") filed, on March 22, 1954, with the Commission a Notification on Form 1-A and an amendment thereto on April 27, 1954, relating to a proposed public offering of 230,000 shares of its $1 par value common stock at $1 per share for the purpose of obtaining an exemption from the registration provisions of the Securities Act of 1933, as amended, pursuant to section 3 (b) thereof, and Regulation A promulgated thereunder.

The Commission on September 3, 1954 ordered, pursuant to Rule 223 (a) of the general rules and regulations under said act, that the conditional exemption under Regulation A be temporarily suspended on the grounds that the issuer failed to file with the Commission, prior to publication, as required by the provisions of said Regulation A, an advertisement in the Anchorage Daily Times and that said advertisement contained untrue statements of material facts or omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading in the respects described in said order; the order gave notice that, upon receipt of a written request, the matter would be set down for hearing within twenty days after receipt of such request at a place to be designated by the Commission, for the purpose of determining whether said temporary order of suspension should be vacated.

The Commission has been advised that the former president and controlling person of the issuer who was responsible for and caused said advertisement to be published, has divested himself of his entire stock interest in the issuer and is no longer connected with the issuer in any capacity whatsoever except as the owner of a 3 percent overriding royalty interest upon certain leasehold acreage previously assigned by him to the issuer; and that the issuer has urgent need for funds in order to carry out its proposed drilling program.

It appearing to the Commission that a hearing is not necessary or appropriate in the public interest or for the protection of investors and that the basis for said temporary order of suspension, as aforesaid, no longer exists;

It is ordered, Pursuant to Rule 223 (b) of the general rules and regulations under the Securities Act of 1933, as amended, that said temporary order of suspension be, and it hereby is, vacated.

It is further ordered, That this order shall be served upon Alaska Gulf Oil and Gas Development, Inc., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

VOLUME 20 NUMBER 87

Washington, Wednesday, May 4, 1955

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 1]

PART 728—WHEAT

SUBPART—WHEAT MARKETING QUOTAS FOR THE 1955 CROP

MISCELLANEOUS AMENDMENTS

The amendments herein are issued under the wheat marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, for the purpose of (1) publishing the dates in each county or areas within a county by which wheat acreage on a farm must be utilized as wheat cover crop, (2) extending the determination of farm normal yields so as to encompass all requirements of the regulations for such yields, (3) making it clear that the restriction against further review of any determination in connection with a farm marketing quota previously made by a review committee shall not preclude the reopening of the review hearing by the review committee or on behalf of the Secretary, (4) establishing the time within which excess wheat may be delivered to the Secretary, (5) supplying language omitted from § 728.586 (b) relating to records to be kept by buyers, and including the report and penalty receipt, Form MQ-81—Wheat (1955), as part of such records, and (6) correcting a typographical error in § 728.591 dealing with the confidential nature of records.

Farmers in some areas will soon be harvesting their 1955 crop wheat and it is imperative that they be informed of these amendments as soon as possible. Accordingly, it is hereby found that compliance with the notice, procedure, and 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendments herein shall become effective upon filing of this document with the Director, Division of the Federal Register.

1. Section 728.551 (r) is amended by adding at the end thereof the following:

(r) * * * The dates in each county or areas of a county by which the acreage of wheat on the farm must be utilized in the prescribed manner as wheat cover crop are as follows:

ARKANSAS

May 20, 1955: All counties.

CALIFORNIA

May 1, 1955: Fresno, Imperial, Kern, Kings, Madera, Merced, Tulare.

June 1, 1955: Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Glenn, Inyo, Los Angeles, Mariposa, Mona, Nevada, Orange, Placer, Riverside, Sacramento, San Bernardino, San Diego, San Joaquin, Santa Barbara, Solano, Stanislaus, Sutter, Tehama, Tuolumne, Ventura, Yola, Yuba.

June 15, 1955: Alameda, Contra Costa, Del Norte, Humboldt, Lake, Marin, Mendocino, Monterey, Napa, San Benito, San Luis Obispo, San Mateo, Santa Clara, Santa Cruz, Sonoma.

July 15, 1955: Lassen, Modoc, Plumas, Shasta, Sierra, Siskiyou, Trinity.

COLORADO

June 5, 1955: Adams, Arapahoe, Baca, Bent, Boulder, Cheyenne, Crowley, Douglas, Elbert (all land E Range 63W), El Paso, Huerfano, Kiowa, Kit Carson, Lincoln, Logan, Morgan, Otero, Phillips, Prowers, Weld.

June 10, 1955: Washington and Yuma.

June 15, 1955: Jefferson and Sedgwick.

June 20, 1955: Delta, Dolores, Elbert (all land W Range 62W), Fremont, La Plata, Larimer, Las Animas, Mesa, Montezuma, Montrose, Ouray, Pueblo, San Miguel, Yuma.

July 15, 1955: Johnson, Niobrara and Sheridan.

August 1, 1955: Crook and Weston.

2. Section 728.553 (a) is amended to read as follows:

(a) *Farms for which normal yields will be determined.* The Secretary, through the county committee, will determine a normal yield for each farm for which a farm marketing excess is determined for the 1955 crop, for each farm for which a request is made to the county committee by the operator prior to seeding, and for each farm as required for the purposes of the provisions of § 728.582 (h) and (i).

3. Section 728.565 (a) is amended to read as follows:

(a) *Right to review by review committee.* Any producer who is dissatisfied with the farm acreage allotment, normal yield, farm marketing quota, farm marketing excess, or other determination for his farm in connection with marketing quotas may, within 15 calendar days after the notice thereof was mailed to him (except as provided in § 728.661), apply in writing for a review by a review committee of such acreage allotment, normal yield, farm marketing quota, farm marketing excess or other determination in connection therewith: *Provided,* That if a review hearing has been held and determination made by a review committee with respect to the acreage allotment, normal yield, farm marketing quota, farm marketing excess, or other determination in connection therewith, no application by a producer for further review by a review committee with respect to such determination may be filed. Unless application for review is made within such period, the acreage allotment, normal yield, farm marketing quota, farm marketing excess, or other determination, as the case may be, shall be final as to the producers on the farm. Application for review and the review committee proceedings shall be in accordance with the review regulations (Form MQ–51) as issued by the Secretary (Part 711 of this chapter).

4. Section 728.583 is amended by adding a new paragraph (c) as follows:

(c) *Time of delivery.* Excess wheat may be delivered to the Secretary at any time within 60 calendar days after the date on which the harvesting of wheat is normally substantially completed in the county as determined by the State committee in accordance with § 728.561 (a). Excess wheat may be delivered to the Secretary after such 60-day period only if the excess wheat was stored in accordance with the provisions of § 728.582 (a) through (f) and the wheat has not gone out of condition through any fault of the producer.

5. Section 728.586 (b) is amended to read as follows:

(b) *Nature and availability of records.* Each warehouseman, elevator operator, feeder, or processor, and each buyer other than an intermediate buyer, shall keep, as a part of or in addition to the records maintained by him in the conduct of his business, a record which shall show with respect to the wheat purchased, acquired, or received by him from the producers or the intermediate buyers thereof the following information:

(1) The name and address of the producer of the wheat, (2) the date of the transaction, (3) the amount of the wheat, (4) the serial number of the marketing card (MQ–76—Wheat (1955)), or marketing certificate (MQ–94—Wheat (1955)), or intermediate buyer's record and report (MQ–95—Wheat (1955)) by which the wheat was identified, or the report and penalty receipt (MQ–81—Wheat (1955)), and (5) the amount of any lien for the penalty or of any penalty incurred in connection with the wheat purchased, acquired, or received by him. The record so made shall be kept available for examination by the county office manager or any authorized representative of the State Administrative Officer or of the Director, Compliance and Investigation Division, Commodity Stabilization Service, U. S. Department of Agriculture, for two calendar years beyond the calendar year in which the marketing year ends. The records shall be examined only for the purpose of ascertaining the correctness of any report made or record kept pursuant to the regulations in this subpart, or of obtaining the information required to be furnished in any report pursuant to the regulations in this subpart but not so furnished. The county office manager shall furnish without cost, blank copies of MQ–97—Wheat (1955) which may be used for the purpose of keeping the record required under this section.

6. Section 728.591 is amended by substituting "herein" for the word "therein" in the first sentence thereof.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 331–339, 362–368, 372–376, 52 Stat. 38, as amended; 55 Stat. 203, as amended; 7 U. S. C. 1301, 1331–1340, 1362–1368, 1372–1376)

Done at Washington, D. C., this 28th day of April 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 52]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (20 F. R. 2881), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. Subparagraphs (1), (8) and (11), of paragraph (a), relating to California, are amended to read:

(1) NE. ¼ Sec. 25, T. 3 S., R. 3 W., MDBM; E. ½ Sec. 13, T. 3 S., R 3 W., MDBM; Secs. 22 and 24, T. 3 S., R. 2 E., MDBM; and that area included within a boundary beginning at a point on W. line of Plot 4, Rancho El Valle, 10.47 chains N. from N. line Plot 3, Rancho El Valle, thence N. 53° W. 17.95 chains, thence N. 69° 4' E. 6.67 chains, thence N. to County Road, thence SE. 100 feet along SW. line of County Road, thence S. to point of beginning, consisting of 32.98 acres within lots 8–15, in Alameda County.

* * * * *

(8) SE. ¼ of SW. ¼ Sec. 32, T. 1 N., R. 5 W., SBBM; E. ½ of NE. ¼ Sec. 25, T. 3 N., R. 6 W., SBBM; and W. ½ of NE. ¼ Sec. 25, T. 3 N., R. 6 W., SBBM; and SE. ¼ Sec. 31, T. 2 N., R. 9 E., SBBM, in San Bernardino County.

* * * * *

(11) SW. ¼ Sec. 7, T. 3 S., R. 5 W. MDBM; SW. ¼ Sec. 12, T. 3 S., R. 6 W., MDBM; SW. ¼ Sec. 11, T. 3 S., R. 6 N., MDBM; NE. ¼ Sec. 26, T. 3 S., R. 6 W., MDBM; and NW. ¼ Sec. 28, T. 4 S., R. 6 W., MDBM; in San Mateo County.

2. New subdivisions (ix), (x), and (xi) are added to subparagraph (8) of paragraph (d), relating to Gloucester County in New Jersey, to read:

(ix) That part of Deptford Township bounded on the north by Central Avenue, on the east by Delsea Drive, on the west by Cedar Street, and on the south by a line beginning at a point on Delsea Drive 1,100 feet south of Central Avenue running west to Cedar Street, owned and operated by William C. Henry;

(x) That part of Deptford Township bounded by a line beginning at a point on Delsea Drive 58 feet south of Deptford Avenue, running westerly 2,313 feet, thence southerly 241 feet, thence easterly 685 feet, thence southerly 350 feet, thence easterly 330 feet, thence northerly 800 feet, thence easterly 1,160 feet to Delsea Drive, thence northerly on Delsea Drive to point of origin, owned and operated by Lichtman Brothers, Westville, New Jersey;

(xi) That part of Monroe Township south of Corkery Road, west of Bluebell Road, and north and east of Hospitality Branch (Creek).

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in California and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 29th day of April 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 55–3619; Filed, May 3, 1955; 8:54 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 42–1]

PART 42—IRREGULAR AIR CARRIER AND OFF ROUTE RULES

AUTHORITY TO DEVIATE FROM REGULATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 29th day of April 1955.

Currently effective Special Civil Air Regulation SR–385D delegates to the Administrator authority to permit deviations from Part 42 of the Civil Air Regulations to air carriers conducting military contract operations or air carriers conducting emergency operations necessary for the protection of life or

property. This regulation became effective February 1, 1955, and extended the expiration date of SR–385C until May 1, 1955, with respect to Part 42 operations only.

The substance of SR–385D was essentially that proposed by the Bureau of Safety Regulation in a notice of proposed rule-making published in the FEDERAL REGISTER (19 F. R. 8783) and circulated as Civil Air Regulations Draft Release No. 54–26. The latter proposed to continue the basic authority of the Administrator to authorize deviations by incorporating the substance of SR–385C into Part 42 of the Civil Air Regulations, since all waivers granted pursuant to SR–385C and its predecessor regulations had been waivers of only the provisions of Part 42.

The Board was advised during its consideration of the comment received in response to Draft Release No. 54–26 that the military requirements concerning the contract carriage of personnel and goods by civil aircraft were being re-evaluated by the Department of Defense. Since defense requirements have a direct bearing on the question of continuing this deviation authority in the operating parts on a permanent basis, the Board could not make a final determination in this matter until it had received a restatement of defense requirements. Therefore, the Board issued SR–385D as a temporary regulation in order to permit continued operations in accordance with existing deviation authority until a final determination could be made as to the necessity of incorporating the deviation authority into the operating parts on a permanent basis.

The Board has now received the views of the Department of Defense relative to extending indefinitely the authority of the Administrator to grant deviations from the operating rules in Part 42 to air carriers conducting military contract operations. It is the stated desire of the Department of Defense that commercial carriers operating under military contracts should normally conduct their operations in accordance with the requirements of the Civil Air Regulations. However, the Department affirmed in all essential respects the Bureau of Safety Regulation's opinion, expressed in Draft Release No. 54–26, that world conditions are still such that an emergency requiring the immediate participation of the air carriers can develop without notice, and that operational problems also may arise in the conduct of "routine" military contract operations that can be met satisfactorily only by deviations from the normal air carrier regulations.

The Board believes that this deviation authority should be authorized only when the Department of Defense has certified to the Administrator that the operation for which a deviation is requested is essential to the national defense and requires a deviation from Part 42. Upon receipt of such certification, the Administrator may authorize such operation to be conducted subject to any terms and conditions that he considers appropriate in the interest of safety. In addition, it is the Board's view that the need for deviations shall not be based upon economic advantage or convenience to either the operator or the government, or both. These conditions have been incorporated into the amendment contained herein and should allay the fears expressed by interested persons that this authority might result in the unjustifiable lowering of the standard of safety in these operations.

With respect to the authority to deviate in operations under conditions of an emergency necessitating the transportation of persons or supplies for the protection of life or property, the Board envisages this authority being exercised in cases such as the Texas City explosion, Kansas City floods, Hurricane Hazel, etc., where a disaster of national significance has occurred, and where the use of an emergency airlift will be necessary. Since no deviations have been granted under the previous special regulations for such emergency operations, no substantial changes have been made in the provisions covering emergency operations.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment relieves a restriction and imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective May 1, 1955:

By adding a new § 42.2 to read as follows:

§ 42.2 *Deviation authority.* (a) Contrary provisions of this part notwithstanding,

(1) The Administrator may, upon application by an appropriately certificated air carrier conducting, or intending to conduct, operations pursuant to a contract with the military services (primary contractor), or an appropriately certificated air carrier conducting operations for the military services pursuant to a subcontract with a primary contractor, authorize such air carrier to deviate from the applicable provisions of this part, subject to any terms and conditions that the Administrator shall find are necessary in the interests of safety: *Provided,* That the Department of Defense certifies to the Administrator that the subject operation is essential to the national defense and requires the requested deviation: *And provided further,* That the granting of a deviation shall not be based upon an economic advantage or convenience to either the air carrier or the government, or both.

(2) The Administrator may, upon application by an appropriately certificated air carrier, authorize an air carrier proposing to conduct operations under conditions of an emergency necessitating the transportation of persons or supplies for the protection of life or property, to deviate from any provision of this part to the extent that the Administrator finds that a deviation from this part is necessary for the expeditious conduct of such operations.

(b) Any deviation authority granted by the Administrator pursuant to this section shall be limited to those military contract operations certified by the Department of Defense as essential to the national defense, or operations conducted under conditions of an emergency as determined by the Administrator and shall not be applicable to any other type of operation.

(c) The Administrator shall, in any authorization granted pursuant to this section, specify the terms, conditions, and limitations of the authorization for the deviation and each air carrier shall, in the conduct of these operations, comply with such terms, conditions, and limitations.

(d) Grants of deviation authority issued pursuant to this section shall be subject to review by the Board and may be terminated at any time by the Board or the Administrator. The Administrator shall give prompt notice to the Board of any deviation authority issued hereunder.

(e) Authorized deviations now in existence shall be continued in effect in accordance with their terms and conditions until 90 days after the effective date of this amendment, or upon their stated expiration date, whichever shall first occur, unless reissued pursuant to this section.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 112]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, the Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.18, the Valparaiso, Florida, area (R–150 formerly D–150) revised on September 22, 1951, in 16 F. R. 9680, is amended by changing the "Description by Geographical Coordinates" column to read: "Bounded on the Northeast by a straight line between latitude 30°43′45″, longitude 86°10′30″, and latitude 30°41′00″, longitude 86°05′30″; bounded on the east by Restricted (Danger) Area R–183; bounded on the south by Warning Area W–151; bounded on the west by the Eglin AFB Control Area; bounded on the north by Civil Airway Red No. 30."

2. In § 608.18, the Valparaiso, Florida, area (R383 formerly D–383), published on September 22, 1951, in 16 F. R. 9680, is amended by changing the "Description by Geographical Coordinates" column to read: Beginning at latitude 30°33′40″, longitude 86°55′00″; thence north to latitude 30°38′45″, longitude 86°55′00″; thence northeasterly along the L & N Railroad to latitude 30°42′45″; longitude 86°45′45″; thence east to latitude 30°42′50″, longitude 86°35′30″; thence south to latitude 30°20′30″, longitude 86°35′15″; thence westerly and 3 nautical miles from the shoreline to latitude 30°20′15″, longitude 86°48′00″; thence north to latitude 30°25′00″, longitude 86°48′00″; thence westerly along U. S. Highway No. 98 to latitude 30°24′15″, longitude 86°52′00″; thence along the Navarre-Milton Highway to latitude 30°33′40″, longitude 86°55′00″; point of beginning.

3. In § 608–38, the Warren Grove, New Jersey, area (R–26 formerly D–26), amended on May 17, 1951, in 16 F. R. 4607, is further amended by changing the "Using Agency" column to read: "Commander, U. S. Naval Air Bases, Fourth Naval District, Naval Air Station, Atlantic City, New Jersey".

4. In § 608–38, the New Gretna, New Jersey, area (R–27 formerly D–27), published on July 16, 1949 in 14 F. R. 4293, is amended by changing the "Using Agency" column to read: "Commander, U. S. Naval Air Bases, Fourth Naval District, Naval Air Station, Atlantic City, New Jersey".

5. In § 608–38, the Brigantine, New Jersey, area (R–28 formerly D–28), published on September 7, 1951, in 16 F. R. 9070, is amended by changing the "Using Agency" to read: "Commander, U. S. Naval Air Bases, Fourth Naval District, Naval Air Station, Atlantic City, New Jersey".

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on May 5, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55–3577; Filed, May 3, 1955; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53789]

PART 1—CUSTOMS DISTRICTS AND PORTS

REVOCATION OF DESIGNATION OF PORT SAN LUIS, CALIFORNIA, AS PORT OF DOCUMENTATION

Effective 30 days after the date of publication of this notice in the FEDERAL REGISTER, the designation of Port San Luis, California, in the District of Los Angeles, California, as a port of documentation is revoked and the marine records of this port are transferred to the port of Los Angeles, California, which shall become the home port of all vessels whose home Port is San Luis, California, on the date of revocation. To indicate such revocation § 1.1 (c) of the Customs Regulations is amended by deleting the asterisk appearing before the words Port San Luis under the heading Ports of Entry for District No. 27, Los Angeles.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended; 19 U. S. C. 1, 2)

Notice of the proposed revocation of the designation of Port San Luis, California, as a port of documentation was published in the FEDERAL REGISTER of March 8, 1955 (20 F. R. 1379), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). No objections to the issuance of the above revocation were received.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: April 26, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55–3597; Filed, May 3, 1955; 8:49 a. m.]

TITLE 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

Subchapter D—Electrical Equipment, Lamps, Methane Detectors; Tests for Permissibility; Fees

[Bureau of Mines Schedule 9B, Supp. 1]

PART 23—TELEPHONE AND SIGNALING DEVICES

MISCELLANEOUS AMENDMENTS

Part 23 is hereby amended as follows:

1. Section 23.2 (b) is amended by deleting the words "issued only by the Director of" and substituting the word "from."

2. Section 23.2 (d) is amended by rewording as follows:

(d) "Permissible" as used in this part means completely assembled and conforming in every respect with the design formally approved by the Bureau of Mines under this part. (Approvals under this part are given only to equipment for use in gassy and dusty mines.)

3. Section 23.3 (a) is amended by rewording as follows:

(a) *Applications.* Before the Bureau of Mines will undertake the active investigation leading to approval of any telephone or signaling service, the manufacturer shall make application by letter for an investigation leading to approval of his device. This application in duplicate, accompanied by a check, bank draft, or money order, payable to the United States Bureau of Mines, to cover all the necessary fees, shall be sent to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pa., together with the required drawings, one complete telephone or signaling device, and instructions for its operation.

4. Section 23.4 (a) is amended to read as follows:

(a) The fee for the complete investigation of a telephone or signaling device under this part is $95.

5. Section 23.4 (b) is deleted.

6. Section 23.4 (c) is amended by changing (c) to (b); by deleting the words "Item 2"; and by deleting the words "Director of the Bureau" and substituting the words "Central Experiment Station."

7. Section 23.5 (a) is amended by deleting the words "marked 'Attention of the Electrical Engineer'."

8. Section 23.5 (c) is amended by rewording as follows:

(c) *Observers at formal investigations and demonstrations.* No one shall be present during any part of the formal investigation conducted by the Bureau which leads to approval for permissibility except the necessary Government personnel, representatives of the applicant, and such other persons as may be mutually agreed upon by the applicant and the Bureau. Upon granting approval for permissibility, the Bureau will announce that such approval has been granted to the device and may thereafter conduct, from time to time in its discretion, public demonstrations of the tests conducted on the approved device. Those who attend any part of the investigation, or any public demonstration, shall be present solely as observers; the conduct of the investigation and of any public demonstration shall be controlled wholly by the Bureau's personnel. Results of chemical analyses of material and all information contained in the drawings, specifications, and instructions shall be deemed confidential and their disclosure will be appropriately safeguarded by the Bureau.

9. Section 23.5 (f) is amended by deleting the words "the Director of."

10. Section 23.11 is amended by rewording the first sentence to read as follows: "All approvals are granted by official letter from the Bureau of Mines."

11. Section 23.14 (a) is amended by deleting the words "Director of the Bureau of Mines at Washington, D. C.," and substituting the words "Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pa." in the first sentence; also, by revising the second sentence to read as follows: "With this request, he should submit a revised drawing or drawings showing the changes in detail, together with one of each of the parts affected."

12. Section 23.14 (c) is amended by deleting the words "advised through the Director's office" and substituting the words "officially advised by the Bureau of Mines."

(Sec. 5, 36 Stat. 370, as amended, 30 U. S. C. sec. 7. Interpret or apply secs. 2, 3, 36 Stat. 370, as amended, 30 U. S. C. 3, 5)

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

APRIL 28, 1955.

[F. R. Doc. 55–3579; Filed, May 3, 1955; 8:45 a. m.]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

GRAND CANYON NATIONAL PARK

1. Paragraph (f) *Speed* of § 20.4 *Grand Canyon National Park,* is amended to read as follows:

(f) *Speed.* The maximum speed of automobiles and other vehicles, except ambulances and Government cars on emergency trips, shall not exceed the following prescribed limits:

(1) 35 miles per hour on any road, except East Rim Drive, south entrance to junction with East Rim Drive, and north entrance to junction with Cape Royal-Point Imperial spur.

(2) Approaching and at road intersections, entrance stations, and in residential areas, 25 miles per hour, as posted.

(3) In school zone, 15 miles per hour, as posted.

(4) On all curves and grades where so posted, 25 miles per hour.

(5) Trucks of two and one-half tons capacity or over, 35 miles per hour.

(6) Cars towing trailers or other cars or vehicles of any kind, 35 miles per hour.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 9th day of April 1955.

[SEAL] P. P. PATRAW,
Superintendent,
Grand Canyon National Park.

[F. R. Doc. 55-3580; Filed, May 3, 1955; 8:45 a. m.]

PART 20—SPECIAL REGULATIONS

YELLOWSTONE NATIONAL PARK

Paragraph (d) *Boats* of § 20.13 *Yellowstone National Park,* is amended to read as follows:

(d) *Boats*—(1) *Permit.* A permit, issued by the Superintendent, is required for all boats operated upon the waters of the Park. This permit must be carried within the boat at all times when any person is aboard, and shall be exhibited upon request to any person authorized to enforce the regulations in this chapter. A violation of the regulations, or disregard of the conditions outlined, by the permittee or other persons using the boat, will constitute cause for the cancellation of the permit.

(2) *Commercial operation.* No privately owned boat shall be used to carry passengers for hire or be used in any commercial operation.

(3) *Size limitation.* No privately owned boat more than 32 feet in length, and no sail boat of any character, shall be placed or operated upon waters of the park.

(4) *Removal of boats.* All privately owned boats shall be removed from the Park during the period November 1 to April 30, inclusive.

(5) *Boat equipment and requirements.* All boats operated upon Park waters are subject to the following requirements:

(i) All boats operated from sunset to sunrise must display the following lights:

(*a*) Class A (less than 16 feet in length). A clear white light showing all around the horizon and visible for one mile.

(*b*) Class I (16 feet to less than 26 feet in length). Same light requirement as Class A boats.

(*c*) Class II (26 feet to 32 feet in length). Individual running lights, red to port and green to starboard, visible for one mile. A bright white light aft showing all around the horizon and visible for two miles, also a bright white light forward showing from right ahead to two points abaft the beam on both sides and visible for two miles.

(ii) Boats shall carry an approved warning device as follows:

(*a*) Class A boats. No warning device required.

(*b*) Class I boats. A hand, mouth, or power operated whistle or horn, capable of producing a blast for at least two seconds duration and audible for a distance of at least one-half mile.

(*c*) Class II boats. Same requirement as Class I boats except the device shall be capable of producing a blast audible for a distance of at least one mile.

(iii) All boats shall carry an approved life preserver, ring buoy, or buoyant cushion in good and serviceable condition for each person on board. Such devices shall be properly secured and stowed so as to be readily accessible in emergency.

(iv) All boats having built-in or inboard motors shall carry approved fire extinguishers as follows:

(*a*) Class A and Class I boats. One hand operated and portable fire extinguisher. This may be a 1¼ gal. foam, 4 lb. carbon-dioxide, one quart carbontetrachloride or a 4 lb. dry chemical, or larger.

(*b*) Class II boats. One fixed carbon-dioxide system and two hand operated, portable extinguishers of an approved type, such as 2½ gal. foam, 15 gal. carbon-dioxide or 12 lb. dry chemical.

(v) All boats powered with inboard motors which use gasoline as fuel are subject to the following conditions:

(*a*) Carburetors shall be fitted with an approved device which has demonstrated its ability to arrest backfire.

(*b*) In decked over boats, two or more ventilators are required, with cowls or equivalent capable of removing gases from bilges in engine and fuel tank compartments. Bilges must be kept free of oil, gasoline and grease.

(*c*) Drip pans are required on all updraft carburetors. These pans are to be equipped with a fine mesh wire screen cover to prevent the overflow from catching fire.

(*d*) The fuel tank filler pipe must be outside the cabin and cockpit, and so constructed that spillage of gasoline will not flow into the bilge. A vent of not less than ⅜ inch diameter is required from the fuel tank to the outside of the hull and shall be independent of the filler pipe.

(vi) Galley and cabin stoves shall be of such type and installation as approved by the Underwriters Laboratories.

(*a*) Approved types of galley stoves are those which use coal, carcoal, wood, alcohol, fuel oil or kerosene as fuel. Stoves which use gasoline as fuel are prohibited.

(*b*) Where a galley or cabin stove is installed, it shall be firmly attached, insulated from the woodwork, and so located that it does not endanger flammable material.

(vii) General conditions.

(*a*) Fuel lines must be intact with no leaks and must have a shut-off valve installed near the fuel tank in a readily accessible location.

(*b*) Electrical wiring must be in good condition.

(*c*) All boats must carry a bailing bucket on board in addition to whatever bilge pumps or automatic bailing devices with which they may be equipped.

(*d*) All boats 26 feet or less in length shall be equipped with oars and oarlocks, or carry a sweep adequate to propel the boat in case of engine failure.

(6) *Special limits for small boats.* No boat 16 feet or less in length, whether equipped with motor or propelled by oars, shall be operated at a distance of more than ¼ mile from the shoreline of any lake.

(7) *Rules of the road.* The following rules of the road shall be observed:

(i) The operation of boats in such a manner as to endanger life or property is prohibited.

(ii) In narrow channels, boats shall be operated to the right of the middle of the channel.

(iii) When approaching or passing other water craft, speed shall be reduced so that the wake does not endanger the other craft.

(iv) Slow speed shall be maintained in docking and fishing areas so as not to endanger persons or other craft.

(v) Right-of-way shall be given larger craft.

(8) *Registration of trip.* The operator of each boat leaving for an extended trip, including trips of overnight duration, shall register in the book provided for that purpose at one of the following locations:

(i) Fishing Bridge Boat Dock.

(ii) Lake Ranger Station.

(iii) West Thumb Ranger Station.

(iv) Mary Bay registration box.

(v) Lewis Lake Campground registration box. This registration shall include the names of all persons in the boat, a statement of the proposed destination and intended time of return. Upon his return, the operator shall indicate in the registration book the time of his return. If, after an extended trip, a boat is removed from a particular Park water, or is docked at a point other than the place of departure for the trip, the operator shall report at once to the nearest registration point and record in the registration book there provided, the time of his return from the trip, or departure from that particular Park water.

(9) *Sanitation.* No bottles, cans, rubbish or refuse of any kind, including wastes from chemical toilets, shall be thrown from any boat into Park waters, or from docks along the shore, or otherwise placed in the waters of the Park. Water closets, drains, sinks, and other devices which discharge directly into the water, shall be sealed in such a manner as to prevent their use.

(10) *Limitation of boat loads.* No boat shall be operated on any waters of the Park with more than a safe capacity load of passengers or supplies.

(11) *Restricted landing areas.* The landing of boats on either of the islands designated as "Molly Islands" in Yellowstone Lake, or the disturbance in any manner of the birds inhabiting the same or nesting thereon, is prohibited, except upon written permission of the Superintendent.

(12) *Restricted waters.* The operation of any boat, canoe, raft, or other fishing craft on Park streams (as distinguished from lakes) is prohibited, except on

(i) The channel between Lewis Lake and Shoshone Lake.

(ii) The Yellowstone River from the outlet of Yellowstone Lake to a point 300 yards below Fishing Bridge.

This restriction shall not apply to craft operated for administrative purposes or in emergencies.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 8th day of April 1955.

[SEAL] EDMUND B. ROGERS,
Superintendent,
Yellowstone National Park.

[F. R. Doc. 55-3581; Filed, May 3, 1955; 8:46 a. m.]

PART 20—SPECIAL REGULATIONS

MAMMOTH CAVE NATIONAL PARK

Section 20.36 *Mammoth Cave National Park* is amended to read as follows:

§ 20.36 *Mammoth Cave National Park*—(a) *Fishing.* (1) Fishing with pole and line, rod and reel, and trot and throw lines is permitted all year.

(2) Size limit: There shall be no size limit. All fish caught shall be retained.

(3) Creel limit: The following creel limits shall apply:

Black bass	10
Rock bass or goggle-eye	15
Crappie	30
Jack salmon or walleye pike	10
Sauger or sand pike	10
Striped bass	15
Muskellunge	5
Northern pike	5

(4) Use of seines: Seines which do not exceed 6 feet in length and 4 feet in width or height, with mesh not larger than ¼ inch may be used only in the following runs and creeks for procuring minnows and crawfish for bait, except that minnows and crawfish shall not be taken or caught for commercial purposes: Bylew, First, Second, Pine, Buffalo, Big Hollow, Ugly, Cub, Blowing Spring, Floating Mill Branch, Dry Branch and Mill Branch. As used in this subparagraph, the term "minnows" means any fish less than 6 inches in length, except those species mentioned in this subparagraph.

(5) Live bait. Live bait, other than worms, shall not be used in Sloans Crossing, Green or Doyel Ponds.

(6) Worms: Worms or grubs may not be dug in the park.

(7) Bows and arrows: Use of bows and arrows for the purpose of catching fish is prohibited.

(b) *Speed.* (1) Except where otherwise indicated, speed of automobiles and other vehicles, except Government vehicles on official emergency trips, shall not exceed 35 miles per hour on gravel or dirt roads within the park.

(2) At all times vehicles shall be driven at appropriate reduced speeds when approaching and crossing intersections not protected by stop signs, when approaching and rounding curves, when approaching hill crests, when traveling on narrow and winding roads, and where special hazards exist with respect to pedestrians or other traffic, or by reason of weather, roadway or other conditions.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 8th day of April 1955.

[SEAL] PERRY E. BROWN,
Superintendent,
Mammoth Cave National Park.

[F. R. Doc. 55-3582; Filed, May 3, 1955; 8:46 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 55-514; Rules Amdt. 1-74]

PART 1—PRACTICE AND PROCEDURE

APPLICATION FORMS FOR SUBSIDIARY COMMUNICATIONS AUTHORIZATIONS

1. At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955:

2. The Commission has under consideration its Report and Order issued in this proceeding on March 22, 1955 (FCC 55-340), establishing Subsidiary Communications Authorizations (SCA) to permit FM stations to engage in functional music operations and similar activities under certain specified conditions.

3. The new rules noted that an appropriate application form would be designated by the Commission which would be filed by those FM stations desiring to engage in operations pursuant to Subsidiary Communications authorizations. FCC Form 318 has been designated for such use. This form should be used by broadcasters applying for (1) the establishment of an SCA service; (2) modification of an SCA; (3) renewal of an SCA; and (4) assignment or transfer of an SCA. The form has been approved by the Bureau of the Budget.

4. Appropriate changes have been made in Part 1 of the Commission's rules and regulations to reflect the new form.

5. Authority for the adoption of the amendment herein is contained in sections 4 (i), 303 (1) and 303 (b) of the Communications Act, as amended.

6. *It is ordered,* That effective May 2, 1955, FCC Form 318, "Request for Subsidiary Communications Authorization", be adopted.

7. *It is further ordered,* That effective May 2, 1955, § 1.309 of the Commission's rules is amended to read as follows:

§ 1.309 *Special forms.* (a) FCC Form 301-A, "Request for Modification of Broadcast Station Authorization (Remote Control)." For use by existing broadcast licensees or permittees applying for permit to operate a standard or FM broadcast station from a remote control point.

(b) FCC Form 318, "Request For Subsidiary Communications Authorizations." For use by existing FM broadcast licensees applying for permit to establish a SCA service, modification of SCA, renewal of SCA, and assignment and transfer of SCA.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3598; Filed, May 3, 1955; 8:49 a. m.]

[Docket No. 10832; FCC 55-515]

[Rules Amdts. 2-37, 3-41]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 3—RADIO BROADCAST SERVICES

ORDER STAYING EFFECTIVENESS OF NEW RULES

In the matter of Amendment of Parts 2 and 3 of the Commission's rules and regulations and the Standards of Good Engineering Practice Concerning FM Broadcast Stations to permit FM broadcast stations to engage in specified non-broadcast activities on a simplex and/or multiplex basis.

1. The Commission has before it for consideration the petition of WWDC, Inc., filed on April 22, 1955, requesting the Commission to (1) stay the effective date of the Commission's new rules promulgated in the above-entitled proceeding and which are scheduled to become effective on May 2, 1955, or (2) to waive the rules, pending consideration and decision on a petition for reconsideration and modification to be filed by petitioner in this proceeding. On April 26, 1955, Wm. Penn Broadcasting Company, Inc., licensee of Station WPEN-FM, Philadelphia, Pennsylvania, filed a petition supporting the above request of WWDC, Inc.

2. On March 22, 1955, the Commission issued a Report and Order (FCC 55-340) in the above-entitled proceeding amend-

ing its rules and regulations with respect to functional music operations of FM broadcast stations. The new rules are scheduled to become effective on May 2, 1955. By its Report and Order, the Commission amended its rules to permit FM broadcast stations to conduct functional music operations on a multiplex basis without limitation as to time, and to permit FM broadcast stations to engage in functional music operations on a simplex basis during all hours not devoted to the 36 hours per week (at least 5 hours per day) specified for regular FM broadcasting.

3. WWDC, Inc., licensee of Station WWDC–FM, Washington, D. C., filed the subject petition on April 22, 1955, advising that it will file a petition for reconsideration and modification of the Commission's new rules by May 2, 1955, and requesting the Commission (1) to stay the effectiveness of the new rules or (2) to waive them, pending consideration and decision on its forthcoming petition for reconsideration and modification. WWDC, Inc. is presently engaged in widespread functional music activities. In this connection, petitioner notes that in order to meet the requirements of the Commission's new rules, it must either multiplex the programs of Station WWDC–FM or, because of its present commitments with subscribers for background music and drugcasting services, must reduce the number of hours of its functional music operations. WWDC, Inc. submits that multiplexing is not possible at this time because of the unavailability of equipment. And with respect to simplexing, petitioner states that to operate in such manner, it would have to eliminate 27 hours of functional music operations from its current weekly schedule to meet the 36-hour minimum weekly requirement for regular broadcast operation. It is urged that elimination of these 27 hours will increase the station's operating losses and might thereby force the station to leave the air or to change its format to a mere duplication of the programs of its AM station. WWDC, Inc. submits, therefore, that failure to stay the effectiveness of the new rules or to waive them pending consideration of its petition for reconsideration and modification would cause irreparable injury.

4. Wm. Penn Broadcasting Company, Inc. states that it is presently engaging in a functional music operation. Station WPEN–FM operates on a full schedule, with background music furnished various business establishments throughout the entire day. Wm. Penn Broadcasting Company states that it has been unable to secure any firm quotations or firm delivery dates for multiplexing equipment and therefore would be unable to continue its functional music operations on a multiplex basis. And it is stated that it will be unable to continue its present operations on a simplex basis without interrupting the service it is now furnishing subscribers. Wm. Penn therefore urges that the Commission's new rules would cause irreparable damage to WPEN–FM and may necessitate the discontinuance of its background music service. Petitioner states that it is also preparing a petition for reconsideration, and requests that the Commission stay the effectiveness of its action pending consideration and decision upon its petition for reconsideration.

5. The Commission is aware that certain FM broadcasters are presently engaging in functional music operations and have various contractual arrangements with respect to such operations. The Commission believes, therefore, that the public interest would be served by staying the effectiveness of its new functional music rules pending a final determination in this proceeding. We have, therefore, decided to stay the effectiveness of our new rules for a period of 30 days.

6. In view of the foregoing: *It is ordered*, That the effective date of the amendments to the Commission's rules and regulations issued pursuant to its Report and Order (FCC 55–340) in the above-entitled proceeding on March 22, 1955, and which are presently scheduled to become effective on May 2, 1955, is hereby extended to June 1, 1955.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1084; 47 U. S. C. 301, 303, 307)

Adopted: April 27, 1955.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3599; Filed, May 3, 1955; 8:49 a. m.]

[Docket No. 11301; FCC 55–516]

[Rules Amdt. 3–40]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

1. The Commission has before it for consideration its notice of proposed rule making and order to show cause issued in this proceeding on March 10, 1955 (FCC 55–295), and published in the FEDERAL REGISTER on March 16, 1955 (20 F. R. 1587). The notice advised that Springfield Television Broadcasting Corporation, licensee of television Station WWLP on Channel 61 in Springfield, Massachusetts, had filed a petition requesting that the Commission's table of assignments contained in § 3.606 of the rules and regulations be amended so as to substitute Channel 22 for Channel 61 in Springfield. Springfield Television was also ordered to show cause why its outstanding authorization should not be modified to specify operation on Channel 22 in lieu of Channel 61. Petitioner suggested that the above requested change could be accomplished by making the following changes in the table of assignments:

City	Channel No.	
	Delete	Add
Boston, Mass.	50–	38–
Easthampton, Mass.	----	61
Northampton, Mass.	35+	----
Springfield-Holyoke, Mass.	61	22
Providence, R. I.	*22	*36+

2. Comments in support of the proposal and Show Cause Order were filed by petitioner. Oppositions were filed by the Board of Education of the State of Rhode Island, Television and Radio Broadcasting Corporation, and The Hampden-Hampshire Corporation. An opposition to the comments of the Board of Education of Rhode Island was filed by The Eastern Connecticut Broadcasting Company.

3. In support of its request, petitioner urges that it has operated Station WWLP since March 17, 1955; that it has found that the front ends of receivers now on the market are less sensitive on the higher UHF channels than on the lower; that as a result of this condition it is at a competitive disadvantage with other UHF stations in the Connecticut Valley area which are on the lower UHF channels; and that the proposal would conform to the requirements of the rules and would not affect any existing station. With respect to the change in Providence from Channel 22 to Channel 36, petitioner states that these channels are equivalent and that the pendency of an application for Channel 22 at Providence by the Board of Education (BPET-41) should not preclude its requested changes.

4. The Board of Education of the State of Rhode Island opposes the request in so far as it would substitute Channel 36 for Channel 22 in Providence. The Board points out that it is an applicant for Channel 22 for a non-commercial educational station; that it is vitally interested in the utilization of Channel 22 for educational purposes; that it has the support of the general public and the educational institutions for its plans to construct and operate such a station; and that the service which could be rendered on Channel 22 would be greater than that on Channel 36. The Board suggests as a counter-proposal that Channel 22 be retained at Providence and that Channel 42 be assigned to Springfield instead of Channel 61. This proposal would require that Channel 57 be deleted from Norwich, Connecticut. In reply to this opposition, petitioner submits that substantial doubt exists as to whether the State of Rhode Island would authorize the funds necessary for the construction and operation of an educational station in Providence; that Channel 36 proposed to be assigned to Providence is substantially equivalent to Channel 22; and that the pendency of an application with technical and financial deficiencies which was filed some 18 months ago should not prevent WWLP from shifting to a lower UHF channel. With respect to the counter-proposal, petitioner submits that it has little merit since it would delete the sole commercial

assignment from Norwich, a community of 23,429 persons and one which has an authorized educational television station and its own radio station.

5. The Eastern Connecticut Broadcasting Company also opposes the counter-proposal of the Board of Education since it would delete Channel 57, the sole commercial assignment in Norwich. Eastern urges that Norwich is the largest city in Eastern Connecticut with a 1954 population of 37,721 persons; that it is an important industrial, agricultural, educational and trading area; that it is the seat of many governmental activities of New London County with a 1954 population of over 162,000 persons; and that Eastern is interested in bringing a local television service to the area as soon as it is commercially feasible.

6. Television and Radio Broadcasting Corporation opposes the instant request in so far as it substitutes Channel 38 for Channel 50 in Boston. This party states that it has purchased a site near Quincy, Massachusetts, for a station on Channel 50; and the use of Channel 38 would preclude the utilization of this site. It is suggested that it could use Channel 38 at the proposed site if Channel 25 is substituted for Channel 52 in Barnstable, Massachusetts. In reply to this opposition, Springfield urges that Channel 25 can be substituted for Channel 52 in Barnstable in compliance with the Rules and that this would be in the public interest since it would permit the assignment of Channel 22 to Springfield.

7. The Hampden-Hampshire Corporation, permittee of Station WHYN–TV on Channel 55 at Springfield, opposes the instant proposal since it would remove Channel 36 from Northampton and would substitute Channel 61 in Easthampton. WHYN–TV points out that on March 31, 1955, it filed an application to change from Channel 55 to Channel 36 in Easthampton, including a request for a waiver of the studio rule in order that it may continue to use its present studio location in Springfield. WHYN–TV states that the same disadvantages apply to it with respect to operation on a high UHF channel as apply to petitioner.

8. On April 6, 1955, the Commission adopted a Report and Order (FCC 55–433) in which it finalized a show cause order to WKNY–TV presently operating on Channel 61 at Kingston, New York, modifying its authorization so as to permit this station to operate on Channel 21 at Poughkeepsie, New York, at its present transmitter site. The application of Hampden-Hampshire for Channel 36 at Northampton (BMPCT–3009) conflicts with the above change for WKNY–TV in that the transmitters are only 73 miles apart instead of the required 75-mile spacing for assignments 15 channels removed (picture image).

9. In reply to the Hampden-Hampshire opposition and counter-proposal, Springfield submits that the use of Channel 36 by WHYN–TV at its present site is precluded in view of the substandard spacing of 72.6 miles between WHYN–TV and WKNY–TV on Channel 21 at Kingston, the latter assignment having been finalized on April 6, 1955. Petitioner urges that WHYN–TV was afforded an opportunity to comment with respect to the Kingston proposal but failed to do so. Petitioner further points out that it is possible to assign a lower UHF channel to both WWLP and WHYN–TV; it suggests that Channel 40 could be used by the latter at its present site if Channel 57 is substituted for Channel 40 in Montpelier, Vermont, and that this proposal would not affect any existing station. This plan, however, does conflict with Plans I and II of Channel 16 of Rhode Island in the Hartford de-intermixture proceeding (See notice of proposed rule making and order to show cause, FCC 55–409). Springfield argues, however, that both Plans I and II are defective, the former for the reason stated in the Notice of Proposed Rule Making in Footnote 1 and the latter since Channel 47 cannot be assigned to Norwich since Channel 46 is assigned to Fall River, Massachusetts, at a distance of less than the required 55 miles adjacent spacing. Springfield urges that its original proposal and the proposal to assign Channel 40 to Springfield would permit WWLP, WHYN–TV, and WKNY–TV to shift to lower UHF channels, whereas the Hampden-Hampshire proposal to retain Channel 36 at Northampton would preclude the change for both Kingston and Springfield.

10. The Commission is presented with conflicting requests by the two operating UHF television stations in Springfield for lower channels. The first request by WWLP seeks to substitute Channel 22 for Channel 61 in Springfield by making changes in three other communities. The applicant for an educational station on Channel 22 in Providence opposes the WWLP request in so far as it would substitute Channel 36 for Channel 22 as the educational frequency in Providence. And a proposed applicant in Boston opposes the WWLP petition in so far as it would substitute Channel 38 for Channel 50 in Boston since its proposed site could not be utilized on Channel 38. The Commission is of the view, however, that the changes required in Providence and Boston in order to achieve a lower UHF channel in Springfield are warranted. In the first place, the change in Providence from Channel 22 to Channel 36 is not substantial, whereas the change in Springfield from Channel 61 to Channel 22 represents a significant improvement. Furthermore, the change in Springfield would assist an operating UHF station to afford a better service to the public at this time; while the applicant for the educational station in Providence does not appear ready to proceed immediately with the establishment of a television station. Further, the objection of the Boston party may be disposed of by making the change it proposes at Barnstable—switching from Channel 52 to Channel 25.

11. The request of the second UHF station in Springfield, WHYN–TV, conflicts with the above proposal, since it would retain Channel 36 in Northampton while the WWLP proposal would delete this assignment from that community. In addition, the application of WHYN–TV for Channel 36 as well as its rule-making proposal would preclude the change in the Kingston station which the Commission finalized in its Report and Order of April 6, 1955. WWLP has suggested a further change in the table which would provide a lower UHF assignment for the second Springfield station, i. e., that Channel 40 be assigned to Springfield in place of Channel 55 by changing the Montpelier assignment from Channel 40 to Channel 57. In light of this possibility, the Commission believes that the public interest would best be served by finalizing the changes required to substitute Channel 22 for Channel 61 in Springfield at this time and to institute further rule-making proceedings looking toward the assignment of Channel 40 in Springfield to replace Channel 55. Accordingly, we are now finalizing the amendments in the table proposed by Springfield Television Broadcasting Corporation and, at the same time, we are issuing a notice of further proposed rule making with respect to substituting Channel 40 in Springfield to replace Channel 55.

12. The action we are taking herein, substituting Channel 22 for Channel 61 in Springfield, will permit both the Kingston station, WKNY–TV, and one of the Springfield stations, WWLP, to improve their facilities and thus to render a more satisfactory and effective service to the public at the present time. At the same time, we are instituting further rule-making proceedings designed to aid the second operating Springfield station, WHYN–TV, in order that it may also render a more effective service. In taking this action, we are not unmindful of the conflict between the proposal to assign Channel 40 to Springfield and alternative Plans I and II proposed by Channel 16 of Rhode Island in the Hartford de-intermixture rule-making proceeding (Docket No. 11336). However, it is noted that these two Plans as proposed are defective since they do not meet the Commission's minimum mileage separations and, in addition, the petitioner in that case has advanced other alternative methods for accomplishing its stated objective. We do not believe, therefore, that we should withhold the institution of further rule-making proceedings looking toward the assignment of Channel 40 in Springfield.

13. Authority for the adoption of the action herein is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), 307 (b), and 316 of the Communications Act of 1934, as amended.

14. In view of the foregoing: *It is ordered*, That, effective June 2, 1955, the outstanding authorization of Station WWLP is modified to specify operation on Channel 22 in Springfield, Massachusetts, instead of Channel 61, and an appropriate authorization will be issued to Springfield Television Broadcasting Corporation. Data with respect to the operation of WWLP on Channel 22 in Springfield should be submitted to the Commission.

15. *It is further ordered*, That, effective June 2, 1955, the table of assignments contained in § 3.606, rules gov-

erning television broadcast stations is amended, in so far as the cities named are concerned, as follows:

City:	Channel No.
1. Barnstable, Mass.	25+.
Boston, Mass.	*2+, 4−, 5−, 7+, 38, 44+, 56.
Easthampton, Mass.	61.
Springfield-Holyoke, Mass.	22, 55.
Providence, R. I.	10+, 12+, 16, *36+.
2. Delete Northampton, Mass., from the table.	

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1084; 47 U. S. C. 301, 303, 307)

Adopted: April 27, 1955.

Released: April 29, 1955.

[Docket No. 11223; FCC 55-503]

[Rules Amdts. 7-14, 8-20]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

AUTHORIZED CLASSES OF EMISSION

1. The Commission released a notice of proposed rule making on November 26, 1954 in the above-entitled matter proposing to prohibit the use of modulated emission in the coast telegraph band 415 to 490 kc except for brief testing or when transmitting distress, urgency and safety signals or any communications preceded by one of these signals and to prohibit coast and ship telegraph stations (except on survival craft) from using A2, A2a, and A2b classes of emission on the frequencies within the band 2200 to 17000 kc.

2. In accordance with the requirements of section 4 (a) of the Administrative Procedure Act, notice of proposed rule making in this matter, which made provision for the submission of written comments by interested parties, was duly published in the FEDERAL REGISTER on December 2, 1954 (19 F. R. 7973), and the period for the filing of comments has now expired.

3. Two parties filed comments directed to the matter involved in this proposed rule making proceeding. No objections were expressed to the Commission's proposal as such but comments were submitted regarding the scope and timing of the proposal.

4. RMCA urged the Commission to take steps to secure similar action by foreign administrations and by United States government agencies with respect to stations under their jurisdiction. With respect to United States government stations, RMCA cited reports of interference to the reception by ships of the RMCA coast station KPH at Bolinas, California, operating on 8618 kc caused by the transmissions of United States Navy station NHB, Kodiak, Alaska, operating on 8622 kc when using facsimile emission.

5. The American Merchant Marine Institute, Inc. (AMMI), urged that, as a matter of timing, the contemplated action should be deferred:

(1) With respect to the 415–490 kc band until action can be taken as a coordinated Region 2 project, or at least coordinated with Canada and the administrations of the countries within interference range immediately to the south; and

(2) With respect to the 2200–17000 kc band until the proposed action can be taken simultaneously with all other administrations on a world-wide basis.

6. In regard to the 415–490 kc band, information available to the Commission indicates that Canadian authorities are applying similar restrictions to the operation of radio stations at Canadian coast locations. The Commission is initiating appropriate steps which have as their objective the taking of similar action by other neighboring administrations.

7. In regard to the high frequency bands between 2200 and 17000 kc, the Commission is making strong representations to appropriate authorities in foreign countries requesting the cessation of the use of A2 emission by radio stations aboard foreign ships in order to ensure that United States ships may conduct communications on an equal basis with foreign vessels. Action taken domestically and internationally in this matter is based upon a treaty requirement in force among the majority of nations of the world relating to the prohibition of A2 emission in the high frequency maritime mobile bands. Number 752 of the Radio Regulations, Atlantic City, 1947, provides that ship telegraph stations between 4000 and 23000 kc must employ only class A1 emission. Number 75 of the Agreement of the Extraordinary Administrative Radio Conference (Geneva, 1951), provides that coast telegraph stations in the maritime mobile exclusive bands between 4000 and 27500 kc shall not use class A2 emission. Under existing Commission rules coast and ship telegraph stations are not authorized to use class A2 emission on frequencies between 17000 and 25000 kc. The proposal of the Commission is designed to complete the domestic implementation of these international provisions with respect to the high frequency bands below 17000 kc.

8. So far as United States government stations are concerned, it is the Commission's understanding that United States government coast and ship stations are presently observing the restriction regarding the use of A2 emission on high frequencies and can be expected to follow commercial practices in the matter of use of A2 emission in the medium frequency band. With respect to the interference case cited by RMCA, it is pointed out that the prohibition of A2 emission in the high frequency bands does not preclude the use of other types of emission for such purposes as radio printers and other automatic telegraph transmitting systems. Information pertaining to the specific case cited by RMCA shows that the interference occurred because of the order of frequency chosen to carry on the communication for the time and location of the ships involved or insufficient shipboard receiver selectivity.

9. In regard to adjacent channel interference, it should be pointed out that the efficient use of Atlantic City frequencies in the maritime bands will demand a higher order of selectivity in shipboard receiving equipment than that obtaining with receivers designed for use under the old Cairo table of frequency allocations. Improved receivers are available and practicable. It is the opinion of the Commission that industry must look forward to the general use of improved receiving equipment which will be capable of providing the necessary degree of selectivity.

10. In view of the foregoing considerations, the Commission is making final its proposal in this docket by adopting the amendments to Parts 7 and 8 of its rules and regulations as set forth below.

11. *It is ordered,* That, pursuant to section 303 (e) (f) and (r) of the Communications Act of 1934, as amended, effective June 6, 1955, Parts 7 and 8 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Adopted: April 27, 1955.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Part 7 is amended as follows:

1. § 7.132 (a) (1) is amended to read:

(1) Coast stations using telegraphy:

14 to 160 kc.	A1, and for brief testing A0.
160 to 490 kc.	A1, and for brief testing A0; A2,[2] A2a,[2] A2b,[2] for brief testing and distress, urgency and safety signals or any communication preceded by one of these signals.
490 to 515 kc.	A1, A2,[2] A2a,[2] A2b,[2] and for brief testing A0.
2035 to 25000 kc.	A1, and for brief testing A0.

2. Footnote 2 in § 7.132 (a) is amended to read as follows:

[2] Permissible by keying the modulated emission. Keying the modulating audio frequency only, without interruption of the carrier wave, is not permissible. The use of any audio frequency pulse device such as a so-called "chopper" is prohibited.

B. Part 8 is amended as follows:

1. § 8.132 (a) (1) is amended to read:

(1) Ship stations using telegraphy:

100 to 160 kc.	A1 and for brief testing A0.
160 to 515 kc.	A1, A2,[2] A2a,[2] A2b,[2] and for brief testing A0.
2065 to 25000 kc.	A1, and for brief testing A0, except for stations on board survival craft which may use in addition, class A2 emission.[2]

2. Footnote 2 in § 8.132 (a) is amended to read as follows:

[2] Permissible by keying the modulated emission. Keying the modulating audio frequency only, without interruption of the carrier wave is not permissible. The use of any audio frequency pulse device such as a so-called "chopper" is prohibited except for stations of survival craft.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 31]

EMPLOYMENT TAXES; APPLICABLE ON AND AFTER JANUARY 1, 1955

AMENDMENT OF NOTICE OF PROPOSED RULE MAKING

The proposed regulations under sections 3401, (a), 6001, and 6051 of the Internal Revenue Code of 1954 were published with a notice of proposed rule making in the FEDERAL REGISTER for Wednesday, March 30, 1955. This notice provided that consideration would be given to any data, views, or arguments pertaining thereto which were submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication in the FEDERAL REGISTER.

Notice is hereby given that the 30-day period previously allowed is extended by an additional 17 days. Therefore, consideration will be given to any data, views or arguments pertaining to these proposed regulations which are submitted by Monday, May 16, 1955.

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

[F. R. Doc. 55-3623; Filed, May 2, 1955; 12:32 p. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Ch. IX]

[Docket No. AO-275]

HANDLING OF MILK IN SPOKANE, WASHINGTON, MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Federal Court Room, Post Office Building, Spokane, Washington, beginning at 10:00 a. m., P. s. t., May 24, 1955.

Subjects and issues involved in the hearing. The hearing is for the purpose of receiving evidence as to the economic and marketing conditions relating to the handling of milk for the Spokane, Washington, marketing area and to the issuance of a marketing agreement and order to regulate the handling of milk in such marketing area. The proposed marketing agreement and order provisions set forth below have not received the approval of the Secretary of Agriculture. At the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any appropriate modifications thereof.

The hearing on the proposed marketing agreement and order proposals is to determine whether (1) the handling of milk in the area proposed to be regulated is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects interstate or foreign commerce, (2) the issuance of one or more marketing agreements or orders regulating the handling of milk in the proposed area is justified, and (3) the provisions specified in the proposals or some other provisions (including the possible adoption of provisions for the payment to all producers and associations of producers delivering milk to the same handler of uniform prices for all milk delivered by them, commonly known as "individual-handler pools") appropriate to the terms of the Agricultural Marketing Agreement Act, as amended, will best tend to effectuate the declared policy of such act.

Various parties submitted proposals relative to the scope of the marketing area to be covered in the event regulation is made effective. Preliminary investigation of the marketing situation including examination of available information relative to the supply of milk and the distribution of milk throughout the areas involved in the proposals indicates that the intent of the act would best be effectuated by limiting consideration at this time to a marketing agreement and order in which the marketing area would be defined as not greater than all the territory included in proposals 1 (section 6), 2, and 3 below. However, if evidence adduced at the hearing indicates that it would not be feasible to promulgate an order(s) for this more limited area, or that additional territory should properly be included under any proposed order(s), the hearing will be reopened for the purpose of giving further consideration to appropriate extensions of the marketing area as proposed herein.

Proposal No. 1. The following marketing agreement and order has been proposed by the Inland Empire Dairy Association et al.:

DEFINITIONS

SECTION 1. *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

SEC. 2. *Secretary.* "Secretary" means the Secretary of Agriculture, or other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

SEC. 3. *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

SEC. 4. *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

SEC. 5. *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers, duly organized as such under the laws of any State, which includes members who are producers as defined in section 12 and which the Secretary determines, after application by the association:

(a) To be qualified under the standards set forth in the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have its entire organization and all of its activities under the control of its members; and

(c) To be currently engaged in making collective sales of or marketing milk or its products for its members.

SEC. 6. *Inland Empire Marketing Area.* "Inland Empire Marketing Area" (hereinafter called "the marketing area") means all that territory in the states of Washington and Idaho within Districts No. 1 and 2 defined below. As used in this section "territory" shall include all municipal corporations, Federal military reservations, facilities, and installations and state institutions lying wholly or partly within the above described area. "District No. 1" of the marketing area shall include the following territories in Idaho: that portion of Bonner County lying south of Township 60 and west of Range 2 East Boise Meridian, all of Kootenai County except that portion lying east of Range 3 West Boise Meridian and south of Township 53, and that portion of Latah County which is Townships 39 and 40, Range 5 West Boise Meridian, together with the following territories in the State of Washington: Spokane County, that portion of Pend Oreille County lying south of Township 35, that portion of Stevens County lying south of Township 37, that portion of Ferry County lying south of Township 30, those portions of Okanogan County and Douglas County lying south of Township 30 and east of Range 28 East Willamette Meridian, that portion of Grant County lying north of Township 26, all of Lincoln County except that portion lying south of Township 25 and west of Range 34 East Willamette Meridian, all of Adams County except that portion lying west of Range 34 East Willamette Meridian, and all of Whitman County except that portion lying west of Range 44 East Willamette Meridian and south of Township 16 and also except that portion lying south of Township 14. "District No. 2" of the marketing area shall include the following territories in the State of Washington: all of Grant County except that portion lying north of Township 26, that portion of Lincoln County lying south of Township 25 and west of Range

34 East Willamette Meridian and that portion of Adams County lying west of Range 34 East Willamette Meridian and that portion of Chelan and Douglas Counties lying south of Township 23 and east of Range 19 East Willamette Meridian.

SEC. 7. *Plant.* "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment which is maintained and operated primarily for the receiving, handling and processing of milk or milk products.

SEC. 8. *Pool plant.* "Pool plant" means any plant which is approved by any health authority having jurisdiction in the marketing area as a plant for the receiving of milk qualified for consumption as fluid milk within the marketing area and from which Class I milk pursuant to section 41 (a) (1) and (2) is either distributed or forwarded to a plant from which such milk is so distributed: *Provided*, That any plant which otherwise meets the requirements of this section may withdraw from pool plant status for any month in the January–September period, if the operator of the plant files with the market administrator prior to the first day of such month a written request for such withdrawal: *And provided further*, That no plant shall be a pool plant unless the percentage of either butterfat or skim milk in milk so qualified which is received at the plant from dairy farmers and moved in fluid form as milk to a fluid milk plant, or disposed of within the marketing area as Class I milk pursuant to section 41 (a) (1) or (2) is less than:

(a) 50 percent in the current month during the period October through December; or

(b) 20 percent in the current month during the period January through September, except that if the percentage was more than 50 percent for the entire period October through December no percentage shall be required for such month of January through September immediately following.

SEC. 9. *Non-pool plant.* "Non-pool plant" means any plant other than a pool plant.

SEC. 10. *Dairy farmer.* "Dairy farmer" means any person who is engaged in the production of milk.

SEC. 11. *Producer.* "Producer" means any dairy farmer who produces milk of dairy cows under a dairy farm permit or rating issued by an appropriate health authority having jurisdiction in the marketing area, for the production of milk qualified for disposition to consumers in fluid form within the marketing area.

SEC. 12. *Producer milk.* "Producer milk" or "milk received from producers" means milk qualified as described in section 11 and either received directly from a farm at a pool plant or caused to be diverted by a handler for his account from such plant to a non-pool plant.

SEC. 13. *Other source milk.* "Other source milk" means all skim milk and butterfat (including other order milk defined in section 14) other than (a) producer milk, (b) milk and milk products in any of the forms specified in section 41 (a) (1) and (2) received from pool plants.

SEC. 14. *Other order milk.* "Other order milk" means all skim milk and butterfat received in any form by a handler, the handling of which the Secretary determines to be subject to the pricing and payment provisions of any other Federal milk marketing order issued pursuant to the Act for any other milk marketing area.

SEC. 15. *Handler.* "Handler" means:

(a) Any person engaged in the handling of milk in his capacity as the operator of a pool plant or any other plant from which milk in any of the forms specified in section 41 (a) is disposed of to any place or establishment within the marketing area other than a plant, and

(b) Any cooperative association, which is not a handler pursuant to paragraph (a) of this section, with respect to producer milk caused to be diverted for the account of such cooperative association from a pool plant to a non-pool plant.

SEC. 16. *Producer-handler.* "Producer-handler" means any person who is both a dairy farmer and a handler, but who receives no milk from other dairy farmers: *Provided*, That such person provides proof satisfactory to the market administrator that (a) the maintenance, care and management of all the dairy animals and other resources necessary to produce the entire amount of milk handled is the personal enterprise of and at the personal risk of such person in his capacity as a dairy farmer, and (b) the operation of a pool plant is the personal enterprise of and at the personal risk of such person in his capacity as an handler.

SEC. 17. *Base.* "Base" means a quantity of milk, expressed in pounds per day or per month, computed pursuant to section 60 (a) and (b) respectively.

SEC. 18. *Base milk.* "Base milk" means milk delivered by a producer during the month which is not in excess of (a) his daily base computed pursuant to section 60 (a) multiplied by the number of days of delivery in such month, or (b) his base computed pursuant to section 60 (b): *Provided*, That with respect to any producer on "every-other-day" delivery to a pool plant the days of nondelivery shall be considered as days of delivery for the purposes of this section and of section 60 (a).

SEC. 19. *Excess milk.* "Excess milk" means milk delivered by a producer in excess of base milk.

MARKET ADMINISTRATOR

SEC. 20. *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be designated by, and shall be subject to removal at the discretion of the Secretary.

SEC. 21. *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

SEC. 22. *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by section 88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under section 87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to sections 30 to 32, inclusive; or

(2) Made one or more of the payments pursuant to sections 80 to 88, inclusive.

(i) On or before the 10th day after the end of each month, report to each cooperative association (or its duly designated agent) which so requests the class utilization of milk caused to be delivered by such cooperative association directly from farms of producers who are members of such cooperative association to each handler to whom the cooperative association sells milk. For the purpose of this report, the milk caused to be so delivered by such a cooperative association shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class;

(j) On or before the 10th day after the end of each month, notify;

(1) Each handler whose total value of milk is computed pursuant to section 70 (a) of:

(i) The amounts and values of his producer milk in each class and the totals of such amounts and values;

(ii) The amount of any charge made pursuant to section 70 (a) (4);

(iii) The uniform prices for base milk and excess milk;

(iv) The totals of the amounts computed in the manner provided by section 80 (a);

(v) The amount due such handler from the producer-settlement fund or the amount to be paid by such handler to the producer-settlement fund, as the case may be; and

(vi) The totals of the amounts required to be paid by such handler pursuant to sections 87 and 88.

(2) Each handler whose total value of milk is computed pursuant to section 70 (b) of the pounds of other source milk on which payment is required to be made and the amount due the producer-settlement fund from such handler.

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 6th day of each month the minimum price for Class I milk pursuant to section 51 (a) and the Class I butterfat differential pursuant to section 52 (a), both for the current month; and the minimum price for Class II milk pursuant to section 51 (b) and the Class II butterfat differential pursuant to section 52 (b), both for the current month; and

(2) On or before the 10th day of each month, the uniform price(s) computed pursuant to section 71 and the butterfat differential(s) computed pursuant to section 82, both applicable to producer milk received during the preceding month; and

(l) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

SEC. 30. *Monthly reports of receipts and utilization.* On or before the 5th day of each month and in the detail and on forms prescribed by the market administrator, each person who is a handler pursuant to section 15 (a) shall submit to the market administrator a separate report for each of such handler's pool plants and plants where milk or milk products subject to payments required under section 70 (b) were handled, and each cooperative association which is a handler pursuant to section 15 (b) shall submit to the market administrator a report with respect to milk diverted on its account, containing the following information for the preceding month.

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in milk and milk products received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source and other order milk received (except manufactured Class II milk products (1) disposed of in the form in which received without further processing by the handler, or (2) used to produce other Class II milk products).

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including the pounds of skim milk and butterfat on hand at the beginning and end of each month as milk and milk products;

(e) The aggregate quantities of base milk and excess milk received; and

(f) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

SEC. 31. *Payroll reports.* On or before the 17th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the pounds of other source milk on which payment is required to be made and the amount due the producer-settlement fund from such handler.

(a) The total pounds of base milk and the total pounds of excess milk received from each producer, the pounds of butterfat contained in such milk, and the number of days on which milk was delivered by such producer in such month;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

SEC. 32. *Other reports.* At such times and in such manner as the market administrator may prescribe each handler shall report to the market administrator such information in addition to that required under section 30 as may be requested by the market administrator with respect to milk and milk products handled by him.

SEC. 33. *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and summaries thereof and such facilities as are necessary for the market administrator to verify or to establish the correct data with respect to the information required to be reported pursuant to sections 30, 31, and 32 and to payments required to be made pursuant to sections 80 through 88.

SEC. 34. *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8 (c) (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

SEC. 35. *Handler report to producers.* (a) In making payments to producers pursuant to section 80, each handler, on or before the 16th day of each month, shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show for the preceding month (1) the identification of the handler and the producer; (2) the total pounds of milk delivered by the producer and the average butterfat test thereof, the pounds of base and excess milk, and the pounds per shipment if such information is not furnished to the producer each day of delivery; (3) the minimum rate(s) at which payment to the producer is required under the provisions of section 80; (4) the rate per hundredweight and amount of any premiums or payments above the minimum prices provided by the order, together with a description of each such premium; (5) the amount or rate per hundredweight of each deduction claimed by the handler, together with a description of the respective deductions; and (6) the net amount of payment to the producer.

(b) In making payment to a cooperative association in aggregate each handler upon request shall furnish to the cooperative association with respect to each producer for whom such payment is made, any or all of the above information specified in paragraph (a) of this section.

CLASSIFICATION

SEC. 40. *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to section 30 shall be classified by the market administrator pursuant to the provisions of sections 41 through 45, inclusive.

SEC. 41. *Classes of utilization.* Subject to the conditions set forth in sections 42, 43 and 44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in fluid or frozen form as milk, skim milk (including fortified skim milk), skim milk drinks, buttermilk, flavored milk, flavored milk drinks, and cream (sweet or sour), and used in the production of concentrated milk, flavored milk and flavored milk drinks not sterilized (but not including (i) those products commonly known as evaporated milk, condensed milk, and condensed skim milk; (ii) flavored milk or flavored milk drink in hermetically sealed containers; and

(iii) any item named in this subparagraph disposed of pursuant to paragraph (b) (3) of this section), (2) disposed of as any fluid mixture containing cream and milk or skim milk (but not including ice cream and other frozen dessert mixes disposed of to a commercial processor, any mixture disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product, evaporated or condensed products, eggnog and yogurt), (3) contained in monthly inventory variations (4) shrinkage of producer milk in excess of that pursuant to paragraph (b) (4) of this section and shrinkage allocated to receipts from other handlers pursuant to section 42 (b), and (5) not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those included under paragraphs (a) (1), (2) and (c) of this section, (2) disposed of for livestock feed or dumped as skim milk and accurate written records thereof verified under oath by such witnesses as the market administrator may prescribe are submitted to the market administrator before the 6th of the next following month (3) disposed of in bulk in any of the forms specified in paragraph (a) (1) of this section to bakeries, soup companies and candy manufacturing establishments in their capacity as such and to non-pool plants subject to the conditions of section 44 (c) (2), (4) in actual shrinkage of producer milk computed pursuant to section 42 but not in excess of 2 percent of the quantities of skim milk and butterfat, respectively, in producer milk and (5) in actual shrinkage of other source milk computed pursuant to section 42.

(c) Class II A milk shall be all skim milk and butterfat used to produce ice cream, ice cream mix and cottage cheese (and shall be included with Class II for all purposes of this order except as expressly otherwise stated).

SEC. 42. *Shrinkage.* The market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in producer milk and in other source milk in the following manner:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section, among the pounds of producer milk, other source milk, and receipts from handlers: *Provided*, That if milk is transferred from a pool plant to a non-pool plant located on the same premises as the transferor plant, the transfer to the non-pool plant shall be reduced by an amount determined by multiplying the total shrinkage in such non-pool plant by the percentage which the amount so transferred is to the total receipts at such non-pool plant.

SEC. 43. *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first received such skim milk or butterfat proves that such skim milk and butterfat should be classified as Class II milk.

(b) The burden shall rest upon each handler to establish the sources of milk and milk products required to be reported by him pursuant to section 30.

(c) Except as provided in section 44 (c) (1), any skim milk or butterfat classified in one class shall be reclassified if used or reused by any handler in another class.

SEC. 44. *Inter-plant movements.* Skim milk and butterfat transferred as any item specified in section 41 (a) (1) from a pool plant to another plant shall be assigned (separately) to each class in the following manner:

(a) From a pool plant to a pool plant: as Class I milk to the extent Class I milk is available at the transferee plant;

(b) From a pool plant to a non-pool plant. Such a transfer shall be classified as provided below, except that if the market administrator is not permitted to audit the records of a non-pool plant for the purpose of use verification, the entire transfer shall be classified as Class I milk.

(1) As Class I milk, if the transfer is to a non-pool plant which is engaged in the distribution of milk for consumption in fluid form, to the extent that milk is disposed of in such forms from the receiving plant.

(2) As Class II milk, if the transfer is to a non-pool plant which is not engaged in the distribution of milk for consumption in fluid form: *Provided*, That if such non-pool plant disposes of skim milk or butterfat in any of the forms specified in section 41 (a) (1) to any other non-pool plant distributing milk in fluid form, such disposition, up to the quantity of milk transferred to the first non-pool plant, shall be classified as Class I milk.

SEC. 45. *Computation of the quantity of producer milk in each class.* For each handler the market administrator shall:

(a) Correct for mathematical and for other obvious errors the monthly report submitted by such handler and compute the total pounds of skim milk and butterfat in each class: *Provided*, That when nonfat milk solids derived from nonfat dry milk solids, condensed skim milk, or any other product condensed from skim milk, are utilized by such handler to fortify (or as an additive to) fluid milk, flavored milk, skim milk or any other milk product, the then total pounds of skim milk computed for the appropriate class of use shall reflect the actual dry weight of such solids so added, and provided further than when such solids are utilized for disposition in reconstituted form as skim milk or a milk drink the total pounds of skim milk computed for the appropriate class of use shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids.

(b) Allocate skim milk in the following manner:

(1) Subtract from the pounds of skim milk in Class II milk the pounds of skim milk in other source milk received and in overage allocated to other source milk section 70 (a) (5): *Provided*, That if the receipts of skim milk in other source milk plus the overage allocated to other source milk are greater than the pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(2) Subtract from the remaining pounds of skim milk in each class, respectively, the skim milk received from other pool plants and assigned to such class pursuant to section 44;

(3) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk in milk received from producers, subtract such excess (hereinafter referred to as "overage") from the remaining pounds of skim milk in each class beginning with Class II milk.

(c) Allocate butterfat in accordance with the procedure prescribed for skim milk in paragraph (b) of this section.

(d) Add together for each class the quantities of skim milk and butterfat in such class computed pursuant to paragraphs (b) and (c) of this section and compute the weighted average butterfat content of such class.

MINIMUM PRICES

SEC. 50. *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in computing the price per hundredweight of Class I milk for the current month shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section for the preceding month.

(a) Divide by 3.5 and then multiply by 4.0 the average of the basic, or field, prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from dairy farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator from the following formula:

(1) Multiply by 4.8 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month: *Provided*, That, if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 80 cents and round to the nearest cent.

SEC. 52. *Butterfat differentials to handlers.* If the average butterfat content of Class I milk or Class II milk, computed pursuant to section 45, for any handler for any month differs from 4.0 percent, there shall be added to, or subtracted from, the applicable class price (section 51) for each one-tenth of 1 percent that the average butterfat content of such class is respectively above, or below, 4.0 percent, a butterfat differential computed by the market administrator as follows:

(a) *Class I milk.* Multiply by 1.20 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the preceding

month, divide the result by 10, and round to the nearest tenth of a cent.

(b) *Class II milk.* Multiply by 1.10 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the preceding month, divide the result by 10, and round to the nearest tenth of a cent.

SEC. 53. *Location adjustment to handlers.* If milk is received from producers at a pool plant located more than 100 miles from the Spokane City Hall, the Class I price for such milk shall be one cent less per hundredweight for each ten miles or fraction thereof that such plant is from the Spokane City Hall by the shortest highway distance as determined by the market administrator.

DETERMINATION OF BASE

SEC. 60. *Computation of producer bases.* Subject to the rules set forth in section 61, the market administrator shall determine bases for producers in the manner provided in paragraphs (a) and (b) of this section:

(a) The daily base of each producer shall be a quantity computed by dividing such producer's total pounds of milk delivered to a handler in the five lowest months of his production in any calendar year by the total number of days in the said five months: *Provided*, That with respect to any producer on "every-other-day" delivery the days of non-delivery intervening days of delivery shall be considered as days of delivery for the purpose of ascertaining whether delivery was made. The base so computed, which shall be recomputed each year, shall become effective on the first day of March next following and shall remain in effect through the month of February of the next succeeding year.

(b) Any producer who is not eligible to receive a base computed pursuant to paragraph (a) of this section, shall have a monthly base computed by multiplying his deliveries to a handler(s) during the month by the appropriate monthly percentage in the following table:

January	65	July	60
February	60	August	65
March	55	September	70
April	55	October	70
May	45	November	80
June	50	December	75

SEC. 61. *Base rules.* The following rules shall be observed in determination of bases:

(a) A base may be transferred upon written notice to the market administrator on or before the last day of the month of transfer, but only if a producer sells, leases, or otherwise conveys his herd to another producer and it is established to the satisfaction of the market administrator that the conveyance of the herd was bona fide and not for the purpose of evading any provision of this subpart.

(b) A producer who ceases deliveries to a pool plant for more than 45 days shall lose his base if computed pursuant to section 60 (a) and if he resumes deliveries to such a plant he shall be paid on a base determined pursuant to section 60 (b) until he can establish a new base under section 60 (a) to begin the next March 1.

(c) By notifying the market administrator in writing on or before the 15th day of any month, a producer holding a base established pursuant to section 60 (a) may relinquish such base by cancellation, and effective from the first day of the month in which notice is received by the market administrator until the next March 1 such producer's base shall be computed in the manner provided by section 60 (b).

(d) As soon as bases computed by the market administrator are allotted, notice of the amount of each producer's base shall be given by the market administrator to the handler receiving such producer's milk and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promptly post in a conspicuous place at each of his plants a list or lists showing the base of each producer whose milk is received at such plant.

(e) If a producer operates more than one farm, he shall establish a separate base with respect to producer milk delivered from each such farm.

(f) Only producers as defined in section 11 may establish or earn a base pursuant to the provisions of section 60, and only one base shall be allotted with respect to milk produced by one or more persons where the land, buildings, and equipment used are jointly owned or operated.

DETERMINATION OF UNIFORM PRICE

SEC. 70. *Computation of value of milk.* (a) Except as provided in paragraph (b) of this section, the total value of milk received during any month at each plant by each handler including a cooperative association, shall be a sum of money computed by the market administrator as follows:

(1) Multiply the pounds of producer milk in each class for such month by the class price (section 51) and add together the resulting amounts;

(2) Deduct the total amount of all location adjustment credits computed in accordance with section 53;

(3) Add or subtract, as the case may be, the amount necessary to correct errors as disclosed by the verification of reports of such handler of his receipts and utilization of skim milk and butterfat in previous months for which payment has not been made;

(4) Add, if such handler had overage, an amount computed by multiplying the pounds of such overage (except overage prorated to other source milk) deducted from each class pursuant to section 45 by the applicable class price: *Provided*, That if (i) overage results in a pool plant having receipts of other source milk, the total overage shall be prorated between other source milk and all other receipts, and (ii) overage results in a non-pool plant located on the same premises as a pool plant, such overage shall be prorated between the quantity transferred from the pool plant and other source milk in such non-pool plant, and the transferor handler shall be charged at the applicable class price for the amount

of overage allocated to the transferred quantity;

(5) Add, with respect to other source milk (including overage allocated to other source milk but excluding other order milk) received at each pool plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant, an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in section 52 (based on the butterfat test of such other source milk).

(b) The value of milk of each handler at any plant where only other source milk was received and from which, during the month, some other source milk was disposed of within the marketing area as Class I milk pursuant to section 41 (a) (1) shall be a sum of money computed by the market administrator by multiplying the hundredweight of such other source milk (exclusive of other order milk) so disposed of by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in section 52 (based on the butterfat test of such other source milk).

SEC. 71. *Computation of uniform price.* For each month the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk received from producers as follows:

(a) Combine into one total the values computed pursuant to section 70 for all handlers who made the reports prescribed in section 30 and who made the payments pursuant to section 84 for the preceding month;

(b) Add the aggregate of values of the location adjustments on base milk allowable pursuant to section 81;

(c) Add an amount representing not less than one-half the unobligated cash balance in the producer-settlement fund;

(d) Subtract, if the average butterfat content of the milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to section 82 and multiplying the resulting figure by the total hundredweight of such milk;

(e) Multiply the hundredweight of excess milk by the Class II price for 4.0 percent milk;

(f) Compute the total value of base milk by subtracting the amount computed pursuant to paragraph (e) of this section from the net amount computed pursuant to paragraph (d) of this section: *Provided*, That if such result is greater than an amount computed by multiplying the hundredweight of base milk by the Class I milk price (for 4.0 percent milk) plus 4 cents such amount in excess thereof shall be subtracted from the result obtained prior to this proviso;

(g) Divide the net amount obtained in paragraph (f) of this section by the total hundredweight of base milk and subtract not less than 4 cents but less than 5 cents. This result shall be known as the uniform price per hundredweight of base milk of 4.0 percent butterfat content; and

(h) Divide the amount obtained in paragraph (e) of this section plus any amount subtracted pursuant to the proviso of paragraph (f) of this section by the hundredweight of excess milk. This result shall be known as the uniform price per hundredweight of excess milk of 4.0 percent butterfat content.

PAYMENTS

SEC. 80. *Time and method of payment to producers and to cooperative associations.* (a) On or before the 16th day after the end of each month, each handler, including a cooperative association which is a handler, shall make payment to each producer, for milk received at his plant from such producer during such month pursuant to subparagraphs (1) and (2) of this paragraph: *Provided*, That such payment shall be made, upon request, to a cooperative association, or to its duly authorized agent, qualified under section 5 with respect to milk received from each producer who has given such association authorization by contract or by other written instrument to collect the proceeds from the sale of his milk, and any payment made pursuant to this proviso shall be made on or before the 13th day after the end of such month: *And provided further*, That, if by such date such handler has not received full payment for such month pursuant to section 85, he shall not be deemed to be in violation of this paragraph if he reduces uniformly for all producers his payments per hundredweight pursuant to this paragraph by a total amount not in excess of the reduction in payment from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator:

(1) At not less than the uniform price for base milk for the quantity of base milk received, adjusted by the butterfat differential computed pursuant to section 82.

(2) At not less than the uniform price for excess milk for the quantity of excess milk received, adjusted by the butterfat differential computed pursuant to section 82.

(b) On or before the 17th day after the end of each month each handler shall pay to each cooperative association which operates a pool plant for skim milk and butterfat received from such cooperative association during such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to section 41) by the class price.

(c) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c (5) (F) of the act from making payment for milk to its producers in accordance with such provision of the act.

SEC. 81. *Location adjustment to producers.* In making payment to producers pursuant to section 80 for milk received at a pool plant located more than 100 miles from the Spokane City Hall, the price per hundredweight for base milk shall be reduced one cent for each ten miles or fraction thereof that such plant is from the Spokane City Hall by the shortest highway distance as determined by the market administrator.

SEC. 82. *Producer butterfat differential.* In making payments pursuant to section 80 (a) for base milk and for excess milk, there shall be added to, or subtracted from, the uniform prices thereof for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, butterfat differentials computed by the market administrator as follows:

(a) The butterfat differential for base milk shall be computed by multiplying the butterfat differential for Class I milk by the percentage of the butterfat contained in base milk that is allocated to Class I, and by multiplying the remaining percentage of butterfat within base milk by the butterfat differential for Class II milk, adding together the resulting amounts, and rounding to the nearest tenth of a cent.

(b) The butterfat differential for excess milk shall be the same as the butterfat differential for Class II milk.

SEC. 83. *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to section 84 and out of which he shall make all payments to handlers pursuant to section 85.

SEC. 84. *Payments to the producer-settlement fund.* On or before the 12th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the total value of such handler's milk as determined pursuant to section 70 is greater than the value of such handler's producer milk computed at the minimum uniform prices as specified in section 80 (a).

SEC. 85. *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the total value of such handler's milk as determined pursuant to section 70 is less than the value of such handler's producer milk computed at the minimum uniform prices as specified in section 80 (a), and less any unpaid obligations of such handler to the market administrator pursuant to sections 84, 86, 87 and 88: *Provided*, That, if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

SEC. 86. *Adjustments of accounts.* Whenever verification by the market administrator of reports or payments of any handler discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred following the 5th day after such notice.

SEC. 87. *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to section 80 (a), shall make a deduction of 5 cents per hundredweight of milk, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association;

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association; and

(3) All milk received at a plant operated by a cooperative association(s) from producers who are members thereof but for whom any of the services set forth below in this paragraph are not being performed by such association(s), as determined by the market administrator.

Such deduction shall be paid by the handler to the market administrator on or before the 12th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer (1) who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deduction therefor to, a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct, in lieu of the deduction specified under paragraph (a) of this section, from the payments made pursuant to section 80 (a) the amount per hundredweight on milk authorized by such producer and shall pay over, on or before the 15th day after the end of the month, such deduction to the association entitled to receive it under this paragraph.

SEC. 88. *Expense of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 12th day after the end of each month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within such month of (a) other source milk classified as Class I milk, and (b) milk received from producers, including such handler's own production.

SEC. 89. *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last-known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claims was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

SEC. 90. *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to section 91.

SEC. 91. *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

SEC. 92. *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

SEC. 93. *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instruments necessary or appropriate to effecuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expense of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

SEC. 100. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

SEC. 101. *Separability of provisions.* If any provision of this subpart, or its

application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances, shall not be affected thereby.

Proposal No. 2. (Proposed by Milky Way Dairy):

The marketing area as proposed by Inland Empire Dairy Association et al. be enlarged to include Asotin County, Washington and Nez Perce County, Idaho.

Proposal No. 3. (Proposed by Arden Farms Company):

The marketing area defined in the proposed order by the Inland Empire Dairy Association et al. should be amended as follows:

(1) That District No. 2 be enlarged to include all of Chelan and Douglas Counties and that part of Okanogan County lying south of Township 31, all in the State of Washington.

(2) That District No. 1 be enlarged to include all of Latah County, Idaho.

Proposal No. 4. (Proposed by Morning Sun Dairy, Inc.):

Provide in the transfer provisions that milk be classified as Class II milk if the transfer is to be a non-pool plant located in the marketing area and such plant is not engaged in the distribution of bottled milk but manufactures, processes, sterilizes and cans said milk in hermetically sealed cans.

Copies of this notice of hearing may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: April 29, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

Commodity Stabilization Service

[7 CFR Parts 723, 725, 726]

CIGAR-FILLER TOBACCO AND CIGAR-FILLER AND BINDER TOBACCO; BURLEY AND FLUE-CURED TOBACCO; FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

MARKETING, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS, 1955-56 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1311-1315, 1372-1375), the Secretary of Agriculture is preparing to formulate marketing quota regulations covering the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the records and reports incident thereto on the marketing of cigar-filler and binder, Burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1955-56 marketing year.

The Secretary is considering the issuance of regulations for the 1955-56 marketing year substantially the same as those issued for the 1954-55 marketing year (19 F. R. 4127, Cigar-filler and binder; 19 F. R. 3143, Burley and flue-cured; 19 F. R. 4052 Fire-cured, dark air-cured, and Virginia sun-cured) except for changes and additional provisions as follows:

(1) The rule of fractions applicable to the harvested acreage of tobacco on a farm would be changed to provide that the harvested acreage for 1955 will be expressed in hundredths of acres dropping all fractions of less than one hundredth of an acre.

(2) The provision for placing excess tobacco in storage under bond as a method by which the farm operator may dispose of excess tobacco so as to avoid the payment of penalty would be eliminated. This would not affect the provision of the regulations relating to carry-over tobacco or the provision for marketing penalty-free an amount of tobacco placed under storage for a prior marketing year equal to the amount, as determined under the regulations, by which the harvested acreage is less than the acreage allotment for a subsequent marketing year.

(3) An additional provision would be included that all acreage of tobacco on any farm in an area normally growing tobacco subject to marketing quotas will be considered a kind of tobacco subject to marketing quotas until such time as the county committee is furnished satisfactory proof that the tobacco is not subject to marketing quotas. The effect of this provision would be to prevent the production and marketing of alleged non-quota kinds of tobacco in quota tobacco producing and marketing areas.

(4) Additional provisions would be included which would require the issuance of "zero percent" excess marketing cards as follows:

(a) A "zero percent" excess marketing card would be issued for each kind of tobacco on a farm if all the following conditions exist with respect to the farm: (i) The acreage of any kind of tobacco is determined to be in excess of the farm acreage allotment therefor; (ii) the excess tobacco is disposed of prior to the marketing of any tobacco from the farm; and (iii) no written request to dispose of excess tobacco (with a deposit to cover the estimated cost) is filed with the County ASC Office within seven (7) days from the date of mailing to the farm operator of a notice of the excess acreage. The effect of this provision would be to deny government price support loans on all tobacco produced on a farm unless the grower files a written request to dispose of his excess tobacco in time to permit the county committee to arrange for witnessing such disposition prior to the marketing of any tobacco from the farm.

(b) A "zero percent" excess marketing card would be issued for each kind of tobacco on a farm for which the acreage is determined to be within the farm acreage allotment if the acreage of any kind of tobacco produced on the farm is determined to be in excess of the farm acreage allotment and the excess of such kind of tobacco is not disposed of prior to marketing any tobacco from the farm. The effect of this provision would be to deny government price support loans on all tobacco produced on a farm if the harvested acreage of any kind of tobacco produced on the farm is in excess of the farm acreage allotment and the excess tobacco is not disposed of prior to marketing any tobacco from the farm.

(5) An additional section would be added to provide specifically for serial number identification of farms.

(6) An additional section would be added prescribing specifically the duties of county committeemen and producers in determining the acreage of tobacco on each farm and prescribing the duty of the farm operator or his representative to report all fields of tobacco on the farm.

(7) An additional section would be added which would serve to clarify the producer's liability for penalty due on the basis of a redetermination of the acreage of tobacco by the county committee after part or all the tobacco produced on the farm has been marketed.

Prior to the final adoption and issuance of such regulations, consideration will be given to any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than ten days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 28th day of April 1955.

[SEAL] EARL M. HUGHES,
Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Part 20]

ISSUANCE OF STUDENT GLIDER PILOT CERTIFICATES TO PERSONS THIRTEEN YEARS OF AGE RECEIVING INSTRUCTION AT THE MISSISSIPPI STATE COLLEGE GLIDER CLUB

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the issuance of a Special Civil Air Regulation to extend the authority contained in Special Civil Air Regulation No. SR-404 as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by May 16, 1955. Copies of such communications will be available after May 18, 1955, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The Mississippi State College, by letter of Mr. August Raspet, Head of the Aerophysics Department, has requested an extension of currently effective Special Civil Air Regulation No. SR-404, which permits the issuance of student glider pilot certificates to persons thirteen years of age who are to receive glider training at the Mississippi State College Glider Club. This regulation became effective May 19, 1954, and terminates May 18, 1955.

The Mississippi State College Glider Club, an organized extra curricular activity at Mississippi State College, has a definite glider training syllabus, a glider instructor who has a commercial glider rating, and a single place glider for training. All students are trained under the personal supervision of the instructor and complete records are kept of all flights.

As part of their training program, the club has been investigating the potential of glider training as a means of indoctrinating young persons into the broad medium of flight. In order to carry out this project the club requested the authority granted by SR-404, since it was considered desirable that high school students, many of whom are thirteen years of age, be able to participate. The Board concurred, and in adopting SR-404 indicated that the knowledge gained through such a program would be beneficial in the future formulation and revision of Civil Air Regulations.

During the period that SR-404 has been in effect, only one student thirteen years of age received glider training under the program conducted by the Mississippi State College Glider Club. This is not a sufficient sampling to be of use to the Board. However, Mr. Raspet has requested that SR-404 be extended for the reason that he foresees an increase in the enrollment of thirteen-year-old students in the Spring of 1955. The Bureau of Safety Regulation believes that, if such an increase in enrollment does occur, the knowledge gained through such a program will be of value in formulating Board policy concerning airman requirements of the Civil Air Regulations. Since the Bureau plans to publish a proposed revision of Part 20 of the Civil Air Regulations for comment in the near future, it appears desirable to extend the provisions of SR-404.

In view of the foregoing, notice is hereby given that it is proposed to promulgate a Special Civil Air Regulation to read as follows:

Contrary provisions of the Civil Air Regulations notwithstanding, the Administrator may issue or authorize the issuance of a student glider pilot certificate to a person thirteen years of age who is to receive glider training at the Mississippi State College Glider Club: *Provided*, (1) That the training shall be conducted under the personal supervision of a holder of a commercial glider rating or flight instructor rating for gliders and (2) That the certificate shall bear the following limitation on its face, "Valid only for receiving glider instruction given by the Mississippi State College Glider Club."

This regulation shall supersede Special Civil Air Regulation No. SR-404 and, unless sooner superseded or rescinded by the Board, shall terminate on May 18, 1956.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended, and may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., April 28, 1955.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

[F. R. Doc. 55-3622; Filed, May 3, 1955; 8:54 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11301; FCC 55-517]

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

NOTICE OF FURTHER PROPOSED RULE MAKING AND ORDER TO SHOW CAUSE

1. Notice is hereby given that the Commission has received a further proposal in this proceeding to amend the television table of assignments contained in § 3.606 of the Commission's rules and regulations so as to assign Channel 40 to Springfield, Massachusetts, in place of Channel 55, as follows:

City	Channel No.	
	Delete	Add
Springfield-Holyoke, Mass.	55	40
Montpelier, Vt.	40	57

2. The Commission is of the view that the public interest would be served by instituting further rule-making proceedings to consider the above proposal looking toward the substitution of a lower UHF channel in Springfield for an operating television station.

3. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before June 2, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider such comments before taking final action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

4. Since the Hampden-Hampshire Corporation is presently operating Station WHYN-TV on Channel 55 at Springfield and the rule making proposed herein would require this station to operate on Channel 40, the Hampden-Hampshire Corporation is ordered to show cause why its outstanding authorization should not be modified to specify operation on Channel 40 in lieu of Channel 55. A reply in writing to the aforesaid order to show cause should be filed on or before the same date for filing comments in the proceeding.

5. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: April 27, 1955.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary,

[F. R. Doc. 55-3602; Filed, May 3, 1955; 8:50 a. m.]

[47 CFR Part 3]

[Docket No. 11333; FCC 55-519]

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

ORDER EXTENDING TIME FOR FILING COMMENTS

1. At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

2. The Commission has before it for consideration the joint petition of West Central Broadcasting Company and Hilltop Broadcasting Company requesting the Commission to extend the time for filing comments in the above-entitled proceeding for a period of 30 days; and the oppositions to this petition filed by WMBD, Inc., and WIRL Television Co.

3. On March 31, 1955, the Commission instituted the subject rule-making proceeding to consider the de-intermixture of commercial VHF and UHF television channels in the Peoria, Illinois, area. The time for filing comments in this proceeding presently expires on May 2, 1955. West Central Broadcasting Company and Hilltop Broadcasting Company request that the Commission extend the time for filing comments for a period of 30 days. WMBD, Inc., and WIRL Television Co., applicants for Channel 8 in Peoria, have filed oppositions, urging

that the Commission should deny the requested extension of time.

4. Upon consideration of the pleadings filed with respect to this matter, the Commission believes that the public interest, convenience and necessity would be served by extending the time for filing comments in this proceeding for a period of 15 days.

5. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended to May 17, 1955, with replies thereto due 10 days thereafter.

Released: April 29, 1955.

By direction of the Commission.

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55-3603; Filed, May 3, 1955; 8:50 a. m.]

[47 CFR Part 3]

[Docket No. 11334; FCC 55-520]

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

ORDER EXTENDING TIME FOR FILING COMMENTS

1. At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

2. The Commission has under consideration the petition of Owensboro on the Air, Inc., Owensboro Publishing Company, Evansville TV, Inc., and On the Air, Inc., requesting the Commission to extend the time for filing comments in the above-entitled proceeding from May 2, 1955, to June 1, 1955.

3. On March 31, 1955, the Commission instituted the subject rule-making proceeding to consider the de-intermixture of VHF and UHF commercial television channels in the Evansville and Hatfield, Indiana, area. The time for filing comments in the proceeding was specified as May 2, 1955, with replies thereto due 10 days thereafter. The subject petition requests that the Commission extend the time for filing comments for a period of 30 days to June 1, 1955. Petitioners state that Premier Television, Inc., and Ohio Valley Television Co., parties to this proceeding, have consented to the request.

4. Upon consideration of the foregoing petition, the Commission has determined that the public interest, convenience and necessity would be served by extending the time for filing comments in this proceeding for a period of 15 days.

5. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended from May 2, 1955, to May 17, 1955, with replies thereto due 10 days thereafter.

Released: April 29, 1955.

By Direction of the Commission.

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55-3604; Filed, May 3, 1955; 8:50 a. m.]

[47 CFR Part 3]

[Docket No. 11335; FCC 55-522]

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

ORDER EXTENDING TIME FOR FILING COMMENTS

1. At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

2. The Commission has before it for consideration the petition of Bartell Television Corporation and Monona Broadcasting Company requesting the Commission to extend the time for filing comments in the above-entitled proceeding for a period of 30 days to June 1, 1955; and the Opposition of Radio Wisconsin, Inc.

3. On March 31, 1955, the Commission instituted the subject rule-making proceeding to consider the de-intermixture of VHF and UHF commercial television channels in the Madison, Wisconsin, and Rockford, Illinois, area. The time for filing comments in this proceeding was specified as May 2, 1955, with replies thereto 10 days thereafter. Bartell Television Corporation and Monona Broadcasting Company request that the Commission extend the time for filing such comments for a period of 30 days to June 1, 1955. Radio Wisconsin, Inc., one of the applicants for Channel 3 at Madison, opposes this request.

4. Upon consideration of the pleadings filed in this proceeding, the Commission has determined that the public interest, convenience and necessity would be served by extending the time for filing comments for a period of 15 days.

5. It should also be noted that Winnebago Television Corporation has submitted an amended proposal in this proceeding requesting that the Commission amend the table of assignments as follows:

City	Present channel assignments	Proposed channel assignments
Rockford, Ill	13, 39, *45	13, *45
Orangeville, Ill		3
Madison, Wis	3, *21, 27, 33	*21, 27, 33, 39
Fond du Lac, Wis	54	68

Winnebago Television Corporation under this amended proposal would be required to operate on Channel 3 at Orangeville, Illinois, in lieu of Channel 39 at Rockford, Illinois. Winnebago Television Corporation also notes that in its Plan II advanced earlier in this proceeding, Greater Rockford Television, Inc. (WREX-TV) on Channel 13 at Rockford, Illinois, would be required to change to Channel 51.

6. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended from May 2, 1955, to May 17, 1955, with replies thereto due 10 days thereafter.

Released: April 29, 1955.

By Direction of the Commission.

[Docket No. 11336; FCC 55-521]

TABLE OF ASSIGNMENTS; TELEVISION BROADCAST STATIONS

ORDER EXTENDING TIME FOR FILING COMMENTS

1. At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

2. The Commission has before it for consideration the petition of Channel 16 of Rhode Island, Inc., and Eastern Connecticut Broadcasting Company requesting the Commission to extend the time for filing comments in the above-entitled proceeding from May 2, 1955, to May 23, 1955.

3. On March 31, 1955, the Commission instituted the subject rule-making proceeding to consider the de-intermixture of commercial VHF and UHF television channels in the Hartford, Connecticut, area. The time for filing comments in this proceeding was specified as May 2, 1955, with replies thereto due 10 days thereafter. Petitioners now request that we extend the time for filing comments in this proceeding to May 23, 1955. Petitioners state that General Times Television Corp., New Britain Broadcasting Co., Hampden-Hampshire Corp., and Springfield Television Broadcasting Corporation have consented to the relief requested.

4. Upon consideration of the petition, the Commission has concluded that the public interest, convenience and necessity would be served by extending the time for filing comments for a period of 15 days.

5. It should also be noted that Eastern Connecticut Broadcasting Company has filed an additional proposal in this proceeding requesting that the Commission amend its television channel assignments as follows:

PLAN A

City	Add	Delete
Norwich, Conn	3	57
Hartford, Conn	76	3
Northampton, Mass	82	26
Amherst, Mass	42	82

PLAN B

Norwich, Conn	3	57
Hartford, Conn	59	3
New Haven, Conn.[1]	75	59
Patchogue, N. Y	54	75

PLAN C

Norwich, Conn	3	57
Hartford, Conn.[2]	*76, 24	*24, 3
Northampton, Mass	82	26
Amherst, Mass	42	82

[1] Plan B will require Connecticut Radio Foundation, Inc. (WELL-TV), holder of permit for Channel 59, to shift to Channel 75.

[2] Plan C will require Connecticut State Board of Education (WEDH), holder of permit for Channel 24, to shift to Channel 76.

The foregoing proposal should also be considered in this proceeding.

6. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended from May 2, 1955, to May 17, 1955, with replies thereto due 10 days thereafter.

Released: April 29, 1955.

By Direction of the Commission.

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55-3606; Filed, May 3, 1955; 8:50 a. m.]

[47 CFR Parts 7, 8]

[Docket No. 11374; FCC 55-505]

SHIP AND COAST STATIONS USING RADIOTELEPHONY

MISSISSIPPI RIVER AND CONNECTING INLAND WATERS (EXCEPT GREAT LAKES)

In the matter of amendment of Parts 7 and 8 of the Commission's rules to delete the frequencies 6240 and 6455 kc and to make 4372.4 kc available on a full-time basis for ship and coast stations using radiotelephony on the Mississippi River and connecting inland waters (except the Great Lakes).

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. On December 28, 1953, the Commission adopted a report and order in Docket 10724 which, in part, made the frequency 4067 kc available for the public maritime mobile service of telephony on the Mississippi River system as a protected full-time replacement for 4126.5 kc and made 4372.4 kc available during daylight hours as a replacement for 6240 and 6455 kc; all for ship-shore communication. The availability of 4372.4 kc to ship stations was limited to those stations not licensed to transmit on 6240 and/or 6455 kc. Ship stations licensed on one or both of the latter frequencies have had full opportunity to request modification of license so as to delete such frequency or frequencies and substitute 4372.4 kc.

3. The report and order in Docket 10724 pointed out that maritme telephone communications on the Mississippi River system on 6455 kc would undoubtedly be subjected to severe interference when frequencies of the same order allocated by international agreement for use by certain coast telegraph stations were activated. It was also pointed out that any concerted attempt to use 6240 kc for ship-shore telephony on the river system would undoubtedly result in interference between stations serving the rivers and ocean-going passenger ship public telegraph service. The first prediction has already come to pass and the situation is expected to become progressively worse as certain additional coast telegraph stations are activated. A recent Commission monitoring survey indicates that approximately 30 percent of the rivers telephone communications on 6455 kc are receiving apparently disruptive interference.

4. Tests have also been conducted by the Commission to determine the feasibility of co-channel sharing of a 6 Mc frequency by ship telegraph stations on the oceans and by stations of the rivers telephone operation, such as would be the case if 6240 kc were activated by the stations serving the rivers. The results conclusively demonstrated that U. S. coast stations attempting to receive telegraph signals from both U. S. and foreign ocean passenger ships operating on 6240 kc in accordance with international agreement would be subjected to harmful interference from "out-of-band" stations on the rivers.

5. It is recognized that communications on the rivers are of considerable concern to the national economy. However, 6455 kc has provided a river communication facility that has grown increasingly useless in the face of disruptive interference for which no reasonable solution appears possible. For that reason, in the opinion of the Commission, it would not seem to be in the public interest to permit the continued use of this frequency and to further postpone the effective activation of an available and "protected" 4 Mc replacement frequency. Further, 6240 kc, although available for the river service for many years, has never been effectively used by that service and disruptive interference would result if it were activated. The frequency 4372.4 kc, although available for assignment for daytime use in the Rules since January 1, 1954, also has never been activated for general radio-telephone use on the rivers. To mitigate any loss of facilities that might be felt over the proposed deletion of the 6 Mc frequencies, the Commission proposes to make 4372.4 kc (in addition to the existing availability of 4067 kc) available on a "protected" full-time basis. In consequence, it is believed that, from the point of view of establishing the internationally protected rivers frequencies on a firm active basis, both "unprotected" frequencies 6240 and 6455 kc should be deleted from the Commission's rules on the ground that the stations involved should employ the available and protected 4 Mc frequencies in lieu thereof.

6. Paragraph 157 of the Final Acts of the Extraordinary Administrative Radio Conference (Geneva, 1951) provides that the Administrative Council, which convened April 23, 1955, at Geneva, may review the progress made to date in bringing the Atlantic City Table of Frequency Allocations into force, with a view to recommending a specific date for the beginning of the final adjustment period. The only remaining out-of-band assignments licensed by the Commission, for which definite plans to move to in-band frequencies have not been made, are the Mississippi River system authorizations for public ship-shore telephony on 6240 and 6455 kc.

7. For the several reasons hereinbefore cited, it would appear contrary to the public interest to permit these assignments to continue on a derogation basis. Because of the length of time required under the Administrative Procedure Act for the Commission to effect a change in its Rules, action should be initiated well in advance of an anticipated date for the final adjustment period in order to meet that date.

8. The proposed appropriate amendments to the rules are issued pursuant to the authority of sections 303 (c), (f), and (r) of the Communications Act of 1934, as amended, the Final Acts of the International Telecommunication Radio Conference (Atlantic City, 1947) and the Agreement concluded at the Extraordinary Administrative Radio Conference (Geneva, 1951).

9. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before August 5, 1955, written data, views or arguments setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

10. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: April 27, 1955.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55-3607; Filed, May 3, 1955; 8:51 a. m.]

[47 CFR Part 13]

[Docket No. 9892; FCC 55-506]

COMMERCIAL RADIO OPERATORS

OPERATING AUTHORITY OF HOLDERS OF RESTRICTED RADIOTELEPHONE OPERATOR PERMIT AND AIRCRAFT RADIOTELEPHONE OPERATOR AUTHORIZATION

1. Notice is hereby given of further proposed rule-making in the above-entitled matter.

2. Article 24 of the International Radio Regulations (Atlantic City, 1947) contains a general requirement that the service of every ship or aircraft radiotelegraph or radiotelephone station must be performed by a certificated (licensed) radio operator. Article 24 also provides several classes of operator licenses for this purpose, graded as to qualifications and scope of operating authority according to certain characteristics (amount of power, class of emission, etc.) of the stations. Certain limitations specified in those regulations with respect to power have not as yet been carried over into the Commission's corresponding system of operator licenses.

3. As a step toward conforming to the international operator license requirements the Commission on January 29, 1951, adopted a notice of proposed rule-

making proposing (A) to amend § 13.61 (g) of its rules governing Commercial Radio Operators so as to limit the operating authority of holders of restricted radiotelephone operator permits, in the case of ship radiotelephone stations and aircraft radiotelephone stations, to such stations at which the power in the antenna of the unmodulated carrier is not authorized to exceed 50 watts; and (B) to amend § 13.61 of these rules by adding new paragraph (h) which would limit the operating authority of holders of aircraft radiotelephone operator authorizations to aircraft radiotelephone stations at which the power in the antenna of the unmodulated carrier is not authorized to exceed 50 watts.

4. From the comments received it was apparent that some respondents thought the proposal would require greater technical competence in operators in order to operate higher power radiotelephone equipment, i. e., above 50 watts, and protested that such competence was not needed. The facts are that the requirements for obtaining the next higher grade of license, namely, the radiotelephone third-class operator permit, are concerned only with basic regulations and operating practices and procedures. These requirements closely parallel those of the international radio regulations; they are designed to promote circuit discipline and efficiency in mobile operations and have nothing to do with the technical aspects of radio equipment. It was also suggested that the power limit should be 100 watts in many cases instead of 50 watts because of varying efficiences of antennas. This suggestion is considered without merit because the 50-watt limit has already been fixed by international agreement.

5. There was one comment that the 50-watt limitation should be in terms of actual antenna power rather than "authorized" antenna power because in some cases more power is authorized than is actually delivered to the antenna. In order to determine actual antenna power it would be necessary to measure individual antennas, a procedure which the Commission considered a burdensome and impracticable requirement. With this in mind the Commission deemed it not unreasonable to specify the 50-watt limitation in terms of authorized power, as was done earlier in specifying a power limit of 250 watts for the third-class operator permits.

6. Since there were questions as to how "authorized power in the antenna of the unmodulated carrier" would be determined the Commission has decided that the original proposal in this matter should be modified by adding a new rule section to Part 13 to show how this quantity would be related to the terms of the station license and to certain characteristics of the transmitting equipment. (See proposed § 13.76, below.)

7. It was originally proposed to allow outstanding operator permits and authorizations affected to run without power restriction for the remainder of their respective terms. However, the interim action of the Commission to extend restricted radiotelephone operator permits for the lifetime of the holders makes it necessary to revise this provision. It is now proposed in the case of the Restricted Radiotelephone Operator Permit to provide a period of two years from the effective date of the amendments for persons holding licenses of this class issued prior to, and in force on that date to meet the new requirement. Holders of aircraft radiotelephone operator authorizations in force on the effective date would have the remainder of the term of the authorization (but not more than two years from the effective date in any case) in which to meet the new requirement.

8. From certain comments received it appeared that the operations of some of the ship and aircraft stations might have no international impact and the Commission has decided that the more stringent international operator provisions should not be applied in those cases. The proposal, as modified, would apply to stations operating in the international service [1] and to stations sharing the use of an operating frequency with a foreign station.

9. The proposal, as modified, is set forth below. Because of amendments made to § 13.61 as a result of another proceeding since the original proposal was published it has been necessary to redesignate former paragraph (g) thereof as paragraph (h), and proposed new paragraph (h) thereof as paragraph (i). It has also been necessary to change § 13.61 (h) as a result of certain interim amendments. Authority to issue this proposal is contained in sections 4 (i), 303 (l), and 303 (r) of the Communications Act of 1934, as amended.

10. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth in the Appendix attached hereto, may file with the Commission on or before July 11, 1955 a written statement or brief setting forth his comments. At the same time, any person who favors the rules as set forth may file a written statement in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within 15 days from the last day for filing said original comments or briefs. The Commission will consider all comments, briefs and statements presented before taking final action in the matter.

11. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: April 27, 1955.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. It is proposed to amend § 13.61 (h) of the rules governing Commercial Radio Operators to read as follows:

(h) *Restricted radiotelephone operator permit.* Any station except:
(1) Stations transmitting television, or
(2) Stations transmitting telegraphy by any type of the Morse Code, or
(3) Any of the various classes of broadcast stations other than remote pickup, broadcast STL, and FM intercity relay stations, or
(4) Ship stations licensed to use telephony for communication with Class I coast stations on frequencies between 4000 kc and 30 Mc, or
(5) Radio stations provided on board vessels for safety purposes pursuant to statute or treaty, or [2]
(6) Coast stations other than in the territory of Alaska while employing a frequency below 30 Mc: *Provided,* That the holder of this class of license may not operate any coast station at which the power in the antenna of the unmodulated carrier wave is authorized to exceed 250 watts; or
(7) Ship stations or aircraft stations other than those at which the installation is used solely for telephony: *Provided,* That the holder of this class of license may not operate in international service or on any frequency the use of which is shared with a foreign station, any ship station or aircraft station at which the authorized power in the antenna of the unmodulated carrier wave exceeds 50 watts;
(8) At a ship radar station the holder of this class of license may not supervise or be responsible for the performance of any adjustments or tests during or coincident with the installation, servicing or maintenance of the radar equipment while it is radiating energy: *Provided,* That nothing in this subparagraph shall be construed to prevent any person holding such a license from making replacements of fuses or of receiving type tubes.

Provided, That, with respect to any station which the holder of this class of license may operate, such operator is prohibited from making any adjustments that may result in improper transmitter operation, and the equipment is so designed that the stability of the frequencies of the transmitter is maintained by the transmitter itself within the limits of tolerance specified by the station license, and none of the operations necessary to be performed during the course of normal rendition of the service of the station may cause off-frequency operation or result in any unauthorized radiation, and any needed adjustments of the transmitter that may affect the proper operation of the station are regularly made by or under the immediate supervision and responsibility of a person holding a first- or second-class commercial radio operator license, either radiotelephone or radiotelegraph, who shall be responsible for the proper functioning of the station equipment. (The 50-watt limit imposed by subparagraph (7) of this paragraph is applicable to all restricted radiotelephone operator permits issued on or after the effective date of this amendment and to all permits of this class in force beginning two years from the effective date. "International service" as used in subparagraph (7) of this paragraph is defined as a telecommunication service between offices or stations in different countries or between mobile stations which are not in the same country or are subject to different countries.)

2. Section 13.61 of the rules governing Commercial Radio Operators is proposed to be amended by adding new paragraph (i) as follows:

(i) *Aircraft radiotelephone operator authorization.* Aircraft stations at which the installation is used solely for telephony: *Provided,* That the holder of this class of license may not operate in international service or on any frequency the use of which is shared with a foreign station, any aircraft station at which the authorized power in the antenna of the unmodulated carrier wave exceeds 50 watts: *Provided,* That with respect to any station which the holder of this class of license may operate, (1) such operator is prohibited from making any adjustments that may result in improper transmitter operation, and (2) the equipment is so designed that the stability of the frequencies of the transmitter is maintained by the transmitter itself within the limits of tolerance specified by the station license, and none of the operations necessary to be performed during the course of normal rendition of the service of the station may cause off-frequency operation or result in any unauthorized radiation, and (3) any needed adjustments of the transmitter that may affect the proper operation of the station are regularly made by or under the immediate supervision and responsibility of a person holding a first- or second-class commercial radio operator license, either radiotelephone or radiotelegraph, who shall be responsible for the proper functioning of the station equipment. (The 50-watt limit is applicable to all aircraft radiotelephone operator authorizations in force beginning two years from the effective date of this amendment. "International service" is defined as a telecommunication service between offices or stations in different countries or between mobile stations which are not in the same country or are subject to different countries.)

3. It is proposed to add new § 13.76 to the rules governing Commercial Radio Operators, as follows:

§ 13.76 *Authorized power in the antenna of the unmodulated carrier wave.* (a) The term "authorized power in the antenna of the unmodulated carrier wave", when used in this part to define operating authority under a particular class of operator license with respect to aircraft stations, means authorized power as specified in the aircraft station license.

(b) The term "authorized power in the antenna of the unmodulated carrier wave", when used in this part to define operating authority under a particular class of operator license with respect to ship stations, means:
(1) "Maximum operating power", or "operating power", or
(2) "Maximum plate input power to final radio frequency stage" multiplied by an appropriate factor, or
(3) "Authorized transmitter-power" multiplied by an appropriate factor.

The power of a ship station is specified in the station license or in Part 8 of this chapter by one or more of the terms quoted in subparagraphs (1), (2) and (3) of this paragraph. The factor mentioned in subparagraphs (2) and (3) of this paragraph depends upon the class of radio frequency amplifier used in the last radio stage of the transmitter and upon the operating frequency of the transmitter and shall be in accordance with the following tables:

TABLE I—STATIONS EMPLOYING AMPLITUDE MODULATION

Class of radio-frequency amplifier used in last radio stage of transmitter	Factor	
	Frequencies below 25,000 kc	Frequencies above 25,000 kc
Class C—plate, or plate and screen-grid modulated	0.66	0.50
Class C—control, screen, or suppressor-grid modulated	.33	.25
Class C—cathode modulated	.42	.31
Class B—linear	.33	.25
Class BC—high efficiency	.56	.41

In the case of a transmitter using a radio-frequency amplifier in its last radio stage of a class other than those listed herein an appropriate factor will be supplied.

TABLE II—STATIONS EMPLOYING FREQUENCY MODULATION

	Factor
Transmitters employing frequency modulation on frequencies above 25,000 kc	0.50

[F. R. Doc. 55-3608; Filed, May 3, 1955; 8:51 a. m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 91]

[Ex Parte No. 174]

LOCOMOTIVES OTHER THAN STEAM

PROPOSED RULES AND INSTRUCTIONS FOR INSPECTION AND TESTING

APRIL 20, 1955.

Notice is hereby given of the institution by the Interstate Commerce Commission, under authority of the Locomotive Inspection Act of February 17, 1911, as amended by Acts of March 4, 1915, June 7, 1924, June 27, 1930, April 22, 1940, and May 27, 1947, of an investigation for the purpose of amending the Rules and Instructions for Inspection and Testing of Locomotives other than Steam prescribed by the Commission's order of December 14, 1925, as amended.

Reasons for investigation. Since the prescription of rules and instructions presently in effect for inspection and testing of locomotives other than steam, the introduction and intensive use of Diesel electric locomotives has made it necessary that such rules be modernized to meet the change in conditions and equipment.

Proposed rules and instructions. The rules and instructions tentatively proposed to be amended or revised are set forth below. These rules and instructions are subject to any change or changes that may be made as a result of this investigation.

Written evidence; special rules. Evidence shall be submitted in written form at the times and in the manner provided for in the Special Rules of Practice contained in Appendix A set forth below.

Notice to parties in interest. Notice to the general public will be given by depositing a copy of this notice in the office of the Secretary of the Commission for public inspection, by filing a copy of the notice with the Director, Division of the Federal Register, and by serving copies on each common carrier by railroad subject to the Interstate Commerce Act and on each national organization of railroad employees.

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
Secretary.

1. In § 91.201, paragraphs (c) and (d) are added to read as follows:

§ 91.201 *Locomotive unit.* • • •

(c) *Multiple control.* When locomotive units are coupled in multiple control all parts and components of each unit shall respond to control from the enginemen's compartment of the controlling unit.

(d) *Cab alarms.* Means shall be provided whereby alarms and indications of slipping or sliding driving wheels on any unit in a locomotive used in road service will be shown under all conditions in the enginemen's compartment of the controlling unit.

2. In § 91.204, existing text is designated as (a) and a new paragraph (b) is added to read as follows:

§ 91.204 *General precautions* — (a) *Air brakes.* • • •

(b) *Emergency brake valve.* Each road locomotive unit propelled by power other than steam built on or after January 1, 1956, shall be equipped with a brake pipe valve which is accessible to the fireman when stationed in his usual position in the enginemen's compartment. On car body type units a brake pipe valve shall be attached to the wall adjacent to each end exit door. The words "EMERGENCY BRAKE VALVE" shall be legibly stenciled near each brake pipe valve or shall be shown on a badge plate adjacent thereto. Each road locomotive unit propelled by power other than steam built before January 1, 1956, shall be so equipped the first time said unit receives heavy repairs after January 1, 1956, but not later than December 31, 1957.

3. In § 91.205, paragraphs (a) and (b) are amended and a new paragraph (f) is added to read as follows:

[1] International Service: A telecommunication service between offices or stations in different countries or between mobile stations which are not in the same country or are subject to different countries. (As defined in Annex 2 to International Telecommunication Convention, Atlantic City, 1947.)

[2] Subparagraph (5) was amended on January 19, 1955, to read as shown effective May 2, 1955. Subparagraph (5) formerly read: "(5) Radio stations provided for safety purposes pursuant to treaty on board vessels on the Great Lakes."

§ 91.205 *Main reservoir system*—(a) *Safety valve.* (1) The main reservoir system of each unit shall be equipped with at least one safety valve, which shall prevent an accumulation of pressure of more than 15 pounds per square inch above the maximum working air pressure fixed by the chief mechanical officer of the carrier operating the locomotive.

(2) Each unit that has a pneumatically actuated system of power controls shall be equipped with a separate reservoir of air under pressure to be used for operating such controls, other than brake controls, which reservoir shall be provided with means to automatically prevent loss of pressure in event of failure of main reservoir air pressure, shall have storage capacity to permit not less than 3 complete operating cycles of control equipment and shall be so located that it will not be readily suspectible to damage.

(b) *Compressor governor.* A suitable governor shall be provided that will stop and start or unload and load the air compressor within 5 pounds above or below the pressures fixed.

* * * * *

(f) *Oil elimination.* Each air brake system shall by June 30, 1956, be provided with a device in the air compressor discharge line which will effectively prevent passage of oil throughout the system. Such device shall be kept clean and drained before each trip or day's work.

4. In § 91.208, paragraph (a) is amended to read as follows:

§ 91.208 *Cleaning.* (a) Distributing valve, control valve, triple valve, brake application valve, equalizing piston portion, feed and reducing valves, straight air double check valves, transfer valve, safety valves, brake pipe vent valves, relay valves, magnet valves, electropneumatic master controller, dirt collectors and filters must be cleaned, repaired and tested as often as conditions require to properly maintain them in a safe and suitable condition for service, and not less frequently than once each 6 month period.

* * * * *

5. In § 91.209, paragraph (b) is amended to read as follows:

§ 91.209 *Piston travel.* * * *

(b) *Maximum travel.* When locomotive is standing the maximum brake piston travel shall not exceed the following:

	Inches
Driving wheel brake	6
Swivel type truck brake with brakes on more than one truck operated by one brake cylinder	7
Swivel type truck brake equipped with one brake cylinder	8
Swivel type truck brake equipped with two or more brake cylinders	6

Slack adjusters, when used, shall be properly maintained.

6. In § 91.210, the text is amended to read as follows:

§ 91.210 *Foundation brake gear.* Foundation brake gear shall be maintained to the standard for the locomotive and shall be provided with suitable means to prevent brake rigging from dropping to the track structure in event of failure of brake hanger or other supporting part. Levers, rods, brake beams, hangers and pins shall be of ample strength, and shall not be fouled in any way which will affect the proper operation of the brake. All pins shall be properly secured in place with cotters, split keys, or nuts. Brake shoe must be properly fastened in place and kept approximately in line with the tread of the wheel.

7. In § 91.211, a new paragraph (d) is added as follows:

§ 91.211 *Leakage.* * * *

(d) *Control air reservoir.* Leakage from control air reservoir, related piping, and pneumatically operated controls shall not exceed an average of 3 pounds per minute in a test of 3 minutes duration.

8. In § 91.212, paragraphs (a), (f), (g) and (h) are amended and a new paragraph (i) is added as follows:

§ 91.212 *General provisions*—(a) *Draft and draw gear.* Draft and draw gear, and connections between trucks, and all attachments shall be of ample strength and shall be maintained in a safe and suitable condition for service.

* * * * *

(f) *Automatic couplers with friction or spring draft gear.* Automatic couplers used between units with friction or spring draft gear shall be maintained in such condition that the lost motion in each draft gear assemblage, not absorbed by the springs or friction devices, will not exceed ½ inch.

(g) *Automatic couplers without friction or spring draft gear.* Automatic couplers used between units without friction or spring draft gear shall have lost motion kept to a minimum and lost motion between coupler and coupler pocket shall not exceed ¼ inch in each assemblage. If the couplers are attached by means of pivot pins, the pins shall be removed and inspected not less frequently than once every 6 months and date of last removal and inspection of pins shall be legibly stamped on the heads of pins and all prior dates obliterated.

(h) *Couplers.* M. C. B. contour (1904) couplers measuring 5⅛ inches or more between point of knuckle and guard arm shall not be continued in service. Types D and E couplers measuring 5⅜₁₆ inches or more between point of knuckle and guard arm shall not be continued in service.

(i) *Immobilized couplers.* Locks of couplers between units shall be immobilized and uncoupling devices shall be made inoperative or removed.

9. In § 91.219, text is amended to read as follows:

§ 91.219 *Driving boxes, shoes, and wedges.* Driving and other journal boxes, shoes, and wedges shall be maintained in safe and suitable condition for service. Broken and loose bearings shall be renewed. Not more than one shim may be used between box and bearing if bearing is pressed in box. Where shoes and wedges are not provided, total longitudinal clearance between journal box and pedestals shall not exceed ¼ inch.

10. In § 91.220, text is amended to read as follows:

§ 91.220 *Lateral motion.* The total uncontrolled lateral motion between the hubs of the wheels and boxes, between boxes and pedestals or both, on any pair of wheels shall not exceed the following limits: Truck wheels, 1 inch; driving wheels, more than one pair of wheels, ¾ inch. These limits may be increased if upon appliaction to the director his investigation shows that conditions require additional lateral motion. The lateral motion shall in all cases be kept within such limits that the driving wheels, rods, crank pins, or armatures will not interfere with other parts of the locomotive.

11. In § 91.221, existing text is amended and designated as (a) and a new paragraph (b) is added to read as follows:

§ 91.221 *Frames and parts*—(a) *Condition and inspection.* Frames, deck plates, tailpieces, pedestals, braces, body bolsters, transom plates, body center plates and locking devices shall be maintained in safe and suitable condition for service and shall be cleaned and thoroughly inspected each time a unit is in shop for general or heavy repairs but not less frequently than once each 12 months.

(b) *Fire hazard.* Underframe, trucks, fuel tanks and brake rigging shall be kept free of accumulations of oil, grease and debris that would constitute a fire hazard.

12. In § 91.222, a new paragraph (c) is added to read as follows:

§ 91.222 *Spring rigging.* * * *

(c) In absence of protective construction, safety hangers shall be provided which will prevent spring planks, spring seats or bolsters from dropping to track structure in event of hanger or spring failure.

13. In § 91.223, paragraph (a) is amended to read as follows:

§ 91.223 *Trucks*—(a) *Center plates.* Truck center plates shall fit properly and be securely fastened. The male center plate shall extend into the female center plate not less than ¾ inch. On trucks constructed to transmit tractive effort through center plate or center pin the male center plate shall extend into the female center plate not less than 1½ inches. Center plates shall be securely fastened, properly lubricated and maintained. Maximum lost motion in a center plate assemblage shall not exceed ¼ inch. These limits may be adjusted if upon application to the director his investigation shows that conditions so require.

* * * * *

14. In § 91.225, text is amended to read as follows:

§ 91.225 *Clearance above top of rail.* No part or appliance of locomotive, except the wheels and flexible nonmetallic sand pipe extension tips, shall be less than 2½ inches above the top of rail.

15. In § 91.226, paragraph (a) is amended to read as follows:

§ 91.226 *Wheels*—(a) *Tight on axle, mill scale, oil and dirt accumulations.* (1) Wheels shall be securely pressed on axles except wheels and axles of special design and construction where other proper and safe means are provided for holding the wheels on the axles. Prick punching, shimming wheel fit, or pins driven in ends of axles will not be permitted.

(2) Mill scale shall be removed from plate and entire wheel then inspected before application to axle. Wheels shall be kept free from accumulations of oil, grease, or other material that could conceal cracks or other defects.

* * * * *

16. In § 91.227, paragraph (h) is amended and new paragraph (o) is added to read as follows:

§ 91.227 *Defects.* * * *

(h) *Cracked or loose.* Wheel cracked from the wheel fit outward; cracked tread; cracked flange; cracked plate; one or more cracked brackets; wheel loose on axle.

* * * * *

(o) *Fusion welding.* Fusion welding shall not be used on tires or rolled steel wheels including building up of worn flanges, flat spots, shelled-out spots or for repair of cracks.

17. In § 91.229, paragraphs (b), (d), (f) and (g) are amended and new paragraphs (h) and (i) are added to read as follows:

§ 91.229 *Cabs and aprons.* * * *

(b) *Fastening and bracing, windows and doors.* (1) Cabs and superstructures shall be securely attached and braced. Cab windows shall be so located and maintained that the enginemen may have a clear view of track and signals from their usual and proper positions in the cab. All glass used in doors and windows of enginemen's compartments shall be of the shatter-proof type. Units not presently so equipped shall have shatter-proof glass installed at the first general repair but not later than December 31, 1956.

(2) All enginemen's compartment doors shall be equipped with means to prevent sudden closing and to secure doors in open and closed positions.

* * * * *

(d) *Floors.* Deck plates and floors of cabs, passageways, and compartments shall be kept free from oil, water, waste, or any obstruction that will create unnecessary peril. Deck plates and metal floors shall be properly roughened or other provisions made to afford secure footing.

* * * * *

(f) *Heating and ventilation.* (1) Enginemen's compartments shall be provided with heating arrangements that will maintain therein a temperature of not less than 50° F. Temperature shall be taken at substantially the center of compartment under normal winter weather conditions, under the running conditions of the locomotive, with doors and windows closed.

(2) Operating cabs or compartments shall be provided with proper ventilation.

(g) *Passage between units.* Safe and suitable means shall be provided for passage between units.

(h) *Fusee and torpedo containers.* Containers shall be provided for carrying fusees and torpedoes. These containers may be separate, or a single container with suitable partition to separate the fusees from the torpedoes.

(i) *Fan protection.* Fan openings in hazardous locations shall be properly protected.

18. In § 91.232, text is amended to read as follows:

§ 91.232 *Classification or marker lights, accessibility.* Each locomotive shall be provided with such classification and marker lamps as may be required by the rules of the railroad company operating the locomotive. When such lamps are used they shall be kept clean. The classification lights shall be electrically lighted and adequate head clearance shall be provided. Necessary safe and suitable steps, toe boards, handrails and/or handholds shall be provided in order to make cab windows, headlights, classification lights, marker lights, pantographs and trolleys accessible for attention and care.

19. In § 91.247, paragraph (a) is amended to read as follows:

§ 91.247 *Jumpers; cable connections*—(a) *General precaution.* Jumpers or cable connections between locomotives or units shall be so located or guarded to prevent unnecessary peril, and shall not be allowed to hang with one end free.

* * * * *

20. In § 91.249, text is amended to read as follows:

§ 91.249 *Motors and generators.* (a) Motors and generators shall be securely fastened in place. Axle collars shall be maintained tight on the axle. Axle-bearing and armature-bearing caps shall be securely bolted in place. Motors or generators with any of the following defects shall not be continued in service: Broken and loose or excessively worn bearings; excessive sparking or flashing over at commutator; defective collector ring, brush holder, yoke or insulator; loose or broken connection; armature striking pole piece; short circuited armature or field coil; loose or broken armature coil bands or wedges.

(b) Motors, generators and their related wiring shall be maintained free from oil and sediment that could cause flash or fire hazard.

21. In § 91.251, text is amended to read as follows:

§ 91.251 *Rheostats and resistors.* Rheostats and resistors shall be maintained free from accumulations of dirt or extraneous matter.

22. In § 91.255, paragraph (b) is amended to read as follows:

§ 91.255 *Fuel tanks and piping; safety cut-out valve.* * * *

(b) A safety cut-out valve shall be provided in the fuel line adjacent to the supply tank, or in other safe location, which will automatically close when tripped. The cut-out valves shall be designed for hand operation from both outer sides of the unit and from inside of the enginemen's compartment. Operating handle locations shall be designated. Means shall be provided so that cut-out valves may be reset without hazard.

23. In § 91.259, text is amended to read as follows:

§ 91.259 *Exhaust gases.* Exhaust gases shall be released entirely outside of cab or other compartments. Exhaust stacks shall be of sufficient height or other means provided which will prevent entry of exhaust gases into enginemen's compartments under usual conditions of operation.

24. In § 91.262, new text consisting of paragraphs (a), (b), and (c) is added to read as follows:

§ 91.262 *Internal combustion engines and controls*—(a) *Condition, defect tag.* Internal combustion engines shall be maintained in a safe and suitable condition for service. Whenever any internal combustion engine has been shut down because of defects and the unit is continued in service a distinctive tag giving reason for the shut-down shall be conspicuously attached near the engine starting control and shall remain attached until repairs have been made.

(b) *Cleanliness.* All engines and accessories shall be kept reasonably free from oil and water leaks and from accumulations of oil or debris.

(c) *Warning devices.* Temperature and pressure alarms, controls and related switches shall be properly maintained.

25. In § 91.303, paragraph (b) is amended to read as follows:

§ 91.303 *Boiler number; badge plate, location.* * * *

(b) A metal badge plate showing the name and boiler number and safe working pressure shall be attached to each boiler. The badge plate on each steam boiler, except those boilers of the forced circulation type, shall be provided with a line indicating the lowest permissible water level and shall be attached to the boiler adjacent to the water glass. The badge plate on each hot-water boiler shall be attached to the boiler adjacent to the firing opening. If boiler is lagged, the lagging and jacket shall be cut away so that plate can be seen.

26. In § 91.307, new paragraph (c) has been added to read as follows:

§ 91.307 *Fusible plugs; low water alarm; protective devices.* * * *

(c) All other alarms and protective devices with which the boiler is equipped shall be inspected and tested at least once every 3 months, and record of such inspections and tests maintained by the railroad using the boiler.

27. In § 91.308, text is amended and designated (a) and paragraph (b) is added to read as follows:

§ 91.308 *Exterior boiler inspection; testing of controls, safety devices.* (a) The exterior of every boiler and steam separator shall be thoroughly inspected before it is put into service, and whenever the jacket and lagging, or casing, are removed. The jacket and lagging shall be removed at least once every 5 years from internally fired boilers, and from pressure parts of other boilers, and a thorough inspection made of the entire exterior surfaces while under hydrostatic pressure. The jacket and lagging shall also be removed whenever on account of indication of leaks the United States inspector or the railroad company's inspector considers it desirable or necessary.

(b) Before a boiler that has been out of service for 3 consecutive months or more is again used all automatic controls and safety devices shall be tested; any found defective shall be repaired and statement to effect that said devices are in proper working condition made on back of Form No. 1–B.

28. In § 91.316, paragraph (a) is amended to read as follows:

§ 91.316 *Safety valves*—(a) *Capacity, connection to boiler, location.* Every steam boiler shall be equipped with at least two safety valves and every hot-water boiler shall be equipped with at least one water relief valve, the capacity of which shall be sufficient to prevent, under any conditions of service, an accumulation of pressure of more than 5 pounds above the allowed working pressure. The safety valves shall be connected with the boiler independent of any other connection, and located as closely to the boiler as may be consistent without discharging inside of cab. Water relief valves may be mounted on the expansion tank of hot-water boilers provided no valves are interposed between the expansion tank and the boiler. Sufficient clearance to prevent damage shall be provided where safety or relief valves or connections pass through cab structure. Ends of safety valve discharge lines shall be so located or protected as to not consitute a hazard from discharged steam.

* * * * *

29. In § 91.317, paragraphs (a), (b), and (c) are amended and new paragraphs (g), (h), and (i) are added to read as follows:

§ 91.317 *Water glass and gage cocks*—(a) *Lowest reading; danger line.* Every steam boiler, except those of the forced circulation type, shall be equipped with at least one water glass, and 3 gage cocks which can be easily opened and closed by hand. The lowest gage cock and the lowest reading of the water glass and the line on the badge plate shall correspond and be not less than 2 inches above the danger line. The danger line shall be that at which there will be no danger of overheating any part of the boiler. The danger line for vertical fire-tube boilers shall be not less than one-half the length of the tube above the lower tube sheet; and for vertical submerged tube boilers, the upper surface of the top tube sheet.

(b) *Water glass valves.* All water glasses shall be supplied with two valves, one in the upper and one in the lower connection to the boiler, and a drain valve, so constructed and located that the valves can be easily opened and closed by hand. Drain pipes shall discharge below decks or into a drain pipe so arranged to prevent splash from steam and water.

(c) *Cleaning.* The spindles of all gage cocks, fill-test valves and water-glass valves shall be removed and cocks and valves thoroughly cleancd each time the boiler is washed.

* * * * *

(g) *Drip pans.* Drip pans shall be provided for gage cock discharge so arranged to prevent splash from steam and water.

(h) *Water flow indicator.* Forced circulation boilers of the spill-over type not equipped with water glass and gage cocks shall be equipped with a visual return water flow indicator.

(i) *Fill test valve.* Forced circulation boilers shall be equipped with a fill-test valve or other means of determining when the boiler is filled with water.

30. In § 91.320, paragraph (b) is amended to read as follows:

§ 91.320 *Boiler washing.* * * *

(b) *Record.* An accurate record of all boiler washouts shall be kept in the office of the railroad company and a copy of the last record kept in the boiler compartment. The following information must be given on the day that the boiler is washed: Number of boiler; number of locomotive unit on which it is mounted; date of washout; signature of boiler washer or inspector who knows that boiler was washed; statement if spindles of gage cocks, fill-test valves, test cocks and water-glass valves were removed and cocks and valves cleaned; signature of the inspector or employee who removed the spindles and cleaned the cocks and valves.

31. In § 91.321, new paragraphs (d) and (e) are added to read as follows:

§ 91.321 *Leaks.* * * *

(d) *Pipes and valves in cabs.* In new construction, or when renewals are made of iron or steel pipes in cabs that are subject to boiler pressures of more than 150 pounds per square inch, commercially designated extra strong pipe and extra heavy valves and fittings shall be used.

(e) *Defect tag.* Whenever any boiler or steam generator has been shut down because of defects and the unit in which it is installed is continued in service, a distinctive tag giving reasons for the shut-down shall be conspicuously attached near the starting controls and shall remain attached until repairs have been made.

32. In § 91.323, paragraph (b) is amended to read as follows:

§ 91.323 *Fuel tanks and piping.* * * *

(b) *Safety cut-out valve.* A safety cut-out valve shall be provided in the fuel-line adjacent to the supply tank, or in other safe location, which will automatically close when tripped. The cut-out valves shall be designed for hand operation from both outer sides of the unit and from inside of the enginemen's compartment. Operating handle locations shall be designated. Means shall be provided so that cut-out valves may be reset without hazard.

* * * * *

33. In § 91.327, text is amended and designated as (a) and new paragraph (b) is added to read as follows:

§ 91.327 *Oil burning fireboxes*—(a) *Venting boilers; stack gases.* Means shall be provided for expelling accumulated gases from fire box of oil-burning boilers before fire is lighted. Products of combustion shall be released entirely outside of cab or other compartments. Boilers shall be so arranged and exhaust stacks shall be of sufficient height or other means provided which will prevent entry of products of combustion into enginemen's compartments under usual conditions of operation.

(b) *Remote ignition.* Remotely controlled means shall be provided to electrically ignite oil fired boilers.

34. In § 91.334, paragraph (d) is amended to read as follows:

§ 91.334 *Extensions.* * * *

(d) *Brake equipment.* Cleaning of distributing valve, control valve, triple valve, brake application valve, equalizing piston portion, feed and reducing valves, straight air double check valves, transfer valve, safety valves, brake pipe vent valves, relay valves, magnet vales, electro-pneumatic master controller, dirt collectors and filters, as required by Rule No. 208 (a), will be due after 6 calendar months' service, provided such service is performed within 12 consccutive months.

* * * * *

APPENDIX A—SPECIAL RULES OF PRACTICE APPLICABLE IN DOCKET EX PARTE NO. 174

In addition to the General Rules of Practice, the following special rules will govern this proceeding.

1. *Submission of evidence in written form with affidavit attached.* The Commission desires that all evidence be submitted in written form with affidavits attached. Exhibits may be attached to the written statements, and such exhibits should conform to the general rules of practice, particularly to Rules 81 to 84, inclusive. All evidence of each witness that is submitted in exhibit form should, so far as practicable, be incorporated in a single exhibit. The written evidence, with or without exhibits attached, will be referred to as verified statements, and each verified statement will be assigned a serial number by the Commission.

2. *Evidence-in-chief.* Evidence-in-chief of all parties should be submitted in the form of verified statements as provided in paragraph 1. Such verified statements, with accompanying exhibit or exhibits, should be made available to the Commission by filing 25 copies thereof with the Secretary of the Commission on or before June 1, 1955. Copies of such verified statements of the railroads should be made available to the parties by mailing a copy to any person who duly makes a request therefor to W. M. Keller, Association of American Railroads, 59 East Van Buren Street, Chicago 5, Ill., on or before June 1, 1955. Parties other than the railroads will be expected to furnish the railroads with twenty-five (25) copies of all verified statements, such copies to be sent to W. M. Keller at the address above specified, and to also furnish a copy thereof to any other party who may make a request therefor to the Secretary of the Commission on or before May 16, 1955. A list of the parties upon whom copies of verified statements should be served will be furnished the parties by the Secretary.

3. *Objections to evidence.* Notice of objections to receipt in evidence of any verified statement or any part thereof should be filed with the Secretary of the Commission on or before June 15, 1955. If the evidence is submitted on behalf of the railroads, a copy of the notice should be immediately mailed to W. M. Keller; if the evidence is submitted on behalf of any other party, a copy of the notice should be immediately mailed to the witness or his attorney.

4. *Rebuttal evidence.* Evidence on rebuttal by any party must be designated as such, and filed with the Secretary of the Commission on or before June 30, 1955, even if the original evidence is objected to as provided in paragraph 3 hereof. Its presentation and distribution will be governed by the rules set forth in paragraphs 1 and 2 hereof.

5. *Cross-examination of witnesses.* If cross-examination of a witness is desired by any party written request therefor must be given to the Secretary of the Commission and to the witness, or his authorized attorney on or before August 15, 1955. The Commission will fix the time and place for cross examination.

6. *Record.* The evidence presented and admitted pursuant to the provisions of the foregoing paragraphs of these special rules shall constitute the entire record in these proceedings upon which decision will be made.

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

FLORIDA

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it is determined that in the following named additional counties in the State of Florida a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

FLORIDA

Bay.	Leon.
Calhoun.	Walton.
Jefferson.	

Pursuant to the authority as set forth above, such loans will not be made in the above-named counties in the State of Florida after December 31, 1955, except to borrowers who previously received such assistance.

Done at Washington, D. C., this 28th day of April 1955.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

[F. R. Doc. 55–3595; Filed, May 3, 1955; 8:49 a. m.

NORTH CAROLINA

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2(a)), as amended, it is determined that in the following named additional counties in the State of North Carolina a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

NORTH CAROLINA

Avery.	Mitchell.
Haywood.	Yancey.

Pursuant to the authority as set forth above, such loans will not be made in the above-named counties in the State of North Carolina after December 31, 1955, except to borrowers who previously received such assistance.

Done at Washington, D. C., this 28th day of April 1955.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11202–11204; FCC 55–518]

MINERS BROADCASTING SERVICE, INC., ET AL.

ORDER AMENDING ISSUES

In re applications of Miners Broadcasting Service, Inc., Ambridge, Pennsylvania, Docket No. 11202, File No. BP–9102; Louis Rosenberg, Tarentum, Pennsylvania, Docket No. 11203, File No. BP–9192; Theordore H. Oppegard and Carl R. Lee, d/b as Somerset Broadcasting Company, Painesville, Ohio, Docket No. 11204, File No. BP–9358; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

The Commission having under consideration (1) a petition filed by Miners Broadcasting Service, Inc., on January 25, 1955, requesting the Commission to dismiss the application of Somerset Broadcasting Company because of its failure to comply with § 3.28 (c) of the Commission's rules and regulations; (2) supplement to the petition filed January 31, 1955; (3) an opposition to the petition filed on February 21, 1955, by Somerset Broadcasting Company; (4) an opposition to the petition and an alternative request to enlarge issues filed February 21, 1955, by Chief, Broadcast Bureau; and (5) reply to opposition of Somerset Broadcasting Company and request to enlarge issues filed February 28, 1955, by Miners Broadcasting Service, Inc.;

It appearing that Miners Broadcasting Service, Inc., by its above-described petition requested a dismissal of the application of Somerset Broadcasting Company on the grounds that Somerset's proposal fails to comply with § 3.28 (c) of the Commission's rules, but that, in its reply filed February 28, 1955, Miners abandons its original petition to dismiss and now requests that the Commission enlarge the issues to include the issue requested by the Broadcast Bureau;

It further appearing that, in its reply, Miners also requests that the issues be either amended or enlarged to determine the service area of the proposed Somerset station;

It further appearing that the evidence as to coverage of the Somerset proposal may be determined on the basis of the specified issues; (see Evangeline B/cing Co., Inc. (KVOL), 7 RR 735, and Mount Vernon Broadcasting Co., 4 RR 1471.)

It is ordered, That the above-entitled petition of Miners Broadcasting Service, Inc., filed January 25, 1955, is denied; that the request of the Broadcast Bureau that an issue numbered 3 (a) be added is granted; and that the request of Miners Broadcasting Service, Inc. made in reply, filed February 28, 1955, is granted insofar as it supports the Broadcast Bureau's request for enlargement of issues; in all other respects said request is denied; and

It is further ordered, That the issues herein be enlarged by the addition of the following issue:

3 (a) To determine whether the installation and operation of the station proposed by Somerset Broadcasting Company would be in compliance with the Commission's Rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to providing the required minimum of interference-free service within its normally protected daytime contour (0.5 mv/m) because of interference from Station WBNS, Columbus, Ohio.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55–3609; Filed, May 3, 1955; 8:51 a. m.]

[Docket No. 11371; FCC 55-498]

DEEP SOUTH BROADCASTING CO. (WSLA)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Deep South Broadcasting Company (WSLA), Selma, Alabama, Docket No. 11371, File No. BMPCT-2100; for modification of construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 27th day of April 1955;

The Commission having under consideration the above-entitled application requesting modification of construction permit (Channel 8, Selma, Alabama) to move transmitter site to a location 50 miles from Selma, and 23 miles from Montgomery, Alabama; to locate main studio at the transmitter site; to increase the height of the antenna structure to 1,993 feet above ground; and to change transmitter and antenna; and

It appearing that a majority of the voting members of the Airspace Subcommittee of the Air Coordinating Committee in Washington, D. C., voted to disapprove the tower site and height proposal set forth in the above-entitled application on the ground that said proposal would, in substance, result in an unacceptable hazard to air operations due to the "excessive height"; and

It further appearing that, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-named applicant was advised by letter dated March 9, 1955, of all objections to the above application; that the Commission was unable to determine that a grant of said application would be in the public interest; and was afforded an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled application, the Commission's letter of March 9, 1955, and the applicant's reply thereto filed March 29, 1955, the Commission finds that the above-named applicant is legally and financially qualified to construct the television station proposed in the above-entitled application and is technically and otherwise so qualified except as to the matters specified in the issues set forth below;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing to commence at 10:00 a. m. on the 27th day of May 1955, in Washington, D. C., upon the following issues:

1. To determine whether there is a reasonable possibility that the tower height and location proposed in the above-entitled application may constitute a menace to air navigation.

2. To determine, in the light of the proposed move of transmitter site 50 miles from Selma and 23 miles from Montgomery, Alabama, whether the proposed operation is designed to serve the particular needs of Selma, Alabama and its surrounding areas.

3. To determine whether the showing made by the applicant to locate its main studio at the proposed transmitter site is sufficient to warrant a waiver by the Commission of the provisions of § 3.613 (a) of the Commission's rules.

4. To determine whether, on the basis of the evidence adduced with respect to the above issues, a grant of the above-entitled application would serve the public interest, convenience and necessity.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3610; Filed, May 3, 1955; 8:51 a. m.]

[Docket Nos. 11372, 11373; FCC 55-501]

AIRCALL, INC., AND TELEPHONE MESSAGE BUREAU, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Aircall, Inc., Cleveland and Akron, Ohio, Docket No. 11372, File No. 1314-C2-P-55; The Telephone Message Bureau, Inc., Cleveland, Ohio, Docket No. 11373, File No. 1330-C2-R-55; for construction permit and license renewal, respectively, in the Domestic Public Land Mobile Radio Service.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 27th day of April 1955;

The Commission, having under consideration the above-entitled application of Aircall, Inc., for a construction permit in the Domestic Public Land Mobile Radio Service to establish a one-way signaling system on 35.58 Mc. with base stations at Cleveland and Akron, Ohio, and the above-entitled application of The Telephone Message Bureau, Inc. for renewal of its license for station KQC882, which is authorized to render one-way signaling service on 35.58 Mc. under a Domestic Public Land Mobile Radio Service license (File No. 1330-C2-L-54) which was issued for a term ending April 1, 1955; and

It appearing that § 6.409 of the Commission's rules governing the Domestic Public Land Mobile Radio Service contemplates making frequency assignments to stations in this service only in such a manner as to ensure the rendition of communication service on an interference-free basis and the above-entitled applications for station authorizations to operate in the same geographical area are mutually exclusive; and

It further appearing that the Commission has advised each of the above-entitled applicants and their respective counsel, by letters of February 23, 1955, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, as to the reasons why such applications cannot be granted without hearing, and that replies have been received from each of the applicants, and that said replies have been considered; and

It further appearing that each of the applicants herein is legally, financially and technically qualified to be a licensee of the service involved herein;

It is ordered, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m. on June 14, 1955, upon the following issues:

(1) To determine the nature and extent of the public need for one-way signaling service in Cleveland, Ohio.

(2) To determine the nature and extent of the public need for one-way signaling service in Akron, Ohio.

(3) To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices and services of Aircall, Inc. for Cleveland and Akron, Ohio.

(4) To determine the facts with respect to the facilities, personnel, rates, regulations, practices and services of station KQC882 licensed to The Telephone Message Bureau, Inc. at Cleveland, Ohio.

(5) To determine the area and population proposed to be served by the facility of each applicant.

(6) To determine, in the light of the evidence adduced on the foregoing issues, whether the public interest, convenience or necessity would be served by a grant of the application of Aircall, Inc., or the license renewal application of The Telephone Message Bureau, Inc.

Released: April 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-3611; Filed, May 3, 1955; 8:52 a. m.]

[Docket No. 11381; FCC 55-513]

GREATER SOUTH BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Greater South Broadcasting Co., Inc., Atlanta, Georgia, Docket No. 11381, File No. BP-9604; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

The Commission having under consideration the above-entitled application of Greater South Broadcasting Co., Inc., for a construction permit for a new standard broadcast station to operate on 1460 kilocycles with a power of 1 kilowatt, daytime only, at Atlanta Georgia;

It appearing that the applicant is legally, technically, financially and otherwise qualified to operate the proposed station, but that the application may involve interference with Station WPNX, Phenix City, Alabama-Columbus,, Georgia; and otherwise may not comply with the Standards of Good Engineering Practice, particularly with reference to adequate coverage of the city sought to be served; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated March 10, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that a timely reply to the Commission's letter was filed by the applicant;

It further appearing that in a letter dated March 29, 1955, WPNX stated that it would appear at a hearing on the subject application; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would be served by the operation of the subject proposed station, and the availability of other primary service to such areas and populations.

2. To determine whether the subject proposed operation would involve interference with Station WPNX, Phenix City, Alabama-Columbus, Georgia, or any other existing standard broadcast station, and, if so, the nature and extent of such interference.

3. To determine whether the installation and operation of the subject proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to adequate coverage of the city sought to be served.

4. To determine whether, in light of the evidence adduced pursuant to the foregoing issues, the subject proposed operation would serve the public interest, convenience and necessity.

It is further ordered, That Community Broadcasting Co., Inc., licensee of Station WPNX, Phenix City, Alabama-Columbus, Georgia, is made a party to the proceeding.

Released: April 29, 1955.

[Amdt. 0-4; FCC 55-504]

CHIEF ENGINEER

DELEGATION OF AUTHORITY TO ACT ON REQUESTS FOR EXEMPTION FROM STATION IDENTIFICATION REQUIREMENTS

In the matter of amendment of Part 0 to delegate authority to Chief Engineer to act on requests for exemption from station identification requirements filed under § 5.152; Amdt. 0-4.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of April 1955;

The Commission having under consideration the delegation to the Chief Engineer to act on requests for exemption from station identification requirements filed under § 5.152; and

It appearing, that § 5.152 provides for such exemption; and

It further appearing, that the amendment herein ordered is procedural in nature and therefore, compliance with the public rule making procedures required by sections 4 (a) and (b) of the Administrative Procedure Act is not required;

It is ordered, Pursuant to sections 4 (i) and 303 (r) of the Communications Act, as amended, and section 3 (a) of the Administrative Procedure Act that Part 0 of the Commission's rules is hereby amended, effective immediately, by adding subparagraph (15) to paragraph (c) of section 0.331 to read as follows:

(15) Request for exemption from station identification requirements.

Released: April 29, 1955.

CERTAIN U. S. PASSENGER VESSELS

EXEMPTION FROM RADIO PROVISIONS

In the matter of (1) Renewal of exemption of all United States passenger vessels of less than 100 gross tons, not subject to the radio provisions of the Safety Convention, from the radio provisions of Title III, Part II of the Communications Act of 1934, as amended, when navigated on voyages in the open sea not more than 20 nautical miles from the nearest land in waters lying between: (a) Hog Island, Virginia, and Fire Island Light, New York; or (b) Hillsboro Light and Triumph Reef Beacon, Florida; or (c) Naples, Florida, and Brownsville, Texas; or (d) Point Conception, California, and Point Descanso or the Coronado Islands, Mexico; or (e) Salt Point and Point Sur, California; and (2) renewal of exemption of all United States passenger vessels of a tonnage up to and including 15 gross tons, not subject to the radio provisions of the Safety Convention, from the radio provisions of Title III, Part II of the Communications Act of 1934, as amended, when navigated on voyages in the open sea not more than 20 nautical miles from the nearest land.

The Commission having under consideration the above-captioned matters; and

It appearing that section 352 (b) (3) of the Communications Act of 1934, as amended, provides that the Commission may, if it considers that the route or the conditions of the voyage or other circumstances are such as to render a radio installation unreasonable or unnecessary for the purpose of Title III, Part II of the act, exempt from the radio provisions of Title III, Part II, passenger vessels of a tonnage of less than 100 gross tons not subject to the radio provisions of the Safety Convention; and

It further appearing that the Commission has heretofore granted and renewed exemption for specific periods to all United States passenger vessels of less than 100 gross tons, not subject to the radio provisions of the Safety Convention, when navigated not more than 20 nautical miles from the nearest land on voyages in the open sea in waters lying in the individual areas described in (1) above, and that the exemptions currently in force expire on May 13, 1955; and

It further appearing that the Commission has heretofore granted and renewed exemption for specific periods to all United States passenger vessels of a tonnage up to and including 15 gross tons, not subject to the radio provisions of the Safety Convention, when navigated not more than 20 nautical miles from the nearest land on voyages in the open sea and that the exemption currently in force expires on May 13, 1955; and

It further appearing that the passenger vessels described under (1) and (2) above, come within the class of vessels which may be granted exemption under section 352 (b) (3) of the Communications Act of 1934, as amended; and

It further appearing that there is no information before the Commission tending to show that the routes, or the conditions of the voyages of any of the vessels in question have changed substantially since the ships were first granted exemption, or that they will change substantially during the period for which the instant exemptions are under consideration for renewal;

It is ordered, This 26th day of April 1955, pursuant to section 352 (b) (3) of the Communications Act of 1934, as amended, that all United States passenger vessels of a tonnage of less than 100 gross tons, not subject to the radio provisions of the Safety Convention are exempt from the radio provisions of Title III, Part II of the Communications Act of 1934, as amended, for an additional period not to extend beyond May 13, 1956, when navigated on voyages in the open sea in waters lying between:

(a) Hog Island, Virginia, and Fire Island Light, New York; or

(b) Hillsboro Light and Triumph Reef Beacon, Florida; or

(c) Naples, Florida, and Brownsville, Texas; or

(d) Point Conception, California, and Point Descanso or the Coronado Islands, Mexico; or

(e) Salt Point and Point Sur, California;

Provided, That during the course of the voyages the vessels will be navigated not more than 20 nautical miles from the nearest land.

It is further ordered, This 26th day of April 1955, pursuant to section 352 (b) (3) of the Communications Act of 1934, as amended, that all United States passenger vessels of a tonnage up to and including 15 gross tons, not subject to the radio provisions of the Safety Convention, are exempt from the radio provisions of Title III, Part II of the Communications Act of 1934, as amended, for an additional period not to extend beyond May 13, 1956; Provided, That during the course of the voyages the vessels will be navigated not more than 20 nautical miles from the nearest land.

It is further ordered, That these exemptions may be terminated at any time without hearing if, in the Commission's discretion, the need for such action arises.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-8303]

R. M. TUTTLE PIPE LINE

NOTICE OF APPLICATION AND DATE OF HEARING

APRIL 28, 1955.

Take notice that R. M. Tuttle, d/b/a R. M. Tuttle Pipe Line (Applicant), an individual whose address is 212 East Broadway, Cushing, Oklahoma, filed on December 27, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas to Cities Service Gas Company which will transport and sell the gas so received, commingled with its other gas supplies, in interstate commerce. Applicant will obtain the natural gas from supplies of Texas Pacific Coal and Oil Company produced in the Cottingham Field, Payne County, Oklahoma. Applicant will transport the gas from the point of purchase through approximately 4.5 miles of 4-inch pipeline all in Payne County, Oklahoma.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on May 24, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before May 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 58]

MOTOR CARRIER APPLICATIONS

APRIL 29, 1955.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and State address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (a) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 263 Sub 71, filed March 28, 1955, GARRETT FREIGHTLINES, INC., 2055 Pole Line Road, P. O. Box 349, Pocatello, Idaho. Applicant's attorney: Maurice H. Greene, P. O. Box 1554, Boise, Idaho. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, including *Class A and B explosives*, and *commodities requiring special equipment*, but excluding articles of unusual value, livestock, automobiles, fresh fish, motion picture films, household goods as defined by the Commission, commodities in bulk, commodities requiring refrigeration, and those injurious or contaminating to other lading, between Sacramento, Calif., on the one hand, and, on the other, points in San Joaquin and Sacramento Counties, Calif.

NOTE: Applicant states that it holds authority under certificate No. MC 263 Sub 56 to transport the commodities covered by the instant application, over irregular routes, between Stockton, Calif., on the one hand, and, on the other, points in San Joaquin and Sacramento Counties, Calif. The instant application seeks authority to utilize the point of Sacramento as the point of joinder between its authorized regular routes and the irregular route authority covered by its Certificate No. MC 263 Sub 56, in addition to the authorized joinder point of Stockton, Calif. Applicant is authorized to conduct operations in California, Colorado, Idaho, Montana, Nevada, Arizona, New Mexico, Oregon, and Utah.

No. MC 263 Sub 72, filed March 28, 1955, GARRETT FREIGHTLINES, INC., 2055 Pole Line Road, P. O. Box 349, Pocatello, Idaho. Applicant's attorney: Maurice H. Greene, P. O. Box 1554, Boise, Idaho. For authority to operate as a *common carrier*, over regular routes, transporting: *Class A and B explosives*, including *ammunition*, between Salt Lake City, Utah, and Wells, Nev., over U. S. Highway 40, serving no intermediate points, as an alternate or connecting route for operating convenience only, in connection with carrier's regular route operations, (a) between Salt Lake City, Utah, and Brigham, Utah, over U. S. Highway 91, (which is a portion of carrier's regular route operations between Butte, Mont., and San Bernardino, Calif.), (b) between Brigham, Utah, and Burley, Idaho, over U. S. Highway 30S, (c) between Burley, Idaho, and Twin Falls, Idaho, over U. S. Highway 30, (which is a portion of carrier's regular route operations between Pocatello, Idaho, and Buhl, Idaho), and (d) between Twin Falls, Idaho and Wells, Nev., over U. S. Highway 93 (which is a portion of carrier's regular route operations between Pocatello, Idaho, and San Francisco, Calif.). Applicant is authorized to conduct operations in California, Idaho, Montana, Nevada, Oregon, Utah, and Wyoming.

No. MC 730 Sub 49, filed March 29, 1955, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation 299 Adeline Street, Oakland, Calif. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities, including Class A and B explosives, and commodities of unusual value*, but excluding livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Reno, Nev., and Sierra Ordnance Depot, Herlong, Calif., from Reno over U. S. Highway 395 to junction unnumbered highway near Doyle, Calif., thence over unnumbered highway to Sierra Ordnance Depot, and return over the same route, serving no intermediate points, and (2) between Fallon, Nev., and U. S. Naval Ammunition Depot near Hawthorne, Nev., over U. S. Highway 95, serving no intermediate points. Applicant is authorized to conduct operations in Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Missouri, Nebraska, Nevada, Oklahoma, Texas, Utah and Wyoming.

No. MC 730 Sub 50, filed March 31, 1955, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 299 Adeline Street, Oakland, Calif. For authority to operate as a *common carrier*, over a regular route, transporting: *Household goods*, and *general commodities*, except those of unusual value, and except Class A and B explosives, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between junction U. S. Highway 50N and Kansas Highway 150 near Marion, Kans., and junction Kansas Highway 150 and U. S. Highway 50S near Elmdale, Kans., over Kansas Highway 150, serving no intermediate points, and serving the termini for purpose of joinder only, as an alternate or connecting route, for operating convenience only, in connection with carrier's regular route operations between Kansas City, Mo., and Denver, Colo. Applicant is authorized to conduct operations in California, Colorado, Idaho, Illinois, Indiana, Kansas, Missouri, Nevada, Utah and Wyoming.

No. MC 730 Sub 51, filed April 4, 1955, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation 299 Adeline Street, Oakland, Calif. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities, including Class A and B explosives, and commodities of unusual value*, but excluding livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Las Vegas, Nev., and Henderson, Nev., over U. S. Highway 95, serving all intermediate points. Applicant is authorized to conduct operations in California, Colorado, Idaho, Illinois, Indiana, Kansas, Missouri, Nevada, Utah and Wyoming.

No. MC 1425 Sub 14, Filed March 28, 1955, OVERLAND FREIGHT LINES, INC., 2612 West Morris St., Indianapolis, Ind. Applicant's attorney: James L. Beattey, Suite 1021–1029, 130 East Washington St., Indianapolis 4, Ind. For authority to operate as a *contract carrier*, over irregular routes transporting: (1) *pallets, platforms*, and *skids*, used in shipping, (a) between Indianapolis, and Muncie, Ind., Louisville, Covington, Owensboro, Maysville, and Henderson, Ky., points in Ohio, those in Michigan on and south of Michigan Highway 21, and those in St. Louis County, Mo., and (b) between Indianapolis, Ind., Louisville, Covington, Owensboro, and Maysville, Ky., and points in Illinois, and (2) *glass containers, stoppers*, and *caps*, and *knocked down paper cartons and parts thereof*, between Indianapolis, and Muncie, Ind., and points in St. Louis County, Mo. The applicant herein presently holds authority pursuant to Certificate No. MC 76629, dated December 23, 1948, to perform common carrier operations over the route or routes or within the territory as more particularly appears in the files of the Commission at its office in Washington, D. C., under said docket number; therefore, Section 210 matters may be involved. Applicant is authorized to conduct contract carrier operations in Illinois, Indiana, Kentucky, Michigan, and Ohio.

No. MC 2392 Sub 13, filed April 21, 1955, WHEELER TRANSPORT SERVICE, INC., Genoa, Nebr. Applicant's attorney: Einar Viren, 904 City National Bank Bldg., Omaha 2, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid fertilizers and liquid mixed fertilizers*, in bulk, in tank vehicles, and in packages in appropriate equipment, from Omaha, Nebr. to points in Iowa and South Dakota; *rejected shipments* and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return.

No. MC 7324 Sub 1, filed April 20, 1955, EARL A. BENNING, Waumandee, Wis. Applicant's representative: A. R. Fowler, Associated Motor Carriers Tariff Bureau, 2288 University Ave., St. Paul 14, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, from points in the Minneapolis-St. Paul, Minn. Commercial Zone, as defined by the Commission, to Alma, Cochrane and Fountain City,

Wis. Applicant is authorized to conduct operations in Minnesota and Wisconsin.

No. MC 16105 Sub 1, filed March 18, 1955, EDWARD O. WORKMAN, Hartford Road, Moorestown, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Canned goods* and *food stuffs*, from Moorestown, N. J., and points in New Jersey within fifteen (15) miles thereof (as more specifically set forth in the application), to Philadelphia, Pa., and New York, N. Y.

No. MC 17593 Sub 20, filed April 11, 1955, PIERCE AUTO FREIGHT LINES, INC., 2825 N. W. Yeon Ave., Portland 10, Oreg. Applicant's attorney: Wm. P. Ellis, 1102 Equitable Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *articles of unusual value, Class A and B explosives, household goods as defined by the Commission*, and *commodities requiring special equipment*, but excluding commodities in bulk, (1) between San Francisco, Calif., and San Jose, Calif., over U. S. Highway 101 and By-Pass U. S. Highway 101, serving all intermediate points, and (2) between Oakland, Calif., and San Jose, Calif., over California Highways 17 and 9, serving all intermediate points. NOTE: Applicant proposes to use the Dumbarton Bridge for operating convenience only. Applicant is authorized to conduct operations in California, Washington, Oregon, and Nevada.

No. MC 19000 Sub 3, filed April 21, 1955, DENNIS J. LOUGHMAN, doing business as WAYNESBURG-PITTSBURGH LOCAL EXPRESS, Waynesburg, Pa. Applicant's attorney: Frank C. Roney, Washington Trust Bldg., Washington, Pa. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Cloth, rags, cloth and rag waste materials, textile fabrics, clothing and wearing apparel*, from points in Greene County, Pa., to points in the Baltimore, Md., commercial zone, as defined by the Commission; and, *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application, and *empty milk containers*, and *coca cola syrup*, on return. Applicant is authorized to conduct operations in Pennsylvania.

No. MC 19564 Sub 50, filed April 11, 1955, L. C. JONES TRUCKING COMPANY, a corporation, 4300 S. E. 29th Street, P. O. Box 4368, Oklahoma City, Okla. Applicant's attorney: Joe T. Lanham, Perry-Brooks Building, Austin, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, and *machinery, equipment, materials*, and *supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing and picking up of pipe in connection with main or trunk pipe lines, between points in Missouri and Kansas. Applicant is authorized to conduct operations in Arkansas, Colorado, Illinois, Kansas, Louisiana, Mississippi, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, Pennsylvania, South Dakota, Texas, Utah, West Virginia, and Wyoming.

No. MC 30697 Sub 33, filed April 21, 1955, DIECKBRADER EXPRESS, INC., 5391 Eastern Avenue, Cincinnati, Ohio. Applicant's attorney: Howell Ellis, 520 Illinois Building, Indianapolis, Ind. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Pulpboard* and *strawboard*, from Carthage, Ind., to Louisville, Ky., and points in Kentucky within the Louisville, Ky. Commercial Zone as defined by the Commission. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Michigan, Ohio, and West Virginia.

No. MC 30844 Sub 26, filed April 11, 1955, HEUER TRUCK LINES, INCORPORATED, 306 May Street, Marshalltown, Iowa. Applicant's representative: William A. Landau, 1307 East Walnut Street, Des Moines 16, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Salt*, from Hutchinson, Lyons, and Kanopolis, Kans., to points in Iowa (except from Hutchinson and Kanopolis, Kans., to Des Moines, Marshalltown, Sioux City, Ackley, Belmond, Roland, Waverly, Galt, Buckingham, Hampton, and Walker, Iowa), together with *petition to dismiss* on the ground applicant is authorized to transport said commodity under its existing authority to transport "groceries". Applicant is authorized to conduct operations in Iowa and Kansas.

No. MC 35835 Sub 11, filed April 18, 1955, ELMER JENSEN, 513 Ninth Ave., S. E., Independence, Iowa. Applicant's representative: William A. Landau, 1307 East Walnut St., Des Moines 16, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Corn syrup*, in bulk, in tank vehicles, (1) from Cedar Rapids and Clinton, Iowa to points in Arkansas, Kansas, North Dakota, Oklahoma, South Dakota and Texas, and (2) from Keokuk, Iowa to points in Arkansas, Kansas, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota and Texas. Applicant is authorized to conduct operations in Iowa, Illinois, Michigan, Minnesota, Missouri, Nebraska and Wisconsin.

No. MC 36587 Sub 1, filed April 14, 1955, H. M. WAGGONER, Homer, Ill. Applicant's attorney: John D. Carson, Champaign County Bank & Trust Bldg., P. O. Box No. One, Urbana, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sand* and *gravel* from points in Vermillion County, Ind. to points in Vermilion County, Ill.; *limestone*, from points in Vermilion County, Ill. to points in Vermillion, Parke and Fountain Counties, Ind., and *fertilizer* from Indianapolis, Ind. to points in Vermilion and Champaign Counties, Ill. Applicant is authorized to conduct operations in Indiana and Illinois.

No. MC 37578 Sub 14, filed April 18, 1955, JOSEPH W. TREHAN, INCORPORATED, 715 Mahoning Avenue, Youngstown, Ohio. Applicant's representative: G. H. Dilla, 3350 Superior Avenue, Cleveland 14, Ohio. For authority to operate as a *common carrier*, over irregular routes, transporting: *Car wheels* loose or attached to axles, and *locomotive wheels*, without axles, between McDonald, Ohio, and Greenville, Pa.

No. MC 39575 Sub 3, filed March 9, 1955, CLEATIS G. ALLEN, doing business as ALLEN MOTOR EXPRESS, 315 East 17th Street, Bedford, Ind. Applicant's attorney: James L. Beattey, 130 East Washington Street, Indianapolis 4, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Building materials*, including sheet rock, plaster board, gypsum lath, gypsum wall board, gypsum plaster and other building materials and supplies manufactured by gypsum processing plants, and *materials and supplies used in the manufacture and distribution of building materials*, including gypsum board paper, paper, starch, potassium sulphate, lime, aluminum sulphate, paper bags, wood chips and materials and supplies used in manufacturing and processing of gypsum and gypsum products, between points in Marion County, Ind., on the one hand, and, on the other, points in Ohio, Michigan, Illinois, Kentucky, and those in St. Louis County, Mo.; and *general commodities*, except commodities of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between points within ten (10) miles of Indianapolis, Ind., including Indianapolis, on the one hand, and, on the other, points within twenty (20) miles of Bedford, Ind., including Bedford. Applicant is authorized to conduct operations in Indiana under the second proviso of section 206 (a) (1) of the Interstate Commerce Act.

No. MC 43442 Sub 8, filed April 21, 1955, TRANSPORTATION SERVICE, INC., 1946 Bagley Ave., Detroit 16, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Detroit, Mich. and Willow Run, Mich. over Michigan Highway M–112 as an alternate or connecting route for operating convenience only, serving no intermediate points, in connection with carrier's authorized regular route between Detroit, Mich. and Willow Run, Mich. over U. S. Highway 112. Applicant is authorized to conduct operations in Michigan and Ohio.

No. MC 46280 Sub 32, filed April 11, 1955, DARLING FREIGHT, INC., 4000 Division Ave. S., Grand Rapids, Mich. Applicant's attorney: Robert A. Sullivan, 2606 Guardian Bldg., Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Iron products* and *steel products*, between Gibraltar, Mich., on the one hand, and, on the other, Evansville and Vincennes, Ind., points in Indiana on and north of U. S. Highway 40, those in Illinois on and north of a line beginning at the Indiana-Illinois State line and extending along U. S. Highway 36 to Springfield, Ill., thence along Illinois Highway 125 to junction U. S. Highway 67, thence along U. S. Highway 67 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction U. S. Highway 24, and thence along U. S. Highway 24 to the Illinois-Missouri State line, and those in Wisconsin on and south of a line beginning at the Minnesota-Wisconsin State line and extending along U. S. Highway 12 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay, Wis., and thence along U. S. Highway 141 to Lake Michigan at Manitowoc, Wis. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, and Wisconsin.

No. MC 46313 Sub 4, filed April 18, 1955, GREAT FALLS TRANSFER AND STORAGE COMPANY, a corporation, 117 Park Drive South, Great Falls, Mont. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies* used in, or in connection with, the discovery development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts; and *contractors' equipment, road making and grading equipment and supplies, heavy machinery*, and *other articles requiring special equipment*, between points in Montana and North Dakota. Applicant is authorized to conduct operations in Idaho and Montana.

No. MC 46737 Sub 22, filed March 28, 1955, GEO. F. ALGER COMPANY, a corporation, 3050 Lonyo Road, Detroit 9, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaiminating to other lading, serving Gibraltar, Mich., and points within two miles thereof (including the plant of McLouth Steel Company) as off-route points in connection with the carrier's regular route operations between Detroit, Mich., and Toledo, Ohio, (1) over U. S. Highway 24, and (2) over U. S. Highway 25, which is a portion of carrier's regular route operations between Detroit, Mich., and Cincinnati, Ohio. Applicant is authorized to conduct operations in Illinois, Indiana, Ohio and Michigan.

No. MC 47619 Sub 10, filed February 24, 1955, IOWA-NEBRASKA TRANSPORTATION CO., INC., Avoca, Iowa. Applicant's representative: R. A. Koga, General Traffic Manager, Iowa Nebraska Transportation Co., Inc., 1539 W. 32nd Place, Chicago 8, Ill. For authority to operate as a *common carrier*, over regular routes, transporting: (1) *general commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (A) between Denison, Iowa, and junction U. S. Highways 34 and 59, over U. S. Highway 59 from Denison to Harlan, Iowa, thence over presently authorized route (U. S. Highway 59 or as set forth in outstanding Certificate No. MC 47619, Iowa Highway 64) to Avoca, Iowa, thence over U. S. Highway 59 to junction U. S. Highway 34, and return over the same route, serving the intermediate points (1) of Defiance, Harlan, Avoca, and Hancock, Iowa, and (2) those located on that portion of U. S. Highway 59 extending between Harlan and Avoca, Iowa, and the offroute point: of Irwin, Iowa, (B) between junction Iowa Highways 64 and 191, and junction U. S. Highways 30 and 71. Over Iowa Highway 191 from junction Iowa Highway 64 to junction Iowa Highway 37, thence over Iowa Highway 37 to junction U. S. Highway 59, thence over route described under (1) (A) above (U. S. Highway 59) to junction Iowa Highway 141, thence over Iowa Highway 141 to junction U. S. Highway 71, thence over U. S. Highway 71 to junction U. S. Highway 30, and return over the same route, serving the intermediate points of Persia, Portsmouth, Panama, Earling, Defiance, and Manning, Iowa, and the off-route points of Irwin, Manilla, Botna, and Halbur, Iowa, (C) between junction U. S. Highways 30 and 71, and junction U. S. Highways 34 and 71, over routes described under (1) (B) above (U. S. Highway 71) from junction U. S. Highways 30 and 71 to junction Iowa Highway 141, thence over U. S. Highway 71 to junction U. S. Highway 34, and return over the same route, serving the intermediate points of Audubon, Hamlin, Exira, and Brayton, Iowa, and the off-route point of Halbur, Iowa, (D) between Harlan, Iowa, and junction Iowa Highways 64 and 191, over Iowa Highway 39 from Harlan to junction Iowa Highway 191, thence over route described under (1) (B) above (Iowa Highway 191) to junction Iowa Highway 64, and return over the same route, serving the intermediate points of Portsmouth, and Persia, Iowa, (E) between Harlan, Iowa, and junction U. S. Highway 30 and Iowa Highway 39, over route described under (1) (D) above (Iowa Highway 39) from Harlan to Portsmouth, Iowa, thence over Iowa Highway 39 to junction U. S. Highway 30, and return over the same route, serving the intermediate point of Portsmouth, Iowa, (F) between Denison, Iowa and Deloit, Iowa, over Iowa Highway 4, serving no intermediate points, (G) between Des Moines, Iowa, and junction U. S. Highway 30 and Iowa Highway 144, over Iowa Highway 141 from Des Moines to Perry, Iowa, thence over Iowa Highway 144 to junction U. S. Highway 30, and return over the same route, serving no intermediate points, (H) between Des Moines, Iowa, and junction U. S. Highway 30 and Iowa Highway 60, over Iowa Highway 60, serving no intermediate points, (I) between Des Moines, Iowa, and junction U. S. Highway 30 and Iowa Highway 25, over route described under (1) (G) above (Iowa Highway 141) from Des Moines to Perry, Iowa, thence over Iowa Highway 141 to junction Iowa Highway 25, thence over Iowa Highway 25 to junction U. S. Highway 30, and return over the same route, serving no intermediate points, (J) between Ames, Iowa, and Osceola, Iowa, over U. S. Highway 69, serving no intermediate points, (K) between Belle Plaine, Iowa, and junction U. S. Highway 30 and Iowa Highway 131, over Iowa Highway 131, serving no intermediate points, (L) between Belle Plaine, Iowa, and junction U. S. Highway 30 and Iowa Highway 212, over Iowa Highway 212, serving no intermediate points, (M) between junction U. S. Highway 30 and Iowa Highway 63, and junction U. S. Highway 6 and Iowa Highway 63, over Iowa Highway 63, serving the intermediate point of Tama, Iowa, (N) between Albia, Iowa, and Des Moines, Iowa, over Iowa Highway 60 from Albia to junction Iowa Highway 92, thence over Iowa Highway 92 to junction Iowa Highway 60, thence over Iowa Highway 60 to Des Moines, Iowa, and return over the same route, serving no intermediate points, and (O) between Guthrie Center, Iowa, and junction U. S. Highway 6 and Iowa Highway 25, over Iowa Highway 25, serving no intermediate points, and (2) *packing house products* and *fresh meat*, serving Shelby, Iowa, as an off-route point in connection with regular route operations between Chicago, Ill., and Omaha, Nebr., over U. S. Highways 6, 30, Alternate 30, 34, 73, 75, 218, and 275, Illinois Highways 82, and 92, and Iowa Highways 64, 83, and 141. Applicant is authorized to conduct regular route operations in Illinois, Indiana, Iowa, and Nebraska, and irregular route operations in Illinois, Indiana, Iowa, Kansas, Massachusetts, Missouri, Nebraska, New Jersey, New York, Pennsylvania, and South Dakota.

No. MC 52713 Sub 5, filed March 30, 1955, MAXINE HUTCHENS AND B. F. BABB, doing business as CASSVILLE TRUCK LINE, Cassville, Mo. Applicant's attorney: D. D. McDonald, Room 1, Ott Bldg., Jefferson City, Md. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Joplin, Mo., and Powell, Mo., from Joplin over U. S. Highway 166 to junction Alternate U. S. Highway 71, thence over Alternate U. S. Highway 71 to junction U. S. Highway 60, thence over U. S. Highway 60 to Granby, Mo., thence over County Highway "H" to junction Missouri Highway 44, thence over Missouri Highway 44 to junction County Highway "E", thence over County Highway "E" to Powell, and return over the same route, serving the intermediate point of Longview, Mo. Applicant is authorized to conduct operations in Missouri.

No. MC 52986 Sub 8, filed April 1, 1955, NORTHWEST FREIGHT LINES, INC., 4300 State Avenue, Billings, Mont. Applicant's attorney: Alan Foss, First National Bank Bldg., Fargo, N. Dak. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *commodities in bulk*, but excluding articles of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities requiring

special equipment, between Missoula, Mont., and Spokane, Wash., over U. S. Highway 10, serving all intermediate points and the off-route point of the Ohio Match Company factory near Superior, Mont. Applicant is authorized to conduct operations in Indiana, Minnesota, Montana, and North Dakota.

No. MC 55905 Sub 74, filed March 14, 1955, WEST COAST FAST FREIGHT, INC., 299 Adeline St., Oakland, Calif. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *those requiring special equipment*, but excluding commodities of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities in bulk, (1) between Portland, Oreg., and Hubbard, Oreg., From Portland over U. S. Highway 99W to junction Oregon Highway 57, thence over Oregon Highway 57 to junction Oregon Highway 51, thence over Oregon Highway 51 to junction U. S. Highway 99E, thence over U. S. Highway 99E to Hubbard, (2) between junction North Junction, Salem, Oreg. By-Pass and U. S. Highway 99E and junction South Junction, Salem, Oreg. By-Pass and U. S. Highway 99E, over Salem By-Pass, (3) between Anlauf, Oreg., and Rice Hill, Oreg., via Drain, Oreg., over Oregon Highway 45, and (4) between Oakland, Oreg., and Shady Point, Oreg., over Oregon Highway 234, and return over the above-routes, serving all intermediate points.

NOTE: Applicant states that Route (1) above is the new short cut expressway between Portland and Hubbard, and that it extends through an area heretofore but slightly developed; (2) is a new by-pass of Salem so as to avoid Salem Traffic and that when vehicles are not serving Salem, they will use this route; (3) is to enable the applicant to continue to serve Drain, Oreg., and other points which are no longer on U. S. Highway 99E, due to relocation of that highway; and (4) is to enable applicant to continue to serve points on Old U. S. Highway 99E (now Oregon Highway 234) between Oakland and Shady Point, Oreg., due to relocation of said U. S. Highway 99E. Applicant is authorized to conduct operations in California, Idaho, Montana, Oregon, and Washington.

No. MC 61396 Sub 50, filed March 31, 1955, and amended April 4, 1955, HERMAN BROS., INC., 1207 Chicago Street, Post Office Box 1237, Omaha 2, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid fertilizers*, in bulk, in tank vehicles, from Onawa, Iowa, to points in Nebraska.

No. MC 61396 Sub 52, filed April 13, 1955, HERMAN BROS., INC., 1207 Chicago St., P. O. Box 1237, Omaha 2, Nebr. Applicant's attorney: Frank E. Rambo, 127 N. 34th St., Omaha 3, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid fertilizers*, and *dry fertilizers*, in bulk, in tank trucks or trailers, from points (manufacturing and shipping) in Nebraska, to points in Iowa, Kansas, and Missouri. Applicant does not hold any authority to transport the commodities specified in this application.

No. MC 67818 Sub 52, filed April 8, 1955, MICHIGAN EXPRESS, INC., 505 Monroe Avenue, N. W., Grand Rapids 2, Mich. Applicant's attorney: Jack Goodman, 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Vending machines*, including but not limited to coin and electrically operated, *food and beverage machines*, including but not limited to mixing, compounding, freezing or cooling and combinations thereof, *dispensers*, including but not limited to soda fountains, juices, syrups or soft drinks, and *cabinets, parts and accessories used in connection with said machines and dispensers*, from Traverse City, Mich., to points in the United States and the District of Columbia, and *refused and damaged shipments* on return. Applicant is authorized to conduct operations in Ohio and Michigan.

No. MC 73464 Sub 80, filed April 4, 1955, JACK COLE COMPANY, INC., 1900 Vanderbilt Rd., P. O. Drawer 274, Birmingham, Ala. Applicant's attorney: Reuben G. Crimm, 805 Peachtree Street Building, Atlanta 5, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Anniston Ordnance Depot near Anniston, Ala., on the one hand, and, on the other, points in the Philadelphia, Pa., Commercial Zone as defined by the Commission, those in the New York, N. Y., Commercial Zone as defined by the Commission, points in Ohio and Indiana, those in that part of Illinois on, east and south of a line beginning at Cairo, Ill., and extending along U. S. Highway 51 to LaSalle, Ill., thence along U. S. Highway 6 to Joliet, Ill., thence along Alternate U. S. Highway 66 to junction U. S. Highway 66, thence along U. S. Highway 66 to Chicago, Ill., and Edwardsville, Kewanee, and Litchfield, Ill., and Detroit, Mich., together with Motion to Dismiss application following hearing thereon on the ground that authority to serve Anniston, Ala., includes authority to serve Anniston Ordnance Depot, near Anniston, Ala. Applicant is authorized to conduct operations in Alabama, Connecticut, Delaware, Georgia, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia.

No. MC 76032 Sub 92, filed April 4, 1955, NAVAJO FREIGHT LINES, INC., P. O. Box 5364, 381 So. Broadway, Denver 9, Colo. Applicant's attorney: O. Russell Jones, 54½ E. San Francisco St., Southwest Corner Plaza, Santa Fe, N. Mex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *Class A and B explosives*, but excluding those of unusual value, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment (not including those requiring refrigeration), and those injurious or contaminating to other lading, between Gallup, N. Mex., and Shiprock, N. Mex., over U. S. Highway 666, serving all intermediate points, and between Gamerco, N. Mex., and Tuba City, Ariz., over above-specified route (U. S. Highway 666) from Gamerco to junction U. S. Highway 66 at Gallup, N. Mex., thence over presently authorized route (U. S. Highway 66) to junction U. S. Highway 89, thence over U. S. Highway 89 to junction unnumbered highway approximately seven (7) miles north of Cameron, Ariz., thence over said unnumbered highway to Tuba City, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Arizona, California, Colorado, Illinois, Indiana, Iowa, Kansas, Missouri, Nebraska, Nevada, New Mexico, and Texas.

No. MC 78786 Sub 205, filed March 2, 1955, (AMENDED) published on page 2636, issue of April 20, 1955, PACIFIC MOTOR TRUCKING COMPANY, 65 Market St., San Francisco 5, Calif. Applicant's attorney: Starr Thomas, General Attorney, 80 East Jackson Blvd., Chicago 4, Ill. For authority to operate as a *common carrier*, over regular and irregular routes, to continue operations to be acquired from Pacific Freight Lines in Dock No. MC–F 5783 which are to be retained by applicant upon conveyance of a portion of the operating rights proposed to be acquired to Santa Fe Transportation Company in Docket No. MC–F 5932, as follows: Operating authority to be retained by Pacific Motor Trucking Company:

(1) Operating authority described on sheets one and two of Certificate of Public Convenience and Necessity issued October 5, 1942, in Docket No. MC 43762, as follows: REGULAR ROUTE: *General commodities*,[1] except those of unusual value, and except liquids in bulk, in tank trucks, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M. C. C. 467, and commodities requiring special equipment, Between Los Angeles, Calif., and San Luis Obispo, Calif.: From Los Angeles over U. S. Highway 101 to San Luis Obispo; Between Los Angeles, Calif., and Ventura, Calif., as follows: From Los Angeles over U. S. Highway 66 to Santa Monica, Calif., thence over Alternate U. S. Highway 101 to junction U. S. Highway 101, and thence over U. S. Highway 101 to Ventura; From Los Angeles over U. S. Highway 99 to junction California Highway 118, thence over California Highway 118 to junction U. S. Highway 101, and thence over U. S. Highway 101 to Ventura; From Los Angeles over U. S. Highway 99 to junction California Highway 126, and thence over California Highway 126 to Ventura; Return over the above-specified routes to points of origin. Service is authorized to and from all intermediate points on the above-specified routes and to and from the off-route points within ten miles of the above-described routes.

(2) Operating authority described on sheet two of Certificate of Public Convenience and Necessity issued October 5, 1942, in Docket No. MC 43762, modified as follows: REGULAR ROUTE: Between Los Angeles, Calif., and Calexico, Calif., as follows: From Los Angeles over U. S. Highway 99 via Colton and West Covina, Calif., to Calexico; From Los Angeles over U. S. Highway 66 to San Bernardino, Calif., thence over U. S. Highway 395 to Colton, and thence to Calexico as specified above; From Los Angeles over California Highway 19 to junction California Highway 10, thence over California Highway 10 to junction California Highway 35, thence over California Highway 35 to West Covina, and thence to Calexico as specified above; From Los Angeles over California Highway 22 to junction California Highway 35, thence over California Highway 35 to junction California Highway 18, thence over California Highway 18 to Riverside, Calif., thence over U. S. Highway 395 to Colton, and thence to Calexico as specified above, and return over the above-specified routes to points of origin. Service is authorized to and from all intermediate points on the above-specified routes and to and from the off-route points within five miles of the above-described routes, excepting that no service is authorized to or from Bandini, Montebello, Gypsum, Olive, Butler, Cucamonga, Rochester, East Highlands, Molino, West Highlands, Del Rosa, Ono, Sante Fe Springs, Stephens, East Whittier, La Mirada, Placentia, Atwood, May, Weisel, Chapman, Prado Dam or Lemona, or to or from any points on U. S. Highway 60 intermediate to Ontario and Riverside.

(3) Operating authority described on sheet 3 of Certificate of Public Convenience and Necessity issued October 5, 1942, in Docket No. MC 43762, modified as follows: REGULAR ROUTE: Between Los Angeles, Calif., and Fresno, Calif.: From Los Angeles over U. S. Highway 99 through San Fernando, Calif., to Fresno, Calif., and return over the above-specified routes to Los Angeles; Between points in California, as follows: From Famosa over California Highway 65 to junction California Highway 198, thence over California Highway 198 to junction U. S. Highway 99, and thence over U. S. Highway 99 to Fresno; From Delano over unnumbered highway to junction California Highway 65 near Richgrove; From Earlimart over unnumbered highway to Ducor; From Lindsay over unnumbered highway to Tulare, and return over the above-specified routes to points of origin. Service is authorized to and from all intermediate points on the above-specified routes and to and from the off-route points within five miles of the above-specified routes, excepting that no service is authorized to or from Oleander, Ultra, Mopeco, Jastro, Rosedale, Crome, Una, Shafter, Magnolia, Sunland, Lumer, Lone Star, Mattei, Cecille, Bowles, Swall, Loma, Paige, Mosian, Strathmore Jct., Mirador, Gillette, Sierra Heights, Lucca, Antes, Venida, Fane or Higby. From Famosa over U. S. Highway 466 to junction California Highway 33, and thence over California Highway 33 to Coalinga; From San Fernando over U. S. Highway 6 to junction unnumbered highway, thence over unnumbered highway via Newhall and Saugus to junction U. S. Highway 99, thence over U. S. Highway 99 to junction unnumbered highway (near Castaic), thence over unnumbered highway via Castaic and Sandberg to junction California Highway 138, thence over California Highway 138 to Gorman, Thence over U. S. Highway 99 to junction California Highway 166, thence over California Highway 166 to Maricopa, thence over U. S. Highway 399 to Taft, and thence over California Highway 33 to Blackwells Corner; From Taft over U. S. Highway 399 to junction U. S. Highway 99; From Bakersfield over California Highway 178 (also from junction California Highway 179 and unnumbered highway (near Lokern) over unnumbered highway to junction California Highway 33, thence over California Highway 33 to junction unnumbered highway, thence over unnumbered highway to Lost Hills, thence over U. S. Highway 466 to junction California Highway 33, thence over California Highway 33 to junction unnumbered highway (near Devils Den), and thence over unnumbered highway via Kettleman City, to Avenal; From Lerdo over unnumbered highway via Shafter to Wasco; From junction California Highways 33 and 41 over California Highway 41 to junction unnumbered highway (near Kettleman City), thence over unnumbered highway via Milham City and Murray to Coalinga; and return over the above-specified routes to points of origin. Service is authorized to and from all intermediate points and to and from the off-route points within ten miles of the above-described routes, excepting no service is authorized to or from Shafter, Ivy, Palmo, Wasco, Neufeld, Elmo, Pond, Mopeco, Jastro, Rosedale, Una, or Crome.

(4) Operating authority described on sheet 4 of Certificate of Public Convenience and Necessity issued October 5, 1942, in Docket No. MC 43762, modified as follows: REGULAR ROUTE: Between Los Angeles, Calif., and San Bernardino, Calif.; From Los Angeles over U. S. Highway 60 via Pomona, Calif., to Riverside, Calif., thence over U. S. Highway 395 to San Bernardino. Between junction U. S. Highway 66 and Euclid and Turner Avenues and junction of U. S. Highway 99 and Euclid and Turner Avenues; From junction of U. S. Highway 66 and Euclid Avenue over Euclid Avenue to junction of U. S. Highway 99 (near Ontario, Calif.); From junction of U. S. Highway 66 and Turner Avenue over Turner Avenue to U. S. Highway 99 (near Guasti, Calif.). Between San Bernardino, Calif., and Redlands, Calif.; From San Bernardino over U. S. Highway 395 to Colton, thence over U. S. Highway 99 to Redlands, and return over the above-specified routes to points of origin. Service is authorized to and from all intermediate points and to and from the off-route points within ten miles of the above-described routes, excepting that no service is authorized to or from Bandini, Montebello, Devore, Santa Fe Springs, Chapman, Verdemont, Butler, Cucamonga, Rochester, East Highlands, Moline, West Highlands, Del Rosa, Ono, Lemona, Box Springs, March Field, Alessandro or May, or to or from any points on U. S. Highway 60 intermediate to Ontario and Riverside.

(5) Operating authority described on Sheet 4 of Certificate of Public Convenience and Necessity issued October 5, 1942, in Docket No. MC 43762, modified as follows: REGULAR ROUTE: Between Los Angeles, Calif., and Altadena, Calif.: From Los Angeles over city streets via Highland Park, South Pasadena and Pasadena, Calif., to Altadena., and return over the above-specified route to point of origin. Service is authorized to and from all intermediate points on the above-specified route and to and from the off-route points within three miles of the above-described route.

(6) Operating authority described on Sheets 4 and 5 of Certificate of Public Convenience and Necessity issued October 5, 1942, in Docket No. MC 43762, as follows: REGULAR ROUTE: Between Los Angeles, Calif., and Laguna Beach, Calif.; From Los Angeles over California Highway 10 to junction California Highway 35, thence over California Highway 35 to junction California Highway 22, thence over California Highway 22 to junction California Highway 39, thence over California Highway 39 to junction Alternate U. S. Highway 101, and thence over Alternate U. S. Highway 101 to Laguna Beach. Between Newport Beach, Calif., and Costa Mesa, Calif.: From Newport Beach over unnumbered highway to junction California Highway 55, thence over California Highway 55 to Costa Mesa. Between junction U. S. Highway 101 and unnumbered highway approximately two miles south of Gamewell, Calif., and Balboa, Calif.: From junction U. S. Highway 101 and unnumbered highway over unnumbered highway via Newport Beach, Calif., to Balboa, and return over the above-specified routes to points of origin. Service is authorized to and from all intermediate points, on the above-specified routes. IRREGULAR ROUTES: Between points and places in the Los Angeles Commercial Zone and the Los Angeles Harbor Commercial Zone, as defined by the Commission in Los Angeles, Calif., Commercial Zone, 3 M. C. C. 248.

(7) Operating rights described on Sheets 1 and 2 of Certificate of Public Convenience and Necessity issued June 1, 1942, in Docket No. MC 43762 Sub 3, modified as follows: REGULAR ROUTES: Between Los Angeles and El Centro, Calif., Phoenix and Tucson, Ariz., as follows: *General commodities*, except bulk liquids, livestock, dangerous explosives, and except household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M. C. C. 467, and commodities requiring special equipment, From Los Angeles over U. S. Highway 60 to Indio, Calif. (also from Los Angeles over U. S. Highway 99 to Indio), thence over U. S. Highway 60 to Mesa, Ariz., thence over Arizona Highway 87 via Olberg, Ariz., to Picacho, Ariz. (also from Olberg over Arizona Highway 84 to Picacho), and thence over Arizona Highway 84 to Tucson; From Los Angeles to Indio as specified above, thence over U. S. Highway 99 to El Centro, Calif., thence over U. S. Highway 80 via Gila Bend, Ariz., to Phoenix; From Los Angeles to Gila Bend as specified above,

[1] This commodity description also applies to operating rights described in Paragraphs 2 to 6, inclusive.

thence over Arizona Highway 84 to Casa Grande; and return over these routes to Los Angeles. Service is authorized to and from all intermediate points in Arizona, except Salome, Wenden, Love, Golden, Aguila, Forepaugh, Divide, Matthie, Wickenberg, Allah, Castle Hot Springs, Wittman, Beardsley, Lizard, Ennis, Marinette, Peoria, Glendale, and the off-route point of Litchfield Park, Ariz., unrestricted; all intermediate points in California except the points of Lemona, Box Springs, Blyth, Placentia and Santa Fe Springs, and points on U. S. Highway 60 intermediate to Ontario and Riverside, restricted to traffic moving to or from points in Arizona; and the off-route points of Corona, Downey, Huntington Beach, La Verne, Los Alamitos, Monrovia, San Bernardino, Calif.; and points and places in the LOS ANGELES COMMERCIAL ZONE and the LOS ANGELES HARBOR COMMERCIAL ZONE, as defined in LOS ANGELES, CALIF., COMMERCIAL ZONE, 3 M. C. C. 248, restricted to traffic moving to or from points in Arizona. From Los Angeles over U. S. Highway 101 to Doheny Park, Calif. (also from Los Angeles over Alternate U. S. Highway 101 to Doheny Park), thence over U. S. Highway 101 to San Diego, Calif., and thence over U. S. Highway 80 to El Centro, Calif., and return over the same route. Service is authorized at the intermediate point of San Diego, Calif., restricted on eastbound movements, to pick-up of shipments moving to points east of Yuma, Ariz., and on westbound movements, restricted to delivery of shipments moving from points east of Yuma, Ariz. Between San Diego, Calif., and Phoenix, Ariz.: *Salt*, From San Diego over U. S. Highway 80 to Phoenix; and *Empty salt containers, fresh meat*, and *packing-house products*, From Phoenix over the above-specified route to San Diego. Service is not authorized to or from intermediate points. Service is authorized to the off-route point of Tovrea, Ariz., restricted to delivery only. REGULAR AND IRREGULAR ROUTES: *Feeds*, From Phoenix, Ariz., to points and places in San Diego County, Calif., as follows: From Phoenix over U. S. Highway 80 to the San Diego County line, and thence over irregular routes to points and places in San Diego County; and return over irregular routes to the San Diego County line, and thence over the above-specified regular route to Phoenix. Service is not authorized to or from intermediate points on the above-specified regular route except as otherwise authorized or to or from the following points in irregular route territory: San Onofre, Don, Las Flores, Stuart, Oceanside, Carlsbad, Hedionda, Farr, Ponto, Encinitas, Cardiff, Solana Beach, Del Mar, Sorrento, Linda Vista, Pacific Beach, Ranch House, Jofegan, De Luz, Fallbrook, Talica, Falda, Vista, Guena, San Marcos or Escondido.

(8) Operating rights described on Sheet 3 of Certificate of Public Convenience and Necessity issued June 1, 1942, in Docket No. MC 43762 Sub 3, modified as follows: IRREGULAR ROUTES: *Groceries, fresh citrus fruits, canned and dried fruits* and *vegetables*, and *paper and paper products*, except fruit wrappers, Between Fresno, Calif., and points and places within 75 miles of Fresno, on the one hand, and, on the other, San Pedro, Wilmington, and Terminal Island (Los Angeles Harbor points). *Milk* and *milk products*, in truckloads of not less than 25,000 pounds. From Fresno, Calif., and points and places within 75 miles of Fresno, to San Pedro, Wilmington, and Terminal Island (Los Angeles Harbor points), with no transportation for compensation on return except as otherwise authorized.
